HER MAJESTY'S GOVERNMENT

MEMBERS OF THE CABINET

(FORMED BY THE RT. HON. TONY BLAIR, MP, JUNE 2001)

PRIME MINISTER, FIRST LORD OF THE TREASURY AND MINISTER FOR THE CIVIL SERVICE—The Rt. Hon. Tony Blair, MP
DEPUTY PRIME MINISTER AND FIRST SECRETARY OF STATE—The Rt. Hon. John Prescott, MP
CHANCELLOR OF THE EXCHEQUER—The Rt. Hon. Gordon Brown, MP
SECRETARY OF STATE FOR FOREIGN AND COMMONWEALTH AFFAIRS—The Rt. Hon. Jack Straw, MP
SECRETARY OF STATE FOR ENVIRONMENT, FOOD AND RURAL AFFAIRS—The Rt. Hon. Margaret Beckett, MP
SECRETARY OF STATE FOR TRANSPORT AND SECRETARY OF STATE FOR SCOTLAND—The Rt. Hon. Alistair Darling, MP
SECRETARY OF STATE FOR HEALTH— The Rt. Hon. Dr. John Reid, MP
CHANCELLOR OF THE DUCHY OF LANCASTER— The Rt. Hon. Alan Milburn, MP
SECRETARY OF STATE FOR NORTHERN IRELAND—The Rt. Hon. Paul Murphy, MP
SECRETARY OF STATE FOR DEFENCE—The Rt. Hon. Geoffrey Hoon, MP
SECRETARY OF STATE FOR TRADE AND INDUSTRY—The Rt. Hon. Patricia Hewitt, MP
SECRETARY OF STATE FOR CULTURE, MEDIA AND SPORT—The Rt. Hon. Tessa Jowell, MP
PARLIAMENTARY SECRETARY TO THE TREASURY—The Rt. Hon. Hilary Armstrong, MP
SECRETARY OF STATE FOR THE HOME DEPARTMENT—The Rt. Hon. Charles Clarke, MP
CHIEF SECRETARY TO THE TREASURY—The Rt. Hon. Paul Boateng, MP
LEADER OF THE HOUSE OF COMMONS, SECRETARY OF STATE FOR WALES AND LORD PRIVY SEAL—The Rt. Hon. Peter Hain, MP
MINISTER WITHOUT PORTFOLIO—The Rt. Hon. Ian McCartney, MP
LEADER OF THE HOUSE OF LORDS AND PRESIDENT OF THE COUNCIL—The Rt. Hon. The Baroness Amos
SECRETARY OF STATE FOR CONSTITUTIONAL AFFAIRS AND LORD CHANCELLOR (FOR THE TRANSITIONAL PERIOD) —The Rt. Hon. The Lord Falconer of Thoroton, QC
SECRETARY OF STATE FOR INTERNATIONAL DEVELOPMENT—The Rt. Hon. Hilary Benn, MP
SECRETARY OF STATE FOR WORK AND PENSIONS—The Rt. Hon. Alan Johnson, MP
SECRETARY OF STATE FOR EDUCATION AND SKILLS—The Rt. Hon. Ruth Kelly, MP

DEPARTMENTS OF STATE AND MINISTERS

Office of the Deputy Prime Minister—
DEPUTY PRIME MINISTER AND FIRST SECRETARY OF STATE—The Rt. Hon. John Prescott, MP
MINISTERS OF STATE—
Minister for Local and Regional Government—The Rt. Hon. Nick Raynsford, MP
Minister for Regeneration and the Regions—The Rt. Hon. The Lord Rooker
Minister for Housing and Planning— The Rt. Hon. Keith Hill, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Yvette Cooper, MP
Phil Hope, Esq, MP

Cabinet Office—
CHANCELLOR OF THE DUCHY OF LANCASTER—The Rt. Hon. Alan Milburn, MP
MINISTER WITHOUT PORTFOLIO—The Rt. Hon. Ian McCartney, MP
MINISTER FOR THE CABINET OFFICE —David Miliband, Esq, MP

Constitutional Affairs—
SECRETARY OF STATE FOR CONSTITUTIONAL AFFAIRS—The Rt. Hon. The Lord Falconer of Thoroton, QC
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Christopher Leslie, Esq, MP
David Lammy, Esq, MP
The Baroness Ashton of Upholland
Anne McGuire, MP (Parliamentary Under-Secretary of State for Scotland)
Don Touhig, Esq, MP (Parliamentary Under-Secretary of State for Wales)

Culture, Media and Sport—
SECRETARY OF STATE FOR CULTURE, MEDIA AND SPORT—The Rt. Hon. Tessa Jowell, MP
MINISTERS OF STATE—
Minister for Sport and Tourism—The Rt. Hon. Richard Caborn, MP

PARLIAMENTARY UNDER-SECRETARY OF STATE—
The Rt. Hon. The Lord McIntosh of Haringey (Minister for Media and Heritage)

Defence—
SECRETARY OF STATE—The Rt. Hon. Geoffrey Hoon, MP
MINISTER OF STATE—
The Rt. Hon. Adam Ingram, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Lord Bach (Minister for Defence Procurement)
Ivor Caplin, Esq, MP

Education and Skills—
SECRETARY OF STATE—The Rt. Hon. Ruth Kelly, MP
MINISTERS OF STATE—
Minister for School Standards—Stephen Twigg, Esq, MP
Minister for Children, Young People and Families—The Rt. Hon. Margaret Hodge, MP
Minister for Lifelong Learning, Further and Higher Education—Dr. Kim Howells, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Lord Filkin, CBE
Ivan Lewis, Esq, MP
Derek Twigg, Esq, MP

Environment, Food and Rural Affairs—
SECRETARY OF STATE—The Rt. Hon. Margaret Beckett, MP
MINISTERS OF STATE—
Minister for Rural Affairs and Local Environmental Quality—The Rt. Hon. Alun Michael, MP
Minister for the Environment and Agri-environment— Elliot Morley, Esq, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Lord Whitty
Ben Bradshaw, Esq, MP

Foreign and Commonwealth Affairs—
SECRETARY OF STATE—The Rt. Hon. Jack Straw, MP
MINISTERS OF STATE—
Minister for the Middle East—The Rt. Hon. The Baroness Symons of Vernham Dean
Minister for Europe— Denis MacShane, Esq, MP
Minister for Trade and Investment— Douglas Alexander, Esq, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Bill Rammell, Esq, MP
Chris Mullin, Esq, MP

Health—
SECRETARY OF STATE—The Rt. Hon. Dr. John Reid, MP
MINISTERS OF STATE—
The Rt. Hon. John Hutton, MP
Rosie Winterton, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Miss Melanie Johnson, MP (Minister for Public Health)
Dr. Stephen Ladyman, MP
The Lord Warner

Home Office—
SECRETARY OF STATE—The Rt. Hon. Charles Clarke, MP
MINISTERS OF STATE—
Minister for Crime Reduction, Policing and Community Safety— Ms Hazel Blears, MP
Minister for Criminal Justice System and Law Reform—The Rt. Hon. Baroness Scotland of Asthal, QC
Minister for Citizenship and Immigration— Desmond Browne, Esq, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Paul Goggins, Esq, MP
Caroline Flint, MP
Fiona Mactaggart, MP

International Development—
SECRETARY OF STATE—The Rt. Hon. Hilary Benn, MP
PARLIAMENTARY UNDER-SECRETARY OF STATE—Gareth Thomas, Esq, MP

Law Officers' Department—
ATTORNEY-GENERAL—The Rt. Hon. Lord Goldsmith, QC
SOLICITOR-GENERAL—The Rt. Hon. Harriet Harman, QC, MP
ADVOCATE-GENERAL FOR SCOTLAND—Dr. Lynda Clark, QC, MP

Leader of the House of Commons—
LEADER OF THE HOUSE OF COMMONS—The Rt. Hon. Peter Hain, MP
DEPUTY LEADER OF THE HOUSE OF COMMONS—Phil Woolas, Esq, MP

Northern Ireland Office—
SECRETARY OF STATE—The Rt. Hon. Paul Murphy, MP
MINISTER OF STATE—
The Rt. Hon. John Spellar, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Ian Pearson, Esq, MP
Angela Smith, MP
Barry Gardiner, Esq, MP

Paymaster General's Office—
PAYMASTER GENERAL—The Rt. Hon. Dawn Primarolo, MP

Privy Council Office—
LORD PRESIDENT OF THE COUNCIL AND LEADER OF THE HOUSE OF LORDS— The Rt. Hon. The Baroness Amos

Trade and Industry—
SECRETARY OF STATE AND MINISTER FOR WOMEN AND EQUALITY—The Rt. Hon. Patricia Hewitt, MP

SECRETARY OF THE BOARD OF MANAGEMENT—Robert Twigger

SPEAKER'S SECRETARY—Peter F. Barratt (Acting)

SPEAKER'S COUNSEL—John Vaux

SPEAKER'S CHAPLAIN—Rev. Canon Robert Wright

MEDICAL ADVISER TO THE SPEAKER—Dr. Ron Zeegen, OBE, FRCP, MRCS, DObst, RCOG

PARLIAMENTARY COMMISSIONER FOR STANDARDS—Sir Philip Mawer

PARLIAMENTARY SECURITY CO-ORDINATOR—Peter Mason

21 February 2005

Written Ministerial Statements

Monday 21 February 2005

FOREIGN AND COMMONWEALTH AFFAIRS

Countries at Risk of Instability

The Secretary of State for Foreign and Commonwealth Affairs (Mr. Jack Straw): The Prime Minister's Strategy Unit published on 17 February a report entitled "Investing in Prevention: An International Strategy to Manage Risks of Instability and Improve Crisis Response". I will place copies of this report to Government in the Library of the House today. It follows the publication by the Strategy Unit in November 2003 of its Strategic Audit, which recommended increased strategic focus on instability and conflict prevention. The report contains the Strategy Unit's analysis of the main risk factors associated with conflict and instability and a series of recommendations by the Strategy Unit for how to address these. Preventing conflict and building stability are fundamental to the Government's foreign policy. This report by the Strategy Unit provides further material on which to draw in support of this agenda and Departments will be looking carefully at its recommendations.

TRANSPORT

Air Transport Judicial Reviews

The Secretary of State for Transport (Mr. Alistair Darling): On Friday 18 February, the High Court endorsed the key policies of the Air Transport White Paper, published in December 2003 (Command paper 6046). This judgment means that the Government's support for two new runways in the south-east of England in the period up to 2030 has been upheld.

I have arranged for copies of the judgment (case reference CO/1314/2004 and CO/1339/2004) to be available in the Library of the House.

Following the judgment, the Government will continue to support a new runway at Stansted as the first new runway in the south-east. It is for the airport operator to bring forward detailed proposals. These will be taken through the planning system in the normal way.

The Judge agreed that the decision making process which led to the adoption of the policies in the White Paper was lawful subject to two minor qualifications. These were that the Government were too prescriptive with regard to the exact positioning and capacity of the runways at Stansted and Luton—this should be a matter for a planning inquiry. At Luton the airport operator's option will need full consultation before being taken forward.

These are very important matters for local people and they will be able to express their views at a future planning inquiry, but the Government strongly agree with the Judge's comments that these are minor in relation to the national policies set out in the White Paper. The main thrust of the White Paper has been upheld and the Government will not therefore be appealing.

Together with the decision taken by the Judge on 21 January to dismiss the Judicial Review application in relation to the policy on Gatwick Airport, this judgment leaves the way open for the Government to pursue their White Paper programme.

This judgment allows the Government to pursue their objectives as set out in the White Paper and I confirm that we will do so as efficiently and effectively as possible.

WORK AND PENSIONS

Industrial Injuries and Prescribed Diseases

The Minister for Work (Jane Kennedy): The Social Security (Industrial Injuries) (Prescribed Diseases) Amendment Regulations 2005 were laid before Parliament on Friday 18 February 2005. The regulations implement, from 7 March 2005, the recommendations set out in the Industrial Injuries Advisory Council's reports "Osteoarthritis of the Hip" (Cm 5977) and "Conditions due to Biological Agents" (Cm 5997).

The recommendations made in these reports were that three diseases should be added to the list of prescribed diseases and the prescription for five existing diseases be amended.

The three additional diseases were:

Osteoarthritis of the hip in farmers. Osteoarthritis of the hip is a disabling condition common in the general population. However, robust evidence was found that the risk of osteoarthritis of the hip was consistently increased in farmers employed for 10 years or more.

Lyme disease for workers exposed to a source of borrelia. This disease has emerged relatively recently. Evidence indicates that there is a greater than doubled risk of contracting Lyme disease in certain groups of workers exposed to borrelia bacteria (the causative agent of Lyme disease).

Anaphylaxis in healthcare workers exposed to natural rubber latex products. Anaphylaxis is a life-threatening form of allergic reaction which can be triggered in individuals sensitised by a variety of allergens encountered inside and outside the work environment. However, the most common occupational cause of anaphylaxis in which sensitisation has occurred in the workplace is exposure to natural rubber latex products. There is clear evidence of increased risk of occupational sensitisation in healthcare workers.

Five existing diseases are to be amended:

Anthrax. Anthrax is generally contracted by exposure to infected herbivorous animals or their products, as reflected in the current prescription. There is potential for infection in other circumstances therefore the prescription has been widened to include work involving contact with anthrax spores.

Ankylostomiasis. This disease was originally prescribed in relation to mining. This disease is now rare in the developed world, but remains common in other parts of world. The potential exists for ankylostomiasis to be contracted abroad and introduced into the workforce. The prescription has been revised to refer to any work involving contact with sources of ankylostomiasis to reflect the modern day occupational risk.

Viral hepatitis. Recent evidence shows different types of viral hepatitis are contracted in different ways which affects the type of workers at risk. There was evidence of consistently increased risk for i) infection by hepatitis A for work involving contact with raw sewage, ii) infection by hepatitis B and C for work involving human blood or blood products or other sources of hepatitis B and C viruses.

Occupational asthma and allergic rhinitis. The use of natural rubber latex products is widespread. Many individuals encounter latex products during the course of their work and evidence indicates there is increased risk of developing hypersensitivity to the latex, which include rhinitis and asthma. Exposure to natural rubber latex products has been added to the list of prescribed causes of occupational asthma and allergic rhinitis.

Written Ministerial Statements

Tuesday 22 February 2005

CABINET OFFICE

Spring Supplementary Estimate

The Minister for the Cabinet Office (Mr. David Miliband): Subject to parliamentary approval of any necessary supplementary estimate, the Cabinet Office DEL will be decreased by £3,953,000 from £258,005,000 to £254,052,000.The gross administration costs limits will be decreased by £1,753,000 from £217,028,000 to £215,275,000 and the net administration cost limits decreased by £2,155,000 from £2,97 7,000 to £822,000.

Within the DEL change, the impact on resources and capital are as set out in the table:

£'000s

	Change	*Voted*	*New DEL Non-voted*	*Total*
Resource	-3,953	254,052	0	254,052
Capital	-2,000	29,000	0	29,000
Depreciation*	0	-50,147	0	-50,147
Total	-5,953	232,905	0	232,905

** Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.*

The change in the resource element of the DEL arises from a machinery of government transfer of £370,000 to the Office of the Deputy Prime Minister for the Internal Audit Service, transfer of £8,489,000 parliamentary counsel office funding to other Government Departments, draw down of end-year flexibility of £5,000,000 to cover anticipated cost pressures, transfer of £45,000 to the security and intelligence agencies (SIA) to cover resource cost of a modernisation project and the transfer of £49,000 from the countries at risk of instability (CRI) budget back to the Foreign and Commonwealth Office.

The change in the capital element of the DEL arises from the transfer of £2,000,000 capital to SIA towards a modernisation project.

TREASURY

Spring Supplementary Estimate (Inland Revenue)

The Paymaster General (Dawn Primarolo): Subject to parliamentary approval of any necessary supplementary estimate, the Inland Revenue departmental expenditure limit will be increased by £133,643,000 from £3,358,210,000 to £3,491,853,000 and the administration costs limit will be increased by £94,530,000 from £3,075,757,000 to £3,170,287,000. Within the DEL change, the impact on resources and capital are as set out in the table:

£'000s

	Change	*Voted*	*New DEL Non-voted*	*Total*
Resource	94,530	2,846,006	331,418	3,177,424
Capital	39,113	314,429	-	314,429
Depreciation*	-27,813	-180,408	-	-180,408
Total	105,830	2,980,027	331,418	3,311,445

** Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.*

The change in the resource element of the DEL arises from increases in gross administration costs, mainly, £61,544,000 met from the central reserve to enable the GOGGS East building to be brought onto the Department's balance sheet. A further increase of £29,000,000 and £3,400,000, which is also being met from the central reserve for continued work on child trust fund and for team bonus payments, respectively. The Treasury are to transfer £99,000, for the cost of capital in respect of the GOGGS East building. Cabinet Office will be transferring £1,790,000, due to the change in funding arrangements for the Parliamentary Counsel Office; and, Department for Work and Pensions are transferring £1,661,000, for child benefit work on the payment modernisation programme and the child benefit cheque payment service. These transfers are partially off set by a transfer of £2,964,000 to the Treasury to meet the costs of the transfer of tax policy work for the first half of the financial year.

The change in the capital element of the DEL arises from an increase of £97,477,000 from the central reserve to enable the GOGGS East building to be brought onto the Department's balance sheet. This increase is partially offset by an accounting adjustment of £58,364,000, in relation to the assets transferred to CapGemini the Department's new IT service provider.

Spring Supplementary Estimates (National Savings and Investments)

The Financial Secretary to the Treasury (Mr. Stephen Timms): Subject to Parliamentary approval of any necessary Supplementary Estimate, National Savings and Investments DEL will be *increased* by £5,500,000 from £172,026,000 to £177,526,000 and the administration costs limits will be *increased* by £5,500,000 from £172,026,000 to £177,526,000. Within DEL change, the impact on resources and capital are set out in the table:

	Change	*Voted*	*New DEL Non-voted*	*Total*
Resource	5,500	177,526		177,526
Capital		500		500
Depreciation*		-2,860		-2,860
Total	5,500	175,166		175,166

** Depreciation which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.*

The change in the resource element of the DEL arises from end year flexibility being drawn down to support expenditure on major project commitments. Such projects include the work being carried out for compliance with evidence of identity requirements, Internet development work and also for some of the

savings accounts implementation. There have also been some planned increases in the level of direct marketing expenditure that is being carried out to ensure that net financing targets are being met.

There is no change in the capital element of DEL.

Spring Supplementary Estimates (Office for National Statistics)

The Financial Secretary to the Treasury (Mr. Stephen Timms): Subject to parliamentary approval of any necessary supplementary estimate, the Office for National Statistics DEL will increase by £12,631,000 from £178,004,000 to £190,635,000. The Office for National Statistics winter supplementary incorrectly overstated the administration costs limit. This supplementary corrects the position. The administration costs limit will increase by £4,472,000 from £152,990,000 to £157,462,000. Within the DEL change, the impact on resources and capital are as set out in the table:

£'000s

	Change	*Voted*	*New DEL Non-voted*	*Total*
Resource	4,472	157,811	-	157,811
Capital	8,159	32,824	-	32,824
Depreciation *	-	-13,837	-	-13,837
Total	12,631	176,798	-	176,798

** Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.*

The change in the resource element of the DEL arises from the draw down of £4,679,000 administration costs end year flexibility as set out in the Public Expenditure Outturn White Paper (Cm 6293). This is partially offset by a transfer of £207,000 in total to other Government Departments in relation to work to develop the neighbourhood statistics programme. The transfers comprise £171,000 to the Home Office and £36,000 to HM Customs and Excise.

The change in the capital element of the DEL arises from the draw down of £8,229,000 capital end year flexibility as set out in the Public Expenditure Outturn White Paper (Cm 6293). This is partially offset by a transfer of £70,000 to HM Customs and Excise in relation to work to develop the neighbourhood statistics programme.

The administration costs limit will be increased by £4,472,000 from £152,990,000 to £157,462,000.

Spring Supplementary Estimates (HM Customs and Excise)

The Paymaster General (Dawn Primarolo): Subject to parliamentary approval of any necessary supplementary estimate, the HM Customs and Excise departmental expenditure limit will be increased by £135,698,000 from £1,407,608,000 to £1,543,306,000 and the administration costs limit will be increased by £34,018,000 from £1,218,491,000 to £1,252,509,000. Within the DEL change, the impact on resources and capital are as set out in the table:

	Change	*Voted*	*New DEL Non-voted*	*Total*
Resource	51,418	1,378,450	-	1,378,450
Capital	84,280	163,856	1,000	164,856
Depreciation*	-53,168	-97,948	-	-97,948
Total	82,530	1,444,358	1,000	1,445,358

** Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.*

The change in the resource element of the DEL arises from:

administration costs increases of £53,168,000 from the Central Reserve to enable the GOGGS East building to be brought onto the Department's balance sheet; a transfer of £85,000 from HM Treasury for the cost of capital charges in respect of GOGGS; and a transfer of £36,000 from the Office for National Statistics in respect of data development work. These are partially offset by a transfer of £1,271,000 to HM Treasury to meet the costs of the transfer of tax policy work for the first half of the financial year and virement from administration costs to programme expenditure of £18,000,000; and

programme expenditure changes relating to virement from administration costs to programme expenditure of £18,000,000; and a transfer to the Home Office to meet additional costs of anti-terrorism work of £600,000.

The change in the capital element of the DEL arises from increases of £84,210,000 from the central reserve to enable the GOGGS East building to be brought onto the Department's balance sheet; and £70,000 from the Office for National Statistics in respect of data development work.

Spring Supplementary Estimates (Government Actuary's Department)

The Financial Secretary to the Treasury (Mr. Stephen Timms): Subject to parliamentary approval of any necessary supplementary estimate, the Government Actuary's departmental expenditure limit will be increased by £130,000 from £1,309,000 to £1,439,000. Within the DEL change, the impact on resources and capital are as set out in the table:

	Change	*Voted*	*New DEL Non-voted*	*Total*
Resource	0	1,071	-	1,071
Capital	130	368	0	368
Depreciation*	0	-416	-	-416
Total	130	1,023	0	1,023

** Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.*

The change in the capital element of the DEL arises from the partial draw down of capital end-year flexibility (EYF) of £130,000. This is required to meet the costs arising from the replacement of pension's valuation software and the implementation of a document management system.

Spring Supplementary Estimates (HM Treasury)

The Paymaster General (Dawn Primarolo): Subject to parliamentary approval of any necessary supplementary estimate, HM Treasury DEL will be increased by £6,383,000 from £251,764,000 to £258,147,000 and the

administration costs limits will be increased by £7,883,000 from £152,509,000 to £160,392,000. Within the DEL change, the impact on resources and capital are as set out in the table:

	Change	*Voted*	*New DEL Non-voted*	*Total*
Resource	7,883,000	212,597,000	37,975,000	250,572,000
Capital	-1,500,000	7,575,000	0	7,575,000
Depreciation*	-8,638,000	-16,292,000	0	-16,292,000
Total	-2,255,000	203,880,000	37,975,000	241,855,000

* *Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.*

The change in the resource element of the DEL arises from:

an increase in total Treasury administrative costs of £7,883,000 resulting from:

the Treasury's offices at 1 Horse Guards Road being held at a valuation based on commercial property market rents. There are indications of a fall in market rents in the Victoria/Whitehall area during 2004–05, which would give rise to an accounting charge. To cover the estimated charge, £9,000,000 will be drawn from a fund of End Year Flexibility (EYF) ring fenced for the purpose;

the Treasury's Spending Review 2002 settlement set in-year administration funding at a level lower than forecast spending, anticipating that the shortfall would be met from a draw down of EYF. The projected shortfall in 2004–05 is up to £3,000,000, which will be drawn from EYF accordingly;

the funding consequences of the transfer of tax policy functions from the Inland Revenue and HM Customs and Excise to the Treasury. These were partly dealt with in the Winter Supplementary Estimate, but a further £4,235,000 of funding in relation to the first part of 2004–05 remains to be transferred to the Treasury in order to properly account for the transfer, in accordance with the *Resource Accounting Manual*;

a transfer of £184,000 from HM Treasury to the Inland Revenue and HM Customs and Excise for the cost of capital on GOGGS East land following its transfer to said departments;

the completion of the refurbishment of 1 Parliament Street (the east end of the building formerly known as Government Offices Great George Street), this required the Treasury to transfer assets relating to 1 Parliament Street from its books to the books of the Inland Revenue and HM Customs and Excise. There is an accounting profit of £8,168,000 to the Treasury on the disposal;

an increase in the Office of Government Commerce' (OGC) appropriations in aid (A in A) of £725,000 and a matching £725,000 increase in expenditure for the engagement of consultants on behalf of other bodies;

an increase in A in A programme of £300,000 and a matching £300,000 increase in spend for the Office of Paymaster General to bring the Estimate in line with forecasts;

an increase in A in A programme of £240,000 and a matching £240,000 increase in spend for Pool Re renegotiation costs;

a DEL neutral switch of £1,390,000 programme from non-voted to voted for Request for Resources 3 from the OGC's Efficiency Challenge Fund allocation; and

a decrease in A in A programme of £875,000 and a matching £875,000 decrease in spend due to the transfer of the Whitehall Systems[1] from OGC to OGCbuying.solutions.

The change in the capital element of the DEL arises from:

a partial draw down of capital eyf of £22,433,000 and the subsequent transfer of that funding to Inland Revenue and HM Customs and Excise for the transfer of the 1 Parliament Street assets referred to above. These changes net to zero;

a partial draw down of eyf of £1,500,000 by HM Treasury for the purchase of information systems software and hardware;

an increase in non-operating A in A of £11,550,000 and a loan of £8,550,000 both related to the transfer of the Whitehall Systems from OGC to OGCbuying.solutions.

[1] The Whitehall Systems are backup heating and electricity power systems, previously operated and accounted for by OGC. Responsibility for them is being transferred to OGCbuying.solutions. OGC is surrendering its funding for cost of capital charges. OGCbuying.solutions is paying £11.55m for the assets, £3m in cash and £8.55m via a loan from OGC.

	£
Administration costs changes in detail:	
Accounting profit on disposal of 1 Parliament Street assets	-8,168,000
Funding for cost of capital charges on 1 Parliament Street assets	-184,000
Funding for costs of tax policy functions in the first part of 2004–05	4,235,000
Estimated accounting charges on revaluation of 1 Horse Guards Road	9,000,000
Funding for other Treasury administration costs	3,000,000
OGC engagement of consultants	0
Net total effect on admin DEL	7,883,000

DEFENCE

Votes A 2005–06

The Secretary of State for Defence (Mr. Geoffrey Hoon): Ministry of Defence votes A 2005–06, will be laid before the House on 22 February as HC 291. This outlines the maximum numbers of personnel to be maintained for service in the armed forces for financial year 2005–06. Copies of these reports will be placed in the Libraries of both Houses.

Armed Forces Pay Review Body Report 2005

The Secretary of State for Defence (Mr. Geoffrey Hoon): The 2005 report of the Armed Forces' Pay Review Body has been published today. Copies of the report are available in the Vote Office and in the Library of the House. I wish to express my thanks to the chairman and members of the review body for their clear and wide-ranging report.

The AFPRB has recommended an increase in basic military salary of 3 per cent. for all other ranks and officers. The AFPRB has also recommended increases in the rates of specialist pay (eg flying pay, submarine pay, diving pay and hydrographic pay), and in accommodation charges. The AFPRB also recommended a 5 per cent. increase to rates of longer separated service allowance and longer service at sea bonus which are designed to compensate for separation.

The additional cost to the defence budget will be £216 million. This will be met within existing Departmental expenditure limits.

The AFPRB's recommendations are to be accepted in full, with implementation effective from 1 April 2005.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Spring Supplementary Estimates

The Minister for Rural Affairs and Local Environmental Quality (Alun Michael): Subject to Parliamentary approval of any necessary Supplementary Estimate, the Department for Environment Food and Rural Affairs DEL will be increased by £103,689,000 from £3,178,447,000 to £3,282,136,000 and the administration costs limits will be increased by £38,101,000 from £357,572,000 to £395,673,000. Within the DEL change, the impact on resources and capital are as set out in the table:

£'000s

	Change	Voted	New DEL Non-voted	Total
Resource	80,531	2,467,116	682,540	3,149,656
Capital	23,158	227,350	103,980	331,330
Depreciation*	0	-101,733	-97,117	-198,850
Total	103,689	2,592,733	689,403	3,282,136

** Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.*

The change in the resource element of the DEL arises from (i) take up of end-year flexibility of £42,464,000 programme resources and £37,902,000 administration resource; (ii) take up of £384,000 administration resources from the Cabinet Office for Parliamentary Counsel costs; (iii) take up of £28,000 of programme resources from Department for Transport to fund coastal protection measures; (iv) take up of £524,000 of programme resources from Department for Trade and Industry for the Red Meat Industry Forum; (v) transfer of £500,000 of programme resources to the Department for International Development to fund projects in eastern Europe, Caucasus and central Asia; (vi) transfer of £42,000 to Department for Trade and Industry to fund the Sustainable Development round table; (vii) transfer of £105,000 of programme resources to the Department for Trade and Industry for the Farm Business Advice service; (xiii) transfer of £44,000 of programme resources to the Office of the Deputy Prime Minister for the Infrastructure Investment programme; (ix) transfer of £80,000 of administration resources to the Foreign and Commonwealth Office for contributions related to the United Nations Convention on the Law of the Sea (UNCLOS).

An additional £60,000 transfer from Office of the Deputy Prime Minister will be taken up in the 2005–06 Winter Supplementary.

The change in the capital element of the DEL arises from: (i) take up of end-year flexibility of £23,158,000 capital.

The increases are offsetting inter-departmental transfers and take-up of end-year flexibility, and will not therefore add to the planned total of public expenditure.

FOREIGN AND COMMONWEALTH AFFAIRS

Spring Supplementary Estimates

The Parliamentary Under-Secretary of State for Foreign and Commonwealth Affairs (Mr Bill Rammell): Subject to parliamentary approval of any necessary supplementary Eestimate, the Foreign and Commonwealth Office departmental expenditure limit (DEL) will be increased by £46,199,000 from £1,883,444,000 to £1,929,643,000 and the administration costs limit will be decreased by £21,151,000 from £793,006,000 to £771,885,000. Within the DEL change, the impact on resources and capital are as set out in the table:

£'000s

	Change	Voted	New DEL Non-voted	Total
Resource	35,374	1,607,192	212,118	1,819,310
Capital	10,825	101,533	8,800	110,333
Depreciation*	0	-106,218	-26,800	-133,018
Total	46,199	1,602,507	194,118	1,796,625

** Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.*

The change in the resource element of the DEL arises from:

RfR1

I. Reserve claims of £402,000 for the Emergency Disaster Reserve; £9,957,000 for Consular Premium collected in the UK and £7,755,000 for international organisations subscriptions;

II. PES transfers from the Department of Trade and Industry (DTI) and DEFRA of £160,000 each for the UN Convention on the Law of the Sea;

III. A PES transfer from the Department of Trade and Industry (DTI) of £32,000 in respect of the Year of Science in China;

IV. A PES transfer from the Cabinet Office for £65,000 for the funding of the Parliamentary Counsel Office;

V. A PES transfer to the Security and Intelligence Agencies (SIA) of £1,400,000 for language training. Income and expenditure has also been increased by £1,400,000 to reflect this;

VI. A PES transfer to the Security and Intelligence Agencies (SIA) of £562,000 for planned programme activity;

VII. A PES transfer of to the Home Office of £1,000,000 in respect of European Residence Permits;

VIII. A reduction of £12,553,000 in respect of Overseas Price Movements;

IX. Increases in income and expenditure of £50,700,000 relating to increased visa and consular activity;

X. Increases in income and expenditure of £445,000 relating to increased postage recoveries and other sundry receipts;

XI. Increases in income and expenditure of £160,000 relating to increased receipts for international organisation subscriptions;

XII. An increase in income and expenditure of £38,086,000 relating to other government departments' contributions to the UK presence in Iraq. Of this £11,236,000 is vired to capital.

RfR2

XIII. Take up of £23,347,000 end year flexibility;

XIV. Draw down of £110,000,000 from the Peacekeeping Main Estimate Provision of which £90,000,000 is transferred to the Ministry of Defence;

XV. A PES transfer of £12,551,000 from DFID for programme activity;

XVI. A PES transfer of £49,000 from the Cabinet Office relating to a forecast underspend on the Countries at Risk of Instability Pilot because of a forecast underspend;

XVII. Draw down of £6,000,000 from the Departmental Unallocated Provision;

XVIII. PES transfers of £2,237,000 to the Security and Intelligence Agencies, £2,200,000 to the Ministry of Defence and £6,500,000 to DFID for planned programme activity.

The change in the capital element of the DEL arises from:

I. A reduction of £411,000 due to Overseas price movements;

II. £11,236,000 vired from administration for other Government Departments' contribution to UK presence in Iraq.

British Detainees (Iraq)

The Secretary of State for Foreign and Commonwealth Affairs (Mr. Jack Straw): During the course of my statement of 11 January to the House, *Official Report*, columns 173–186, on the release of British detainees held at Guantanamo Bay, I said that there were no other British citizens detained in Guantanamo Bay. I also stated that I knew of no other citizens detained in similar circumstances elsewhere. That statement in the House was clear and remains accurate.

I would however like to bring to the attention of the House the cases of two British nationals being held as security internees by the coalition forces in Iraq; one is a British national being held by US forces at Camp Bucca, the other is a dual British/Iraqi national and is being held at Shaibah by UK forces.

Both men are being held as security internees in accordance with United Nations Security Council Resolution 1546 (2004). The International Committee of the Red Cross has access to both detention facilities and family visits are also permitted. Both internees' cases are reviewed regularly by the appropriate authorities.

HEALTH

Doctors and Dentists (Remuneration)

The Secretary of State for Health (Dr. John Reid): I am responding on behalf of my right hon. Friend the Prime Minister to the 34th report of the review body on doctors' and dentists' remuneration (DDRB) which is published today. Copies of the report are available in the Vote Office and the Library. I am grateful to the chairman and members of the review body for their hard work.

This year's report deals primarily with general dental practitioners, doctors and dentists in training, non-consultant career grade doctors, and medical and dental consultants who have chosen not to take up new contracts. For consultants taking up new contracts, general medical practitioners and the salaried primary dental care services, 2005–06 will be the third year of three-year pay deals agreed as part of NHS pay reforms.

The review body has recommended with effect from April 2005 general increases in remuneration of 3 per cent. for doctors and dentists in training and consultants who remain on the old contract, 3.225 per cent. for non-consultant career grade doctors and an increase of 3.4 per cent. in gross fees for general dental practitioners.

These recommendations are being accepted in full and without staging.

HOME DEPARTMENT

Spring Supplementary Estimates

The Parliamentary Under-Secretary of State for the Home Department (Fiona Mactaggart): Plans to change the Charity Commission's departmental expenditure limit (DEL) for 2004–05.

Subject to parliamentary approval of any necessary supplementary estimate, the Charity Commission DEL will be increased by £440,000 from £30,608,000 to £31,048,000. The Administration Cost Limit will remain unchanged at £29,509,000. Within the DEL change, the impact on resources and capital are as set out in the table:

£'000s

	Change	Voted	New DEL Non-voted	Total
Resource	0	29,509,000	0	29,509,000
Capital	440,000	2,179,000	0	2,179,000
Depreciation*	0	-640,000	0	-640,000
Total	440,000	31,048,000	0	31,048,000

** Depreciation, which forms part of resource DEL, is excluded from total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.*

The change in the capital element of the DEL arises from a known peak in E-Business expenditure, and will be funded by take up of part of the Commission's capital end-year flexibility entitlement.

NORTHERN IRELAND

Parades

The Parliamentary Under-Secretary of State for Northern Ireland (Mr. Ian Pearson): I have been considering Sir George Quigley's Review of Parades, the subsequent consultation on his report, the Northern Ireland Affairs Committee (NIAC) report of January this year and the events of last summer. Each of these offers different perspectives on how to go forward and I have come to a balanced decision about how to respond.

I have decided that a case has not been made to make fundamental changes to parading arrangements in Northern Ireland. Parades have been increasingly peaceful over the last few years. The number of contentious parades has fallen. Out of approximately 2,000 parades notified last year, only 200 were regarded as 'contentious' and two resulted in serious public order incidents. I think this shows the success of the arrangements we have here in reducing tension. I want to echo the words of NIAC, which concluded that the Parades Commission remains the best hope for developing the peaceful resolution of disputes. I will therefore not be pressing forward with the changes recommended by Sir George Quigley at this time. I am, however, indebted to Sir George for his insightful and intelligent contribution to the debate around parades in Northern Ireland. Although I am not adopting his recommendations, my thinking has been greatly influenced by his work and I am, indebted to him for his insightful and intelligent contribution to the debate around parades in Northern Ireland.

I shall be laying an Order in Council to amend the law on parades. The Order makes clear that the Parades Commission can make determinations that include supporters and followers. Some doubts have been raised about the Commission's remit. The police and NIAC have asked me to put the matter beyond doubt before the summer.

At the same time, I intend to take on board Quigley and NIAC's recommendation that parades and related protests should be considered by the same body. The Order will bring protestors within the remit of the Parades Commission. I have been persuaded that the time is right for the Parades Commission to take on this function.

I am also launching a wide-ranging consultation exercise on mediation. I think there is a great deal of potential for mediation to help defuse the tensions surrounding parades and I firmly believe that agreed outcomes are the best way to resolve disputes. However, there has not been agreement about how best to deliver mediation. I have today published a consultation paper on these issues. The consultation will close on 23 May 2005.

NIAC's report contained other recommendations about how the Parades Commission could make the way it carries out its work more effective. I am aware that the Commission are examining these and I look forward to hearing their response.

PRIME MINISTER

Honours System

The Prime Minister (Mr. Tony Blair): The Government's decisions on changes to the honours system are contained in the Command Paper "Reform of the Honours System" (Cm 6479) which has been published today. Copies are being placed in the Libraries of the House.

TRANSPORT

Motorcycling

The Parliamentary Under-Secretary of State for Transport (Mr. David Jamieson): I have today published the Government's national motorcycling strategy. It is the first Government motorcycling strategy and it covers the whole range of issues which apply to motorcycling—suitable infrastructure, traffic management measures, motorcycle design, safety issues including improved training arrangements, and taxation.

The strategy sets out a framework of actions to be pursued over the next few years, principally by central Government, local government, the motorcycle industry and motorcycle user groups, to ensure that motorcycling becomes fully recognised and catered for as a mode of transport on our roads.

Copies of the strategy have been placed in the Libraries of both Houses.

WORK AND PENSIONS

Open Method of Co-ordination

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. Chris Pond): A consultation exercise has been launched today on the evaluation of the EU process called the "open method of co-ordination". This provides a structure for co-operation between EU member states to enable the exchange of best practice and joint evaluation of policies. The European Commission has invited all EU member states to comment on the effectiveness of this open method in the fields of social inclusion and pensions. The questionnaire has been placed in the Library and is also available online at www.dwp.gov.uk/consultations/2005/omc/index.asp.

The Government are inviting comments from non-governmental organisations involved with social inclusion or pensions, TUC and CBI and local and regional government to contribute to the UK response. The consultation closes on 30 April to enable a UK response to be drawn up in time for the Commission deadline of 30 June.

Financial Assistance Scheme

The Minister for Pensions (Malcolm Wicks): In December 2004 we said that our priority was getting help to those facing the most urgent difficulties being closest to, or already at, retirement age and therefore less able to make provision to replace their lost pensions.

At that time we had asked independent trustees to provide data on the pension schemes that they thought might be eligible for the financial assistance scheme. We had a very good response and from the information provided it appears that there are at least 380 schemes in which members might be potentially eligible for financial assistance. The precise scale of the financial shortfalls in these schemes cannot be known until the winding-up processes are close to completion.

A list of these potentially eligible schemes has been placed in the Library. It is a provisional list which broadly confirms earlier estimates of the scale of the problem, and the number of individuals affected. The detailed eligibility criteria for both schemes and members will be set out in regulations that we expect to publish for wider consultation in the spring. Once finalised these will need parliamentary approval, which we hope to obtain by the end of July.

As solvent employers have a duty to support their schemes and provide the benefits members were expecting, it is right that the FAS focuses on insolvent employers. We expect employers to stand by their pension promise to their employees, and will take a dim view of the solvent employer who seeks to avoid their responsibilities to their employees or the employees of a company for which they have been a parent company. We have consulted widely on how we should define 'employer insolvency' and concluded that for FAS purposes we should have a sufficiently general definition of insolvency to capture schemes where the sponsoring employer no longer exists and also where insolvency may have occurred some time after scheme wind-up had

started. This definition will be similar to that used by the PPF but with the additional inclusion of some companies which have undergone members' voluntary liquidations—where a declaration of solvency was made at the time of wind-up but where the company is now no longer solvent and so no employer exists to support the scheme.

We are minded to judge the insolvency position for multi-employer schemes on the principal employer of the scheme.

The list contains those pension schemes on which we received information in the latest data collection exercise and which from the information provided by trustees, appear potentially eligible under the criteria set out above. The list provides an early indication of scheme eligibility for members of the schemes we have been told about. But I need to make clear a number of caveats. First, it will take time to establish the final position, but as wind-up progresses we will become clearer on the size of the gap between assets and liabilities of these schemes. Second, presence on this list does not guarantee individuals will receive support from the FAS. Third, it does not mean trustees should stop their duties of securing the best possible outcome for their scheme members.

After the FAS regulations have come into force, there will be a six-month period during which we shall accept formal notification from the independent trustees of other under-funded pension schemes, which may in due course be added to the list, so absence from this list does not preclude eligibility.

Whilst we have sought industry contributions, it is very disappointing that no financial contribution has been forthcoming. As a result the available funding stands at £400 million over 20 years, which the Government have committed on behalf of the taxpayer.

As we have explained before, in many cases the trustees are not yet able to provide detailed information on the scale of individual losses and in practice this may not be available until they are close to completing the winding-up of each pension scheme.

But those scheme members who have already retired or expect to retire within the next few years need to know where they stand now.

I can therefore announce today that the financial assistance scheme will provide help to those within three years of their scheme pension age on 14 May 2004. The assistance will top up individuals to a level broadly equivalent to 80 per cent. of the core pension rights accrued in their scheme. That means that those within three years of their pension scheme age on 14 May 2004 should expect to get 80 per cent. of their core promised pension. As we previously announced, payments will be subject to a de minimis level and a cap on assistance provided. Further information on these will be provided when the draft regulations are published.

The assistance will be paid as a monthly pension.

FAS payments will be treated by the tax and benefit system in broadly the same way as payments from an occupational pension scheme.

We have already committed ourselves to review the financial assistance scheme after three years.

Government funding is already fixed for the current spending review period up to and including 2007–08. But as with all our spending plans, we will review the funding for the FAS in the next spending review alongside other spending priorities.

A dedicated team of DWP officials, based in York, will administer the scheme and aim to get payments to recipients as soon as possible once the regulations are in place.

PRIVY COUNCIL OFFICE

Supplementary Estimates

The Parliamentary Under-Secretary of State for Constitutional Affairs (Mr. David Lammy): Subject to parliamentary approval of any necessary supplementary estimate, the Privy Council Office DEL will be increased by £466,000 from £4,195,000 to £4,661,000 and the gross administration costs limit will be increased by £466,000 from £4,158,000 to £4,624,000. Within the DEL change, the impact on resources and capital is as set out in the following table:

£'000s

	Change	Voted	New DEL Non-voted	Total
Resource	466,000	4,624,000	0	4,624,000
Capital	0	69	0	69
Depreciation*	0	-32	0	-32
Total	466,000	4,661,000	0	4,661,000

**Depreciation, which forms part of resource DEL, is excluded from total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.*

The change in the resource element of the DEL arises from take up of Privy Council Office's end year flexibility.

The Privy Council Office is also looking to increase spending by £70,000 to offset increases in administrative expenditure. This increase is offset by appropriations in aid.

CONSTITUTIONAL AFFAIRS

Supplementary Estimates

The Parliamentary Under-Secretary of State for Constitutional Affairs (Mr. David Lammy): Subject to Parliamentary approval of any necessary supplementary estimate, the Department for Constitutional Affairs and Northern Ireland Court Service departmental expenditure limit (DEL) will be *increased* by £74,547,000 from £3,536,540,000 to £3,611,087,000 and the administration costs limit will be increased by £38,001,000 from £1,003,181,000 to £1,041,182,000.

Within the DEL change, the impact on resources and capital are as set out in the following table:

£'000s

	Change	Voted	New DEL Non-voted	Total
Resource:				
Admin	38,001	1,041,182	0	1,041,182
Programme	-12,661	259,897	2,162,110	2,422,007
Capital	49,207	219,380	8,800	228,180
Depreciation*	0	-78,609	-1,673	-80,282
Total	74,547	1,441,850	2,169,237	3,611,087

** Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.*

The change in the resource element of the Department for Constitutional Affairs DEL arises from:

Resource Change: Admin (total increase of £37,001,000)

Voted: total increase of £65,403,000

RfR1

Transfers from Central HM Treasury funds:

(i) £58,000,000 resources in relation to the Libra reserve claim.

Transfers from other Government Departments:

(ii) £446,000 resources from the Cabinet Office in relation to the re-funding for the Office of Parliamentary Counsel.

Transfers to other Government Departments:

(iii) £554,000 resources to the Crown Prosecution Service in relation to costs for CPS case progression officers and secondees.

(iv) £122,000 resources to the Department for Work and Pensions being the increase indeduction of benefits for fines.

(v) Reversal of a transfer of £2,745,000 admin resources to DCA HQ and £590,000 admin resources to Court Service from the Home Office in relation to the Single Asylum Fund (SAF).

Transfers between sections within the RfR:

(vi) £7,450,000 admin resources to Capital in relation to the reclassification of Birmingham Priory Courts proceeds for Manchester Civil Justice Centre.

(vii) £10,000,000 admin resources to Capital from DCA HQ to the Court Service in relation to PFI liabilities.

Transfer between voted & non-voted resources:

(viii) £28,402,000 increase to voted admin resources in relation to the take up of departmental unallocated provision.

RfR3

Transfers from other Government Departments:

(ix) £16,000 resources from the Cabinet Office in relation to the re-funding for Office of Parliamentary Counsel.

Resource Change: Programme (total decrease of £12,191,000)

Voted: total decrease of £12,191,000

RfR1

Transfers from other Government Departments:

(i) £8,800,000 resources from Home Office in relation to downstream costs for criminal justice initiatives.

(ii) £1,400,000 resources from Home Office in relation to funding for Liverpoolcommunity justice centre.

(iii) £800,000 resources from Home Office—Criminal Justice Information Technology (CJIT) in relation to funding the development of Libra interface to Exchange Integration Service Stream Release.

(iv) £206,000 resources from Home Office in relation to Criminal Justice Information Technology for Crown Courts.

(v) £52,000 resources from Home Office—Criminal Justice Information, Technology in relation to Virtual Plea and Direction Hearings.

(vi) £35,000 resources from Home Office: Criminal justice information technology in order to fund the application of the Criminal Justice System Exchange project.

(vii) £750,000 resources from Home Office: Criminal Justice Information Technology in relation to the Effective Trial Management Programme.

Transfers to other Government Departments:

(viii) £29,000 resources to the Home Office in relation to costs for Contribution to Group of States against Corruption.

(ix) Reversal of a transfer of £23,918,000 programme resources to DCA HQ from the Home Office in relation to the Single Asylum Fund (SAF).

Transfers between sections within the Estimate:

(x) £287,000 resources from Magistrates Courts Revenue Grant to Magistrates Courts Capital Grant in relation to building and Information Technology costs.

The change in the resource element of the Northern Ireland Court Service DEL arises from:

Resource Change: Admin (total increase of £1,000,000)

Voted: total net increase of £1,000,000.

(i) To take up resource end year flexibility of £1,000,000 in respect of administration expenditure on the development costs associated with the Integrated Court Operations System (ICOS). This is partially offset by the profit arising form the sale of a surplus court building (£470,000) classified as programme.

Resource Change: Programme (total decrease of £470,000)

Voted: total decrease of £470,000

(i) Decrease of £470,000 being the netting of the profit element of the sale of a surplus court building against current programme provision. The change in the capital element of the Department for Constitutional Affairs DEL arises from:

Capital Change (total increase of £48,737,000)

Voted: total increase of £50,937,000

RfR1

Transfers from Central HM Treasury funds:

(i) £31,000,000 capital to the Court Service in relation to a non-cash reserve claim for PFI liabilities.

Transfers between sections within the Estimate:

(i) £287,000 resources from Magistrates Courts Grants to Magistrates Courts Capital Grants in relation Magistrates Courts Capital building and Information Technology costs.

(ii) £7,450,000 admin resources to Capital in relation to the reclassification of Birmingham Priory Courts proceeds for Manchester Civil Justice Centre.

(iii) £10,000,000 admin resources to Capital from DCA HQ to the Court Service in relation to PFI liabilities.

Transfer between voted and non-voted capital:

(iv) £2,200,000 increase to voted capital from supplementary credit approvals in relation to Libra funding.

The change in the capital element of the Northern Ireland Court Service DEL arises from:

Capital Change (total increase of £470,000)

Voted: total increase of £470,000

(i) To take up non-operating appropriations in aid of £1,000,000 arising from the sale of surplus court buildings. These non-operating appropriations in aid will offset additional capital expenditure on major refurbishment and IT projects. In budget terms, the increase in gross expenditure is offset by the net book value of the properties of £530,000.

CULTURE, MEDIA AND SPORT

Supplementary Estimates

The Secretary of State for Culture, Media and Sport (Tessa Jowell): Subject to parliamentary approval of the necessary supplementary estimate, the Department for Culture, Media and Sport DEL will be increased by £12,478,000 from £1,615,781,000 to £1,628,259,000 and the administration costs limits will be increased by £163,000 from £51,254,000 to £51,417,000. Within the DEL change, the impact on resources and capital are as set out in the following table:

£'000s

	Change	*Voted*	*New DEL Non-voted*	*Total*
Resource	-2,999,000	200,142,000	1,331,460,000	1,531,602,000
Capital	5,477,000	62,997,000	122,974,000	185,971,000
Depreciation*	10,000,000	-4,867,000	-84,447,000	-89,314,000
Total	12,478,000	258,272,000	1,369,987,000	1,628,259,000

** Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.*

The change in the resource element of the DEL arises from a transfer in respect of the PES Pool European Regional Development Fund to the Department for Work and Pensions that has been offset with transfers from non-voted spending in respect of accrued superannuation liability contributions (ASLCs) for the public lending right of £52,000; for the British Library of £2,230,000; for the Football Licensing Authority of £104,000 and for English Heritage of £1,327,000. A reserve claim of £400,000 to cover the costs of the sale of the TOTE.

The increase in the Department's administration costs limit arises from transfers from other Government Departments of £35,000 from ODPM in respect of salary costs for joint working on local public service agreements and £128,000 from Cabinet Office in respect of funding for the Parliamentary Counsel Office.

The change in the capital element of the DEL arises from increased expenditure offset by increased non operating appropriations in aid of £110,000 in respect of sale of properties at Windsor; £268,000 from the Northern Ireland Office Broadcasting contract; and £10,000 in respect of rents received by the Royal Parks Agency.

DEPUTY PRIME MINISTER

Supplementary Estimates

The Deputy Prime Minister (Mr. John Prescott): Subject to parliamentary approval of any necessary supplementary estimate, the Office of the Deputy Prime Minister's departmental expenditure limits for 2004–05 will change as follows:

(1) The Office of the Deputy Prime Minister's main programmes DEL will be increased by £2,348,455,000 from £7,129,829,000 to £9,478,284,000 and the administration costs limit will be reduced by £8,822,000 from £354,805,000 to £345,983,000. Within the DEL change, the impact on resources and capital are as set out in the following table:

£'000s

	Change	Voted	New DEL Non-voted	Total
Resource	1,623,409	4,590,912	1,879,401	6,470,313
Capital	725,046	1,152,677	1,855,294	3,007,971
Depreciation*	-8,494	-19,455	-4,200	-23,655
Total	2,339,961	5,724,134	3,730,495	9,454,629

** Depreciation, which forms part of resource DEL, is excluded from the total DEL, since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.*

The change in the resource element of the DEL arises from:

(i) take up of end-year flexibility of £110,412,000 comprising:

Programme Expenditure

(a) £800,000 for Ordnance Survey Trading Fund;

(b) £1,350,000 for Sustainable Communities;

(c) £306,000 from the Invest to Save Budget for Fire Services;

(d) £11,439,000 for Fire Services programme expenditure;

(e) £21,506,000 for Civil Resilience programmes;

(f) £5,000,000 for Regional Policy programme (Regional Chambers);

(g) £14,632,000 for non-voted Housing Corporation;

(h) £5,000,000 for non-voted English Partnerships/ Urban Regeneration Agency;

(i) £25,000,000 for non-voted Commission for New Towns.

Administration Costs

(j) £25,379,000 to cover the work of the Office of the Deputy Prime Minister.

(ii) draw down from the Reserve of £98,752,000 comprising:

Programme Expenditure

(a) £77,000 for Housing programme expenditure;

(b) £420,000 for Building Regulations;

(c) £3,978,000 for Other Growth Areas;

(d) £2,387,000 for Fire Services programme expenditure;

(e) £8,495,000 for Civil Resilience programmes:

(f) £72,851,000 for the Communities Plan;

(g) £8,544,000 for European Regional Development Fund;

(h) £2,000,000 for Regional Policy programme (Regional Assemblies).

(iii) draw down of £19,083,000 in advance from the European Regional Development Fund PES Pool for the European Regional Development Fund;

(iv) draw down of £1,500,000 from the Treasury Efficiency Savings Challenge Fund for Procurement Efficiency and Social Housing;

(v) a net transfer of £2,525,000 to other government departments, comprising:

From other Government Departments:

Programme Expenditure

(a) £50,000 from the Home Office for Building regulations programme;

(b) £100,000 for non-voted Housing Corporation from Department for Transport.

Administration Costs (Central ODPM)

(c) £557,000 from the Cabinet Office to cover the work of Parliamentary Counsel;

(d) £370,000 from Cabinet Office for the transfer of Internal Audit work.

Administration Costs (Government Offices)

(e) £1,798,000 from the Department for Education and Skills. (£1,598,000 for Local Public Service Agreements and £200,000 to cover other work done by Government Offices);

(f) £44,000 from the Department for Environment, Food and Rural Affairs to cover work on the Voluntary Community Sector;

(g) £700,000 from Department of Trade and Industry for work on UK Trade & Industry.

To other Government Departments:

Programme Expenditure

(h) £700,000 to the Home Office from the New Ventures Fundprogramme;

(i) £1,477,000 to Department for Work and Pensions from the New Deal for Communities programme;

(j) £3,208,000 to Welsh Assembly for Machinery of Government changes (£1,827,000 from Fire Services and £1,381,000 from Civil Resilience);

Administration Costs (Central ODPM)

(k) £221,000 to Department for Education and Skills for Local Public Service Agreements;

(l) £174,000 to Department of Health for Local Public Service Agreements;

(m) £65,000 to the Home Office for Local Public Service Agreements;

(n) £65,000 to the Department for Work and Pensions for Local Public Service Agreements;

(o) £60,000 to the Department for Transport for Local Public Service Agreements;

(p) £60,000 to the Department for Environment Food and Rural Affairs for Local Public Service Agreements;

(q) £35,000 to the Department for Culture, Media and Sport for Local Public Service Agreements;

(r) £79,000 to the Department for Transport for the Disabled Persons Transport Advisory Committee.

(vi) an increase in receipts of £120,709,000 offsetting increases in provision of £24,000,000 for Housing, £200,000 for Ordnance Survey, £4,000 for Planning, £3,015,000 for the Planning Inspectorate Executive Agency; £1,890,000 for Fire Services, £580,000 for Civil Resilience, £64,139,000 for European Regional Development Fund; £16,881,000 for administration costs, and £10,000,000 for non voted English Partnerships;

(vii) an increase in receipts of £10,000,000 for non-voted English Partnerships;

(viii) a transfer of £1,573,000,000 from Annually Managed Expenditure to Departmental Expenditure Limits for the Supporting People programme;

(ix) a transfer of £253,000 from resource consumption to capital for Research;

(x) a transfer of £396,678,000 from resource investment to capital comprising £134,947,000 for the Communities Plan; £62,958,000 towards the capital costs of acquiring surplus NHS land, £1,960,000 for Civil Resilience; £3,452,000 for Planning; £750,000 for non voted Housing Corporation; £368,000 within non-voted Other Growth Areas; £186,386,000 within the Sustainable Communities programme; £5,525,000 for voted Other Housing and Homelessness from non-voted Housing Corporation (of which £3,668,000 for Regional Housing Pots and £1,857,000 increase in provision) and £332,000 to voted Growth Areas from non-voted Other Growth Areas;

(xi) a transfer of £230,118,000 from capital to resource investment comprising £5,200,000 to fund New Dimension Search & Rescue training rigs, £15,499,000 within non-voted section for Housing Corporation, £182,000,000 for Large Scale Voluntary Transfers from non-voted Arms Length Management Organisations to voted Housing and Homelessness and £27,419,000 for European Regional Development Fund;

(xii) a net transfer of £11,684,000 from voted to non-voted provision comprising:

(a) a transfer of £16,785,000, to voted Housing programmes from non-voted comprising £14,000,000 for Housing Action Trusts, £1,030,000 for Black & Ethnic Minority Registered Social Landlords, £755,000 for Homelessness and £1,000,000 for Starter Homes Initiatives;

(b) a transfer of £12,863,000 to other voted sections from non-voted Housing Corporation;

(c) a transfer of £2,835,000 to voted Sustainable Communities from non-voted Housing Corporation;

(d) a transfer of £2,500,000 to voted Growth Areas from non-voted Other Growth Areas;

(e) a transfer of £144,000 to voted Sustainable Communities from non-voted South East of England Development Agency (SEEDA);

(f) a transfer of £9,893,000 from non-voted resource investment to voted resource investment comprising £9,093,000 for European Regional Development Fund and £800,000 for Supporting People;

(g) a transfer of £800,000 from voted Housing to non-voted for Housing Corporation;

(h) a transfer of £8,023,000 from other voted sections to non-voted Housing Corporation;

(i) a transfer of £30,000,000 from Planning to non-voted English Partnerships;

(j) a transfer of £745,000 from voted Growth Areas to non-voted Other Growth Areas;

(k) a transfer of £5,800,000 from voted Sustainable Communities to non-voted South East of England Development Agency (SEEDA);

(l) a transfer of £500,000 from voted Sustainable Communities to non-voted Thames Gateway (Thurrock);

(m) a transfer of £10,000,000 from voted Thames Gateway to non-voted Thames Gateway Housing Corporation;

(n) a transfer of £800,000 from voted Black and Ethnic Minority Registered Social Landlords to non-voted Housing Corporation.

(xiii) As a result of the changes to Request for Resources 1, The Office of the Deputy Prime Minister's administration provision will be reduced by £8,531,000 from £357,932,000 to £349,401,000 after taking account of the transfer of £36,912,000 from administration DEL to programme DEL in respect of the reclassification of the Planning Inspectorate's expenditure.

The change in the capital element of the DEL arises from:

(xiv) take up of end-year flexibility of £42,066,000 comprising:

Programme Expenditure

(a) £6,045,000 draw down of Capital Modernisation Fund (£2,325,000 for Pilot Lettings, £3,720,000 for New Dimension;

(b) £5,000,000 for the Coalfields Enterprise Fund;

(c) £2,274,000 for the New Ventures Fund;

(d) £1,400,000 for Smoke Alarms;

(e) £15,305,000 for European Regional Development Fund;

(f) £12,042,000 for non-voted English Partnerships in respect of the costs of acquiring surplus National Health Service land.

(xv) draw down of £17,126,000 in advance from the European Regional Development Fund PES Pool for the European Regional Development Fund;

(xvi) an increase in receipts of £19,054,000. offsetting increases in provision of £3,600,000 for Housing programme, £5,012,000 for European Development Fund and £10,442,000 for non-voted housing Corporation;

(xvii) a transfer of £3,259,000 to other government departments, comprising £1,045,000 to Department for Transport to cover ODPM's share of the costs of joint

capital projects; £5,214,000 to Welsh Assembly in respect of Machinery of Government Changes (of which £1,513,000 is from voted Civil Resilience and £3,701,000 from non-voted section) and £3,000,000 from the Home Office for non-voted Housing Corporation;

(xviii) a transfer of £253,000 from resource consumption to capital for Research;

(xix) a transfer of £396,678,000 from Resource Investment to Capital comprising of £134,947,000 for the Communities Plan; £62,958,000 towards the capital costs of acquiring surplus NHS land, £1,960,000 for Civil Resilience; £3,452,000 for Planning; £750,000 for non-voted Housing Corporation; £368,000 for non-voted Other Growth Areas; £186,386,000 within the Sustainable Communities programme; £5,525,000 for voted Other Housing and Homelessness from non-voted Housing Corporation (of which £3,668,000 for Regional Housing Pots and £1,857,000 increase in provision) and £332,000 to voted Growth Areas from non-voted Other Growth Areas;

(xx) a transfer of £230,118,000 from capital to resource investment comprising £5,200,000 to fund New Dimension Search & Rescue training rigs, £15,499,000 within non-voted section for Housing Corporation, £182,000,000 for Large Scale Voluntary Transfers from non-voted Arms Length Management Organisations to voted Housing and Homelessness and £27,419,000 for European Regional Development Fund;

(xxi) an increase in provision of £223,500,000 for the non-voted Supported Capital Expenditure Programme;

(xxii) an increase in provision of £278,800,000 as a result of classification changes for non-voted English Partnerships;

(xxiii) Within the capital element of the DEL there is a net transfer of £52,823,000 from voted to non-voted provision comprising:

(a) £13,442,000 from non-voted Housing Corporation to voted Planning;

(b) £3,796,000 from non-voted English Partnerships to voted Sustainable Communities programme;

(c) £45,061,000 from voted Sustainable Communities programme to non-voted South East of England Development Agency (SEEDA) (£41,061,000) and non-voted East of England Development Agency (EEDA) (£4,000,000);

(d) £25,000,000 from voted Thames Gateway to non-voted English Partnerships.

(2) The Office of the Deputy Prime Minister's Local Government DEL will be increased by £21,480,000 from £43,767,155,000 to £43,788,635,000. Within the DEL change, the impact on resources and capital are as set out in the following table:

£'000s

	Change	Voted	New DEL Non-voted	Total
Resource	21,480	43,311,588	104,613	43,416,201
Capital		363,484	8,950	372,434
Depreciation	-119	-913	1,580	667
Total	21,361	43,674,159	115,143	43,789,302

The change in the resource element of the DEL arises from:

(i) take up of end-year flexibility of £21,300,000 for Private Finance Initiatives;

(ii) a transfer of £180,000 from Department of Health to support a local government franchising pilot;

(iii) a transfer of £98,000,000 from voted Capacity Building programme to non-voted Standards Board.

DEFENCE

Supplementary Estimates

The Secretary of State for Defence (Mr Geoffrey Hoon): Subject to Parliamentary approval of the necessary supplementary estimate, the ministry of Defence departmental expenditure limits will be increased by £1,099,372,000 from £30,344,938,000 to £31,444,310,000. Within the DEL change, the impact on resources and capital are set out in the following table:

£'000s

	Change	Voted	New DEL Non-voted	Total
Resource	875,721	32,269,483	561,434	32,830,917
Capital	223,651	6,661,431	1,220	6,662,651
Depreciation*	0	-7,879,258	-170,000	-8,049,258
Total	1,099,372	31,051,656	392,654	31,444,310

** Depreciation, which forms part of Resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.*

The change in the resource element of the DEL arises from:

transfers totalling £383,000 from the Northern Ireland Office (£101,000) and from the Northern Ireland Departments (£282,000) as their share of the National Meteorological Programme and Weather Warning Service costs under a pan Government agreement;

a transfer in from the Cabinet Office of £102,000 in respect of future funding arrangements with the Office of the Parliamentary Counsel;

a transfer out from the MOD to the Department for Constitutional Affairs of £62,000 in respect of legal services provided to the MOD;

an increase in Resource Appropriations in Aid of £185,000 from receipt of a special dividend from the Hydrographic Office;

an increase in Resource Appropriations in Aid of £4,600,000 relating to revenue associated with government training provided under the Indian Air Force BAE Hawk contract;

an increase in Resource Appropriations in Aid of £1,445,000 relating to revenue received from the Learning Skills Council;

an increase in RfR 2 Resource of £805,426,000 to reflect the costs of peace-keeping in Iraq and Afghanistan;

a transfer in of £88,978,000 Resource from the Foreign and Commonwealth Office to the MOD in respect of the Global Conflict Prevention Pool for Balkans programme costs;

a transfer in of £2,200,000 Resource from the Foreign and Commonwealth Office to the MOD in respect of the Global Conflict Prevention Pool for Rest of the World programme costs;

a transfer in of £2,920,000 Resource from the Department for International Development to the MOD in respect of the Global Conflict Prevention Pool for Sub Saharan Africa programme costs;

an increase in Resource (Non-Budget) Grants in Aid of £241,000 to the National Army Museum for refurbishment costs.

The change in the capital element of the DEL arises from:

the take up of remaining end year flexibility from 2003–04 of £6,000,000 Capital to cover capital spending;

a transfer out from the MOD to the Home Office of £5,500,000 as reimbursement for an advance made by the Home Office for the former RAF Newton in 2003–04, the site no longer being required by the Home Office;

an increase in Capital Appropriations in Aid of £54,301,000 arising from the early redemption of preference shares held by the MOD in QinetiQ;

an increase in RfR 2 Capital DEL of £222,129,000 to reflect the costs of peace-keeping in Iraq and Afghanistan;

a transfer in of £1,022,000 Capital DEL from the Foreign and Commonwealth Office to the MOD in respect of the Global Conflict Prevention Pool for Balkans programme costs.

The changes to CDEL and RDEL will lead to an increased net cash requirement of £1,109,613,000.

EDUCATION AND SKILLS

School Teachers' Review Body

The Secretary of State for Education and Skills (Ruth Kelly): The fourteenth report of the School Teachers' Review Body is being published today. It covers a range of matters referred to the review body in July 2004. Copies are available in the Vote Office and in the Library of the House of Lords and at www.teachernet.gov.uk

In making its recommendations, the review body was required to have regard to the matters set out in the remit letter of 22 July 2004. The fourteenth STRB report deals with some very important and technical issues affecting teachers' pay and I am most grateful to it for the careful and detailed attention it has given to these complex matters. The STRB recommendations are set out below (in italics) followed in each case by my response.

I am seeking consultation comments on the report and my response by 18 March 2005.

Payments for additional responsibilities for teaching and learning

The STRB has recommended the following:

We recommend that the following criterion and factors for awarding teaching and learning responsibility (TLR) payments be adopted:

The criterion is as follows:

A teaching and learning responsibility payment may only be made to a teacher who is accountable for a significant, specified responsibility focused on teaching and learning, that is not required of all classroom teachers, clearly defined in the job description of the teaching and learning responsibility payment holder, and requiring teachers' professional skills and judgement. The TLR payment should be for a sustained responsibility in the context of the school's staffing structure needed to ensure continued delivery of high-quality teaching and learning.

The factors are as follows:

Impact on educational progress beyond the teacher's assigned pupils;

Leading, developing and enhancing the teaching practice of others;

Having accountability for leading, managing and developing a subject or curriculum area or pupil development across the curriculum; and (for the upper value TLR)

Having line management responsibility for a significant number of people.

We recommend that there should be guidance on the review of staffing structures and implementation and that it should include advice to assist schools/LEAs in deciding: how to address their head of year and "pastoral" responsibilities in the new system; what type of TLR should be payable for specific line management posts; and the application of TLRs to unattached teachers.

We recommend that:

From 1 September 2005, the value of TLR2 be a minimum of £2,250 with a maximum of £5,500, and the value of TLR1 be a minimum of £6,500 with a maximum of £11,000;

Teachers be paid a spot rate on the appropriate TLR range for specific posts as decided and published by the school in its pay policy;

Differentials between payments within each range within specific schools should be significant—a minimum of £1,500; and

The guidance on the review of staffing structures and implementation contains advice to support schools in deciding what level of spot rate payment to award TLR posts.

We recommend that the circumstances in which the payment of TLRs should cease, should be as follows:

Payments should not be portable from one school to another;

Payments should be withdrawn where a teacher declined to perform the responsibilities attached to the payment; or lost the responsibilities as a result of poor performance (as a result of capability procedures); and

Payments could also be withdrawn when responsibilities were restructured, subject to transitional/safeguarding arrangements applied nationally.

We recommend that all the main parties be included, without pre-conditions, in formulating guidance for schools on the review of staffing structures and implementation.

Subject to the timely provision of guidance and budget information to schools, we recommend specifically that:

schools be required to review their staffing structure in consultation with staff and their representatives, and to publish their revised structure, with a timetable for implementation (as an annex to the pay policy of the school), by 31 December 2005;

TLR payments be available to be awarded from 1 September 2005 and new awards of management allowances cease from 31 December 2005;

The transition period for each school starts from the date of publication of its staffing structure, lasts for three years and ends by 31 December 2008; and

Teachers who would otherwise incur a reduction in salary as a result of the implementation of changes in responsibilities in the revised staffing structure of the school, have their salary cash safeguarded for the duration of the three year period of transition, the safeguarding to cease in the following circumstances.

The teacher accepts a new level of payment;

The teacher moves post;

The teacher's salary (through annual increment, movement to a higher salary scale or receipt of a higher level of TLR payment) excluding the management allowance, is higher than the total of his/her current salary including the management allowance; or

The teacher unreasonably refuses to undertake responsibilities required of a new post offered to him/her.

Our recommendations should be applied to Wales in accordance with constitutional responsibilities.

I welcome these recommendations. I believe that they represent a genuinely constructive opportunity for schools to organise their teaching and learning responsibilities in a new way, focusing on the professionalism of teachers and enabling reward to be given for significant tasks which have an impact on the educational progress of pupils and the professional practice of other teachers. I am particularly glad to recognise the flexibilities, within an overall framework, recommended within the new teaching and learning responsibility payments system, and the emphasis on openness through the pay policy, which would give schools the freedom to establish the arrangements which suit their own needs, while openly justifying their decisions.

However, I am anxious that all schools should have sufficient time to prepare and consider what staffing structure is most appropriate for them before implementation of these pay changes. To promote clarity and consistency I propose that all schools' transition periods should begin on 1 January 2006, at which point TLR payments should be available and management allowances would cease to be awarded.

I also welcome the focus on restructuring, which will be key to enabling the transition from the existing management allowance system to be managed. Action on school restructuring in Wales will, of course, be for the Welsh Assembly to determine.

I agree that guidance to schools on restructuring, transition and the new TLR payments system will be very important. However, I believe that the guidance should not be restrictive or suggest different levels of TLR payment for different tasks or responsibilities. I believe that the detailed criteria and factors for the payment of TLRs should be the focus for schools' (and in the case of unattached teachers, LEAs') decisions, and that this should be sufficient to enable them to take appropriate decisions within the context of their own individual published structures. All parties will, as usual, be consulted on the development of statutory guidance.

I agree that the arrangements for the award of TLRs also require provisions for their future cessation and the recommendations of the STRB are sensible and helpful.

I welcome the proposed arrangements for transition from management allowances to TLRs, and the proposed provisions giving protections for teachers who would otherwise incur a reduction in salary, which are fair and reasonable.

Safeguarding arrangements for pay

We recommend that:

The framework for the operation of safeguarding that we describe below be adopted to apply to both current and future safeguarding arrangements:

Framework for the operation of safeguarding

A. Overarching principles

a. Teachers at all levels are protected from sudden drops in total salary which would otherwise occur through no fault of their own.

b. Safeguarding principles will be applied on a mandatory basis.

c. Safeguarding will operate on a fixed-period basis and the period will be three years (subject to the provisions in C below).

d. Safeguarding will be on a cash basis; and

e. The teacher must know at the start of the safeguarding period what safeguarding arrangements are applicable to any particular salary element and this must be set out in the teacher's salary statement at the start of the period.

B. Cases where safeguarding will operate

Subject to the basic principles in A above and the provisions in C below, safeguarding will apply in circumstances where:

a. The item concerned has been removed from the pay system;

b. The item concerned has been replaced, directly or indirectly, by another form or forms of payment which the teacher concerned is not receiving;

c. An individual school range has been reduced;

d. An LEA reorganisation, school closure, or redefinition of boundaries, means that a teacher continuing to work in the school or LEA as applicable would otherwise receive a reduced rate of pay; or

e. Internal school reorganisations take place.

C. Cases where safeguarding will not apply, or will cease to apply

Safeguarding will not apply, or will cease to apply, where any of the following circumstances occur:

a. The teacher moves school voluntarily;

b. The teacher chooses to apply, and applies successfully for another post within the school and accepts the terms and conditions of that post;

c. The teacher unreasonably refuses to carry out duties commensurate with the salary being received;

d. The teacher's total salary overtakes his safeguarded salary during the safeguarded period (excluding the effect of annual pay uplifts); or

e. The set period of time has elapsed (three years).

We also recommend:

That the framework be the vehicle within which the Secretary of State should deal with the safeguarding consequentials of future changes to the pay system; and

That the three-year time-limiting for safeguarding of current arrangements be applied to operate concurrently with the three-year period for the transitional arrangements to introduce revised school structures.

The issue of safeguarding has been flagged up by the STRB on successive occasions in the past, and it has previously requested evidence on it. I very much welcome the careful and detailed consideration which the STRB has now been able to give to this matter, in the light of evidence received. The proposed safeguarding provisions set out are reasonable and balanced and I support them.

I recognise the difficulties and sensitivities which exist in the context of bringing change to this area of the teachers' pay system, and the framework proposed will enable existing and future safeguarding to be handled on a fair, uniform and predictable basis. Moreover, the framework as proposed will ensure that teachers are protected from sudden drops in total salary which would otherwise occur through no fault of their own, for a suitable period. I also welcome the recommendation of the STRB that these detailed matters are handled in future using my subsidiary powers, within the context of the framework established, which seems to be entirely appropriate.

Pay arrangements for secondary mathematics and science advanced skills teachers

We recommend that:

In line with its policy of expanding the AST grade, the department looks at ways of getting more mathematics and science teachers with AST accreditation, but not in an AST post, into such posts, including, where appropriate, the creation of additional AST posts in these subjects;

This message be reinforced in the guidance to schools, primary and secondary, on the review of their structures which will take place as part of the transition to the new TLR system; and

Schools be encouraged to make greater use of the flexibilities they already have to set AST pay for these two subjects;

Paragraph 27.3 of the STPCD be amended so that the factors to which the relevant body has to have regard in setting the range for an AST's pay expressly include his or her being a teacher of a shortage subject or a subject where there is a particular need to raise the quality of teaching and learning.

The remit to the STRB invited it to consider the salary levels of secondary mathematics and science advanced skills teachers. The evidence backed this up by proposing that the cap on the pay of these teachers be removed, and to set a minimum level of salary of £40,000. This was proposed as part of the Government's approach to overcoming the national under-achievements in these two subjects and their impact on the economy, as identified in the reports of Professor Adrian Smith and Sir Gareth Roberts.

The STRB has reflected carefully on this but has concluded that at present it will not make recommendations along the lines proposed. It has indicated that this could be considered further in a future remit, in the wider context of teachers' remuneration as a whole. I continue to see benefits in making changes to the pay arrangements for these teachers in these important subject areas. I therefore am content to return to this matter in my next remit.

It has also made some specific pay-related proposals which I propose to accept. I will reflect further on the STRB's proposals relating to getting more mathematics and science teachers with an AST accreditation, but not currently in an AST post, into such posts.

Excellent Teacher Scheme

We recommend that the scheme should be introduced from September 2006, distinct from the main and upper pay scales. The scheme should be post-based and should be for exemplary classroom teachers with an established record of sustained high-quality teaching and of supporting colleagues within the school. Like ASTs they should be unable to hold TLRs, but unlike ASTs they should have no outreach function. They should

Continue to maintain high standards;

Demonstrate a commitment to develop themselves professionally;

Provide an exemplary role model for staff through their professional expertise; and

Have a distinctive role in achieving improvements in teaching across the school.

In addition to their normal classroom duties the specific expectations of an Excellent Teacher should be:

Induction of newly qualified teachers;

Professional mentoring of other teachers;

Sharing good practice through demonstration lessons;

Helping teachers to develop their expertise in planning, preparation and assessment;

Helping other teachers to evaluate the impact of their teaching on pupils;

Undertaking classroom observations to assist and support the performance management process; and

Helping teachers improve their teaching practice including those on capability procedures.

However, we also recommend the following:

The expectations of the role set out above should reflect more strongly an emphasis on general pedagogic experience and on coaching and mentoring, and reduce the apparent overlap with the AST grade and with TLR payments;

That teachers should be able to seek accreditation regardless of whether or not an ETS post is envisaged for their school and that the title of Excellent Teacher (though not the associated salary) should be granted once accreditation has been achieved; and

Serious consideration should be given to a separate name for the post associated with the scheme, and to our suggestion of "Principal Teacher".

We recommend that the criteria for accessing the scheme should be as follows:

The scheme should be based on written application. To qualify, the teacher should have to have been paid on U3 for at least two years, be willing to meet the expectations of an Excellent Teacher, and have their application endorsed by their head teacher. They would also need to provide evidence of work during their period on the upper pay scale that had addressed the identified needs of a particular group or groups of pupils; and successfully pass a procedure of external assessment against national standards;

A separate national (England and Wales) standard should be developed for the scheme, building on a common core of excellence with the AST standard, to take account of the distinctive profile and features of the scheme; subject to discussion with the Welsh Assembly Government, this standard might be based on the three themes of new professionalism in teaching[1] and the requirements of an Excellent Teacher should reflect more closely the three themes of new professionalism in teaching, again subject to discussion with the welsh assembly government;

The admission criteria for the scheme should include demonstration of a sustained record of continuing professional development throughout the teacher's career;

The arrangements should be clarified for movement between the scheme, ASTs and the leadership group; and

The scheme be open to any teacher who meets the criteria and has their head teacher's support, not just those in schools which have or envisage a post under the scheme.

The salary for the scheme should be a spot salary. We recommend the following baseline rates for the scheme, as at 1 September 2005: £35,000 in England and Wales, £35,988 in the fringe, £37,832 in outer London, and £41,745 in inner London. We do not think it appropriate at this stage to set a salary for September 2006.

We recommend that the basic structure of this reformed career system remain in its present form for the medium term.

We recommend a targeted communications exercise to ensure teachers are aware of the reformed career structure and the implications for them.

We recommend that the department monitors actively the bedding down of the ETS and how the ETS and AST schemes are used so the review body can revisit it in three years after the scheme's introduction.

I welcome the proposed creation of the post-based Excellent Teacher scheme, and believe that the arrangements set out give a firm basis for progress in its introduction. There are, however, some specific matters which require further consideration and on which I would invite particular comment.

I note the recommendation that the expectations of the role should be revised and I am happy to consider this further in the light of consultation responses and further discussions. The same applies to the proposal to develop a separate ETS standard taking account of new professionalism. It is certainly our intention to see the ETS—as well as standards for other teachers—in this light.

I believe that the proposal to enable widespread assessment for ETS, regardless of whether a post is available, should be a matter for further consideration and discussion, taking account of the necessity for effective implementation of the scheme. I do, however, have greater concerns about the STRB's concept of naming a teacher as an Excellent Teacher if they have passed assessment, if they are not in a post, while giving a new and separate name to those in post, and suspect that this may cause undue confusion. I would welcome views on this.

I note the initial salary outlines recommended, which provide a very helpful steer for the future. I shall refer this matter to the STRB in my next remit, in the context of a request for general consideration of salaries from September 2006.

Local approaches to pay and other matters

On localised approaches to pay we see no difficulty in postponing further consideration of this issue.

I accept this and, as indicated in evidence, will return to the matter in the context of my next remit.

We recommend that the National Employers' Organisation publishes the result of the LEA survey on unattached teachers and any additional steps to be taken to deal with the concerns about unattached teachers by the end of March 2005 so that we can consider progress and make any further recommendations we consider appropriate.

This is a helpful steer, which I shall ask NEOST to consider. I shall also seek to ensure that the framework and guidance on the implementation of the pay changes recommended here take as full account as possible of the position of unattached teachers.

We recommend that all the main parties be included in the process (on linking teaching and learning reviews to continuing professional development and career progression) as outlined in the remit letter of 22 July 2004.

I remain committed to the process with partners referred to in the 22 July remit. All parties will have the opportunity to respond to statutory consultation.

Next steps

I am now initiating consultation on these recommendations and my proposed response with the employers' organisation, the teacher unions and other interested parties.

Concurrently with this, I am consulting, as required under Section 126 of the Education Act 2002, on a pay order for introduction on 1 April 2005, the main purpose of which is to reform the safeguarded position of the small number of teachers on former points 4 and 5 of the upper pay scale, in line with the safeguarding principles set out above.

[1] *"New Professionalism" as set out in the department's five year strategy, sets out the proposal that career progression and financial rewards should be for those who are:*

making the biggest contributions to improving pupil attainment;

continually developing their own expertise; and

helping to develop expertise in other teachers.

Supplementary Estimates

The Secretary of State for Education and Skills (Ruth Kelly): Subject to parliamentary approval of any necessary supplementary estimate, the Department for Education and Skills departmental expenditure limit (DEL), (including the Office for Her Majesty's Chief Inspector of Schools (Ofsted) which has a separate estimate) will be increased by £458,501,000 from £28,162,769,000 to £28,621,270,000 and the administration costs limits will be increased by £16,424,000 from £272,362,000 to £288,786,000 to fund the departmental restructuring programme.

Within the DEL change, the impact on resources and capital is as set out in the following table:

	Resources				*Capital*			
	Change	*New DEL*	*Of which:*		*Change*	*New DEL*	*Of which:*	
			Voted	*Non-voted*			*Voted*	*Non-voted*
DfES	*£'000*	*£'000*	*£'000*	*£'000*	*£'000*	*£'000*	*£'000*	*£'000*
RfR 1	208,530	23,396,589	7,391,692	16,004,897	11,615	3,704,409	2,465,187	1,239,222
RfR 2	171,074	928,652	928,652	0	23,185	137,390	137,390	0
RfR 3	44,097	239,587	239,587	0	0	33	33	0
Ofsted	0	213,301	213,301	0	0	1,309	1,309	0
Sub Total	423,701	24,778,129	8,773,232	16,004,897	34,800	3,843,141	2,603,919	1,239,222
Depreciation*	0	-48,089	-12,343	-35,746	0	0	0	0
Total	423,701	24,730,040	8,760,889	15,969,151	34,800	3,843,141	2,603,919	1,239,222

* Depreciation, which forms part of resource DEL, is excluded from the total DEL, in the table above, since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

Within the administration cost limits changes, the impact is set out in the following table:

DfES	*Original £'000*	*Change £'000*	*Revised £'000*
DfES (RfR 1)	242,362	16,424	258,786
OFSTED	30,000		30,000
Total	272,362	16,424	288,786

Resource DEL

The change in the resource element of the DEL of £423,701,000 arises from a £101,530,000 increase in the voted element of the resource DEL and an increase of £322,171,000 in the non-voted element of the resource DEL mainly to the department's non-departmental public bodies.

Voted Resource DEL

The £101,530,000 increase in the voted element of the resource DEL arises from a £171,074,000 increase in RfR2 from the take up of £168,208,000 end year flexibility; transfer from RfR1 £6,122,000 for Sure Start local authority programmes and the correction of a National College of Schools Leadership winter supplementary transfer; the transfer to RfR1 £3,256,000 for the School Standards Foundation Plan, children's services and childcare for disabled children.

A £44,097,000 increase in RfR3 from the take-up of £48,235,000 end-year flexibility and the transfer to RfR1 £4,138,000 for children's services.

A £113,641,000 decrease in RfR1; the increase in administration costs £16,424,000; from the movement of £295,356,000 to non-voted resource DEL; the take up of £145,519,000 end year flexibility; the draw down £5,942,000 from non-voted departmental unallocated provision; the net transfer from the Department of Health of £1,033,000 for care standards tribunals, a contribution to the National Service Framework Conference, a contribution to the Bichard Implementation Project and for Children's Trusts; the transfer to the Department for Work and Pensions of £600,000 for administering young peoples bridging allowance; the transfer to the Department of Trade and Industry £75,000 for school teachers' pay and conditions; the transfer from the Home Office £400,000 for the Adult Learning Inspectorate review of prison education; the transfer from the Welsh Assembly £500,000 for student support; the transfer from the Department of Transport £3,300,000 for activities licensing; transfer to RfR2 £6,122,000 for Sure Start local authority programmes and correction of a National College of Schools Leadership winter supplementary transfer; the transfer from RfR2 £3,256,000 for the School Standards Foundation Plan, children's services and childcare for disabled children; transfer from RfR3 £4,138,000 for children's services; reclassification of £8,000,000 support for children and family capital to capital grants within resource.

Administration Cost Limits

The £16,424,000 increase in the administration cost limit arises from the take up of £17,274,000 end year flexibility to fund the departmental restructuring programme; transfer from the Department of Health £418,000 for children's services and protection of vulnerable adults; the transfer from the Cabinet Office £309,000 for the funding of the Parliamentary Council Office; the net transfer out to the Office for the Deputy Prime Minister £1,577,000 for Government Office Accommodation and Regional Co-ordination Unit costs and local public service agreements.

Non-voted Resource DEL

The £322,171,000 increase in non-voted resource DEL arises from the movement of £295,356,000 from voted resource DEL; the take up of £12,467,000 end year flexibility; the movement of £5,942,000 from departmental unallocated provision to voted support for children and families; the transfer from the Department for Work and Pensions £5,750,000 for Adult Learning Inspectorate, inspections of Jobcentre Plus; the transfer to the Department of Health £2,845,000 for teachers' pension costs and clinical scientists; the net reclassification of capital to capital grants within resource of £17,385,000 from school credit approvals to support for scientific research and innovation.

Capital DEL

The change in the capital element of the DEL of £34,800,000 arises from a £276,874,000 increase in the voted element of capital DEL and a decrease of £242,074,000 in the non-voted element of the capital DEL.

Voted Capital DEL

The £276,874,000 increase to the voted element of capital DEL arises from a £253,689,000 increase in RfR1; from the movement of £247,689,000 from non-voted capital DEL; the take up of £10,000,000 end year flexibility; the reclassification of capital to capital grants within resource of £4,000,000 to support teachers' television from other capital programmes.

A £23,185,000 increase in RfR2 from the take up of end year flexibility.

Non-voted capital DEL

The £242,074,000 decrease to the non-voted element of capital DEL arises from the movement of £247,689,000 from non-voted to voted capital DEL; the take up of £27,000,000 end year flexibility; the net reclassification of £17,385,000 from schools credit approvals to support for scientific research and innovation; £4,000,000 from schools credit approvals to support teachers' television capital to voted capital DEL.

HEALTH

Supplementary Estimates

The Secretary of State for Health (Dr. John Reid): Subject to the necessary supplementary estimate, the Department of Health's element of the departmental expenditure limit (DEL) will be increased by £14,855,000 from £72,298,859,000 to £72,313,714,000 and the administration cost limit will be increased by £23,218,000 from £257,970,000 to £281,188,000. The Food Standards Agency DEL remains unchanged at £152,478,000. The overall DEL including the Food Standards Agency will increase by £14,855,000 from £72,451,337,000 to £72,466,192,000. The impact on resource and capital are set out in the following table:

£'000s

	Change £ million	Voted £ million	New DEL Non-voted £ million	Total £ million
Department of Health				
Resource DEL	14.855	69,558.825	-375.409	69,183.416
Capital DEL	0	855.800	2,274.498	3,130.298
Total Department of Health DEL	14.855	70,414.625	1,899.089	72,313.714
Depreciation*	0.019	-510.362	-44.477	-554.839
Total Department of Health spending (after adjustment)	14.874	69,904.263	1,854.612	71,758.875
Food Standards Agency				
Resources	0	151.831	0	151.831
Capital	0	0.647	0	0.647
Total Food Standards Agency DEL	0	152.478	0	152.478
Depreciation*	0	-2.004	0	-2.004
Total Food Standards Agency spending (after adjustment)	0	150.474	0	150.474

** Depreciation, which forms part of resource DEL, is excluded from the total DEL since the capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.*

The change in the DEL arises from net transfers from the Department for Education and Skills of £1,394,000 (£-418,000 administration costs) for pension costs, clinical scientists, conferences and the care standards tribunal, offset by funding for children's trusts, children's service teams, costs of the vulnerable adults scheme and a contribution towards the funding of the recommendations of the Bichard Inquiry. A transfer from the Home Office of £14,691,000 for the pooled drug treatment budget and funding for prison healthcare. A transfer from DHSS Northern Ireland of £523,000 (£10,000 administration costs) for out of area treatments and a contribution to the national screening committee. A transfer to the National Assembly for Wales of £2,229,000 mainly for cross border flows and high security psychiatric services. A transfer from the Cabinet Office of £546,000 (administration costs) for funding services provided by the Parliamentary Counsel. A net transfer to the Office of the Deputy Prime Minister of £6,000 (£80,000 increase in administration costs) for a contribution towards long term social services support through partnership arrangements, offset by funding local public service agreements. A transfer to the Department of Trade and Industry of £64,000 for review body pay awards.

The administration cost limit has increased by £23,218,000 from £257,970,000 to £281,188,000 mainly for change management costs and transfers detailed above. There are no changes to the Food Standards Agency's departmental expenditure limit and administration cost limit.

INTERNATIONAL DEVELOPMENT

Supplementary Estimates

The Secretary of State for International Development (Hilary Benn): Subject to parliamentary approval of the necessary Supplementary Estimate, the Department for International Development departmental expenditure limit (DEL) will be increased by £163,106,000 from £3,758,690,000 to £3,921,796,000 and the administration costs limit will be increased by £10,024,000 from £222,000,000 to £232,024,000. Within the DEL change, the impact on resources and capital are as set out in the following table:

£'000s

	Change	Voted	New DEL Non-voted	Total
Resource	136,078	3,293,768	607,500	3,901,268
Capital	22,528	40,528		40,528
Depreciation*	4,500	-20,000		-20,000
Total	163,106	3,314,296	607,500	3,921,796

** Depreciation, which forms part of the resource DEL, is excluded from the total DEL, since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.*

The change in the resource element of the DEL arises from:

Voted

A partial draw down of £10,000,000 of administration costs end year flexibility, as set out in the Public Expenditure 2003–04 Provisional Outturn White Paper (Cm 6293), for the administration of development programmes, humanitarian assistance, systems to improve efficiency, and the administration costs of the new Post-Conflict Reconstruction Unit.

A full draw down of £153,092,000 of other resource end year flexibility, as set out in the Public Expenditure 2003–04 Provisional Outturn White Paper (Cm 6293), for development programmes in sub-Saharan Africa and Asia and for programmes contributing to multiple objectives, and for the programme costs of the new Post-Conflict Reconstruction Unit.

A claim on the reserve of £25,000,000 in respect of humanitarian assistance following the earthquake and tsunami in south-east Asia.

A transfer of £500,000 from the Department for Environment, Food, and Rural Affairs for development projects in Russia and the Ukraine.

A transfer of £24,000 of administration costs from the Cabinet Office relating to DfID's use of the Parliamentary Counsel's Office.

A transfer of £6,500,000 from the Foreign and Commonwealth Office for planned programme activity on global conflict prevention.

A reduction of £1,038,000 in respect of a transfer to the Foreign and Commonwealth Office for planned programme activity on conflict prevention in Africa.

A reduction of £16,000,000 relating to a transfer to the capital DEL of subscription costs for the European Bank for Reconstruction and Development.

A reduction of £35,000,000 relating to the reclassification of the costs of DfID's investment in CDC Group plc from the DEL to annually managed expenditure.

Non-voted

A reduction of £7,000,000 relating to transfers of Africa conflict prevention unallocated provision to the Ministry of Defence (£2,920,000) and the Foreign and Commonwealth Office (£4,080,000).

The change in the capital element of the DEL arises from:

Voted

A draw down of £6,528,000 of capital end-year flexibility, including £6,064,000 vired from other resource, as set out in the Public Expenditure 2003–04 Provisional Outturn White Paper (Cm 6293) for investment in improvements to management information and financial systems, acquisition of equity in Actis Capital llp, and the initial capital costs of the new Post-Conflict Reconstruction Unit.

An increase of £16,000,000 relating to a transfer from the resource DEL of subscription costs for the European Bank for Reconstruction and Development.

The change in the adjustment for depreciation arises from forecasts being lower, by £4,500,000, than the total included in the Main Estimate.

NORTHERN IRELAND

Supplementary Estimates

The Secretary of State for Northern Ireland (Mr. Paul Murphy): Subject to parliamentary approval the Northern Ireland Office (NIO) will be taking a 2004–05 spring Supplementary Estimate. The effect this will have is to increase the NIO's DEL by £47,954,000 from £1,236,190,000 to £1,284,144,000. Within the DEL change, the impact on resource and capital is as set out in the following table:

Resource (£'000s)				*Capital (£'000s)*			
Change	*New DEL*	*Of which: voted*	*Non-voted*	*Change*	*New DEL*	*Of which: voted*	*Non-voted*
48,054	1,201,508	344,087	857,421	(100)	82,636	35,561	47,075

The change in the resource element of the DEL by £48,054,000 arises from the draw down of £50,281,000 end-year flexibility and the surrender of PES transfers to other departments of £2,227,000.

The extra resource is primarily required to fund a non-budget pressure relating to the PSNI FTR severance provision.

The change in the capital element of the DEL arises from the surrender of PES transfers to other departments of £100,000.

PRIME MINISTER

Senior Salaries

The Prime Minister (Mr. Tony Blair): The 27th report of the Review Body on Senior Salaries, which makes recommendations about the pay of the Senior Civil Service, senior military personnel and the judiciary, is being published today. Copies are available in the Vote Office and the Libraries of the House. The Government are grateful to the chairman and members of the review body for their work.

The main recommendations of the review body for the Senior Civil Service are:

An uplift from 1 April 2005 of 2.5 per cent to the pay range minima and target rates for each of the Senior Civil Service pay bands below Permanent Secretary and a 3 per cent uplift to the pay range ceilings;

Individual base pay awards to range from 0 to 9 per cent depending on contribution with an average award of 4.2 per cent;

The bonus pot to increase by 1 per cent to 5 per cent of pay bill and that the minimum non-consolidated bonus payment to remain at £2,500;

The Permanent Secretaries' new range is to be £130,350 to £264,250;

Further information should be collected on the reasons why senior civil servants leave the service.

The main recommendation of the review body for the senior military is:

An increase from 1 April 2005 of 2.5 per cent in the incremental pay scales for senior military officers.

The main recommendation of the review body for the judiciary is:

An increase from 1 April 2005 of 3 per cent in judicial salaries.

The Government accept these recommendations. Their cost will be met within existing departmental expenditure limits.

Pay increases for Members of Parliament and Ministers are linked automatically to the movement of the mid point of the pay bands for the Senior Civil Service. Their salaries will therefore increase by 2.8 per cent from 1 April 2005.

Supplementary Estimates

The Prime Minister (Mr. Tony Blair): Subject to parliamentary approval of any necessary supplementary estimate, the Security and Intelligence Agencies' departmental expenditure limit (DEL) will be increased by £72,799,000 from £1,333,590,000 to £1,406,389,000 and the administration costs limits will be increased by £23,713,000 from £603,517,000 to £627,230,000. This includes available Departmental Unallocated Provision, which was not included in the written statement for the Winter Supplementary Estimate. Within the DEL change, the impact on resources and capital are as set out in the following table:

£'000s

	Change	*Voted*	*New DEL Non-voted*	*Total*
Resource	63,982,000	1,198,482,000	3,000,000	1,201,482,00
Capital	8,817,000	200,512,000	4,152,000	204,664,00
Depreciation*	-6,058,000	-147,025,000	-	-147,025,00
Total	66,741,000	1,251,969,000	7,152,000	1,259,121,00

** Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.*

The change in the resource element of the DEL arises from:

the take up of end of year flexibility of £51,393,000;

a transfer of £4,199,000 from the Foreign and Commonwealth Office for conflict prevention;

a transfer of £45,000 from the Cabinet Office for funding the resource element of a Capital Modernisation project;

a transfer of £3,000 from the Northern Ireland Office to contribute towards administrative funding;

a transfer of £185,000 to the Home Office for collaborative research programmes;

a switch from capital to resource of £8,527,000.

The change in the capital element of the DEL arises from:

the take up of end of year flexibility of £15,344,000;

a transfer of £2,000,000 from the Cabinet Office for the funding of a Capital Modernisation project;

a switch from capital to resource of £8,527,000.

SCOTLAND

Supplementary Estimates

The Secretary of State for Scotland (Mr. Alistair Darling): Subject to parliamentary approval of the necessary Supplementary Estimates, the Scotland Departmental Expenditure Limit (DEL) will be increased by £417,028,000 from £22,004,521,000 to £22,421,549,000.

The DEL increase takes account of the following:

a classification change in respect of the transfer of Supporting People from Annually Managed Expenditure (AME) to DEL of £418,000,000; and

the DEL increase also includes the following transfers between the Scottish Executive and other Government departments, amounting to a net decrease of £972,000. These are:

net transfers of £766,000 to the Home Office (Security Enhancements, a scoping study for the Security Industry and Queen's Golden Jubilee Awards);

net transfers of £383,000 to the Department for Work and Pensions (Fair for All initiative & Family Resources Survey);

a transfer of £14,000 to the National Assembly for Wales (out of Area Treatments); and

a transfer of £191,000 from the Northern Ireland Assembly (out of Area Treatments).

The DEL increases will be offset by interdepartmental transfers as detailed above or charged to the DEL Reserve and will not therefore add to the planned total of public expenditure.

SOLICITOR GENERAL

Prosecution of British Soldiers

The Solicitor-General (Ms Harriet Harman): My right hon. Friend the Attorney-General has made the following Ministerial Statement:

"Further to my Statement of 4 February 2005 (*Official Report*, col. *WS 21–22*), two additional individuals have now been told of the charges they face. They are Private Monet Vosloo of the 3rd Battalion, the Parachute Regiment, and former member of the same regiment, Scott Jackson, who is now a civilian. The charges relate to an incident which allegedly took place on 11 May 2003 in Al U'Zayra in southern Iraq."

TRADE AND INDUSTRY

Supplementary Estimates

Secretary of State for Trade and Industry (Ms Hewitt):

Expenditure Limits

Subject to parliamentary approval of the necessary Supplementary Estimate, the Department of Trade and Industry's DEL will be increased by £204,689,000 from £5,493,803,000 to £5,698,492,000 and the administration costs limit will be reduced by £39,392,000 from £436,805,000 to £397,413,000.

Within the DEL change, the impact on resources and capital is as set out in the following table:

	Change	*Voted*	*New DEL Non-voted*	*Total*
Resource (£000)	120,589	1,214,013	4,201,986	5,415,999
Capital (£000)	84,100	-11,564	294,057	282,493
Depreciation* (£000)	-11,172	-9,277	-98,420	-107,697
Total (£000)	193,517	1,193,172	4,397,623	5,590,795

* *Depreciation, which forms part of resource DEL is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.*

The change in the resource element of the DEL arises from:

RfR1

(i) utilisation of £19,354,000 from the unused balance of the department's end-year flexibility entitlement in respect of impairment of venture capital funds;

(ii) utilisation of £3,000,000 from the unused balance of the department's end-year flexibility entitlement in respect of nuclear support to the former Soviet Union;

(iii) a transfer of £45,000 from the Department of Health in respect of the Doctors and Dentists Pay Review Body;

(iv) a transfer of £19,000 from the Department of Health in respect of the Nurses and Other Health Professions Pay Review Body;

(v) a transfer of £75,000 from the Department for Education and Skills in respect of the School Teachers Pay Review Body;

(vi) a transfer of £50,000 from the Department for Transport in respect of the FP6 Sustainable Surface Transport programme;

(vii) a transfer of £524,000 to the Department for Environment, Food and Rural Affairs in respect of the Red Meat Industry Forum;

(viii) an increase to reflect reclassification of £3,500,000 from the Performance and Innovation Fund in respect of renewable energy;

(ix) reclassification of £2,925,000 to RfR2 in respect of SETNET (Science, Engineering, Technology and Mathematics Network);

(x) reclassification of £30,000,000 from the non-voted non-fossil fuel obligation in respect of renewable energy;

(xi) reclassification of £271,000 from non-voted expenditure to voted expenditure, to reflect the funding of Smart and Enterprise grant teams and business link regional teams co-location costs, via regional development agencies;

Other Non-voted

There is also take-up of end-year flexibility by regional development agencies of £6,500,000 to provide for bad debts related to broadband aggregation bodies and £10,000,000 for write-downs of stock related to regeneration properties, an increase of £42,000 to reflect a transfer from the Department for Environment, Food and Rural Affairs for the Sustainable Consumption Round Table, and surrender of £30,000,000 relating to the non-fossil fuel obligation which is no longer required.

RfR2

(i) a transfer of £32,000 to the Foreign and Commonwealth Office in respect of the Year of Science in China;

(ii) reclassification of £2,925,000 from RfR1 in respect of SETNET (Science, Engineering Technology and Mathematics Network);

Also within the change to resource DEL, the changes to the administration costs limit are (RfR1):

(i) a transfer of £105,000 from the Department of Environment, Food and Rural Affairs in respect of the Farm Business Advice Service;

(ii) utilisation of £18,000,000 from the unused balance of the department's end-year flexibility entitlement in relation to provisions for the voluntary early retirement scheme;

(iii) a transfer of £1,155,000 from the Cabinet Office in respect of the Parliamentary Counsel Office;

(iv) a transfer of £700,000 to the Office of the Deputy Prime Minister in relation to Government Office administration;

(v) a reduction of £11,172,000 in respect of the reduction in Radiocommunications Agency non-cash expenditure and associated programme receipts following the transfer of its functions to Ofcom;

(vi) a reduction of £46,780,000 in respect of the reclassification of the Advisory Conciliation and Arbitration Service (ACAS).

Office of the Deputy Prime Minister Main Estimate

(i) utilisation of £90,000,000 of the department's 2005–06 departmental expenditure limit for European Regional Development Fund expenditure borne of the Office of the Deputy Prime Minister's estimate under the procedures for anticipating future years' expenditure that apply to this budget.

The change in the capital element of the DEL arises from:

RfR1

(i) utilisation of £70,000,000 from the unused balance of the department's end-year flexibility entitlement for launch investment;

(ii) utilisation of £17,600,000 from the unused balance of the department's end-year flexibility entitlement for Enterprise Fund venture capital;

(iii) utilisation of £12,509,000 from the unused balance of the department's end-year flexibilityentitlement in respect of a shortfall of receipts in relation to commercial best practice;

(iv) a reduction of £12,509,000 in respect of the transfer of the functions of Radiocommunications Agency to Ofcom;

(v) a reduction to reflect reclassification of £3,500,000 from the Performance and Innovation Fund in respect of renewable energy.

RfR2

(i) reclassification of £1,000,000 from voted expenditure to non-voted expenditure, to reflectco-funding from the Department for Environment, Food and Rural Affairs of the Biotechnology and Biological Sciences Research Council.

TRADE AND INDUSTRY

Supplementary Estimates

The Secretary of State for Trade and Industry (Ms Patricia Hewitt): Subject to Parliamentary approval of the necessary Supplementary Estimate, UK Trade & Investment's Resource DEL will be increased by £2,000,000 from £99,087,000 to £101,087,000. Within the DEL change, the impact on resources and capital are set out in the following table:

£'000s

	Change	Voted	New DEL Non-voted	Total
Resource	2,000	101,087	0	101,087
Capital	0	248	0	248
Depreciation*	0	-187	0	-187
Total	2,000	101,148	0	101,148

** Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.*

The change in the resource element of the DEL arises from:

i. utilisation of £2,000,000 from the unused balance of the Department's End-Year Flexibility entitlement to meet the increased requirement for resources particularly in the regions and on inward investment.

TRANSPORT

Supplementary Estimates

The Secretary of State for Transport (Mr. Alistair Darling): Subject to Parliamentary approval of any necessary supplementary estimate, the Department for Transport DEL for 2004–05 will be increased by £204,113,000 from £10,943,862,000 to £11,147,975,000 and the administration costs limits will be increased by £5,486,000 from £215,484,000 to £220,970,000. Within the DEL change, the impact on resources and capital are as set out in the following table:

£'000s

	Change	Voted	New DEL Non-voted	Total
Resource	589,904	4,509,002	3,845,178	8,354,180
Capital	-127,646	1,954,071	1,443,992	3,398,063
Depreciation*	-258,145	-592,941	-11,327	-604,268
Total	204,113	5,870,132	5,277,843	11,147,975

** Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.*

The £263,319,000 increase in the voted resource element of the DEL arises from:

(i) take up of £274,096,000 reserve claim for the Highways Agency, in respect of reclassification of expenditure from capital to resource (£40,000,000) and in respect of depreciation of the road network, writedown of fixed assets, net increase in provisions, loss on disposal of assets and provision for bad debts (£234,096,000 non cash);

(ii) take up of £47,200,000 end year flexibility, comprising:

(a) £42,200,000 for the Highways Agency in respect of depreciation of the road network; and
(b) £5,000,000 (administration costs) for central administration;

(iii) a net transfer of £3,189,000 to other government departments, comprising:

(a) £3,300,000 to the Department for Education and Skills for school travel adviser funding;

(b) £297,000 to the Department for Work and Pensions for the Disability Rights Commission and Code of Practice on Transport;

(c) £50,000 to the Department of Trade and Industry for sustainable surface transport;

(d) £28,000 to the Department for Environment Food and Rural Affairs for coast protection and harbour works; partially offset by

(e) £322,000 (administration costs) from the Cabinet Office (Parliamentary Counsel Office) to reflect charges for Parliamentary Counsel;

(f) £25,000 (administration costs) from the Department for Work and Pensions (Health and Safety Executive) for the dangerous goods branch; and

(g) £139,000 (administration costs) from the Office of the Deputy Prime Minister for local Public Service Agreements (£60,000) and the Disabled Persons Transport Advisory Committee (£79,000);

(iv) a net transfer to non-voted resource provision of £55,379,000 comprising:

(a) a transfer of £61,699,000 to cover Highways Agency utilisation of provisions;

(b) a transfer of £7,350,000 to cover vehicle excise duty collection costs by the Driver and Vehicle Licensing Agency (£5,600,000) and a shortfall in dividends from the Vehicle and Operator Services Agency and Driving Standards Agency trading funds (£1,750,000); partially offset by

(c) a transfer from DVLA non voted provision of £13,000,000 in respect of a reduction in Vehicle Excise Duty enforcement receipts;

(d) a transfer from non voted provision of £570,000 in respect of Channel Tunnel Rail Link project costs;

(e) a transfer from non voted provision of £100,000 in respect of enforcement activities by the Vehicle and Operator Services Agency; and

(v) a drawdown of £591,000 in advance from the European Regional Development Fund PES pool for the European Regional Development Fund.

Within the non-voted resource element of the DEL, there has been an increase of £326,585,000 comprising:

(i) a take up of £235,352,000 reserve claim comprising:

(a) £154,352,000 (non cash) for the Highways Agency for an adjustment in respect of release of provisions; and

(b) £81,000,000 for the Strategic Rail Authority towards funding requirements following the Interim Regulatory Review.

(ii) a transfer of £100,000 to the Office of the Deputy Prime Minister, to enable the participation of British Transport Police in the key worker scheme;

(iii) a net transfer of £55,379,000 from the voted resource element of the DEL;

(iv) a transfer of £38,631,000 from the voted capital element of the DEL towards Strategic Rail Authority funding requirements following the Interim Regulatory Review;

(v) a net transfer of £2,251,000 to the non voted capital element of the DEL comprising:

(a) a transfer of £4,751,000 in respect of capital expenditure by the Driver and Vehicle Licensing Agency offset by increased non voted resource receipts; partially offset by

(b) a transfer from non voted capital provision of £2,500,000 towards Strategic Rail Authority funding requirements following the Interim Regulatory Review;

(vi) a decrease to reflect reclassification of £426,000 receipts in respect of Humber Bridge interest repayments from non-budget provision to DEL.

As a result of the above changes to the resource element of the DEL there has been an increase of £5,486,000 in the gross administration costs limit, from £215,484,000 to £220,970,000.

The decrease of £114,525,000 in the voted capital element of the DEL arises from:

(i) a reduction of £118,000,000 to address an imbalance of Highways Agency budgets arising from reclassification of expenditure between capital and resource;

(ii) a take up of £6,100,000 end year flexibility for the Driver, Vehicle and Operator Group One Stop Service programme;

(iii) a transfer of £1,045,000 from the Office of the Deputy Prime Minister for central administration:

(iv) a transfer of £38,631,000 to the non voted resource element of the DEL;

(v) a net transfer of £34,432,000 from the non voted capital element of the DEL, comprising:

(a) a transfer of £9,950,000 to increase voted capital provision for Ports and Shipping services, in respect of the reclassification of trust ports as public corporations;

(b) a transfer of £31,609,000 to increase voted capital provision for Greater London Authority Transport Grant, in respect of the East London Line extension and Crossrail; partially offset by

(c) a transfer from voted capital provision of £3,200,000 for the British Transport Police Authority capital programme;

(d) a transfer from Highways Agency voted capital provision of £2,057,000 in respect of de-trunking;

(e) a transfer of £1,870,000 from voted capital provision of the Driver Vehicle and Operator Group to the Driver and Vehicle Licensing Agency trading fund in relation to the One Stop Service programme; and

(vi) a drawdown of £529,000 in advance from the European Regional Development Fund PES pool for the European Regional Development Fund.

The net decrease of £13,121,000 in the non-voted capital element of the DEL arises from:

(i) a reduction of £3,000,000 in departmental unallocated provision;

(ii) a take up of £26,130,000 end year flexibility, comprising:

(a) £26,000,000 for de-trunking;

(b) £130,000 for the Driver, Vehicle and Operator Group One Stop Service programme;

(iii) a net transfer of £2,251,000 from the non-voted resource element of the DEL;

(iv) a net transfer of £34,432,000 to the voted capital element of the DEL; and

(v)a decrease to reflect reclassification of £4,070,000 receipts from non-budget provision to DEL, in respect of principal repayments for Humber Bridge (£1,443,000); Tyne Tunnel (£1,342,000); and the second Mersey Tunnel (£1,285,000).

WALES OFFICE

Supplementary Estimates

The Secretary of State for Wales (Mr. Peter Hain): As a result of the 2004–05 winter supplementary estimate, the Wales departmental expenditure limit (DEL) increased by £109,058,000 from £11,789,595,000 to £11,898,653,000.

The increase was a result of:

Take up of EYF entitlement	£130,000,000
Additional provision for Child Poverty	£78,000

Transfers to and from the National Assembly for Wales:

Transfers In	
From DWP for Work Based Learning for Adults	£28,000
From DFES for Hardship Loans	£591,000
From DWP for Sure Start	£184,000
From DoH for Out of Areas Treatments	£11,128,000
From DoH for publications	£32,000
From Home Office for Operation Tarian	£315,000
From Home Office for CRU running costs	£602,000
From Home Office for a Business Crime Advisor	£52,000
From Home Office for Social Cohesion	£64,000
Total	£12,996,000
Transfers Out	
To the Scottish Executive for the 15th Conference of the Commonwealth Education Ministers	(£100,000)
To the Department for Constitutional Affairs (transfer of services to the Wales Office)	(£490,000)
To the Met Office for NMP and NSWWS	(£611,000)
To DWP for Housing Benefit and Council Tax Subsidy	(£23,615,000)
To DWP for Administration Subsidy 2004–05	(£9,200,000)
Total	(£34,016,000)
Net transfers out	(£21,020,000)
Net change to Wales DEL	£109,058,000

As a result of the above transfers provision within the Wales Office increased by £490,000. This expenditure is contained within the single DCA DEL and Administration Costs Limit.

Spring Supplementary Estimate 2004–05

Subject to Parliamentary approval of any necessary Supplementary Estimate, the Wales Departmental Expenditure Limit (DEL) Wales Administration costs will be increased by £287,528,000 from £11,413,862,000 to £11,701,390,000.

The changes are a result of:

The take-up of Departmental Expenditure Limit end year flexibility of for the National Assembly for Wales;	£156,000,000
Net transfers from other Government Departments to the National Assembly for Wales of	£2,106,000
The movement of the Supporting People programme from AME to DEL	£121,000,000
A machinery of Government change with the responsibility for the Fire Service devolved to the National Assembly for Wales. This has led to an increase to the DEL.	£8,422,000
Net change to Wales DEL	£287,528,000

Transfers are as follows:

Transfer In	
From the DWP for Adult Learning Inspectorate;	£200,000
From the Home Office for Prison Health—Pay Uplift;	£51,000
From the Home Office for Prison Health - (Estate Planning and Development Group)	£71,000
From the DoH for Dental Sift;	£13,000
From the DoH for High Security Psychiatric Services;	£192,000
From the DoH for Cross Border Flows	£2,024,000
From the Scotland Office for Out of Areas Treatments	£14,000
From the Northern Ireland Office for Out of Areas Treatments	£7,000
From the Home Office for Golden Jubilee Awards	£34,000
Total	£2,606,000
Transfers Out	
To DfES for part time student support;	(£500,000)
Total	(£500,000)
Net Transfer Total	£2,106,000

The increase in DEL will be charged to the reserve or offset by transfers from other Departments and will not therefore add to the planned total of public expenditure.

Wales DEL provision for Wales Office increased by £16,000 as a result of a transfer from Parliamentary Counsel Office. Wales Office spending is contained within single Department of Constitutional Affairs Departmental Expenditure Limit and Administration Costs Limit.

WORK AND PENSIONS

Benefit Fraud (Redbridge)

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. Chris Pond): On behalf of my Rt hon. Friend the Secretary of State for Work and Pensions, the BFI inspection report on the London Borough of Redbridge was published on 17 February 2005 and copies of the report are available in the Library.

In 2003–04, the London Borough of Redbridge administered some £82.1 million in housing benefits, about 13.5 per cent. of its gross revenue expenditure. BFI reviewed the counter-fraud arrangements in place to protect these significant sums, at the invitation of the Borough.

BFI found that Redbridge gives a high priority to combating benefit fraud and that the Investigation Team is experienced and sharply focused on deterring fraud. The Team raises a considerable number of sanctions against fraudsters and is well supported by council Members and managers.

However, BFI have serious concerns about:

- inappropriate use of authorised individual's powers when obtaining information from third parties;
- a poor relationship with the department's Counter Fraud Investigation Service;
- non-compliance with the provisions of the code of practice on covert surveillance;

failure to follow the Department's guidance on the administration of formal cautions;

breaches of the Police and Criminal Evidence Act 1984 in half of the interviews under caution examined by BFI;

the nature of referrals from the Metropolitan Police to the Investigation Team.

My Rt hon. Friend the Secretary of State is now considering the report and may ask the council for its proposals in response to BFI's findings and recommendations.

BFI will continue to undertake inspections focused on counter-fraud arrangements in other local authorities.

BFI is an independent unit within the Department for Work and Pensions that inspects and reports directly to the Secretary of State for Work and Pensions on the standard of Benefits administration and counter-fraud activity in local authorities and the Department itself.

Supplementary Estimates

The Secretary of State for Work and Pensions (Alan Johnson): Subject to Parliamentary approval of any necessary Supplementary Estimate, the Department for Work and Pensions DEL will be increased by £151,841,000 from £8,497,041,000 to £8,648,882,000 and the administration costs limits will be increased by £124,621,000 from £5,995,966,000 to £6,120,587,000. Within the DEL change, the impact on resources and capital are as set out in the following table:

£'000s

	Change	*Voted*	*New DEL Non-voted*	*Total*
Resource	147,571	7,283,080	1,188,829	8,471,909
Capital	4,000	293,445	1,202	294,647
Depreciation*	270	-116,960	-714	-117,674
Total	151,841	7,459,565	1,189,317	8,648,882

** Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.*

The change in the resource element of the DEL arises from:

RfR2

i. an increase in provision of £24,000,000 (grants) in Section Z due to increased spending by the European Social Fund with an equivalent increase in appropriations in aid in Section AC (take up of end of year flexibility);

ii. an increase in provision of £297,000 (administration costs) due to a transfer from the Department for Transport for work on a code of practice for transport;

iii. an increase in provision of £122,000 (administration costs) in Section A due to a transfer from the Department for Constitutional Affairs for implementation of the Fines Project;

iv. an increase in provision of £1,377,000 (administration costs) in Section A due to a transfer from the Office of the Deputy Prime Minister in respect of Neighbourhood Renewal;

v. an increase in provision of £131,000 (administration costs) in Section A due to a transfer from the Scottish Executive in respect of work undertaken by the Disability Rights Commission;

vi. an increase in provision of £65,000 (administration costs) in Section A due to a transfer from the Office of the Deputy Prime Minister for the administration costs of local Public Service Agreements;

vii. an increase in provision of £600,000 (administration costs) in Section A due to a transfer from the Department for Education and Skills in respect of Young Persons' Bridging Allowance;

viii. a reduction in provision of £5,750,000 (other current) in Section B due to a transfer to the Department for Education and Skills for costs incurred by the Adult Learning Inspectorate;

ix. a reduction in provision of £200,000 (other current) in Section B due to a transfer to the Welsh Assembly for costs incurred by the Adult Learning Inspectorate;

x. a reduction in provision of £25,000 (administration costs) in Section C due to a transfer to the Department for Transport in relation to the Carriage of Dangerous Goods;

RfR3

xi. an increase in provision of £100,000 (administration costs) due to a transfer from the Office of the Deputy Prime Minister in respect of Neighbourhood Renewal;

xii. a reduction in provision of £63,000 (administration costs) in Section A due to a transfer to Northern Ireland SSA in respect of work on Winter Fuel payments;

RfR5

xiii. an increase in provision of £115,000,000 (administration costs) in Section A due to additional spending on Departmental Modernisation (end of year flexibility);

xiv. a reduction in provision of £420,000 (administration costs) in Section A due to a transfer to the Inland Revenue in respect of the Payment Modernisation Project;

xv. a reduction in provision of £1,241,000 (administration costs) in Section A due to a transfer to the Inland Revenue for the costs of the Cheque Payment Service;

RfR6

xvi. an increase in provision of £13,000,000 (administration costs) in Section A due to additional spending by Corporate Services (end of year flexibility);

xvii. an increase in provision of £326,000 (administration costs) in Section A due to a transfer from the Cabinet Office for funding of the Parliamentary Counsel Office;

xviii. an increase in provision of £252,000 (administration costs) in Section A due to a transfer from the Scottish Executive for work carried out on the Family Resources Survey;

The change in the capital element of the DEL arises from:

RfR5

xix. an increase in provision of £4,000,000 in Section A due to increased spending on Departmental Modernisation (take up of End Year Flexibility);

Administration Costs

The movement in the Administration Cost limit arises from those items noted above as affecting administration costs plus the following item which is neutral in terms of overall resource DEL but which impacts the Administration Cost limit:

xx. a transfer of £4,900,000 from administration to other current in respect of the Employment Development and Modernisation Fund;

Movements from Non-voted expenditure

Additionally there are the following draw downs that are neutral in overall DEL terms:

Departmental Unallocated Provision

xxi. £5,000,000 into RfR1 for additional costs incurred by the Child Support Agency;

xxii. £2,000,000 into RfR2 for additional costs incurred by the Health and Safety Executive in connection with the Cullen report;

xxiii. £1,950,000 into RfR3 for additional costs incurred by the Pension Service;

xxiv. £76,507,000 into RfR6 for additional costs incurred by Corporate Services;

Welfare Modernisation Fund

xxv. £74,122,000 (resource) and £22,800,000 (capital) into RfR5 for expenditure on the modernisation of the Department;

Employment Development Fund

xxvi. £83,000,000 into RfR2 for employment related expenditure;

Employment Development and Modernisation Fund

xxvii. £74,700,000 into RfR2 for employment related expenditure.

Written Ministerial Statements

Wednesday 23 February 2005

TREASURY

Budget Statement

The Chancellor of the Exchequer (Mr. Gordon Brown): I propose to deliver my Budget Statement to the House on Wednesday 16 March.

CONSTITUTIONAL AFFAIRS

Community Legal Service (Asylum and Immigration) Regulations

The Parliamentary Under-Secretary of State for Constitutional Affairs (Mr. David Lammy): Earlier today my noble Friend the Parliamentary Under-Secretary of State for Constitutional Affairs, Baroness Ashton of Upholland, made a statement in the other place reporting that she had laid before Parliament, in accordance with section 103D of the Nationality, Immigration and Asylum Act 2002 as inserted by section 26 of the Asylum and Immigration (Treatment of Claimants, etc.) Act 2004, the Community Legal Service (Asylum and Immigration) Regulations 2005. These regulations prescribe the procedure to be followed by the Asylum and Immigration Tribunal and the High Court, when retrospectively awarding legal aid for challenges to decisions of the Tribunal.

These regulations will come into force on 4 April. The new legal aid arrangements are being introduced to support the new Asylum and Immigration Tribunal and the new system of access to the higher courts, by discouraging weak applications. This will contribute to increasing speed and efficiency within the appeals process and ensuring that public money is focused on applicants with genuine claims.

Under the new arrangements legal aid will be awarded retrospectively at the end of the process, usually by the Tribunal judge following reconsideration and in a limited number of cases, following the determination of the review application.

HOME OFFICE

Animals (Scientific Procedure Licences)

The Parliamentary Under-Secretary of State for the Home Department (Caroline Flint): In its report published on 16 July 2002 (HL Paper 150-I) the House of Lords Select Committee on Animals in Scientific Procedures made a number of recommendations that were broadly accepted by the Government in their published response in January 2003 (Command 5729).

The Government have since acted upon most of the Select Committee's main recommendations. This statement concerns two remaining key recommendations, that the application form for a project licence under the Animal (Scientific Procedures) Act 1986 should be simplified and shortened, and that anonymised details of granted project licences should be published.

The chief inspector of the Animals (Scientific Procedures) Inspectorate has at my request, and in line with proposals from a joint Home Office/Stakeholder Working Group, been considering these recommendations as part of a review of the project licence application process. The review has been taken forward in close consultation with project licence holders, other stakeholders and members of relevant representative bodies, who have been involved at all stages in the related development work and field trials.

A revised project licence application form has now been placed with other licensing forms on the Home Office website at: www.homeoffice.gov.uk/comrace/animals/licensing.html.

The revised form commands the broad acceptance of all directly concerned with its use. It is generally seen as more user-friendly and as a significant improvement on the form it is replacing. It will allow applications to be submitted either in electronic format or as hard copy, and is expected in due course to be adapted for use in a new IT case-working system as a prelude to eventual on-line processing.

The revised form is gradually being phased into use, and we expect it to be used for all applications started afresh after 31 March 2005. There is provision on it for an applicant to produce an abstract of his/her proposed programme of work for publication on the Home Office website once a licence has been granted. This will help to implement a key recommendation of the House of Lords Select Committee, and will also meet the requirements of the Home Office Publication Scheme approved under the Freedom of Information Act 2000.

We expect that a licence abstract in each case will cover points of general interest to the lay reader. These might include the expected benefits of the project, the reason for using animals and the choice of species, the procedures to be undertaken and their likely effects on the animals, and the steps taken to minimise the number of animals used and their suffering. Examples of abstracts provided by existing licence holders are already on the website and can be accessed at: www.homeoffice.gov.uk/comrace/animals/index.html.

The publication of licence abstracts is a major step towards greater openness and more informed public debate about animal experimentation. I wish to record the Government's appreciation of the willingness of many of the scientists concerned to co-operate in such a ground-breaking development. I also wish to make clear that we will continue to take the greatest care, in collaboration with the scientists, to ensure that no details are published which could jeopardise their safety or their work.

SOLICITOR-GENERAL

Spring Supplementary Estimate

The Solicitor-General (Ms Harriet Harman): Subject to parliamentary approval of any necessary supplementary estimate, the Attorney-General's DEL will be increased by £24,517,000 from £621,109,000 to £645,626,000 and the Administration Costs Limits will be increased by £32,598,000 from £468,709,000 to £501,307,000. Within the DEL change, the impact on resources and capital are as set out in the following table:

£'000s

	Change	*Voted*	*New DEL Non-voted*	*Total*
Resource	28,570	632,787	-	632,787
Capital	-572	22,443	-	22,443
Depreciation*	-3,481	-9,604	-	-9,604
Total	24,517	645,626	-	645,626

** Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.*

The Crown Prosecution Service's (CPS) element of the Attorney-General's DEL will be increased by £24,152,000 from £561,429,000 to £585,581,000 and the administration costs limit will be increased by £27,352,000 from £434,977,000 to £462,329,000.

The change in the CPS's DEL arises from:

Administration costs changes in respect of a transfer of £554,000 from the Department for Constitutional Affairs to fund the Effective Trial Management Programme.

Administration costs changes in respect of a transfer of £4,000,000 from the non-voted Departmental Unallocated Provision (DUP) and the take up of £22,000,000 end year flexibility administration costs to fund the increased requirements for charging.

Administration costs changes in respect of a transfer of £448,000 from the Crown Prosecution Service to the Home Office to support the "No Witness No Justice" partnership programme to improve services to prosecution witnesses in criminal cases.

Administration costs changes in respect of a transfer of £354,000 from the Crown Prosecution Service to the Treasury Solicitor's Department to support the Legal Secretariat to the Law Officers (LSLO).

Programme expenditure changes in respect of a transfer of £1,772,000 other current expenditure from the Home Office to provide additional resources from Criminal Justice Information Technology (CJIT) to fund Exchange Integration Services Stream Release 1 (ExISS r1), an initiative to improve the integration of Criminal Justice IT Systems.

Programme expenditure changes in respect of a transfer of £1,200,000 other current expenditure from the Home Office to provide additional resources from Criminal Justice Information Technology (CJIT) to begin development of the "No Witness No Justice" (NWNJ) IT Support Tool.

Programme expenditure changes in respect of a transfer of £3,000,000 transfer from non-voted Departmental Unallocated Provision (DUP) required for increased costs related to the prosecution of criminal cases.

The change in the capital element of the CPS's DEL arises from £572,000 capital transferred from the Crown Prosecution Service to the Home Office to support the "No Witness No Justice" partnership programme to improve services to prosecution witnesses in criminal cases.

Other changes which have no net effect on the CPS's DEL are:

Programme costs changes in respect of the transfer of £1,600,000 from the Crown Prosecution Service other current expenditure to administration costs to support the increased deployment of internal resources in the Crown Court.

£2,600,000 Administration costs End Year Flexibility transferred to the Treasury Solicitors' Department for the PRACAMS project.

The Serious Fraud Office's (SFO) element of the Attorney-General's DEL will be increased by £365,000 from £40,640,000 to £41,005,000 and the administration costs limit will be increased by £865,000 from £23,740,000 to £24,605,000.

The change in the resource element of the SFO's DEL arises from:

Administration costs changes in respect of the draw down of £892,000 End Year Flexibility for additional costs related to accommodation, projects and efficiency review responses.

Administration costs changes in respect of the transfer of £27,000 to the Treasury Solicitor's Department to support the Legal Secretariat to the Law Officers (LSLO).

Programme costs changes in respect of the transfer of £500,000 other current expenditure to the Treasury Solicitor's Department for increased costs related to the PRACAMS project.

The Treasury Solicitor's Department (TSD) element of the Attorney-General's DEL will not change from £19,040,000. However, the Administration Costs Limit will be increased by £4,381,000 from £9,992,000 to £14,373,000.

The change in the resource element of TSD's DEL of arises from:

Take up of End Year Flexibility of £2,600,000 to be drawn from the Crown Prosecution Service's element of the Law Officers' End Year Flexibility for increased costs related to the PRACAMS project.

Administration costs changes in respect of a transfer of £500,000 from the Serious Fraud Office to the Treasury Solicitor's Department for increased costs related to the PRACAMS project.

Administration costs changes in respect of a transfer of £354,000 from the Crown Prosecution Service, and a transfer of £27,000 from the Serious Fraud Office to the Treasury Solicitor's Department to support the Legal Secretariat to the Law Officers (LSLO).

Other changes which have no net effect on TSD's DEL are:

Programme costs changes in respect of the transfer of £900,000 from Treasury Solicitor's Department other current expenditure to Administration costs for increased costs related to the PRACAMS project.

Administration costs changes in respect of the transfer of £16,000 from the Customs & Excise Prosecution Office to the Treasury Solicitor's Department to support the Legal Secretariat to the Law Officers (LSLO).

Administration costs changes in respect of the transfer of £55,000 from the Treasury Solicitor's Department Agency to support the Legal Secretariat to the Law Officers (LSLO).

Administration costs changes in respect of a £7,000,000 increase in Treasury Solicitor's Department Administration costs offset by a corresponding increase in Administration income to meet an additional demand for legal services provided to other Government Departments.

Administration costs changes in respect of a £75,000 increase in Crown Prosecution Service Inspectorate Administration costs offset by a corresponding increase in Administration income, to fund costs arising from work done for HMC&E.

Written Ministerial Statements

Thursday 24 February 2005

CONSTITUTIONAL AFFAIRS

Prince of Wales (Marriage)

The Parliamentary Under-Secretary of State for Constitutional Affairs (Mr. David Lammy): In the light of recent interest in the law surrounding royal marriages, I am making this statement to set out in more detail the view that has been taken by the Government on the lawfulness of the proposed marriage between the Prince of Wales and Mrs. Parker Bowles.

The Government are satisfied that it is lawful for the Prince of Wales and Mrs. Parker Bowles, like anyone else, to marry by a civil ceremony in accordance with part III of the Marriage Act 1949.

Civil marriages were introduced in England by the Marriage Act 1836. Section 45 said that the Act:

"\... shall not extend to the marriage of any of the royal family".

But the provisions on civil marriage in the 1836 Act were repealed by the Marriage Act 1949. All remaining parts of the 1836 Act, including section 45, were repealed by the Registration Service Act 1953. No part of the 1836 Act therefore remains on the statute book.

The Marriage Act 1949 re-enacted and re-stated the law on marriage in England and Wales. The Act covered both marriage by Church of England rite, and civil marriage. It did not repeat the language of section 45 of the 1836 Act. Instead, section 79(5) of the 1949 Act says that:

"Nothing in this Act shall affect any law or custom relating to the marriage of members of the royal family".

The change of wording is important, and the significance is not undermined by the fact that the 1949 Act is described as a consolidation Act. The interpretation of any Act of Parliament, even when it consolidates previous legislation, must be based on the words used in the Act itself, not different words used in the previous legislation.

In our view, section 79(5) of the 1949 Act preserves ancient procedures applying to royal marriages, for example the availability of customary forms of marriage and registration. It also preserves the effect of the Royal Marriages Act 1772, which requires the Sovereign's consent for certain marriages. But it does not have the effect of excluding royal marriages from the scope of part III, which provides for civil ceremonies. As the heading to section 79 indicates ("repeals and savings") it is a saving, not an exclusion.

We are aware that different views have been taken in the past; but we consider that these were over-cautious, and we are clear that the interpretation I have set out in this statement is correct. We also note that the Human Rights Act has since 2000 required legislation to be interpreted wherever possible in a way that is compatible with the right to marry (article 12) and with the right to enjoy that right without discrimination (article 14). This, in our view, puts the modern meaning of the 1949 Act beyond doubt.

DEFENCE

Baton Rounds (Northern Ireland)

The Minister of State, Ministry of Defence (Mr. Adam Ingram): I have today placed in the Library of the House a Defence Scientific Advisory Council (DSAC) statement on medical issues arising from the first two years of operational use of the L21 A1 Baton Round (June 2001–May 2003).

DEPUTY PRIME MINISTER

Commercial Property Leases

The Parliamentary Under-Secretary of State, Office of the Deputy Prime Minister (Yvette Cooper): We are publishing today on our website the final report by the University of Reading on the impact of the 2002 code of practice for commercial leases. We will also be publishing it in hard copy in due course and copies will be available in the Libraries of both Houses.

The report considered the impact of the code since its introduction in April 2002, against the market and institutional background. We have undertaken to consider, in the light of this report, whether it is sufficient to continue relying on voluntary measures to promote greater flexibility and choice in the property market, or whether instead to introduce legislation. Last year, following Reading University's interim report, we carried out a consultation on options to deter or outlaw the use of upward only rent review clauses, making it clear that we would make a final decision on whether or not to legislate only when we had received the final report.

We are now studying the report alongside the consultation responses. We will announce our conclusions in due course.

FOREIGN AND COMMONWEALTH AFFAIRS

UN Reform

The Parliamentary Under-Secretary of State for Foreign and Commonwealth Affairs (Mr. Bill Rammell): My right hon. Friend the Secretary of State for Foreign and Commonwealth Affairs will today lay before Parliament a Command Paper on the recent report by the UN Secretary-General's High Level Panel on Threats, Challenges and Change (CM 6449). Copies will be placed in the Library of the House and will be available from the Vote Office. A copy will also be available on the Foreign and Commonwealth Office website www.fco.gov.uk.

The UK has welcomed the report. The panel has done an excellent job in laying the foundations for a new consensus on collective security to take the United Nations into the 21st century. The report has a simple but fundamental premise: that we all share

responsibility for each other's security. It argues that the threats we face today are interlinked: poverty, disease and environmental degradation, including climate change, as well as terrorism and the proliferation of weapons of mass destruction. It also argues that the challenges of security and sustainable development are interlinked: neither is possible without the other.

The report includes an important recommendation for a new peacebuilding commission, to mobilise and co-ordinate international support for countries suffering from conflict; important proposals on the key threats of proliferation and terrorism; and endorses a collective international responsibility to protect, that is, to act against genocide and other serious violations of international humanitarian law. The report also addresses the question of Security Council membership: a Security Council that better reflects today's world will be better able to deal with today's threats.

Britain will play a leading role in taking forward work on the panel's recommendations. On 10 February the Foreign Secretary launched a public debate on the issue, and the Government, in association with the United Nations Association, will hold a series of events around the country to ensure that people can contribute their views on how the UN should be dealing with threats to international peace and security. We hope as many stakeholders as possible will give us their views, either at the regional events or by e-mailing us directly via the FCO website.

Special Envoy (Afghanistan)

The Secretary of State for Foreign and Commonwealth Affairs (Mr. Jack Straw): On 16 February, during my one day visit to Kabul, I announced the appointment of Lieutenant-General John McColl CBE DSO as the Prime Minister's special envoy to Afghanistan.

The appointment of Lieutenant-General McColl is a signal of the importance the UK attaches to our ongoing commitment to the reconstruction and development of Afghanistan. Lietenant-General McColl will make a valuable contribution to our high-level dialogue with President Karzai and his Government on the full range of our common strategic priorities, including reconstruction, security sector reform, the democratic process and counter-narcotics work. He will be working in a way fully complementary to that of the British ambassador to Afghanistan, Rosalind Marsden and her staff.

Lieutenant-General John McColl CBE DSO is currently commander regional forces and inspector general of the Territorial Army (CF/IGTA) at headquarters, land command. He served as the first commander of the international security assistance force (ISAF) in Afghanistan in the first half of 2002 and is highly regarded by President Karzai and key Afghan contacts for the manner in which he discharged his responsibilities. In that capacity, Lieutenant-General McColl developed a wide understanding of the challenges facing Afghanistan as it re-builds after over 20 years of conflict, and a keen sense of the most effective support that the international community can offer. Lieutenant-General McColl attended President Karzai's inauguration on 7 December at the invitation of the President.

In his role as Prime Minister's special envoy, Lieutenant-General McColl will visit Afghanistan 2–3 times a year, engaging with President Karzai and the Afghan authorities across a range of issues vital to the bilateral relationship. He will also continue to fulfil his Army duties as CRF/IGTA. General McColl's role will be subject to review after a year.

NORTHERN IRELAND

National Security Intelligence Work

The Secretary of State for Northern Ireland (Mr. Paul Murphy): The Government have been considering for a lengthy period how best to take forward one aspect of the modernisation agenda of the Police Service of Northern Ireland. The announcement being made today reflects the enormous progress that has already been made in implementing the recommendations of the Patten commission.

Patten acknowledged that whatever changes were necessary in the policing arrangements for Northern Ireland it would remain the case that national security was a matter for central Government, as is the case in the rest of the United Kingdom. The Government have itself consistently subscribed to that view. The very serious threat from international terrorism which has developed over recent years has reinforced that conclusion.

Against that background it seems to the Government appropriate to announce their intention that the security service will assume for Northern Ireland the lead responsibility it has had for national security intelligence work since 1992 in Great Britain.

Such change will in no way diminish the role of the PSNI in intelligence gathering in areas other than national security, nor of course in mounting executive policing operations, making arrests and taking forward prosecutions.

Looking to the future, such a change will facilitate the devolution of justice and policing when a robust and workable basis for that is agreed, taking account of the fact that national security is an excepted matter for which the Secretary of State must remain responsible. In the meantime there are important benefits in bringing the arrangements for national security into line with the rest of the UK so as to provide for a consistent and coordinated response to international terrorism. Sharing of intelligence on a cross-border and international basis will be particularly important in combating money-laundering and other aspects of organised crime.

The PSNI and the security service will continue to work together in partnership, making best use of their complementary skills and expertise. The PSNI will, as now, provide the operational police response in countering terrorism, and in protecting the whole community in Northern Ireland.

The powers and responsibilities of the Policing Board, the Police Ombudsman and the Oversight Commissioner to oversee policing are not affected by this change.

We intend that the new arrangements, together with associated safeguards, will be fully operational during 2007. This timetable reflects the need for detailed planning and implementation.

WORK AND PENSIONS

Pensions

The Secretary of State for Work and Pensions (Alan Johnson): I have today published a paper "Principles for Reform: The National Pensions Debate" which sets out our guiding principles for reform of the pensions system. A copy has been placed in the Library and copies are available for hon. Members from the Vote Office.

Our policies are delivering for today's pensioners and the Government have already started to address issues for future generations of pensioners. However, our analysis and that of the Pensions Commission shows that we cannot necessarily rely on the existing structures to provide the same positive outcomes as we move further into the 21st Century.

The challenges facing the future of UK pensions are high in the public consciousness and there has been a wide variety of suggestions for change. We agree with the Pensions Commission cautioning against rushing to immediate conclusions, and believe that a well-informed debate will move us towards building a national consensus on the next stage of reform. As a first step towards building this consensus, this paper sets out six key principles that have been inherent in our action so far and which we believe should guide our approach in the future.

These principles are:

the pensions system must tackle poverty effectively;

the opportunity to build an adequate retirement income should be open to all;

affordability and economic stability must be maintained;

the pensions system should produce fair outcomes for women and carers;

reform should seek to establish a system people understand;

reform should be based around as broad a consensus as possible.

The Government will engage with the public and other key stakeholders over the principles outlined in this document, with the aim of achieving a shared framework of criteria against which options for reform can be assessed.

Written Ministerial Statements

Friday 25 February 2005

DEFENCE

Offshore Patrol Vessel Contract

The Minister of State, Ministry of Defence (Mr. Adam Ingram): I am pleased to announce that the Ministry of Defence has approved the award of a contract with VT Maritime Affairs Ltd for the charter and logistic support of a new 1,854 tonne patrol vessel for use in the Falkland Islands.

The new ship will be a modification of the highly successful river class ships, also chartered from VT, currently employed for fishery protection. Like them, the new patrol vessel will also follow an innovative public-private partnership arrangement for the provision of maritime capability. While manned by the Royal Navy, the Department will pay a set monthly fee for the provision of the ship and a guaranteed level of availability, with an incentivised payment structure to ensure that any shortfalls are dealt with promptly and effectively.

The vessel will thus provide a significant increase in availability as compared with the old, and increasingly difficult to maintain, castle class ships that have provided the Falkland Islands patrol capability for the past two decades.

It is planned that the ship will enter service in 2007 and be chartered for an initial period up to 2012. Over this period, she will generate in excess of £2 million savings compared with continuing to run the old ships, while providing at least as good an overall capability at a much lower level of risk.

HOME DEPARTMENT

National Offender Management Service

The Parliamentary Under-Secretary of State for the Home Department (Paul Goggins): I am today announcing the National Offender Management Service's targets for England and Wales for 2005–06. These targets reflect the Government's commitment to protecting the public, reducing re-offending, and ensuring that sentences are enforced firmly and fairly.

PUBLIC PROTECTION TARGETS

Target/Measure	*2005–06 National Target*
Prison escapes	To ensure that no Category A prisoner escapes.
Escapes from Prison and Escort	To ensure that the rate of escapes from establishments and from escorts, expressed as a percentage of the average prison population, is lower than 0.05 per cent.
	To ensure that the number of escapes from contracted out escorts is no more than one per 20,000 prisoners handled.
Offenders who pose a high risk of harm	90 per cent. of risk assessments, risk management plans and OASys sentence plans on high risk offenders are completed within five working days of the commencement of the order or release into the community.
Prolific and other priority offenders	90 per cent. of risk of harm assesments and OASys sentence plans are completed on Prolific and other Priority Offenders within five working days of commencement of the order or release into the community.

REDUCING RE-OFFENDING TARGETS

Target/Measure	*2005–06 National Target*
Basic skills (Offenders in the community)	(a) 40,000 Basic Skills starts (b) 8,033 Basic Skills awards *(contributing, alongside the LSC-led partnership target of 1,967 awards, to a total of 10,000 awards for offenders in the community)* [1]
Basic Skills (Offenders in Custody)	46,430 Basic skills awards *(contributing alongside the LSC-led partnership target of 9,740 awards, to a total of 56,080 awards for offenders in the community)* [1] of which: 42,520 basic skills awards are achieved by prisoners in public prisons (including 13,250 at Entry Level, 18,020 at Level 1 and 11,250 at Level 2) 3,820 basic skills awards are achieved by prisoners in contracted prisons (including 1,575 at Entry Level, 1,195 at Level 1 and 1,050 at Level 2)
Prison Education	94,400 Work Skills awards *(contributing, alongside the LSC-led partnership target of 25,600 awards to a total of 120,000 awards)* of which: 90,000 Work Skills awards achieved by prisoners in public prisons. 4,400 Work Skills awards achieved by prisoners in contracted prisons.
Drug Treatment and Testing Orders/Drug Rehabilitation Requirements	4,000 DTTO/DRR completions.
Intensive Change and Control Programmes	350 ICCP completions.
Enhanced Community Punishment/Unpaid Work	50,000 successful completions of ECP/ unpaid work.
Accredited Programmes (Probation Service)	15,000 programme completions

[1] With the transfer to the Learning and Skills Council (LSC) of lead responsibility for delivering offender learning skills, and introduction of the fully integrated service in three regions (North East, North West and South West) from August 2005, basic skills awards

achieved by offenders in those regions will count towards operational targets for the LSC led partnerships and the NOMS targets have been adjusted accordingly.

REDUCING RE-OFFENDING TARGETS cont'd

Target/Measure	*2005–06 National Target*
Accredited Programmes (Prisons)	7,000 offender behaviour programmes completed by prisoners, comprising:
	5,430 programmes in public prisons (including 1,160 sex offender treatment programmes).
	330 programmes in contracted prisons (including 80 sex offender treatment programmes).
Prison Drug Treatment Programmes	5,850 drug treatment programmes completed, comprising:
	5,250 achieved by public prisons and
	600 achieved by contracted prisons.
Resettlement Outcomes	38,000 prisoners have a job, training or education outcome on release
	of which:
	34,890 in public prisons and
	3,110 in contracted prisons.
Prison accommodation on release	64,765 prisoners with have accommodation to go to on release
	of which:
	59,467 in public prisons and
	5,298 in contracted prisons.

TARGETS CONTRIBUTING TO WIDER CRIMINAL JUSTICE OBJECTIVES

Target/Measure	*2005–06 National Target*
Timely Delivery to Court	At least 85 per cent. of prisoners from prisons and police cells are delivered to court before the agreed time.
Reports to court	90 per cent. of reports to be provided within the time scale required by the court.
Enforcement	Initiate breach proceedings in accordance with National Standards within 10 days in 90 per cent. of cases.
Compliance	To increase to 85 per cent. the proportion of orders and licenses in which the offender complies.
Victim contact	85 per cent. of victims to be contacted with3n eight weeks of an offender rece3ving 12 or more months for a serio3s sexual or violent offence.

DECENCY TARGETS

Target/Measure	*2005–06 National Target*
Serious assaults	To reduce the number of serious assaults as a percentage of the population compared to 2004–05 outturn. [2]
Positive Mandatory Drug Tests	To reduce the number of those testing positive as a percentage of the population compared to 2004–05 outturn. [2]
Self-inflicted deaths	To ensure that the rate of self-inflicted deaths does not exceed 112.8 per 100,000 of the population in public and contracted prisons.

DECENCY TARGETS

Target/Measure	*2005–06 National Target*
Overcrowding	The percentage of prisoners held in accommodation units intended for fewer prisoners does not exceed 24 per cent. of the average population in public prisons and 34.5 per cent. of the average population in contracted prisons.

ORGANISATIONAL TARGETS

Target/Measure	*2005–06 National Target*
Staff sickness (Probation Service)	Staff sickness in the Probation service not to exceed an average of nine days/ annum.
Staff sickness (public prisons only)	Staff sickness in public prisons to be lower than 11.5 working days/person.
Race Equality (Probation Service)	The Probation Service to meet regionally set employment targets for minority ethnic staff.
	95 per cent. of Race and Ethnic Monitoring data on staff and offenders is returned on time and using the correct (Census 2001) classification.
Ethnic minority staff (public prisons only)	Ethnic minority staff in public prisons to represent at least 6 per cent. of the workforce by April 2006.

[2] The performance for 2004–05 will be published in a written ministerial statement following the end of the financial year.

TRADE AND INDUSTRY

Equalities Review

The Deputy Minister for Women and Equality (Jacqui Smith): The Minister for the Cabinet Office, my hon. Friend the Member for South Shields (Mr. Miliband), and I are today announcing a review of the persistent social, economic and cultural factors that combine to deny individuals the opportunity to make the best of their abilities and contribute to society fully.

The equalities review, which will report to the Prime Minister by the summer of 2006, will look at barriers to opportunity and will make practical recommendations on key policy priorities for: the Government and public sector; employers and trades unions; civic society and the voluntary sector. Its findings will inform the modernisation of equality legislation and the development of the new Commission for Equality and Human Rights (CEHR).

In the Queen's Speech, the Government announced that they intend to bring forward a Bill to establish the CEHR as soon as parliamentary time allows. The CEHR will bring together existing expertise from the current equality commissions on gender, disability and race and make provision for the new equality strands on sexual orientation, religion and belief and age, as well as promoting human rights. The Bill will also introduce provisions to outlaw discrimination on grounds of religion or belief in the provision of goods, facilities, services and public functions; and a general framework

to introduce a duty on public bodies to promote equality of opportunity between women and men and; prohibit sex discrimination in the exercise of public functions.

The creation of the CEHR underlines the Government's commitment to equality and human rights as the foundations of a fair and prosperous society. A just society is one in which life chances are not determined at birth and everyone has the chance to achieve their full potential. A dynamic economy relies on using the talents of all.

It was to address inequality and prejudice that the first Race Relations Act was introduced in 1965. Since then, Governments have legislated to protect people from discrimination on the basis of gender, race and disability and most recently sexual orientation, age, and religion. Since 1997 new legislation has also created the duty to promote race equality, following the Lawrence Inquiry; the Human Rights Act and most recently the civil partnership scheme for lesbian and gay couples.

But despite this progress there is still evidence of deep-seated patterns of disadvantage. For example, disabled people are at far greater risk of poverty than non-disabled people. The unemployment rate of Bangladeshis and Pakistanis is 2.5 times greater than that of the white population. Educational attainment for black Afro-Caribbean boys consistently falls below that of their female and white peers. The pay gap between men's and women's earnings remains. And hate crimes threaten the security of many different minority groups.

Much work has already been done, and is ongoing, within and outside government, to understand specific barriers faced by particular groups, but much of this excellent work focuses on particular groups or sectors. The equalities review will build on this existing work, such as the Government's recently published Community Cohesion and Race Equality Strategy, the Prime Minister's Strategy Unit's report on the life chances of disabled people and the current Women and Work Commission to develop a better understanding of the long term and underlying barriers to opportunity that can be addressed by public policy. This will allow us to better to assess the relative impact of legislation and other action in transforming people's life chances, based on evidence of what works at home and abroad.

It is widely recognised that in many cases the root causes of disadvantage go beyond discrimination and cannot therefore be rectified by anti-discrimination legislation alone. Earlier consultation on the CEHR also demonstrated considerable support for modernising equality legislation and creating a simpler, fairer, legal framework.

In response to this and in conjunction with the Equalities Review, the Government will also now begin a review of discrimination legislation, led by the Department of Trade and Industry, which will benefit from the background and analysis that will be provided by the Equalities Review. This will assess how the equality legislative framework can be modernised to fit the needs of Britain in the 21st Century. Specifically, proposals will aim to minimise the burdens on business and on public services while leading to demonstrably better outcomes for minority groups. This work will be the foundation for the development of a clearer and more streamlined legislative framework.

The Prime Minister has asked Trevor Phillips to Chair the Equalities Review in a personal capacity. He will be joined by a small panel of leaders from the fields of business, the public sector and the social policy arena. The review panel will draw advice from a Reference Group co-Chaired by Bert Massie (Chair, Disability Rights Commission) and Julie Mellor (Chair, Equal Opportunities Commission) whose members will include key equality, human rights, business and trade union stakeholders and other experts. The Equalities Review will be supported by a Secretariat based in the Cabinet Office and will be overseen jointly by DTI and Cabinet Office Ministers.

Nanoscience and Nanotechnologies Report

The Secretary of State for Trade and Industry (Ms Patricia Hewitt): The Government's response to the Royal Society and Royal Academy of Engineering report: "Nanoscience and nanotechnologies: opportunities and uncertainties", has been published today.

The report was commissioned by Lord Sainsbury in June 2003 to: summarise current scientific knowledge on nanotechnology; identify applications of nanotechnology, both current and potential, with indications of when they might be developed; identify what environmental, health and safety, ethical and societal implications or uncertainties may arise from the use of the technology, both now and in the future; and identify areas where additional regulation should be considered. The report was published in July 2004 and has 21 recommendations to the Government.

Our response sets out the Government's agenda on nanotechnologies to ensure that the Government have clear policies and regulation, informed by good research, in place to ensure the responsible development of nanotechnologies in the UK.

The response includes:

a review of current safety regulations to make sure that safeguards for workers' health and the environment are robust;

a new cross-Government group to co-ordinate all aspects of research into nanoscience to underpin safety assessments;

a consultation with industry and the EU on how companies could disclose their safety testing methods and label consumer products; and

the Government will facilitate a dialogue with the science community and the public to explore both aspirations and concerns around the development of nanotechnologies.

Our programme will be reviewed by the Council for Science and Technology after two and five years (i.e. 2007, 2010).

The Prime Minister, the House of Commons Select Committee on Science and Technology and the House of Lords Select Committee on Science and Technology will be sent copies of this report, and I have placed copies in the Libraries of both Houses. An electronic version of the report has been placed on the Office of Science and Technology website: http://www.ost.gov.uk/policy/issues/index.htm

Low Pay Commission

The Secretary of State for Trade and Industry (Ms Patricia Hewitt): Last summer the Government asked the Low Pay Commission to produce their next report on the national minimum wage by the end of February 2005. We asked the commission to monitor and evaluate the impact of the minimum wage and make recommendations on the need for any change.

The Government are today publishing the commission's 2005 report and I would like to take this opportunity to thank the chair of the commission, Adair Turner, and its other members for their work on this very important issue.

The main recommendations put forward by the commission concern the rates of the minimum wage.

The commission has first recommended increasing the adult rate of the minimum wage from the present £4.85 to £5.05 in October 2005, and to £5.35 in October 2006, subject to confirmation by the commission in February 2006, to check that the macroeconomic conditions continue to make it appropriate, and in light of the implementation of forthcoming age discrimination legislation.

The commission has recommended increasing the development rate from the present £4.10 to £4.25 in October 2005 and £4.45 in October 2006. And it has also recommended that the Government should invite the commission to review the operation of the 16–17 year old rate and to report in 2006, with recommendations for any subsequent increases.

The commission's evidence confirms that the minimum wage has been a success. The economy has continued to generate new jobs, including in the main low-paying sectors. Around 1 million workers have benefited from the minimum wage each year since its introduction, with around two-thirds of the beneficiaries being women.

The Government agree with the broad approach that the commission continues to adopt; namely that the minimum wage should be increased in order to help the low paid, while taking care not to damage their employment prospects. We are therefore pleased to accept the recommended rate increases for 2005 and provisionally to accept the increase in the adult rate for 2006 subject, as the commission proposes, to their further advice in early 2006. We also accept the commission's recommendation that they should review the operation of the 16–17 year old rate and report on this in February 2006.

The commission has also recommended that we should move 21 year old workers onto the adult rate. The economic evidence on this point remains mixed. While the employment prospects for 21 year olds has improved in recent years, it remains behind that of 22 year olds and not much better than that of 20 year olds. We therefore intend to make no change in 2005 but to look carefully at this issue in the future.

The final key commission recommendation is that we should introduce interest charges on arrears of underpayment of the minimum wage and impose financial penalties for seriously non-compliant employers. The great majority of employers are either compliant or pay minimum wage arrears without the need for any formal enforcement action. However the Government understand the underlying point that the commission are making, about the need to tackle seriously non-compliant employers more effectively. We are already considering a number of options for improving enforcement and intend to make a statement on this in early summer. We will consider the point about interest charges in this context.

I would also like to take this opportunity to announce that the Government have decided not to pursue employers where workers are paid below the minimum wage in some pay periods, but above the minimum wage overall. Such action will enable us to concentrate our resources on employers deliberately seeking to pay workers below the minimum wage.

I have placed copies of this statement, the report from the Low Pay Commission, the Government's individual response to the commission's recommendations and our draft regulatory impact assessment in the Libraries of both Houses.

Written Ministerial Statements

Monday 28 February 2005

DEFENCE

Future Strategic Tanker Aircraft

The Secretary of State for Defence (Mr. Geoffrey Hoon): I am pleased to report to the House the latest developments in our plans to provide the Royal Air Force with a modern replacement air refuelling capability. Last year I reported our decision to take forward single bidder negotiations with AirTanker Ltd. for the provision of the future strategic tanker aircraft programme which is planned to replace the RAF's fleet of VC10 and TriStar aircraft. Today I can report that significant progress has been made in those negotiations and that AirTanker has been selected as the preferred bidder.

We continue to believe that the provision of the capability through a service-based contract with industry under the private finance initiative (PFI) offers the best prospect of a value for money solution that fully meets the needs of our armed forces. Through a PFI contract, industry would own and maintain the aircraft and provide training services, infrastructure and some personnel, whilst the RAF would undertake military operations.

The negotiations over the last 12 months have resulted in agreement on key commercial terms such as pricing structure, measurement of service performance, commercial use of the aircraft and the compensation that would be paid in the very unlikely event that the contract is terminated.

This programme will present UK industry with important opportunities. I expect that several hundreds of jobs will be created to support this programme throughout the United Kingdom. Several thousand skilled UK individuals will undertake work in support of the service.

We will now continue to take forward negotiations with AirTanker Ltd., aimed at agreeing the detail of the complete PFI contract as soon as possible. I should stress that this remains a complex and challenging PFI programme and that issues remain to be resolved before a value for money arrangement can be concluded. At £13 billion, it is the largest to be considered by the MOD to date. A final decision on whether or not to proceed with a PFI contract will not be taken until all negotiations, including an assessment of the finance ability of the deal, have been satisfactorily concluded. I will of course ensure that the House is kept fully in touch with significant developments.

HEALTH

Sudan 1

The Parliamentary Under-Secretary of State for Health (Miss Melanie Johnson): I have been advised by the Food Standards Agency that on 18 February the agency issued advice to consumers not to eat foods that had inadvertently been contaminated with an illegal dye Sudan 1. This advice follows previous action by the Food Standards Agency to ensure the withdrawal of a range of products containing contaminated chilli powder since July 2003.

Sudan 1 could contribute to an increased risk of cancer and it is sensible to avoid eating any more. However, at the levels present the risk is likely to be very small and there is no risk of immediate ill-health.

The Food Standards Agency, at the earliest practicable date, obtained an initial list of affected products, on the evening of 17 February and published it together with its advice to consumers on 18 February. Further updates were published on 21 and 24 February bringing the list of affected products to 474. The agency has taken the view that waiting for a single total list would provide less protection for consumers. The agency acted with all possible speed to inform consumers which products were affected so retailers and consumers could act on this advice.

The agency has contacted the major catering suppliers and they have withdrawn affected products and these are included in the lists on the website. More than 150 smaller companies who received contaminated products have also withdrawn products from their customers and these products will be listed on the agency website as soon as information becomes available.

Most of the products have now been withdrawn. Local authorities are pursuing this to ensure any remaining products are removed from sale as a matter of urgency. The agency is considering with local authorities what enforcement action may be necessary.

Since July 2003 all dried and crushed or ground hot chilli and hot chilli products entering the EU must have been tested for Sudan 1. The risk has been widely publicised in the UK food industry and affected products were withdrawn from sale. The Food Standards Agency and local authorities routinely test over 1000 products a year for Sudan 1.

Food companies have a legal obligation to remove from sale products that do not meet food safety requirements and to inform the Food Standards Agency and local authorities, and advise consumers about the withdrawal.

TRADE AND INDUSTRY

Work and Families

The Secretary of State for Trade and Industry (Ms Patricia Hewitt): I am today publishing a consultation document, "Work and Families: Choice and Flexibility". Through the consultation, we are seeking views on the details of commitments set out by my right hon. Friend the Chancellor of the Exchequer in the 2004 pre-Budget report. These commitments will

help us to deliver the Government's vision for families: to ensure that all children have the best start in life, respond to changing patterns of employment and give parents more choice about how to balance their work and family responsibilities.

The Government have already introduced a number of measures to support working families, including longer maternity leave, increases in both statutory maternity pay and maternity allowance plus extending the payment period, new paid paternity and adoption leave and the right to request flexible working for parents of young or disabled children. However, we recognise that families still face challenges in balancing their work and home responsibilities. There is a continuing evolution in family life and working patterns. In most families, it is no longer the case that the father works and the mother stays at home to look after the children; instead both parents work.

At the same time, many employers have found that greater flexibility suits their business very well, enabling them to attract and retain good quality staff, match their business needs with the needs of individuals and encourage a more committed and productive working environment.

The measures we are proposing respond to these changes and will help us to deliver our vision for families. Through the consultation, we will be asking for views on a number of commitments. We will extend statutory maternity pay, maternity allowance and statutory adoption pay from six to nine months from April 2007, towards the goal of a year's paid leave by the end of the next Parliament. Through the consultation, we will also be seeking views about how to simplify the maternity leave and pay arrangements.

Improved communication between parents and employers during maternity and adoption leave is important for employers, helping them to plan their business more successfully, and for mothers who often want to keep in touch with what is going on at work. Through consultation, we are asking for views on whether we should place a new requirement on mothers to confirm their return date with their employers in advance and on increasing the period of notice that a mother must give if she wants to return earlier than originally planned. We would also like to hear suggestions about ways to improve communication between employers and employees during maternity leave and support women returning to work after time out because of caring responsibilities.

We want to give more choice to parents about who cares for their child during the first year of their life and so we intend to introduce a new right for mothers to transfer a proportion of their statutory maternity leave and pay or allowance to fathers or between adopters. We are seeking views on options for how much leave and pay may be transferred from the mother to the father and how best to handle the administrative effects on the employers of the mother and the father, including managing the respective absences and ensuring that, adequate notice is given of intended absence and return to work.

Evidence has suggested that the right to request flexible working is operating successfully. Through the consultation, we will look at options for extending this right to carers of adults and to parents of older children. We also want to know if there is more the Government can do to assist employers handling requests for flexible working and help employees make requests.

The consultation will enable us to firm up the details of our commitments to ensure the practical arrangements operate as smoothly as possible for parents, carers and business.

Copies of the consultation document have been placed in the Libraries of both Houses and will be available on the DTI website: www.dti.gov.uk/workandfamilies

TRANSPORT

GLA Transport Grant

The Minister of State, Department for Transport (Mr. Tony McNulty): The GLA transport grant for 2004–05 has today been re-determined by the Secretary of State for Transport at £2,260,148,000, following consultation with the Mayor of London.

This re-determination increases the Government's block grant to Transport for London by £35.148 million, and primarily reflects funding transfers agreed during the year from the Strategic Rail Authority in relation to the east London line extension (£24.3 million) and Crossrail prep costs (£9.578 million). It also includes specific additional funding to TfL for four urban bus challenge projects in London (£0.934 million) and my Department's Oyster smartcard inter-operability pilot (£0.8 million).

Written Ministerial Statements

Tuesday 1 March 2005

TREASURY

Civil Registration Reform

The Financial Secretary to the Treasury (Mr. Stephen Timms): The House will wish to be aware of developments in the Government's plans for modernising civil registration.

On 29 March 2004, my predecessor Ruth Kelly announced that a draft Regulatory Reform Order containing provisions relating to the registration of birth and deaths in England and Wales would be presented to Parliament during that session and that presentation of the proposals relating to marriage would be postponed until the present Session.

The Regulatory Reform (Registration of Births and Deaths) (England Wales) Order 2004 was presented to Parliament on 22 July 2004. The Commons Regulatory Reform Committee and the Lords Delegated Powers and Regulatory Reform Committee published their reports towards the end of last year concluding that use of the order-making powers of the 2001 Act is inappropriate for modernisation of the registration service in respect of births and deaths. In the light of those reports, I am no longer planning to bring forward a draft Regulatory Reform Order to reform marriage law.

This Government remain committed to the modernisation of the registration service in England and Wales. This service, with its roots in the nineteenth century, touches everyone during their lives and it is important that it reflects the needs of society, families and individuals. Modernisation will provide more choice for the public in how they deal with the service, improved service delivery and easier public interaction with government on a wider range of services.

I am actively looking for ways of delivering the key elements of civil registration modernisation and will be working with stakeholders over the coming months to agree a way forward. I will seek parliamentary approval at appropriate times. In the meantime, new and more modern technology is planned to be introduced that will make it easier for members of the public to deal with the local registration service.

DEFENCE

Osnabruck Court Martial

The Secretary of State for Defence (Mr. Geoffrey Hoon): The conclusion of the recent court martial in Osnabruck, and the lifting of reporting restrictions on an earlier court martial about the same incident enables me to say more about the outcome of both trials, although I must take into account that both cases are still subject to the statutory process of review and potential appeal.

I was profoundly disturbed when I first saw the photographs. I do, however, share the Chief of the General Staff view that the incidents depicted do not reflect typical behaviour and standards of the British Army. We also agree that it is right to apologise on behalf of the Army to the victims and the people of Iraq.

On Friday the Chief of the General Staff issued a statement on this and future cases. He explained that this was the first in a possible five cases which might come to court where the allegation against members of the British Army is that they committed acts of deliberate abuse against Iraqis. These cases involve up to 22 soldiers.

The CGS announced on behalf of the British Army that he has asked a senior officer to assess what lessons we need to learn in light of this and the other cases that might come to court, and to make recommendations for action. We will publish the findings from this work when the Army is no longer constrained by the legal processes. I fully support this statement.

The Army sets high standards and demands that they are met. The recent courts-martial have demonstrated that those who fail to meet those standards are called to account. The vast majority of servicemen and women do, however, perform to the very highest standards. Their service in Iraq has been outstanding and we are right to be proud of this.

UN Operations (Reservists)

The Parliamentary Under-Secretary of State for Defence (Mr. Ivor Caplin): I have today signed a new call-out order made under Section 56 of the Reserve Forces Act 1996 so that reservists may continue to be called out to support UN operations in Sierra Leone and the Democratic Republic of the Congo. The current order has expired and this new order takes effect from 1 March 2005. There are no plans to call out Reservists compulsorily under this order as it is expected that the small numbers needed will be met through voluntary mobilisation.

DEPUTY PRIME MINISTER

Bellwin Scheme (Torbay Council and Teignbridge District Council)

The Parliamentary Under-Secretary of State, Office of the Deputy Prime Minister (Phil Hope): Torbay Council and Teignbridge district council experienced exceptional storm and flood damage on 27 October 2004. Given these circumstances, I am satisfied that financial assistance under the Bellwin scheme is justified. Schemes will therefore be established under section 155 of the Local Government and Housing Act 1989. Grant will be paid to the authorities to cover 85 per cent. of the eligible costs above a threshold, which they have incurred in dealing with the storm and flood damage.

Monitoring Spatial Plans

Minister for Housing and Planning (Keith Hill): Today we have published a good practice guide to monitoring our new system of local plans or local development frameworks (LDFs) as they are now called. It sets out a step by step approach to monitoring and producing annual monitoring reports.

This new guidance will help local planning authorities check that their plans are delivering sustainable development and sustainable communities, and where not, trigger an appropriate response. Under the new planning system the ability to produce various local development documents, as opposed to one local plan document, allows authorities to respond quickly to new issues and changing priorities for sustainable development in their areas. Monitoring will play a critical part in identifying these.

To complement the recommended local output indicators in the LDF monitoring guide, we are also publishing today revised core indicators for regional planning. These update those in planning policy statement 11 and in an earlier guide to monitoring regional planning guidance. These are closely aligned with the core indicators for LDFs. They will help ensure a consistent and cost-effective approach to monitoring implementation of key national objectives and targets at the regional and local levels.

Copies of both of these documents will be available in the Libraries of both Houses and on the Office of the Deputy Prime Minister's planning website: http://www.planning.odpm.gov.uk

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Bovine Tuberculosis

The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Mr. Ben Bradshaw): I have today published the Government's new "Strategic Framework for the Sustainable Control of Bovine Tuberculosis in Great Britain". Through the Framework we aim to bring about a Sustainable improvement in control of bovine tuberculosis over the next ten years. Copies of the framework are available in the Libraries of both Houses.

State of UK Seas

The Minister for the Environment and Agri-environment (Mr. Elliot Morley): I have today published "Charting Progress—An Integrated Assessment of the State of UK Seas".

Charting Progress is the first holistic assessment of the state of UK seas, and a step towards an ecosystem approach to management. The Government set out a vision of clean, safe healthy, productive and biologically diverse oceans and seas with the marine stewardship report "Safeguarding our Seas" published in 2002. Charting Progress brings together the national scientific monitoring data assembled by over 60 organisations, to assess how far we are from achieving that vision. It is a summary of the comprehensive sectoral and regional reports, which describe and evaluate what this data say about the current state of many components of the marine ecosystem and the main human impacts upon it. Charting Progress highlights where these states are acceptable, unacceptable and where there is room for improvement. The report also gives recommendations on how to improve our understanding of the marine environment.

This is a joint publication of the UK Government and the devolved Administrations. Copies have been placed in the Libraries of both Houses. It will be available on the Department's website: www.defra.gov.uk and from the DEFRA publications office.

HOME DEPARTMENT

Her Majesty's Chief Inspector of Probation

The Secretary of State for the Home Department (Mr. Charles Clarke): Today I am delighted to announce that Andrew Bridges' term of appointment as HM chief inspector of probation has been extended until 31 March 2007. Through their expertise and rigour of approach the probation inspectorate have provided a major contribution to the National Probation Service. I am confident that Andrew Bridges will play a key role in shaping the future of inspection policy for the national offender management service.

Antisocial Behaviour Orders

The Minister for Crime Reduction, Policing and Community Safety (Ms Hazel Blears): I am announcing today statistics relating to antisocial behaviour orders (ASBOs).

An ASBO is a civil order which protects the community from behaviour that has caused or is likely to cause harassment, alarm or distress to one or more persons not of the same household as the perpetrator.

ASBOs were introduced under the Crime and Disorder Act 1998 and have been available since April 1999.

ASBOs can be issued to anyone aged 10 years or over. They impose restrictions on the behaviour of individuals who have behaved in an anti-social way and protect communities from often longstanding and highly intimidating activity.

Breach of an ASBO is a criminal offence and can lead to custody. The maximum penalty for breach of an ASBO is five years imprisonment or a fine of up to £5,000 for an adult offender.

The Home Office is notified by all courts of ASBOs issued.

Data on the number of ASBOs issued is updated quarterly. New figures for the period up to September 2004 are now available. For the period between April 1999 and September 2004 the number of ASBOs issued, as reported to the Home Office, is 3826. Nearly 20 per cent. of these (730) were issued in the most recent quarter (July to September 2004).

Of those ASBOs issued, 50 per cent. were to adults and 45 per cent. to juveniles, 5 per cent. of ASBOs are age unknown.

Some 59 per cent. were orders on application, 41 per cent. are orders on conviction.

Data on breach is updated annually. Information on breach of orders is obtained from the court proceedings database. This data is matched with the data we hold on actual ASBOs issued. Until now data for the period from June 2000 to December 2002 which is based on 855 ASBOs issued during this period was available. However, data up to December 2003 is now available, based on 1892 ASBOs issued up to this period.

This data shows that 42 per cent. of all ASBOs were breached, compared to 36 per cent. for the period up to December 2002.

Of those persons who breached their ASBO on one or more occasions, 55 per cent. received immediate custody on the first or later occasion. The figure for young people is 46 per cent. receiving immediate custody.

The majority of those who receive custody for breach of an ASBO are persistent offenders. Of those entering custody, 31 per cent. were dealt with for breach of ASBO alone. Only 17 per cent. (30) juveniles received a custodial sentence for breach of ASBO alone, the remaining 83 per cent. were also sentenced for other offences.

I intend to make a similar statement to the House every quarter to provide an update on ASBO statistics.

I have placed with the House Libraries a briefing note containing information about ASBOs and the ASBOs statistics issued today.

NORTHERN IRELAND

Services for Victims of the Troubles

The Secretary of State for Northern Ireland (Mr. Paul Murphy): The troubles have left their mark on the people of Northern Ireland and all those affected by the conflict. Almost 4,000 lives were lost, each one an individual loved and mourned by family and friends. And the human cost extends beyond these victims, to their families and friends, to all those who survived their ordeals, and to the wider community which struggles still to heal the divisions that were created and became entrenched.

The pain of loss is still keenly felt by those who lost loved ones. The Government cannot hope to change that. But there is a sense in which we in Northern Ireland need to come to terms with what has happened over the past 35 years: to tackle the legacy in a way that respects the suffering and loss that has been experienced; but which also allows the community as a whole to build a future that is not overshadowed by the events of the past.

Last spring, the Prime Minister said that he hoped that the Government could find a way to deal with Northern Ireland's past. Since then I have been reflecting on how we might begin this process. I have visited South Africa, to see first hand how a very different society has sought to address its own particular legacy. I have talked privately to experts and opinion formers to hear their views. And in parallel with that process the Minister for victims, Angela Smith, has been engaged in a detailed consultation with groups representing victims and survivors of the troubles on the future shape of services to meet their needs. I have drawn a number of lessons from these experiences.

My view remains that Northern Ireland needs its own tailored approach to dealing with the past. That is not to say that we cannot learn from the experiences of other societies that have faced a difficult and turbulent period in their recent history. But any process for dealing with Northern Ireland's past will require an approach that acknowledges and respects its unique features as well as its similarities to situations elsewhere.

I also believe that the scope and aims of any process need to be widely understood and agreed, and must be capable of commanding support and credibility right across the community. Government have the ultimate responsibility for ensuring that an appropriate mechanism is found for dealing with the past to the satisfaction of all sections of the community. But I recognise too that, for some, the Government's role in past events is itself seen as an issue; and it is hard for some sections of the community to see us as a genuinely neutral party. Neither does the Government have a monopoly on wisdom, and I recognise the major contribution that many practitioners and other bodies are already making in this field.

These considerations have led me to conclude that any process for dealing with the past in Northern Ireland cannot be designed in isolation, or imposed by Government. There will need to be broadly-based consultation that allows individuals and groups across the community to put their views on what form any process might take. And that consultation process itself will need broad cross-community support if the ideas it generates are to be constructively received.

In the light of recent events, I am clear that now is not the right moment to launch such a broadly-based consultation process. And I think that we need to be realistic about what can be achieved in advance of a political settlement. But that is not to say that nothing can be done or that political considerations should forever stand in the way of meaningful progress. There are important steps that the Government can take now to address issues that are at the heart of how we can all deal with Northern Ireland's difficult legacy.

I am therefore announcing today that the Government intend to put in place a new victims and survivors commissioner. I believe that this is necessary both to ensure a real focus on the needs of victims and survivors of the troubles in Northern Ireland and to ensure that their voices continue to be heard and respected. So I am publishing alongside this announcement a consultation paper on the future of victims and survivors services for those victims, which includes the Government's initial proposals for the commissioner's detailed remit. The document sets out proposals for a comprehensive approach to the provision of services, with the commissioner playing a pivotal role in ensuring effective service delivery and in promoting the interests of all those who have suffered as a result of Northern Ireland's troubled past. One of the commissioner's responsibilities will be to take forward the establishment of the victims and survivors forum envisaged in the joint declaration to represent their views in a structured way. That consultation will continue until the end of June this year.

For many victims and survivors, the possibility of coming to terms with what has happened in the past is made more remote because there remain significant

unanswered questions, for example about the fate of their loved ones. For many families, the difficulty of not knowing certain details surrounding their loved one's death continues to be a significant issue many years on. The Government recognise that there is a need to address in a systematic way all of the unresolved deaths in Northern Ireland's recent troubled past. As I announced last September, I have been in discussions with the chief constable about how the groundbreaking work of the serious crime review team (SCRT) within the Police Service of Northern Ireland might be expanded to help meet this need. I hope that both we and the PSNI will soon be in a position to say more about the next steps on this.

We need to consider carefully and collectively how best to deal sensitively with the needs and expectations of all sections of the community in dealing with the legacy of the past. The creation of a victims and survivors commissioner is intended as a major contribution to that work. But it does not mark the end either of the process or the Government's contribution to it.

Written Ministerial Statements

Wednesday 2 March 2005

CONSTITUTIONAL AFFAIRS

Civil Legal Aid Reforms

The Parliamentary Under-Secretary of State for Constitutional Affairs (Mr. David Lammy): With the agreement of the Secretary of State for Constitutional Affairs, I am pleased to announce a package of measures, some of which come into effect from 1 April 2005, that will encourage early and effective resolution in civil dispute cases, including family cases.

These measures give effect to proposals for reform of civil legal aid set out in the July 2004 Legal Services Commission (LSC) consultation paper "A New Focus for Civil Legal Aid—Encouraging Early Resolution; Discouraging Unnecessary Litigation". The main theme of the paper was to refocus the civil legal aid scheme to encourage early resolution and the use of alternative dispute resolution (ADR) measures such as negotiation or mediation and away from contested litigation.

We have taken account of detailed and considered representations received during the consultation in finalising the measures announced today to deliver a reform package that acknowledges and addresses the key concerns expressed in consultation. I believe this represents a positive move forward for civil legal aid that we can build on in future years.

Following the consultation, I confirm that we will not be making reductions in financial eligibility except the aligning of levels described below or reducing the scope of services covered, save for minor amendments to the personal injury exclusion.

The upper disposable income limit for legal representation will be reduced from £707 per month to £632 per month, in line with the new legal help limit below. This will produce uniform upper income limits for all levels of service, different services differing only in terms of the different contribution regimes. Only those applicants who would previously have had to pay high levels of contribution under their legal aid certificates will be affected by this change.

In addition, the LSC will be given discretion to waive the upper disposable income limit for legal representation for the benefit of victims of domestic violence seeking protection from the court. This will extend eligibility for such clients by allowing the upper limit to be increased beyond the previous upper limit of £707 per month. However the gross income cap and contribution rules will remain unchanged.

We will increase financial eligibility for legal help, which covers vital front line advice services. The disposable income limit for legal help will rise to £632 per month. The capital limit for legal help will be raised substantially from £3,000 to £8,000 to match the upper capital limit for legal representation.

Further, we will extend the current "passporting" rules under which recipients of certain benefits are deemed financially eligible for services. Such benefit recipients will be passported on both income and capital for all levels of service (previously legal help was only passported on income and capital had to be assessed in every case). This will also simplify the means assessment process for suppliers.

We will modify the existing "subject matter of the dispute" rule under which assets in dispute are automatically excluded from means assessment. In future, if the client's interest in the disputed assets is worth over £100,000, the excess over £100,000 will be taken into account.

In family cases, the package includes measures to redesign the structure of family legal aid to place emphasis on early resolution out of court, in line with the Green Paper on parental separation published in July 2004. A pilot to test the new structure is scheduled to commence in June 2005 and is expected to run in four locations. The final details are currently being agreed.

We will also remove cost protection in family cases to deter unreasonable conduct by publicly funded clients, and introduce stricter controls over multiple and repeat applications in private law family cases. These controls will be enforced through improvements to processing systems that provide a reliable means of identifying previous legal aid applicants.

The consultation paper proposed significant changes to the funding of cases concerning financial provision in divorce (ancillary relief), including a power for the LSC to refuse legal aid for legal representation if private funding, by means of a loan or otherwise, is available and affordable in an individual case.

In principle, we believe that such a power would be appropriate, but we will only introduce it if satisfied that a good range of private funding arrangements is accessible to clients currently within legal aid eligibility limits. We will undertake further work on the availability and conditions of finance, in conjunction with our key stakeholders. I should emphasise that any new funding arrangements along these lines would only apply to those cases that do not reach any resolution during the financial dispute resolution hearing, but continue to full contested court proceedings.

To discourage unnecessary litigation, in clinical negligence cases and actions against the police most applicants will be expected to pursue any available complaints system before they are funded to take proceedings. This will give the potential defendant public body the opportunity to respond to the matters raised and provide an explanation or apology if appropriate before it is decided whether litigation is the appropriate remedy for the client. The LSC will consult further on when such an approach would not be appropriate and on guidance to further encourage the use of mediation in non-family disputes.

As urged by many respondents, we will also be improving the operation of the statutory charge, to encourage early repayment of legal aid costs. Our reforms package includes increasing the interest rates as an incentive to pay off the charge as soon as practicable. We also intend to introduce a discretion for the LSC to be able to decide whether the statutory charge should be postponed, subject to assessing the client's means. This

will also include the power to review postponed charges at regular intervals. The LSC will also adopt a firmer approach when deciding whether a charge can be transferred to a new property. Finally, we propose to remove the exemption for the first £3,000 of money or value from property recovered, from the statutory charge.

We propose to strengthen the cost benefit criterion when assessing applications for funding in claims against the police to ensure that the benefits obtained from a case are proportionate to the costs involved, and to improve general handling of police cases. We will also raise the minimum cost benefit requirements for clinical negligence damages claims to match those for other categories of case.

We will also be restricting the very high cost civil cases budget to ensure that disproportionately expensive cases do not preclude access to justice for smaller cases. In terms of the overall legal aid budget, the need to achieve substantial savings remains. If the community legal service does not remain in budget there is a very real risk that funding will have to be reduced in future, and consequently that the most deserving cases may not receive the assistance they need. With a limited budget, we need to ensure that legal aid funding is targeted on the most needy cases and to the priority areas.

These proposals are fully consistent with the fundamental legal aid review (FLAR) and represent the first phase of a co-ordinated continuing legal aid reform programme to achieve an appropriate long term settlement for legal aid.

We propose to implement the eligibility changes in April and the remaining changes in July. A copy of the consultation response paper and the final regulatory and equalities impact assessment will be available shortly on the DCA website at www.dca.gov.uk

DEFENCE

Defence Information Infrastructure (Future)

The Minister of State, Ministry of Defence (Mr. Adam Ingram): I am pleased to announce that the preferred bidder for the defence information infrastructure (future) contract is the Atlas consortium. This group of companies have international experience of delivering first class IT systems and we look forward to working in partnership with them over the coming years. We have conducted a rigorous competition and are confident that provision of an effective, efficient and value for money service, vital to the modernisation of defence, has begun today.

EDUCATION AND SKILLS

Adoption and Children Act 2002

The Minister for Children, Young People and Families (Margaret Hodge): I am pleased to set out the Government's detailed plans for full implementation of the adoption and special guardianship provisions in the Adoption and Children Act 2002.

The Adoption and Children Act 2002 received Royal Assent in November 2002 and modernises the whole existing legal framework for domestic and intercountry adoption. It also introduces a new legal order, special guardianship, which offers legal permanence for children for whom adoption is not suitable.

We have already implemented some key provisions of the Act. These include:

1 June 2003—restrictions on intercountry adoption;

31 October 2003—the first phase of the adoption support services framework for adoptive families;

1 December 2003—giving parental responsibility to unmarried fathers who jointly register the birth of their child with the mother;

1 April 2004—advocacy services for children and young people making a complaint under the Children Act 1989;

30 April 2004—the first phase of the Independent Review Mechanism, which will cover prospective adopters whose adoption agency is minded not to approve them;

27 September 2004—Independent Reviewing Officers;

31 January 2005—Amendment to the definition of "harm" in the Children Act 1989 to make clear that harm includes any impairment of the child's health or development as a result of witnessing the ill treatment of another person.

During 2003 and 2004 we consulted extensively on a range of draft regulations, court rules and guidance and ran over 25 workshops, seminars and focus groups to ensure that we had heard from all those with an interest in this fundamental reform of adoption law. We have reviewed the consultation drafts and the implementation timetable in great detail in the light of the comments received.

We will be laying all the core sets of regulations to implement the adoption and special guardianship provisions in the next few weeks, starting today with the Adoption Agencies Regulations, the Adoptions with a Foreign Element Regulations and two statutory instruments which are subject to the affirmative resolution procedure. These are the Suitability Regulations and the Restriction on the Preparation of Adoption Reports Regulations. The regulations covering access to information, adoption support services and special guardianship will follow this month. The court rules are being considered by the Family Procedure Rule Committee and will be in place and available to support training well in advance of implementation.

We planned for the legislation to come fully into force in September 2005. However, following concerns expressed by those who will be required to put these important changes for children and their families into effect about the need to allow sufficient time for training and preparation once the regulations, court rules and guidance are in place, we now intend to bring the legislation fully into force on 30 December 2005. This will allow a nine month preparation period for the field from the laying of the core regulations and will enable training to take place in the autumn, after the summer holidays and immediately prior to implementation.

We remain committed to providing an extensive communication and training programme to ensure that those working in the adoption field and more widely in children's services are fully up to speed with the new legislation. The DfES is currently developing this programme, and is continuing to involve stakeholders

closely through an Advisory Group representing the interests of those in the adoption field. The Department for Constitutional Affairs is separately organising training for the judiciary and courts service staff which will be closely aligned with the DfES training programme.

FOREIGN AND COMMONWEALTH AFFAIRS

London Meeting to Support the Palestinian Authority

The Secretary of State for Foreign and Commonwealth Affairs (Mr. Jack Straw): The purpose of the London Meeting, on 1 March, was to help the Palestinian leadership strengthen the institutions needed for a future Palestinian State. This work was also aimed at supporting Palestinian efforts to prepare for Israeli disengagement as a step towards achieving the two-state vision envisaged by the Roadmap.

The London Meeting was chaired by the Prime Minister. Delegations from 23 nations and institutions attended including the UN Secretary General Kofi Annan, US Secretary of State Condoleezza Rice, EU Secretary General Solana, Russian Foreign Minister Lavrov, G8 Foreign Ministers and others from the region and beyond, along with the World Bank and IMF.

President Abbas outlined an ambitious but realistic plan for strengthening the Palestinian Authority's (PA's) institutions in the areas of governance, security and economic development. In the area of governance, President Abbas committed his authority to completing the programme of local elections across the West Bank and Gaza in accordance with democratic values; strengthening the public sector and civil service and building a strong and independent judiciary. On security, President Abbas committed his authority to ensuring effective security implementation consistent with the PA's national security plan, in accordance with Phase I of the Roadmap; streamlining the existing security and intelligence services; and reviving lines of communication with the Israeli security establishment. On economic development, President Abbas, committed his authority to working to ensure the financial management of the PA is of the highest international standard; implementing a Unified Pensions Law; and stimulating private sector investment as the essential precondition for long-term economic growth.

In response to these plans the international community committed itself to providing financial and political support. On governance, the international community committed itself to support the programme of elections and the strengthening of the public administration and judiciary. In order to take these commitments forward, the European Commission agreed to develop and implement a short-term strategy for action on governance, supporting progress by the Palestinian Authority and ensuring engagement of the international community. The World Bank agreed to lead efforts to enhance the international community's assistance for economic preparation for Israeli disengagement. This includes exploring opportunities to promote increased private sector investment in the West Bank and Gaza. The participants asked the Chair of the AHLC, the World Bank and the European Commission to develop plans to streamline the international effort and enable the international community to respond more flexibly to Palestinian needs, and to present these to the Quartet, as soon as possible.

On security, the international community committed itself to providing financial support to re-equip the security services; establishing a fund for early retirement of security personnel; and helping to address the cost of pensions for security officers. The US agreed to form a co-ordinating group to provide significant practical support to the Palestinians in the area of security to fulfil the objective set out by the Quartet in May 2004 to establish a US-led oversight committee on security. US security co-ordinator General Ward would play a leading role. The security group will work closely with the PA to oversee the restructuring and retraining of the Palestinian security services. In doing so, it will help the PA fulfil all of its security-related obligations under Phase I of the Roadmap.

On economic development, the international community committed itself to providing expertise and financial support for the PA's economic programme. It also offered assistance for activities related to Israeli disengagement and economic revival including working with Israel and the PA to develop a reliable link between the West Bank and Gaza and to dismantle the closure regime and increase freedom of movement. The international community agreed to hold a Consultative Group meeting of international donors later in the year to consider an increase in funding to the PA and to establish a mechanism under World Bank leadership to encourage increased international private sector investment into the Palestinian economy.

The participants recognised that the implementation of the commitments made by the Palestinian Authority at the London Meeting would constitute a major step in implementing its Roadmap commitments. At the same time participants urged and expected action by Israel in relation to its own Roadmap commitments.

The participants at the London Meeting also condemned the terrorist bombing in Tel Aviv on 25 February and stressed that such acts must not be allowed to derail the peace process.

I am placing the conclusions of the London Meeting in the Library of the House. A copy is also available through the Foreign and Commonwealth Office website: www.fco.gov.uk.

INTERNATIONAL DEVELOPMENT

Aid Conditionality

The Secretary of State for International Development (Hilary Benn): I have placed in the Libraries of both Houses a copy of a new UK policy paper, "Partnerships for Poverty Reduction: Rethinking Conditionality".

The policy has been developed jointly by DFID, the Treasury and the Foreign and Commonwealth Office. It is the result of substantial consultation over the past year with the UK public, NGOs, the World Bank and other donors.

The UK Government believe that an effective aid partnership is based on shared commitment to poverty reduction, human rights and strong financial management. The policy outlines four changes in our approach to conditionality:

Developing country ownership—The UK will use aid to support developing countries' own poverty reduction plans—based on solid evidence and wide consultation, and taking account of the views and concerns of poor people. We will not use conditions to influence the policy choices made by partner countries. We will instead agree benchmarks with partners to assess progress in reducing poverty.

Predictability—Developing countries can use aid most effectively if they can rely on it as part of their long term budget plans—for example to recruit more teachers and health workers, or to put more people on anti-retroviral treatment for HIV/AIDS. The UK will move to long term aid commitments, and will seek to make aid more predictable by being clear in advance about how much aid will be given and the basis on which funds will be reduced or interrupted -for example, if countries move away from agreed poverty reduction programmes, abuse human rights or misuse the funds through corruption.

Accountability—This changed approach to aid, with transparently agreed benchmarks rather than conditions imposed by donors, means that developing countries and donors will be accountable to each other, and to their own citizens, for their contribution to the shared effort on poverty reduction. The UK aims to increase transparency around the conditions and the decision-making process relating to aid. We will publish our conditions on the DFID website.

Harmonisation—The UK will press the World Bank and the IMF to monitor and streamline their combined terms and conditions, and will work with donors to limit the overall burden of conditions.

The "Make Poverty History" campaign is calling on donors to provide "more and better aid" to help developing countries achieve the millennium development goals. I see the principles in this paper as central to both objectives. By supporting policy leadership in developing countries, donors will make their aid more effective. And by ensuring that aid is effectively used for reducing poverty, donors will give their own countries confidence that more aid will be worthwhile.

Written Ministerial Statements

Thursday 3 March 2005

TREASURY

Private Welfare Agencies

The Paymaster General (Dawn Primarolo): In parliamentary answers on 4 and 26 March 2003 and in letters to several hon. Members, the Economic Secretary to the Treasury explained changes that have been made to the rules governing the VAT treatment of state-regulated welfare agencies such as domiciliary care and independent fostering agencies. He explained that the changes would take effect from the date that the regulatory system and standards for welfare providers were implemented or, in the case of independent fostering agencies, on 1 April 2003. Following representations from a small number of businesses, Customs have issued a business brief clarifying the circumstances determining the time at which an agency becomes exempt. Copies are available in the House of Commons Library.

DEFENCE

Iraq

The Minister of State, Ministry of Defence (Mr. Adam Ingram): On 14 February 2005, my noble Friend the Minister for Defence Procurement (Lord Bach) signed a statement of intent with the Secretary-General of the Iraqi Ministry of Defence which lays the foundation for co-operation on defence equipment matters in areas such as requirement definition, exchange of information, supplier identification, and the availability of commercial training.

It is HMG's aim to assist the Iraqi Government and armed forces to rebuild their country and to improve security and stability. In support of this, a non-legally binding statement of intent will be mutually beneficial for both Governments.

All such activities in connection with potential defence exports continue to adhere fully to national and international export control obligations.

Copies of the statement of intent will be placed in the Libraries of both Houses.

DEPUTY PRIME MINISTER

Planning Control

The Minister for Housing and Planning (Keith Hill): I am announcing today the publication of a consultation paper, entitled "Planning Control of Mezzanine and other Internal Floorspace Additions", on draft provisions to be included in an amendment to the General Development Procedure Order 1995, and on the accompanying partial regulatory impact assessment.

Section 49 of the Planning and Compulsory Purchase Act 2004 inserts new sections 55(2A) and 55(2B) into the Town and Country Planning Act 1990. These new sections bring into the meaning of development operations which have the effect of increasing the internal gross floorspace of a building. This would make such increases in floor space subject to planning control.

The Secretary of State by order can specify different circumstances under which this legislation would apply, and the draft order sets a threshold of 200m^2 and applies it to retail floorspace.

It is not the Government's intention to halt mezzanine development. It is to bring under planning control any increases in internal floorspace above a specified level, so as to ensure the Government's objectives for town centres are not undermined by inappropriate development.

The consultation will run until 26 May 2005. Copies of the consultation document will be made available in the Libraries of both Houses and from the Office of the Deputy Prime Minister's website www.odpm.gov.uk.

FOREIGN AND COMMONWEALTH AFFAIRS

Hong Kong

The Parliamentary Under-Secretary of State for Foreign and Commonwealth Affairs (Mr. Bill Rammell): The latest report on the implementation of the Sino-British Joint Declaration on Hong Kong (Cm 6484) was laid before the House today and copies have been placed in the Library of the House. A copy of the report is also available on the Foreign and Commonwealth Office website: www.fco.gov.uk/. The report covers the period from 1 July to 31 December 2004 and includes a foreword by my right hon. Friend the Foreign Secretary. I commend the report to the House.

HOME DEPARTMENT

Oakington Immigration Reception Centre

The Minister for Citizenship and Immigration (Mr. Desmond Browne): The BBC documentary "Detention Undercover: the Real Story" screened last night contained allegations of racism and mistreatment of detainees at Oakington immigration reception centre and during removal.

Oakington has a reputation for good staff-detainee relationships, and I regard it as in the interests of all at the centre to establish the truth of the allegations as quickly as possible.

GSL, who manage and operate the centre at Oakington have mounted an internal investigation. I believe it appropriate to have a separate and independent investigation, which I have asked Stephen Shaw, the prisons and probation ombudsman, to undertake.

The remit of the investigation is to:

investigate allegations, made in the BBC programme "Detention undercover: the real story" broadcast on 2 March 2005, of racism and mistreatment by GSL staff of detainees at Oakington immigration reception centre and while under escort;

in particular, to review the internal investigation already mounted by GSL, and the company's response to the allegations;

to assess the implications for the management and oversight of Oakington and the escorting of detainees; and

to make any necessary recommendations to the Government and GSL management.

I am grateful to Stephen Shaw for agreeing to undertake this investigation. I hope the BBC will support this investigation by granting him full access to all the material gathered by the reporters.

I have always made it clear that there is absolutely no place for racism anywhere in our society, and particularly within the immigration system. Detention and removal is an essential part of effective immigration controls, but it is vital that it is done with humanity and dignity, and I am committed to ensuring this is the case.

NORTHERN IRELAND

Sex Offenders

The Secretary of State for Northern Ireland (Mr. Paul Murphy): The Government have received the first report from the chief inspector of criminal justice in Northern Ireland, Kit Chivers. The report is on "The Management of Sex Offenders in Northern Ireland" and has today been published.

The Government warmly welcome this report which recognises the excellent work in this field being done by those agencies involved in public protection and identifies a number of areas for possible future development. I shall be considering very carefully the inspection's key recommendations. I have no doubt that the report will be of value in informing and reassuring the public about the steps already being taken to manage the risks posed by sex offenders in the community, and in helping managers and staff who are involved in this challenging area of work.

Copies of the chief inspector's report have been placed in the Library.

Written Ministerial Statements

Friday 4 March 2005

TREASURY

Finance Bill

The Paymaster General (Dawn Primarolo): Schemes are currently being promoted by professional advisors that enable companies to avoid tax. Legislation will be included in the next Finance Bill to tackle tax avoidance through exploitation of both the transfer pricing and loan relationship rules.

Transfer Pricing

Transfer pricing rules will be extended to transactions involving the financing of a business by persons (companies, partnerships or individuals) if they act together in relation to the financing and collectively they could control the business. These new rules will apply from today for financing under new or changed contracts, and from 1 April 2007 for debt finance provided under pre-existing contracts.

Transfer pricing rules will also be extended to apply to financing arrangements of a business in the six-month period before a person involved in the arrangements started to control the business. This change will apply from today to both new and existing financing.

Loan Relationships

Loan relationships rules that limit tax relief for late paid interest and discounts payable by close companies will be tightened up so that certain exemptions for these rules will apply only where the interest or discount is payable by a small or medium-sized enterprise and where the lender is not located in certain territories such as tax havens. This change will apply from today for financing under new or changed contracts, and from 1 April 2007 for finance provided under pre-existing contracts.

The scope of these rules will also be extended to include cases where the creditor is a person who controls a participator in the company (or where the creditor is connected to such a person). This change will apply from today to both new and existing financing.

Copies are being deposited in the Libraries of both Houses of today's Inland Revenue news release on these measures and a more detailed explanation is being published on the Inland Revenue website at:

http://www.inlandrevenue.gov.uk/international/transfer-pricing.htm

HEALTH

Coronary Heart Disease

The Parliamentary Under-Secretary of State for Health (Miss Melanie Johnson): The coronary heart disease national service framework (CHD NSF), published in March 2000, set out a blueprint for provision of fairer, faster, high-quality services for the prevention, diagnosis and treatment of coronary artery disease, based on 12 national standards.

A new CHD NSF chapter, on cardiac arrhythmias and sudden cardiac death, and the 2005 CHD NSF progress report "Leading the Way" were published today. Copies have been placed in the Library.

TRADE AND INDUSTRY

Financial Transparency Directives

The Secretary of State for Trade and Industry (Ms Patricia Hewitt): My Department has today published a consultation document on the implementation of directive 2000/52/EC amending the directive on the transparency of financial relations between member states and public undertakings. The objective of the directive as amended is to increase the transparency of funding given by Government and other public sector bodies to other bodies operating in the marketplace and which may be in receipt of state aid. The directive's provisions will improve the commission's ability to investigate potentially illegal state aid, including allegations of overcompensation for performing a public service obligation or the cross-subsidisation of public funds into other commercial activities.

A key objective of the consultation exercise is to gather information on which organisations are likely to be caught by the directive and whether and to what extent there may already be provisions in place that would meet the requirements of the directive, so that we can best judge how to implement. However, the Department's initial conclusion is that legislation may well be necessary to ensure full implementation of the directive. The consultation document therefore also seeks views on draft regulations.

It is estimated that the directive will affect less than 0.5 per cent. of UK businesses i.e. approximately 8,000 businesses out of a total of about 1.6 million, since it does not apply to entities with an annual turnover below euro 40 million, i.e. approximately £27.5 million (as at 02/03/05). According to statistics produced by the Office for National Statistics approximately 99.5 per cent. of UK businesses have an annual turnover of less than £25 million.

Copies of the consultation documents will be laid in the Libraries of both Houses and made available on the departmental website at: www.dti.gov.uk/ccp/stateaid

Written Ministerial Statements

Monday 7 March 2005

TREASURY

Pre-Owned Asset Regulations

The Paymaster General (Dawn Primarolo): Schedule 15 Finance Act 2004 provides for an income tax charge on the benefit that taxpayers gain, in certain circumstances, from the continuing enjoyment of assets they formerly owned. The primary legislation leaves some matters—the operative date for valuations, and the rates of return which apply for purposes of the schedule—to be specified in secondary legislation. They also allow regulations to provide for assets to be valued less frequently than annually. More generally, they enable regulations to make further exemptions from the charge set out in schedule 15.

The Inland Revenue issued a consultative document on 18 August 2004, "Taxation of Pre-Owned Assets: Further Consultation", seeking views on the matters to be covered by regulations. There was a full and constructive response and I am grateful to all who took part. We propose to make regulations as follows, having regard to the responses received.

Valuation date

As proposed in our consultation document, the valuation date for a tax year will be 6 April in the year or, if later, the beginning of the taxable period for which the asset in question first becomes chargeable.

The prescribed rate

The prescribed rate (to be applied to the values of chattels and intangible assets when quantifying the cash value of the benefit enjoyed) will be equal to the official rate of interest, as defined in section 181 of the Income Tax (Earnings and Pensions) Act 2003. The rate is currently 5 per cent.

Valuations at extended intervals

Regulations will provide, broadly, that land and chattels will be valued every five years. That is to say, a valuation will be made as prescribed in the primary legislation for the first tax year in which a particular asset becomes chargeable under schedule 15. That valuation will also be used in any of the four succeeding years in which a charge arises.

If a charge arises in the fifth year after the first chargeable year, a fresh valuation will be made which will apply in the next four succeeding years, and so on for years 10, 15 and subsequent five-year anniversaries. If no charge arises for the fifth year, or any later five-year anniversary, no valuation need be made until the next tax year (if any) for which a charge arises, and a fresh series of five-yearly valuations will start from that year.

Valuations will be carried forward in cash terms without adjustment (e.g. for indexation against asset price inflation, as the enabling power would permit).

Equity release

Schedule 15 provides exemption for any case where the former owner continues to enjoy an asset they have sold, so long as they have disposed of their whole interest in it (apart from the right of continuing enjoyment) and have done so either at arm's length or on arm's length terms.

It became clear in consultation that this was not sufficient to accommodate all open-market equity release transactions, under which homeowners often sell only a part share in their property. I made clear last autumn that regulations under schedule 15 would cover the full range of bona fide equity-release schemes with arm's length providers, while continuing to bear down on schemes aimed at avoidance. With that in mind, we do not in general think it is appropriate to provide exemption for sales of a part interest which are made otherwise than at arm's length. If one member of a family needs to raise cash, and another member of the family is willing and able to provide it, there are other and more straightforward ways of structuring this than adopting the form of an equity release transaction.

The point was however made in consultation that some intra-family part disposals can arise from patterns of behaviour adopted for good family or business reasons, for example where a child moves in to care for an aged parent and acquires an equitable interest in their shared home as a corollary of that, or where younger members of a family take over the active role in a family partnership, and in doing so acquire an interest from the partners who preceded them. And we also accept that any cases where asset owners have already sold a part interest within their family are unlikely, given the law as it stood at the time, to have chosen that approach primarily for tax avoidance purposes.

Bringing together these different considerations, the regulations will extend the existing exemption (described above) to all sales done at arm's length where they involve the whole or a part of the vendor's interest in their asset. They will extend this exemption to any part sale, even if not at arm's length, so long as it was made before today and on arm's length terms. And this will also apply to future disposals if they are made for a consideration other than money or readily realisable assets.

Regulations to this effect will be made shortly, in time to take effect from the commencement of the new charge on 6 April. The Inland Revenue will also be publishing their guidance on the interpretation and operation of schedule 15: it will be announced and made available on www.inlandrevenue.gov.uk/.

DEPUTY PRIME MINISTER

Development Plan Documents and Statements of Community Involvement

The Minister for Housing and Planning (Keith Hill): I am announcing today the publication for consultation of guidance on assessing the soundness of development plan documents (DPDs) and statements of community involvement (SCIs), and on the examination process itself. The consultation documents will be of interest to local authorities, agents, landowners, local residents and others likely to be involved in examinations of

development plan documents (DPDs) and statements of community involvement (SCIs) forming part of local development frameworks produced under the Planning and Compulsory Purchase Act 2004. The guidance has been produced by the planning inspectorate.

The consultation documents also include model forms and guidance notes to help focus representations on the soundness tests.

The consultation will run until 30 May 2005. Copies of the consultation documents will be placed in the Libraries of both Houses and will be available to download from the planning inspectorate's website at: www.planning-inspectorate.gov.uk.

DEFENCE

Hercules Crash

The Secretary of State for Defence (Mr. Geoffrey Hoon): The RAF board of inquiry (BOI) has produced its interim report into the crash of the C130 Hercules in Iraq on 30 January 2005 with the tragic loss of all 10 personnel on board.

I should emphasise that the BOI is not yet in a position to establish the cause of the crash. There is a great deal of detailed evidence that has yet to be analysed and a number of lines of inquiry that need further investigation.

Based on the evidence currently available, the BOI has ruled out a number of possibilities. These are bird strike, lightning strike, mid-air collision, controlled flight into the ground, wire/obstacle strike, restriction in the aircraft's flying controls, cargo explosion, engine fire, sabotage (including the use of an improvised explosive device) and aircraft fatigue. These interim findings are supported by the UK air accident investigation branch (AAIB).

There remain a number of other possible causes that require further investigation. The BOI is continuing its work, assisted by the AAIB which is also working independently from the BOI to ensure every possible avenue is explored. We will not be commenting or speculating further on the possible causes of the crash until the BOI has concluded.

The families of those killed in the crash are being informed personally of the BOI interim findings.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Sustainable Development

The Secretary of State for Environment, Food and Rural Affairs (Margaret Beckett): I am delighted to announce that the Government's new sustainable development strategy "Securing the Future" is being launched today.

The new UK sustainable development strategy represents a new level of commitment, and joined-up thinking, across Departments. It highlights four priority areas for immediate action—sustainable consumption and production, climate change and energy, natural resources protection and environmental enhancement, and creating sustainable communities. It provides a challenging work programme which has been developed, and which will be delivered, in partnership with business, local government, NGOs and the public.

A supporting strategic framework to 2020, developed jointly by the UK Government, the Scottish Executive, the Welsh Assembly Government, and the Northern Ireland Administration, is also being launched today. This provides a shared purpose and a new set of five principles to underpin actions to deliver sustainable development across the UK.

The strategy documents will be placed in the Libraries of both Houses, and are also available on the UK Government's sustainable development website.

TRANSPORT

GLA Transport Grant

The Minister of State, Department for Transport (Mr. Tony McNulty): The GLA transport grant for 2005–06 has today been determined by the Secretary of State for Transport at £2,161,015,000, following consultation with the Mayor of London. This grant is a block grant provided by the Government to Transport for London to support improvements to London Underground and other transport services in London. The grant figure represents the first instalment of my Department's five-year settlement for TfL announced in July 2004 following the 2004 spending review.

Written Ministerial Statements

Tuesday 8 March 2005

TREASURY

Contingencies Fund: HM Revenue and Customs

The Paymaster General (Dawn Primarolo): In response to one of the recommendations of Gus O'Donnell's review of the revenue departments in 2004, the Government have introduced the Commissioners for Revenue and Customs Bill. In line with the review's recommendations, the Bill will create a new integrated taxes and customs department to supersede the existing departments of Inland Revenue and HM Customs and Excise. This restructuring will aid the efficient and effective management of taxation, and the provision of a more effective service to the public and businesses.

Subject to parliamentary approval, the new department will be launched in April 2005. It is important to have an integrated internet site in place immediately, to provide a single point of contact for online customer information. An integrated internal intranet site, providing a single point of reference for staff, will be launched at the same time.

Urgent work is required in advance of the legislation receiving Royal Assent to allow those sites to be developed, tested and presented as new unified HM Revenue and Customs sites, both to enable the new sites to be launched on time, and avoid later costly duplication of development and testing work.

Parliamentary approval for additional resources and cash of £11,750 for this new service has been sought in the Inland Revenue's spring supplementary estimate. Pending that approval, urgent expenditure of £11,750 on work to develop and test the new logo on the IT systems will be met by a repayable cash advance from the Contingencies Fund.

Pre-Owned Asset Regulations (Double Charges' Relief)

The Paymaster General (Dawn Primarolo): This statement announces regulations under section 104 Finance Act 1986 to provide relief from double inheritance tax (IHT) charges in situations caught by the pre-owned assets provisions at Schedule 15 Finance Act 2004, and is in addition to extended relief from income tax under Schedule 15 which I announced in a written statement on 7 March.

The pre-owned assets legislation in Schedule 15 provides for taxpayers to make an election so that they do not have to pay income tax in respect of a pre-owned asset but instead have the asset treated as part of their estate for IHT purposes. If the taxpayer dies within the next few years after making the election there is a possibility of two IHT charges on the same underlying asset value.

In particular, many taxpayers have used a "double trust" structure: one trust is created to buy the settlor's asset in exchange for an IOU, and this IOU is gifted into a second trust to take it out of the settlor's taxable estate. If the settlor dies within seven years, the estate will be liable to IHT on the IOU; and if they have made an election under Schedule 15 Finance Act 2004, their estate will be also liable on the underlying asset. It is clear from responses in consultation that this prospect is preventing some people from making an election which they would otherwise find attractive.

The regulations will eliminate this double IHT charge so that people who wish to make an election under Schedule 15 can be assured that only one IHT charge will be due whatever the timing of their death.

The regulations will be announced and made available on the Inland Revenue's website at: www.inlandrevenue.gov.uk.

CULTURE, MEDIA AND SPORT

The Legal Deposit Advisory Panel

The Secretary of State for Culture, Media and Sport (Tessa Jowell): I wish to announce the establishment of a new advisory non-departmental public body: "The Legal Deposit Advisory Panel".

The Legal Deposit Advisory Panel will have a crucial role in the implementation of the Legal Deposit Libraries Act 2003. The key tasks of the advisory panel will be to advise the Secretary of State on the content of regulations for the deposit of particular classes of non-print media, making recommendations for future secondary legislation as appropriate. This will ensure that the substantial archival resources in the legal deposit libraries keep pace with contemporary publishing trends.

Following extensive consultation with publishers, legal deposit libraries and other interested parties we have formulated the terms of reference and membership specifications of the panel. We will now be seeking to appoint members to the panel in accordance with the Office of the Commissioner for Public Appointments regulation.

DEFENCE

Balkans Update

The Secretary of State for Defence (Mr. Geoffrey Hoon): NATO has requested the deployment to Kosovo of the United Kingdom spearhead land element (SLE), which currently provides the ready battalion for the NATO Balkan-wide over the horizon operational reserve force. The battalion currently fulfilling the role of SLE is the 1st Battalion the Royal Green Jackets.

The deployment, which was requested by NATO late on the evening of Friday 4 March, was made in order to demonstrate the alliance's resolve and capability in the run-up to a number of important local anniversaries, including that of violent demonstrations last year on 17 March. The Kosovo Prime Minister, Ramush Haradinaj, has also announced today that he is to resign following his indictment by the International Criminal Tribunal for the former Yugoslavia. We welcome his decision to go voluntarily to The Hague.

Following the request from NATO, troops began to deploy to Kosovo over the weekend. A total of around 500 in all should deploy by early this week. We anticipate recovering the battalion back to the UK within thirty days, as we did with the UK element of the operational reserve force that was deployed last March, unless there are compelling operational reasons to consider leaving this capability in Kosovo for longer.

I shall keep the House updated of any significant developments when they occur.

HOME DEPARTMENT

Direct Airside Transit Visas

The Minister for Citizenship and Immigration (Mr. Desmond Browne): The Government are firmly committed to maintaining effective immigration controls while at the same time ensuring that genuine passengers are able to pass through our ports with the least possible inconvenience.

The number of people arriving at UK airports who are found to be inadmissible is unacceptably high. Certain nationals, who are required to hold a valid visa to enter the UK, may transit this country for up to 24 hours without a visa. This provides a relatively easy and inexpensive way for those who are intent on circumventing our immigration controls to do so. Since 2003 we have expanded the direct airside transit visa (DATV) requirement to cover 23 additional nationalities. This has helped contribute to the significant drop in port asylum applications from these nationalities. For the three months following the introduction on 16 October 2003 of DATV regimes for Angola, Bangladesh, Cameroon, India, Lebanon and Pakistan, the number of asylum applications made at ports by those nationalities fell by 58 per cent.

Intelligence would suggest that some individuals travelling to the United Kingdom on documents issued by Congo, Guinea, Guinea-Bissau and Mongolia are destroying these documents either en route or after gaining entry to the UK, and are then applying for asylum as nationals of the Democratic Republic of Congo, Sierra Leone, Liberia or China. Therefore from 00.01 hours on Wednesday 9 March all nationals Congo, Guinea, Guinea-Bissau and Mongolia wishing to transit the UK will require a visa to do so.

To avoid undue hardship for those who had already made their travel plans, we have agreed to operate a grace period. Until 23.59 hours on Tuesday 15 March, any transit passenger who bought their ticket on or before 8 March will not be refused entry solely on the basis of not holding a valid transit visa. Also, any person on the return leg of a journey they commenced before 9 March and who passed through the UK on the outward leg of their journey will be allowed to transit the UK without a visa until 23.59 on 5 April.

In parallel with those measures, we are introducing changes to the arrangements that allow certain groups of low risk passenger to be exempt from a transit visa requirement if they are in possession of specific documents. Passengers who hold a valid visa for Australia and New Zealand will now be exempt from the DATV requirement. Visa-free transit of the United Kingdom will now be possible for such passengers irrespective of the routing chosen to reach Australia or Canada.

Further amendments to the exemptions mean that a passenger returning from a trip to the Australia, Canada, New Zealand or the USA will now be able to transit the United Kingdom irrespective of the routing they choose providing they are in possession of an onward air ticket and the visa held by them remains valid or they are not seeking to transit the UK more than six months since they last entered Australia, Canada, New Zealand or the USA respectively, with a valid visa.

I believe these changes will further reduce scope for abuse of the United Kingdom's immigration controls, whilst minimising inconvenience for genuine travellers and the travel industry alike.

Written Ministerial Statements

Wednesday 9 March 2005

DEFENCE

Modernising Armed Forces and Veterans Personnel Administration

The Parliamentary Under-Secretary of State for Defence (Mr. Ivor Caplin): I am announcing today that I have asked the deputy chief of defence staff for personnel to explore whether there is scope for further service improvement through the greater integration of services delivered by the Armed Forces Personnel Administration Agency and the Veterans Agency. This is consistent with our overall policy at the Ministry of Defence to continue to improve the administrative support we provide to the armed forces and veterans.

This study will build on the opportunities offered by the joint personnel administration programme that will go live progressively during 2006. This review will take full account of the Government's intent to maintain a sharp focus on the delivery of services to all veterans. Trade unions, staff and customers, including veterans' groups, will be consulted before any conclusions are reached. I expect to report on the outcome of the study before the summer parliamentary recess.

Royal Gloucestershire, Berkshire and Wiltshire Regiment

The Secretary of State for Defence (Mr. Geoffrey Hoon): On 16 December 2004 I announced changes to the future structure of the infantry, including a decision on how we would achieve a reduction by one in the number of battalions in the Prince of Wales's Division. The antecedent components of the Royal Gloucestershire, Berkshire and Wiltshire Regiment (RGBW) were to merge with, in the case of the Gloucestershire element, the Devonshire and Dorset Regiment (which would also transfer to the Light Infantry) and, in the case of the Duke of Edinburgh's Royal Regiment element, the Princess of Wales's Royal Regiment.

However, following my announcement, there was a widespread perception that the plan to split the RGBW along the lines of its antecedent parts amounted to the disbandment of the RGBW and the abandonment of its own heritage.

In view of this, I asked the executive committee of the Army Board (ECAB) to review its original recommendation in relation to the future of the RGBW. In the process of this review, ECAB noted that in formulating its original recommendation on the RGBW it had given insufficient weight to the sense of identity that has evolved during the 10 years since the RGBW was created.

ECAB concluded that although the substance of the original recommendation—that the RGBW will form the basis of the reduction by one battalion of the Prince of Wales's Division—should not change, more could be done to preserve the identity and heritage of the RGBW itself, and not just of its antecedents. ECAB now recommends that this should be achieved instead through an amalgamation of the Devonshire and Dorset Regiment with the RGBW. The resulting new regiment will become 1st Battalion the Light Infantry (reflecting the original decision for the D and D to join the Light Infantry).

I have accepted the need for this adjustment to the original recommendation. The details of how the amalgamation will be taken forward will be a matter for the Army to manage and will be worked out by those concerned over the coming months.

HEALTH

"Choosing Health" Delivery Plan and Action Plans

The Parliamentary Under-Secretary of State for Health (Miss Melanie Johnson): The Government's public health White Paper "Choosing Health: Making Healthier Choices Easier", launched in November 2004, set out commonsense steps to prevent unnecessary deaths and help people to make healthier choices.

The delivery plan for "Choosing Health", published today, explains how the Government will put these plans into practice. It includes 45 "big wins" which the evidence suggests will make the greatest impact on health. It also covers policies and programmes which will be developed and implemented, targets to improve health, partnerships between industry, the voluntary sector and professional groups, and services delivered by local authorities and the NHS.

Delivering "Choosing Health" is backed up by two Action Plans: "Choosing a Better Diet: a food and health action plan" and "Choosing Activity: a physical activity action plan", also published today.

"Choosing a Better Diet: a food and health action plan" brings together, in one place, all the White Paper commitments relating to food and nutrition as well as further activity across Government. This includes action to improve information to enable healthier eating, restrict further the advertising and promotion of foods to children, increase access to healthier food, simplified food labelling, and improved school food.

"Choosing Activity: a physical activity action plan" sets out, for the first time, coordinated cross-Government action on promoting physical activity and sport. It highlights the leadership role of the NHS and the importance of close partnership working across sectors, particularly with local authorities, to bring about positive change in activity levels across the whole population. The plan outlines a national framework to complement and support work at a regional and local level. It details an extensive range of departmental commitments such as action to promote active travel through increased walking and cycling, work to improve the physical environment of communities to encourage more active living, and programmes to increase participation in sport and leisure activities.

Copies have been placed in the Library.

HOME DEPARTMENT

New National Refugee Integration Strategy

The Minister for Citizenship and Immigration (Mr. Desmond Browne): I am pleased to announce the publication today of "Integration Matters", the new national refugee integration strategy for England. Published in draft form last year, the thrust of the strategy was widely welcomed, but it has been informed and improved as a result of the consultation exercise. It replaces the earlier strategy, "Full and Equal Citizens", which came out in November 2000. The key themes of the new strategy, which is fully consistent with "Controlling Our Borders", the five-year strategy for immigration and asylum which was published last month, are to be found in helping refugees to achieve their full potential, to contribute to the community as fully as possible, and to gain access to the services to which they are entitled. The strategy shows how we intend to make best use of the substantial funding which we make available every year for refugee integration.

Among the most important new departures will be the introduction of the programme of refugee integration loans for which we legislated last year; and the piloting of the Sunrise programme under which specialised case workers will work with new refugees to draw up personal integration plans during the first month after they have received refugee status.

"Integration Matters" is being published at the same time as "Working to Rebuild Lives", the Department of Work and Pensions' new refugee employment strategy, and there are naturally close links between the two documents.

The Government have rightly placed much emphasis on eliminating abuse of the asylum system. "Integration Matters" reaffirms explicitly both the humanitarian importance of our commitment to provide refuge for those who are entitled to it, and the way in which the real benefits they bring to this country can be enhanced by effective programmes of integration.

TRADE AND INDUSTRY

British Electricity Trading and Transmission Arrangements

The Minister for Energy and E-Commerce (Mr. Mike O'Brien): I have announced that the "Go-live" date for the British Electricity Trading and Transmission Arrangements (BETTA) will be 1 April 2005. BETTA will bring together Scotland's transmission networks and the network in England and Wales to create a single GB electricity market.

I have also announced our intention to limit the charges renewable generators on the Scottish islands, and potentially in the far north of the Scottish mainland, will have to pay to the National Grid to transmit electricity to customers across Britain. I am doing this under a power taken in the Energy Act 2004. Exercise of this power will ensure that remote location is no bar to renewable development, which can make an important contribution to the Government's target of having 10 per cent. renewable energy by 2010. We will be consulting on the details of the scheme in the summer.

TRANSPORT

Rail Industry Performance

The Secretary of State for Transport (Mr. Alistair Darling): The "Future of Rail" White Paper (Command Paper 6233), published in July 2004, announced the intention to establish Network Rail as the single point of responsibility for rail industry performance.

I am today announcing that Network Rail will take on this role from 4 April 2005. It will help deliver clear accountability for performance and focus the industry's efforts on delivering a more reliable railway for customers.

The management of the overall performance of the rail network is currently undertaken by the Strategic Rail Authority (SRA). It tracks and reports the industry's overall progress on improving performance, and collates the detailed public performance measure (PPM) for each train company.

Working with train companies the SRA has developed specific performance improvement plans to reduce train companies delays. The changes I am announcing today will place that responsibility with Network Rail.

Network Rail already leads the delivery of national rail industry initiatives to improve performance, such as, resilient timetabling, the establishment of integrated control centres with train companies and the preparations for seasonal operating conditions. It is responsible for day to day operations and getting services back on track following any incidents and delays.

In future, Network Rail will also regularly track, report and challenge the industry's efforts to improve performance. At a local level, working in partnership with the train companies, the company will develop and put in place joint performance improvement plans, bringing together the currently separate planning arrangements of Network Rail and train companies, and in doing so secure the benefits of closer joint working.

Network Rail will take on the SRA's role of collecting data on the performance of the railway. Information on performance will be published regularly by the Office of Rail Regulation and Network Rail will be accountable for the performance levels achieved.

Network Rail's new role is a non-statutory function. Its accountability for overall performance will be underpinned by an amendment to its licence conditions which will set out its role in terms of whole industry performance. The details of the amendments are currently being consulted upon by the Office of Rail Regulation.

The changes I have announced today are further important steps in the implementation of the "Future of Rail" White Paper. They put in place clear arrangements and responsibilities for the overall performance of the network. They will ensure close joint working between Network Rail and train companies to deliver improved services to the passenger. They will also build on the closer industry co-operation happening now, through the establishment of integrated control centres, that are beginning to deliver impressive results in reducing delays on the network.

I shall keep the House informed of further developments as we continue to implement the proposals set out the in White Paper.

Turning Circles (Buses and Coaches)

The Parliamentary Under-Secretary of State for Transport (Mr. David Jamieson): Since 1998, rigid buses and coaches in the EU have had to comply with minimum turning circle requirements in order that they should easily and safely travel along roads and negotiate junctions. Since 2002, the turning circle requirements have been relaxed, except in Portugal and the UK, who were given a transitional period to ensure that no major issues would be experienced. The transitional period ends today and the requirements become aligned with the rest of the EU.

Local and highway authorities are being advised of the changes, and technical reports demonstrating the assessments made on this matter will be published shortly. Copies of these reports will be placed in the Libraries of both Houses and put on the Department's website.

WORK AND PENSIONS

Refugee Employment Strategy

The Minister for Work (Jane Kennedy): I am pleased to announce the publication today of "Working to Rebuild Lives: a refugee employment strategy"—copies of which have been placed in the Library.

We began work to develop the strategy in December 2002 following research examining the barriers that refugees[1] face in employment and training. The research found that only around half of unemployed refugees are familiar with Jobcentre Plus services. In response, we developed studies and pilot activity throughout 2003 to identify ways to improve refugee participation in Jobcentre Plus activity. We consulted with Government and external partners, including the refugee community and voluntary sectors, through a preliminary report published in September 2003. We reported our studies and pilot activity in September last year (DWP Research Report W201).

The aims of the strategy are to move more unemployed refugees into Jobcentre Plus support quickly after they receive refugee status and to ensure that Jobcentre Plus gives them the help they need to find sustainable work.

The strategy introduces measures, some already in place and some still in development, across Government and the voluntary sector. It identifies ways in which Government can work more closely to make it easier for refugees to get the help they need. It is underpinned by a Jobcentre Plus "Operational Framework" that provides guidance for staff in identifying and addressing key issues to support refugees seeking employment and claiming benefits.

The publication of this strategy does not close the debate on refugee employment. DWP has worked closely throughout its production with the Employability Forum who lead the employment sub-group of the Home Office-led National Refugee Integration Forum (NRIF). DWP will continue to work with this group to monitor the success of the strategy and to continue to identify and tackle refugees' barriers to employment. I thank the Employability Forum and NRIF for their involvement.

The refugee employment strategy is being published simultaneously with "Integration Matters", the Home Office's strategy for refugee integration.

Note

[1] The term "refugee" in the refugee employment strategy applies to those granted refugee status or other leave to remain in the UK through the asylum process. In this context, the term "refugee" is not the strict interpretation applied by the Home Office.

Benefit Fraud Inspectorate Report on Brentwood Borough Council

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. Chris Pond): On behalf of my right hon. Friend the Secretary of State for Work and Pensions, the BFI focused inspection report on Brentwood borough council was published on 8 March and copies of the report are available in the Library.

In 2003–04, Brentwood borough council administered some £11 million in housing benefits, about 19 per cent. of its gross revenue expenditure.

On 29 January 2004 I announced, *Official Report*, column 18WS, that BFI would undertake focused inspections to provide quick improvements in performance in specific areas of benefits administration. This inspection concentrated on processing of claims for housing benefit and council tax benefit.

Brentwood borough council has made fundamental changes to its benefits service over the past three years, including major restructuring new information technology (IT) systems and implementation of the Department's verification framework. The council recognised that service improvement could only be achieved by developing and retaining the experience of their staff and has been successful in doing this.

Customer service was clearly a priority and particular efforts have been made to ensure that all evidence to support a claim is gathered. A local initiative to interview all customers who submitted a new claim, or reported changes of circumstances, was unusual but effective.

The council's close monitoring of the claims process has identified and resolved delays but this scrutiny was undermined by inadequate checks and the limited level of assurance provided by internal audit. Inconsistent working practices, a lack of audit trails and weaknesses in document imaging also detracted from the quality of work.

A number of successful bids to the Performance Standards Fund and Brentwood borough council's own investment have led to significant improvement in the average time taken to process claims. Steady progress has been made in the speed of processing but quality needs to be improved.

My right hon. Friend the Secretary of State is now considering the report and may ask the council for its proposals in response to the BFI's findings and recommendations.

Benefit Fraud Inspectorate Report on Copeland Borough Council

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. Chris Pond): On behalf of my right hon. Friend the Secretary of State for Work and Pensions, the BFI focused inspection report on Copeland borough council was published on 8 March and copies of the report are available in the Library.

In 2003–04, Copeland borough council administered some £20 million in housing benefits, 53 per cent. of its gross revenue expenditure.

On 29 January 2004, *Official Report*, column 18WS, I announced that the BFI would undertake focused inspections to provide quick improvements in performance in specific areas of benefits administration. This inspection concentrated on processing of claims for housing benefit and council tax benefit.

At the time of the inspection in November the council was processing new claims well outside the standard of 36 days and was in the bottom quartile of performance for all councils. Accuracy was poor and the reported performance was in the bottom quartile for this indicator of performance as well.

Inadequate analysis of the quality of work done, inconsistent management checking and a poor management information system meant that performance could not be monitored effectively and that the council should not identify the reasons for poor performance nor the opportunities to improve.

Coincidental with the BFI's inspection and in acknowledgement of its poor performance the council is now undertaking an ambitious change programme, and has introduced an interim new structure for the benefits service, implemented a document imaging processing system and moved into new premises. A new benefits IT system is planned for 2005.

The council has performance standard funding to employ consultants to assist its change programme. Copeland borough council has recognised that staff development, including management training and mentoring, will be necessary to improve its services.

The council addressed many of the issues identified during the course of the inspection.

My right hon. Friend the Secretary of State is now considering the report and may ask the council for its proposals in response to the BFI's findings.

Benefit Fraud Inspectorate Report on Fylde Borough Council

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. Chris Pond): On behalf of my right hon. Friend the Secretary of State for Work and Pensions, the BFI inspection report on Fylde borough council was published on 8 March and copies of the report are available in the Library.

Following the housing Green Paper "Quality and Choice: A Decent Home for All", published in April 2000, the Department for Work and Pensions developed a performance framework for housing benefits. The performance standards allow local authorities to make a comprehensive self-assessment of whether they deliver benefit effectively and securely. They are the standards that the Department for Work and Pensions expects local authorities to aspire to and achieve in time.

In 2003–04, Fylde borough council administered some £12 million in housing benefits, about 48 per cent. of its gross revenue expenditure.

The BFI inspected the council against the performance standards for housing benefits and finds that the council is not at standard for any of the seven functional areas of the performance standards—strategic management, customer services, processing of claims, working with landlords, internal security, counter-fraud and overpayments. However, it has strengths in all areas and overall Fylde borough council was performing to a fair standard.

To deliver strong and enduring improvement the council needs better strategic management, operational targets and performance monitoring systems. It should also seek to encourage the active involvement of senior officers and elected members in benefits matters.

The council has successfully tackled a backlog of benefit claims and performance has steadily improved since 2003. In August 2004 the council reported that it had achieved the performance standards for processing new claims (36 days) and changes of circumstances (nine days).

The council provides a high quality service to customers in terms of handling personal callers, telephone enquiries, correspondence and complaints. Customer surveys show a high level of customer satisfaction.

The council is responsive to the risks of benefit fraud and has experienced and professionally trained staff applying a full range of sanctions and key processes. Arrangements for recovering overpayments are not fully effective, however this weakness has been identified and extra resources have been allocated to reduce the amount of overpaid benefit.

My right hon. Friend the Secretary of State is now considering the report and may ask the council for its proposals in response to the BFI's findings and recommendations.

Benefit Fraud (Torridge)

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. Chris Pond): On behalf of my right hon. Friend the Secretary of State for Work and Pensions, the BFI inspection report on Torridge district council was published on 8 March and copies of the report are available in the Library.

Following the housing Green Paper "Quality and Choice: A Decent Home for All", published in April 2000, the Department for Work and Pensions developed a performance framework for housing benefits. The performance standards allow local authorities to make a comprehensive self-assessment of whether they deliver benefit effectively and securely. They are the standards that the Department for Work and Pensions expects local authorities to aspire to and achieve in time.

In 2003–04, Torridge district council administered some £10 million in housing benefits, 31 per cent. of its gross revenue expenditure.

BFI inspected Torridge district council against the performance standards for housing benefits and finds that the council is not at standard for any of the seven functional areas of the performance standards—

strategic management, customer services, processing of claims, working with landlords, internal security, counter-fraud and overpayments. Torridge district council is in the bottom 15 per cent. of all local authorities for claims processing performance and is providing a poor service overall.

The benefits service has been given a low priority within the council for several years and this is reflected in its consistently poor overall performance. There is a lack of effective management at strategic and operational level, and members and senior managers have failed to address weaknesses that have been apparent for at least two years.

Service improvements have been hindered by the lack of a strategic service delivery plan and formal policies and procedures. Managers have been running the service with limited management information and checks.

Coincidental with the inspection a reorganisation of benefits services had taken place and the case for additional resources was being addressed. There is now a commitment to improve the service provided to customers.

While good progress has been made in countering fraud, little is done to recover overpayments.

My right hon. Friend the Secretary of State is now considering the report and may ask the council for its proposals in response to the BFI's findings and recommendations.

Benefit Fraud Inspectorate (Race Relations Act)

The Parliamentary Under-Secretary of State for Work and Pensions (Chris Pond): On behalf of my right hon. Friend the Secretary of State for Work and Pensions, the BFI Race Relations Act update report was published on 8 March and copies of the report are available in the Library.

All inspectorates are to promote compliance with the Race Relations Act. BFI published its first Race Relations Act report in May 2003 on the extent to which 10 randomly selected local authorities' benefit services complied with the requirements of the Race Relations Act, as amended by the Race Relations (Amendment) Act 2000. Since then BFI has worked with the Commission for Racial Equality and the Department for Work and Pensions to ensure that the requirements of the Race Relations Act were incorporated in performance standards for the administration of housing benefits.

This second BFI report in this important area is based on 15 BFI inspection reports published since May 2003. It shows that no local authorities were meeting all the criteria relating to the Race Relations Act as set out in performance standards. At the time of BFI's inspections, four of the 15 local authorities had assessed the impact of proposed policies, or monitored the impact of existing policies, on race equality and two local authorities that failed to meet this requirement had a large ethnic minority population.

The report notes that eight local authorities had not provided training on the requirements of the Race Relations Act. However, areas of good practice were identified in the 15 local authorities and BFI is pleased to report there was widespread compliance with the requirement to produce a race equality scheme.

Benefit Fraud Inspectorate Good Practice Review of Rotherham Metropolitan Borough Council

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. Chris Pond): On behalf of my right hon. Friend the Secretary of State for Work and Pensions, the BFI good practice review of Rotherham Metropolitan borough council was published on 8 March and copies of the report are available in the Library.

In 2003–04, Rotherham metropolitan borough council administered some £60 million in housing benefits, 15 per cent. of its gross revenue expenditure.

The BFI helps to improve the effectiveness and security of benefits administration by disseminating good practice. Good practice reviews identify practices and procedures that can help other councils. This report identifies and describes the good practices the BFI found in Rotherham metropolitan borough council's administration of housing benefit and council tax benefit.

The BFI found that a partnership between the council and British Telecom (BT) provided the benefits service with a clear strategic purpose and modern IT conducive to a more effective service to customers.

Rotherham is in the top quartile of all councils for the speed of processing new claims and changes of circumstances. This strong performance was maintained during the implementation of the verification framework. Proactive case management, using accurate management information, has enabled managers and team leaders to identify potential processing delays and take appropriate action. On top of this, considerable improvements have been made to prevent, deter and detect fraud by introducing comprehensive counter-fraud policies and using the full range of sanctions. Other councils may well be able to learn from Rotherham's approach.

Written Ministerial Statements

Thursday 10 March 2005

CONSTITUTIONAL AFFAIRS

Her Majesty's Courts Service

The Parliamentary Under-Secretary of State for Constitutional Affairs (Mr. Christopher Leslie): My hon. Friend the Secretary of State and Lord Chancellor, the right hon. Lord Falconer of Thoroton, has made the following written ministerial statement.

On 1 April 2005, I will launch Her Majesty's Courts Service. The new agency brings together 43 organisations: the Court Service and the 42 Magistrates Courts Committees;

The following table sets out the key performance targets which I have set for Her Majesty's Courts Service for 2005–06:

Relevant PSA	*Headline targets Criminal Courts*	*Performance required by March 2006*
PSA1 (SR 2002 & 2004)	Increasing offences brought to justice:- Reducing the proportion of ineffective criminal trials	Not more than 17% in the Crown Court Not more than 23% in magistrates' courts
PSA1 (SR 2002 & 2004)	Ensuring cases are disposed of promptly	78% of cases start on time in the Crown Court
PSA1 (SR 2002 & 2004)	Average case length for persistent young offenders	Not more than 71 days
PSA1 (SR 2002 & 2004)	Maintain the number of sitting days in the Crown Court	104, 200 sitting days
PSA 2 (SR 2002 & 2004)	Improve enforcement of fines and execution of community penalty breach warrants	A payment rate of 81% or above The different individual area targets for warrant execution are met
PSA 3 (SR 2002) PSA 5 (SR 2004)	Hearings and orders	Increase the proportion of contact and ancillary relief orders made by consent to 73.4% Reduce by 5% the proportion of disputed claims in the courts that are ultimately resolved by a hearing
PSA 4—PSA 5 (SR 2002) PSA 5 (SR 2004)	Claims	Increase by 2 % the number of small claims that are heard within the target time
PSA 4 (SR 2002)	Increase the level of user satisfaction in key areas	User satisfaction with knowledge of court staff at public counter 85% knowledge of staff on telephone service 80% speed of resolution of complaints 60% helpfulness of written communication 80%
PSA 4 (SR 2004)	Public Law children Act Cases (vulnerable children)	To improve performance in the time taken to complete care cases heard in the courts against the 40 week target (ultimately by 10 percentage points by 2010)
PSA 4 (SR 2002)	Adoptions	Complete 70% of cases in County Courts within 20 weeks

Copies of the HM Court Service framework document and the business plan for 2005–06 have been placed in the parliamentary Libraries.

Inquiries Bill

The Parliamentary Under-Secretary of State for Constitutional Affairs (Mr. Christopher Leslie): My right hon. Friend the Secretary of State for Constitutional Affairs and Lord Chancellor has today published the Government's response to the Public Administration Select Committee's first report of Session 2004–05 on "Government by Inquiry" which was published on 3 February 2005. The Government response includes comments on each of the 22 recommendations of the Committee.

The Government welcome the Committee's report on the use and effectiveness of independent inquiries into matters of public concern. The Committee's response is of immediate relevance to the current Parliamentary debate on the Inquiries Bill, which has now entered the House of Commons having completed its passage through the House of Lords.

The Inquiries Bill is designed to provide a comprehensive statutory framework for inquiries set up by Ministers into events that have caused, or have the potential to cause, public concern.

The Government believe that Government amendments brought forward in the House of Lords address many of the issues raised in the Committee's report. However, the Government is keen that the recommendations in the report, and our response published today, should both help to inform the debates on the Inquiries Bill as it continues its passage through Parliament.

I have placed copies of the response in the Libraries of both Houses and it has also been published on the Department for Constitutional Affairs website at: www.dca.gov.uk.

CULTURE, MEDIA AND SPORT

Television Licence Fees

The Secretary of State for Culture, Media and Sport (Tessa Jowell): On 18 November last year, *Official Report*, column 99WS, the Government announced that, from 1 April 2005, the fee for a colour television licence would rise to £126.50 and the black and white licence fee to £42.00. I am today laying before the House the regulations necessary to bring these new fees into force.

The new regulations also increase the fee for a duplicate licence, to replace one that has been lost or destroyed, from £3.25 to £4.50.

DEFENCE

Regional Prime Contract (South-East)

The Parliamentary Under-Secretary of State for Defence (Mr. Ivor Caplin): I am announcing today that PriDE, a joint venture between Interserve (Defence) Ltd and Southern Electric Contracting (SEC) has been awarded the Regional Prime Contract covering the Ministry of Defence's estate in the south-east. This follows the successful conclusion of discussions with the consortium, which was appointed as preferred bidder in August 2004.

The seven-year contract, worth in the region of £400 million, is the third in a series of five such regional arrangements to cover the estate and provide for capital works, property maintenance and facilities management services, throughout the south east of England.

The MOD has undertaken to make significant improvements in the overall condition of its estate by changing its organisational structures and introducing prime contracting methods. Encouraging innovation and efficiency, Regional Prime Contracting is a key initiative that aims to provide a better quality of service and greater value for money through suitably incentivised contracts conforming to the principles of "Smart Acquisition".

Hooding (British Armed Forces)

The Secretary of State for Defence (Mr. Geoffrey Hoon): Since May 2004 Ministers have made statements in both Houses of Parliament and in written answers to the effect that the use of hooding in Iraq by the British Armed Forces ceased at the end of September 2003. These answers referred to conventional forces and remain true with respect to them. It has been drawn to Ministers' attention, however, that UK Special Forces from time to time used hooding as a temporary measure for the safe arrest and transit of detained persons until May 2004. For the sake of completeness the Parliamentary record should be corrected to reflect this.

Most of the criticism about the use of hooding has related to the obscuring of vision during interrogation. This practice is contrary to the instructions given by the then Prime Minister in 1972 and was ceased by UK military interrogators thereafter. UK military interrogators are made fully aware of this as part of their training and there have been no reported incidents where UK military interrogators have interrogated individuals while they have been hooded.

Our legal advice remains that the practice of temporarily obscuring the vision of a detained person, for the purposes of initial detention and transit, by the use of a hood is not contrary to the law. In Iraq the initial circumstances on the ground were such that it was judged by certain military commanders that its use was appropriate given the numbers of detainees and in some cases the need to obscure the identities of particular detainees for their own protection.

I can, however, confirm that no UK forces are currently authorised to use hooding in any circumstances.

End-to-End Logistics

The Minister of State, Ministry of Defence (Mr. Adam Ingram): On 1 November 2004, I informed the House that there would be a series of announcements relating to the Defence Logistics Transformation Programme. On 25 November 2004, following a period of trades union consultation, I announced the implementation of changes arising from the recommendations of the end-to-end review of the logistics process for military aircraft support. I indicated that, in addition to changes arising from air depth support, the application of end-to-end logistic principles would result in a reduction of around 1,500 RAF uniformed personnel and some reductions in MOD civilian posts at some RAF stations.

As part of this continuing process, I am announcing today how the overall reductions in both RAF uniformed personnel and MOD civilians as a result of the application of the end-to-end logistic principles are expected to affect individual RAF stations. The civilian reductions will be subject to TU consultation. These efficiency reductions, together with the increase to the defence budget, will ensure that the Department can modernise its armed forces to meet tomorrow's challenges.

Further work to identify efficiencies has now estimated that the reduction in the number of RAF uniformed personnel posts will be in the region of 2,000. With regard to MOD civilian posts, I anticipate that a net additional 70 posts will no longer be required. These changes will form part of the service and civilian manpower reductions of 7,500 and 10,000 respectively that were announced on 21 July last year.

The effect on individual stations of these efficiencies are detailed in the table below. I expect the changes to be implemented by April 2008.

RAF Station	*Service Changes relating to aircraft depth support*[1]	*Other Changes*	*Total*
Brize Norton	180	120	300
Cottesmore/ Wittering	0	325	325
Kinloss	35	145	180
Leeming	0	215	215
Leuchars	0	160	160
Lossiemouth	340	360	700
Lyneham	130	100	230
Marham	+340	370	30
St Mawgan	90	85	175
Waddington	0	125	125
Total	435	2,005	2,440

RAF Station	*Civilian Changes relating to aircraft depth support*[1]	*Other Changes*	*Total*
Brize Norton	0	0	0
Cottesmore/ Wittering	0	0	0
Kinloss	0	20	20
Leeming	0	20	20

RAF Station	Civilian Changes relating to aircraft depth support[1]	Other Changes	Total
Leuchars	0	+10	+10
Lossiemouth	50	+15	35
Lyneham	0	0	0
Marham	0	30	30
St Mawgan	40	0	40
Waddington	0	25	25
Total	90	70	160

Note: All figures are reductions unless otherwise indicated. All numbers are rounded.

[1]Announced subject to Trades Union consultation 16 September 2004. Confirmed 25 November 2004.

FOREIGN AND COMMONWEALTH AFFAIRS

Counter Narcotics (Afghanistan)

The Parliamentary Under-Secretary of State for Foreign and Commonwealth Affairs (Mr. Bill Rammell): Rammell): The United Kingdom, as lead nation, salutes the determination of President Karzai and his Government in implementing the 1384 (2005) Counter Narcotics Implementation Plan. The plan is a framework for action to accelerate all our efforts over the coming year and sets out counter-narcotics (CN) activities ahead under eight pillars:

building institutions

information campaign

alternative livelihoods

interdiction and law enforcement

criminal justice

eradication

demand reduction and treatment of addicts

regional cooperation.

The adoption of this plan follows the successful holding by President Karzai in December 2004 of the first Counter Narcotics National Conference in Afghanistan. At that conference and since then, President Karzai has delivered powerful messages to reinforce his strong determination to act against all aspects of the narcotics trade.

The UK welcomes this renewed commitment and joins with the wider international community in pledging our collective, increased support for the 2005 plan. There are some early signs that this year may see an overall reduction in opium poppy cultivation levels. However, as it is still early in the harvest cycle, we need to wait for the UN assessments later in the year on levels of cultivation and on how much of the crop in the fields has been destroyed.

The UK has increased its spending to US$100 million this year on counter-narcotics activities in Afghanistan. Specifically, we are stepping up activity in support of the 2005 Plan in the following ways:

On creating alternative livelihoods for farmers who currently grow opium poppy, following the visit of my right hon. Friend the Secretary of State for International Development to Afghanistan in January 2005, the UK has pledged US$125 million of support for alternative livelihoods in 2005–06; our alternative livelihoods commitment has more than doubled annually from 2002–03 to 2005–06. The UK is also leading the way in pressing some of the larger multilateral donors, such as the World Bank, to include counter narcotics objectives in their programmes. Activities include:

substantial support to activities to bring short-term, visible impact in 2005, building on the US$5m already made available for "cash for work";

support to a wide range of agricultural and off-farm income generating activities in poppy growing provinces;

increasing access to credit to rural areas, and developing products to address the specific problem of opium debt;

assessing opportunities to promote alternative products to opium poppy, and more favourable terms of trade for those products;

improving the co-ordination and implementation of development and counter narcotics programmes in Badakhshan, where the UK has already committed more than US$7.5 million.

On law enforcement, the UK has mapped out and is coordinating the development of the Counter Narcotics Police of Afghanistan (CNPA), working with other lead nations to establish the counter narcotics capacity of all Afghan law enforcement institutions. As part of the CNPA development plan, the UK is establishing a further nine mobile detection teams (over 100 officers) in the next 18 months, capable of interdicting drug traffickers in Kabul and the provinces. We are also providing mentoring for intelligence and investigation units. We are looking to international donors to contribute to the CNPA development plan. We also welcome the recent results of the Afghan Special Narcotics Force (ASNF), for which the UK has provided advice and funding. The Force has seized over 75 tonnes of opiates, destroyed 80 drugs labs and disrupted two drugs bazaars during the last year;

On developing the criminal justice system, the UK, working with the UN, has set up and completed the first phase of training and mentoring of the Counter Narcotics Criminal Justice Task Force of investigators, prosecutors and judges. The Task Force will be 80 strong by mid-2005. We have also funded UNODC (nearly US$2million) to establish a secure court and prison facility for counter narcotics;

On eradication of the opium crop, this will be carried out in 2005 by the US-supported Central Poppy Eradication Force (CPEF) and by Governors and Police Chiefs at local level. The UK is working closely in both these areas and has established a Planning and Monitoring Cell to ensure that eradication by CPEF is targeted in a way which takes account of alternative livelihoods. We are also helping CPEF with salaries and equipment and are the major donor for verification and assessment of the eradication campaign to ensure it is carried out: over US$1 million to establish 30 ground-based verification teams (240 people) and satellite imagery. The first 15 verification teams should produce preliminary results by March.

On building the institutions necessary to support long-term Afghan commitment, the UK is helping to build central and provincial capacity in a number of key government institutions, including the new Counter Narcotics (CN) Ministry under Minister Qaderi, the counter narcotics function within the Ministry of

the Interior, the Rural Reconstruction Ministry, the Office of the National Security Adviser, the Civil Service Commission and the Cabinet Secretariat;

On lobbying, my right hon. Friends the Foreign Secretary and the International Development Secretary have now launched a substantial lobbying campaign to encourage international partners, including the G8, the EU, the US, neighbouring countries of Afghanistan and other Berlin Conference participants, to support the Plan and help establish the new Counter Narcotics Trust Fund. The aim of this Fund will be to pull together donor support for the Afghan government's counter narcotics priorities. The April 2005 Afghan Development Forum will be an important opportunity for the Afghan government to seek additional support for alternative livelihoods;

The UK is also working with Afghan and international partners—

To raise public awareness of the risks to Afghanistan of the drugs trade and the dangers to health from addiction associated with growing opium poppy through proactive and comprehensive information campaigns and drug treatment activities;

To increase regional co-operation to tackle the drugs trade across borders through implementation of the April 2004 Berlin Declaration on Counter Narcotics Within the Framework of the Kabul Good Neighbourly Relations Declaration of December 2002.

In 2004–05, the UK provided around US$2.5 million of assistance to increase counter narcotics capacity on Afghanistan's borders with Iran, Pakistan and Tajikistan, the three main routes for opiates being smuggled out of Afghanistan. Further such assistance is planned for financial year 2005–06.

My right hon. Friend the Foreign Secretary (Mr. Jack Straw) visited Kabul on 16 February, the day President Karzai launched the 2005 CN Implementation Plan. They agreed on the crucial importance of working together in support of the Plan to mobilise international assistance so that narcotics does not destroy Afghanistan's potential for stability, reconstruction and a thriving licit economy. The 2005 Plan therefore represents an important opportunity. We share the resolve of the Afghan government to achieve the sustainable elimination of opium poppy cultivation in Afghanistan in 2005 and beyond.

I am placing copies of the plan in the Library of the House.

HEALTH

NHS Charges

The Minister of State, Department of Health (Ms Rosie Winterton): We shall lay before the House regulations to increase National Health Service charges in England from 1 April 2005. There will be a cash increase in the prescription charge of 10p from £6.40 to £6.50 for each quantity of a drug or appliance dispensed.

The cost of prescription prepayment certificates will rise to from £33.40 to £33.90 for a 4-month certificate and from £91.80 to £93.20 for an annual certificate. These offer savings for those needing more than five items in four months or 14 in one year.

Some 86 per cent. of prescription items are dispensed in the community free of charge with another five per cent., of items dispensed to holders of prepayment certificates at no additional charge at the point of dispensing.

Around 50 per cent. of the population are entitled to free prescriptions including:

Men and women aged 60 and over

Children under 16

Young people aged 16, 17 and 18 who are in full time education

Pregnant women and women who have had a child in the previous 12 months and who hold a valid exemption certificate

People who hold a valid exemption certificate for a War Disablement but only in respect of medication for the disablement

People suffering from certain medical conditions and who hold a valid exemption certificate

People or their partners who get:

Income Support

Pension Credit guarantee credit

Income-based Jobseeker's Allowance

Tax credit where income is £15,050 per year or less and meet qualifying conditions.

People on low incomes who qualify under the NHS Low Income Scheme

Prescription charges are expected to raise some £452 million for the NHS in 2005–06.

Charges for elastic stockings and tights, wigs and fabric supports supplied through the Hospital Service will be increased similarly.

The maximum patient charge for a single course of dental treatment begun on or after 1 April 2005 will increase from £378 to £384. Only around two in every 1000 dental courses of treatment incur the maximum charge.

The prescription charge increase is the same as in the previous six years and is well below the current level of inflation. The other increases are in line with this percentage increase.

In order to continue to provide help with the cost of spectacles or contact lenses to children, people on low income and individuals with complex sight problems, optical voucher values will rise by 2.5 per cent.

NHS Charges and optical voucher values in Scotland, Wales and Northern Ireland are a matter for the Devolved Administrations.

Details of the revised prescription, maximum dental charge and optical voucher values have been placed in the Library.

National Service Framework

The Parliamentary Under-Secretary of State for Health (Dr. Stephen Ladyman): In February 2001, my right hon. Friend the then Secretary of State for Health announced that the Department would be developing a new national service framework (NSF) with a particular focus on the needs of people with neurological conditions. I am pleased to announce that the long-term conditions NSF is today being published. It is an integral part of this Government's overall strategy to improve services for people with long-term conditions.

This NSF covers the full range of issues for people with neurological conditions across health and social care. It has been developed through active consultation with key stakeholders, including people who use services and their carers, and the direct participation of experts and practitioners from the field.

Although the NSF focuses on people with neurological conditions, much of the guidance it offers can apply to anyone living with a non-neurological long-term condition. Commissioners will therefore be encouraged to use the NSF in planning service developments for people with other long-term conditions.

The long-term conditions NSF is an evidence-based, 10-year strategy, which advocates a cultural shift in the provision of care, with services being designed and delivered around the needs of people and their families. It highlights the need for high-quality services that offer choice and are prompt, convenient and responsive and that look at the whole person, rather than at a presenting illness or problem.

The broad remit of the NSF is covered in 11 quality requirements, which are:

A person-centred service

Early recognition, prompt diagnosis and treatment

Emergency and acute management

Early and specialist rehabilitation

Community rehabilitation and support

Vocational rehabilitation

Providing equipment and accommodation

Providing personal care and support

Palliative care

Supporting family and carers

Caring for people with neurological conditions in hospital or other health and social caresettings

The long-term conditions NSF has been developed in line with this Government's wider public sector reforms, to devolve power and responsibility to local agencies. While the NSF sets out the levels of service quality which we expect to be available by 2015, the pace of change is to be left to local national health service and social care discretion to determine, and will be balanced against other priorities. The costs of implementing the NSF will be met from the additional resources announced in the 2004 spending review for the NHS and adult personal social services.

Copies of the NSF for long-term conditions have been placed in the Library.

PRIME MINISTER

Intelligence and Security Committee Report

The Prime Minister (Mr. Tony Blair): I am grateful to the Intelligence and Security Committee for their report "The Handling of Detainees by UK Intelligence Personnel in Afghanistan, Guantanamo Bay and Iraq" (CM 6469). I have today laid the Report before the House. The Government will respond formally to it in due course. Copies will be placed in the Libraries of both Houses.

TRADE AND INDUSTRY

Offshore Petroleum Licensing

The Minister for Energy and E-Commerce (Mr. Mike O'Brien): I am pleased to inform the House that I am today inviting applications for petroleum licenses for unlicensed seaward blocks which will form the 23rd round of offshore petroleum licensing. These blocks are located in the Strategic Environmental Assessment (SEA) areas 1–5 (a map of the SEA areas can be found on the website indicated below).

Strategic Environmental Assessment (Sea)—Post Adoption Procedures

The DTFs draft plan to offer licences for offshore oil and gas exploration and production through a 23rd licensing round was the subject of a Strategic Environmental Assessment (SEA) initiated in 2003. The SEA is documented on a dedicated website (www.offshore-sea.org.uk) and includes commissioned reports on various components of the natural environment, cultural features and socio-economic considerations. In addition, as part of the SEA new information was collected for example on selected seabed features through seafloor mapping, sampling and photography, and on the offshore behaviour of seals by means of satellite tagging. The draft plan for the 23rd licensing round included offering blocks within the area to the east of Scotland, and also in those areas that had been subject to earlier DTI SEAs (SEAs 1, 2, 3, and 4) which covered the remaining parts of the UK North Sea Exclusive Economic Zone and the UK EEZ to the north and west of Orkney and Shetland.

The potential implications of the exploration and production activities which could follow if the draft plan was adopted were considered at an expert assessment workshop and a stakeholder workshop. The results of these workshops were assessed further and documented in an environmental report which then formed the basis for consultation with the consultation bodies and the public. The initiation of a three month consultation period on the DTFs draft plan and Environmental report was advertised in a number of local and national newspapers and by email notification to a wide range of individuals and organisations.

All responses received from statutory and other consultees on the draft plan and the environmental report have been considered by the DTI and a post consultation report for SEA 5 prepared and placed on the SEA website. This summarises consultee comments and DTI responses to them. The full texts of consultee comments have also been placed on the SEA website.

In deciding to proceed with a 23rd offshore licensing round the DTI has considered the conclusions and recommendations of the SEA 5 environmental report together with feedback received from consultees. As a result of the SEA process, a number of blocks are being withheld from licensing for the present on environmental grounds. These blocks are:

15/20c, 15/25d, 34/6, 34/7, 34/8, 34/12, 34/13, 34/17, 34/18, 40/15, 41/29, 41/30, 47/11, 47/27, 47/28, 47/29, 47/30, 48/26, 51/3, 51/4, 51/5, 52/1, 52/28.

Licensing of these blocks may be revisited in the future, for example as more information on the features of interest becomes available. In addition, a number of

blocks may be licensed but with conditions attached restricting or prohibiting marine activities. It should be noted that the Offshore Petroleum Production and Pipe-lines (Assessment of Environmental Effects) Regulations 1999 and the Offshore Petroleum Activities (Conservation of Habitats) Regulations, 2001 variously require that all major activities undertaken in connection with UK offshore hydrocarbon exploration and production include environmental assessment as part of consenting.

In addition, 34 blocks will not be offered for licensing in these SEA areas at the request of the Ministry of Defence

The DTI has established an offshore oil and gas environmental monitoring committee which is charged with coordinating the monitoring of significant environmental effects of the industry, including those that could arise from the implementation of the plan to hold a 23rd round of offshore licensing. The results of this monitoring will be made publicly available including through the SEA website.

In addition to the website above, a copy of the SEA report can be reviewed free of charge at:

Department of Trade and Industry
1 Victoria Street
London
SW1H 0ET

Arrangements to view the Report can be made by telephoning 0207 215 5032.

European Law and Corporate Governance

The Minister for Industry and the Regions (Jacqui Smith): I have today placed in the Libraries of both Houses copies of a consultation document entitled "European Company Law and Corporate Governance—Directive Proposals on Company Reporting, Capital Maintenance and Transfer of the Registered Office of a Company". This document is available on the DTI website at:

http://www.dti.gov.uk/cld/current.htm.

The consultation period ends on 3 June 2005.

The consultation covers three proposals which form part of the European Commission's Action Plan on Company Law and Corporate Governance published in May 2003. The Commission has formally published two of the proposals. These are a Directive amending the Fourth and Seventh Accounting Directives and a Directive amending the Second Company Law Directive on Capital Maintenance. The commission is expected to publish shortly the third proposal, a directive on the cross border transfer of the registered office of a company.

By covering all three proposals in one single consultation we hope to give stakeholders the opportunity not only to consider all proposals at the same time but to understand how they relate to the overall framework of modernising company law and corporate governance in the EU.

Amendments to the Fourth and Seventh Accounting Directives

This proposal seeks to enhance confidence in financial statements and annual accounts published by European companies. It would introduce an annual Corporate Governance statement for publicly traded companies, tighten up accounting disclosure requirements and clarify the collective responsibility of directors towards the company for the annual report and accounts The Government support the broad principles behind the directive and believes that light touch common standards for disclosure should contribute to EU market confidence, encourage cross-border investment and facilitate cross-border access to capital. It is of the view that the requirements of the directive are broadly consistent with existing UK law and practice.

The consultation seeks views on the extent to which the proposed disclosure requirements will place additional burdens on companies and whether they will be of value to users of company accounts. It also asks for views on the nature of the information the Commission is proposing be contained in the Corporate Governance Statement.

Amendments to the Second Company Law Directive (Capital Maintenance)

This proposal seeks to simplify the Second Company Law Directive so that it is easier for public limited liability companies to take measures affecting the size, structure and ownership of their capital. It contains provisions to simplify procedures for valuation of non-cash consideration for allocation of shares, acquisition of own shares, financial assistance and waiving of pre-emption rights. It also aims to enhance standardised creditor protection for reductions of capital and introduces "squeeze-out" and "sell-out" rights of majority and minority shareholders respectively. The Government support the objective of streamlining measures to reduce burdens for business behind this proposal but has reservations about the real deregulatory benefits it will bring in practice.

The consultation seeks views on a number of issues to determine whether the changes in the proposal will have a significant beneficial impact for companies wanting to change their capital structures. It raises a number of areas where the proposals could lead to uncertainty on whether and how certain provisions will apply. It also seeks views on the proposed introduction of "squeeze-out" and "sell-out" rights in situations other than takeovers.

Additionally, later this year the Commission intends to start a study to look at more radical reform of the capital maintenance regime and the Government invite views on the overall merits of reform of this nature.

Proposal for a Directive on the Cross Border Transfer of Registered Office

This proposal will establish a legal framework for companies registered in the EU to transfer their registered office from one Member State to another without having to be wound up. In Great Britain both public and private companies registered under the Companies Act 1985 would be able to utilise the proposed transfer structure. The Government support the measure as one which should extend the opportunities for corporate restructuring across the EU.

This consultation is based on the proposals contained in the Commission's e-consultation carried out in spring 2004. It explores whether the overall proposal will be useful to UK companies and seeks views on the details of the procedures to be followed.

TRANSPORT

National Cycling Strategy

The Parliamentary Under-Secretary of State for Transport (Charlotte Atkins): The Government are committed to encouraging more cycling in England, given the benefits in terms of transport, public health and the environment. Today the Department for Transport is publishing a review of the 1996 National Cycling Strategy, copies of which have been placed in the Library.

The key findings of the review are that:

whilst investment in cycling has increased substantially in recent years, there has been no commensurate increase in cycling levels;

The Government need to get a better return on their collective investment in cycling—for transport, sport, leisure and tourism;

cycling is not sufficient a priority for local authorities that we can rely on them as exclusively as we have to date to deliver an increase in cycling.

I am therefore announcing today that we will form a new, cross-Government group of representatives from interested Departments: Transport; Education and Skills; Health; Culture, Media and Sport (represented by Sport England); Environment, Food and Rural Affairs; and the Office of the Deputy Prime Minister. This group will set broad objectives to get more people cycling, more safely.

We will also create a new expert advisory body, Cycling England, to plan and co-ordinate Government investment in cycling, reporting to the cross-Government group. Cycling England will have a budget of £5 million per annum for the next three years to allocate to cycling programmes. It will comprise experts in transport policy, engineering, public health, the cycle industry, local government, cycle sport, cycle training and education. Cycling England will not be a separate spending body in itself, but there will be a presumption that Government will invest the £5 million budget earmarked in cycling in accordance with its advice. Cycling England will monitor programmes and be accountable to the Government group and Ministers for the value for money and effectiveness of its programmes.

We expect Cycling England to extend our co-operation with non-governmental organisations (NGOs) in cycling. NGOs in this field bring huge energy, experience and commitment and have been very effective in their own areas of work. We anticipate making better use of those attributes to supplement the work of local authorities.

It will be for Cycling England to determine its priorities, but we expect its programmes to fall into three broad categories:

training of children and adults to the new national standard for cycle training;

cycle routes and secure cycle parking;

marketing programmes to provide, on a targeted basis, better information on opportunities to cycle and to spread good practice in providing for cyclists.

King's Cross Station Development

The Minister of State, Department for Transport (Mr. Tony McNulty): My predecessor advised the House on 20 January 2004 that he had initiated a review of the final phase of the planned development of the London underground station at King's Cross.

Mott Parsons Gibb (MPG), the Department's technical advisers for the channel tunnel rail link (CTRL) project, subsequently undertook a thorough review of the case for the phase 2 London underground works, in consultation with key stakeholders who might be affected by a change from the original plans for implementing these works. I have placed copies of MPG's final report to Ministers in the House Library. Copies are also available on the Department's website.

The report examined a range of options for the works, and their practical, operational, and financial implications. The main conclusions were as follows:

significant growth in demand is expected at King's Cross interchange, arising not only from general traffic growth, but also from passengers using the CTRL once it is open to traffic, and demand from major redevelopment schemes in the King's Cross area;

without the phase 2 LUL works (the northern ticket hall and associated tunnels to the deep tube lines), passenger demand at the King's Cross interchange would exceed safe operational levels by about 2011, resulting in the need for temporary closures at peak times;

there are close physical and programme inter-relationships between LUL's proposed works, Network Rail's plans for a new western concourse and the King's Cross central development, with significant benefits from delivery of them together in an integrated way;

of the options for the LUL Phase 2 works, the cheapest would be outright cancellation, but this would have severe implications for the future ability of the interchange to cope with demand;

delivery of the Phase 2 works by 2011 would avoid this problem: were a decision taken to proceed, it would be most cost-effective to do so with the minimum delay.

On this basis, the Government have concluded that the phase 2 works, including the northern ticket hall, should proceed without further delay, and that these should be co-ordinated with development of plans for the NR western concourse in order to ensure an integrated overall design and programme which should deliver the combined scheme as efficiently and cost-effectively as possible. The Department is now taking this forward with London Underground, Network Rail and other key stakeholders.

Rail Security

The Secretary of State for Transport (Mr. Alistair Darling): Following the Madrid rail attacks in March 2004, the Government undertook a comprehensive review to examine rail security measures already in place in the UK and investigate new ideas and ways of improving current measures. It was undertaken in conjunction with the British Transport Police (BTP), industry and other Government Departments.

Rail and underground security in the UK already has strong foundations in place which have been developed over time to deter the Irish terrorist threat. The review built on lessons learnt from this threat but also focused on the different methods used increasingly by international terrorists. It also took account of the obvious constraints and practical difficulties in trying to secure the open, mass-transit system that characterises the rail network today.

What the review did was to identify a package of short, medium and long-term measures to enhance rail counter-terrorist security. A key feature of the review was to ensure that the measures were proportionate, pragmatic, sustainable and did not place an undue burden on industry.

The resulting measures are producing incremental enhancements in the security of the rail network, without requiring a significant shift in the open nature of the rail system. Each of the measures seeks to address the vulnerabilities of the existing security regime and goes some way in deterring potential terrorist activity.

Significant progress has been achieved with the industry so far in translating these recommendations into real changes on the ground. Some examples include:

- More frequent and varied security announcements on trains and at stations to increase passenger awareness
- Mandatory security training to form part of industry's general training regime
- Publication of interim guidance to industry on baggage reconciliation
- Enhanced use of CCTV
- Enhanced national covert explosives test programme
- Work to bring the Glasgow Subway and Docklands Light Railway under formal security regulation is at an advanced stage
- A 'menu of options' agreed with industry and the BTP for interim enhanced security measures in response to specific threats
- Agreement with Network Rail to deploy a range of additional security measures to monitor rail infrastructure security

A vital element in maintaining the security of the railways and deterring potential terrorist activity rests with the BTP, who acts as the first line of defence in combating the threat posed by terrorism on the railways. It has security capabilities unavailable to railway operators which include:

- high-profile policing
- increased use of explosive sniffer dogs
- the monitoring of vehicles entering station car parks
- a comprehensive technical capability

Working in partnership with the Department and the industry, the BTP supplements the operators' protective security procedures. In addition, agreement has been reached with the Association of Chief Police Officers to enhance the BTP's policing presence in the event of a heightened threat level.

In response to the changing security environment, the Government has taken concrete steps to position the rail industry and the travelling public against the new threats faced today from international terrorism.

The outcomes from the review and the enhanced policing operations make a genuine difference to the security measures in place prior to the terrorist attacks in Madrid. Combined, the measures are improving the way security is administered by industry and the BTP, and perceived by the public.

WORK AND PENSIONS

Benefit Fraud

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. Chris Pond): A consultation exercise has been launched today on the Government's proposals to extend the range of benefit fraud offences that local authorities in Great Britain are able to investigate. At present, legislation allows local authorities to investigate fraud against local benefits, Housing Benefit and Council Tax Benefit. However, legal opinion has suggested that it does not allow them to investigate fraud against the national benefits administered by the Department for Work and Pensions even though they have traditionally investigated such fraud in the past. This limits the powers of local authorities: it is harder for them to tackle fraud against a local benefit which also involves fraud against a national benefit even where the offence involves the same or similar facts. We estimate that around 70 per cent. of fraud against a local benefit also involves fraud against a national benefit.

Most cases of benefit fraud will continue to be investigated by the DWP. However the proposed changes will give local authorities clear powers, once more, to investigate and prosecute offences against national benefits. This will be permitted in cases where their abilities to investigate and prosecute offences against local benefits will be hampered if the national benefit offence is not also investigated. While it is proposed that Scottish local authorities be allowed to investigate offences against national benefit the power to prosecute will not apply in Scotland where the Procurator Fiscal is responsible for the prosecution of all criminal offences. The Government proposes to make the changes by a Regulatory Reform Order.

Copies of the consultation document have been placed in the Library and are also available online from the DWP website at:

www.dwp.gov.uk/consultations/2005/hbsd/la_investigative_powers.pdf.

The Government is inviting comments from local authorities, the law enforcement community, customer advocacy groups and the general public. The consultation closes on 10 June.

Written Answers to Questions

The following answers were received between Friday 11 February and Friday 18 February 2005

CULTURE, MEDIA AND SPORT

Congestion Charge

Mr. George Osborne: To ask the Secretary of State for Culture, Media and Sport how much has been spent on congestion *(a)* charges and *(b)* penalty charge notices by the Department since the commencement of the congestion charging scheme. [213822]

Mr. Caborn: The only cars used by the department are provided by the Government Car and Despatch Service, and it is that organisation that deals with such issues.

Departmental Policies (Essex)

Mr. Chris Smith: To ask the Secretary of State for Culture, Media and Sport if she will set out, with statistical information relating as directly as possible to Maldon and East Chelmsford constituency, the effects on Maldon and East Chelmsford of her Department's policies and actions since 2 May 1997. [215974]

Mr. Caborn: The Department's aim is to improve the quality of life for everyone through cultural and sporting activities, to support the pursuit of excellence and to champion the tourism, creative and leisure industries. The Department's policies and actions have had a significant impact on Maldon and East Chelmsford since 2 May 1997.

In order to achieve our challenging targets for increased participation in sport and physical activity, we have invested in thousands of new and refurbished public sports facilities. In 2002 we launched the first ever comprehensive national physical education, school sport and club links strategy with an investment of £459 million. A school sport partnership involving four School Sport Co-ordinators and 23 primary Link teachers is based at great Baddow High School in Maldon and East Chelmsford. To achieve our challenging targets for increased participation in sport and physical activity, we have invested in thousands of new and refurbished public sports facilities. Sports facilities in Maldon and East Chelmsford have benefited from 13 Sport England lottery grants totalling £3,018,773, including two awards worth £504,000 in total from the £108 million investment in innovative sports facilities through the Active England programme.

We have increased our national funding to the arts in real terms by 60 per cent. from £199 million in 1998–99 to £367 million in 2004–05. Between 1998–99 and 2003–04 Arts Council England East grants increased from £4.7 million to £7.7 million. In 2005–06 the total Arts Council England investment in the East of England will be £8.3 million. Maldon and East Chelmsford has benefited from grants to arts projects, organisations and individuals, including Aldeburgh productions and Essexdance.

Culture Online was launched in 2002 to increase access to, and participation in, arts and culture. Many of its projects are aimed at children of school age and at audiences that might not otherwise participate in arts and culture, including those who do not easily have access to arts and culture, people from deprived communities and people with particular educational or physical needs. People in Maldon and East Chelmsford will be among those who benefit from Culture Online. Between 2002 and 2004, £13 million was allocated to fund 20 Culture Online projects.

Maldon and East Chelmsford also benefits from museums initiatives such as Renaissance East of England whereby it's Hub partner Colchester Museums will provide expertise and fund 60 per cent. of a new initiative to improve access and build new local audiences.

Through our commitment to public service broadcasting we have helped to foster an environment in which a creative, commercially successful broadcasting industry provides a wide range of UK-made, high quality original programmes catering for all viewers and listeners. We have ensured a secure funding base for the BBC and Channel 4, while giving them the freedom to develop commercial operations which complement and support their public service remit. The Communications Act 2003 includes provisions to ensure that public service broadcasting will continue to have a key role to play in the digital future.

Our support for, and promotion of, the film and broadcasting industries have contributed to the general success of film-making and television activity in the Maldon and East Chelmsford area. The UK Film Council has supported a number of film-related enterprises in the Chelmsford area—including £20,000 for a new feature film production set and filmed in Essex; £8,000 funding to the Boreham Millennium Trust to support moving image education and £2,859 to Chelmsford Film Club to enable local audiences to view a wider choice of films.

The feature film 'The Lawless Heart' was set in and filmed in Maldon, directed by two local filmmakers. The film, which received £200,000 from the UK Film Council's Interim Production Fund, was released in 2001 to international acclaim.

Many other productions have been filmed in and around Maldon and East Chelmsford, such as the BBC's 'The Murder Game'; Granada's 'Medieval Monarchs' and the feature film 'Rules of the Game'.

In November 2000 we introduced free television licences for people aged 75 or over. Information on the number of beneficiaries by constituency is not available. However, according to Department for Work and Pensions records, the number of households in Maldon

and East Chelmsford with at least one person aged 75 or over claiming the winter fuel payment in 2003–04 was 5,205.

We have changed the licensing laws to allow people to hold and attend commercial dances on Sunday, to make it easier for restaurants to open an hour later, and to relax the alcohol licensing hours from 11 pm on new year's eve to 11 am on new year's day in all future years; and we have given the police greater powers to take action against under-age drinking and disorderly and noisy licensed premises. The Licensing Act 2003, when fully implemented, will introduce a streamlined, consistent and fair licensing regime for the provision of alcohol, public entertainment and late night refreshment. It will provide greater choice for consumers, bring regeneration and increased employment opportunities and protect local residents whose lives have been blighted by disturbance and antisocial behaviour.

The Gambling Bill will, when implemented, transfer responsibility for licensing gambling premises to local authorities. Local people and businesses will be able to make representations about applications for licenses and local authorities will be able to decide not to issue licenses for casino premises. These changes will give local communities, including those in Maldon and East Chelmsford, a greater say in the regulation of gambling in their area.

Tourism in Maldon and East Chelmsford has benefited from Government-funded marketing activity. In April 2003 we established VisitBritain with a new domestic marketing remit for England, and we gave strategic responsibility for tourism development to the Regional Development Agencies, including the East of England Development Agency. These changes, together with VisitBritain's successful marketing activities in promoting Britain abroad as an attractive tourist destination, benefit all parts of the country, including Maldon and East Chelmsford.

English Heritage has awarded grants worth £647,014 to buildings and organisations in Maldon and East Chelmsford since 2 May 1997, including:

Building/organisation	*Amount (£)*
St. Mary's redundant Church, Mundon	45,229
St. Leonard, Southminster	4,113
St. Mary the Virgin, Woodham Ferrers	8,000
St. Nicholas, Tillingham	152,400
Creeksea Place, Burnham-on-Crouch	23,272
St. Nicholas, Little Braxted	53,000
Maldon District Council: Southminster Heritage Regeneration scheme	45,000
Maldon District Council: Maldon Conservation Area Partnership Scheme	316,000

In common with all of those in the United Kingdom, the public library branches in Maldon and East Chelmsford constituency are connected to the internet through the People's Network which was funded through a £120 million lottery grant. In addition, the Department is funding the Museums, Libraries and Archives Council with £5 million over three years to implement the Framework for the Future Action Plan and Library Improvement Programme, which is designed to encourage improvement across the public libraries sector in England.

The Department has been an energetic advocate of the community and informal learning value of public libraries. Essex county council has recognised this value and has undertaken various initiatives such as the ASK CHRIS project to encourage reading and lending across the county's public libraries. The project received a £67,000 award from the DCMS/Wolfson Foundation Public Libraries Challenge Fund in 2000–01.

Information from the national lottery distributors indicates that since 2 May 1997 Maldon and East Chelmsford has benefited from 169 awards totalling over £8.9 million. Of these, 21 awards worth over £1.7 million were made by the New Opportunities Fund which was established by the Government in 1999. The New Opportunities Fund merged with the Community Fund in June 2004 to form the Big Lottery Fund.

Departmental Policies (Haltemprice and Howden)

Mr. Sedgemore: To ask the Secretary of State for Culture, Media and Sport if she will set out, with statistical information relating as directly as possible to Haltemprice and Howden constituency, the effects on Haltemprice and Howden of her Department's policies and actions since 2 May 1997. [216018]

Mr. Caborn: The Department's aim is to improve the quality of life for everyone through cultural and sporting activities, to support the pursuit of excellence and to champion the tourism, creative and leisure industries. The Department's policies and actions have had a significant impact on Haltemprice and Howden since 2 May 1997.

In order to achieve our challenging targets for increased participation in sport and physical activity, we have invested in thousands of new and refurbished public sports facilities. In 2002 we launched the first ever comprehensive national physical education, school sport and club links strategy with an investment of £459 million. There is currently a school sport partnership involving one School Sport Co-ordinator and one Primary Link teacher in Haltemprice and Howden. To achieve our challenging targets for increased participation in sport and physical activity, we have invested in thousands of new and refurbished public sports facilities. Sports facilities in Haltemprice and Howden have benefited from five Sport England lottery grants totalling £351,449.

We have increased our national funding to the arts in real terms by 60 per cent. from £199 million in 1998–99 to £367 million in 2004–05. Between 1998–99 and 2003–04 Arts Council England Yorkshire and the Humber grants increased from £6.7 million to £21.3 million. In 2005–06 the total Arts Council England Yorkshire and the Humber investment in regularly funded organisations will be £23.4 million. Haltemprice and Howden has benefited from grants to arts projects, organisations and individuals, including Word Quake, a rural literature development agency that works throughout libraries in East Riding.

Young people in Haltemprice and Howden benefit from the Humber Youth Music Action Zone, known as Music4U. The Action Zone covers the East Riding of

Yorkshire council, Hull city council, North East Lincolnshire council and North Lincolnshire council and is co-ordinated by the National Centre for Early Music. Music4U was set up in September 2001 and has so far been awarded three grants totalling over £760,000. It has already reached over 15,000 children and young people, 85 per cent. of whom were first-time participants.

Culture Online was launched in 2002 to increase access to, and participation in, arts and culture. Many of its projects are aimed at children of school age and at audiences that might not otherwise participate in arts and culture, including those who do not easily have access to arts and culture, people from deprived communities and people with particular educational or physical needs. People in Haltemprice and Howden will be among those who benefit from Culture Online. Between 2002 and 2004, £13 million was allocated to fund 20 Culture Online projects.

Through our commitment to public service broadcasting we have helped to foster an environment in which a creative, commercially successful broadcasting industry provides a wide range of UK-made, high quality original programmes catering for all viewers and listeners. We have ensured a secure funding base for the BBC and Channel 4, while giving them the freedom to develop commercial operations which complement and support their public service remit. The Communications Act 2003 includes provisions to ensure that public service broadcasting will continue to have a key role to play in the digital future.

In November 2000 we introduced free television licences for people aged 75 or over. Information on the number of beneficiaries by constituency is not available. However, according to Department for Work and Pensions records, the number of households in Haltemprice and Howden with at least one person aged 75 or over claiming the winter fuel payment in 2003–04 was 5,615.

We have changed the licensing laws to allow people to hold and attend commercial dances on Sunday, to make it easier for restaurants to open an hour later, and to relax the alcohol licensing hours from 11pm on new year's eve to 11am on new rear's day in all future years; and we have given the police greater powers to take action against under-age drinking and disorderly and noisy licensed premises. The Licensing Act 2003, when fully implemented, will introduce a streamlined, consistent and fair licensing regime for the provision of alcohol, public entertainment and late night refreshment. It will provide greater choice for consumers, bring regeneration and increased employment opportunities and protect local residents whose lives have been blighted by disturbance and antisocial behaviour.

The Gambling Bill will, when implemented, transfer responsibility for licensing gambling premises to local authorities. Local people and businesses will be able to make representations about applications for licenses and local authorities will be able to decide not to issue licenses for casino premises. These changes will give local communities, including those in Haltemprice and Howden, a greater say in regulation of gambling in their area.

Tourism in Haltemprice and Howden has benefited from Government-funded marketing activity. In April 2003 we established VisitBritain with a new domestic marketing remit for England, and we gave strategic responsibility for tourism development to the Regional Development Agencies, including Yorkshire Forward. These changes, together with VisitBritain's successful marketing activities in promoting Britain abroad as an attractive tourist destination, benefit all parts of the country, including Haltemprice and Howden.

English Heritage has awarded grants worth £770,564 to seven projects in Haltemprice and Howden since 2 May 1997, including St Michael's Church, Skidby; Sts Peter and Paul Church, Howden; and the Howden Historic Environment Regeneration Scheme.

In common with all those in the United Kingdom, the public library branches in Haltemprice and Howden constituency are connected to the internet through the People's Network which was funded through a £120 million lottery grant and which has put all the United Kingdom's public libraries on-line. In addition, the Department is funding the Museums, Libraries and Archives Council with £5 million over three years to implement the Framework for the Future Action Plan and Library Improvement Programme, which is designed to encourage improvement across the public libraries sector in England.

The Department has been an energetic advocate of the community and informal learning value of public libraries. East Riding of Yorkshire council has recognised this value and undertaken initiatives such as "Word on the Street" to initiate and develop positive attitudes to reading in young people aged between 11 and 16 and raise their awareness of the value and relevance of the modern library service. DCMS/ Wolfson Public Libraries Challenge Fund 2000–01 awarded £75,982 to this project. Of this money, £25,000 funded a website geared to the needs of young people across East Yorkshire, including Haltemprice and Howden.

Information from the national lottery distributors indicates that since 2 May 1997 Haltemprice and Howden has benefited from over 190 awards totalling over £4.1 million. Of these, 20 awards worth over £1.7 million were made by the New Opportunities Fund which was established by the Government in 1999. The New Opportunities Fund merged with the Community Fund in June 2004 to form the Big Lottery Fund.

Departmental Policies (Tatton)

Mr. Chris Smith: To ask the Secretary of State for Culture, Media and Sport if she will set out, with statistical information relating as directly as possible to Tatton constituency, the effects on Tatton of her Department's policies and actions since 2 May 1997. [215975]

Mr. Caborn: The Department's aim is to improve the quality of life for everyone through cultural and sporting activities, to support the pursuit of excellence

and to champion the tourism, creative and leisure industries. The Department's policies and actions have had a significant impact on Tatton since 2 May 1997.

In order to achieve our challenging targets for increased participation in sport and physical activity, we have invested in thousands of new and refurbished public sports facilities. In 2002 we launched the first ever comprehensive national physical education, school sport and club links strategy with an investment of £459 million. A school sport partnership involving four School Sport Co-ordinators and 25 Primary Link teachers is based at Wilmslow High School in Tatton. To achieve our challenging targets for increased participation in sport and physical activity, we have invested in thousands of new and refurbished public sports facilities. Sports facilities in Tatton have benefited from seven Sport England lottery grants totalling £804,000.

We have increased our national funding to the arts in real terms by 60 per cent. from £199 million in 1998–99 to £367 million in 2004–05. Between 1998–99 and 2003–04 Arts Council England, North West grants increased from £7.6 million to £19.6 million. In 2005–06 the total Arts Council England investment in the North West will be £28.4 million. Tatton has benefited from grants to arts projects, organisations and individuals, including Cheshire Rural Touring Network and the Royal Exchange Theatre, Manchester.

Culture Online was launched in 2002 to increase access to, and participation in, arts and culture. Many of its projects are aimed at children of school age and at audiences that might not otherwise participate in arts and culture, including those who do not easily have access to arts and culture, people from deprived communities and people with particular educational or physical needs. People in Tatton will be among those who benefit from Culture Online. Between 2002 and 2004, £13 million was allocated to fund 20 Culture Online projects.

Tatton also benefits from museums initiatives through the Cheshire Museums forum. Tatton Park, a National Trust property and registered Museum, was part of a successful bid from the Cheshire Museums forum to improve learning in Collections care. The forum also received £11,900 from the Museums Development fund to support a series of workshops to develop staff skills.

Through our commitment to public service broadcasting we have helped to foster an environment in which a creative, commercially successful broadcasting industry provides a wide range of UK-made, high quality original programmes catering for all viewers and listeners. We have ensured a secure funding base for the BBC and Channel 4, while giving them the freedom to develop commercial operations which complement and support their public service remit. The Communications Act 2003 includes provisions to ensure that public service broadcasting will continue to have a key role to play in the digital future.

Our support for, and promotion of, the film and broadcasting industries have contributed to the general success of film-making and television activity within Cheshire. Two companies based in Knutsford have received lottery funding for development work.

Since April 2002 the job of promoting local locations, crews and facilities to visiting production companies has been carried out by North West Vision. In particular Tatton Hall and Park has been used extensively as a location for films and television dramas such as Granada's 'The Forsyth Saga', 'Island at War' and 'Coronation Street'.

Many other productions have been filmed in and around Knutsford such as Blue Blood (BBC3), Spine Chillers (BBC3) and the new feature film of the Hitchhikers Guide to the Galaxy. Local crew and facility companies are promoted through North West Vision's online production database and published production guide. 50 per cent. of Cheshire's freelancers live in the district of Macclesfield and over 25 per cent. of film facility companies are based in the borough.

Since 2002 Cheshire has facilitated 78 productions generating 501 filming days.

In November 2000 we introduced free television licences for people aged 75 or over. Information on the number of beneficiaries by constituency is not available. However, according to Department for Work and Pensions records, the number of households in Tatton with at least one person aged 75 or over claiming the winter fuel payment in 2003–04 was 5,770.

We have changed the licensing laws to allow people to hold and attend commercial dances on Sunday, to make it easier for restaurants to open an hour later, and to relax the alcohol licensing hours from 11 pm on new year's eve to 11 am on new year's day in all future years; and we have given the police greater powers to take action against under-age drinking and disorderly and noisy licensed premises. The Licensing Act 2003, when fully implemented, will introduce a streamlined, consistent and fair licensing regime for the provision of alcohol, public entertainment and late night refreshment. It will provide greater choice for consumers, bring regeneration and increased employment opportunities and protect local residents whose lives have been blighted by disturbance and antisocial behaviour.

The Gambling Bill will, when implemented, transfer responsibility for licensing gambling premises to local authorities. Local people and businesses will be able to make representations about applications for licenses and local authorities will be able to decide not to issue licenses for casino premises. These changes will give local communities, including those in Tatton, a greater say in the regulation of gambling in their area.

Tourism in Tatton has benefited from Government-funded marketing activity. In April 2003 we established VisitBritain with a new domestic marketing remit for England, and we gave strategic responsibility for tourism development to the Regional Development Agencies, including the North West Development Agency. These changes, together with VisitBritain's successful marketing activities in promoting Britain abroad as an attractive tourist destination, benefit all parts of the country, including Tatton.

English Heritage has awarded grants worth £736,208 to five projects in Tatton since 2 May 1997, including the

Anderton Boat Lift, Belmont Hall in Great Budworth, Quarry Bank Mill in Styal, the Lion Salt Works and St. Michael and All Angels in Little Leigh.

In common with all those in the United Kingdom, the public library branches in Tatton are connected to the internet through the People's Network which was funded through a £120 million lottery grant and which has put all the United Kingdom's public libraries on-line. In addition, the Department is funding the Museums, Libraries and Archives Council with £5 million over three years to implement the Framework for the Future Action Plan and Library Improvement Programme, which is designed to encourage improvement across the public libraries sector in England.

The Department has been an energetic advocate of the community and informal learning value of public libraries. Cheshire council has recognised this value and has undertaken various initiatives such as the Fully Booked project to encourage reading among people across Cheshire, especially those of 65 plus who visit day centres and those with special needs. The project received an award for £30,348 from the DCMS/Wolfson Public Libraries Challenge Fund in 2000–01.

Information from the national lottery distributors indicates that since 2 May 1997 Tatton has benefited from over 150 awards totalling over £6.9 million. Of these, 19 awards worth over £245,000 were made by the New Opportunities Fund which was established by the Government in 1999. The New Opportunities Fund merged with the Community Fund in June 2004 to form the Big Lottery Fund.

Departmental Policies (Woodspring)

Mr. Sedgemore: To ask the Secretary of State for Culture, Media and Sport if she will set out, with statistical information relating as directly as possible to Woodspring constituency, the effects on Woodspring of her Department's policies and actions since 2 May 1997. [216017]

Mr. Caborn: The Department's aim is to improve the quality of life for everyone through cultural and sporting activities, to support the pursuit of excellence and to champion the tourism, creative and leisure industries. The Department's policies and actions have had a significant impact on Woodspring since 2 May 1997.

In order to achieve our challenging targets for increased participation in sport and physical activity, we have invested in thousands of new and refurbished public sports facilities. In 2002 we launched the first ever comprehensive national physical education, school sport and club links strategy with an investment of £459 million. A school sport partnership involving five School Sport Co-ordinators and 35 Primary Link teachers is based at Wyvern in Woodspring. To achieve our challenging targets for increase participation in sport and physical activity, we have invested in thousands of new and refurbished public sports facilities. Sports facilities in Woodspring have benefited from 10 Sport England Lottery grants totalling £2,218,978.

We have increased our national funding to the arts in real terms by 60 per cent. from £199 million in 1998–99 to £367 million in 2004–05. Between 1998–99 and 2003–04 Arts Council England, South West grants increased from £4.3 million to £12.2 million. In 2005–06 the total Arts Council England investment in the South West will be £14.1 million. Woodspring has benefited from this increased funding to arts projects, organisations and individuals.

Culture Online was launched in 2002 to increase access to, and participation in, arts and culture. Many of its projects are aimed at children of school age and at audiences that might not otherwise participate in arts and culture, including those who do not easily have access to arts and culture, people from deprived communities and people with particular educational or physical needs. People in Woodspring will be among those who benefit from Culture Online. Between 2002 and 2004, £13 million was allocated to fund 20 Culture Online projects.

Through our commitment to public service broadcasting we have helped to foster an environment in which a creative, commercially successful broadcasting industry provides a wide range of UK-made, high quality original programmes catering for all viewers and listeners. We have ensured a secure funding base for the BBC and Channel 4, while giving them the freedom to develop commercial operations which complement and support their public service remit. The Communications Act 2003 includes provisions to ensure that public service broadcasting will continue to have a key role to play in the digital future.

Our support for, and promotion of, the film and broadcasting industries through the work of the Regional Screen Agencies have contributed to the general success of film-making and television activity outside London. Last year 24 productions were shot in Somerset adding £333,000 to the local economy, including Woodspring.

In November 2000 we introduced free television licences for people aged 75 or over. Information on the number of beneficiaries by constituency is not available. However, according to Department for Work and Pensions records, the number of households in Woodspring with at least one person aged 75 or over claiming the winter fuel payment in 2003–04 was 6,085.

We have changed the licensing laws to allow people to hold and attend commercial dances on Sunday, to make it easier for restaurants to open an hour later, and to relax the alcohol licensing hours from 11pm on new year's eve to 11am on new year's day in all future years; and we have given the police greater powers to take action against under-age drinking and disorderly and noisy licensed premises. The Licensing Act 2003, when fully implemented, will introduce a streamlined, consistent and fair licensing regime for the provision of alcohol, public entertainment and late night refreshment. It will provide greater choice for consumers, bring regeneration and increased employment opportunities and protect local residents whose lives have been blighted by disturbance and antisocial behaviour.

The Gambling Bill will, when implemented, transfer responsibility for licensing gambling premises to local authorities. Local people and businesses will be able to

make representations about applications for licenses and local authorities will be able to decide not to issue licenses for casino premises. These changes will give local communities, including those in Woodspring, a greater say in the regulation of gambling in their area.

Tourism in Woodspring has benefited from Government-funded marketing activity. In April 2003 we established VisitBritain with a new domestic marketing remit for England, and we gave strategic responsibility for tourism development to the Regional Development Agencies, including South West Regional Development Agency. These changes, together with VisitBritain's successful marketing activities in promoting Britain abroad as an attractive tourist destination, benefit all parts of the country, including Woodspring.

English Heritage has awarded grants worth £57,885 to five buildings and organisations in Woodspring since 2 May 1997, including Tickenham Court, Clivedon and the Nailsea Glassworks, Nailsea.

In common with all of those in the United Kingdom, the public library branches in Woodspring constituency are connected to the internet through the People's Network which was funded through a £120 million Lottery grant and which has put all the United Kingdom's public libraries on-line. In addition, the Department is funding the Museums, Libraries and Archives Council with £5 million over three years to implement the Framework for the Future Action Plan and Library Improvement Programme, which is designed to encourage improvement across the public libraries sector in England.

The Department has been an energetic advocate of the community and informal learning value of public libraries. North Somerset council has recognised this value and as part of a consortium (including North Somerset, Somerset County and the Unitary Authorities of Bath and North-East Somerset and South Gloucestershire) took part in an initiative called Foursite Internet for a new Era the result of which was the installation of 24/7 phone lines, internet access by mobile phone and a web catalogue system, which was shared across the consortium. Libraries in Woodspring benefited from this project which received a total award of £147,750 from the DCMS/Wolfson Public Libraries Challenge Fund in 1998–99.

Information from the National Lottery distributors indicates that since 2 May 1997 Woodspring has benefited from over 176 awards totalling over £9.3 million. Of these, 21 awards worth over £1.4 million were made by the New Opportunities Fund which was established by the Government in 1999. The New Opportunities Fund merged with the Community Fund in June 2004 to form the Big Lottery Fund.

Freedom of Information

Dr. Julian Lewis: To ask the Secretary of State for Culture, Media and Sport what her policy is in respect of the publication *(a)* on the departmental website and *(b)* by placing copies in the Library of (i) all or (ii) only a selection of the information disclosed in response to Freedom of Information requests since January. [215193]

Mr. Caborn *[holding answer 10 February 2005]:* My Department intends to publish all information disclosed in response to requests made since January under the Freedom of Information Act, save where it is impractical to do so. My Department will be enhancing its online Publication Scheme to ensure that members of the public are able to find material which has been released. My Department does not intend routinely to place copies of such information in the Library of the House.

Historic Buildings

Mr. Gordon Prentice: To ask the Secretary of State for Culture, Media and Sport what recent discussions she has had with English Heritage concerning its budget to retain and restore houses and other structures deemed to be of historic value. [215808]

Mr. Caborn: My right hon. Friend the Secretary of State met English Heritage's chairman on 6 December 2004 to discuss its budget. The Minister for Heritage and DCMS officials also have regular meetings with English Heritage to discuss budgetary issues. Its financial settlement for the next three years includes £12 million of capital for investment in Apethorpe Hall and other historic sites in English Heritage's care.

Ministerial Stationery

Mr. George Osborne: To ask the Secretary of State for Culture, Media and Sport how much has been spent on official Ministerial *(a)* business cards, *(b)* headed paper and *(c)* compliment slips in each year since 1997. [214961]

Mr. Caborn: Ministers do not have discrete headed paper, compliment slips or business cards. Ministerial correspondence uses the same headed paper and cards as those used by officials. The annual cost of print for such items is circa £9,400.

Obesity

Mr. Godsiff: To ask the Secretary of State for Culture, Media and Sport (1) what plans the Government have to fight youth obesity through the further development of school sports; [216262]

(2) what steps her Department is taking to combat obesity through sport. [216278]

Mr. Caborn: Halting the growth in childhood obesity is one of our prime objectives. We have set a national target to halt, by 2010, the year-on-year increase in obesity among children under 11 in the context of a broader strategy to tackle obesity in the population as a whole. This objective is shared jointly by my Department, Department of Health and the Department for Education and Skills.

On Tuesday 14 December 2004, the Prime Minister, the Secretary of State for Culture, Media and Sport and the Parliamentary Under-Secretary of State for Education and Skills announced a further investment of £519 million from 2006–07 to 2007–08 for physical education and school sport.

The public service agreement target shared by the Department for Education and Skills and the Department for Culture, Media and Sport will ensure

that 75 per cent. of pupils by 2006 and 85 per cent. of pupils by 2008 should receive at least two hours each week of high quality PE and school sport.

By 2010, our ambition is for all children to be offered at least four hours of sport every week. This will comprise at least two hours of high quality PE and sport at school and, in addition, the opportunity for at least a further two to three hours beyond the school day, delivered by a range of school, community and club providers.

My Department is working in close collaboration with key agencies including Sport England, the Big Lottery Fund, local government and others to inspire people to get active. We have allocated £65.8 million of Exchequer funding to Sport England to help drive forward our agenda for increasing physical activity in 2005–06. In addition Sport England plans to invest £315 million, including £40 million of Exchequer funding in the development of 32 sports at all levels over the next four years.

This investment will enable us to help people to start and stay in sport, increasing and widening the base of participation for everyone regardless of age, gender, ethnic origin or disability; to create a dynamic network of clubs, coaches and volunteers thus creating a culture of lifelong participation, contributing to the wider public health agenda of tackling the problem of obesity in our society.

Parliamentary Questions

Sir Michael Spicer: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 1 December 2004, *Official Report*, column 166W on correspondence, when she will provide a substantive reply. [215033]

Mr. Caborn: My right hon. Friend the Minister for Media and Heritage has written to the hon. Gentleman today with further details on this decision, enclosing a copy of English Heritage's advice. The Department has now received English Heritage's advice. It advised that this telephone box does not meet the listing criteria. After careful consideration of the evidence and of this advice, the Secretary of State concurred with English Heritage and decided on 19 January not to add this building to the list. The listing applicant has been informed of this.

Playing Fields

Mr. Godsiff: To ask the Secretary of State for Culture, Media and Sport if she will make a statement on the sale of playing fields. [216275]

Mr. Caborn: The Government are committed to improving playing fields and protecting them wherever possible. The legislative changes we have introduced have dramatically reduced the number of sales of both school and community playing fields.

The Government will continue to explore ways in which the legislation can be tightened further so that even more playing fields can be protected.

Mr. Godsiff: To ask the Secretary of State for Culture, Media and Sport what steps the Government are taking to enhance and protect playing fields in England. [216279]

Mr. Caborn: Since 1995 Sport England has funded the creation of more than 320 new sports pitches, and improvements to more than 520.

At the same time, the Government have dramatically reduced the overall number of sales of both school and community playing fields, by introducing legislative changes and improving checks to the planning system. These measures have successfully halted the indiscriminate disposal of school playing fields.

In the majority of cases where playing fields are redeveloped they are replaced with new improved sport and recreation facilities.

Social Exclusion (Midlothian)

David Hamilton: To ask the Secretary of State for Culture, Media and Sport what contribution the lottery has made to combating social exclusion in Midlothian. [216295]

Estelle Morris: Lottery distributors are required to take into account the need to reduce economic and social deprivation in making awards.

It can be difficult to determine precisely the extent of their contribution to reducing social and financial exclusion but a significant number of lottery-funded projects have helped to regenerate inner cities, create employment and strengthen communities. Since the lottery began 298 awards have been made to Midlothian, totalling £16.5 million.

Sports Clubs

Mr. Godsiff: To ask the Secretary of State for Culture, Media and Sport what progress has been made in promoting the tax relief benefits available to sports clubs. [216276]

Mr. Caborn: Over 2,000 sports clubs have already received an estimated total of £5 million in tax reliefs by registering as Community Amateur Sports Clubs with the Inland Revenue. But many more clubs are still missing out because they do not know that this help is available.

My Department has therefore published "Growing Community Sport", a leaflet publicising the CASC scheme. I have sent copies to many of my parliamentary colleagues, and hope that they will make use of this leaflet to tell their constituents about the benefits available to sports clubs. They can obtain extra copies by contacting the DCMS.

Mr. Godsiff: To ask the Secretary of State for Culture, Media and Sport if she will make a statement on tax relief for amateur sports clubs. [216277]

Mr. Caborn: The Community Amateur Sports Club scheme provides such clubs with a relief of 80 per cent. on their non-domestic rates and Gift Aid on donations from individuals, as part of a package of benefits intended to promote community and grass roots sport.

I welcome the fact that more than 2,000 clubs have so far registered with the scheme and received an estimated total of £5 million in tax reliefs as a result of doing so.

FOREIGN AND COMMONWEALTH AFFAIRS

Asian Tsunami

Mr. Sanders: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps are being taken to recover documents lost by British citizens as a consequence of the tsunami in South East Asia; and what steps are being taken to prevent identity fraud. [215704]

Mr. Mullin: The nature of the disaster was such that many documents will never be recovered, but arrangements are in place to deal with those documents that are recovered. The Foreign and Commonwealth Office's overseas posts are maintaining a high level of vigilance against document fraud in close liaison with the United Kingdom Passport Service.

British High Commission (Swaziland)

Mr. Wilshire: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make it his policy to retain the British High Commission in Swaziland. [215140]

Mr. Mullin: As my right hon. Friend the Foreign Secretary explained in his written statement on 15 December 2004, *Official Report*, columns 137–40WS, we have decided to close our High Commission in Swaziland while maintaining an honorary Consul in Mbabane and non-resident accreditation from Pretoria. This reflects the need to align better our resources with our priorities, to maximise efficiency, and to ensure that the UK has a cost-effective and flexible network of overseas representation.

Departmental Expenditure

Mr. George Osborne: To ask the Secretary of State for Foreign and Commonwealth Affairs how much has been spent on *(a)* entertainment lunches involving civil servants and guests and *(b)* working lunches, in each year since 1997. [215038]

Mr. Rammell: Due to the devolution of budgets, this information is not held centrally by the Foreign and Commonwealth Office. The information could be compiled only at disproportionate cost.

Colombia

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the Government of *(a)* Colombia and *(b)* Venezuela regarding the dispute over the arrest of FARC member Rodrigo Granda. [215752]

Mr. Rammell: We have not had specific discussions with the Colombian or Venezuelan Governments on this issue, although it has been touched on during regular contacts between our embassies and the respective governments.

The two countries recently issued a communiqué stating that the dispute has been resolved. We understand that the Venezuelan ambassador to Colombia has now returned to his post in Bogota. We are pleased that the two countries appear to be committed to a swift diplomatic resolution of the crisis.

Presidents Uribe and Chavez met on 15 February to formalise the resolution to the dispute.

Commemorative Events

Mr. Hayes: To ask the Secretary of State for Foreign and Commonwealth Affairs what involvement the European Communities have had in commemorative anniversary events held by the Government since 1997. [216066]

Mr. MacShane: The Government frequently hold commemorative events of various kinds. From time to time representatives of other EU member states or EU institutions take part in such events, depending on their nature. To answer this question in more detail would incur disproportionate costs.

EU Common Foreign and Security Policy

Mr. Soames: To ask the Secretary of State for Foreign and Commonwealth Affairs what the objectives of the Government are in relation to a common foreign and security policy in the European Union. [215637]

Mr. MacShane: The Government continue to work to develop a more effective and proactive EU common foreign and security policy capable of tackling key international issues and security threats as well as being able to react rapidly and appropriately to crises. The Government's objectives in relation to the EU's common foreign and security policy in 2005 are set out in paragraphs 64 to 87 in the White Paper titled "Prospects for the EU in 2005" (Cm 6450). Copies are available in the Library of the House. The Government have made a commitment to keep Parliament informed of their priorities/objectives across the range of EU business through the regular publication of these White Papers.

EU MEDIA Training Programme

Mr. Hayes: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the *(a)* budget, *(b)* aims and *(c)* target group of the Communities MEDIA Training programme; and if he will list projects funded to date involving United Kingdom partners. [215241]

Estelle Morris: I have been asked to reply.

The MEDIA Training programme is part of the European Union's audio-visual policy. The MEDIA training budget for the six years 2001–06 is €59.4 million. The aims of the programme are to improve the continuous vocational training of professionals in the audio-visual sector; and encourage co-operation and exchange of know-how and best practice. Training activities supported by the MEDIA Training Programme are mainly targeted at professionals in the audio-visual industry and from radio, in particular: new media content providers, professionals from the animation industry, professionals from post-production, notably visual

effects supervisors, managers, producers, directors, sales agents, distributors, marketing executives, script-writers, script-editors, commissioning editors, as well as trainers. The following table sets out the training courses (and their providers) funded to date involving United Kingdom partners. UK professionals have also benefited from courses which are not organised by United Kingdom partners.

	Training provider	*Training course*
2001	Moonstone International	Moonstone Filmmaker's Lab and Moonstone Screenwriter's Lab
2001	Arista	Arista Development Workshops
2002	Draft Zero	EdeN—European Development Network
2003	Moonstone International	Moonstone Filmmaker's Lab and Moonstone Screenwriter's Lab
2003	The Script Factory	Scene Insiders
2003	Draft Zero	EdeN—European Development Network
2004	Arista Development	Arista Development Workshops
2004	Moonstone International	Moonstone Filmmaker's Lab and Moonstone Screenwriter's Lab
2004	The Script Factory	Scene Insiders
2004	University of West England	The Three Month Bristol Animation Course

Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for Foreign and Commonwealth Affairs when he will reply to the letter dated 1 December 2004 from the right hon. Member for Manchester, Gorton with regard to Saif-Ur-Rehman. [212294]

Mr. MacShane: My right hon. Friend the Foreign Secretary wrote on 12 January and replied substantively on 10 February.

Sir Gerald Kaufman: To ask the Secretary of State for Foreign and Commonwealth Affairs when he will reply to the letter dated 30 December 2004 from the right hon. Member for Manchester, Gorton, with regard to Mr. M. Abbas. [215100]

Mr. Mullin: My hon. Friend the Minister for Europe (Mr. MacShane) replied on 19 January 2005. My right hon. Friend the Foreign Secretary sent a further update on 10 February 2005.

Cuba

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the number of people in Cuba who are *(a)* serving prison sentences and *(b)* awaiting trial for political reasons. [212265]

Mr. Rammell: The Cuban Government do not acknowledge the existence of political prisoners, nor do they disclose the number of those awaiting trial. Our Embassy in Havana maintains contact with a number of civil society groups that monitor prisoner numbers and conditions within these constraints. One of these, the Cuban Commission for Human Rights and National Reconciliation estimates in its January 2005 report that there are currently 294 prisoners who are either serving sentences or awaiting trial for political reasons.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the likely effects of the decision by the EU to suspend sanctions on Cuba. [215758]

Mr. Rammell: I welcome the adoption of the EU Council Conclusions on Cuba on 31 January which should help enable us to pursue a critical engagement with the Cuban Government and to have enhanced contacts with the peaceful opposition. We believe this approach is the right way to achieve the EU's objectives as set out in the Common Position of 1996, including to promote the peaceful transition to a pluralist democracy in Cuba. Normalised contact with the Cuban Government will enable the UK Government to press the Cuban Government on issues of concern—especially human rights, including our call for the release of all political prisoners—and to further UK/Cuba co-operation in areas of mutual interest such as the fight against crime, child protection and in developing sustainable tourism in Cuba.

Democratic Republic of Congo

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs how often since 1997 *(a)* he, *(b)* officials in his Department and *(c)* representatives of the UK Government have (i) brought and (ii) sought to bring the situation in the Democratic Republic of Congo for discussions in the UN Security Council; and if he will make a statement. [215417]

Mr. Mullin: The Security Council recognised the severity of the situation in the Democratic Republic of Congo (DRC) in its Presidential Statement (1998/26) of 31 August 1998. Since that date the situation in the DRC has been regularly on the Security Council agenda. The Security Council's most recent statement was published on 7 December 2004.

The UK plays an active role in these discussions. We strongly support the UN Peacekeeping Force and the UN's work in helping implement the peace agreements in the DRC and across the region.

Departmental Cleaning Costs

Mr. George Osborne: To ask the Secretary of State for Foreign and Commonwealth Affairs what the costs of cleaning the Department were in each year since 1997. [213778]

Mr. Rammell: The cost of cleaning the Foreign and Commonwealth Office (Home Estate) in each year since 1997 is:

	Cost £
1997–98	1,127,514
1998–99	1,209,956
1999–2000	1,074,543
2000–01	1,147,345

	Cost £
2001–02	1,871,954
2002–03	1,370,478
2003–04	1,547,359
2004–05	[1]1,195,631

[1] To date.

EU Committees

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch Presidency of the EU the Joint Committee (EC-Albania) met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [215444]

Mr. MacShane: Albania-EC Joint Committee meetings, organised under the framework of the 1992 EC/Albania Trade and Economic Cooperation Agreement, take place annually. The venue alternates between Brussels and Tirana. Recent meetings have been on 12 February 2003 in Tirana under the Greek Presidency of the EU and on 13 February 2004 in Brussels under the Irish Presidency of the EU. The EC is represented at these meetings by the Commission, although member states have the option of attending as observers.

On 31 January 2003, negotiations were opened between Albania and the EU for a Stabilisation and Association Agreement. The progress of these negotiations and the accompanying reforms are monitored by the EU-Albania Consultative Task Force, which generally meets about four times a year, usually in Tirana. The UK is regularly represented in observer capacity at these working-level meetings.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Joint Committee (EEC-Estonia) met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [215928]

Mr. MacShane: The EU-Estonia Association Committee met once a year until Estonia joined the EU in May 2004. During the period of the Italian, Irish and Dutch Presidencies (June 2003 to December 2004) it met once in June 2003, in Talinn. An official from UK Permanent Representation to the EU attended.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Joint Committee (EEC-Latvia) met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [215929]

Mr. MacShane: The EU-Latvia Association Committee met once a year until Latvia joined the EU in May 2004. During the period of the Italian, Irish and Dutch Presidencies (June 2003 to December 2004) it met once in June 2003, in Riga. An official from UK Permanent Representation to the EU attended.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Joint Committee (EEC-Lithuania) met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [215930]

Mr. MacShane: The EU-Lithuania Association Committee met once a year until Lithuania joined the EU in May 2004. During the period of the Italian, Irish and Dutch presidencies (June 2003 to December 2004) it met once in June 2003, in Vilnius. We do not have any record of UK officials attending.

European Constitution

Kate Hoey: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 2 February 2005, *Official Report*, column 935W, on EU Constitutional Treaty, from which budget within his Department the cost of the Commentary on the Treaty Establishing a Constitution for Europe was met. [215966]

Mr. MacShane: The cost of producing the Commentary on the Treaty Establishing a Constitution for Europe was met by the Foreign and Commonwealth Office's Europe Directorate.

Kate Hoey: To ask the Secretary of State for Foreign and Commonwealth Affairs how many staff within his Department are working on publications relating to the Treaty Establishing a Constitution for Europe; and from which units within his Department they are drawn. [215967]

Mr. MacShane: Preparation of publications relating to the EU Constitution is one of the tasks carried out by staff working in the Foreign and Commonwealth Office's (FCO) Europe Directorate. No FCO staff work solely on such publications.

Kate Hoey: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 19 January 2005, *Official Report*, columns 1020–21W, on the European Constitution, if he will list the dates of meetings held with European Commission officials pertaining to the provision of information relating to the Treaty Establishing a Constitution for Europe. [215968]

Mr. MacShane: Foreign and Commonwealth Office officials regularly meet with European Commission officials to discuss a wide range of European Union issues. We do not maintain a list of the occasions when information about the EU Constitutional Treaty was discussed at these meetings.

Mr. Hayes: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the effect of Article III-305 of the European Constitution, concerning a common UK/EU position with Cyprus and Malta on Commonwealth meetings. [215197]

Mr. MacShane: The EU is not and cannot be a member of the Commonwealth. If the Constitutional Treaty comes into force, the Union Minister for Foreign Affairs could only present the position of the EU at a Commonwealth meeting if the EU had been invited to

attend. In such circumstances he/she would speak for the EU. The UK would continue to represent itself as a Commonwealth member.

Mr. Hayes: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the application of Article III-296, subsection 2 and related articles, on the ceding by the United Kingdom of its chair at Commonwealth meetings in areas where the European Union Minister for Foreign Affairs expresses a mandate. [215198]

Mr. MacShane: The United Kingdom cannot cede its chair at Commonwealth meetings to the EU Minister for Foreign Affairs as the EU is not a member of the Commonwealth, nor can it become one. The Commonwealth is a voluntary association of sovereign states. The United Kingdom, like two other EU members (Malta and Cyprus) is a member of the Commonwealth in its own right and as such participates in deliberations and meetings and will continue to do so. This situation will not change under the Constitutional Treaty.

Genocide (International Obligations)

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what obligations there are under international agreements to act in confirmed cases of genocide; and if he will make a statement. [215415]

Mr. Rammell: Under Article 1 of the Genocide Convention 1951, the Parties undertake to prevent and punish the crime of genocide whether committed in time of peace or war. Under Article 5, they undertake to provide effective penalties for persons guilty of genocide or genocide-related crimes, and Article 6 provides that persons charged with such acts shall be tried. In addition, in Article 7, the Parties 'pledge themselves . . . to grant extradition' in cases of genocide or genocide-related crimes.

Gibraltar

Mr. Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs how many Gibraltarians are being held in Spanish prisons; in which prisons they are held; what visits have been made by councillors or Embassy officials to these individuals in the last five years; how and how regularly the British Embassy in Madrid informs the Gibraltarian authorities of developments in these cases; and which trials councillors or Embassy officials have attended in the last five years. [214212]

Mr. Mullin: There are 12 British passport holders with connections to Gibraltar being held in Spanish prisons, two in the Madrid consular district, and 10 in the Malaga consular district. Of these, nine have been visited in accordance with Consular Prison visits Policy. The other three have declined consular assistance.

Consular staff in Spain aim to contact British Nationals within 24 hours of being informed of an arrest, and to make a visit within 48 hours. Unless prisoners have said that they do not wish to be visited, Consular staff at British posts should aim to visit all detainees whilst on remand at reasonable intervals as deemed necessary by the Consulate/Embassy. Thereafter, one visit is made after sentencing. Further visits are normally only made if a real need arises (family, health, social problems, etc).

Consular staff are not trained to give legal advice and do not routinely attend court hearings.

There is no requirement for consular staff to inform the Gibraltarian authorities about the arrest of British Nationals with connections to Gibraltar. However, Consular staff do normally inform the Gibraltarian authorities as a matter of courtesy. If the prisoner wishes, Consular staff will also keep family informed.

Immigration Cases

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs when the High Commission in Islamabad sent to the Home Office the case papers on Mr. I. H., husband of Mrs. S. B. of Aylesbury, reference number ISB/747450. [215727]

Mr. Mullin: I regret that I cannot provide this information as it is not our practice to disclose details of individual entry clearance cases in a public forum. However, I have written to the hon. Member.

International Criminal Court

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the proceedings brought to the International Criminal Court since its inception; and if he will make a statement. [215416]

Mr. Rammell: The International Criminal Court has launched two formal investigations at the request of Uganda and the Democratic Republic of Congo, but as yet there are no proceedings arising out of these investigations.

Iran

Mr. David Stewart: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of *(a)* Iran's current nuclear capability and *(b)* the future progress of its nuclear programme. [214450]

Mr. MacShane: I refer my hon. Friend to the reply I gave to the hon. Member for East Devon (Mr. Swire) on 25 January 2005, *Official Report*, column 236W.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the Government's policy towards Iran. [215682]

Mr. Rammell: Our policy towards Iran, like that of the European Union, is one of constructive but critical engagement. We maintain a robust dialogue on issues of concern such as Iran's nuclear programme, human rights record, approach to the fight against terrorism and attitude towards the Middle East Peace Process.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what measures his Department is taking to support the reform movement in Iran. [215683]

Mr. Rammell: Supporting reform across the Middle East region, including Iran, is a priority for the Government. We are promoting reform in Iran through: engagement with Ministries, the Judiciary, and civil

society within Iran, including through the EU-Iran Human Rights Dialogue; project work on good governance, rule of law and advancement of women; and action at the UN, including most recently co-sponsoring with other EU countries a General Assembly resolution in December 2004 expressing serious concern at the human rights situation in Iran and calling for change.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had concerning Iran's nuclear programme. [215770]

Mr. MacShane: My right hon. Friend the Foreign Secretary has frequent discussions with his French and German colleagues concerning Iran's nuclear programme. The issue is also always on the agenda for discussions with a wide range of Ministers from other states.

Most recently, the Foreign Secretary held lengthy discussions with the US Secretary of State, Dr. Condoleeza Rice on 4 February. The Foreign Secretary and Dr. Rice made public statements on the discussions at a press conference following their meeting. The transcript of the press conference is available on the Foreign and Commonwealth Office website: www.fco.gov.uk.

Discussions at senior official level with representatives of the Iranian Government continue on a regular basis.

Iraq

Harry Cohen: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received of people detained by Coalition forces in Iraq but not recorded on Camp Cropper prison rolls and not presented to the International Committee of the Red Cross; and if he will make a statement. [211391]

Mr. Rammell: When US detention facilities were first established in Iraq there were administrative lapses that resulted in errors in the recording of detainees, but remedial action was taken to ensure these were corrected. We are aware of allegations that some detentions were deliberately not recorded. We have raised this with the United States authorities who assured us that there were no unrecorded detainees. All detainees at British facilities are recorded fully.

The International Committee for the Red Cross (ICRC) is able to visit any US and UK detention facility. They also have access to prisoner records. The ICRC produces regular reports based on visits they make to coalition detention facilities. We address promptly any concerns raised by the ICRC. We also encourage the US to do the same, including concerns raised over the recording of detainees held by coalition forces.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what information his Department has received concerning the possible involvement of the Banca Nazionale del Lavoro with the overseas assets of the Saddam Hussein regime; and if he will make a statement. [212199]

Mr. Rammell: We are not aware of any information received by the Government concerning the involvement of the Banca Nazionale del Lavoro with the overseas assets of the Saddam Hussein regime.

Mrs. Mahon: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will publish the electoral register in Iraq. [214108]

Mr. Rammell: The electoral register in Iraq was compiled by the Independent Electoral Commission of Iraq (IECI). Excerpts from the register were displayed prior to the 30 January elections to enable anybody to challenge the accuracy of the information it contained. Whether to publish the consolidated voter register is a matter for the IECI.

Mrs. Mahon: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate his Department made of the percentage of the adult population of Iraq that was registered to vote. [214109]

Mr. Rammell: Preliminary estimates indicate that over 85 per cent. of the adult population were registered to vote in the elections on 30 January.

Hugh Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his statement of 31 January 2005, *Official Report*, columns 573–91, on Iraq, what the nationality was of the insurgents detained in Iraq for offences in connection with the elections. [214148]

Mr. Rammell *[holding answer 4 February 2005]:* We do not have detailed information about the nationality of insurgents detained in Iraq for offences in connection with the elections. As with other terrorist attacks in Iraq, insurgents involved in such offences would likely include a proportion of foreigners. By way of illustration, the Iraqi Interim Government has said that all the eight suicide bombers involved in attacks on the day of the elections were foreign—four Sudanese, two Syrians, one Indonesian and one Saudi Arabian.

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what part officials from UK Government departments have had in the *(a)* management and *(b)* monitoring of reconstruction funds in Iraq. [215147]

Mr. Rammell: As a Coalition partner in Iraq the UK Government was a member of the Programme Review Board (PRB), established by the Coalition Provisional Authority (CPA) to enable emergency or unanticipated extra-budgetary spending requests—including for reconstruction projects—to be brought to a joint Iraqi-CPA body for assessment and authorisation. A senior UK Government official attended PRB meetings on behalf of the UK. Minutes of the PRB are available online at http://www.cpairaq.org/budget/program_review_board.html.

The UK was also instrumental in setting up the International Advisory and Monitoring Board (IAMB), to oversee the auditing of Iraq's oil revenues and their management by the Coalition in accordance with United Nations Security Council Resolution (UNSCR) 1483 of 22 May 2003. UK officials had no direct role in the monitoring or auditing of reconstruction funds in Iraq. The auditing function of the CPA was carried out by officials and professionals supplied by other members of the Coalition, who worked alongside the firm of international auditors employed by the IAMB to undertake the audit of CPA management of the Development Fund for Iraq on behalf of the IAMB.

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs when his Department was first informed of the mismanagement of reconstruction funds in Iraq. [215148]

Mr. Rammell: I refer the hon. Member to the reply my hon. Friend the Minister of State at the Foreign and Commonwealth Office (Mr. MacShane) gave to the hon. Member for Boston and Skegness (Mr. Simmonds) on 4 February 2005, *Official Report*, column 1202W.

Adam Price: To ask the Secretary of State for Foreign and Commonwealth Affairs whether UK-based private contractors enjoy immunity from prosecution under local Iraqi law. [215476]

Mr. Rammell: Coalition Provisional Authority (CPA) Order 17 continues to govern the status of certain foreign private security contractors in Iraq. These include private security contractors who are providing security services to Diplomatic Missions, the Multinational Force, International Consultants and other contractors defined in the Order, and their personnel. Such contractors will be immune from Iraqi legal process with respect to acts performed by them pursuant to the terms of a contract. Contractors must, however, respect Iraqi laws. Private security companies must comply with all CPA Orders and Memoranda. CPA Memorandum 17 obliges all such companies operating in Iraq to obtain a Business License from the Iraqi Ministry of Trade and an Operating License from the Iraqi Ministry of the Interior (MOI). The MOI monitors the actions of such companies and can revoke their Operating License. The contracting state has the right to waive the immunity of such companies.

Llew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will submit a declaration to the United Nations Security Council, in pursuance of Paragraph 23 of the United Nations Security Council Resolution 687 (1991) of 8 April 1991, formally to end sanctions against Iraq. [215502]

Mr. Rammell: Comprehensive sanctions against Iraq, as imposed by UN Security Council resolution (UNSCR) 661 (6 August 1990) and amended by subsequent relevant resolutions, were lifted by UNSCR 1483 (22 May 2003). However, the Security Council has continued to judge the situation in Iraq a threat to international peace and security. UNSCR 1483, passed in 2003, retained an arms embargo, with certain exemptions; imposed a freeze on assets outside Iraq of the former Iraqi regime and certain associates, and an obligation on member states to transfer these funds to the Development Fund for Iraq; and prohibited trade in stolen Iraqi cultural property.

Israel

Dr. Tonge: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Israeli Government concerning the Absentee Property Law and its effect on Israeli policy in the West Bank. [214280]

Mr. Rammell: On 24 January, our Ambassador in Tel Aviv wrote to Israeli Justice Minister Livni to request further information on the Absentee Property Law. On 26 January, Sir Nigel Sheinwald, my right hon. Friend the Prime Minister's Foreign Policy Advisor, raised our concerns about this Law with Dov Weisglass, Prime Minister Sharon's Chief of Staff.

On 1 February, the Israeli Attorney General reversed the Israeli government's decision of July 2004 to apply the Law allowing the expropriation of Palestinian land in Jerusalem.

Mobile Phones

Mr. George Osborne: To ask the Secretary of State for Foreign and Commonwealth Affairs what the cost of staff mobile phone bills was in each year since 1997. [214886]

Mr. Rammell: The costs of staff mobile phones for the years 1996–97 to 1998–99 are set out in the table. Since April 1999, budgets have been devolved to individual Foreign and Commonwealth Office Departments. Information from this date could be provided only at disproportionate cost.

Cost of staff mobile phones years 1996 to 1999

	£
1996–97	169,357
1997–98	190,199
1998–99	290,011

Northern Cyprus

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps are being taken by *(a)* the UK and *(b)* the EU to help with preparations for the application of the EU acquis to northern Cyprus; and if he will make a statement. [215095]

Mr. MacShane: Following Cyprus' accession to the EU, as a divided island, the application of the acquis was suspended in the north pending a settlement. Help in preparing for the application of the acquis in the north is therefore an important component in facilitating a settlement. The Government's ultimate objective remains a just, viable and lasting settlement for the benefit of all Cypriots.

Since May last year, the European Commission has provided limited assistance to Turkish Cypriots through its Technical Assistance Exchange Office programme, which we welcome. The objective is to bring Turkish Cypriots closer to the European Union. We also support efforts in the EU to obtain agreement on the Commission's package of proposals for financial aid to and direct trade with the north of Cyprus.

The British Government are themselves funding a small number of projects in north Cyprus under the "Re-uniting Europe" programme within the Global Opportunities Fund. (More information on these can be found on the Foreign and Commonwealth Office website: fco.gov.uk > Programmes > Global Opportunities Fund). These projects are designed to help the Turkish Cypriot community to prepare for reunification and full participation in the EU. Our efforts are in line with EU commitments and will, we believe, help facilitate a future settlement.

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Republic of Cyprus over the UK's steps to help Turkish Cypriots prepare for the application of the EU acquis in the north of Cyprus; and if he will make a statement. [215096]

Mr. MacShane: My right hon. Friend the Foreign Secretary has had no such discussions with the Government of the Republic of Cyprus, although UK policy in this area has been discussed bilaterally at senior official level.

The UK funds a number of projects in the north of Cyprus which deliver technical expertise on administrative reform and the handling of EU-related business, in order to help Turkish Cypriots prepare for the demands of a settlement and full participation in the EU. It is in the interests of the smooth functioning of a united Cyprus that this reform process should begin as soon as possible. These projects therefore form an important part of the Government's policy of promoting a Cyprus settlement.

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs which EU member state diplomats attended the Turkish National Day celebrations hosted in northern Cyprus by the Turkish Ambassador to the TRNC; what representations the Republic of Cyprus made on this issue; and if he will make a statement. [215097]

Mr. MacShane: I am unable to comment on the attendance of other member states at this event, but my hon. Friend could contact the Turkish Ambassador to the self-declared "Turkish Republic of Northern Cyprus" directly about this.

The British High Commissioner attended last year, in line with practice for at least nine years. The Republic of Cyprus made several representations to express their concern. We took every effort to reassure them that attendance in no way constituted recognition of the "TRNC", on which the Government's policy of non-recognition is well-known and absolutely firm. Attendance was part of our efforts to promote a Cyprus settlement through engagement with both sides.

Nuclear Weapons

Llew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the proposals put forward by the Director-General of the International Atomic Energy Agency, Dr. El-Baredei, to the World Economic Forum in Davos on 27 January for controls on nuclear weapons and military nuclear materials and technologies from terrorist groups. [214330]

Mr. MacShane: The UK shares Dr. El Baradei's desire for a strengthened non-proliferation regime, and is currently examining his proposals in more detail. The UK has a good record of working with international partners to combat the spread of weapons and materials of mass destruction, through initiatives such as the Global Partnership.

Peru

Andy King: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the Peruvian Government concerning its implementation of the recommendations of the Truth and Reconciliation Commission, published in August 2003. [215790]

Mr. Rammell: I raised this matter with the Peruvian Prime Minister when I visited Peru in December 2004 and reiterated our ongoing support for implementation of the recommendations of the Truth and Reconciliation Commission (TRC).

We have actively supported the efforts of the TRC. This support has helped develop institutional capacity within this Commission in the regions most affected by the violence. The Peruvian authorities are now in the process of implementing the TRC's recommendations. We are currently supporting the work of the Human Rights Ombudsman's Office and the National Co-ordinator for Human Rights in this aim.

Andy King: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the Peruvian Government concerning the pace of the trial reviews for men and women who may have been wrongly accused and convicted of terrorism in the late 1980s and early 1990s. [215791]

Mr. Rammell: Our Embassy in Lima made representations on this issue to the Peruvian authorities in April and September 2004. We will continue to monitor these cases and support the Peruvian Government's efforts to uphold the rights of the citizens to justice.

Postage

Mr. George Osborne: To ask the Secretary of State for Foreign and Commonwealth Affairs how much has been spent on postage by the Department in each year since 1997. [215023]

Mr. Rammell: The Foreign and Commonwealth Office expenditure on postage for each financial year is as follows:

	£
April 2001 to March 2002	237,171
April 2002 to March 2003	226,667
April 2003 to March 2004	216,349
Expenditure this financial year:	
April 2004 to December 2004	153,146

Information on the costs of postage for the financial years prior to April 2001 could be provided only at disproportionate cost.

Project Coast

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs what information the Government holds on the former South Africa regime's project code-named Project Coast; and if he will make a statement. [215522]

Mr. MacShane: Her Majesty's Government holds information on Project Coast derived from a variety of sources including the findings of South Africa's Truth and Reconciliation Commission and the trial of the former head of the project, Wouter Basson.

Russia

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the attempt by some members of the Russian Duma to ban all religious and ethnic Jewish organisations as extremist. [215641]

Mr. Rammell: It is shocking that 20 Duma deputies should sign such a statement particularly at a time when the world was commemorating the liberation of Auschwitz by Soviet troops.

I welcome the Statement from the State Duma that condemned such openly anti- Semitic views.

The Government's position on such issues is well known: we condemn all forms of discrimination and are committed to countering intolerance at home and abroad as an integral part of protecting and promoting human rights.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of levels of xenophobia and anti-Semitism in Russia. [215642]

Mr. Rammell: Reports by NGOs and in the media about prejudice and violence against minorities in Russia are concerning. These reports indicate that racially motivated crimes against black, Asian, Caucasian and Jewish people in Russia appear to be increasing. One report from the Sova human rights centre in Moscow suggests that the number of racially motivated deaths in Russia increased from around 15 in 2003 to at least 44 in 2004.

The growth of extremist neo-Nazi and skinhead organisations is another concerning development. A report by the Moscow Bureau for Human Rights estimated that, at the end of 2003, there were 50,000 skinheads across Russia, mainly concentrated in the larger cities such as Moscow, St. Petersburg and Yekaterinburg.

While reports of growing anti-Semitism in Russia continue, Jewish groups agree that there is no state-sponsored anti-Semitism in Russia and President Vladimir Putin has demonstrated sympathy for Jewish interests. However, prejudice remains common and reports of sporadic attacks on Jewish buildings and individuals continue.

The Government's position on such issues is well known: we condemn all forms of discrimination and are committed to countering intolerance at home and abroad as an integral part of protecting and promoting human rights.

To help combat racism and xenophobia in Russia the Foreign and Commonwealth Office has funded a one-year project to assist NGOs representing ethnic minorities in the regions. We are also co-funding an ambitious project to bring ethnic minority NGOs and the police together in different regions to develop strategies for tackling racism and discrimination. A further project, started in 2003, provides legal support and takes on strategic litigation to protect the rights of the Roma community.

South Africa

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Government of South Africa about the promotion of democratic reform in Africa. [215667]

Mr. Mullin: My right hon. Friend the Foreign Secretary discussed governance, which included democratic reform, with South African Foreign Minister Dlamini-Zuma, during the UK-South Africa Bilateral Forum on 25–26 August 2004. Good governance is one of the five key areas of the work of the Commission for Africa which my right hon. Friends the Prime Minister, the Chancellor of the Exchequer, and the Secretary of State for International Development have discussed with the South African Government on several occasions in recent months.

Sudan

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the Sudan Liberation Movement/Army's reaction to the Sudanese army's actions on 8 December 2004 in the Thabit area near El Fasher; and if he will make a statement. [214731]

Mr. Mullin: The report of the UN Secretary General on the Sudan notes that there was renewed fighting between government troops and rebel forces, including the Sudanese Liberation Army (SLA) around Thabit on 7–8 December, and that the

"SLA withdrew when attacked in many of these cases."

The report goes on to highlight continued breaches of the ceasefire by both sides. We are maintaining sustained pressure on Khartoum and rebels to show restraint in the face of provocation, to comply with UN Resolutions and their own commitments, and to reach a political settlement.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the recommendations of the Report of the International Commission of Inquiry on Darfur. [215658]

Mr. Mullin: The report of the International Commission of Inquiry (ICI) was released to the Security Council on 31 January. The report concluded that the Government of Sudan, the Arab militias and the rebels are all guilty of serious violations of human rights and humanitarian law, which may amount to crimes against humanity and/or war crimes. The report found no evidence that the Government of Sudan have pursued a policy of genocide in Darfur, although a "competent court" will need to decide whether certain individuals have done so. The report stresses that the crimes which have taken place in Darfur

"may be no less serious and heinous than genocide"

and recommends that the crimes should be referred to the International Criminal Court.

The ICI has given the UN Secretary General a list of suspects it believes may have perpetrated these crimes, and recommends that he pass this list to a competent

Prosecutor. The UN Security Council is united in their determination that there can be no impunity for these crimes and will be discussing the next steps over the coming days.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what his policy is on the referral of the situation in Darfur to the International Criminal Court in accordance with the findings of the UN Inquiry on Darfur. [215659]

Mr. Rammell: Our preference is for the situation in Darfur to be referred to the International Criminal Court (ICC), as recommended by the International Commission of Inquiry. Since Sudan is not a state party to the ICC Statute, and is unlikely to refer the situation to the Court, a decision by the Security Council will be required.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Government of Sudan on the rights of civilians to express their political views, including holding public demonstrations. [215671]

Mr. Mullin: We regularly raise this issue with the Government of Sudan. Most recently, on 6 February 2005, our embassy in Khartoum raised with the Ministry of Information the need to respect people's right to freedom of expression, with particular reference to press freedom, following recent action taken against the media.

Personal liberty, freedom of thought, conscience and religion, and freedom of expression and of assembly and association are guaranteed by the Power Sharing Protocol of the Comprehensive Peace Agreement, which the Government of Sudan and the Sudanese People's Liberation Movement/Army signed on 9 January 2005. We are pressing both sides to fully implement the terms of the agreement.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of reports that security forces in Sudan opened fire upon civilian protesters from the Beja community in Port Sudan on 29 January. [215672]

Mr. Mullin: I refer the hon., Member to the reply I gave to my hon. Friend the Member for Stroud (Mr. Drew) on 9 February 2005, *Official Report*, columns 1557- 58W, and to the reply I gave today to my hon. Friend the Member for Northampton, North (Ms Keeble) on 16 February (UINs 215847 and 215848).

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what measures he plans to take to assist the African Union to deploy the full contingent of troops to Darfur without delay. [215673]

Mr. Mullin: We are providing the African Union (AU) with considerable support to allow the mission to deploy the full contingent of troops. Since May 2004 we have provided more than £14 million in funding, from which we have provided logistical support including 143 vehicles, with a further delivery of 470 vehicles to take place soon. A UK officer also provides planning support to the AU and we have a UK observer on the ground.

The AU currently has just over 1,900 troops on the ground, and more are expected in the coming weeks. We remain in close contact with the AU, and our partners in the international community, about what further assistance we may be able to provide to aid their deployment.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the capability of the African Union mission in Darfur to fulfil its mandate. [215674]

Mr. Mullin: We fully support the African Union (AU) mission in Darfur. There have been some delays in deployment, but the AU now have more than 1,900 personnel on the ground. We and other donors have worked hard to help the AU overcome the logistical problems that they have faced in Darfur, by providing financial assistance, planning support and equipment. Where troops are equipped and on the ground they are playing a strong role, not only in monitoring, but also in defusing tensions; negotiating release of hostages; and offering protection to aid convoys. We note that the latest report by the UN Secretary General highlights the positive difference the AU are making in Darfur, particularly in facilitating the movement of humanitarian relief, preventing the escalation of violence, defusing tensions and providing security. The UN Secretary General goes on to state that

"the presence and pro-active initiatives taken by the AU mission have surpassed expectations."

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the views of the African Union's Chief Ceasefire Monitor, General Festus Okonkwo, concerning the build-up of arms and troops in Darfur. [215744]

Mr. Mullin: We fully support the comments made by General Okonkwo. We share his concerns about the build-up of troops and arms in Darfur. We are discussing ways to address this in the Security Council, including through further measures to control arms flows into and within Darfur. At the same time we are pressing all sides to abide by the commitments they have made and the obligations placed upon them, and then to return to the negotiating table in Abuja. A political dialogue, rather than use of weapons and troops, is the only way in which a lasting solution to the problems in Darfur will be found.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the Government of Sudan's progress in implementing his Five-Point Plan for Peace within the agreed three months. [215745]

Mr. Mullin: On 6 October 2004, the Government of Sudan gave their commitment to my right hon. Friend the Prime Minister that they would co-operate with the African Union (AU) mission; provide the location of militia forces and confine these forces to barracks, if the rebels would also do so; conclude the Compressive Peace Agreement by the end of the year; and to implement the Abuja Humanitarian Protocol.

The Comprehensive Peace Agreement was concluded on 31 December 2004, and formally signed on 9 January in Nairobi. The Government of Sudan have provided

the location of their forces to the AU and are co-operating with the ongoing expansion of its mission. However neither the Government of Sudan nor the rebels have confined their troops to barracks. We welcome the improvement in humanitarian access from six months ago, as stated by the UN Secretary General in his latest report on Darfur. But it is still very poor, and we continue to be concerned that the security situation means that aid cannot be delivered to all that need it. We have made clear that security must improve and the ceasefire violations must stop. We are strongly pressing both sides to abide by the Abuja protocols.

Ms Keeble: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what assessment he has made of the security situation in the east of Sudan; [215847]

(2) what discussions he has held with the Government of Sudan concerning its actions in relation to the unrest in the east of the country. [215848]

Mr. Mullin: I refer my hon. Friend to the reply I gave to my hon. Friend the Member for Stroud (Mr. Drew) on 9 February 2005, *Official Report*, columns 1557–58W.

Our embassy in Khartoum raised these incidents with Beja Congress leaders on 30 January 2005, and with the Government of Sudan on 31 January 2005.

Glenda Jackson: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) if he will urge the UN to define the atrocities committed in Darfur as genocide; [215261]

(2) if he will urge his colleagues in the EU to define the atrocities committed in Darfur as genocide. [215262]

Mr. Mullin: The UK pressed for the establishment of an expert International Commission of Inquiry (ICI) by the UN to investigate the atrocities in Darfur, and determine whether genocide had been committed. The ICI's report, issued to the Security Council on 31 January 2005, concluded that while the Government of Sudan had not pursued a policy of genocide in Darfur, a "competent court" would need to decide whether certain individuals had done so, and that the Government of Sudan, the Arab militias and the rebels are all guilty of serious violations of human rights and humanitarian law, which may amount to crimes against humanity and/or war crimes.

We are now discussing with EU partners and Security Council members how best to take forward the ICI's recommendations.

Glenda Jackson: To ask the Secretary of State for Foreign and Commonwealth Affairs what additional resources are being furnished to the African Union by the *(a)* UK, *(b)* EU and *(c)* UN to assist its attempts to resolve the crisis in Darfur. [215270]

Mr. Mullin: We strongly support the African Union (AU) mission in Darfur. Since May 2004 we have provided more than £14 million in funding, from which we have provided logistical support including 143 vehicles, with a further delivery of 470 vehicles to take place soon. A UK officer also provides planning support to the AU and we have a UK observer on the ground.

The European Commission has provided €92 million to support the AU, and many EU member states are also providing bilateral assistance, including significant logistical support.

The UN is also supporting the AU. A UN Assistance cell was established in Addis Ababa to enhance AU/UN co-operation, and includes military, police and logistics experts. A UN planning team is working closely with AU planners, and a UN military liaison officer is attached to AU headquarters in Darfur. The UN Advance Mission in the Sudan is establishing four officers in Darfur to facilitate liaison and co-operation with the AU mission in the field.

We remain in close contact with the AU, and our partners in the international community, about what further assistance we may be able to provide.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what meetings *(a)* he, *(b)* officials in his Department and *(c)* representatives of the UK Government have (i) proposed, (ii) scheduled and (iii) had since 7 January with members and representatives of the governments of (A) Argentina, (B) Benin, (C) Brazil, (D) China, (E) Denmark, (F) France, (G) Greece, (H) Japan, (I) Philippines, (J) Romania, (K) Russian Federation, (L) United Republic of Tanzania, (M) United States and (N) Algeria, (1) regarding the situation in Darfur, (2) regarding the Report of the Secretary-General on the Sudan pursuant to paragraphs 6,13, and 16 of Security Council resolution 1556 (2004), paragraph 15 of resolution 1564 (2004) and paragraph 17 of resolution 1574 (2004) and (3) regarding the use of the International Criminal Court to prosecute war crimes committed in (X) Darfur and (Y) Sudan in general; when each of these meetings took place; what specific proposals were (V) proposed and (W) accepted; and if he will make a statement. [215405]

Mr. Mullin: We have regular discussions at all levels with our fellow members of the UN Security Council regarding the situation in Darfur. Following the publication of the report of the International Commission of Inquiry, which recommended referring those accused of war crimes in Darfur to the International Criminal Court, we are actively discussing the way forward with our Security Council partners.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the *(a)* strategy and *(b)* actions of the US Administration to promote the establishment of a temporary UN-African Union court in Arusha, Tanzania to handle war crimes prosecutions with regard to Sudan; and if he will make a statement. [215414]

Mr. Mullin: We are studying US proposals for a Sudan Tribunal based on the infrastructure of the International Criminal Tribunal for Rwanda. Our initial analysis is that this option is less preferable than a Security Council referral of Darfur to the International Criminal Court (ICC) as recommended by the International Commission of Inquiry's report into the crimes in Darfur which was transmitted to the Security Council on 31 January.

While an ICC referral is our preferred option, the ICC Statute is clear that a state which is not party to the ICC Statute—such as Sudan—can only be referred to the ICC by a decision of the Security Council. This will require consensus in the Council. We will study all options put forward by Security Council partners.

Targets

Mr. George Osborne: To ask the Secretary of State for Foreign and Commonwealth Affairs how many targets have been set in each year since 1997 by the Department; and, of these, which have been *(a)* met, *(b)* nearly met, *(c)* not met, *(d)* changed and *(e)* dropped. [215795]

Mr. Rammell: The Department's targets and performance against them are set out in the Foreign and Commonwealth Office's Annual Departmental Reports, copies of which are available in the Library of the House.

European Union (Court Cases)

Mr. Hayes: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list those organisations in receipt of European Communities funds that have brought actions against the European Commission relating to interpretation of treaty articles at the European Court of Justice since 1997. [215208]

Mr. MacShane: The number of such bodies who could potentially bring actions against the Commission is very large, including public or private bodies (such as industrial co-operatives and farmers) in any or all of the member states. The Government do not hold records of such actions taken against the Commission, which could be referred to the European Court of Justice by national courts in any member state as well as brought directly by the organisation.

Mr. Hayes: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 10 January 2005, *Official Report*, column 38W, on whistleblowers, what monitoring of whistleblowing cases in the European Communities his Department undertakes. [215290]

Mr. MacShane: The Government naturally take a close interest in any public comment on the financial or personnel management of the EU institutions. We are in frequent dialogue with the European Commission on a wide range of administrative matters.

The European Anti-Fraud Office (OLAF) investigates all allegations of fraud involving EU institutions which come to its attention, including cases where whistleblowing is involved. In its most recent activities report, relating to the period between 1 July 2003 and 30 June 2004, OLAF for the first time provided information on the different sources of information it receives which lead to investigations. OLAF stated that in June 2004 it had five active cases (out of 511 active cases in total) where the primary source of information was a whistleblower. No new enquiry based on whistleblowing has been opened in the meantime.

Further information about OLAF and its reporting can be found on the following website: http://europa.eu.int/comm/anti_fraud/index_en.html

As I stated in my answer to the hon. Member of 10 January 2005, *Official Report*, column 37W, the Government took an active part in formulating the European Communities Staff Regulations, of May 2004, which offer whistleblowers what we consider to be a comparable measure of protection to that enjoyed by UK officials in Crown Service. The Regulations provide a complaint mechanism for EU officials: to date, no complaint has been lodged concerning the whistleblowing procedures.

The Government will continue to follow closely this aspect of the EU institutions' efforts to protect their budgets against fraud.

Mr. Hayes: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on expenditure planned under Council Decision 2005/12/EC of OJ L6 volume 48 of 8 January. [211365]

Mr. Miliband: I have been asked to reply.

The expenditure was reduced by member states in consultation with the European Commission and now stands at €2 million in each of the two years 2005–06. This is a reduction of €0.4 million per annum on the original request cited in explanatory memorandum COM(2004) 512 of the 6 October 2004. The proposal was introduced by the Commission to allow improved and more adequate cover for centrally financed civil protection activity in an enlarged European Union.

Zimbabwe

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of *(a)* the announcement of elections in Zimbabwe and *(b)* the prospect of opposition participation in the elections; and if he will make a statement. [215668]

Mr. Mullin: The opposition movement for democratic change has announced that it will contest the 31 March Zimbabwean parliamentary elections. With our EU partners we have lobbied the Zimbabwean Government and its neighbours on the need for Zimbabwe to comply with the South African Development Community guidelines on democratic elections to which the Zimbabwean Government itself has signed up.

CABINET OFFICE

Aircraft Charters

Chris Grayling: To ask the Chancellor of the Duchy of Lancaster how much money his office has spent on chartering aircraft in each of the past five years. [213710]

Mr. Milburn: The Duchy of Lancaster office has not spent any money on chartering aircraft.

Travel by Ministers makes clear that special flights may be authorised when a scheduled service is not available, or when it is essential to travel by air, but the requirements of official or parliamentary business or security considerations or urgency preclude the journey being made by a scheduled service. In respect of overseas travel by Ministers, since 1999 the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each

financial year. The list published in 1999 covers the period 2 May 1997 to 31 March 1999. Where RAF/Private Charter aircraft are used this is shown in the list. The Government have also published on an annual basis the cost of all Ministers' visits overseas. Copies of the lists are available in the Libraries of the House. Information for 2004–05 will be published in due course.

All Ministerial travel is undertaken in accordance with the "Ministerial Code" and "Travel by Ministers".

Freedom of Information

Dr. Julian Lewis: To ask the Minister for the Cabinet Office what his policy is in respect of the publication *(a)* on the departmental website and *(b)* by placing copies in the Library of (i) all or (ii) only a selection of the information disclosed in response to Freedom of Information requests since January. [215191]

Mr. Miliband *[holding answer 10 February 2005]:* Guidance on Publication Schemes, issued by the Department for Constitutional Affairs in July 2002, recommended that where information is disclosed to an individual in response to a request under the Freedom of Information Act 2000, Departments should consider whether the information disclosed is of general interest and include released information in the Publication Scheme where appropriate.

Where the information covered under the Act is of broader and more general interest and importance, it will be placed on the Cabinet Office website. Copies of significant documents may also be placed in the Library. It would not be appropriate to place all the information released on the website or in the Library some of which has relevance or significance only to those that have requested it.

The Cabinet Office will ensure that where appropriate the House is informed of significant publications through a written ministerial statement.

Housing Policy

Mr. Amess: To ask the Chancellor of the Duchy of Lancaster (1) if he will make a statement on his role in the development of Government policy on illegal Traveller encampments; [214829]

(2) if he will make a statement on his role in the development of housing policy. [214830]

Mr. Milburn: I refer the hon. Member to the answer I gave to the hon. Member for Harborough (Mr. Garnier) on 20 October 2004, *Official Report*, column 720W.

Overseas Trips

Mr. George Osborne: To ask the Minister for the Cabinet Office how many overseas trips, and at what total cost, have been made by his Department in each year since 1997; and what the costs of *(a)* flights, *(b)* internal travel, *(c)* hotel accommodation and *(d)* subsistence were of each trip. [206663]

Mr. Miliband: The total cost of all overseas travel and overseas air travel for the Cabinet Office from 1997–98 to the financial year 2001–02 is shown in the following table.

Total cost of overseas travel

	£
1997–98	327,583
1998–99	491,682
1999–2000	495,381
2000–01	779,187
2001–02	1,020,505
Of which:	
Total cost of overseas air travel	
1997–98	288,796
1998–99	425,472
1999–2000	428,206
2000–01	682,139
2001–02	912,006

It is not possible to provide a further breakdown of costs as the information is not collected in the format requested, and to do so would incur disproportionate costs.

Due to a change in the way that travel costs are recorded, it is not possible to extract the overseas travel costs from the total cost of travel for 2002–03 without incurring disproportionate costs.

The way in which the data on overseas journeys is recorded does not enable us to extract the number relating to each year without incurring disproportionate costs.

All official travel in the Department is undertaken strictly in accordance with the rules contained in the Cabinet Office Management Code. All ministerial travel is undertaken fully in accordance with the rules set out in the "Ministerial Code" and "Travel by Ministers", copies of which are available in the Libraries of the House.

EDUCATION AND SKILLS

EU Committees

Angus Robertson: To ask the Secretary of State for Education and Skills how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Advisory Committee on training in nursing met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [215412]

Mr. Hutton: I have been asked to reply.

This committee has not met during these presidencies. The members' terms of office have expired and the Commission has not sought further nominations.

Angus Robertson: To ask the Secretary of State for Education and Skills how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Advisory Committee on the training of midwives met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [215413]

Mr. Hutton: I have been asked to reply.

The advisory committee on midwifery training did not meet during these presidencies.

The terms of office of members have expired and the Commission has not sought further nominations.

CONSTITUTIONAL AFFAIRS

Civil Servants

Mr. Laws: To ask the Parliamentary Secretary, Department for Constitutional Affairs what the cost of the enhanced early retirement scheme for civil servants in his Department and its agencies was in each year from 1997–98 to 2003–04 and what the estimated cost will be in each year from 2004–05 to 2007–08; and if he will make a statement. [211655]

Mr. Lammy: Total costs for the early retirement scheme for the Department, which covers costs for the Court Service, the Public Guardianship Office and DCA headquarters, from its published resource accounts are outlined in the following table:

	Total DCA
1998–99	579,000
1999–2000	208,000
2000–01	935,000
2001–02	624,000
2002–03	—
2003–04	1,016,000
2004–05[1]	1,500,000

[1] Estimated

Information on 1997–98 is not readily available. The Department is unable to provide figures for years 2005–06 to 2007–08 without incurring disproportionate costs.

Cleaning Costs

Mr. George Osborne: To ask the Parliamentary Secretary, Department for Constitutional Affairs what the costs of cleaning the Department and its predecessors were in each year since 1997. [213830]

Mr. Lammy: The direct cost of cleaning the Department's estate in 2002–03 was £5.05 million, in 2003–04 was £5.49 million and is estimated to be £5.83 million in 2004–05. These costs represent only those costs directly incurred by the Department through cleaning contracts and do not include cleaning services provided as part of wider facilities management contracts or provided by Landlords under the terms of individual leases. Information prior to 2002–03 is not readily available and could be provided only at disproportionate cost.

Departmental Catering

Mr. George Osborne: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many departmental *(a)* canteens and *(b)* bars there are; and how much has been spent on the (i) running, (ii) staffing and (iii) supply costs of each in each year since 1997. [213625]

Mr. Leslie: "Departmental canteens and bars" is taken to mean facilities provided primarily for use by the Department's staff. This approach is consistent with the definition used in previous questions.

(a) My Department has operated a staff canteen at its London Headquarters, where there is a concentration of staff, since 1997. Visitors to the building also use the facility.

The catering service is contracted out and income from sales is used to offset the cost to the Department. There is, however, a need for a subsidy, the cost of which is shown in the following table.

	Subsidy (£)
1997–98 1998–99 1999–2000 2000–01 2001–02 2002–03	The records for these years contain associated costs, which cannot be separated out. The subsidy could only be identified at disproportionate cost.
2003–04	106,049

(b) There are no departmental bars.

Departmental Policies

Mr. Gordon Marsden: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will set out, with statistical information relating as closely as possible to the constituency, the effect of his Department's actions and policies on Blackpool, South constituency since *(a)* 1997 and *(b)* 2001. [215616]

Mr. Leslie: The Department for Constitutional Affairs is the Government Department responsible for upholding justice, rights and democracy. The Department's aim is to provide for effective and accessible justice for all, to ensure the rights and responsibilities of the citizen, and to modernise the law and constitution.

Currently, the Department has six strategic objectives, which cover the delivery of justice, civil and administrative law, protecting the vulnerable, modernising the constitution, increasing consumer choice and working in partnership with the independent judiciary. The Department also has seven Public Service Agreement targets to help deliver its strategic objectives.

Examples of the activity in 2004 to deliver these objectives include work with partners to make sure criminal trials are more efficient with the numbers of ineffective Crown court trials falling from 24 per cent. in 2002–03 to 16 per cent. in September 2004. The rate has reduced from 31 per cent. to 25 per cent. for the same period in the magistrates courts. The Department has also been involved in work to help people resolve their disputes in the most effective way, including pilots to test the effectiveness of court-based mediation. During 2004 there was a reduction from almost 49 per cent. to 41 per cent. in those cases that had eventually to be resolved by a hearing. Another area where pilots were used successfully was for all postal voting in four regions of England at the combined European and local elections in June 2004. Voter turnout doubled in the pilot regions compared with 1999.

The range of the Department's policies and actions is wide and the statistical information relating to all of that activity is not collected on a constituency basis. Consequently, the information requested in the question cannot be provided in the form requested

except at a disproportionate cost. However, statistical information about the Department's activities can be found at: http://www.dca.gov.uk/statistics/statfr.htm as well as at www.neighbourhood.statistics.gov.uk.

An example of the information available on those sites is data on persistent young offenders. The average number of days from arrest to sentence for persistent young offenders sentenced between August and October 2004 was 59 days in the Lancashire criminal justice area, which covers the constituency of Blackpool South. This compares with 124 days in the 1997 calendar year, and 83 days in the 2001 calendar year.

Mr. Chris Smith: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will set out, with statistical information relating as directly as possible to West Dorset constituency, the effects on West Dorset of his Department's policies and actions since 2 May 1997. [215973]

Mr. Leslie: The Department for Constitutional Affairs is the Government Department responsible for upholding justice, rights and democracy. The Department's aim is to provide for effective and accessible justice for all, to ensure the rights and responsibilities of the citizen, and to modernise the law and constitution.

Currently, the Department has six strategic objectives, which cover the delivery of justice, civil and administrative law, protecting the vulnerable, modernising the constitution, increasing consumer choice and working in partnership with the independent judiciary. The Department also has seven Public Service Agreement targets to help deliver its strategic objectives.

Examples of the activity in 2004 to deliver these objectives include work with partners to make sure criminal trials are more efficient with the numbers of ineffective Crown court trials falling from 24 per cent. in 2002–03 to 16 per cent. in September 2004. The rate has reduced from 31 per cent. to 25 per cent. for the same period in the magistrates courts. The Department has also been involved in work to help people resolve their disputes in the most effective way, including pilots to test the effectiveness of court-based mediation. During 2004 there was a reduction from almost 49 per cent. to 41 per cent. in those cases that had eventually to be resolved by a hearing. Another area where pilots were used successfully was for all postal voting in four regions of England at the combined European and local elects in June 2004. Voter turnout doubled in the pilot regions compared with 1999.

The range of the Department's policies and actions is wide and the statistical information relating to all of that activity is not collected on a constituency basis. Consequently, the information requested in the question cannot be provided in the form requested except at a disproportionate cost. However, statistical information about the Department's activities can be found at http://www.dca.gov.uk/statistics/statfr.htm as well as at www.neighbourhood.statistics.gov.uk.

An example of the information available on those sites is data on persistent young offenders. The average number of days from arrest to sentence for persistent young offenders sentenced between August and October 2004 was 51 days in the Dorset criminal justice area, which covers the constituency of West Dorset. This compares with 135 days in the 1997 calendar year.

Mr. Sedgemore: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will set out, with statistical information relating as directly as possible to Folkestone and Hythe constituency, the effects on Folkestone and Hythe of the Department's policies and actions since 2 May 1997. [216016]

Mr. Leslie: The Department for Constitutional Affairs is the Government Department responsible for upholding justice, rights and democracy. The Department's aim is to provide for effective and accessible justice for all, to ensure the rights and responsibilities of the citizen, and to modernise the law and constitution.

Currently, the Department has six strategic objectives, which cover the delivery of justice, civil and administrative law, protecting the vulnerable, modernising the constitution, increasing consumer choice and working in partnership with the independent judiciary. The Department also has seven Public Service Agreement targets to help deliver its strategic objectives.

Examples of the activity in 2004 to deliver these objectives include work with partners to make sure criminal trials are more efficient with the numbers of ineffective Crowncourt trials falling from 24 per cent. in 2002–03 to 16 per cent. in September 2004. The rate has reduced from 31 per cent. to 25 per cent. for the same period in the magistrates courts. The Department has also been involved in work to help people resolve their disputes in the most effective way, including pilots to test the effectiveness of court-based mediation. During 2004 there was a reduction from almost 49 per cent. to 41 per cent. in those cases that had eventually to be resolved by a hearing. Another area where pilots were used successfully was for all postal voting in four regions of England at the combined European and local elections in June 2004. Voter turnout doubled in the pilot regions compared with 1999.

The range of the Department's policies and actions is wide and the statistical information relating to all of that activity is not collected on a constituency basis. Consequently, the information requested in the question cannot be provided in the form requested except at a disproportionate cost. However, statistical information about the Department's activities can be found at: http://www.dca.gov.uk/statistics/statfr.htm as well as at www.neighbourhood.statistics.gov.uk.

An example of the information available on those sites is data on persistent young offenders. The average number of days from arrest to sentence for persistent young offenders sentenced between August and October 2004 was 74 days in the Kent criminal justice area, which covers the constituency of Folkestone and Hythe. This compares with 121 days in the 1997 calendar year.

Domestic Violence Trials

Vera Baird: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will take steps to prevent personal cross-examination of victims

by an alleged domestic violence perpetrator in *(a)* Crown court trials and *(b)* family court proceedings. [215690]

Mr. Leslie: I refer my hon. Friend to my answer of 13 December 2004, *Official Report*, column 872W. There are no plans at present to legislate to prevent cross-examination of a witness by a defendant in the criminal court, or by a respondent in the family court.

Section 36 of the Youth Justice and Criminal Evidence Act 1999 already gives the court discretion to prevent cross-examination by a defendant in person in criminal proceedings, if it appears to the court that the quality of the evidence given by the witness is likely to be diminished by such examination. The wide discretion afforded judges in hearing family proceedings gives them sufficient powers to ensure that victims can be protected from intrusive and unfair questioning by the respondent in family proceedings. They can offer assistance in how questions are framed and evidence is presented. The judge also has an inherent power to refuse to admit evidence at a trial if he considers that it is in the interests of justice to do so.

Ministerial Stationery

Mr. George Osborne: To ask the Parliamentary Secretary, Department for Constitutional Affairs how much has been spent on official ministerial *(a)* business cards, *(b)* headed paper and *(c)* compliment slips in each year since 1997. [214960]

Mr. Lammy: My Department has spent the following amounts on ministerial stationery in the last two years. No central figures are held prior to April 2003 and to obtain them would incur a disproportionate cost.

	2003–04	*2004–05*[1]
Business cards	267.75	535.50
Headed paper	1,145.80	242.20
Compliment slips	91.50	61.00

[1] The figure for financial year 2004–05 is a year to date figure to the 8 February 2005.

The reduction in expenditure in the 2004–05 year to date figure for headed paper is due to the introduction of electronic templates.

Mobile Phones

Mr. George Osborne: To ask the Parliamentary Secretary, Department for Constitutional Affairs what the cost of staff mobile phone bills was in each year since 1997. [214898]

Mr. Lammy: Total cost for mobile phones for my Department which covers costs for the Court Service, the Public Guardianship Office and my Department's headquarters, was £72,000 in 1998–99, £225,000 in 1999–2000, £202,000 in 2000–01, £223,000 in 2001–02, £267,000 in 2002–03, £296,000 in 2003–04 and £241,000 in 2004–05 (up to 31 December).

Information on 1997–98 is not readily available.

Principal Registry Judgments

Dr. Evan Harris: To ask the Parliamentary Under-Secretary, Department for Constitutional Affairs what proportion of judgments made by district judges in the Principal Registry *(a)* went to appeal and *(b)* were successful or partially successful on appeal in the last year for which figures are available. [214931]

Mr. Leslie: The total number of cases dealt with by a district judge in the Principal Registry since April 2004 was 32,327 of which there were 73 appeals. The outcome of appeal hearings is not recorded centrally, and this information could only be obtained at disproportionate cost.

Queen's Flight

Chris Grayling: To ask the Parliamentary Secretary, Department for Constitutional Affairs on how many occasions the Department's Ministers used the Queen's Flight in each of the past five years. [213695]

Mr. Leslie: The Lord Chancellor and Secretary of State for Constitutional Affairs has used the Queens Flight on three occasions—once in 2001 and twice in 2003.

No other Minister in the former Lord Chancellor Department or the Department for Constitutional Affairs have used the Queens flight.

Travel by Ministers makes clear that special flights may be authorised when a scheduled service is not available, or when it is essential to travel by air, but the requirements of official or Parliamentary business or security considerations or urgency preclude the journey being made a scheduled service. In respect of overseas travel by Ministers since 1999 the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers, costing £500 or more during each financial year. The list published in 1999 covers the period 2 May 1997 to 31 March 1999. Where RAF/Private Charter aircraft are used this is shown in the list. The Government have published on an annual basis the cost of all Ministers' visits overseas. Copies of the list are available in the Libraries of the House. Information for 2004–05 will be published in due course.

All Ministerial travel is undertaken in accordance with the rules set out in the Ministerial Code and Travel by Ministers, copies of which are available in the Libraries of the House.

Staff Identity Passes

Mr. George Osborne: To ask the Parliamentary Secretary, Department for Constitutional Affairs what the cost of producing a staff identity pass was in the Department on the latest date for which figures are available; and how many staff identity passes have been reported lost or stolen in each year since 1997. [215092]

Mr. Lammy: Records of the number of lost or stolen identity passes were not kept until 2003 within my Department and the same year applies to the Wales Office. As a result, in 2003 113 passes were reported lost and 16 stolen from within my Department and none were reported as lost or stolen in the Wales Office. In 2004 to date, 140 passes have been reported lost in my Department and 13 stolen and in the Wales Office, five have been reported lost.

A new identity and access system was introduced in my Department in 2004 and as a result the cost of producing a pass is approximately £6.32 per pass. A similarly new system was introduced in the Wales Office in May 2003, with a cost of £6.04 per pass. Both costs have been established by identifying the cost of the equipment and the number of identity passes produced.

When a security pass is issued staff are required to sign a register confirming receipt and where appropriate return any old pass. When passes are lost or stolen all staff are requested to inform the Department as soon as possible and appropriate steps are taken to reduce the risk of unauthorised access into any of the Department's buildings.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Bovine TB

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of whether cattle in the early pre-patent stage of bovine tuberculosis may shed significant numbers of infectious organisms and thereby contribute to the spread of the disease by cattle to cattle spread. [214113]

Mr. Bradshaw: It is rare for cattle in the "pre-reactor" stage of bovine tuberculosis (TB) (when the animal is not yet able to react to the skin test) to excrete *Mycobacterium bovis*.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) if, following the outcome of the four counties study of bovine tuberculosis in Ireland, she will abandon the Krebs trials and adopt proactive controls on badger hotspot areas where there is significant incidence of bovine tuberculosis in cattle; [214115]

(2) under what circumstances she would consider abandoning the Krebs trials. [214116]

Mr. Bradshaw: We have made it clear that we are prepared to consider a badger culling policy but only if the available scientific evidence supports this as a cost-effective and sustainable solution. We welcome the report of the Irish Four Area Culling Trial and have sought independent scientific advice on whether the findings are readily translatable to the situation in Great Britain. The advice we receive will be published on the Defra website.

The Irish Government are not changing their policy, believing that the type of proactive badger removal carried out in the Four Counties Study to be unviable.

At present, we have no plans to abandon the Randomised Badger Culling Trial. Significant results from the reactive element of the trial, notified to Ministers by the Independent Scientific Group on Cattle TB (ISG), led to suspension of culling in the reactive treatment areas in November 2003. The ISG has undertaken to bring any significant results from the proactive element of the trial to Ministers' attention without delay. The ISG has advised that trial operations should be complete in early 2006 with final data analysis commencing shortly thereafter.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what research her Department has conducted on the possible use of polymerase chain reaction portable laboratories for the deteetion of bovine tuberculosis in badgers, their excretions or material contaminated by them. [214117]

Mr. Bradshaw: Defra is not currently conducting research using polymerase chain reaction (PCR) portable laboratories for the detection of bovine tuberculosis (TB) in badgers.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what assessment her Department has made of whether the conclusion of the four counties study on bovine tuberculosis in Ireland that reducing the badger population controls bovine tuberculosis is applicable to the UK; [214121]

(2) what assessment her Department has made of the reasons for the differences in the outcomes between the four counties study of bovine tuberculosis in Ireland and the Krebs trial results so far reported; [214122]

(3) what the significant differences are between the four counties study on bovine tuberculosis in Ireland and the Krebs trial; [214123]

(4) what assessment her Department has made of the four counties study on bovine tuberculosis in Ireland; [214162]

(5) if she will make a statement on the implications for control of bovine tuberculosis in England and Wales of the findings of the four counties study on bovine tuberculosis in Ireland regarding the effect of proactive culling of badgers on the rate at which herds become subject to a confirmed restriction. [214163]

Mr. Bradshaw: We welcome the report of the Irish Four Area Culling Trial and are considering the implications of this work for bovine TB control in GB. We have sought advice from both the Independent Scientific Group on Cattle TB and the Godfray Group on whether the findings are readily translatable to the situation in Great Britain. The advice we receive will be published on the Defra website.

The data from the Irish Four Area Culling Trial will form part of the evidence base used in the models which we propose to utilise to assess potential policy options for the future, under the new bovine TB Strategy which we aim to publish shortly.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs in how many herds in Cumbria, where purchased animals were introduced, cattle to cattle spread of bovine tuberculosis infection was judged by her officials to have occurred within the herd during 2004. [214126]

Mr. Bradshaw: Seven of the 16 confirmed bovine tuberculosis breakdowns disclosed in Cumbria during 2004, were judged, by the Veterinary Officer, to have been introduced through purchased stock. This number is provisional pending culture results for incidents disclosed in the last quarter of 2004.

Three of the seven breakdowns were traced to purchased stock involving a single purchased reactor animal. In the remaining four breakdowns, all of the

reactors taken in the incident were purchased and did not include cattle which were not cattle born onto the holding in Cumbria. However, the possibility that transmission between one introduced animal and another when they were in Cumbria cannot be excluded.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether analyses of TB99 returns provide data on the number of tuberculosis breakdowns attributable to *(a)* cattle to cattle spread and *(b)* badger to cattle transmission. [214131]

Mr. Bradshaw: No. Given the way the questions in the TB99 questionnaire were framed it is not possible to ascribe the relationship between cause and effect to particular risk factors, nor clearly attribute factors to a risk from cattle or wildlife. What the analyses do identify are the probabilities associated with certain risk factors.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the extent to which the spread of tuberculosis by infected cattle in the re-stocking period immediately after foot and mouth disease was eradicated in the UK during 2001 was influenced by the absence of pre-movement tuberculosis restrictions in cattle herds. [214704]

Mr. Bradshaw: We are aware that cattle to cattle spread of bovine TB has taken place as a result of restocking following foot and mouth disease and Defra is funding research, by Warwick University, that aims to (i) identify and estimate risk factors associated with the introduction of bovine TB in restocked farms and (ii) model transmission dynamics within cattle populations. The modelling work will take account of the exposure of cattle to badgers. The research project is due to end in 2006 and results will be published on the Defra website.

While no specific assessment has been made of the possible impact that pre-movement testing would have had on bovine TB in herds restocked following FMD, Government recognise that pre-movement TB testing is important as a mechanism to help prevent further spread of the disease. Defra's advice to farmers, published in the booklet 'TB in Cattle—Reducing the Risk', has always been to consider private TB testing and isolation of any animals bought in to a herd. This advisory booklet has been available to farmers, free of charge, since 1999. Officials are currently working with stakeholders to develop detailed proposals to make pre-movement TB testing of cattle from the areas of the country most badly affected by bovine TB compulsory.

Cattle Passport Scheme

Mr. Simon Thomas: To ask the Secretary of State for Environment, Food and Rural Affairs what the average period of late receipt was for applications refused on the grounds of lateness under the British Cattle Movement Service Cattle Passport Scheme in the last year for which figures are available; and if she will introduce a grace period to take account of delays in the postal service as a cause of lateness. [214601]

Alun Michael: In the year 2004, the average period of late receipt for cattle passport applications was 207 days. This figure is surprisingly high, because of a fairly small number of applications that were received many months or even years late.

It may be more helpful to explain that 50 per cent. of applications that were refused because of late application were received up to seven days late. 8 per cent. were between eight and 14 days late. A further 18 per cent. were up to six months late, 24 per cent. were over six months late, including some that were several years late.

Approximately 20 per cent. of refused passports are subsequently issued following a successful appeal.

The British Cattle Movement Service allows appeals on the grounds of postal delay only if the applicant can prove by independent evidence that he or she posted the application in good time.

The Cattle Identification Regulations 1998 require that passports be refused when applications are received late. A comprehensive review of these regulations will be carried out shortly and possible changes to the procedures concerning late passport applications will be considered. However, it is important to maintain a system that encourages farmers to register cattle births promptly. The full and accurate traceability of cattle is essential for disease control, and for the protection of public and animal health and welfare.

Consultants

Mr. Laws: To ask the Secretary of State for Environment, Food and Rural Affairs what the total expenditure by her Department on all external consultants was in *(a)* 1996–97 and *(b)* 2003–04; and what the estimated cost of employing external consultants will be in (i) 2004–05, (ii) 2005–06, (iii) 2006–07 and (iv) 2007–08. [211665]

Alun Michael: Defra came into being in June 2001. From information held centrally, the Department spent £30.012 million on all external consultants in 2003–04. On current information, estimated costs on all external consultants in 2004–05 will be approximately £25.8 million. Estimates of expenditure on all external consultants cannot yet be provided because the Department has not yet completed its business planning for the next financial years.

Countryside Access

Mr. Gray: To ask the Secretary of State for Environment, Food and Rural Affairs how many existing agri-environment scheme holders who provided access for walkers under the scheme are now ineligible to receive payment as a consequence of their land being mapped for access under the Countryside and Rights of Way Act 2000; and what the *(a)* area of land affected and the *(b)* effect on income of the agreement holders is. [214499]

Alun Michael: In the first three areas where the right of access under the Countryside and Rights of Way Act 2000 has come into force there are 25 holdings with agri-environment open access agreements on land mapped as access land. These agreements affect some 471 hectares of land and attract payments of £23,549.50 per annum.

In addition, there are 11 holdings with agri-environment linear agreements and one holding with an agri-environment disabled access agreement on land mapped as access land in the first three areas. These affect 6,731 metres and 1,618 metres and attract payments of £3,028.95 and £1,698.90 per annum respectively.

The Rural Development Service is in the process of renegotiating these agreements with the agreement holders.

Mr. Gray: To ask the Secretary of State for Environment, Food and Rural Affairs in respect of how many hectares of land mapped in areas one to four of the Countryside and Rights of Way Act 2000 mapping procedure fall within the definition of section 15 of that Act. [214500]

Alun Michael: The amount of land mapped under the Countryside and Rights of Way Act 2000 in areas one to three, that falls within the definition of section 15, is 49,348.4 hectares. The right of access has not yet come into force in area four but the latest estimate is that this will involve a further 39,397 hectares.

Mr. Gray: To ask the Secretary of State for Environment, Food and Rural Affairs how many hectares of land mapped in areas one to four of the Countryside and Rights of Way Act 2000 mapping procedure are excepted land under Schedule 1 of that Act, as land the use of which is regulated by byelaws under section 14 of the Military Lands Act 1982 or section 2 of the Military Lands Act 1900. [214501]

Alun Michael: The total area of land mapped under the Countryside and Rights of Way Act 2000 in areas one to three—but excepted from the right of access by virtue of being regulated by byelaws under section 14 of the Military Lands Act 1982, or section 2 of the Military Lands Act 1900—is 27,337.3 hectares. The right of access has not yet come into force in area four but the latest estimate is that this will involve a further 11,968.6 hectares.

Mr. Gray: To ask the Secretary of State for Environment, Food and Rural Affairs how many hectares of land mapped in areas one to four of the Countryside and Rights of Way Act 2000 has had a restriction or closure applied for under section 28 of that Act for defence or national security; and how many hectares have as a result had a restriction or closure granted under the provisions of the Act. [214502]

Alun Michael: The total area of land mapped under the Countryside and Rights of Way Act 2000 in areas one to three, which is subject to a restriction or closure under Section 28 of that Act, is 505.5 hectares. The right of access has not yet come into force in area four but the latest estimate is that this will involve a further 178.8 hectares.

Mr. Gray: To ask the Secretary of State for Environment, Food and Rural Affairs what the original estimate for the cost of the consultation, mapping and appeals and other associated costs for the implementation of the Countryside and Rights of Way Act 2000 was; and what has been the actual cost to date. [214503]

Alun Michael: Defra is funding the Countryside Agency, National Park Authorities and the Planning Inspectorate to implement Part I of the Act throughout the whole of England by the end of 2005. The Countryside Agency's estimate at the end of 2000 for its total costs in implementing the new right of access was £28 million over four years. The agency has so far spent £38.83 million, consisting of £0.75 million in 1999–2000; £0.92 million in 2000–01; £5.17 million in 2001–02; £8.30 million in 2002–03; £13.25 million in 2003–04 and £10.44 million to date in 2004–05. National Park Authorities have been allocated an additional £4.725 million, consisting of £0.875 million in 2002–03; £2.0 million in 2003/04 and £1.85 million in 2004–05. We have also funded the Planning Inspectorate to deal with appeals against the inclusion of land on provisional maps and restriction appeals of £0.11 million in 2001–02; £0.84 million in 2002–03 and £1.20 million in 2003–04. The Planning Inspectorate has spent £1.23 million in the current financial year. Local authorities have been funded to establish local access forums under Part V of the Act.

Mr. Gray: To ask the Secretary of State for Environment, Food and Rural Affairs what funds have so far been allocated to the Access Management Grant Scheme; how much to date has been spent; and how much will be available for the grant scheme proposed to run until 2006–07. [214504]

Alun Michael: £2 million has been allocated to the Countryside Agency for the Access Management Grant Scheme in 2004–05. £547,462 has been spent on the scheme to date, with a further £709,503 committed to fund access authorities for work which they are due to complete before the end of this financial year. The scheme has been extended to March 2007, but the level of funding for the next two years has not been finalised.

Dairy Farming

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs when she next plans to meet dairy farmers to discuss farmgate prices. [216193]

Alun Michael: Price negotiation between producers and processors, or processors and supermarkets is a private commercial matter in which the Government cannot and should not get involved, provided competition rules are respected. However, Ministers frequently meet representatives from all parts of the dairy supply chain and are therefore aware of the issues.

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs what the average farm gate price paid to farmers in Lancashire for milk is. [216195]

Alun Michael: We have data covering the United Kingdom as a whole, but we do not hold milk price information for specific areas of the UK. The average price for milk delivered in December 2004 (the most recent month for which figures are available) is 19.12 pence per litre.

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs what the average herd size is of dairy farms in *(a)* Lancashire and *(b)* Chorley. [216197]

Alun Michael: The following figures show the average herd size in June 2003 on holdings where dairy was the predominant activity. The herd numbers include all cattle on the holding.

	Average herd size
(a) Lancashire (comprising Lancashire CC, Blackpool UA , Blackburn with Darwen UA)	168
(b) Chorley	144

Source:
June Agricultural Census

Design

Alan Howarth: To ask the Secretary of State for Environment, Food and Rural Affairs who the ministerial design champion for her Department is. [215647]

Alun Michael: The ministerial design champion for Defra is Alun Michael, Minister of State (Rural Affairs and Local Environmental Quality).

E-mails

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what her policy is on the deletion of e-mails by her Department; when this policy last changed; and how. [208681]

Alun Michael: Guidance issued from the Head of the Home Civil Service to all departments in July 2004 provided a clear cross-departmental approach to the handling of e-mail correspondence, and a copy is available in the Library of the House.

Equine Breeding

Andrew Mackinlay: To ask the Secretary of State for Environment, Food and Rural Affairs whether the European Union institutions *(a)* have made and *(b)* are considering legislation requiring coloured ponies born to any sire or dam that are registered with any of the equine breed societies to be eligible to be included in the breed standard register, if the owner so desires; and if she will make a statement. [216077]

Alun Michael: The rules relating to the eligibility for entry into recognised equine studbooks are essentially a matter for the individual equine studbook Societies to decide. However, their requirements must not be contrary to the rules contained in Commission Decision 96/78/EC—laying down the criteria for entry and registration of "equidae" in stud-books for breeding purposes. We are not aware of any intention on the part of the European Commission to amend this legislation.

EU Committees

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Committee on Implementation of the Directive establishing a Community policy regarding water met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [216257]

Mr. Morley: The EU Committee on the implementation of the Directive establishing a Community policy regarding water met at the European Commission buildings in Brussels twice during the Irish presidency on 15 March 2004 and 28 May 2004; and once during the Dutch presidency on 28 October 2004. No meetings took place under the Italian presidency.

The UK Government were represented on the above occasions by water quality officials from the Department for Environment, Food and Rural Affairs and the Scottish Executive.

Exercise Triton

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs when the results of Exercise Triton will be published. [216007]

Mr. Morley: As advised in my answer to you recently in relation to your question about contingency planning, The Environment Agency, with other responders, carries out a regular programme of exercises to test its capability at all levels. Last year's Exercise Triton, was conducted to test the preparedness of organisations at all levels, local, regional and national to a simulated national scale event involving flooding of the east coast from Lincolnshire to Hampshire, with offsets in Gwent and North Wales. A lessons identified report will be published in the spring.

Farm Support

Mr. George Howarth: To ask the Secretary of State for Environment, Food and Rural Affairs what initiatives her Department has introduced since 1997 to support farming. [213154]

Alun Michael: The information is as follows:

Strategy for Sustainable Farming and Food

The Strategy for Sustainable Farming and Food was launched in December 2002. It builds on the work of the Policy Commission on the Future of Farming and Food and is a comprehensive and long-term plan for the future development of the industry. It identifies how the Government will work with the whole of the food chain to secure a Sustainable future for English farming and food industries, as viable industries contributing to a better environment and healthy and prosperous communities.

In practical terms the Strategy means:

industry, government and consumers working together to secure a more positive future for the industry;

helping farmers add value by reconnecting with their customers;

providing good quality assured food that consumers want;

improving co-operation within the food chain and improving its performance across the board;

helping farmers secure the right training and advice to develop their businesses and spread best practice; and

protecting the environment and rewarding farmers for providing environmental goods.

Much progress has already been made in implementing the Strategy, most notably through:

CAP Reform deal agreed in June 2003.

Preparation for launch of a new agri-environment scheme, Environmental Stewardship in the spring this year. The scheme will include Entry Level Environmental Stewardship (ELS),

which is open to all farmers. Higher Level Environmental Stewardship and Organic Entry Level Environmental Stewardship.

Launch of Pilot for Whole Farm Approach. The approach will deliver a range of benefits to both farmers and regulators. For the farmer it will reduce duplication and repeat requests for information, allow participants to understand how new standards and regulations may impact on their business as well as providing direct access to guidance and targeted information which will improve business performance.

Animal Health and Welfare Strategy, Implementation Plan and Evidence Base & launched on 24 June 2004. The Strategy was launched to set out a sustainable future for Animal Health and Welfare, explaining the vision and how this is to be achieved over the next 10 years. Veterinary Surveillance Strategy and revised Scrapie Strategy under the AHW Strategy also published.

A Pilot demonstration farms network has been set up.

Launch of a new Food Chain Centre to encourage greater efficiency in the UK food chain.

Launch of English Farming and Food Partnerships (EFFP)—to drive increased co-operation between farmers and between farmers and the rest of the food chain.

Key grants given under the new Agriculture Development Schemes, including awards to EFFP, Food Chain Centre and the Red Meat Industry Forum—to deliver improvements in competitiveness.

Launch of a programme of support for quality regional food and drinks.

Launch of a Sustainable Food Procurement Initiative to encourage public sector purchasers to buy food in a manner which promotes sustainable development.

The Research Priorities Group set up and the Applied Research Forum launched to ensure better co-ordination of, and support for, research and science in farming and food.

Red Meat Industry Forum—set up to deliver improvements in competitiveness in the red meat sector.

Non Food Crops centre is up and running and was launched on 24 November 2003.

Non-food crops strategy—On November 5 2004 Lord Whitty launched a joint Defra/DTI long-term strategy to create more demand for and use of renewable raw materials made from non-food crops. It is aimed at increasing commercial opportunities, stimulating innovation, cutting waste and environmental damage, and protecting precious natural resources.

A new chairman appointed to take forward AFS 2003 (Assured Food Standards).

Regulation—A new unit has been set up within the Department to look at regulation specifically from the farmer's point of view.

Benchmarking—Farm business benchmarking online database launched in 2004.

Animal Health

OTMS—on 1 December 2004 the start of a managed transition towards the lifting of the OTM rule and its replacement with a system of robust testing of cattle for BSE was announced. An essential first step will be the establishment of a robust and independently audited testing regime. Only cattle for which there is a negative test result will be sold for human consumption.

Foot and Mouth Disease—Defra has conducted a major national exercise to test contingency plans in case of a future outbreak of foot and mouth disease.

National Fallen Stock scheme—a guaranteed, biosecure, low-cost means of animal carcass disposal—came into effect on 22 November 2004. The Government are providing £10 million in the first year to allow the National Fallen Stock Company to pay 30 per cent. of the costs of collection and disposal of fallen farmed stock.

TB—Announced new measures on 1 November 2004 to tighten surveillance and reduce the risk of bovine TB spreading to new areas. These include changes to testing frequency and the imposition of movement restrictions immediately a test becomes overdue.

ERDP

The England Rural Development Programme (ERDP) is principally aimed at the farming industry and provides a framework for the operation of 10 separate but integrated schemes which provide new opportunities to protect and improve the countryside, to develop sustainable enterprises and to help rural communities to thrive.

The ERDP implements the European Rural Development Regulation—also known as the second pillar of the Common Agricultural Policy. A total of £1.6 billion of EU and Government money is being made available under these schemes in England during the seven years (2000–06) of the Programme.

The ERDP aims to:

significantly increase the area covered by schemes to conserve and improve the environment and maintain the sustainable management of the uplands through the following land-based schemes:

- Hill Farm Allowance
- Countryside Stewardship Scheme
- Environmentally Sensitive Areas Scheme
- Organic Farming Scheme
- Woodland Grant Scheme
- Farm Woodland Premium Scheme
- Energy Crops Scheme

assist the creation of more diverse and competitive agricultural and forestry sectors and jobs in the countryside, encourage the development of new products and markets and greater collaboration, and provide training to support these new activities through the following project-based schemes:

- Rural Enterprise Scheme
- Processing and Marketing Grant
- Vocational Training Scheme

The Objective 1 Programme

Complementing the ERDP is the Objective 1 programme, part of the European Structural Funds. The Objective 1 programme runs from 1 January 2000 until 31 December 2006 and covers the areas of the EU, which have incomes below 75 per cent. of the EU15 average.

In England, three areas have been designated to receive funding under Objective 1: Cornwall and the Isles of Scilly, Merseyside and South Yorkshire.

There are a number of European funds that can be drawn upon by those in Objective 1 areas and Defra, in collaboration with Government Offices is responsible for delivering the European Agricultural Guidance and Guarantee Fund. This fund has the following objectives:

to help to preserve the link between agriculture and the land;

to improve and support the competitiveness of agriculture as a key activity in rural areas;

to ensure diversification of activities in rural areas;

to help retain people in rural areas; and

to preserve and improve the environment, the landscape and our rural heritage.

Across the 3 Objective 1 areas, approximately £133 million is available over the period 2000–06 for supporting projects which have similar aims to the three ERDP project-based schemes mentioned.

Farm Business Advice Service

The Farm Business Advice Service (FBAS) was launched in October 2000 aimed at improving farm business profitability and sustainability. The service has provided farmers in England with up to three days of free one-to-one on-farm advice. Since its launch, the Government have invested around £28 million in FBAS helping over 18,000 farmers.

An enhanced 5-day form of the service was introduced between 2001 and 2003 as part of the recovery package announced for farmers who have had stock compulsorily slaughtered due to foot and mouth disease control measures.

The service was initially launched as a four year service but it was extended for a further year through to March 2005 to help farmers consider the business implications of the impending changes introduced under CAP reform.

New arrangements for the provision of specialist advice to assist farm businesses explore the implications of the introduction of the single payment will be made available in 2005–06 and we will be making an announcement on the detail as soon as possible.

RDS Farm Advice Unit

This new Unit has been set up to oversee delivery of technical and environmental advice to farmers, for example on minimising pollution or conservation to meet the requirements of cross-compliance. There is a Farm Advice Co-ordinator based in each region.

The Planning Consultancy Advice Scheme

The Planning Consultancy Advice Scheme offered to cover the cost of one day's professional planning guidance for farmers considering diversifying their farm business and was implemented in September 2001.

Fresh Start Initiative

An industry-led initiative to encourage new entrants into the farming industry was launched at the Smithfield Show on 2 December 2004, with strong Government support.

Food Miles

Dr. Kumar: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the effects of food miles on *(a)* congestion on the roads and *(b)* the environment, through emissions of greenhouse gases from modes of transport used; and what assessment she has made of the effects on the environment of production local to the place of sale. [215866]

Alun Michael: Further to my response of 19 January 2005, *Official Report*, column 943W, the report commissioned by Defra on the impact of food transportation "The Validity of Food Miles as an Indicator of Sustainable Development" is now likely to be published early in the summer. I will write to my hon. Friend to inform him when the report is published.

Foot and Mouth

Mr. Yeo: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what actions were taken by the UK authorities in regard to the November 2000 foot and mouth disease outbreak in Mpumalanga that were not taken in regard to the September 2000 foot and mouth outbreak in KwaZulu-Natal; [208825]

(2) what actions were taken by the UK authorities in specific regard to the September 2000 foot and mouth disease outbreak in KwaZulu-Natal; [208826]

(3) what actions on the part of the UK authorities were *(a)* required and *(b)* recommended by the European Union with specific regard to the September 2000 foot and mouth disease outbreak in KwaZulu-Natal; and when these were implemented. [208827]

Margaret Beckett: If there is an outbreak of disease likely to present a risk to human or animal health, European Community legislation allows us to take appropriate safeguard action, which may include a ban on imports of meat from all, or parts, of that country. At the time of the outbreak in KwaZulu-Natal, we did not judge it necessary to take safeguard action since the South African authorities had prohibited the issue of export certificates for fresh meat from the area in which the outbreak had occurred. This meant that exports from South Africa could not take place.

On 7–8 November 2000 the European Commission informed the Standing Veterinary Committee (SVC) (now known as the Standing Committee on the Food Chain and Animal Health) of the outcome of an inspection carried out in South Africa by Commission inspectors, and indicated that safeguard measures may be necessary because of some difficulties the South African authorities were experiencing in dealing with the outbreak. On 25 November the Commission published legislation prohibiting imports into the Community of fresh meat from 16 districts in the province of KwaZulu-Natal. The Government were satisfied that the action taken by the Commission and controls in place in South Africa were sufficient to prevent any risk of disease entering the UK.

By 20 December it was clear that the situation in South Africa had deteriorated. The Government reviewed the situation and a decision was taken to take safeguard action. This was delayed due to the Christmas period, and on 5 January the Government issued a Declaration under Regulation 35 of the Products of Animal Origin (Import and Export) Regulations 1996, prohibiting imports into England and Wales of meat from all of South Africa. Similar action was taken in Scotland and Northern Ireland.

The outbreak in Mpumalanga was confirmed on 30 November. The Commission took action in February 2001 to extend EU restrictions on imports of meat in respect of Mpumalanga. By that time, the UK had already banned imports of meat from the whole country, so no further action was necessary.

Mrs. Browning: To ask the Secretary of State for Environment, Food and Rural Affairs when her Department was first informed that Northumberland Trading Standards had *(a)* mounted an investigation into and *(b)* filed charges against the haulier who delivered unprocessed waste food to Burnside Farm, Heddon on the Wall. [214406]

Mr. Bradshaw: The Department is unaware of any investigation or prosecution by Northumberland Trading Standards Department of any haulier (other than Robert Waugh) who may have delivered unprocessed waste food to Burnside Farm.

Freedom of information

Dr. Julian Lewis: To ask the Secretary of State for Environment, Food and Rural Affairs what her policy is in respect of the publication *(a)* on the departmental website and *(b)* by placing copies in the Library of (i) all or (ii) a selection of the information disclosed in response to Freedom of Information requests since January. [215212]

Alun Michael: Defra plans to publish all such information on its website unless it is considered that the information is unlikely to be of interest to a wider public audience. This is in accordance with the Guidance on Publication Schemes, issued by the Department for Constitutional Affairs in July 2002, recommended that where information is disclosed to an individual in response to a request under the Freedom of Information Act, Departments and NDPBs should consider whether the information disclosed is of general interest and include released information in the Publication Scheme where appropriate.

Llew Smith: To ask the Secretary of State for Environment, Food and Rural Affairs what applications were made to her Department during January under the Freedom of Information Act 2000; what the *(a)* total and *(b)* average cost was of discovery and distribution of the information requested; how many requests were answered within the statutory 20-day period; and what reasons were given to those whose requests were rejected. [214224]

Alun Michael: The number of requests under the Freedom of Information Act and the Environmental Information Regulations recorded on our central tracking system during January was 97. This does not include the many routine requests for information to which the Department responds as part of its normal business. During January, 28 of the 97 requests, were answered within the 20 working day deadline. The deadline has not yet been reached in respect of those requests received from mid January onwards.

Two of the 28 answered cases were refused and one partially refused. The grounds for refusal were section 40 (personal information) of the Freedom of Information Act and Regulations 12(3) (personal data) and 12(4)*(d)* (unfinished documents or incomplete data) of the Environmental Information Regulations.

We do not have information on the total and average cost of locating and providing the information requested.

Sustainable Development (India)

Llew Smith: To ask the Secretary of State for Environment, Food and Rural Affairs what recent communications Ministers in her Department have had with counterparts in India on *(a)* sustainable development and *(b)* environmental scientific co-operation. [215864]

Mr. Morley: I visited New Delhi from 3 to 6 February to attend the fifth Delhi Sustainable Development Summit, where I chaired and spoke at a ministerial session on 'Global Sustainability: Challenges for Developed and Developing Countries'. In my remarks, I noted the increasing interdependence of countries on issues of sustainable development and the need for co-operation and partnership. I focussed on the opportunities afforded by the UK Presidencies of the G8 and EU in 2005 to address climate change and development challenges in Africa.

I also met my counterpart, Mr. Raja, the Indian Minister for the Environment and Forests, to discuss India's draft New Environment Policy, co-operation on forests and wildlife protection and progress on the UK—India High-level Sustainable Development Dialogue.

Defra is funding a collaborative project with the Indian Ministry of Environment and Forests on the impacts of climate change. Work started in September 2001 and the final reports will be published during 2005. The research programme included the sharing of knowledge through technology transfer and capacity building, with collaboration between scientist in Indian and UK research institutes. The project outputs were presented to me when I visited India in February 2004 and to my right hon. Friend the Secretary of State during her visit in October 2004.

The Department plans to take forward further work in this area as part of the collaboration envisaged under the UK and Indian Prime Ministers' September 2004 joint declaration committing to further co-operation between the two countries.

Ministerial Visits

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs what ministerial visits are planned for each Minister in her Department in the next six months; and if she will make a statement. [199886]

Margaret Beckett: For reasons of security, it would not be appropriate to disclose the information requested.

Mr. Don Foster: To ask the Secretary of State for Environment, Food and Rural Affairs what ministerial visits are planned for each Minister in her Department in the next six months; and if she will make a statement. [214021]

Margaret Beckett: For reasons of security, it would not be appropriate to disclose the information requested.

Mobile Phones

Mr. George Osborne: To ask the Secretary of State for Environment, Food and Rural Affairs what the cost of staff mobile phone bills was in each year since 1997. [214889]

Alun Michael: The following table shows the expenditure in fiscal years since the Department was formed in 2001.

	Mobile phones (£000)
2001–02	2,629
2002–03	839
2003–04	666

New Rural Agency

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs how many staff in her Department and agencies *(a)* are and *(b)* will be fully or partly employed in preparing for the merger of English Nature with parts of the Countryside Agency and the Rural Development Service; and if she will make a statement. [211147]

Alun Michael: Many members of staff across the Department and its Agencies are contributing, to the successful creation of an integrated agency as part of their normal duties. This will be achieved through the merger of English Nature with parts of the Countryside Agency and the Rural Development Service. The level of involvement varies between individuals according to their specific roles.

The detailed activities involved in establishing an integrated agency are being co-ordinated by a dedicated project team consisting of people from across the three organisations, as well as from within core Defra. The project team consists of 23 people working on the project either full time, or for a significant part of their time. This number is planned to increase to 28 from April 2005.

In addition, a team has been established within Defra to ensure the overall successful implementation of the Modernising Rural Delivery programme, of which establishment of an integrated agency forms a significant part. This team comprises 34 members of staff.

As the establishment of the new agency progresses, there will be increasing involvement from additional members of staff. In due course, all those employed by the three organisations who will join the integrated agency will be involved to some extent.

Postage

Mr. George Osborne: To ask the Secretary of State for Environment, Food and Rural Affairs how much has been spent on postage by the Department and its predecessors in each year since 1997. [215020]

Alun Michael: The information set out in the following table details postage costs for Defra's London and Guildford HQ sites from 2000–01, when Defra came into existence.

£

	2000–01	*2001–02*	*2002–03*	*2003–04*
London				
Post and courier	396,069	447,268	209,240	248,334
Inter departmental service	95,313	93,373	94,640	96,853
Total	491,382	540,641	303,880	345,187
Guildford				
Post and courier	10,000	7,500	8,500	9,000
Grand Total	501,382	548,141	312,380	354,187

REACH Directive

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the impact of the REACH (Chemicals) Directive on UK industry; and if she will make a statement. [215952]

Alun Michael: The Government have worked with all stakeholders to ensure that the REACH proposal is well focused on achieving maximum practical benefit to human health and the environment with a minimum of direct impact on industrial competitiveness. In particular, our proposal for 'one substance, one registration' is intended to lower costs to industry as well as improving the consistency of information available on chemicals across Europe and keeping animal testing to a minimum. We have recently completed a study which indicates that, if 'one substance, one registration' were to be adopted, the cost to industry and the authorities of REACH would be decreased by at least €77 million in comparison to the Commission estimates on the basis of the current proposals.

The UK partial regulatory impact assessment is based on the current proposals and primarily reflects the direct costs to industry of REACH which are estimated at £515 million over the 11-year phase in period. This is equivalent to total direct costs across the EU of approximately £2.4 billion. These are in line with European Commission estimates published in October 2003 of a maximum overall cost of the revised proposal (including indirect costs) of €7.5 billion. We are currently carrying out further impact assessment work to assess the indirect costs passed down the supply chain.

Rural Payments

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs when she expects the Rural Payments Agency to start making payments under the Single Farm Payment. [214712]

Alun Michael: The payment window for the Single Payment Scheme is 1 December 2005 to 30 June 2006. The objective has always been to make as many payments as early as practicable within that window.

The Rural Payments Agency issued a news release on 19 January confirming that the most probable date for payments to start is February 2006.

Rural Policy

Mr. Ian Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs when she expects

to publish the terms of reference of the agency to be created by the merger of English Nature and parts of the Countryside Agency and the Rural Development Service. [215679]

Alun Michael: The Natural Environment and Rural Communities Bill was published in draft on 10 February 2005. Among other things this Bill contains provisions to establish the new Agency and set out its purpose. Copies of the draft Bill have been placed in the Vote Office.

Sewage Discharge (River Thames)

Mr. Edward Davey: To ask the Secretary of State for Environment, Food and Rural Affairs how many tonnes of sewage were discharged into the River Thames in the last five years, broken down by water utility; and if she will make a statement. [211982]

Mr. Morley: It is important to draw a distinction between treated and untreated sewerage discharges. Treated effluent discharges from sewage treatment works and some intermittent discharges from overflows during wet weather are measured in cubic metres. Discharges consented by the Environment Agency are made to the Thames by three water companies: Thames Water (inland and estuary); Anglian Water and Southern Water (estuary only).

Thames Water

Thames Water reports it has discharged an estimated 4,800 million cubic metres of sewage effluent to the Thames in the last five years. Of this, 4,500 million cubic metres receives secondary treatment. Some of this effluent also receives more stringent treatment at Abingdon, Little Marlow and Windsor's sewage treatment works, which discharge to the freshwater section of the Thames. Approximately, 100 million cubic metres will have been treated storm sewage from treatment works, and the remaining 200 million cubic metres as untreated storm sewage (sewage and rainwater run-off). It is estimated that about 30 per cent. of storm sewage is discharged unmeasured.

I provided a breakdown of this information in a written answer to a similar question from the hon. Member for Lewes (Norman Baker), on 15 December 2004, *Official Report*, column 1111W.

Anglian Water

The consented daily dry weather effluent flows, which receive secondary treatment prior to discharge, from three sewage works operated by Anglian Water are 95,514 cubic metres. As it is generally accepted that average daily flows are 1.25 times the dry weather flow, it is estimated that 218 million cubic metres of treated effluent has been discharged from these works (Canvey Island, Southend and Tilbury) in the last five years.

Southern Water

Southern Water discharges effluent after it has received secondary treatment from two sites (Gravesend and Northfleet). In the last five years (2000–04) the sewage treatment works at Gravesend has discharged approximately 19 million cubic metres of treated effluent. Since April 2001, when flow monitors were installed at the Northfleet sewage works approximately 12.5 million cubic metres of treated effluent has been discharge to the end of 2004.

Storm sewage is discharged to the Thames at three sites at times of unusually heavy rainfall when the capacity of sewerage system is exceeded. The consents for these storm overflows do not require Southern Water to monitor the volume of discharges that occur.

Social Enterprises

Mr. Martyn Jones: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make explicit reference in departmental plans and publications to enabling a wider role to be played by social enterprises in delivering her Department's environmental agenda. [212001]

Mr. Morley: Defra's Five Year Strategy, "Delivering the Essentials of Life", set out our commitment to supporting social enterprise in rural areas. Building on that, we will shortly publish a position statement, "Defra and Social Enterprise", which will reflect the contribution of the sector to Defra's wider policy objectives, including sustainable development and environmental protection. The statement will reflect the contribution which social enterprises already make to delivering a range of environmental objectives, including those on waste management, renewable energy, and natural resource protection. It will also set out our plans to contribute to the continued growth of the sector. The position statement is the latest stage in a programme of work to embed support for social enterprise in the development of Defra's policies.

Special Advisers

Mr. Tyrie: To ask the Secretary of State for Environment, Food and Rural Affairs whether the contracts signed by her special advisers differ from the Model Contract for Special Advisers. [207279]

Margaret Beckett: I refer the hon. Member to the answer given by the Prime Minister on 17 January 2005, *Official Report*, column 753W.

Staff Identity Passes

Mr. George Osborne: To ask the Secretary of State for Environment, Food and Rural Affairs what the cost of producing a staff identity pass was in the Department on the latest date for which figures are available; and how many staff identity passes have been reported lost or stolen in each year since 1997. [215086]

Alun Michael: Since the creation of Defra in June 2001 the following figures are available for lost and stolen passes. These passes are programmed electronically and once a loss is reported the pass is cancelled immediately. This greatly reduces the possibility of anyone using it illegally to enter Defra premises. The cost to produce an electronic photographic pass is approximately 10 (staff time and material). The sharp increase in lost passes in the core Department is in part due to the larger numbers of passes issued to contractors' staff refurbishing buildings and losses by those staff.

	Lost	*Stolen*
DEFRA Core Department

Stationery

Mr. George Osborne: To ask the Secretary of State for Environment, Food and Rural Affairs how much the Department and its predecessors spent on *(a)* stationery and *(b)* office supplies in each year since 1997. [213851]

Alun Michael: Defra came into being in June 2001. From information held centrally, the Department's expenditure on stationery and office supplies are as set out in the table: £2,769,505; £1,516,873; £1,201,899 and £362,828 respectively. The Department's financial system does not classify stationery and office supplies as separate budgetary categories.

	£
2001–02	2,769,505
2002–03	1,516,873
2003–04	1,201,899
2004–05	362,828

Strawberries

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the use of methyl bromide in the strawberry growing sector, with particular reference to its ozone-depleting properties. [216351]

Alun Michael: Methyl bromide is an ozone depleting substance (ODS) that is now banned in developed countries under the Montreal Protocol and EC Regulation 2037/2000. The ozone depleting potential (ODP) of methyl bromide is 0.6, which is a representation of its ability to deplete ozone in comparison to a reference ODS, chlorofluorocarbon 11 (CFC 11).

Following the ban on production, methyl bromide is only permitted to be produced for agreed critical uses, quarantine and pre-shipment and emergency purposes. The Government's policy on future use of methyl bromide is that its use should not be phased back in by excessive critical uses.

The Montreal Protocol makes provision for critical use exemptions where there are no technically and economically feasible alternatives to methyl bromide. The UK applied to the Parties to the Montreal Protocol for a critical use exemption for use on strawberries, to allow additional limited time to bring alternatives on line. Following technical scrutiny by the Methyl Bromide Technical Options Committee (MBTOC) of the Montreal Protocol and the European Commission, the Commission have licensed some 30 tonnes of methyl bromide for critical uses for strawberries for 2005.

Sustainable Farming and Food Strategy

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs how much money is available in each region under the Sustainable Farming and Food Strategy. [211078]

Alun Michael: The Government announced a sum of c£500 million to implement the Strategy for Sustainable Farming and Food as part of the 2002 Spending Review, in addition to existing spending by Defra and other Government Departments which is already being used to deliver aspects of the Strategy.

The following table shows the actual spending in 2003–04 and the broad breakdown over the remainder of the Spending Review period. The majority of this funding is being used for overall delivery of national programmes, for which there is no regional breakdown, or programmes that will ultimately be delivered on a regional basis, but until full implementation is underway, regional figures are unavailable:

£ million

	2003–04	2004–05	2005–06	Total
Additional money to be made available via grant schemes	9	11	11	31
Investment into research and new technology	1.8	1.8	1.8	5.4
Development and implementation of new agri-environment and rural development schemes, including IT development costs	27	54	151	232
Development and implementation of new Whole Farm Approach to reduce bureaucracy and burden on farmers	2.7	7	8	17.7
IT systems to support livestock identification and tracing	20	48	68	136
Investment to reduce the likelihood and impact of an animal disease outbreak	25	45	45	115
Total				537.1

Existing support programmes, including the ERDP have been targeted to assist in the delivery of SSFF outcomes. Budgets for the three ERDP project-based schemes are managed on a regional basis, and the following table summarises expenditure on these schemes in 2004–05.

£ million

Region	Processing and marketing grant	Rural enterprise scheme[1]	Vocational training scheme
East Midlands	1.438	3.990	0.398
East of England	1.757	2.699	0.545
North East	0.251	2.159	0.075
North West	1.011	3.686	0.921
South East	0.830	2.670	0.498
South West	1.320	5.512	0.689
West Midlands	0.688	3.852	0.374
Yorks and Humberside	0.816	3.233	0.293
National		[2]0.685	[3]0.416

[1] RES funds are also available to non-farming businesses.
[2] RES National marketing measure.
[3] All national projects (four regions +).

Regional delivery of the strategy, through regional action plans, will be facilitated by many public body and industry representatives and these organisations will work together with both resource and funding support to deliver the vision set out in the strategy. They are making use of Government grants, industry support and the resources of Government Offices and Regional Development Agencies, as well as other Government bodies participating in regional steering groups.

Given the number of public and industry bodies contributing to regional delivery, it is not possible to quantify precisely the level of support available to fund regional delivery. Implementation of SFFS is one of the core tasks of the Government Offices and Regional Development Agencies, and their funding from Defra reflects this. Funding for the Government Offices are provided directly by Defra. The current Defra contribution of £45.5 million to the RDA 'single pot', administered by DTI, is to enable RDAs to address rural productivity issues, which are a key factor in achieving the outcomes of the national Sustainable Farming and Food Strategy. In addition, Defra has made a further £1.5 million available to the RDAs in the current financial year to assist with the implementation of regional delivery plans.

TREASURY

Cancer Statistics

Dr. Kumar: To ask the Chancellor of the Exchequer what percentage of deaths were due to cancer in the *(a)* North East, *(b)* South East, *(c)* North and *(d)* South in the last year for which figures are available. [215891]

Mr. Timms: The information requested falls within the responsibilities of the National Statistician. I have asked him to reply.

Letter from Colin Mowl to Dr. Ashok Kumar, dated 16 February 2005:

The National Statistician has been asked to reply to your recent Parliamentary Question asking what percentage of deaths are due to cancer in the *(a)* North East, *(b)* South East, *(c)* North and *(d)* South. I am replying in his absence. (215891)

Figures are provided in the table below for the North East and South East Government Office Regions for 2003, the latest year for which data are available. As the Office for National Statistics does not have a geographic classification of administrative areas into 'North' and 'South', results are also provided for other Government Office Regions and Wales.

Percentage of deaths due to cancer[1] by Government Office Region[2], 2003[3]

Government Office Region	Percentage of deaths due to cancer
North East	21
North West	25
Yorkshire and The Humber	26
East Midlands	25
West Midlands	25
East of England	26
London	25
South East	25
South West	25
Wales	25

[1] The cause of death was defined using the International Classification of Diseases, Tenth Revision (ICD-10). The codes used are listed below:
"Cancer (malignant neoplasms)—ICD-10 COO-C97"
[2] Usual residents of these areas.
[3] Deaths occurring in 2003.

Child Trust Fund Accounts

Mr. Battle: To ask the Chancellor of the Exchequer when he expects the Inland Revenue to complete the necessary procedures to allow credit unions to accept child trust fund accounts. [216097]

Mr. Timms: Credit unions have an important part to play in tackling financial exclusion within the communities they serve. The Government is keen to accommodate the special nature of credit unions within the Child Trust Fund where possible. They are already able to make available a CTF stakeholder account to their customers where they have the FSA permissions to do so. However there are a number of issues to be resolved before credit unions can offer cash deposit accounts. Discussions have taken place between credit unions, the Treasury, the FSA and the Inland Revenue and work is being taken forward.

The Child Trust Fund is intended to encourage parents and children to develop the savings habit. It will ensure that every child born since 1 September, whatever their family background, will have access to a stock of assets from the age of 18, so they can invest in their future.

It will also help children and their parents to understand the benefits of savings and investment and how to engage with financial institutions.

Credit Unions

Jeff Ennis: To ask the Chancellor of the Exchequer (1) whether existing credit unions will be included for support under the Social Fund loan scheme referred to in the report on Promoting Financial Inclusion; [215676]

(2) how the Social Fund loan scheme monies referred to in the report on Promoting Financial Inclusion will be apportioned; and which institutions will qualify for inclusion. [215677]

Mr. Timms: 'Promoting financial inclusion' announced a series of measures to increase the availability of affordable credit to those on the lowest incomes. These measures include the next steps in the reform of the Social Fund. The Government will abolish the 'double debt' rule for Budgeting Loans eligibility and will lower the highest loan repayment rates. These

reforms will be implemented in April 2006 and amount to an increase in funding for the Social Fund loans scheme of £210 million over the three years to 2008–09.

'Promoting financial inclusion' also announced that the Government are considering arrangements whereby, in certain circumstances, private and third sector lenders—including existing credit unions—could apply for repayment to be made by deduction from benefit where normal repayment arrangements have broken down. The aim of this scheme would be to reduce some of the increased costs and risks of lending to vulnerable groups. The Government have been seeking responses from private and third sector lenders, on this scheme. However no final decisions have been made as to whether and how the scheme will operate.

Subject to any necessary state aids clearance from the European Commission, the Government will also set up a growth fund for third sector lenders from within the Financial Inclusion Fund. This growth fund will be available to credit unions and community development finance institutions to boost the coverage, capacity and sustainability of the sector in providing a source of affordable credit for the financially excluded.

Defence Contractors

Mr. Gerald Howarth: To ask the Chancellor of the Exchequer pursuant to his answer to the hon. Member for Aldershot of 13 January 2005, *Official Report*, column 595W, on defence contractors, which *(a)* military units and *(b)* defence contractors he personally visited in 2004. [211453]

Mr. Gordon Brown *[holding answer 27 January 2005]:* I regularly hold defence-related meetings including meeting regularly with defence employers and with senior military personnel such as the Chiefs of Staff and their colleagues.

Departmental Policies

Mr. Hoyle: To ask the Chancellor of the Exchequer if he will set out *(a)* with statistical information relating as closely as possible to Chorley constituency and *(b)* the effect of his actions and policies on Chorley since 1997. [216307]

Mr. Timms: The Government have put in place a broad programme of both macroeconomic and microeconomic reform since our election in 1997 designed to better the economic performance of all parts of the UK. Since these policies were implemented, the economic performance of the Chorley constituency has improved considerably. For example, since May 1997, claimant unemployment has fallen by 56 per cent. while long-term unemployment and long-term youth unemployment have both fallen by 89 per cent.

The Neighbourhood Statistics Service provides a wide range of statistical information at parliamentary constituency level, taken from the 2001 census and other sources. This service is available on the National Statistics website at http://neighbourhood.statistics.gov.uk./.

Mr. Sedgemore: To ask the Chancellor of the Exchequer if he will set out, with statistical information relating as directly as possible to Haltemprice and Howden constituency, the effects on Haltemprice and Howden of his Department's policies and actions since 2 May 1997. [216013]

Mr. Timms: The Government have put in place a broad programme of both macroeconomic and microeconomic reform since our election in 1997 designed to better the economic performance of all parts of the UK. Since these policies were implemented, the economic performance of the Haltemprice and Howden constituency has improved considerably. For example, since May 1997, claimant unemployment has fallen by 51 per cent., long-term unemployment has fallen by 70 per cent. and long-term youth unemployment has fallen by 83 per cent.

The Neighbourhood Statistics Service provides a wide range of statistical information at parliamentary constituency level, taken from the 2001 Census and other sources. This service is available on the National Statistics website at http://neighbourhood.statistics.gov.uk./.

Mr. Sedgemore: To ask the Chancellor of the Exchequer if he will set out, with statistical information relating as directly as possible to Maidenhead constituency, the effects on Maidenhead of his Department's policies and actions since 2 May 1997. [216030]

Mr. Timms: The Government have put in place a broad programme of both macroeconomic and microeconomic reform since our election in 1997 designed to better the economic performance of all parts of the UK. Since these policies were implemented, the economic performance of the Maidenhead constituency has improved considerably. For example, since May 1997, claimant unemployment has fallen by 30.5 per cent., long-term unemployment has fallen by 58 per cent. and youth unemployment has remained unchanged albeit at only 30 individuals.

The Neighbourhood Statistics Service provides a wide range of statistical information at parliamentary constituency level, taken from the 2001 Census and other sources. This service is available on the National Statistics website at http://neighbourhood.statistics.gov.uk./.

Ms Dari Taylor: To ask the Chancellor of the Exchequer how many people in each ward of Stockton, South are *(a)* employed and *(b)* unemployed; and what the figures were in 1997. [215308]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Colin Mowl to Ms Dari Taylor, dated 16 February 2005:

The National Statistician has been asked to reply to your recent Parliamentary Question about employment and unemployment in each ward of Stockton South Parliamentary Constituency. I am replying in his absence. (215308)

Regular statistics of employment and unemployment are compiled from the Labour Force Survey (LFS) on the basis of standard international definitions. For individual wards the LFS sample sizes are too small to provide estimates, but information is available from the 1991 and 2001 Population Censuses. Table 1 overleaf shows the information requested from these sources.

The Office for National Statistics also compiles statistics by ward of residence for people claiming Jobseeker's Allowance (JSA). Table 2 overleaf gives the annual average number of JSA claimants resident in each of the wards of Stockton South Parliamentary Constituency for the years 1997 and 2004.

Table 1: Employment and unemployment among people aged 16–74 resident in wards of the Stockton South parliamentary constituency 1991 and 2001

	1991			2001		
	All people	*In employment*	*Unemployed*	*All people*	*In employment*	*Unemployed*

Employment/Education

Mr. Cummings: To ask the Chancellor of the Exchequer how many people were in full-time and part-time work in Easington constituency in each year since 2001. [216090]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Colin Mowl to Mr. John Cummings, dated 16 February 2005:

The National Statistician has been asked to reply to your Parliamentary Question about employment. I am replying in his absence. (216090)

The attached table gives estimates of those people resident in the Easington Parliamentary Constituency who were in full-time or part-time employment for the twelve month periods ending in February from 2001 to 2004.

These estimates from the Labour Force Survey, as with any sample survey, are subject to sampling variability.

Employed people resident in Easington parliamentary constituency

12 months ending February	*Total*	*Full-time*	*Part-time*[1]
2001	33,000	25,000	8,000
2002	32,000	25,000	7,000
2003	33,000	26,000	7,000
2004	29,000	23,000	6,000

[1] These estimates are based on very small sample sizes and are subject to a very high degree of sampling variability. Changes from year to year, especially, should be treated with caution.
Source:
ONS Labour Force Survey

Mr. Hurst: To ask the Chancellor of the Exchequer what percentage of the population between the ages of 18 and 25 years were in either employment or education in *(a)* the County of Essex in each year from 1991 to 1997 and *(b)* the County of Essex and the boroughs of Thurrock and Southend-on-Sea in each year from 1998 to 2004. [215115]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Colin Mowl to Mr. Alan Hurst, dated 16 February 2005:

The National Statistician has been asked to reply to your recent Parliamentary Question asking what percentage of the population between the ages of 18 and 25 years were in either employment or education in *(a)* the County of Essex in each year from 1991 to 1997 and *(b)* the County of Essex and the Boroughs of Thurrock and Southend-on-Sea, in each year from 1998 to 2004. I am replying in his absence. (215115)

The attached table gives estimates of those people aged 18 to 24 years old, resident in the county of Essex and the Boroughs of Thurrock and Southend-on-Sea, either in employment or education, for the 12 month periods ending February each year for the years 1995 to 2004. Information is not available for earlier periods.

These estimates are from the Labour Force Survey (LFS). As with any statistical sample survey, estimates from the LFS are subject to sampling variability.

18–24 year olds either in employment or in full-time education[1]

Percentage

	Place of residence		
12 months ending February each year	*County of Essex*	*Thurrock UA*[2]	*Southend-on-Sea UA*[2]
1995	80.7	—	—
1996	80.4	—	—
1997	83.2	—	—
1998	84.9	75.9	72.2
1999	85.5	79.2	67.7
2000	88.3	85.3	87.3
2001	86.8	84.0	79.4
2002	85.5	85.6	76.1
2003	79.8	86.3	81.7
2004	85.2	76.8	84.6

[1] Expressed as a percentage of all 18 to 24-year-olds resident in relevant area. Includes some people who are in full-time education who are also in employment.
[2] Data for Unitary Authorities not available prior to 1998.
Note:
Some of these estimates are based on small sample sizes and are subject to a higher degree of sampling variability. Changes from year to year, in particular, should be treated with caution.

ONS—Labour Force Survey

Equitable Life

Mr. John Taylor: To ask the Chancellor of the Exchequer what recent discussions *(a)* he and *(b)* his officials have had with the Parliamentary Commission for Administration concerning his inquiry into Equitable Life; and what indications he has given as to when he expects to publish his findings and recommendations. [215783]

Mr. Timms *[holding answer 10 February 2005]:* In her letter to all hon. and right hon. Members of 24 November 2004 the Parliamentary Commissioner for Administration said that she hoped to complete her investigation during 2005. The Treasury received the statement of complaint from the ombudsman on 9 December. Treasury officials have maintained regular contact with the ombudsman's staff and are co-operating fully with the investigation.

EU Committees

Angus Robertson: To ask the Chancellor of the Exchequer (1) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Confidentiality of Statistics Committee met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement; [215900]

(2) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Committee on the harmonisation of the compilation of gross national product at market prices met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [215901]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Colin Mowl to Mr. Angus Robertson, dated 16 February 2005:

The National Statistician has been asked to reply to your recent Parliamentary Questions relating to past meetings of the EU Committee on Confidentiality of Statistics (CSC) and the Committee on the Harmonisation of the Compilation of Gross National Product at Market Prices (GNPMP). I am replying in his absence. (215900 & 215901)

During the Italian Presidency the CSC met on 3 December 2003. During the Irish Presidency the CSC did not meet. During the Dutch Presidency the CSC met on 10 December 2004. On both occasions the CSC met in Luxembourg. The UK was represented at both meetings by appropriate Office for National Statistics (ONS) officials. The CSC discusses issues of statistical confidentiality and access to data for the production of statistics for publication and research.

During the Italian Presidency the GNPMP met on 3/4 July 2003 and 5/6 November 2003. During the Irish Presidency the GNPMP met on 25/26 March 2004. During the Dutch Presidency the GNPMP met on 6 July 2004 and 4 November 2004. On all occasions the GNPMP met in Luxembourg. The UK was represented by appropriate ONS officials. The Gross National Income Committee, that replaced the GNPMP Committee, oversees the process for verifying statistics provided for the purpose of determining member states contributions to the EU budget.

European Union

Mr. Hayes: To ask the Chancellor of the Exchequer pursuant to his answer of 31 January 2005, *Official Report*, column 597W, if he will make a statement on appropriate vires concerning Government spending on information on the EU. [215314]

Mr. Timms: Full guidance on the powers to incur expenditure is given in chapter 2.2 of Government Accounting (www.government-accounting.gov.uk).

Financial Inclusion

Jeff Ennis: To ask the Chancellor of the Exchequer when the *(a)* Financial Inclusion Taskforce and *(b)* Financial Inclusion Fund will be set up. [215675]

Mr. Timms: The 2004 pre-budget report announced the establishment of a Financial Inclusion Taskforce, chaired by Brian Pomeroy. The membership of the Taskforce was announced on 28 January and the Taskforce will be formally launched on 21 February. The Pre-Budget Report also announced a Financial Inclusion Fund of £120 million over three years, to support initiatives to tackle financial exclusion. Further details on the Fund will be announced shortly.

Jeff Ennis: To ask the Chancellor of the Exchequer what assessment he has made of the likely impact of the report on Promoting Financial Inclusion on existing credit unions. [215678]

Mr. Timms: The Government announced a number of measures for credit unions in the Promoting Financial Inclusion document which was published alongside the pre budget report 2004. These are designed to boost the coverage, capacity and sustainability of the credit union sector in providing a source of affordable credit to the financially excluded.

Local Government

Dr. Cable: To ask the Chancellor of the Exchequer which Departments agreed to the reallocation of funds for the purpose of allocating additional funds to local authorities; how much was reallocated in each case; and if he will make a statement. [203988]

Mr. Timms *[holding answer 13 December 2004]:* As the Chancellor of the Exchequer set out in his evidence to the Treasury Select Committee on 16 December, full departmental spending allocations will be available through the publication of the Main Supply Estimates, which will take place in due course.

New Jobs (Scotland)

Mr. Moore: To ask the Chancellor of the Exchequer how many new jobs have been created in *(a)* Tweeddale, Ettrick and Lauderdale, *(b)* the Scottish Borders and *(c)* Scotland in each year since 2002. [216127]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Colin Mowl to Mr. Michael Moore, dated 16 February 2005:

The National Statistician has been asked to reply to your parliamentary Question about the number of new jobs created in Scotland and selected regions. I am replying in his absence. (216127)

While statistics of new jobs created are not available explicitly, statistics from surveys enable comparisons to be made of net changes in numbers of jobs from year to year.

The attached table shows the available information for the number of jobs and change in jobs in the parliamentary constituency of Tweeddale, Ettrick and Lauderdale, the Scottish Borders and in Scotland, from 2001 to 2003.

Number of jobs[1] and change in jobs in the parliamentary constituency of Tweeddale, Ettrick and Lauderdale, the Scottish Borders and Scotland: 2001 to 2003

Number of jobs	*2001*	*2002*	*2003*
Tweeddale, Ettrick and Lauderdale[2,3]	19,000	21,500	
Scottish Borders[2]	38,800	39,900	41,000
Scotland	2,299,800	2,279,500	2,298,900
Change in number of jobs from previous year			
Tweeddale, Ettrick and Lauderdale[2,3]		2,400	
Scottish Borders[2]		1,100	1,100
Scotland		20,300	19,400

[1] Excludes self-employed jobs.
[2] These figures are aggregates from which agriculture class 0100 (1992 SIC) have been excluded
[3] 2003 Annual Business Inquiry estimates are currently not available by parliamentary constituency

2001–2003, Annual Business Inquiry.

Pensioners

Mrs. Spelman: To ask the Chancellor of the Exchequer how many households with *(a)* only one adult aged over 65 years and *(b)* two or more adults aged over 65 years there were in (i) England and (ii) each parliamentary constituency in the latest year for which figures are available. [216228]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Colin Mowl to Mrs. Caroline Spelman, dated 16 February 2005:

The National Statistician and Registrar General for England and Wales has been asked to reply to your recent question asking how many households with *(a)* only one adult, who is aged over 65 years and *(b)* two or more adults aged over 65 years there were in (i) England and (ii) each parliamentary constituency in the latest year for which figures are available. I am replying in his absence. (216228)

Specially commissioned table C0453 has been run for each Parliamentary Constituency of England and Wales to identify the number of *(a)* single occupancy households which contain one resident who was aged 65 and over, and b) households containing two or more people where all residents were aged 65 and over on Census day (29 April 2001). This has been placed in the House of Commons Library and is also available from Census Customer Services. Table C0453 shows that there were 2,683,603 households in England which contained one resident who was aged 65 and over. The same table shows that there were 1,566,863 households in England which contained two or more residents who were aged 65 and over.

Pensions Selling

Chris Ruane: To ask the Chancellor of the Exchequer how many pensions were sold in each of the past 10 years on the basis of *(a)* tied advice, *(b)* independent advice and *(c)* execution only; and if he will make a statement. [215709]

Mr. Timms: The information requested is not available in the format required. However, the "First Report of the Pensions Commission" provides Individual Pension Sales by Channel for 2003 sourced from "ABI new business statistics, 2003". The following figures include all Stakeholder, Group Personal Pension (GPP) and Free Standing Additional Voluntary Contribution (FSAVC) pensions.

Distribution channel	*Percentage of total sales*
Independent financial advisers	79
Direct salesforce and tied agents	18
Direct marketing with no salesforce interview	2
Other	1/<1
Total	100

More detailed statistics relating to premiums collected per annum by distribution channel dating from 1994 are available from the website of the Association of British Insurers.

Postage

Mr. George Osborne: To ask the Chancellor of the Exchequer how much has been spent on postage by the Department in each year since 1997. [215029]

Mr. Timms: The Treasury's postage costs were £62,000 in 2002–03 and £67,000 in 2003–04, being the costs incurred on the Department's franking machines. Letters are posted second class unless specified otherwise. Information in respect of the earlier years is not readily available.

Staff Vacancies

Mr. Bellingham: To ask the Chancellor of the Exchequer how much his Department spent on advertising staff vacancies in *(a)* 2002 and *(b)* 2003. [209572]

Mr. Timms: I would refer the hon. Member to the answer given by the then Financial Secretary (Ruth Kelly) to the hon. Member for Bromsgrove (Miss Kirkbride) on 14 January 2004, *Official Report*, column 810W, which stated that recruitment advertising costs were £126,000 in financial year 2002–03 and £173,000 in the first three quarters of financial year 2003–04. The estimated full year cost of advertising staff vacancies in 2003–04 was £210,000.

Targets

Mr. George Osborne: To ask the Chancellor of the Exchequer how many targets have been set in each year since 1997 by the Department; and, of these, which have been *(a)* met, *(b)* nearly met, *(c)* not met, *(d)* changed and *(e)* dropped. [215800]

Mr. Timms: Public Service Agreement (PSA) targets have been set every two years as part of the Spending Review. Since 1997 there have been four reviews: the 1998 Comprehensive Spending Review, and the 2000, 2002 and 2004 Spending Reviews. A number of targets have been reinforced or refined by subsequent Spending Reviews, and an increasing number of PSA targets have been rolled forward between Spending Reviews. The number of PSA targets set during each Spending Review has fallen from over 250 in 1998 to 110 in 2004.

Performance against all PSA targets is reported in departmental reports. Since 2002, performance has also been reported in departments' autumn performance reports. A performance reporting website was introduced in 2003 (www.hm-treasury.gov.uk/performance).

Tax Credits

Mr. Webb: To ask the Chancellor of the Exchequer how many complaints have been received by the MP tax credits complaints team *(a)* by post and *(b)* by telephone in each month since the service was set up. [215536]

Dawn Primarolo *[holding answer 9 February 2005]:* The information is as follows:

(a) Information on the number of letters received from hon. Members in 2003–04 is not available.

The Inland Revenue Tax Credit Office has a team that deals with all letters from hon. Members. The team received 4,285 such letters directly from hon. Members in the period 1 April 2004–31 December 2004 broken down as follows.

Month	*Number of letters from hon. Members to TCO*
April 2004	223
May 2004	218
June 2004	338
July 2004	377
August 2004	350
September 2004	508
October 2004	603
November 2004	880
December 2004	788

In addition to the letters received by Tax credit Office, Treasury Ministers and Inland Revenue Board members received around 1,650 letters from hon. Members in the same period.

(b) The MPs' Hotline in the Inland Revenue Tax Credit Office deals with calls from hon. Members about their constituents' tax credits claims. The number of calls received by the MP Hotline in 2003–04 and 2004–05 is as follows:

Month	*Number of calls to Tax Credit Office MP Hotline*
April 2003	1,882
May 2003	4,371
June 2003	4,186
July 2003	1,472
August 2003	858
September 2003	815
October 2003	1,032
November 2003	835
December 2003	916
January 2004	1,032
February 2004	1,052
March 2004	839
April 2004	930
May 2004	774
June 2004	1,000
July 2004	1,114
August 2004	991
September 2004	1,326
October 2004	1,328
November 2004	1,714
December 2004	1,675

Teenage Pregnancy (Leicester)

Mr. Gill: To ask the Chancellor of the Exchequer what the teenage pregnancy rate in Leicester, South was in each year since 1997; and if he will make a statement. [216386]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Colin Mowl to Mr. Parmjit Singh Gill, dated 16 February 2005:

The National Statistician has been asked to reply to your recent question asking what the teenage pregnancy rate in Leicester South was in each year since 1997. I am replying in his absence. (216386)

Teenage conception figures by Parliamentary Constituencies are not available.

The most recent year for which figures are available for local and health authorities is 2002. Figures for this year are provisional.

Number and rate of teenage conceptions to women aged under 18 in Leicester UA for 1997 to 2002 are given in the table below.

	Number	*Rate*[1]
1997	304	54.3
1998	365	64.6
1999	326	59.1
2000	329	58.3
2001	273	47.1
2002[2]	308	51.9

[1] Per 1,000 female population aged 15–17.

[2] Provisional

Unemployment

Dr. Kumar: To ask the Chancellor of the Exchequer what percentage of those unemployed are *(a)* under 18, *(b)* under 21 and *(c)* under 30 years. [215949]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Colin Mowl to Dr. Ashok Kumar, dated 16 February 2005:

The National Statistician has been asked to reply to your recent Parliamentary Question about unemployment. I am replying in his absence. (215949)

The table overleaf gives estimates of the proportion of all unemployed people resident in the United Kingdom who were aged under 18, under 21 and under 30. Estimates are for the 12 months ending February 2004.

These estimates from the Labour Force Survey (LFS) are., as with any statistical sample survey, subject to sampling variability.

Proportions of total unemployed resident in the United Kingdom of these ages:	*Twelve months ending February 2004 (percentage)*
Under 18	11.0
Under 21	24.7
Under 30	49.2

Source:

ONS—Labour Force Survey

Dr. Kumar: To ask the Chancellor of the Exchequer what the average level of unemployment in Middlesbrough, South and East Cleveland was in *(a)* 1997, *(b)* 2001 and *(c)* 2005. [215948]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Colin Mowl to Dr. Ashok Kumar, dated 16 February 2005:

The National Statistician has been asked to reply to your Parliamentary Question about unemployment. I am replying in his absence. (215948)

Table 1 gives estimates of the numbers of unemployed people who were resident in Middlesbrough, South and East Cleveland Parliamentary Constituency, for the 12 month periods ending February 1997, 2001 and 2004, the latest period for which figures are available.

These estimates from the Labour Force Survey are, as with any sample survey, subject to sampling variability.

ONS also compiles statistics of those claiming Jobseeker's Allowance for local areas. Table 2 gives the annual average number of Jobseeker's Allowance claimants resident in the Middlesbrough, South and East Cleveland constituency for the year 1997, 2001 and 2004.

Table 1: Unemployed people resident in the Middlesbrough, South and East Cleveland parliamentary constituency

Twelve month period ending February:	
1997	3,000
2001	3,000
2004	3,000

Note:

These estimates are based on very small sample sizes and are subject to a very high degree of sampling variability. Changes from year-to-year, especially, should be treated with caution.

Jobcentre Plus Administrative system

Unemployment (Scotland)

Mr. Moore: To ask the Chancellor of the Exchequer what the level of unemployment was in each year since 2002 in *(a)* Tweeddale, Ettrick and Lauderdale, *(b)* the Scottish Borders and *(c)* Scotland, broken down by (i) age and (ii) gender. [216129]

Mr. Timms: The information requested falls within the responsibilities of the National Statistician. I have asked him to reply.

Letter from Colin Mowl to Mr. Michael Moore, dated 16 February 2005:

The National Statistician has been asked to reply to your parliamentary Question

about unemployment. I am replying in his absence. (216129)

Table 1 gives estimates of the numbers of unemployed people, who were resident in Tweeddale, Ettrick and Lauderdale Parliamentary Constituency, the Scottish Borders and Scotland for the twelve month periods ending February for the years 2002 to 2004.

These estimates from Labour Force Survey are, as with any sample survey, subject to sampling variability.

ONS also compiles statistics of those claiming Jobseeker's Allowance for local areas. Table 2 gives the annual average number of people resident by age and gender in the Tweeddale, Ettrick and Lauderdale parliamentary constituency, the Scottish Borders and Scotland claiming Jobseeker's Allowance benefits for the years 2002 to 2004.

Table 1: Unemployed people resident in Tweeddale, the Scottish Borders and Scotland by gender and age

Twelve month period ending February	Total: Tweeddale Ettrick and Lauderdale[1]	Total: Scottish Borders[1]	Total: Scotland	Male: Tweeddale Ettrick and Lauderdale[1]	Male: Scottish Borders[1]	Male: Scotland	Female: Tweeddale Ettrick and Lauderdale[1]	Female: Scottish Borders[1]	Female: Scotland

Vitamins and Supplements

Mr. Hoyle: To ask the Chancellor of the Exchequer how many people have died from the effects of vitamins and supplements in *(a)* Lancashire, *(b)* Chorley and *(c)* the north west in the last three years. [216241]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Colin Mowl to Mr. Lindsay Hoyle, dated 16 February 2005:

The National Statistician has been asked to reply to your recent question asking how many people have died from the effects of vitamins and supplements in *(a)* Lancashire, *(b)* Chorley and *(c)* the North West in the last three years. I am replying in his absence. (216241)

Available figures relate to poisoning by vitamins and vitamin supplements. They do not include adverse effects of vitamins and vitamin supplements in therapeutic use. The most recent available figures are for the calendar year 2003. There were 2 deaths recorded nationally from poisoning by vitamins and vitamin supplements[1] between the calendar years 2001 and 2003. Because of the risk of disclosure these data can not be disaggregated by area.

[1] Selected using the International Classification of Diseases Tenth Revision (ICD-10) codes:

T45.2—Poisoning by vitamins, not elsewhere classified,

T45.7—Poisoning by anticoagulant antagonists, vitamin K and other coagulant,

T46.7—Peripheral vasodilators, and

T47.1—Poisoning from other antacids and anti-gastric-secretion drugs.

HOME DEPARTMENT

Asylum/Immigration

Mr. Amess: To ask the Secretary of State for the Home Department what steps he has taken to increase the removal of failed asylum seekers in the last 12 months. [214831]

Mr. Browne: The Immigration Service has introduced a number of initiatives in the last 12 months to increase the number of failed asylum seekers removed from the United Kingdom. These include; creating a clear and distinct national framework of offices dedicated to delivery the enforcement and removals agenda; increasing the number of removals under the assisted voluntary returns scheme; increasing the number of returns to safe third countries through the increased use of ring fence detention; increasing the number of removals in London by using flexible and mobile teams able to better support other agencies; re-evaluating the way in which we deal with family removals; maximising removals for our network of reporting centres and working to reduce disruptive behaviour designed to frustrate removal at the point of departure.

Mr. Osten: To ask the Secretary of State for the Home Department what his Department's targets are for *(a)* the proportion of asylum cases to be decided within (i) two and (ii) six months, *(b)* the proportion of asylum decisions to be audited as fully effective or better and *(c)* the proportion of failed asylum seekers who are removed from the country. [214983]

Mr. Browne: The information requested is as follows.

(a) The Home Office's Public Service Agreement (PSA) target for 2003–04 was to ensure that 75 per cent. of new substantive asylum applications (excluding withdrawals and third country cases[1]) were decided within two months. That target remains for 2004–05. This was an increase from the 65 per cent. and 60 per cent. targets met in 2002–03 and 2001–02 respectively.

The 2003–04 target was exceeded, with 82 per cent. of new substantive applications having an initial decision reached and served within two months. The speed of initial decisions continues to improve with 84 per cent. of substantive applications received in Q2 (April to June) 2004 having an initial decision reached and served within two months, and reflects the Governments commitment to, and continued success in, speeding up the initial decision-making process.

(ii) The PSA target for 2003–04 was to ensure that 60 per cent. of new substantive asylum applications are decided (including final appeal) within 6 months. The target increased to 65 per cent. for 2004–05. The target was exceeded with 64 per cent. of applications received

in 2003–04 (April 2003 to March 2004) having a final decision, up to and including appeals at the IAT, within six months.

(b) The PSA target for the quality of initial asylum decisions is to ensure that: 80 per cent. of asylum decisions sampled at random in 2003–04 are found to be fully effective or better, and that 80 per cent. of asylum decisions assessed by external assessors sampled at random in 2003–04 are found to be fully effective or better. Both criteria increase to 85 per cent. for the year 2005–06.

The 2003–04 target was exceeded with 85 per cent. of criteria assessed on asylum decisions sampled at random by internal assessors during 2003–04 (April 2003 to March 2004) found to be fully effective or better. 81 per cent. of criteria assessed on asylum decisions sampled at random by external assessors during 2003–04 (April 2003 to March 2004) were found to be fully effective or better.

(c) The current PSA target for the removal of failed asylum seekers is to enforce the immigration laws more effectively by removing a greater proportion of failed asylum-seekers.

The ratio of numbers of asylum seekers removed (including dependants) in 2003–04 to those becoming failed asylum seekers (either did not appeal or appeal rights exhausted) in 2003–04 was 21 per cent. (compared with an estimated 21 per cent. for 2002–03).

The five-year strategy for asylum and immigration, published on 7 February, commits the department to ensure that the monthly rate of removals exceeds the number of unfounded applications by the end of 2005.

Information on the number of asylum applications outstanding, and the timeliness of initial decisions are published quarterly on the Home Office website at http://www.homeoffice.gov.uk/rds/immigration1.html.

[1] Cases which may be the responsibility of other EU member states under the Dublin Convention.

Mr. Oaten: To ask the Secretary of State for the Home Department whether special measures have been put in place to assist asylum seekers and refugees *(a)* to find family members directly affected by the tsunami and *(b)* to go home to help with reconstruction. [214985]

Mr. Browne: There are no separate arrangements in place to assist asylum seekers and refugees to find family members directly affected by the tsunami. However, the British Red Cross does provide assistance in searching for missing family members.

Those asylum seekers wishing to return to countries in the region are able to apply for assistance through the International Organization for Migration's voluntary assisted returns and reintegration programme. Requests by recognised refugees to return temporarily, for example to undertake reconstruction, are being considered on a compassionate and case by case basis.

Dr. Kumar: To ask the Secretary of State for the Home Department if he will establish a body independent of his Department to compile immigration statistics. [215894]

Mr. Browne: The Home Office is satisfied that there is already sufficient independence in the immigration statistics, for which it is responsible. Immigration control and asylum statistics are part of National Statistics. They are produced by statisticians, whose independence is established under the National Statistics Code of Practice, and the statistics themselves are acknowledged as reliable. The National Audit Office's review in May last year found that "the asylum data and statistics are in most respects reliable".

The Office for National Statistics (ONS) is responsible for producing National Statistics on migrants entering or leaving the United Kingdom, and England and Wales. The ONS' estimates of migrants are compiled from a number of data sources, including the International Passenger Survey and date from the Home Office.

National Statistics are produced to high professional standards set out in the National Statistics Code of Practice. As such, they undergo quality assurance reviews and are produced free from any political interference.

The Government's White Paper, 'Building trust in statistics', sets out the framework for assuring the quality of National Statistics. A key component of the framework is to conduct a programme of thorough reviews of key outputs, at least every five years. The National Statistics Quality Review of the International Migration was published on 2 September 2003 and covered all forms of migration between the UK and the rest of the world, including statistics relating to all migrants and statistics relating to migrants subject to UK immigration control. The Home Office is about to embark on a National Statistics review of its publications relating to the control of immigration statistics, including the presentation of asylum statistics within these.

Mr. Lidington: To ask the Secretary of State for the Home Department whether his Department has received from the High Commission in Islamabad case papers on the case of Mr. I. H., husband of Mrs. S. B. of Aylesbury, reference ISB/747450. [215728]

Mr. Browne: The case papers of Mr I. H. were received by the Immigration and Nationality Directorate on 15 November 2004 and were forwarded to the Immigration Appellate Authority on 9 February 2005.

British Passports

Mr. George Osborne: To ask the Secretary of State for the Home Department how many British passports have been reported lost or stolen *(a)* in the UK and *(b)* abroad in each year since 1997. [204447]

Mr. Browne: The UK Passport Service did not routinely collect information on the number of lost and stolen passports prior to 1999. Up until the introduction in December 2003 of a new comprehensive system for the reporting and recording of lost and stolen passports, only the total number of these passports was recorded.

The information shown in the table for 1999 to 2003 cannot therefore be broken down between the UK and abroad. Also it is mainly based on information

contained in applications for replacement passports. It may not therefore show the true number of passports lost and stolen in these years.

In 2004 of the total number of 306,406 lost and stolen passports reported under the UK Passport Service's improved reporting and recording arrangements, 49,802 were reported lost/stolen abroad, and 256,604 were reported lost/stolen in the UK.

	Number of lost and stolen passports	*As a percentage of total passports issued*
1997	Not available	—
1998	Not available	—
1999	62,364	1.11
2000	114,624	2.08
2001	148,230	2.61
2002	166,358	3.08
2003	184,301	3.33
2004	306,406	5.04

Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department when he will reply to the letter dated 30 December 2004 from the right hon. Member for Manchester, Gorton, with regard to Mr. Dwight Swanson. [215101]

Mr. Charles Clarke: I wrote to my right hon. Friend on 10 February.

Departmental Costs

Mr. George Osborne: To ask the Secretary of State for the Home Department what the costs of cleaning the Department were in each year since 1997. [213777]

Fiona Mactaggart: The cost of cleaning the Department is not centrally recorded. Cleaning usually forms part of a wider facilities management contract and separating out the cleaning element of these contracts for the Home Office estate could be done only at disproportionate cost. However, the cost of cleaning the Central London estate in 2003–04 was £1,097,606.

Mr. George Osborne: To ask the Secretary of State for the Home Department how much has been spent on *(a)* provision of parking spaces for civil servants and *(b)* parking tickets and penalties incurred by civil servants in the Department in each year since 1997. [213804]

Fiona Mactaggart: Information on the cost of parking spaces at Home Office buildings is not recorded centrally and could be estimated only at disproportionate cost. The Home Office does not reimburse staff for any parking tickets or penalties they may incur while on official business. Staff are personally responsible for meeting the costs of any such fines.

Deportation Orders

Jeremy Corbyn: To ask the Secretary of State for the Home Department how many deportation orders against British prison inmates who were also Irish nationals there have been since 2000. [214695]

Mr. Browne: The numbers of deportation orders enforced against British prison inmates who are also Irish nationals are as follows:

	Number
2002	2
2001	5
2002	3
2003	19
2004	10

These figures are provisional, based on management information and are not National Statistics.

European Public Bodies

Mr. Hayes: To ask the Secretary of State for the Home Department if he will make a statement on the *(a)* budget, *(b)* role and *(c)* staffing levels of the European Agency for the Management of Operational Co-operation at the External Borders of the Member States of the European Union; when this body was agreed in Council; whether this body was notified to Parliament; under what legal treaty base it will operate; where it will be based; and whether its staff will enjoy diplomatic immunity. [215207]

Mr. Browne: The provisional budget for the European Agency for the Management of Operational Co-operation at the External Borders of the member states of the European Union was set out in the legislative financial statement annexed to the first version of the Agency Regulation (14766/03). The initial estimate for the years 2005–09 is as follows: 2005—€6,157 million; 2006—€9.754 million; 2007—€15,754 million; 2008—€15.754 million; and 2009—€8.754 million. But the final figures are still being discussed as part of the negotiations on the new financial perspective which begins in 2007. As the UK has been excluded from participation in adoption of the Agency Regulation, we will not be making a financial contribution to the Agency through the EU budget—we receive an automatic rebate on measures in which we do not participate. UK contributions will only be made when we request to participate in specific activities undertaken by the Agency.

The role of the Agency will be to provide effective co-ordination of member states joint actions at the EU external borders. Article 2 of the final version of the Agency Regulation (2007/2004) outlines the Agency's main tasks:

"1. The Agency shall perform the following tasks:

(a) co-ordinate operational co-operation between member states in the field of management of external borders;

(b) assist member states on training of national border guards, including the establishment of common training standards;

(c) carry out risk analyses;

(d) follow up on the development of research relevant for the control and surveillance of external borders;

(e) assist member states in circumstances requiring increased technical and operational assistance at external borders;

(f) provide member states with the necessary support in organising joint return operations."

The UK fully supports the aims and objectives of the Agency.

The staffing levels of the Agency will be set once the Executive Director, Deputy Executive Director and the Management Board are in place—it will be their responsibility to decide what the staffing levels should be (within the limits of the provisional budget).

The Agency Regulation was adopted by the Council on 26 October 2004, was published in the *Official Journal of the European Union* on 25 November 2004 and came into force on 26 November 2004. The Agency itself should be operational by May 2005.

Parliament was kept fully informed of negotiations on the Border Agency Regulation through the usual European Parliamentary Scrutiny mechanisms. It cleared scrutiny in the European Scrutiny Committee *[Commons]* on 25 February 2004 and in the European Union Committee *[Lords]* on 2 March 2004.

The Agency will operate under a joint legal treaty base—Articles 62(2)*(a)* and 66 of the Treaty establishing the European Community.

No decision has yet been taken on where the Agency will be based. Five member states (Poland, Hungary, Slovenia, Estonia and Malta) submitted bids to host the Agency. The UK supports the Polish bid. The Agency will still become operational by May 2005, even if no decision has been taken on its permanent location by then.

Permanent staff of the Agency will have the same status as the staff of the other EU institutions (e.g. including the Commission). This is in accordance with the existing Staff Regulations and conditions of employment of officials of the European Communities, as set out in Article 17 of the Border Agency Regulation.

Fixed Penalty Notices

Mr. Steinberg: To ask the Secretary of State for the Home Department how many fixed penalty notices were issued during the last week of October and the first week of November 2004 for *(a)* letting off or throwing fireworks in any highway, street, throughfare or public place, *(b)* possession of fireworks in a public place by those under the age of 18 years and *(c)* breaching the curfew time for the use of fireworks. [214368]

Ms Blears: The available information, relating to the four offences connected with fireworks for which penalty notices for disorder can be given, is contained in the table:

Penalty notices for disorder issued for firework offences in England and Wales between 25 October and 7 November 2004—provisional figures

Fireworks offence for which PND issued	Issued between 25–31 October inclusive	Issued between 1–7 November inclusive
Throwing fireworks in a thoroughfare	18	36
Breach of fireworks curfew	3	4
Possession of a Category 4 firework	2	3
Possession by under 18 of adult firework	—	—
Total PNDs issued for firework offences	23	47

Graffiti

Mr. Amess: To ask the Secretary of State for the Home Department how many people have been prosecuted for graffiti in each of the last five years in *(a)* Essex and *(b)* Southend. [215932]

Paul Goggins: It is not possible to distinguish offences of graffiti from other types of criminal damage in the Home Office figures for court proceedings as the circumstances of individual offences are not collected centrally.

Police

Simon Hughes: To ask the Secretary of State for the Home Department how many police officers there were in *(a)* the Metropolitan police, *(b)* the UK Atomic Energy Authority constabulary and *(c)* the British Transport police in each year since 1994; and what projections there are for numbers of officers in the force in future years. [214291]

Ms Blears: Information on police numbers in the Metropolitan Police Service is set out in the table. Police officer numbers for the UK Atomic Energy Authority constabulary (UKAEAC) and the British Transport police (BTP) has been provided by my right hon. Friends, the Secretary of State for Trade and Industry and the Secretary of State for Transport.

Metropolitan police, British Transport police and the Civil Nuclear constabulary—police officer strength since 1994

	Officer strength		
As at 31 March	Metropolitan police	British Transport police	UK Atomic Energy Authority constabulary
1994	27,699	2,155	490
1995	27,480	2,147	476
1996	27,343	2,166	471
1997	26,677	2,132	459
1998	26,094	2,095	496
1999	26,073	[1]2,113	501
2000	25,485	2,091	503
2001	24,878	2,109	506
2002	26,223	2,123	534
2003	27,984	2,176	558
2004	29,735	2,267	575
2004 (31 August)	30,021	Not available	[2]528

[1] BTP figures for 1999 to 2002 inclusive are for actual officers. Figures for 1994 to 1999 and from 2003 onwards are full-time equivalent. BTP police numbers from 2003 has been collected by Home Office Research, Development and Statistics Directorate as part of police strength statistics for England and Wales.
[2] UKAEAC as at 1 February 2005.

Following boundary changes on 1 April 2000 with Essex, Hertfordshire and Surrey, the Metropolitan police district was reduced in size and some resources were transferred to the other three forces. Metropolitan Police Service strength data prior to April 2000 is therefore not comparable with later information.

The Home Secretary has not set projections of police strength for future years for England and Wales, or for individual forces. I understand that neither the Secretaries of State for Trade and Industry and Transport have set targets for police strength for the UKAEAC or the BTP. The number of police officers in any force is a matter for the Chief Officer of Police and the Police Authority, subject to the available budget

Speed Cameras

Mr. Pope: To ask the Secretary of State for the Home Department what the total amount of revenue from speed cameras was in the area policed by the Lancashire Constabulary in the last year for which figures are available. [215255]

Ms Blears: Information on the total revenue from offences detected by speed camera is not collected centrally, but an estimate can be made from the number of fines and fixed penalties and is given in the table for 2002 (latest available).

2003 data will be available shortly.

Fixed penalty and court proceedings data for speeding offences detected by cameras[1] in the Lancashire police force area, 2002

	Fixed penalties		Court proceedings[2]		
	Number of tickets[3]	Estimated revenue (£)[4]	Number of fines	Total amount of fine (£)	Average fine (£)
2002	88,700	5,322,000	1,700	110,400	66

[1] Offences under the Road Traffic Regulation Act 1984 and The Motor Vehicles (Speed Limits on Motorways) Regulations 1973.
[2] Includes cases where fixed penalty notices were originally issued but not paid and subsequently referred to court.
[3] Paid i.e. no further action.
[4] 'Estimate' based on £60 penalty charge.

Student Visa Extensions

Dr. Tonge: To ask the Secretary of State for the Home Department what assessment has been made of the impact of the proposals to increase visa charges on the number of international students studying in the UK. [214050]

Mr. Browne: Following on from the Home Office consultation document 'Review of Charges for Immigration Applications', I am introducing new fees for a range of immigration applications. On 7 February I published a summary and analysis of the consultation responses, the supporting Regulatory Impact Assessments and an analysis of the likely impact of the new charges on international student numbers. These documents are available on the Home Office website at: www.homeoffice.gov.uk.

International students bring significant economic and social benefits to the UK. In recognition of this, students seeking to vary or extend their conditions of stay in the UK will be charged a reduced fee for postal applications. Our analysis, which is set out in the published Regulatory Impact Assessment, indicates that at the level proposed, the postal charges were unlikely to have a significant impact on the UK's ability to attract and retain international students. However, in order to ensure that remaining to study in the UK remains a competitive option, we have decided that charges should be at a lower rate of £250 for the standard postal service. The higher, premium fee is an optional service which students can take advantage of if they so choose.

Visa Applications

Mr. Oaten: To ask the Secretary of State for the Home Department how many visa applications made in the UK prior to 1 August 2003 remain to be dealt with; how many personnel are dealing with the applications; and when he expects the applications to be processed and a decision made. [211002]

Mr. Browne: Some 500 applications for further leave to remain predating 1 August 2003 are currently awaiting decision in General Group 2, which is part of the Managed Migration Directorate.

The equivalent of 7.3 caseworkers are allocated full-time to this work with a further nine working part-time. The work is dealt with in priority order.

WORK AND PENSIONS

Advertising Costs

Mr. Webb: To ask the Secretary of State for Work and Pensions what the projected expenditure of his Department for advertising and publicity is for the year 2004–05, broken down by campaign; and what the projected total expenditure on advertising and publicity is for the following three years. [213507]

Jane Kennedy: The following table details the estimated total expenditure on advertising and publicity in 2004–05:

£

2004–05 campaign	*Advertising expenditure*	*Total publicity expenditure*
Future pensioners/Informed Choice	—	854,400
State Second Pension	—	84,200
State Pension Deferral	200,000	300,000
Pensioners Guide	—	1,000,000
Pension Credit	4,023,810	6,500,000
The Pension Service	—	559,000
Direct Payment Information Campaign	8,808,000	9,500,000
Direct Payment roadshow	—	3,000,000
Fraud	6,450,000	7,150,000
New Deal	—	1,650,000
Jobcentre Plus employer marketing	443,000	1,300,000
Jobcentre Plus Awareness	—	275,740
Age Positive	—	600,000
DDA Awareness	1,122,000	2,000,000
Council Tax Benefit	661,640	850,000
Winter Fuel Payments	514,910	815,000
Totals	22,223,360	36,354,140

Decisions have not yet been made on future expenditure for 2005–06, 2006–07 and 2007–08.

Notes:

1. All costs exclude VAT.

2. All figures have been rounded

3. Advertising costs are total media costs excluding all production costs

4. Information campaigns costing under £250,000 and details of highly localised publicity activity by the Department's customer-facing businesses have generally not been included as a disproportionate cost would be incurred in compiling these figures.

Benefit Claims

Mr. Flight: To ask the Secretary of State for Work and Pensions what the average time taken to process a claim for council tax benefit was in each year for which figures are available. [215247]

Mr. Pond: Average processing times are only available for new claims for council tax benefit. Figures are not available prior to April 2000. The available information is in the following table.

Average number of days to process new council tax benefit claims, Great Britain: April 2000 to September 2004

Period	*Days*
2000–01	60
2001–02	58
2002–03	53
2003–04	47
2004–05[1]	
April to June 2004	46
July to September 2004	47

[1] 2004–05 data is available for the first two quarters only.

Notes:

1. The figures are rounded to the nearest whole day.

2. The figures are taken from April to March each year and are four quarter averages.

Source:

Housing Benefit Management Information System Quarterly Administration Returns April 2000 to September 2004.

Mr. David Marshall: To ask the Secretary of State for Work and Pensions (1) how many people claimed job seekers' allowance in each constituency in Scotland in the latest period for which figures are available; [215386]

(2) how many people claimed income support in each constituency in Scotland in the latest period for which figures are available. [215388]

Mr. Pond: The information is in the following table.

Income support (IS) and jobseekers allowance (JSA) claimants in Scotland by parliamentary constituency, as at August 2004.

		JSA			
	IS	*All*	*Contribution-based only*	*Income-based*	*Credits-only*

Information Directorate, 5 per cent. sample.

Benefit Payments (Chorley)

Mr. Hoyle: To ask the Secretary of State for Work and Pensions how many pensioners in Chorley constituency received the winter fuel allowance in 2004–05; and what total amounts such payments represented in that year. [216200]

Malcolm Wicks: Information is not yet available for winter 2004–05. Information about the number of payments at each rate to people in the Chorley constituency for winter 2003–04 is in the Library. We would expect the number to be similar for this winter.

Mr. Hoyle: To ask the Secretary of State for Work and Pensions how many pensioners in Chorley constituency have received pension credit in each year since it was introduced. [216201]

Malcolm Wicks: The information is given in the table. Further information on numbers of households and individuals in receipt of pension credit and average awards at 31 December 2004 is contained in the most recent quarterly pension credit progress report, which was published on 3 February. A copy of the report is in the Library.

Pension credit recipients, Chorley, 2003–04

As at December:	*Households*	*Individuals*
2003	3,065	3,660
2004	3,920	4,795

Notes:
1. Figures are rounded to the nearest five.
2. Figures relate to the end of the month.
3. Individuals comprise claimants and partners and may contain a small number of partners aged under 60.
4. Pension credit replaced minimum income guarantee from 6 October 2003.
5. Parliamentary constituencies are assigned by matching postcodes against the relevant ONS directory.
6. The figures for December 2004 are the latest available.

IAD Information Centre, Department for Work and Pensions, 100 per cent. sample

Benefits Agency

Mr. Laurence Robertson: To ask the Secretary of State for Work and Pensions what guidance his Department gives to the Benefits Agency on steps to be followed in relation to payment of income support when the Agency has made an error in calculation; and if he will make a statement. [214844]

Mr. Pond: The administration of Jobcentre Plus is a matter for the Chief Executive of the Jobcentre Plus, David Anderson. He will write to the hon. Member.

Letter from David Anderson to Mr. Laurence Robertson, dated 17 February 2005:

The Secretary of State has asked me to reply direct to your question concerning what guidance is given to the Benefits Agency on steps to be followed in relation to payment of Income Support when the Agency has made an error in calculation. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

It may be helpful if I first explain that the Benefits Agency ceased to exist in April 2002 and was replaced, for people of working age, with Jobcentre Plus. Our aim is to provide people of working age with the help and support to which they are entitled.

In answer to your specific question, if an Income Support decision is found to be erroneous, the Decision Maker's Guide and the Income Support specific Guidance and Procedures advise the Decision Maker of the appropriate steps to take to revise the decision. If there has been an underpayment of Income Support, any arrears of benefit will be paid. If an overpayment has occurred, a decision will be made as to whether the overpayment has been caused by official error and whether the overpayment is recoverable or can be offset.

I hope this is helpful.

Child Poverty

Chris Ruane: To ask the Secretary of State for Work and Pensions how many and what percentage of children in *(a)* the UK and *(b)* Vale of Clwyd were living in poverty in each of the last 30 years; and what projections he has made of each figure in each of the next three years. [214019]

Malcolm Wicks: Our first step towards eradicating child poverty as set out in our current Public Service Agreement target is to reduce the number of children in low-income households by a quarter by 2004–05. This is measured using the proportion of children in relative low income households. Specific information regarding low income for the United Kingdom is available in 'Households Below Average Income 1994–95 to 2002–03'. Data is not available below the regional level and is only available as proportions at the regional level. It should be noted that the reporting of year on year changes in the regional low-income rates are not reliable.

The threshold of below 60 per cent. contemporary median income is the most commonly used in reporting absolute and relative trends in low income.

The available information is in the table.

Percentage and number of children living in households with income less than 60 per cent. of median

	Before housing costs		*After housing costs*	
	Number (million)	*Percentage*	*Number (million)*	*Percentage*
1979[1]	1.7	12	1.9	14
1981[1]	2.4	18	2.7	20
1987[1]	2.6	21	3.1	25
1988–89[1]	2.9	23	3.3	26
1990–91[1]	3.2	26	3.9	31
1991–92[1]	3.4	27	4.1	32
1992–93[1]	3.5	27	4.3	33

'Measuring child poverty', published in December 2003, outlines the Government's measure of UK child poverty for the long-term. The measure will consist of three tiers; absolute low income, relative low income and material deprivation and low income combined. The Government will set a target as part of the 2006 SR06 Spending Review to halve by 2010–11 the numbers of children suffering a combination of material deprivation and relative low income. This new measure will commence with estimates taken from the 2004–05 Family Resources Survey. Data will not be available below the regional level.

Future projections are unavailable.

Departmental Policies

Mr. Hoyle: To ask the Secretary of State for Work and Pensions if he will set out, with statistical information relating as closely as possible to Chorley constituency, the effect of his Department's actions and policies since 1997 on Chorley. [216202]

Jane Kennedy: We have undertaken a fundamental overhaul of the welfare system, transforming it to an active system that fights poverty, creates opportunity and helps people become self-sufficient and independent.

Since 2001, the Government have significantly extended and improved civil rights for disabled people in areas such as employment, education, access to goods and services and transport. Disabled people in Chorley will have benefited from these improvements in disability rights. Similarly, families with severely disabled three and four-year-old children who are unable, or virtually unable to walk will have benefited from the Government's decision to lower the minimum age entitlement to the higher rate mobility component of disability living allowance from April 2001, while older and less well off carers have gained extra help through the provisions within the National Carers Strategy.

In 2002–03 we estimate there were around 10 million adults (22 per cent.) and 0.7 million children (5 per cent.) in Great Britain likely to be covered by the provisions of the Disability Discrimination Act (DDA).

The figures can be broken down to national level which shows that 24 per cent. of adults and 5 per cent. of children in the north west are likely to be covered by the provisions of the DDA.

Information on the numbers of customers in Chorley who are in receipt of disability living allowance (DLA) and attendance allowance (AA) is in the table.

Chorley

Operational year	*DLA/AA recipients*
2001	5,700
2002	6,300
2003	6,900
2004	6,800

Source:
DWP Information Centre. Figures are rounded to the nearest 100 and are from a 5 per cent. sample at 31 August each year.

Through Jobcentre Plus, we are promoting work as the best form of welfare for people of working age. The number of people in work is at historically high levels of over 28.5 million; in Chorley, the proportion in employment has risen to 78.0 per cent.

Our new deals have helped lone parents, the young unemployed, the long-term unemployed, disabled people, the over 50s and partners of unemployed people to move from benefit into work. Nationally over 1.2 million people have been helped into work by the new deals, with over 1,580 in Chorley alone.

Significant progress has been made in eradicating child poverty and the latest figures (for 2002–03) show that, in the UK, there were over half a million fewer children in relative low income than there were in 1996–97. Since 2001–02 incomes for lone parents in receipt of benefit have risen by more than prices or the cost of living. In April 2005 the child allowance rate in income support for a child up to 18-years-old will have been increased by 40 per cent. since 2001–02. Child rates in income support and jobseeker's allowance are also being increased above inflation in April 2005 in line with child tax credit upratings. All of this has benefited 1,200 families in Chorley.

We want all pensioners to have a decent and secure income in retirement and to share fairly in the rising prosperity of the country and our first priority has been to help the poorest pensioners. The Government will be spending nearly £10 billion more in 2004–05 (in 2004–05 prices) on pensioners as a result of measures introduced since 1997, with around half going to the poorest third.

Our reforms include the State Second Pension, which helps more future pensioners build up better pensions, especially carers. Pension credit, introduced from October 2003, provides a contribution to a guaranteed minimum income for those aged 60 and over and, for the first time, those over aged 65 and over may be rewarded for savings and income. As of December 2004, around 3,920 pensioners in Chorley are receiving pension credit, with an average award of £38.82 per week.

We know that older people are disproportionately affected by fuel poverty. This winter (2004–05) we have again made available a winter fuel payment of £200 for each eligible household with someone aged 60 or over and £300 to those with someone aged 80 or over to help with their fuel bills. Additionally, for this year, eligible households with someone aged 70 or over will receive the one-off 70+ payment of £100 to help with living expenses including council tax bills. It is paid with the winter fuel payment.

The constituency data on winter fuel payments and the additional 80+ annual payment is available in the Library.

Since 1997 single pensioners and pensioner couples have seen a real terms increase in their basic state pension of 7 per cent. and 8 per cent., respectively. Some 17,500 pensioners in Chorley have benefited from this increase.

Mr. Sedgemore: To ask the Secretary of State for Work and Pensions if he will set out, with statistical information relating as directly as possible to Havant constituency, the effects on Havant of his Department's policies and actions since 2 May 1997. [216026]

Jane Kennedy: We have undertaken a fundamental overhaul of the welfare system, transforming it to an active system that fights poverty, creates opportunity and helps people become self-sufficient and independent.

Since 2001, the Government have significantly extended and improved civil rights for disabled people in areas such as employment, education, access to goods and services and transport. Disabled people in Havant will have benefited from these improvements in disability rights. Similarly, families with severely disabled three and four-year-old children who are unable, or virtually unable to walk will have benefited from the Government's decision to lower the minimum age entitlement to the higher rate mobility component of disability living allowance from April 2001, while older and less well off carers have gained extra help through the provisions within the National Carers Strategy.

In 2002–03 we estimate there were around 10 million adults (22 per cent.) and 0.7 million children (5 per cent.) in Great Britain likely to be covered by the provisions of the Disability Discrimination Act (DDA).

The figures can be broken down to national level which shows that 18 per cent. of adults and 5 per cent. of children in the south east are likely to be covered by the provisions of the DDA.

Information on the numbers of customers in Havant who are in receipt of disability living allowance (DLA) and attendance allowance (AA) is in the table.

Havant

Operational year	*DLA/AA recipients*
2001	5,000
2002	4,900
2003	5,200
2004	5,800

It is paid with the winter fuel payment.

The constituency data on winter fuel payments and the additional 80+ annual payment is available in the Library.

Since 1997 single pensioners and pensioner couples have seen a real terms increase in their basic state pension of 7 per cent. and 8 per cent., respectively. Some 21,200 pensioners in Havant have benefited from this increase.

Mr. Salter: To ask the Secretary of State for Work and Pensions if he will set out, with statistical information relating as directly as possible to Reading, West constituency, the effects on Reading, West of his Department's policies and actions since 2 May 1997. [215819]

Jane Kennedy: We have undertaken a fundamental overhaul of the welfare system, transforming it to an active system that fights poverty, creates opportunity and helps people become self-sufficient and independent.

Since 2001, the Government has significantly extended and improved civil rights for disabled people in areas such as employment, education, access to goods and services and transport. Disabled people in Reading West will have benefited from these improvements in disability rights. Similarly, families with severely disabled 3 and 4-year-old children who are unable, or virtually unable to walk will have benefited from the Government's decision to lower the minimum age entitlement to the higher rate mobility component of disability living allowance from April 2001, while older and less well off carers have gained extra help through the provisions within the National Carers Strategy.

In 2002–03 we estimate there were around 10 million adults (22 per cent.) and 0.7 million children (5 per cent.) in Great Britain likely to be covered by the provisions of the Disability Discrimination Act (DDA).

The figures can be broken down to regional level which shows that 18 per cent. of adults and 5 per cent. of children in the south-east are likely to be covered by the provisions of the DDA.

Information on the numbers of customers in Reading, West who are in receipt of disability living allowance (DLA) and attendance allowance (AA) is in the following table.

Reading West

Operational year	*DLA/AA recipients*
2001	3,100
2002	3,200
2003	3,300
2004	3,600

Source:
DWP Information Centre. Figures are rounded to the nearest 100 and are from a 5 per cent. sample at 31 August each year.

Through Jobcentre Plus, we are promoting work as the best form of welfare for people of working age. The number of people in work is at historically high levels of over 28.5 million; in Reading, West, the proportion in employment has risen to 81.3 per cent.

Our new deals have helped lone parents, the young unemployed, the long-term unemployed, disabled people, the over 50s and partners of unemployed people to move from benefit into work. Nationally over 1.2 million people have been helped into work by the new deals, with 970 in Reading West alone.

Significant progress has been made in eradicating child poverty and the latest figures (for 2002–03) show that, in the UK, there were over half a million fewer children in relative low income than there were in 1996–97. Since 2001–02 incomes for lone parents in receipt of benefit have risen by more than prices or the cost of living. In April 2005 the child allowance rate in income support for a child up to 18 years old will have been increased by 40 per cent. since 2001–02. Child rates in income support and jobseeker's allowance are also being increased above inflation in April 2005 in line with child tax credit upratings. All of this has benefited 1,400 families in Reading, West.

We want all pensioners to have a decent and secure income in retirement and to share fairly in the rising prosperity of the country and our first priority has been to help the poorest pensioners. The Government will be spending nearly £10 billion more in 2004–05 (in 2004–05 prices) on pensioners as a result of measures introduced since 1997, with around half going to the poorest third.

Our reforms include the state second pension, which helps more future pensioners build up better pensions, especially carers. Pension credit, introduced from October 2003, provides a contribution to a guaranteed minimum income for those aged 60 and over and, for the first time, those over aged 65 and over may be rewarded for savings and income. As of December 2004, around 3,050 pensioners in Reading, West are receiving Pension credit, with an average award of £39.12 per week.

We know that older people are disproportionately affected by fuel poverty. This winter (2004–05) we have again made available a winter fuel payment of £200 for each eligible household with someone aged 60 or over and £300 to those with someone aged 80 or over to help with their fuel bills. Additionally, for this year, eligible households with someone aged 70 or over will receive the one-off 70 plus payment of £100 to help with living expenses including council tax bills. It is paid with the winter fuel payment.

The constituency data on winter fuel payments and the additional 80 plus annual payment is available in the Library.

Since 1997 single pensioners and pensioner couples have seen a real terms increase in their basic state pension of 7 per cent. and 8 per cent., respectively. Some 14,600 pensioners in Reading, West have benefited from this increase.

EU Committees

Angus Robertson: To ask the Secretary of State for Work and Pensions how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Technical Adaptation Committee on the protection of workers from the risks related to exposure to chemical, physical and biological agents at work met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [216341]

Mr. Pond: The Committee did not meet during these Presidencies. Council Directive 80/1107/EEC of 27 November 1980 on the protection of workers from the risks related to exposure to chemical, physical and biological agents at work that made provision for the Committee was revoked in 1998 by the Chemical Agents Directive. The European Commission elected to tackle these risks by individual directives. Separate directives now exist on Chemical and Biological Agents. In relation to Physical Agents, there are now individual directives on Noise, Vibration and Electromagnetic Fields and a fourth on Optical Radiation is under negotiation. Each of the adopted directives makes provision for creation of a Technical Adaptation Committee.

There have been three Command Papers produced on prospects for the European Union which include highlights from the Presidencies in question—Cm6174 laid in April 2004, Cm6310 laid in September 2004 and Cm6450 laid in February 2005. They are available in the Library and on the FCO website at: www.fco.gov.uk/commandpapers.

Housing

Mr. Willetts: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of private landlords in the pilot areas who *(a)* will and *(b)* will not participate in the new flat-rate local housing allowance scheme. [215560]

Mr. Pond: All private sector tenants in the nine pathfinder areas who require help towards their housing costs will claim local housing allowance (LHA) instead of housing benefit. A comprehensive, independent programme of evaluation will examine the impact of LHA across a range of areas, including the decisions and strategies of landlords and impact on the housing market in the areas concerned. This research will be completed in March 2006.

A further nine local authorities, known as the second wave group, will implement LHA between April and July 2005. Although not part of the formal evaluation programme, their experiences will be used to help inform best practice for extending the scheme nationally.

Housing Benefit

Mr. Flight: To ask the Secretary of State for Work and Pensions how the processing of housing benefit by local authorities is measured in terms of *(a)* efficiency, *(b)* accuracy and *(c)* fraud. [215132]

Mr. Pond: The Department for Work and Pensions sets performance standards, which includes performance indicators, to help DWP, and local authorities themselves, assess performance in the administration of housing benefit (HB) and council tax benefit (CTB). Additionally, the Benefit Fraud Inspectorate reports to the Secretary of State on the administration of HB and CTB and, in particular, on the prevention and detection of fraud relating to these benefits.

Mr. Flight: To ask the Secretary of State for Work and Pensions how much housing benefit expenditure was overpaid by local authorities due to fraud and error in each year for which figures are available. [215133]

Mr. Pond: We undertake a continuous measurement of fraud and error in housing benefit. The Department published "Fraud and Error in Housing Benefit, April 2002 to September 2003" on 12 August 2004. This report represents progress against the first national headline estimates, for the level of fraud and error in HB. The report is available in the Library.

Mr. Flight: To ask the Secretary of State for Work and Pensions what the average time taken to process a claim for housing benefit was in each year since 1975. [215243]

Mr. Pond: The available information is in the following table.

Average number of days to process new housing benefit claims, Great Britain: April 2000 to September 2004

	Days
2000–01	49
2001–02	53
2002–03	48
2003–04	45
April to June 2004	45
July to September 2004	43

Notes:
1. The average time taken to process a housing benefit (HB) claim is available for new claims only and the data is not available prior to April 2000.
2. The figures are rounded to the nearest whole day.
3. The figures are taken from April to March each year and are four quarter averages.
4. 2004–05 data is available for the first two quarters only, i.e. April to September 2004.

Source:
Housing Benefit Management Information System Quarterly Administration Returns April 2000 to September 2004.

Incapacity Benefit

Paul Holmes: To ask the Secretary of State for Work and Pensions what assessment his Department has made of the effectiveness of the 52 week linking rule; and what qualitative research his Department has commissioned to evaluate it. [214628]

Mr. Pond: The 52 week linking rule was introduced in 1998 to allow people moving off an incapacity benefit into work to re-access any higher rates of benefit that had been in payment if their job did not work out and they needed to re-claim. It was introduced as a result of research evidence which found that people feared moving off benefit in case their job did not last, leading to difficulties in requalifying for their old benefit. The importance of linking rules was confirmed in subsequent research. For example, an evaluation in 2003 of clients eligible for the new deal for disabled people identified the most important 'bridge to work' was the knowledge that they could return to their original benefit if needed.

The Department of Social Security Research Report 141 incapacity benefits and work incentives included qualitative research into the operation of the 52 week linking rule. The conclusions of the researchers were that knowing about the linking rule could influence decisions to move into work; that it reduced some of the risks and anxieties about loss of income and security attached to moving into work and that it was generally appreciated by clients. There were also indications that lack of awareness of the rule reduced its incentive effect as did anxiety that the rule would be hard to access and there was evidence that this was the case. This has been borne out by recent research. The Department for Work and Pensions Research Report "A Stepping Stone to Employment" published last December noted the very low levels of awareness of the linking rules amongst clients on permitted work.

The Department's five year strategy published earlier this month includes our commitment to review the operation of the linking rules to ensure that existing claimants' position is protected if they take a job and they then need to return to incapacity benefits.

Mr. Willetts: To ask the Secretary of State for Work and Pensions what plans he has to change the conditions for receiving income support on the grounds of incapacity. [215559]

Mr. Pond: The changes to incapacity benefits as set out in the Five-Year Strategy apply equally to contributory incapacity benefit and income support on the grounds of incapacity. We will be looking to simplify current arrangements by incorporating both contributory and income-related elements into the new benefits.

Jobcentre Plus

Mr. Flight: To ask the Secretary of State for Work and Pensions what measures are in place to assess the speed, efficiency and accuracy of the provision of benefits at Jobcentre Plus. [215245]

Mr. Pond: The administration of Jobcentre Plus is a matter for the Chief Executive of the Jobcentre Plus, David Anderson. He will write to the hon. Member.

Letter from David Anderson to Mr. Howard Flight, dated 17 February 2005:

The Secretary of State has asked me to reply to your question concerning the measures that are in place to assess the speed, efficiency and accuracy of the provision of benefits at Jobcentre Plus. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

In answer to your specific question, the Secretary of State assesses the accuracy of benefits provision through the Jobcentre Plus target regime. Each year, annual targets are set for Jobcentre Plus and currently include the measures of Monetary Value of Fraud and Error, and Business Delivery. The latter includes elements on the accuracy of Income Support, Incapacity Benefit, and Jobseeker's Allowance. The targets are published in the Jobcentre Plus Business Plan each year, which is placed in the House of Commons Library.

Turning to the subject of efficiency, Jobcentre Plus, within its unit cost target, has one element based on the total costs incurred for benefit processing divided by the number of claims actually processed. This measure forms a key part of the Jobcentre Plus aim to improve efficiency and is continually monitored by HM Treasury.

Jobcentre Plus also has a range of internal management measures that detail levels of expectation for key business areas and includes average clearance times for Income Support, Incapacity Benefit, and Jobseeker's Allowance claims and changes of circumstance, and Social Fund applications.

Performance against targets is reported on the Jobcentre Plus website.

I hope this is helpful.

National Insurance Numbers

Mr. Letwin: To ask the Secretary of State for Work and Pensions how many national insurance numbers are currently in issue. [213991]

Mr. Pond: There are approximately 72 million national insurance numbers currently in issue.

Source:
DWP Departmental Central Index

Occupational Health

Mr. Boswell: To ask the Secretary of State for Work and Pensions what action he is taking in co-ordination with other Government Departments to *(a)* disseminate advice and good practice on occupational health in the workplace and *(b)* clarify the official vehicles for doing so. [215726]

Jane Kennedy: The Department for Work and Pensions (DWP) is working with Department of Health to deliver action from the 'Choosing Health?' White Paper, and to support NHS plus to provide occupational health services where capacity is available.

The Health and Safety Executive disseminates occupational health advice and best practice through its own staff, its website and written guidance.

In addition, my right hon. Friend the Secretary of State, announced 'Workplace Health Direct' on 2 February 2005 as part of DWP's five-year strategy on employment opportunities for all. This is a £20 million pilot scheme to give free occupational health, safety and return-to-work advice and support to small and medium sized businesses and workers.

We are also exploring the potential role of vocational rehabilitation in support of occupational health through its Framework for Vocational Rehabilitation published in October 2004.

Pension Credit

Mr. Byrne: To ask the Secretary of State for Work and Pensions how many pensioners are in receipt of pension credit in Birmingham, broken down by constituency; and what the total value of pension credit paid to them is. [214033]

Malcolm Wicks: Information on numbers of households and individuals in receipt of pension credit in each constituency at 31 December 2004 is contained in the most recent quarterly pension credit progress report, which was published on 3 February. A copy of the report is in the Library. Between 1 October 2003 and 31 December 2004 an estimated total of £181.7 million, rounded to the nearest £100,000, was paid in pension credit in the ten Birmingham constituencies. The average award over this period was £50.67.

Sources:
Programme Accounting Computer System and IAD Information Centre, Department for Work and Pensions.

Dr. Kumar: To ask the Secretary of State for Work and Pensions (1) how many pensioners have received pension credit in the constituency of Middlesbrough, South and Cleveland, East; [215897]

(2) how many pensioners benefited from the minimum income guarantee in Middlesbrough, South and Cleveland, East constituency in each year of its operation. [215898]

Malcolm Wicks: The information is given in the two tables. Further information on numbers of households and individuals in receipt of pension credit and average awards at 31 December 2004 is contained in the most recent quarterly Pension Credit progress report, which was published on 3 February. A copy of the report is in the Library.

Table 1: Minimum income guarantee recipients, Middlesbrough, South and Cleveland, East, 1999–2003

	Households	*Individuals*
August 1999	2,700	3,100
August 2000	2,800	3,300
August 2001	3,000	3,600
August 2002	2,900	3,500
August 2003	3,100	3,700

Notes:
1. Figures have been taken from a 5 per cent. sample and are subject to a degree of sampling variation.
2. Figures are rounded to the nearest hundred.
3. Individuals comprise claimants and partners and may contain a small number of partners aged under 60.
4. Minimum income guarantee was introduced in April 1999
5. Minimum income guarantee was replaced by pension credit from 6 October 2003.
6. Parliamentary constituencies are assigned by matching postcodes against the relevant ONS directory.

Pensions

Chris Ruane: To ask the Secretary of State for Work and Pensions what the average charge was for selling a pension in each of the last 10 years. [215706]

Malcolm Wicks: Available information on average management charges for personal pensions over the last 10 years (including stakeholder pensions from 6 April 2001) is in the following table. The average charges are based on 25 year regular premiums of £60 per month except for 2004 which is based on £50.

Average reduction in yield for personal and stakeholder pensions from 1995 to 2004

Percentage

	Personal pension	*Stakeholder pension*
1995	1.9	—
1996	1.9	—
1997	1.8	—
1998	1.7	—
1999	1.6	—
2000	n/a	—
2001	1.1	1.0
2002	1.1	1.0
2003	n/a	n/a
2004	1.1	1.0

The figures are from the Financial Services Authority (FSA), and its predecessor the Personal Investment Authority (PIA), who collected information on pension charges and reported this using the Reduction in Yield (RIY) measurement. This is defined as the percentage point reduction in the gross return on a pension fund as a result of explicit charges and fees. Dealing costs and other implicit charges are not included. Until 2002, the figures were collected as part of the FSA and PIA annual disclosure surveys. However, they have been replaced by online comparative tables, which give present not historical data and so some figures are unavailable.

The RIY on personal pensions has fallen significantly since the mid 1990's, from around 1.9 per cent. in 1995 to around 1.1 per cent. in 2002, where it has remained. This drop can largely be attributed to the introduction of the stakeholder pension charge cap, currently set at 1 per cent. and the FSA restrictions on advised sales of personal pensions with significantly higher charges than this.

Chris Ruane: To ask the Secretary of State for Work and Pensions how many and what percentage of pensions were sold to each income decile of the population in the last year for which figures are available; and if he will make a statement. [215707]

Malcolm Wicks: The information is not available in the form requested, and such information that is available is shown in the table.

The table shows income and status of people contributing to a Personal Pension or Stakeholder Pension in the 2002–03 tax year, not people purchasing a pension product; some of the personal pensions recorded in the table will have been in existence for several years.

The table shows that the majority of contributors to both Personal and Stakeholder Pensions are employees, with the next largest group of contributors being the self-employed. For both Personal Pensions and Stakeholder Pensions the majority of contributors in 2002–03 were those earning under £20,000 a year and there are very few contributors who are either outside normal working ages or not in employment.

This Government want people with modest incomes to have access to good value pensions, and to make the right pension provision for a secure retirement; stakeholder pensions are helping to meet this aim.

Number of individuals contributing to a Personal or Stakeholder Pension by earned income and status 2002-03

	Personal pensions	*Stakeholder pensions*	*Personal and Stakeholder pensions*
Employees	4,520,000	860,000	5,130,000
Of which:			
Earning £0-£9,999	900,000	210,000	1,070,000
Earning £10,000-£19,999	1,790,000	360,000	2,050,000
Earning £20,000-£29,999	980,000	180,000	1,100,000
Earning £30,000 plus	850,000	110,000	910,000
Self-Employed	980,000	130,000	1,060,000
Of which:			
Earning £0-£9,999	310,000	50,000	340,000
Earning £10,000-£19,999	300,000	40,000	320,000
Earning £20,000-£29,999	160,000	20,000	180,000
Earning 30,000 plus	210,000	20,000	230,000
In receipt of a Pension	30,000	10,000	40,000
Child	0	20,000	20,000
Full-time Education	0	0	0
Carer	0	10,000	10,000
Unemployed	0	10,000	10,000
Other	30,000	20,000	50,000
All	5,560,000	1,060,000	6,320,000

Notes:
1. The table refers to the number of individuals whose Personal or Stakeholder Pension has received a contribution during the year.
2. Status is largely based on what is reported by an individual when making their opening application, or for existing business by the provider.

3. Earned income is derived from the Survey of Personal Incomes (SPI) and consists of all income chargeable under Schedule E (mainly pay, private and occupational pensions, retirement annuities and state retirement pensions), Schedule D Cases I and II (self-employment income), and miscellaneous other earnings.
4. The Personal and Stakeholder column includes people contributing to either, or both, a Personal and Stakeholder Pension. For this reason, it will not total the individual columns for Personal Pensions and Stakeholder Pensions.
5. All figures are rounded to the nearest 10,000 and may not sum as a result.
Source:
Inland Revenue.

Chris Ruane: To ask the Secretary of State for Work and Pensions what assessment his Department has made of the effect of the current level of stakeholder charges on the uptake of personal pensions by low income workers; and if he will make a statement. [215708]

Malcolm Wicks: In the period between April 2001 and September 2004 over 40 pension providers have sold nearly 2.2 million stakeholder pensions, and the average charge on personal pensions has fallen from a 1.9 per cent. Reduction In Yield in 1996 to 1.1 per cent. in 2004, a fall the Pensions Commission attributes a significant part of to the stakeholder pension charge cap. This fall in charges has ensured more of peoples savings go towards their retirement, and less is consumed by charges.

However the Government recognises that it has been difficult to ensure that the pensions industry can effectively market stakeholder pensions within the constraints of a 1 per cent. charge cap, and to increase the proportion of under-savers actively targeted by providers the Government have, after commissioning an independent review by Deloitte, announced a revised charge cap of 1.5 per cent. for new members joining on or after 6 April 2005 for the first 10 years of membership, reverting to 1 per cent. thereafter. These changes will increase the number of under-savers these pensions industry can cost effectively target, while still ensuring good value for the consumer.

Postage

Mr. George Osborne: To ask the Secretary of State for Work and Pensions how much has been spent on postage by the Department and its predecessors in each year since 1997. [215017]

Jane Kennedy: DWP was formed in June 2001 from the Department of Social Security (DSS) and parts of the former Department for Education and Employment, including the Employment Service (ES).

The figures given below for postage include general postage, courier and carriage costs for DWP and its predecessors.

The available information is in the following table.

	Postage £000
1997–98[1]	78,525
1998–99[1]	78,348
1999–2000[1]	72,857
2000–01[1]	76,746
2001–02	77,749
2002–03	78,248
2003–04	83,805

[1] The annual postage cost for 1997 to 2001 includes expenditure from the Department of Social Security, The Employment Service and parts of the former Department for Education and Employment.

Rehabilitation Support Allowance

Mr. Willetts: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of people claiming the new Rehabilitation Support Allowance each year whose benefits will be reduced on account of a refusal to attend work-focused interviews or undertake the required preparation for work. [215549]

Jane Kennedy: No such estimate has been made.

Unemployment (Ilford, North)

Linda Perham: To ask the Secretary of State for Work and Pensions how many people were in *(a)* youth unemployment and *(b)* long-term unemployment in Ilford, North on 31 December (i) 1997 and (ii) 2004. [214949]

Mr. Timms: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Colin Mowl to Ms Linda Perham, dated 16 February 2005:

The National Statistician has been asked to reply to your recent Parliamentary Question about youth and long-term unemployment in Ilford North parliamentary constituency. I am replying in his absence. (214949)

Table 1 overleaf gives estimates of the numbers of youth and long-term unemployed people, who were resident in the Ilford North parliamentary constituency, for the twelve-month periods ending February 1998 and 2004.

These estimates from the Labour Force Survey (LFS) are, as with any statistical sample survey, subject to sampling variability.

The Office for National Statistics also compiles statistics of those claiming Jobseeker's allowance (JSA) for local areas. Table 2 overleaf gives the annual average number of young people aged 18 to 24 years old resident in the Ilford, North parliamentary constituency claiming Jobseeker's Allowance (JSA) benefits. It also shows all JSA claimants claiming for over 12 months for the years 1997 and 2004.

Table 1: Unemployed people resident in Ilford, North parliamentary constituency 12 months ending February

	Youth (aged 16–24)	*[1]Long-term unemployed*
1998	1,000	1,000
2004	[2]...	[2]...

[1] Defined as one year or more.
[2] Estimates not shown as they are potentially disclosive.
Note:
These estimates are based on very small sample sizes and are subject to a high degree of sampling variability.
Source:
ONS Labour Force Survey

Table 2: JSA claimants resident in the Ilford, North parliamentary constituency

Annual averages	*[1]Youth claimants (aged 18–24)*	*[1]Claimants over 12 months*
1997	470	725
2004	320	170

DEFENCE

Aircraft

Mr. Hoyle: To ask the Secretary of State for Defence if he will list his Department's spending on *(a)* new aircraft and *(b)* up-grades to aircraft since 1997; and how much of the money was spent in (i) Lancashire and (ii) the North West. [216231]

Mr. Ingram: I will write to the hon. Member and a copy of my letter will be placed in the Library of the House.

Aircraft Carriers

Mr. Gerald Howarth: To ask the Secretary of State for Defence when he expects to sign contracts placing orders for the two CVFs. [215766]

Mr. Ingram: Discussions continue on the contracting arrangements for the Demonstration and Manufacture of the Future Aircraft Carriers (CVF). These will be confirmed following the main investment decision, which we currently anticipate will take place mid-late 2005.

Armed Forces Housing

Mr. Edward Davey: To ask the Secretary of State for Defence whether he plans to apply the Office of the Deputy Prime Minister's Decent Homes Standard to housing provided for members of the armed forces. [214539]

Mr. Caplin: The standard for condition is used by the Ministry of Defence (MOD) is higher than the criteria defined within the Decent Homes Standard. The application of the Decent Homes Standard to Service Families Accommodation would, therefore, result in the application of a less comprehensive standard than is currently the case.

Mr. Edward Davey: To ask the Secretary of State for Defence how many homes are provided in the UK for members of the armed forces, broken down by location at which such homes are provided; and when the last time was that properties in each location were *(a)* surveyed and *(b)* inspected. [214550]

Mr. Caplin: As at the end of January 2005, approximately 49,700 properties were provided for the families of armed forces personnel, located at over 600 sites across mainland United Kingdom (England, Scotland and Wales).

Management of service families accommodation (SFA) is carried out by Defence Estates (DE). The housing stock is currently spread across nine regional offices, as set out in the following table. Included in the overall figures are about 1,000 substitute SFA properties, which although not managed by DE, are supplied under contract, where appropriate SFA cannot be provided from its own resources.

Given the number of sites involved, the numbers of houses have been grouped on a regional basis.

Region	*Total SFA provided*[1]
Anglia (covering Norfolk and Suffolk areas)	5,750
Central (covering Bucks, Oxon, and parts of Wiltshire)	5,800
London (covering locations within the M25)	3,600
North (covering counties to the east)	7,150
Scotland	3,900
South east (covering Portsmouth and Kent areas)	4,500
South (covering parts of Surrey, Hampshire, Wiltshire and Dorset)	9,550
South west (covering Somerset, Cornwall and parts of Wiltshire)	5,250
West (covering Wales and the western counties)	4,200

[1] As at end January 2005

The majority of the housing stock was surveyed as a single exercise in the period 1997–98 to achieve a database of the condition of the stock, and provide the necessary information for investment decisions concerning an ongoing upgrade programme. Following that major exercise, properties are subject to further survey as required, for example when a package of properties is identified for upgrading. To set out the details for each individual location would incur disproportionate effort.

Mr. Edward Davey: To ask the Secretary of State for Defence how much was spent by his Department on housing for members of the armed forces in *(a)* the UK and *(b)* abroad, broken down by (i) revenue and (ii) capital for each year since 1992 (A) in nominal terms and (B) at 2003–04 prices; and what the projected spending is for the next three years. [214554]

Mr. Caplin: Details of Ministry of Defence's housing expenditure are set out in the published accounts for the former Defence Housing Executive for 2001–02 to 2003–04 and these are available in the Library of the House.

The information sought for years prior to 2001–02 is not readily available and could be obtained only at disproportionate cost.

Projected spending for the next three years is still under consideration.

I will write to the hon. Member with regard to the requested information on overseas housing.

Army Legal Service

Mr. Keith Simpson: To ask the Secretary of State for Defence, whether he intends to review the Army Legal Services; and if he will make a statement. [215702]

Mr. Caplin: A study in 2004, by the Directorate of Management Consultancy Services into the organisational requirements of the Ministry of Defence Legal Advisor recommended that the future structure and organisation of Legal Services in the Department should be reviewed further. This work has yet to be taken forward. In addition, proposals for the forthcoming Armed Forces Bill, which will introduce a single system of Service law, will have implications for the prosecuting arm of the Director of Army Legal Services' organisation notably through the creation of a single prosecuting authority to replace the three separate Service Prosecuting Authorities.

Autonomy plc

Mr. Bellingham: To ask the Secretary of State for Defence what contracts for which his Department is responsible have been awarded to Autonomy plc. [212202]

Mr. Ingram: The Ministry of Defence has no record of existing direct contracts with Autonomy plc. Although the company may be involved with the MOD at a sub-contract level, this is not visible to us centrally.

B-52 Crash (1991)

Andrew Mackinlay: To ask the Secretary of State for Defence if he will make a statement on the loss in February 1991 of the US B-52 bomber in the Indian Ocean en route to Diego Garcia; and whether survivors were subsequently landed at Diego Garcia. [215520]

Mr. Ingram: In February 1991, a US B-52 bomber crashed in the waters just to the north of Diego Garcia after suffering a technical fault. Of the six US crew members on board, three were killed in the crash. The surviving three crew members were landed at Diego Garcia prior to being repatriated.

Battalion Costs

Mr. Wills: To ask the Secretary of State for Defence what the *(a)* personnel costs and *(b)* equipment and maintenance costs were of (i) an armoured infantry (Warrior) battalion, (ii) an air-portable infantry battalion, (iii) a parachute regiment battalion and (iv) a Gurkha regiment battalion in the last year for which figures are available. [199587]

Ann Winterton: To ask the Secretary of State for Defence what the *(a)* personnel and *(b)* equipment and maintenance costs of (i) an armoured infantry (warrior) battalion, (ii) an air-portable infantry battalion, (iii) a parachute regiment battalion and (iv) a Gurkha regiment battalion were in the last period for which figures are available. [201009]

Mr. Ingram: This information is not held centrally and could be provided only at disproportionate cost.

Correspondence

Mr. Salmond: To ask the Secretary of State for Defence when he will reply to the letter dated 11 November from the hon. Member for Banff and Buchan regarding his constituent, Mr. G. Evans of Banffshire. [206199]

Mr. Ingram: I wrote to the hon. Member on 7 February 2005.

Sarah Teather: To ask the Secretary of State for Defence when he will reply to the letter dated 22 March 2004 from the hon. Member for Brent, East regarding Mr. Karel Bartosik. [215634]

Mr. Ingram: I replied to the hon. Member on 22 April 2004, within our 15 working day target for answering all correspondence.

Cost Recovery (DFID)

Angus Robertson: To ask the Secretary of State for Defence pursuant to his answer of 20 January 2005, *Official Report*, column 1080W, on military assistance following the tsunami, if he will list the costs his Department has recovered from the Department for International Development in relation to the relief effort following the Indian ocean earthquake and tsunami. [214418]

Mr. Ingram *[holding answer 9 February 2005]:* No costs have yet been recovered by the Ministry of Defence from the Department for International Development for this assistance.

Deaths in Service

Mr. McNamara: To ask the Secretary of State for Defence what measures he has taken to invite the participation of bereaved relatives in hearings of Boards of Inquiry into the deaths of service personnel who have lost their lives in non-combat situations; what provision he has made to give relatives *(a)* full disclosure of statements available to the Board, *(b)* the right to address the Board, *(c)* the right to cross-examine witnesses and *(d)* copies of the transcript of proceedings at a reasonable cost; whether he has provided for the costs of legal representation to the families to be met from the public purse; and whether it is his policy that the Board of Inquiry would sit in public. [214258]

Mr. Caplin: The Services, as part of their system of support to bereaved relatives, seek to provide full information on the progress of inquiries. However, a Board of Inquiry is an internal inquiry held to investigate the facts of an incident in order to prevent recurrence. It is not a court of law and it does not fulfil the same function as a Coroner's inquest (or a Procurator Fiscal's inquiry in Scotland), which is to establish the cause of death. Boards of Inquiry do not sit in public; and members of the public, bereaved relatives and the press have no right to be present. It has been the policy of the MOD since December 1992 to make available to the next of kin, at no cost, copies of completed Board of Inquiry reports, subject only to the redaction of security sensitive information and third party data, and the avoidance of prejudice to any other investigation.

Defence Airfield Review

Mr. Keetch: To ask the Secretary of State for Defence if the Defence Airfield Review has been completed; how the review differs from the Airfields Review Study; and if he will make a statement. [214270]

Mr. Ingram: The Defence Airfield Review is still in progress; there is no separate airfield review study. On the current status of the review, I refer the hon. Member to the answer I gave on 10 January 2005, *Official Report*, column 21 to the hon. Member for Moray (Angus Robertson).

Defence Logistic Organisation

Mr. Jim Cunningham: To ask the Secretary of State for Defence how many of the Department's Defence Logistic Organisation employees are located in the West Midlands region. [215173]

Mr. Ingram: As at 1 January 2005 a total of 2,110 Defence Logistic Organisation civilian personnel were located in the West Midlands.

The civilian personnel figure listed above uses the revised definition of civilian personnel (see www.dasa.mod.uk for details), and is based on full time equivalent (FTE) data.

For Service Personnel, data by budgetary area for the United Kingdom as a whole are collated annually and presented in Table 2.2 of UKDS, a copy of which is held in the Library of the House.

DASA are currently reviewing the source data and process by which UK Location statistics for Service Personnel are compiled. New figures will not be available until the review is complete. The outcome of this review is due to be announced later this month.

Defence Procurement

Angus Robertson: To ask the Secretary of State for Defence if he will list *(a)* the defence procurement contracts with a value of greater than £5 million in each year since 1999 and *(b)* the companies involved in each of those contracts, indicating how many have their headquarters in (i) the UK, (ii) Scotland, (iii) the rest of Europe and (iv) the US. [214417]

Mr. Ingram: The information requested has been placed in the Library of the House.

Departmental Costs

Mr. George Osborne: To ask the Secretary of State for Defence how much the Department spent on *(a)* stationery and *(b)* office supplies in each year since 1997. [213846]

Mr. Caplin: The following table details how much the department has spent on stationery and office supplies since 1997.

Financial year	*Stationery including office supplies-figures excl. VAT (£)*
1997–98	28,151,808
1998–99	26,952,195
1999–2000	23,310,909
2000–01	23,813,768
2001–02	25,056,520
2002–03	24,743,264
2003–04	23,742,105

Departmental Policies

Mr. Gordon Prentice: To ask the Secretary of State for Defence if he will set out, with statistical information relating as directly as possible to Pendle constituency, the effects on Pendle of his Department's policies and activities since 2nd May 1997. [214976]

Mr. Caplin: The Ministry of Defence has a small presence within Pendle, in the form of an Army Cadet Force centre at Barnoldswick, this has not undergone any significant changes since 1997.

Since 2 May 1997, the Department has placed a number of contracts with companies based within Pendle, most notably with Euravia Engineering & Supply Co of Barnoldswick and TUF Tools Ltd. of

Departmental Staff and Facilities (Scotland)

Mr. David Stewart: To ask the Secretary of State for Defence what the estimated human resources bill associated with his Department's facilities in Scotland is for the 2004–05 financial year. [215059]

Mr. Caplin: Estimates of personnel costs by region will be published in the Country and Regional Analysis 2005 as part of the Public Expenditure Statistical Analysis, which is due to be published in May 2005.

Mr. David Stewart: To ask the Secretary of State for Defence (1) how many armed forces personnel are based in Scotland; [215061]

(2) how many armed forces civilian support staff are based in Scotland. [215060]

Mr. Caplin: The Defence Analytical Services Agency is currently reviewing the source data and process by which UK location statistics are compiled. New figures will not be available until the review is complete. The outcome of this review is due to be announced later this month.

There are 6,980 civilian personnel based in Scotland at 1 January 2005.

Mr. David Stewart: To ask the Secretary of State for Defence what the estimated capital value is of his Department's buildings and facilities based in Scotland. [215062]

Mr. Caplin: The value of the defence estate in Scotland is £1.25 billion, excluding property in the course of disposal. This figure, taken from the 2002 quinquennial revaluation of the estate which is the most recent available, is an asset valuation.

The estate is currently being revalued on a rolling programme, which will be complete in 2007.

Electoral Registration

Mr. Robathan: To ask the Secretary of State for Defence how many British service personnel are serving overseas; and how many of these have submitted overseas service declarations to their electoral registration officer *(a)* in 2004 and *(b)* to date in 2005. [215285]

Mr. Caplin: As at October last year, when data was last collated centrally, there were approximately 42,000 service personnel based permanently overseas or engaged on operations.

Service personnel overseas may opt to register to vote as a service voter or overseas voters. It is not possible to identify service voters separately from overseas voters. Neither it possible to identify separately service personnel registered in the UK as ordinary voters, nor whether service registered voters are based in the UK or abroad.

Mr. Robathan: To ask the Secretary of State for Defence for what reasons the advice contained in the Army Families Advice Bureau Factsheet 7.1 on the Ministry of Defence website states that a serviceman only needs to complete F/Vote/33 once during his career unless there is a change of circumstances; and if he will

Mr. Caplin *[holding answer 9 February 2005]*: The latest instruction to service personnel on voter registration options was Joint Service Defence Council Instruction issued on 28 January 2005. It was placed on the MOD's internal website, reinforced with the release of a Defence Internal Brief, signal and distribution of an information leaflets to all units, and TV and radio coverage on British Forces Broadcasting Service. A press brief was also offered to in-house MOD publications.

I can however confirm that out of date information remained on the Army Welfare Service information pages. This was an oversight which was corrected immediately when it came to our attention.

European Armaments Research and Military Capabilities Agency

Mr. Soames: To ask the Secretary of State for Defence what the objectives are of the Government's policy on the European Armaments Research and Military Capabilities Agency. [215771]

Mr. Ingram: The Government are a strong supporter of the European Defence Agency, as it is now known. The Agency will drive forward work on improving European defence capabilities by encouraging and supporting the efforts of individual EU member states.

By rationalising and harmonising capability requirements, and linking those directly to industrial and research efforts, the Agency will significantly strengthen both the European Security and Defence Policy and Europe's contribution to NATO.

Falcon Communications System

Mr. Gerald Howarth: To ask the Secretary of State for Defence when he expects to make a decision on the procurement of the Falcon secure communications system. [214607]

Mr. Ingram: I refer the hon. Member to the answer I gave on 31 January 2005, *Official Report*, column 730W to the hon. Member for Christchurch (Mr. Chope).

Falklands Anniversary

Mr. Hoyle: To ask the Secretary of State for Defence what talks have taken place between *(a)* Falklands veterans, *(b)* Falklands representatives and Government and *(c)* the British Legion and his Department on marking the 25th anniversary of the Falklands War. [216234]

Mr. Caplin: I met the Chairman of the South Atlantic Medal Association (82) on 1 February to discuss the form commemorations might take. The Falkland Islands Government has recently set up a committee to consider the 25th anniversary of the war in 2007 and Ministry of Defence officials will be liaising with that committee through the Falkland Islands Government office in London. The Department has had no talks with The Royal British Legion on this subject.

Harrier Aircraft

Mr. John Smith: To ask the Secretary of State for Defence what plans he has to replace Harrier jets deployed in Afghanistan with Jaguars. [216318]

Mr. Ingram: There are no plans to replace the Harriers based at Kandahar with Jaguars.

Infantry Regiments

Mr. Hoyle: To ask the Secretary of State for Defence pursuant to the answer of 31 January 2005, *Official Report*, column 730W, on infantry regiments, what other options were proposed as names for the new regiment; and for what reason the name does not include the word Royal. [216056]

Mr. Ingram: As has been made clear in previous responses, the process of restructuring the infantry has been worked through by the Army in consultation with the divisions and regiments concerned. As part of this process, infantry divisions were asked to suggest options for new regimental titles. 'The Royal Lancashire Regiment' was put forward by the King's Division as an option for the new regimental title. However, of the options put forward by the Division, the proposed title of the 'King's, Lancashire and Border Regiment' was judged by the Army Board to best reflect all the antecedent regiments from which it will be drawn. This was felt to be particularly important because of the fact that this reorganisation involved the merging of three previously distinct regiments, into a two-battalion regiment. That the word 'Royal' is not included in the new title should not be taken as an omission. Rather it simply reflects the fact that, of the options put forward by the Division, the one settled upon by the Army Board happened not to contain the word 'Royal'.

Iran

Mr. Robathan: To ask the Secretary of State for Defence what estimate he has made of the financial value of the Royal Navy and Royal Marines' equipment which remains in the possession of the Iranian authorities. [215486]

Mr. Ingram *[holding answer 9 February 2005]*: The estimated financial value of the equipment held by the Iranian authorities is just over £130,000.

Iraq

Mr. Hoyle: To ask the Secretary of State for Defence if he will make a statement on the medical units serving in Iraq. [214355]

Mr. Caplin: In MND(SE) the five General Support Medical Regiment (RAMC) and the Hospital Squadron from 33 Field Hospital are the main medical units. They are supported by a number of augmentees from all three services. In addition, at Basrah Airport there is a RAF medical facility formed from a variety of RAF medical services and each United Kingdom battlegroup has its own intrinsic medical support in the form of a Regimental Aid Post.

Mr. Keetch: To ask the Secretary of State for Defence what reports he has received from British troops in Iraq on the effectiveness of *(a)* SA80A2 rifles, *(b)* Minimi light machineguns and *(c)* grenade launchers; what length of training troops received in the use of each weapon prior to deployment; and if he will make a statement. [214690]

Mr. Ingram: As part of the lessons identified process following Op Telic, which draws on the experiences of those in theatre, it was concluded that the SA80 A2 had performed well in theatre. The Minimi light machine gun and the underslung grenade launcher, procured as urgent operational requirements, also performed well. Indeed, these are now being brought into full service following the success of the UOR variants.

No individual conversion training is given to soldiers issued with SA80 A2 as the drills for using the weapon are very similar to the A1 version. Personnel are required to be advised of the new cleaning regime required for the modified parts of the weapon together with being issued updated user publications during unit briefings.

Soldiers are required to complete the mandatory weapon handling test and familiarisation firing of the weapon before being issued with the Minimi light machine gun or grenade launcher. This has been conducted either prior to deployment or in theatre as part of reception staging and onward integration training.

Llew Smith: To ask the Secretary of State for Defence how many *(a)* Iraqi and *(b)* non-Iraqi nationals are held in prisons administered by United Kingdom armed forces; how many of these prisoners are female; how many are aged under 16 years; how many have been transferred from United States administered prisons; how many have been (i) tried and (ii) sentenced since March 2003; how old the (A) oldest and (B) youngest detainee is; and if he will list the offences under which detainees are being held. [215865]

Mr. Ingram: As at 7 February 2005, there were thirty three internees held in the UK Divisional Temporary Detention Facility in Iraq, which is the only such facility administered by the UK. Thirty-two are Iraqi nationals and one has both Iraqi and British nationality. None of the internees are female, and none have stated that they are under eighteen. Three were transferred from US custody in December 2004.

None of these internees have been tried or sentenced. They are held in custody as security internees on the grounds that they are deemed to be an imperative threat to security. Any Iraqis taken into custody by UK forces who are not deemed to be an imperative threat to security, but are suspected of criminal activity, are transferred to the Iraqi authorities at the earliest possible opportunity.

The oldest internee currently held by the UK has stated that he is sixty-two. The youngest we are aware of has stated that he is twenty.

Landing Ships Contract

Mr. Gerald Howarth: To ask the Secretary of State for Defence what the original contract price was for the delivery by Swan Hunter of two landing ships dock (auxiliary) vessels; and whether there has been a change in that contractual price since award of the contract. [214223]

Mr. Ingram: The original contract with Swan Hunter for design and build of two LSD(A)s was valued at £148 million. This has since been increased to £232 million, with a further £3 million added to cover enhancements that have included aspects to ensure the vessels comply with the latest statutory safety requirements.

Manpower

Mr. Russell Brown: To ask the Secretary of State for Defence what the total manpower is of in role *(a)* airborne engineer forces, *(b)* airborne Army logistic forces, *(c)* parachute artillery forces and *(d)* airborne Army medical forces; and what the cost was of each of those forces in the last year for which figures are available. [201011]

Mr. Ingram: The military manpower numbers for the relevant formations, for Financial Year 2003–04, are shown in the following table:

Ser	*Unit title*	*Manpower totals*
(a)	23 Engineer Regiment	176
(b)	13 Air Assault Support Regiment RLC	590
(c)	7 (Para) Royal Horse Artillery	447
(d)	16 Close Support Medical Regiment	273

The information relating to the costs of these forces is not held centrally and could be provided only at disproportionate cost.

Medical Supplies Agency

Angus Robertson: To ask the Secretary of State for Defence how many people work for the Medical Supplies Agency; how many are employed in Scotland; what the personnel costs of the agency are; and what the figures were in 2003–04. [214750]

Mr. Ingram: Medical Supplies Agency (MSA) currently employs 312 staff, seven of whom are employed at the Medical Distribution Centre, Greenock, Scotland. In accordance with MSA Annual Report and Accounts 2003–04, 380 staff were employed in 2003–04 with nine employed at the Medical Distribution Centre, Greenock. The MSA total staff cost for 2003–04 was £8.489 million with a forecast of £8.996 million for this year.

Mobile Phones

Mr. George Osborne: To ask the Secretary of State for Defence (1) how many mobile telephones have been reported lost or stolen from the Department in each year since 1997; and what the cost was in each year; [214884]

(2) what the cost of staff mobile phone bills was in each year since 1997. [214888]

Mr. Caplin: I refer the hon. Member to the answer I gave on 16 December 2004, *Official Report*, columns 1226–227W, to the hon. Member for New Forest, East (Dr. Lewis).

NATO Transformation Programme

Mr. Soames: To ask the Secretary of State for Defence if he will make a statement on progress made on the NATO Transformation Programme in respect of British forces. [216109]

Mr. Hoon: NATO has made good progress since the Prague Summit in 2002 in transforming its capabilities through initiatives such as the Prague Capabilities Commitment, the NATO Response Force (NRF), and the streamlining of its command structures.

Key to the transformation process is the delivery of flexible, deployable, sustainable, technologically advanced and interoperable armed forces that are capable of undertaking the full spectrum of modern military missions required by the new international security environment. The United Kingdom's armed forces are, of course, already well down this route as a result of the changes introduced in the 1998 Strategic Defence Review (Cm 3999), the SDR New Chapter of 2002 (Cm 5566) and the 2004 Future Capabilities Paper (Cm 6269).

The UK's armed forces are well suited to, and continue to play a leading role in providing capability to the NRF, NATO's principal tool for the transformation of its military capability.

Network Interoperability

Mr. Keetch: To ask the Secretary of State for Defence what plans there are for improving network interoperability; what Ministry of Defence agency is responsible for funding the Joint Network Management System and Multiple Tactical Datalink Management Systems; what the nature is of the relationship between these two systems; how they will interact with the US Joint Interface Control Officers Support System; what the time scale is for each project; and if he will make a statement. [214269]

Mr. Ingram: Improving interoperability between networks is a key theme of Network Enabled Capability, and there are a number of initiatives to this end. The Joint Network Management System is a programme funded by the Defence Communication Services Agency to manage tactical datalink networks in the UK. The Multiple Tactical Datalink Management System (MTDMS) forms part of a programme funded from the Equipment Plan to provide a deployable tactical datalink management capability for out of area operations. Neither programme has yet received final approval to proceed but our current planning assumption is that they will be introduced in 2006. The two systems address different requirements but they are required to be interoperable as there are circumstances when the MTDMS could be used in the UK. The MTDMS is intended to be usable in operations with US forces and we are therefore monitoring closely the development of the US Joint Interface Control Officers Support System.

Overseas Defence Estates

Mr. Jim Cunningham: To ask the Secretary of State for Defence if he will list the defence estates the Department has overseas. [215175]

Mr. Caplin: The MOD overseas estate comprises airfields, ports, warehousing, barracks, schools, technical facilities and supporting infrastructure (power, water, wastewater, communications, etc.), Service Family Accommodation (SFA), commercial facilities and training areas. Details are as follows.

Country	*Facility*
Bahamas	Autos Island
Belize	Price Barracks—HQ British Army Training Support Unit Belize
	4 × other training areas
	adventure training facility
Brunei	(facilities owned and operated by Brunei Government)
Canada	Suffield—British Army Training Unit Suffield
	Goose Bay—in process of handback
	Wain right Camp—in process of handback
Kenya	Kifaru Camp Nairobi—British Army Training Unit Kenya
	Extensive leased up-country training areas
Nepal	Kathmandu—HQ Brigade of Gurkhas Nepal, Pokhara
Norway	Stavangar, Bardufoss
Singapore	Sembawang
South Atlantic	Falkland Islands, Ascension Island and St. Helena—weather station
USA	Washington DC (leased SFA)
Cyprus	Episkopi Garrison
	RAF Akrotiri
	Dhekelia Garrison
	Troodos/Olympus
	Aya Nikolaos Station
Diego Garcia	Port and Storage facilities (all other facilities owned and operated by the USAF)
Gibraltar	Gibraltar Garrison and other facilities
Falkland Islands	Mount Pleasant Airfield
	Various hill-top Radar/Tech sites
	Various helicopter Re-fuelling sites

All of the estate in Germany is owned by the German government and occupied by MOD under SOFA and its supplementary agreements. The German estate is located within five main garrison areas:

Country	*Facility*
Hohne Garrison, including:	Fallingbostel and Celle
Osnabrück Garrison, including:	Munster and Rhiene
Gütersloh Garrison, including:	Herford, Bielefeld, Lubbecke and Bunde
Paderborn Garrison, including:	Sennelager and Hameln
Rhine Garrison, including:	JHQ Rheindahlen, Dulmen and Elmpt

Additionally there are major training areas located at Senne and Haltern and smaller training areas in Paderborn, Gütersloh, Osnabrück and Rhine Garrisons.

In addition, a small numbers of leased properties are occupied in:

Country	*Facility*
Belgium	Brussels, Antwerp, Mons
Germany	Ramstein
Holland	Brunssum
Italy	Rome, Milan, Naples, Verona
Norway	Stavangar
Portugal	Lisbon
Spain	Madrid, Valencia
Turkey	Izmir, Istanbul
Russia	Moscow (one residence)

Parachute Battalion (Costs)

Mr. Russell Brown: To ask the Secretary of State for Defence what the cost of *(a)* an in role parachute battalion and *(b)* a parachute battalion not in role was in the last year for which figures are available. [201002]

Mr. Ingram: This information is not held centrally and could be provided only at disproportionate cost.

Parking Spaces

John Mann: To ask the Secretary of State for Defence how many car parking spaces are provided for those *(a)* working in and *(b)* visiting his Department. [208929]

Mr. Caplin: Provision of car parking space on defence establishments worldwide is determined locally, taking into account availability of public transport links, space on the establishments, and operational requirements.

Centrally held records of defence estate assets do not identify provision of car parking space, and would require disproportionate cost to collect this information.

Pendle Hill Munitions

Mr. Evans: To ask the Secretary of State for Defence if he will list the munitions recovered on Pendle Hill, Lancashire, in the last four years. [213914]

Mr. Caplin: Since 1 January 2001, a total of 95 live items and 5478 expended items have been cleared from Pendle Hill, Lancashire. This data is correct as at 1 Febuary 2005.

	Live items		*Expended items*	
	Nature	*Number*	*Nature*	*Number*
2001	Mortar 3"	12	Mortar 2" smoke	376
	Mortar 2" Smoke	2	Fin Mortar 3"	861
	Mortar 2"	1	Fin Projectile Infantry Anti Tank (PIAT)	1
	PIAT	1		
	Mortar 2" high explosive (HE)	2		
2003	Mortar 3"	18	Mortar 2" Smoke	299
	Mortar 2" HE	4	Fin Mortar 3"	1,445
	Mortar 2" Smoke	1	Fin Mortar 2"	13
	Mortar 2" Parachute illumination (Para Ilium)	2	PIAT	1
	PIAT	1	Fuse mortar 3"	107
	Mortar 3" HE	4	Mortar 3"	7
			Mortar 3" HE	1
			Fuse	15
			Mortar Spigot practice	1
			mortar 2" Para Ilium	2
2004	Mortar 3"	20	3" Fin Mortar	1,726
	PIAT	2	Fin PIAT	1
	Fuse mortar 3"	1	3" Fuse mortar	185
	Mills grenade no 36	1	2" mortar	4
	Mortar 2" Para Ilium	2	2" mortar Para Ilium	1
	Mortar 2" smoke	14	2" mortar smoke	342
	Mortar 3" HE	3	3" mortar	26
	Mortar 2" HE	3	3" mortar HE	18
			PIAT	9
			PIAT spigot	1
			spigot	2
2005	2" Mortar smoke	1	3" Fin mortar	18
			3" fuse mortar	4
			2" mortar smoke	12

Pensions

Mr. Gerald Howarth: To ask the Secretary of State for Defence how many service personnel in each service have opted to move to the new pension arrangements; and what proportion of serving personnel that represents in each case. [215501]

Mr. Caplin: These details will not be available until April 2006. Individual Offers to Transfer packs will be sent to members of the current scheme between mid July 2005 and the end of October 2005, for a Transfer Date of 6 April 2006.

Pentagon (Nuclear Weapons Plans)

Llew Smith: To ask the Secretary of State for Defence what information he has received from his United States counterpart in respect of Pentagon plans to build earth-penetrating nuclear weapons designed to destroy hardened underground targets. [214640]

Mr. Hoon: None. Although US policy is a matter for that Government, I understand that to date it has only sought to conduct studies into the concept of such weapons and has no plans to build any.

Postage

Mr. George Osborne: To ask the Secretary of State for Defence how much has been spent on postage by the Department in each year since 1997. [215021]

Mr. Caplin: The cost of postage is not held centrally and could be provided only at disproportionate cost.

Rapid Deployment

Mr. Sarwar: To ask the Secretary of State for Defence what steps his Department is taking to procure equipment to improve the rapid deployability of the British armed forces. [213368]

Mr. Ingram: The 'Future Capabilities' White Paper published in July 2003 explains how we plan to make the armed forces more flexible and deployable. At sea, deployability has already been improved through six new Roll-On-Roll-Off ships. A robust and modern amphibious capability, based around two new ships, HMS Alibon and Bulwark, supported by the Bay Class landing ships, will provide a step change in our ability to launch and support forces ashore. For the Army, there will be a shift in emphasis towards light and medium weight forces. These will be supported by a number of new equipment programmes, including the Future Rapid Effects System family of vehicles and the Light Mobile Artillery Weapon System. In the air, as well as introducing 25 A400M aircraft from 2011, we now intend to buy our current fleet of four leased C-17 aircraft together with one additional aircraft, significantly increasing our strategic lift capability.

Recruitment (Scotland)

Mr. Sarwar: To ask the Secretary of State for Defence if he will make a statement on recruitment levels to the armed forces in the past three months from applicants in Scotland. [213338]

Mr. Caplin: The number of personnel recruited into the armed forces other ranks from applications registered in Scotland from 1 October to 31 December 2004 was 322. Information for officers is not available on a regional basis.

Research Expenditure

Dr. Kumar: To ask the Secretary of State for Defence how much was spent on research by his Department in *(a)* 2000, *(b)* 2001, *(c)* 2002, *(d)* 2003 and *(e)* 2004. [215888]

Mr. Ingram: I refer my hon. Friend to Table 1.7 of United Kingdom Defence Statistics 2004, a copy of which is in the Library of the House.

Dr. Kumar: To ask the Secretary of State for Defence what proportion of his Department's research budget is spent on the development of new weaponry. [215890]

Mr. Ingram: The Ministry of Defence's research budget is focussed on examining technical possibilities in a variety of technology areas. These can be exploited through many different routes to new techniques, concepts and equipment. It is not possible to definitively split weaponry research out of that on materials, electronics, system integration, engines, communications and others. The development of technology into equipment is handled by the Defence Procurement Agency and it has a development budget that is spent on specific items such as satellites, communications equipment, vehicles, and weaponry, such as small arms, missiles, artillery. As we do not collate information on research activity in the way requested, it would be disproportionately expensive to provide a more detailed breakdown.

Royal Navy

Mr. Robathan: To ask the Secretary of State for Defence how many orders were placed for Royal Navy ships in each year between 1980 and 2004. [214057]

Mr. Ingram *[holding answer 4 February 2005]:* Details of past orders for Royal Navy ships and the year in which they were placed is not held centrally and would involve disproportionate cost to collate in a way that ensured the information was complete. Readily available data on orders placed in each year is shown in the following table: these total 39. In comparison, records show that 125 vessels entered service over the same period. Design and build lead times mean that a number of these vessels would have been ordered before 1980.

	Orders placed
1980	—
1981	—
1982	—
1983	1
1984	2
1985	—
1986	8
1987	5
1988	4
1989	—
1990	1
1991	—
1992	1
1993	1
1994	—
1995	—
1996	2
1997	3
1998	—
1999	—
2000	5
2001	3
2002	3
2003	—
2004	—

The table includes all Royal Navy surface ships and submarines and excludes Royal Fleet auxiliary vessels, any vessels chartered for Royal Fleet auxiliary use and the six-ship RoRo Strategic Sealift PFI service.

Royal School of Military Engineering

Mr. Hancock: To ask the Secretary of State for Defence on what date he intends that final payment on the Royal School of Military Engineering private finance initiative project should be made; and if he will make a statement. [215150]

Mr. Caplin: The Royal School of Military Engineering Public Private Partnership (PPP) is currently subject to the Ministry of Defence's Approvals process. If approval is granted, full negotiations will begin with the Preferred Bidder. It is not possible, at this stage, to state when the PPP contract will begin and when final payment would therefore be made, which would be 30 years after the start of service delivery.

Scottish Regiments

Annabelle Ewing: To ask the Secretary of State for Defence where he plans permanently to base the battalions of the Royal Regiment of Scotland. [212110]

Mr. Ingram: No decisions have been made on the future locations for the five Battalions of The Royal Regiment of Scotland.

St. John's Wood Barracks

Mr. Soames: To ask the Secretary of State for Defence if he will make a statement on the future of St. John's Wood barracks; and for how long he expects the King's Troop, Royal Horse Artillery to be stationed there. [216112]

Mr. Caplin: There are currently no plans to relocate the King's Troop from St. John's Wood barracks, which is occupied by the Ministry of Defence under a lease agreement. The lease is due to expire in 2012. As with all lease arrangements within the Department, our requirements beyond the expiry date will be subject to review.

Submarines

Mr. Soames: To ask the Secretary of State for Defence if he will make a statement on the Submarine Acquisition Modernisation Initiative: who the participants are; and what the *(a)* purpose and *(b)* timescale of its work is. [216103]

Mr. Ingram: The purpose of the Submarine Acquisition Modernisation (SAM) project is, through a coherent, long-term approach to the management of the nuclear submarine programme, to implement a more efficient, more effective and sustainable submarine enterprise through life, leading to a significant reduction in whole life costs and greater submarine availability.

SAM is a joint project, with MOD and industry working in collaboration. It is led by a MOD team leader, with membership drawn from BAE Systems, Devonport Management Limited, Babcock Naval Services and Rolls Royce, together with key MOD project and change management teams. The aim is to reach agreement in principle on the future management arrangements during spring 2005. Subject to approval by Government and industry stakeholders, the long-term aim is to begin implementation by early 2007.

The SAM project forms part of a wider strategy for optimising the UK industrial maritime base: other elements include the UK Naval Shipbuilding Industrial Strategy which is currently addressing future loading and skills retention within the surface shipbuilding industry, and the Surface Ship Support Study, which is addressing the in-service support strategy for surface ships.

Tanzania

Mr. McNamara: To ask the Secretary of State for Defence (1) what stage the prosecution of Brett Richard Mallinson and David Moffett of the Light Dragoon Guards by the legal authorities of Tanzania has reached; [208382]

(2) what disciplinary action has been taken against soldiers and officers of *(a)* the Light Dragoon Guards and *(b)* other regiments following the death of Conjesta Ulikaye in Dar es Salaam in November 2004; what steps have been taken to establish a Board of Inquiry to investigate the background to her death; and whether an apology or expression of sympathy has been made to (i) the family of Conjesta Ulikaye and (ii) the Government of Tanzania. [208383]

Mr. Ingram: The Tanzanian Director of Public Prosecutions has decided that there is to be no prosecution of Brett Mallinson or David Moffett in connection with the death of Conjesta Ulikaye in Dar es Salaam in November 2004.

It is not Ministry of Defence policy to discuss internal employment matters. The requirement for a Board of Inquiry is currently being considered.

It has not been appropriate to make an apology or expression of sympathy to family of Conjesta Ulikaye or the Government of Tanzania in relation to this incident.

Trident

Angus Robertson: To ask the Secretary of State for Defence if he will estimate how many *(a)* direct and *(b)* indirect civilian jobs in (i) Scotland and (ii) the rest of the UK rely upon the Trident programme. [214416]

Mr. Hoon: The number of civilian jobs which directly rely upon the Trident programme is estimated to be 936 in Scotland, with an additional 6,640 in the rest of the United Kingdom. The number of civilian jobs which indirectly rely upon the Trident programme is estimated to be 300 in Scotland and 5,700 for the rest of the UK.

War Remnants (Iraq)

Mr. Hancock: To ask the Secretary of State for Defence how many explosive remnants of war have been cleared in Iraq to date; at what cost; how many casualties have resulted; what assessment has been made of the amount remaining; how much longer the clearance is expected to take; at what cost; and if he will make a statement. [200301]

Mr. Ingram: Significant quantities of munitions exist in Iraq as a result of the most recent period of hostilities, as well as the 1990–91 Gulf Conflict and Iraq's conflict with Iran. These consist of large stockpiles of Captured Enemy Ammunition (CEA) as well as explosive remnants of war, and the United Kingdom is not responsible for clearing these munitions, but any details of sites we hold are passed onto the relevant organisations.

The clearance of CEA is organised across Iraq by the Multi-National Corps-Iraq, and is done by civilian contractors, non-governmental organisations and military Explosive Ordnance Disposal teams. Over 850,000 individual munitions have been cleared from MND(SE). We do not have details of progress made by other coalition partners. Neither the total cost of the clearance of CEA nor the number of casualties from unexploded ordnance is available.

Warships

Mr. Soames: To ask the Secretary of State for Defence what he expects the average age by 2009 of the Royal Navy's *(a)* frigate fleet and *(b)* destroyer fleet to be. [216107]

Mr. Ingram: By 2009 the average age of a Royal Navy frigate will be around 15 years and of a destroyer around 25 years.

Mr. Soames: To ask the Secretary of State for Defence how many new *(a)* frigates and *(b)* destroyers will be delivered to the Royal Navy between 2005 and 2009. [216110]

Mr. Ingram: The first of class type 45 destroyer, HMS Daring, is planned to enter service in 2009. There are no plans to deliver any new Royal Navy frigates or destroyers before then.

HEALTH

Abortion

Jim Dobbin: To ask the Secretary of State for Health what plans he has to extend section 1(3a) of the Abortion Act 1967 to allow women to have abortions at home. [215176]

Miss Melanie Johnson: All abortions in England are currently carried out in a national health service hospital or an approved independent sector place. There are no current plans to change this.

Accident and Emergency Services

Mr. Flight: To ask the Secretary of State for Health what assessment he has made of the impact of the introduction of *(a)* the new general practitioner contract and *(b)* the four-hour waiting time target for accident and emergency attendances on the demand for accident and emergency services. [215137]

Ms Rosie Winterton: The available evidence shows no relationship between the new general practitioner contract and demand for accident and emergency (A and E) services. Rising demand for emergency care is a trend that long predates this change or the four hour A and E target.

Factors involved in recent reported rises in demand include the better range of services now available, together with the improved reporting and increased patient satisfaction that the progress in cutting A and E waits has delivered.

Mr. Michael Foster: To ask the Secretary of State for Health how many patients have been treated in accident and emergency departments in hospitals in Worcestershire in each year since 1997; and if he will make a statement. [215001]

Dr. Ladyman: Data were not collected centrally on an individual trust basis prior to 2000–01. The table shows the number of first attendances, follow up attendances and total attendances for the Worcestershire Acute Hospitals National Health Service Trust from 2000–01 up to and including the second quarter of 2004–05.

	First attendances	*Follow up attendances*	*Total attendances*
2000–01[1]	115,644	6,702	122,346
2001–02[1]	114,966	7,302	122,268
2002–03[1]	116,366	7,556	123,922
2003–04[2]	120,407	7,406	127,813
2004–05 quarters 1 and 2[2]	66,892	2,006	68,898

Note:
The figures include attendances at major accident and emergency departments and minor injuries units. The figures include all type 1 (major A and E), 2 or 3 (which include minor injuries units and walk-in-centres) A and E services that a trust provides.
Sources:
[1] Department of Health form KH09.
[2] Department of Health dataset QMAE.

Mr. Chidgey: To ask the Secretary of State for Health what plans he has to relocate the accident and emergency department at the Royal County Hospital, Winchester. [214573]

Ms Rosie Winterton *[holding answer 9 February 2005]:* In line with our policy of Shifting the Balance of Power, decisions about the configuration of local health services are made locally by primary care trusts in partnership with strategic health authorities and other local stakeholders. This process provides the means for addressing local needs within the health community, including the provision of accident and emergency services.

Mr. Flook: To ask the Secretary of State for Health how many people in *(a)* Taunton and *(b)* Somerset used accident and emergency services in each of the last five years. [214475]

Ms Rosie Winterton: The information requested is shown in the table.

Attendances at accident and emergency departments, minor injury units and walk in centres, national health service organisations in England, 2000–01 to quarter 2 (Q2) 2004–05

		Up to Q2 2004–05	*2003–04*	*2002–03*	*2001–02*	*2000–01*

Alcohol Misuse

Sandra Gidley: To ask the Secretary of State for Health what assessment he has made of the incidence of alcohol-related problems in the under 60s. [214933]

Miss Melanie Johnson: The alcohol harm reduction strategy for England takes a cross Government approach to reducing harm caused by alcohol. Data is listed from hospital episode statistics where the primary diagnosis or cause code shows incidence of alcohol-

related problems available specifically for the age range 'under 60s'.

Counts of finished in-year admissions where there was a primary diagnosis code or cause code for selected alcohol related diseases. Age at admission up to 60 years—national health service hospitals, England 2003–04

Primary diagnosis	*Admissions*
F10.0—Acute intoxication	8,937
F10.1—Harmful use	2,012
F10.2—Dependence syndrome	8,946
F10.3—Withdrawal state	6,023
F10.4—Withdrawal state with delirium	858
F10.5—Psychotic disorder	370
F10.6—Amnesic syndrome	142
F10.7—Residual and late-onset psychotic disorder	52
F10.8—Other mental and behavioural disorders	52
F10.9—Unspecified mental and behavioural disorders	506
K70—Alcoholic liver disease	9,543
T51—Toxic effect of alcohol	1,424
Cause code	
X45—Accidental poisoning by and exposure to alcohol	—

Notes:

1. Finished in-year admissions—A finished in-year admission is the first period of in-patient care under one consultant within one healthcare provider, excluding admissions beginning before 1 April at the start of the datayear. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.

2. Diagnosis (primary diagnosis)—The primary diagnosis is the first of up to 14 (seven prior to 2002–03) diagnosis fields in the Hospital Episode Statistics (HES) data set and provides the main reason why the patient was in hospital.

3. Cause code—The cause code is a supplementary code that indicates the nature of any external cause of injury, poisoning or other adverse effects.

4. Ungrossed data—Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

Hospital Episode Statistics (HES), Department of Health

Alzheimer's Disease

Dr. Gibson: To ask the Secretary of State for Health (1) if he will make a statement on the availability, in advance of the outcome of the appraisal by the National Institute for Clinical Excellence, of Ebixa on the NHS for advanced Alzheimer's disease; [214529]

(2) what guidance he has issued to *(a)* primary care trusts and *(b)* other funding organisations regarding the availability, in advance of the outcome of the appraisal by the National Institute for Clinical Excellence, of Ebixa on the NHS for advanced Alzheimer's disease; and if he will make a statement; [214530]

(3) what representations he has received regarding the availability of Ebixa for advanced Alzheimer's disease; and if he will make a statement. [214531]

Ms Rosie Winterton: National Institute for Clinical Excellence (NICE) Appraisal Guidance No. 19, relating to the use of Donepezil, Rivastigmine, and Galantamine for the treatment of patients with mild to moderate Alzheimer's disease, was issued in January 2001. This guidance is currently under review, and the revised version due for publication in July 2005 will include an assessment of Memantine Hydrochloride (Ebixa).

I have received a number of representations on the availability of Ebixa since the product received its license.

In August 1999, the Department issued Health Service Circular 1999/176, which asks national health service bodies to continue with local arrangements for the managed introduction of new technologies where guidance from NICE is not published at the time the technology first becomes available in the United Kingdom. These arrangements should involve an assessment of the available evidence.

Ambulance Drivers

Mr. Hayes: To ask the Secretary of State for Health what assessment he has made of the implications for UK ambulance drivers' working time limits of European Court of Justice cases C-397/01 to C403/01, reference OJ C300 vol. 47 of 4 December 2004. [207104]

Mr. Hutton: The Pfeiffer judgment should not have implications for United Kingdom ambulance staff because the vast majority work less than 48 hours per week, on average. Ambulance staff who sign the individual opt-out can legitimately work more than an average of 48 hours per week.

Cancer Specialists

Mr. Baron: To ask the Secretary of State for Health (1) how many trained cancer specialists were practising in England *(a)* by headcount and *(b)* expressed as a whole-time equivalent figure in each year since 1997; [215692]

(2) how many cancer specialist students began training in each year since 1997; [215693]

(3) how many cancer specialists qualified in each year since 1997; and what his policy is on the optimum number of cancer specialists. [215694]

Mr. Hutton *[holding answer 10 February 2005]:* The number of consultants, within the cancer specialties, who were working in the national health service since September 1997 is shown in table one.

The number of staff in the registrar group within the cancer specialties, in each year since September 1997 is shown in table two.

The number of specialist registrars who became consultants within the cancer specialties in each year since September 1997 is shown in table three.

It is for cancer networks, in partnership with strategic health authority workforce development directorates and postgraduate deaneries, to plan their workforce. This includes the education and training needs of all staff and will be linked to local and national priorities for cancer.

Care Homes

Mr. Cummings: To ask the Secretary of State for Health how many *(a)* privately owned and *(b)* local authority owned nursing and residential homes are located in the Easington constituency; and what the bed capacity is of each. [214140]

Miss Melanie Johnson: Data are not available for the area requested. Information on the number of independent and local authority-owned care homes and places for adults aged 18 and over in County Durham at 31 March 2001 is shown in the table.

I understand from the Chair of the Commission for Social Care Inspection (CSCI) that figures for later years were collected by the National Care Standards Commission, and now CSCI, but comparable details are not available.

Number of independent and local authority-owned care homes and places for adults aged 18 and over in County Durham[1], 31 March 2001

	Residential		Nursing[2]	Total[3]
	Local authority	Independent	Independent	
Homes	40	220	100	350
Places	1,080	4,000	3,250	8,330

[1] Nursing care relates to County Durham health authority; residential care relates to Durham and Darlington councils with social services responsibilities.
[2] Nursing home figures include places in general nursing homes, mental nursing homes, private hospitals and clinics.
[3] Figures may not add up due to rounding.

RA and RH(N) form A

Miss McIntosh: To ask the Secretary of State for Health how many *(a)* privately owned and *(b)* local authority owned care homes there are in the Vale of York; where each is located; and what the bed capacity of each is. [213464]

Miss Melanie Johnson: Data are not available for the area requested. Information on the number of independent and local authority-owned care homes and places for adults aged 18 and over in North Yorkshire at 31 March 2001 is shown in the table.

Information on individual locations of care homes and the capacity of each is not available centrally.

I understand from the Chair of the Commission for Social Care Inspection (CSCI) that figures for later years were collected by the National Care Standards Commission, and now CSCI, but comparable details are not available.

Number of independent and local authority-owned care homes and places for adults aged 18 and over in North Yorkshire[1] at 31 March 2001

		Rounded numbers
	Independent[2,3]	Local authority[4]
Homes	510	40
Places	9,230	1,320

[1] Nursing care relates to North Yorkshire health authority; residential care relates to York and North Yorkshire councils with social services responsibilities.
[2] Independent home figures includes nursing and residential care homes
[3] Nursing home figures include places in general nursing homes, mental nursing homes, private hospitals and clinics.
[4] Local authority home figures include residential care homes only.

RA and RH(N) form A

Chiropodists/Podiatrists

Miss Begg: To ask the Secretary of State for Health what recent discussions he has had with organisations representing chiropodists and podiatrists; and what issues were discussed. [214054]

Dr. Ladyman: I met the Society of Chiropodists and Podiatrists on 4 November 2004 and my right hon. Friend the Minister for Health met the Allied Health Professions Federation on 14 October 2004 and 31 January 2005. We cannot comment on discussions with particular organisations unless the body concerned has indicated to what extent it wishes us to.

Miss Begg: To ask the Secretary of State for Health what estimate he has made of the number of practising chiropodists and podiatrists who will not seek registration with the Health Professional Council. [214055]

Mr. Hutton: The title chiropodist or podiatrist is dependent upon achieving registration with the independent regulator, the Health Protection Council (HPC). In October 2004 10,123 chiropodists and podiatrists were registered with the HPC.

Community Hospitals

Dr. Murrison: To ask the Secretary of State for Health how many community hospitals there were in England in each year since 1997. [215869]

Mr. Hutton *[holding answer 10 February 2005]:* The Department does not collect this information.

Consultant Urologists

Dr. Richard Taylor: To ask the Secretary of State for Health how many consultant urologists are working in the NHS in the areas served by the *(a)* Birmingham and Black Country and *(b)* West Midlands South strategic health authority; and how many are over the age of 55 years in each case. [214917]

Dr. Ladyman: The table shows the numbers of hospital, public health medicine and community health services (HCHS) consultants within the urology speciality in Birmingham and the Black Country strategic health authority (SHA) and West Midlands South SHA, and the numbers in each SHA within the specified age group.

Number (headcount)

As at 30 June 2004	All ages	Of which 55 and over
Birmingham and the Black Country	25	9
West Midlands South	15	4

Source:
Department of Health medical and dental workforce census.

Consultants

Mr. Laws: To ask the Secretary of State for Health what the total expenditure by his Department on external

consultants was in *(a)* 1996–97 and *(b)* 2003–04; and what the estimated cost of employing external consultants will be in (i) 2004–05, (ii) 2005–06, (iii) 2006–07 and (iv) 2007–08. [211687]

Ms Rosie Winterton: Expenditure by the Department on external consultancy and professional services in each year since 1997 is shown in the table.

	£ million
1996–97	14.699
1997–98	12.694
1998–99	7.332
1999–2000	8.132
2000–01	6.531
2001–02	6.800
2002–03	7.266
2003–04	10.031

Centrally held estimated consultancy costs for later years are not available and could not be obtained without disproportionate cost.

Dentistry

David Hamilton: To ask the Secretary of State for Health if he will make a statement on the results of his most recent meeting with the Scottish Health Minister on bringing in foreign dentists to Scotland. [203054]

Ms Rosie Winterton: My right hon. Friend the Secretary of State for Health has not held a recent meeting with the Scottish Health Minister on bringing foreign dentists to Scotland.

Dr. Murrison: To ask the Secretary of State for Health how much money his Department has spent in total on the Keeping in Touch scheme to recruit dentists back into the NHS. [209194]

Ms Rosie Winterton: The cost of the Keeping in Touch (KIT) scheme in 2004–05 is £169,287 to date, covering grants to KIT scheme team members, salaries and administration costs.

Sir Paul Beresford: To ask the Secretary of State for Health when he expects the working group on undergraduate dental school places to publish its report; and whether the dental profession has been involved in the working group. [211728]

Ms Rosie Winterton *[holding answer 31 January 2005]:* The group, which included among its members the former Dean of Newcastle Dental School who is currently co-chair of the General Dental Council's Visiting Panel, held its final meeting on 19 November 2004. It recommended the establishment of a joint implementation group (JIG), co-chaired by the Department of Health and the Higher Education Funding Council for England (HEFCE). The JIG held its first meeting on 18 January 2005 and will submit its initial proposals for consideration at the HEFCE board meeting on 24 February.

Sir Paul Beresford: To ask the Secretary of State for Health what steps he plans to take to attract more dentists to the Community Dental Service. [211732]

Ms Rosie Winterton *[holding answer 31 January 2005]:* On 15 December 2004, we issued for consultation a report, "Creating the Future: Modernising careers for salaried dentists in primary care", copies of which are available in the Library. The report proposes reforms to the roles, education and career structures of salaried primary care dentists—those working in community dental services, salaried personal dental services and dental access centres, and salaried general dental practitioners—and the framework of leadership and pay principles within the context of wider reform of national health service dentistry. The consultation period ends on 31 March 2005.

Hywel Williams: To ask the Secretary of State for Healthhow many full-time equivalent dentists were employed by the NHS in England per 10,000 of the population in the last three years for which figures are available. [213325]

Ms Rosie Winterton: Information on a whole time equivalent basis is not available, as dentists working in the general dental service (GDS) and personal dental service (PDS) are able to vary the amount of hours they work and to vary their national health service commitment. The majority of dentists working in the GDS do some private work.

The available information is for the number of NHS dentists (headcount) per 10,000 population in England and is given in the table for September for the years 2002, 2003, 2004. The figures given cover dentists working in the GDS and PDS.

Year (September)	*Dentists per 10,000 of the population*
2002	3.84
2003	3.88
2004	4.01

Mr. Laurence Robertson: To ask the Secretary of State for Health (1) what plans he has to increase the number of NHS dentists in *(a)* England and *(b)* Gloucestershire; and if he will make a statement; [213923]

(2) how many NHS dentists are in practice in *(a)* England and *(b)* Gloucestershire; and if he will make a statement. [213924]

Ms Rosie Winterton *[holding answer 3 February 2005]:* At 31 December 2004, there were 19,810 dentists (General Dental Service and Personal Dental Service) in practice in England and 259 in Gloucestershire.

We are undertaking the most far-reaching reforms of national health service dentistry since 1948, supported by the biggest investment programme in the history of NHS dentistry. We are providing NHS dentistry with extra funding of over £250 million a year from 2005–06, an increase of nearly 20 per cent. over 2003–04 levels. We are also funding an extra 170 dental training places from this October (a 25 per cent. increase) supported by £80 million capital investment. We are recruiting the

equivalent of 1,000 extra dentists this year and we have allocated £59 million to improve access to NHS dentistry.

Within this programme, primary care trusts (PCTs) in the Avon, Gloucestershire and Wiltshire Strategic Health Authority (SHA) are planning to interview eight dentists from Poland. The SHA has received £2 million from the access funding and the three PCTs in Gloucestershire have reported proposals to spend their share on commissioning additional capacity to provide for the registration of 7,100 patients and the treatment of 900 additional orthodontic patients. In addition, West Gloucestershire PCT is one of the 16 PCTs in England receiving assistance from the Department's dental access support team. With the team's support a new dental practice has been established in Cinderford, in the Forest of Dean, and there are plans to establish a new four surgery practice within the centre of Gloucester city by mid-2005.

Tom Cox: To ask the Secretary of State for Health how many dental schools are operating within the Greater London area. [214387]

Ms Rosie Winterton: There are two undergraduate schools: Guy's Kings and St. Thomas', and Queen Mary's University London. In addition, the Eastman Dental Institute provides postgraduate training education for dentists.

Mr. Burstow: To ask the Secretary of State for Health how many NHS *(a)* general dental service and *(b)* personal dental service dentists have left the NHS for wholly private practice in (i) England, (ii) each strategic health authority and (iii) each primary care trust in each year since 1997. [213172]

Ms Rosie Winterton *[holding answer 1 February 2005]:* We do not routinely collect information about dentists' private practice. The great majority of dental practices treat both private and national health service patients. The Office of Fair Trading Report, "The private dentistry market in the UK", published in March 2003, estimated that, out of 11,000 dental practices, about 210 are totally private. We are not aware of any dentists with personal dental service contracts who have sought to reduce the value of their contractual commitment to the NHS.

NHS Dentists

Sarah Teather: To ask the Secretary of State for Health what the percentage change in the number of NHS dentists in north-west London has been in each year since 1997, broken down by parliamentary constituency. [214562]

Ms Rosie Winterton: The following table shows the percentage change in the number of general dental service or personal dental service dentists, each year, in north-west London from 1997 to 2004, by parliamentary constituency.

Percentage

Parliamentary constituency name	*1997–98*	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*	*2003–04*

Source:
Dental Practice Board

Sarah Teather: To ask the Secretary of State for Health what percentage of dentists in *(a)* North West London Strategic Health Authority, *(b)* Brent and *(c)* Brent, East has stopped taking NHS patients in each year since 1997. [214563]

Ms Rosie Winterton: The table shows by North West London strategic health authority, Brent local authority, Brent East parliamentary constituency and Brent Teaching Primary Care Trust, the numbers of dentists who stopped doing general or personal dental service work during the year as a percentage of the total number of dentists for the years 1997 to 2004. These figures do not include dentists who moved to other areas and continued to work in the general or personal dental services. The dentists could have ceased doing national health service work for a number of different reasons, for example retirement or to take a short-term absence, as well as because the dentists only wished to treat private patients.

Percentages per year

	1997	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*

Brent Teaching	4.3	5.2	6.1	3.6	6.0	3.9	6.1	2.3

Source:
Dental Practice Board

Sarah Teather: To ask the Secretary of State for Health what the average waiting time to become a patient of an NHS dentist in north-west London has been in each year since 1997, broken down by parliamentary constituency. [214564]

Ms Rosie Winterton: The Department does not collect this information centrally.

Departmental Contracts

Mr. Hancock: To ask the Secretary of State for Health how many contracts in his Department have been granted to *(a)* EDS, *(b)* Fujitsu and *(c)* jointly in each of the last two years; whether they were open to competition; for what they were granted; for how much; over what period of time; and if he will make a statement. [211616]

Mr. Hutton: The Department does not hold centrally a record of individual contracts for all policy areas nor does it have similar details for its agencies. However, information is available in the major information technology procurement areas for the Department and shows only one contract has been let to Fujitsu over the last two years. It was an open competition under Official Journal of the European Community/Official Journal of the European Union rules for the provision of IT systems for the primary and acute care sectors as part of the national programme for IT southern regional cluster. The contract, which will run over nine years, commenced on 30 June 2004 and has a value of £896 million. EDS was an unsuccessful bidder for this contract.

Departmental Expenditure

Mrs. Anne Campbell: To ask the Secretary of State for Health how much and what percentage of his Department's expenditure went on research and development in each year between 2001–02 and 2003–04. [206985]

Miss Melanie Johnson: The total departmental expenditure on research and development, and what percentage of the Department's total net expenditure this represents is shown in the table.

	Total research and development spend (£ million)	*Research and development as a proportion of net Departmental spend (percentage)*
2001–02	538	0.80
2002–03	574	0.86
2003–04	not available	not available

Note:
These figures Include expenditure on research and development by agencies sponsored by the Department.

Mrs. Anne Campbell: To ask the Secretary of State for Health (1) what expenditure was made by *(a)* his Department and *(b)* agencies for which his Department is responsible on research projects by private sector companies in each financial year since 2001–02; [206991]

(2) what expenditure *(a)* his Department and *(b)* agencies for which his Department is responsible have made on research and development by private sector companies in each financial year since 2001–02; [206994]

(3) how much and what percentage of the expenditure of each agency sponsored by his Department went on research and development in each year between 2001–02 and 2003–04; [206999]

(4) what expenditure was made by *(a)* the Department and *(b)* agencies for which the Department is responsible to research and development projects undertaken by organisations other than university departments, Government-funded research establishments and private sector companies in each year since 2001–02. [207015]

Miss Melanie Johnson: The information available is shown in the tables.

Mrs. Anne Campbell: To ask the Secretary of State for Health how much *(a)* his Department and *(b)* each agency for which his Department is responsible spent on research and development with overseas Government laboratories or research establishments, including collaborative Government funded laboratories and research establishments, in each year between 2001–02 and 2003–04. [207001]

Miss Melanie Johnson: Expenditure by the Department on research and development projects where the contractor undertaking the research was based overseas was as follows:

	Amount (£)
2001–02	0
2002–03	9,547
2003–04	34,704

None of the Department's executive agencies incurred expenditure of this sort in the years in question.

Departmental Policies

Mr. Pike: To ask the Secretary of State for Health if he will set out, with statistical information relating as directly as possible to Burnley constituency, the effects on Burnley of his Department's policies and actions since 2 May 1997. [214720]

Miss Melanie Johnson: The Government has put in place a programme of national health service investment and reform since 1997 to improve service delivery in all parts of the United Kingdom. There is significant evidence that these policies have yielded considerable benefits for the Burnley constituency.

For example:

At the end of November 2004, the number of people waiting more than nine months for in-patient treatment within Burnley, Pendle and Rossendale primary care trust (PCT) had fallen to 0, from 497 in June 2002.

At the end of November 2004 the number of patients waiting over 13 weeks for out-patient treatment within Burnley, Pendle and Rossendale PCT had fallen to 326, from 1,267 in June 2002.

Figures for December 2004 show that all patients within Burnley, Pendle and Rossendale PCT are able to be offered an appointment with a general practitioner within two working days, an improvement from 74.2 per cent., in June 2002.

Burnley, Pendle and Rossendale PCT's financial allocation increased to £265 million for 2004–05 a real terms increase of 7.1 per cent. By 2007–08 the PCT's financial allocation will increase to £371.2 million.

In June 2003, at East Lancashire hospitals national health service trust, 90.6 per cent., of patients spent less than four hours in accident and emergency from arrival to admission, transfer or discharge. Figures for September 2004 show an improvement to 94.0 per cent.

Between September 2003 and June 2004 the number of consultants at East Lancashire hospitals NHS trust has increased from 182 to 184. There were 2,143 nurses at the trust in September 2003.

In the Burnley local authority area death rates from cancer per 100,000 population were 194.5 in 2003, compared with 197.1 in 1997.

In the Burnley local authority area death rates from coronary heart disease per 100,000 population were 153.0 in 2003, compared with 228.0 in 1997.

The latest phase of modernisation of Burnley general hospital will include 170 in-patient medical beds, an acute rehabilitation suite and a 15 station renal satellite dialysis unit.

Office for National Statistics

Dr. Stoate: To ask the Secretary of State for Health (1) if he will set out, with statistical evidence relating as closely as possible to the constituency, the effects of changes to his Department's policies on the Gravesham constituency since 1997; [215352]

(2) if he will set out, with statistical evidence relating as closely as possible to the constituency, the effects of the changes to his Department's policies on the Dartford constituency since 1997. [215393]

Ms Rosie Winterton: The Government have put in place a programme of national health service investment and reform since 1997 to improve service delivery in all parts of the United Kingdom. There is significant evidence that these policies have yielded considerable benefits for the Dartford and Gravesham areas.

For example:

At the end of November 2004, the number of people waiting more than nine months for inpatient treatment within Dartford, Gravesham and Swanley primary care trust (PCT) has fallen to zero from 680 in June 2002.

At the end of September 2004, the number of patients waiting over 13 weeks for outpatient treatment within Dartford, Gravesham, and Swanley PCT has fallen to 390 from 809 in June 2002.

In 2003, at the Dartford and Gravesham NHS Trust 84.1 per cent., of patients spent less than four hours in accident and emergency from arrival to admission, transfer or discharge. Figures for September 2004 show an improvement to 98.6 per cent.

Between September 1997 and June 2004, the number of consultants at the Dartford and Gravesham NHS Trust has increased from 52 to 58. The number of nurses increased from 796 in September 1997 to 868 in September 2003.

Figures for December 2004 show that 100 per cent. of patients within Dartford, Gravesham and Swanley PCT are able to be offered an appointment with a primary care professional within two working days.

In the Dartford local authority area, death rates from cancer per 100,000 population have fallen from 192.1 in 1997 to 183.3 in 2003. In the Gravesham local authority area death rates from cancer per 100,000 have fallen from 200.6 in 1997 to 185.0 in 2003.

In the Dartford local authority area, death rates from coronary heart disease per 100,000 population have fallen from 134.5 in 1997 to 89.9 in 2003. In the Gravesham local authority area, death rates from coronary heart disease have fallen from 139.0 in 1997 to 110.4 in 2003.

Dartford, Gravesham, and Swanley PCT allocation has received an allocation of £214.2 million in 2004–05. In the recently announced PCT allocations for 2006–07 and 2007–08, Dartford, Gravesham and Swanley PCT will receive an increase of £23 million in 2006–07 and £26 million in 2007–08. A total increase of 19.3 per cent., over the two years. By 2007–08, Dartford, Gravesham and Swanley PCT will receive an allocation of £299 million.

Jon Trickett: To ask the Secretary of State for Health if he will set out, with statistical evidence relating as closely as possible to Hemsworth constituency, the effects of changes to departmental policy since 1997 on Hemsworth constituency. [214498]

Miss Melanie Johnson: The Government have put in place a programme of national health service investment and reform since 1997 to improve service delivery in all parts of the United Kingdom. There is significant evidence that these policies have yielded considerable benefits for the Hemsworth constituency.

For example:

At the end of November 2004, the number of people waiting more than nine months for in-patient treatment within Eastern Wakefield Primary Care Trust (PCT) had fallen to 131, from 380 in June 2002.

At the end of September 2004 the number of patients waiting over 13 weeks for out-patient treatment within Eastern Wakefield PCT had fallen to 425, from 1,055 in June 2002.

Figures for December 2004 show that all patients within Eastern Wakefield PCT are able to be offered an appointment with a primary care professional within two working days, an improvement from 68.7 per cent. in June 2002.

Eastern Wakefield PCT's financial allocation increased to £189.1 million for 2004–05 a real terms increase of 7.3 per cent.

Between September 2002 and June 2004 the number of consultants at Mid Yorkshire Hospitals NHS Trust has increased from 202 to 211.

In the Wakefield metropolitan district council area death rates from cancer per 100,000 population have fallen to 201.5 in 2003, from 217.2 in 1997.

In the Wakefield Metropolitan District Council area death rates from coronary heart disease per 100,000 population have fallen to 125.9 in 2003, from 178.2 in 1997.

In 2003 both Pinderfields general hospital and Dewsbury and district hospital received new cardiac catheter laboratories.

Mr. McNamara: To ask the Secretary of State for Health if he will set out, with statistical information relating as directly as possible to the Hull, North constituency, the effects on Hull, North of his Department's policies and actions since 2 May 1997. [211800]

Miss Melanie Johnson: The Government have put in place a programme of national health service investment and reform since 1997 to improve service delivery in all parts of the United Kingdom. There is significant evidence that these policies have yielded considerable benefits for the Hull, North constituency.

For example:

At the end of November 2004, the number of people waiting more than nine months for inpatient treatment within West Hull Primary Care Trust (PCT) had fallen to zero, from 424 in June 2002.

At the end of September 2004, the number of patients waiting over 13 weeks for out-patient treatment within West Hull PCT had fallen to 233, from 1,140 in June 2002.

Figures for December 2004 show that all patients within West Hull PCT are able to be offered an appointment with a primary care professional within two working days, an improvement from 63.3 per cent. in June 2002.

West Hull PCT's financial allocation increased to £163.4 million for 2004–05, a real terms increase of 6.4 per cent.

In September 2002, at Hull and East Yorkshire Hospitals NHS Trust, 63.7 per cent. of patients spent less than four hours in accident and emergency from arrival to admission, transfer or discharge. Figures for September 2004 show an improvement to 95.7 per cent.

Between September 2000 and September 2003, the number of consultants at Hull and East Yorkshire Hospitals NHS Trust has increased from 187 to 234. The number of nurses increased from 2,161 to 2,399.

In the Kingston upon Hull local authority area, death rates from cancer per 100,000 population have risen to 224.6 in 2002, from 222.1 in 1997.

In the Kingston upon Hull local authority area, death rates from coronary heart disease per 100,000 population have fallen to 154.6 in 2002, from 180.3 in 1997.

In March 2003, a new women's and children's hospital was opened at the Hull Royal Infirmary, which brings together all maternity, gynaecology and children's out-patients services on the same site.

A £6 million eye hospital, opened in November 2002, with 12 new beds and three theatres, enables 1,000 additional eye operations per year.

£60 million private finance initiative oncology centre development at Castle Hill, to open in 2006.

£29 million new cardiac centre announced by my right hon. Friend the Secretary of State, on a visit to Hull Royal Infirmary on 13 January 2004. The new unit will be at Castle Hill Hospital and will employ an additional 150 staff.

An additional magnetic resonance imaging scanner was delivered to Hull Royal Infirmary in March 2001.

A replacement linear accelerator was delivered to Princess Royal Hospital in January 2001.

Linda Perham: To ask the Secretary of State for Health if he will set out, with statistical information relating as closely as possible to the constituency, the effects of his Department's policies since 2 May 1997 on the constituents of Ilford North. [215205]

Dr. Ladyman: The Government have put in place a programme of national health service investment and reform since 1997 to improve service delivery in all parts of the United Kingdom.There is significant evidence that these policies have yielded benefits for the Ilford North constituency.

For example:

At the end of November 2004, the number of people waiting more than nine months for inpatient treatment within Redbridge primary care trust (PCT) fell to zero, from 384 in June 2003.

At the end of September 2004, the number of patients, waiting over 13 weeks for outpatient treatment within Redbridge PCT has fallen to 914, from 1,710 in June 2003.

Figures for June 2003 show that 82.2 per cent., of patients within Redbridge PCT are able to be offered an appointment with a primary care professional within two working days. In December 2004, the figure was 100 per cent.

In the Redbridge PCT area, death rates from cancer per 100,000 population have fallen to 172.6 in 2003, from 176 in 1997.

In the Redbridge PCT area, death rates from coronary heart disease per 100,000 population have fallen to 127.7 in 2003, from 146.7 in 1997.

Between September 2001 and June 2004, the number of general practitioners at Redbridge PCT has increased from 120 to 129.

In September 2001, figures show 90 practise nurses within Redbridge PCT. Figures for September 2003 show 89.

In June 2003, figures show 110 dentists within Redbridge PCT. Figures for September 2004 show an increase to 120.

Over the period 2003–04 to 2005–06, Redbridge PCT has received an increase in funding of £40.9 million, an increase of 19.7 per cent.

Mr. Kevan Jones: To ask the Secretary of State for Health if he will set out, with statistical information as directly related as possible to the constituency, the effect on the constituency of North Durham of his Department's policies since June 2001. [214675]

Miss Melanie Johnson: The Government have put in place a programme of national health service investment and reform since 1997 to improve service delivery in all parts of the United Kingdom. There is significant evidence that these policies have yielded considerable benefits for the North Durham constituency.

For example:

At the end of November 2004, the number of people waiting more than nine months for in-patient treatment within Durham and Chester-Le-Street primary care trust (PCT) had fallen to 0, from 284 in June 2002.

At the end of November 2004 the number of patients waiting over 13 weeks for out-patient treatment within Durham and Chester-Le-Street PCT had fallen to 149, from 1,048 in June 2002.

Figures for December 2004 show that all patients within Durham and Chester-Le-Street PCT are able to be offered an appointment with a general practitioner within two working days, an improvement from 89.6 per cent., in June 2002.

Durham and Chester-Le-Street PCTs financial allocation increased to £142.5 million for 2004–05, a real terms increase of 6.3 per cent. By 2007–08 the PCTs financial allocation will increase to £197.6 million.

Between September 2003 and June 2004 the number of consultants at County Durham and Darlington acute hospitals NHS trusts has increased from 182 to 191. There were 1,946 nurses at the trust in September 2003.

In the Derwentside local authority area death rates from cancer per 100,000 population were 219.5 in 2003, compared with 228.4 in 1997.

In the Derwentside local authority area death rates from coronary heart disease per 100,000 population were 144.6 in 2003, compared with 219.0 in 1997.

In February 2002 and December 2004 new computed tomography scanners were delivered to the County Durham and Darlington acute hospitals NHS trust.

In February 2002 a new magnetic resonance imaging scanner was delivered to the trust.

Sources:
Department of Health, Office of National Statistics

Mr. Gordon Prentice: To ask the Secretary of State for Health if he will set out, with statistical information relating as directly as possible to Pendle constituency, the effects on Pendle of his Department's policies and activities since 2 May 1997. [215010]

Miss Melanie Johnson: The Government have put in place a programme of national health service investment and reform since 1997 to improve service delivery in all parts of the United Kingdom. There is significant evidence that these policies have yielded considerable benefits for the Pendle constituency.

For example:

At the end of November 2004 the number of people waiting more than nine months for inpatient treatment in the Pendle constituency had fallen to 0, from 497 in June 2002.

At the end of September 2004 the number of patients waiting over 13 weeks for outpatient treatment within Burnley, Pendle and Rossendale PCT had fallen to 669 from 1258 in June 2002.

Figures for December 2004 show that all patients within Burnley, Pendle and Rossendale are able to be offered an appointment with a primary care professional within two working days, an improvement from 74.2 per cent, in June 2002.

Burnley, Pendle and Rossendale PCPs financial allocation increased to £265 million for 2004–05 a real terms increase of 7.1 per cent. By 2007–08 the PCT's financial allocation will increase to £371.2 million.

In June 2002 at Lancashire Teaching Hospitals NHS Trust 92.5 per cent., of patients spent less than four hours in accident and emergency from arrival to admission, transfer or discharge. Figures for September 2004 show an improvement to 97.1 per cent.

Between September 2002 and September 2003 the number of consultants at Lancashire Teaching Hospitals NHS Trust has increased from 167 to 169. The number of nurses increased from 1915 to 1928.

In the Pendle local authority area death rates from cancer per 100,000 have fallen from 188.4 in 1997 to 171 in 2003.

In the Pendle local authority area death rates from coronary heart disease per 100,000 population have fallen from 205.3 in 1997 to 128.8 in 2003.

A multi-million pound flagship education centre for NHS staff has been unveiled at Royal Preston Hospital. It is the first stage of a major new building development.

Mr. Salter: To ask the Secretary of State for Health if he will set out, with statistical information relating as directly as possible to Reading, West constituency, the effects on Reading, West of his Department's policies and actions since 2 May 1997. [215803]

Ms Rosie Winterton: The Government has put in place a programme of national health service investment and reform since 1997 to improve service delivery in all parts of the United Kingdom. There is significant evidence that these policies have yielded considerable benefits for the Reading area.

For example:

At the end of November 2004, the number of people waiting more than nine months for in-patient treatment within Reading primary care trust (PCT) area has fallen to zero from 365 in June 2002.

At the end of September 2004, the number of patients waiting over 13 weeks for out-patient treatment within Reading PCT area has fallen to 211 from 1,250 in June 2002.

In 2003, at the Royal Berkshire and Battle hospitals NHS trust 82.4 per cent. of patients spent less than four hours in accident and emergency from arrival to admission, transfer or discharge. Figures for September 2004 show an improvement of 97 per cent.

Between September 1997 and June 2004, the number of consultants at the Royal Berkshire and Battle hospitals NHS trust has increased from 109 to 158. The number of nurses from 1,332 in September 1997 to 1,498 in September 2003.

Figures for December 2004 show that 100 per cent. of patients within Reading PCT area able to be offered an appointment with a primary care professional within two working days.

In the Reading local authority area, death rates from cancer per 100,000 population have fallen from 179.9 in 1997 to 184.1 in 2003.

In the Reading local authority area, death rates from coronary heart disease per 100,000 population have fallen from 133.7 in 1997 to 111.9 in 2003.

Reading PCT has received an allocation of £175.8 million in 2004–05. In recently announced PCT allocations for 2006–07 and 2007–08, Reading PCT will receive an increase of over £19 million (9.1 per cent.) in 2006–07, and an increase of over £21 million (9.2 per cent.) in 2007–08. By 2007–08 Reading PCT will receive an allocation of £249.3 million.

Notes:

1. Rates per 100,000 population standardised to the European Standard Population.
2. The cause of death was defined using the International Classification of Diseases, Ninth Revision (ICD-9) for 1997, and the International Classification of Diseases, Tenth Revision (ICD-10) for 2003. The codes used are listed as follows: Cancer (malignant neoplasms)—ICD-9140–208; ICD-10 COO-C97; Coronary Heart Disease—ICD-9 410–414; ICD-10120–125.
3. Usual residents of this area.
4. Deaths occurring in each calendar year.

Design

Alan Howarth: To ask the Secretary of State for Health who the ministerial design champion for his Department is. [215649]

Mr. Hutton: The Ministerial design champion for the Department is the Parliamentary Under-Secretary of State (Lords) Lord Warner.

Digital Hearing Aids

Mr. Lansley: To ask the Secretary of State for Health what the average waiting time for a patient to receive a digital hearing aid in England has been in each year since 2000. [216181]

Dr. Ladyman: This information is not held centrally.

Mr. Lansley: To ask the Secretary of State for Health how many audiology departments there are in England; what proportion are routinely fitting digital hearing aids; and what he expects the proportion to be in March. [216182]

Dr. Ladyman: There are 164 national health service audiology departments in England. 95 per cent. (156) are, as of 9 February 2005, routinely fitting digital hearing aids. By the end of March 2005 all areas will be doing so.

Delayed Discharges

Mr. Havard: To ask the Secretary of State for Health (1) if he will encourage hospitals to discharge patients into the community for treatment as soon as clinically possible to reduce exposure to MRSA and other hospital acquired infections; [215821]

(2) what guidance he has given to primary care trusts on funding the treatment of patients once they are discharged into the community to complete their treatment. [215822]

Dr. Ladyman: In England, the Government are committed to reducing the number of delayed discharges from hospital. The launch of the "Cash for Change" programme in 2001 signalled the Government's determination to tackle the problem of delayed hospital discharges through a major cash investment of £300 million over two years. By 2006, older people's services will receive an extra £1 billion a year to expand home care services, extra care housing, community equipment, services for carers and intermediate care. The number of delayed discharges has fallen from 7,065 to 2,742 between September 2001 and June 2004.

Since 5 January 2004, if a patient remains in hospital because social services have not provided the assessments or services the patient or their carer needs to be safely discharged, the local authority is liable to pay the national health service a charge per day of delay. The charge has been set at a level higher than the cost of providing services to support discharge and will act as an incentive to councils to improve their assessment and service provision. It also acts as a stimulus to ensure prompt discharge.

Hospitals are expected to take all practical measures to safeguard their patients from health care associated infections, as set out in the Chief Medical Officer's strategy "Winning Ways", published in December 2003.

It is for primary care trusts to manage their obligations effectively, within the total resources available to them. The position in Wales is a matter for the Welsh Assembly.

Doctors (Refugees)

Dr. Murrison: To ask the Secretary of State for Health (1) what progress his Department has made in employing refugee doctors; [214161]

(2) what assistance is given to refugee doctors to enable them to *(a)* register and *(b)* practise in this country. [214168]

Mr. Hutton: We have invested over £2 million in providing support, advice and training for refugee health professionals over the past four years. A significant amount of this funding has to gone to refugee doctors to help them develop their knowledge of the English language and their clinical skills. This investment has helped many refugee doctors pass the General Medical Council's English language and clinical competence exams, and therefore gain limited registration to practise medicine in the United Kingdom.

Like everyone else, refugee doctors must then apply in open competition for posts in the national health service. We have invested in curriculum vitae and interview skills coaching and NHS induction courses to help refugee doctors become more competitive at application stage. We have also supported the development of a national career advice and information website for refugee health professionals through North East London strategic health authority.

In addition to this, the NHS is making its own investment in the refugee workforce locally.

Drug Action Teams

Dr. Starkey: To ask the Secretary of State for Health what role his Department is allocating to drug action teams (DATs) in delivering the Government's alcohol strategy; and what funding is being provided to DATs for that role. [216395]

Miss Melanie Johnson: At present the Department is not allocating any role to drug action teams (DATs) in delivering the Government's alcohol strategy nor is funding directly provided. However, a large number of Drug Action Teams have voluntarily taken on alcohol within their remit and these are now known as Drug and Alcohol Action Teams.

Drugs

Tom Cox: To ask the Secretary of State for Health what the waiting time is in the Greater London area for a person suffering from drug addiction to receive treatment; and if he will make a statement. [215164]

Dr. Ladyman: A person waiting to receive treatment for drug addiction in Greater London has the following waits (projected regional average across all 33 boroughs) for December 2004:

	Weeks
In-patient treatment	2.8
Residential rehabilitation	2.5
Specialist prescribing	2.4
General practitioner prescribing	1.4
Structured day care	1.6
Structured counselling	2.2

Full waiting times data, including breakdown by each drug action team area—in London, are available on the National Treatment Agency for substance misuse website at http://www.nta.nhs.uk.

Mr. Connarty: To ask the Secretary of State for Health what studies his Department has undertaken of treatment regimes for drug abuse in other countries. [214278]

Miss Melanie Johnson: The Department has not commissioned any formal studies into treatment regimes for substance misuse in other countries.

However, to help ensure the best current policy and practice, the Department and National Treatment Agency draw on a wide range of expertise on the treatment of drug misuse to develop guidance, guidelines and policy. This allows knowledge of local, national and international approaches to influence developments.

Mr. Cummings: To ask the Secretary of State for Health what the average waiting time is for residential drug rehabilitation in the Easington constituency; and how many patients are awaiting treatment. [214106]

Miss Melanie Johnson: The average waiting time information is not available at constituency level.

The National Treatment Agency for Substance Misuse reports that the average waiting time for residential drug rehabilitation placements commissioned by County Durham Social Services Department, which covers the Easington constituency is 2.5 weeks, calculated from the date of assessment at an identified rehabilitation provider to the date of admission. This figure only includes individuals who were actually admitted to residential rehabilitation.

The number of patients awaiting treatment in Easington is low, and therefore not disclosable due to issues of patient confidentiality.

Mr. Cummings: To ask the Secretary of State for Health how many patients received treatment for drug abuse in Easington constituency over the last three years. [214454]

Miss Melanie Johnson: This information is not collected by constituency.

In 2003–04, 967 people were in contact with structured drug treatment services within the Durham Drug Action Team. Comparable figures were not published for the previous two years.

Source:
National Treatment Agency

Mr. Flook: To ask the Secretary of State for Health what the average waiting time is for a residential drug rehabilitation place in Somerset. [214473]

Miss Melanie Johnson: The average waiting time for a residential drug rehabilitation place in Somerset was four weeks in December 2004.

Source:
National Treatment Agency

E111 Forms

Mr. Don Foster: To ask the Secretary of State for Health what estimate his Department has made of the number of British citizens possessing E111 forms issued *(a)* before and *(b)* after August 2004; and if he will make a statement. [213292]

Mr. Hutton: About three and a half million old-style E111s were issued in each of the last three years. New-style E111s began to be issued, on a per person rather than per family basis, from August 2004. About three million have now been issued.

Mr. Key: To ask the Secretary of State for Health what steps he has taken to publicise the expiry of old E111 reciprocal health certificates and the introduction of new ones; and if he will make a statement. [215177]

Mr. Hutton: Old-style forms E111 ceased to be valid on 31 December 2004. The United Kingdom started issuing new style E111s from mid-August 2004. A marketing campaign was begun in October 2004 with a press release and paid advertising in the national press. 10 million information flyers, and associated posters, giving information about the need to obtain new E111s were made available at a number of high street outlets and through the travel trade. The Post Office has run a separate poster campaign in their offices. About 3 million new style E111s have been issued to date. A further marketing campaign about E111 and its eventual replacement by the European Health Insurance card is planned to run between now and September when issue of the card in the UK is planned to start.

Eating Disorders

Ms Keeble: To ask the Secretary of State for Health (1) how many strategic health authorities provide outreach workers to support people with eating disorders in the community; [215960]

(2) how many primary care trusts commission outreach workers to support people with eating disorders living in the community. [215961]

Ms Rosie Winterton: This information is not collected centrally. There are at least five assertive outreach teams operating within each strategic health authority. All such teams can have people with eating disorders on their caseloads. However, the activity information captured centrally for assertive outreach teams is not broken down by diagnostic criteria.

Engagements

Mr. Don Foster: To ask the Secretary of State for Health what ministerial visits are planned for each minister in his Department in the next six months; and if he will make a statement. [214022]

Ms Rosie Winterton: For reasons of security, it would not be appropriate to disclose the information requested.

EU Committees

Angus Robertson: To ask the Secretary of State for Health how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Committee on the approximation of the laws, regulations and administrative provisions of the member states concerning the manufacture, presentation and sale of tobacco products met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [215445]

Miss Melanie Johnson: The Experts' Committee established under Article 10 of European Union Directive 2001/37/EC has to date met three times on 23 September, 2002 (Italian presidency), 10 February 2003 (Irish presidency) and 15 November 2004 (Dutch presidency), each time at the headquarters of the European Commission in Luxembourg. The United Kingdom was represented at two of those meetings by a departmental official. However, no official attendance list was kept. A summary record of each of the meetings can be found on the European Commission website at www.europa.eu.int/comm/index_en.htm. In addition, an ad hoc expert working group on the directive met in September 2003 and 18 February 2004. The UK expert's role was to provide an update on regulation of tobacco nationally and to provide an update on the implementation of the Directive in the UK. The UK Government's priorities for the work of the expert committee are to ensure that the Directive provisions are implemented effectively across the EU and that the Directive is strengthened in line with responses to the 2004 consultation.

Angus Robertson: To ask the Secretary of State for Health how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch Presidency of the EU the Advisory Committee on the training of dental practitioners met, when and where these meetings took place, what UK Government expert was present; and if he will make a statement. [214774]

Mr. Hutton: The Advisory Committee on Dental Training did not meet during these presidencies, and is unlikely to do so again.

Angus Robertson: To ask the Secretary of State for Health how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch Presidency of the EU the Advisory Committee on the training of chemists met, when and where these meetings took place, what UK Government expert was present; and if he will make a statement. [214775]

Mr. Hutton: The Advisory Committee on Pharmaceutical Training did not meet during these presidencies, and is unlikely to do so again.

Angus Robertson: To ask the Secretary of State for Health how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Committee of senior officials on public health met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [215912]

Mr. Hutton: The European Union Committee of Senior Officials on Public Health (CSOPH) met in Brussels on 30 June 2003, 3 December 2003 and 9 June 2004. The next meeting of the CSOPH is scheduled for the 17 February 2005 in Brussels. Two senior departmental officials attend these meetings.

I refer the hon. Member to the series of Command Papers on prospects for the EU-Cm 6174 laid in April 2004, Cm 6310 laid in September 2004 and Cm 6450 laid in February 2005, which cover the periods of the above presidencies. Copies are available in the Library and on the Foreign and Commonwealth Office's website at: www.fco.gov.uk/commandpapers.

NHS Appointments

Mr. Burstow: To ask the Secretary of State for Health how many and what percentage of patients failed to attend NHS appointments in *(a)* England, *(b)* each region and *(c)* each strategic health authority in each year since 1997. [216375]

Mr. Hutton: The number of patients not attending an out-patient appointment which includes first and subsequent appointments in England from 1997–98 to 2003–04 is shown in the following table.

	Number of patients who did not attend out-patient appointment	*Percentage of patients who did not attend out-patient appointment*
1997–98	5,629,429	11.9
1998–99	5,648,971	11.8
1999–2000	5,882,510	12.0
2000–01	5,954,819	12.0
2001–02	5,947,730	11.9
2002–03	5,885,369	11.7
2003–04	5,876,438	11.5

Source:
KH09 and QMOP Department of Health Returns

Information on the number of patients not attending an out-patient appointment, which includes first and subsequent appointments by region from 1997–98 to 2001–02 and by strategic health authority from 2002–03 to 2003–04 has been placed in the Library.

Female Prisoners

Mr. Oaten: To ask the Secretary of State for Health what estimate his Department has made of the proportion of female prisoners who are users of prescription medication *(a)* on entering prison and *(b)* on release. [214984]

Dr. Ladyman: No such estimate has been made.

Freedom of Information

Dr. Julian Lewis: To ask the Secretary of State for Health what his policy is in respect of the publication *(a)* on the departmental website and *(b)* by placing copies in the Library of (i) all or (ii) a selection of the information disclosed in response to Freedom of Information requests since January. [215213]

Ms Rosie Winterton: The Department's policy is to assess each request for information in terms of both the public interest in disclosure and whether the information is of sufficient interest to justify publication on the Departments website. Information that passes both tests is placed on the website at the same time as it is released to the applicant. We do not place information released under Freedom of Information in the Library unless the applicant specifically asks us to do so.

Guidance on publication schemes, issued by the Department for Constitutional Affairs in July 2002, recommended that where information is disclosed to an individual in response to a request under the Freedom of Information Act, Departments and non-departmental public bodies should consider whether the information disclosed is of general interest and include released information in the publication scheme where appropriate.

General Practitioners

Mr. Burstow: To ask the Secretary of State for Health pursuant to the answer of 5 January 2004, *Official Report*, column 192W, on general practitioner referral, what his Department's policy is on encouraging direct referral of patients by general practitioners to *(a)* therapists, *(b)* hospital diagnostics and *(c)* other general practitioners with a specialist interest. [213536]

Mr. Hutton: The Department encourages direct referrals to any healthcare service where clinically appropriate and in line with primary care trust commissioning arrangements.

Mr. Lansley: To ask the Secretary of State for Health whether he plans to increase the flexibility of continued professional development for general practitioners, with particular reference to opportunities offered to those working in rural or remote medical practices. [212137]

Mr. Hutton: Responsibility for work force planning and development lies with strategic health authorities, in consultation with primary care trusts (PCTs). Provision of, and participation in, continuing professional development for general practitioners is the responsibility of the postgraduate deaneries and individual GPs respectively.

We accept that continuing professional development should be flexible and responsive to the needs of individual practitioners, their patients and the organisations they work in. It is for this reason that the new GP contract specifically includes an element for protected time to allow GPs and their practice staff opportunities for development, but which also allows GPs, with support from their PCTs, to decide what their local development needs are and how best to meet them.

Mr. Burstow: To ask the Secretary of State for Health how many general practitioners there were per 100,000 population in *(a)* England, *(b)* each strategic health authority and *(c)* each primary care trust for each year since 1997. [216388]

Mr. Hutton: Information on the number of general practitioners, excluding retainers, registrars and locums, per 100,000 weighted population in England broken down by strategic health authority and by primary care trust in each year since March 2002 has been placed in the Library.

Information prior to 2002 is not available in a comparable format.

Mr. Flook: To ask the Secretary of State for Health if he will list by name and address each of the general practitioner surgeries in *(a)* Mendip primary care trust (PCT), *(b)* South Somerset PCT, *(c)* Somerset Coast PCT and *(d)* Taunton Deane PCT; and what is the number of full-time equivalent (i) doctors and (ii) nursing staff in each. [214615]

Ms Rosie Winterton: The names and address of general practitioner surgeries in each of the areas above and number of full-time equivalent doctors and nursing staff are not held centrally. However, the list of names and addresses for general medical practitioners for each of the primary care trusts in Somerset can be found at the following website: http://195.105.0.110/pcis/gpreports.asp

Linda Perham: To ask the Secretary of State for Health how many general practitioners were practising in the London borough of Redbridge at 31 December *(a)* 1997 and *(b)* 2004. [214950]

Dr. Ladyman: The Department does not hold the number of general practitioners in the London borough of Redbridge from 1997. However, the table shows the number of GPs in North East London from 1997 and the number of GPs in Redbridge Primary Care Trust from 2001.

All practitioners (excluding retainers registrars and locums)[1] as at 1997 2001 and June 2004 for specified organisations

Number (headcount)

		1997	2001	June 2004
Q06	North East London	849	855	927
SNA	Redbridge PCT	—	111	118

[1] All practitioners (excluding retainers, registrars and locums) include general medical service (GMS) unrestricted principals, personal medical service (PMS) contracted GPs, PMS salaried GPs, restricted principals, assistants, salaried doctors (Para 52 SFA), PMS other and flexible career scheme GPs and GP returners.

Note:
Data as at 1 October 1997, 30 September 2001 and 30 June 2004.

Department of Health GMS and PMS statistics.

Health Professionals

Mr. Edward Davey: To ask the Secretary of State for Health (1) what plans he has to ensure that numbers of health professionals in London's schools are sufficient; and if he will make a statement: [215317]

(2) how much the NHS has spent on school nurses in each constituency in London in each year since 1997; [215319]

(3) how many children per school nurse there have been in each London constituency in each year since 1997; [215320]

(4) how many schools in each constituency in London have had a full-time school nurse in each year since 1997; [215321]

(5) which health professionals are employed in London's schools. [215322]

Dr. Ladyman: Information on the number of school nurses employed in the national health service was collected in the September 2004 non-medical workforce census. This data will be published shortly. In line with our policy of "Shifting the Balance of Power", it is the responsibility of primary care trusts (PCTs), in conjunction with strategic health authorities, to ensure that services meet the needs of their local communities.

The Department recognises the important role that school nurses have to play in addressing health priorities, and this has been reinforced in the children's national service framework and the Chief Nursing Officer's review of the nursing, midwifery and health visiting contribution to vulnerable children and young people. We are providing new funding so that by 2010 every PCT, working with children's trusts and local authorities will be resourced to have at least one full-time, year-round qualified school nurse working with a group of primary schools and its related secondary school.

Dr. Murrison: To ask the Secretary of State for Health what tests are conducted on health professionals trained in England for *(a)* HIV, *(b)* tuberculosis and *(c)* hepatitis B. [214764]

Miss Melanie Johnson: The information requested is contained in the recent publication from NHS Employers: "The management of health, safety and welfare issues for NHS staff" which is available at http://www.nhsemployers.org/docs/blue_book_complete.pdf

Health Services (North Durham)

Mr. Kevan Jones: To ask the Secretary of State for Health what the level of capital of expenditure on health care was in North Durham in *(a)* 2001 and *(b)* the last year for which figures are available. [214458]

Miss Melanie Johnson: The information requested is shown in the following table and is based on the net book value of purchased capital additions for the national health service trusts and primary care trusts in the North Durham area.

	£000
2001–02	18,145
2003–04	11,454

Notes:
1. The figures in the table do not include Private Finance Initiative (PFI) expenditure where PFI costs are revenue expenditure in the books of NHS bodies.
2. Capital investment will vary between years owing to the investment decisions at individual NHS bodies.
Sources:
1. Audited summarisation schedules of relevant NHS trusts 2001–02 and 2003–04
2. Audited summarisation schedules of relevant primary care trusts 2003–04

Mr. Kevan Jones: To ask the Secretary of State for Health what the change has been in waiting lists in North Durham since 1997. [214672]

Miss Melanie Johnson: The information requested is shown in the following tables.

In-patient waiting list and timebands figures for the following trusts

Month	Trust name	Patients waiting for admission by months waiting: Total	6 to 8 months	9 plus months	12 plus months
Quarter ending March of each year					
March 1997	Community healthcare: North Durham NHS trust	0	0	0	0
March 1997	North Durham acute hospitals NHS trust	5,474	933	465	0
March 1997	South Durham NHS trust	0	0	0	0

In-patient waiting list and timebands figures for the following trusts

Month	Trust name	Patients waiting for admission by months waiting: Total	6 to 8 months	9 plus months	12 plus months

Health Services (Somerset)

Mr. Flook: To ask the Secretary of State for Health (1) how many consultant episodes have been completed in Somerset in each year since 1997; [214479]

(2) what the *(a)* maximum and *(b)* average waiting times for in-patient treatment in Somerset have been in each year since 1997. [214480]

Ms Rosie Winterton: The number of consultant episodes completed in Somerset and the maximum and average waiting times for in-patient treatment in Somerset in each year from 1997 are shown in the table.

Strategic health authority (SHA) of residence: Q22 Somerset and Dorset in 2002–03 and 2003–04
Health authority of residence: QD5 Somerset between 1996–97 to 2001–02
Method of admission: elective (waiting list and booked cases)
Count of finished in-year admission episodes and mean time waited in days
Count of finished consultant episodes
National health service hospitals, England 1996–97 to 2003–04

	Health authority of residence or strategic health authority of residence		Median waiting time in days	Mean waiting time in days	Finished in-year admission episodes	Finished consultant episodes
1996–97	QD5	Somerset	43	72	37,147	109,314
1997–98	QD5	Somerset	47	89	36,475	106,767
1998–99	QD5	Somerset	53	101	43,555	119,281
1999–2000	QD5	Somerset	52	101	42,277	121,557
2000–01	QD5	Somerset	56	105	39,584	122,429
2001–02	QD5	Somerset	57	109	36,831	124,649
2002–03	Q22	Somerset and Dorset	46	84	104,165	349,061
2003–04	Q22	Somerset and Dorset	48	79	98,116	354,449

Finished in-year admissions
A finished in-year admission is the first period of in-patient care under one consultant within one healthcare provider, excluding admissions beginning before 1 April at the start of the datayear. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
Finished consultant episode (FCE)
An FCE is defined as a period of admitted patient care under one consultant within one healthcare provider. Please note that the figures do not represent the number of patients, as a person may have more than one episode of care within the year.
Ungrossed data
Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

Time waited

Time waited statistics from Hospital Episode Statistics (HES) are not the same as the published waiting list statistics. HES provides counts and time waited for all patients admitted to hospital within a given period whereas the published waiting list statistics count those waiting for treatment on a specific date and how long they have been on the waiting list. Also, HES calculates the time waited as the difference between the admission and decision to admit dates. Unlike published waiting list statistics, this is not adjusted for self-deferrals or periods of medical/social admission and decision to admit dates. Unlike published waiting list statistics, this is not adjusted for self-deferrals or periods of medical/social suspension.

Hospital Episode Statistics (HES), Department of Health

Health Services (Stockton, South)

Ms Dari Taylor: To ask the Secretary of State for Health how the number of *(a)* nurses and *(b)* doctors employed in Stockton, South has changed since 1997. [215312]

Miss Melanie Johnson: The information requested for those national health service organisations serving the Stockton, South constituency is shown in the tables.

Hospital, Public Health Medicine and Community Health Services (HCHS) Doctors1 and General Medical Practitioners (excluding retainers)2 for specified organisations

		As at 30 September	
		1997 All Doctors	2003 Doctors
Q10	County Durham & Tees Valley	2,015	2,329
Of which:			
RRY	Hartlepool & East Durham NHS Trust	126	n/a
RCH	North Tees Health NHS Trust	166	n/a
5E1	North Tees PCT	n/a	141
RVW	North Tees & Hartlepool NHS Trust	n/a	318
		292	459

n/a = Not applicable.

[1] Excludes Hospital Medical Hospital Practitioners and Hospital Medical Clinical Assistants, most of whom are GPs working part-time in hospitals.

Note:

Data as at 30 September every year.

Sources:

Department of Health General and Personal Medical Services Statistics.

Department of Health Medical and Dental Workforce Census.

Department of Health Non-medical Workforce Census.

Qualified Nursing, Midwifery & health visiting staff and Practice Nurses for organisations serving the Stockton South constituency

		As at 30 September	
		Nurses	
		1997	2004
Q10	County Durham & Tees Valley	7,732	9,084
Of which:			
RRY	Hartlepool & East Durham NHS Trust	710	n/a
RCH	North Tees Health NHS Trust	951	n/a
5E1	North Tees PCT	n/a	307
RVW	North Tees & Hartlepool NHS Trust	n/a	1,237
		1,661	1,544

n/a = Not applicable.

Note:

Data as at 30 September every year.

Sources:

Department of Health General and Personal Medical Services Statistics.

Department of Health Non-medical Workforce Census.

Ms Dari Taylor: To ask the Secretary of State for Health how many senior citizens in Stockton, South have received *(a)* free eye tests and *(b)* assistance for glasses and contact lenses since 1997. [215313]

Miss Melanie Johnson: Figures for the number of sight tests and vouchers by constituency and for senior citizens are not collected centrally. The nearest available is for patients aged 60 and over for sight tests, at former health authority (HA) or current primary care trust (PCT) levels.

The table shows the number of national health service sight tests paid by Tees HA for the years ending 31 March 2000 to 2003 and the four PCTs covering the Stockton South constituency for the year ending 31 March 2004.

General ophthalmic services: number of sight tests paid by HAs and primary care PCTs covering the Stockton South constituency for patients aged 60 and over for the years ending 31 March 2000 to 2004

	HA name/ PCT name	Number of sight tests for aged 60 and over (thousand)
1999–2000	Tees HA	40.9
2000–01	Tees HA	39.8
2001–02	Tees HA	42.5
2002–03	Tees HA	42.9
2003–04	North Tees PCT	13.2
	Hartlepool PCT	10.7
	Middlesbrough PCT	15.3
	Langbaurgh PCT	10.1
2003–04	Total	49.3

Notes:

1. Eligibility for NHS sight tests was extended to patients aged 60 and over from 1 April 1999. PCTs took over responsibilities from HAs in October 2002.

2. Sight tests can not be equated to the numbers of patients. Although most people do not come back for a sight test within the year, some patients suffering from medical conditions are advised to have re-examinations sooner.

3. Patients aged 60 and over are not eligible for free NHS optical vouchers for help towards glasses or contact lenses on age grounds. However, some patients will be eligible under other category such as adult income support, Pension Credits guarantee credit or holders of HC2/HC3 certificates. It is not possible to break down voucher numbers by age for these categories.

Healthy Eating (Hospitals)

Simon Hughes: To ask the Secretary of State for Health what his Department's policy is on promoting healthy eating in hospitals. [214326]

Miss Melanie Johnson: The 2004 White Paper, "Choosing Health" commits the Government to developing nutritional standards for all foods provided by the national health service, increasing access to a range of healthier foods and taking account of the different formats of provision including restaurant, fast food and vending.

The NHS recipe book, issued in May 2001 as part of the better hospital food programme, also requires hospitals to meet estimated average requirements for food energy, and reference nutrient intake for all other nutrients. These standards were set by the Committee on Medical Aspects of Food Policy, now known as the Scientific Advisory Committee on Nutrition.

Hospital Patient Statistics

Mr. Streeter: To ask the Secretary of State for Health what the average length of stay for an in-patient at *(a)* Derriford Hospital, Plymouth and *(b)* other tertiary hospitals in England was in the latest period for which figures are available. [213985]

Mr. Hutton: Data on tertiary hospitals cannot be separately identified. Data at trust level have been placed in the Library.

Influenza

Mr. Lansley: To ask the Secretary of State for Health when he will publish the updated influenza pandemic plan. [211551]

Miss Melanie Johnson: The influenza pandemic plan is being drafted and will be published in due course.

Lancashire Teaching Hospital

Mr. Hoyle: To ask the Secretary of State for Health if he will make a statement on the foundation hospital application of Lancashire teaching hospitals. [215513]

Mr. Hutton: Lancashire Teaching Hospitals National Health Service Trust is a wave 1A applicant for national health service foundation trust (NHSFT) status. The trust received the Secretary of State's support last July to make an application to Monitor (the statutory name of which is the independent regulator of NHS Foundation Trusts) for authorisation as an NHSFT, on retaining three stars in the 2003–04 NHS performance ratings. The trust is currently working towards Monitor's requirements for authorisation and has been placed in a second group in wave 1A for authorisation from 1 April 2005. Monitor will make a positive decision to authorise Lancashire Teaching Hospitals NHS Trust as an NHSFT after having satisfied itself about the Trust's preparedness and financial viability for foundation status.

Leeds Community and Mental Health Trust

Mr. Best: To ask the Secretary of State for Health if he will conduct an assessment of the level of consultation undertaken by the Leeds Community and Mental Health Trust with its service users on the use of its day treatment centres; [214902]

(2) if he will make a statement on the Leeds Community and Mental Health Trust's *(a)* review and re-alignment of services and *(b)* its impact on service users; [214903]

(3) what assessment he has made of *(a)* the crisis resolution service being introduced by the Leeds Community and Mental Health Trust and *(b)* whether there are sufficient funds for its development without detriment to existing services; [214905]

(4) what assessment he has made of the effect of the new crisis resolution service adopted by the Leeds Community and Mental Health Trust on over-capacity on acute wards. [214910]

Miss Melanie Johnson: The consultation period on Leeds Mental Health Teaching National Health Service Trust's proposals for adult mental health service ran from November 2003 to until the end of March 2004 and included a one-day stakeholder event in March 2004.

Following a Commission for Healthcare Inspection review, it was agreed that Leeds Mental Health Teaching NHS Trust would implement a crisis resolution and home treatment service (CRHT) in line with the national service framework for mental health.

£1.4 million of funding has been made available to implement the crisis resolution service.

CRHT has significantly reduced the admission rate and provided home treatment for service users. Between November 2003 and January 2004, the trust admitted 513 patients. During the same period in 2004–05, the trust has admitted 428 patients—a 17 per cent. reduction in patient admissions.

The CRHT team sees 90 per cent. of patients referred to the service within four hours, seven days a week.

The trust believes that the redesign of adult services will deliver positive benefits to service users and carers and that it will not be detrimental to existing services.

Mr. Best: To ask the Secretary of State for Health what the cost to the Leeds Community and Mental Health Trust of purchasing acute beds from outside trust boundaries was in the most recent year for which figures are available; and why it has been necessary to purchase them. [214911]

Miss Melanie Johnson: Leeds Mental Health Teaching National Health Service Trust does not purchase acute beds from outside its boundaries. Such service provision is directly commissioned by the Leeds primary care trusts.

Mr. Best: To ask the Secretary of State for Health what the bed occupancy rate in the Leeds Community and Mental Health Trust in acute *(a)* under-65s and *(b)* over-65s wards is. [215099]

Miss Melanie Johnson: The average bed occupancy at Leeds Mental Health Teaching National Health Service Trust was 79.2 per cent. in 2003–04.

Source:
Department of Health form KH03

Licensing

Mr. Burns: To ask the Secretary of State for Health pursuant to the oral answer of 18 January, *Official Report*, column 679, on alcohol misuse, what advice his Department gave to the *(a)* Home Office and *(b)* Department for Culture, Media and Sport on the policy to extend licensing to allow 24-hour drinking; and if he will make a statement. [214152]

Miss Melanie Johnson *[holding answer 7 February 2005]:* The Department supported the policy in the Licensing Bill to give more flexible powers to local authorities on licensing hours, in order to address the

increasing problems of binge drinking and drunkenness. This advice was based in part on the positive experience of similar powers in Scotland since 1976.

Long-term Conditions

Mr. Pike: To ask the Secretary of State for Health when he proposes to publish the National Service Framework for long-term conditions including multiple sclerosis; and if he will make a statement. [216085]

Dr. Ladyman: We are making good progress and expect to publish the national service framework (NSF) shortly. The NSF sets the direction of travel for the next 10 years to improve health and social care services for people living with long-term neurological conditions. It addresses key areas to improve care and support across the neurological patient pathway from diagnosis, investigation and initial treatment, through rehabilitation and long-term support, to end of life care. It does not look at specific neurological conditions such as multiple sclerosis, rather it identifies the common issues affecting people with long-term neurological conditions and how these may be addressed. The principles in the NSF apply equally to improving quality of life and promoting independent living in anyone living with a long-term condition.

ME Treatment

Mr. Hoyle: To ask the Secretary of State for Health if he will make a statement on funding for ME treatment in Lancashire. [215514]

Miss Melanie Johnson: Individual primary care trusts are responsible for commissioning health services to meet the needs of their local population, including Mylagic Encephalomyelitis services, from within their general allocations. The specialist commissioning team has successfully bid to develop a specialist chronic fatigue syndrome service covering Lancashire and South Cumbria. This will be implemented from April 2005.

Medical Staff (Pharmaceutical Company Funding)

Tim Loughton: To ask the Secretary of State for Health which hospital trusts in England are employing *(a)* nurses and *(b)* doctors paid for in part or wholly by pharmaceutical companies. [210211]

Mr. Hutton: The Department does not collect this information.

Men's Health Tsar

Dr. Stoate: To ask the Secretary of State for Health if he will appoint a men's health tsar. [215014]

Miss Melanie Johnson: The Government's White Paper "Choosing Health" sets out a number of measures for the prevention of ill health in the population. The Department's work in the prevention and treatment of cancer and coronary heart disease will have a significant impact on men's health and the concerted action across Government to tackle root causes of ill-health in housing, education, employment and the environment should also have a positive impact. Therefore, the Department is not considering the appointment of a men's health tsar.

Mental Health

Lynne Jones: To ask the Secretary of State for Health pursuant to the answer from the Minister for Pensions of 2 February 2005, *Official Report*, column 942W, on benefit rates, if he will request that the Department for Work and Pensions make it its policy to collect figures for the number of people in hospital for more than a year living on the weekly benefit rate of £15.90 who suffer from mental ill-health. [216393]

Ms Rosie Winterton: We have no plans to request the Department for Work and Pensions to collect this information.

Mr. Cummings: To ask the Secretary of State for Health how many patients in the Easington constituency have consulted an NHS mental health doctor in each of the last three years. [214105]

Miss Melanie Johnson: This information is not held centrally.

Midwifery

Miss McIntosh: To ask the Secretary of State for Health what percentage of health authorities in England and Wales are experiencing staffing shortages in midwifery. [215954]

Mr. Hutton: The national health survey vacancy survey collects information from NHS organisations on the number and rate of vacancies lasting three months or more. The table shows the rate of vacancies lasting three months or more for midwives by strategic health authority area.

Department of Health Vacancies Survey, March 2004
NHS three-month vacancies by Government office region, strategic health authority area, qualified midwifery staff

		Qualified midwives			
		3 month vacancy March 2004		Staff in post September 2003	
		Rate percentage	Number	Whole-time equivalent	Headcount
England		3.3	619	18,444	23,941

Notes:
Three-month vacancy:
1. Three month vacancy information is as at 31 March 2004
2. Three month vacancies are vacancies which Trusts are actively trying to fill, which had lasted for three months or more (whole time equivalents)
3. Three month vacancy rates are three month vacancies expressed as a percentage of three month vacancies plus staff in post
4. Three month vacancy rates are calculated using staff in post from the Vacancy Survey, March 2004
5. Percentages are rounded to one decimal place
6. Figures where sum of staff in post (as at 31 March 2004) and vacancies is less than 10
7. Figures where sum of staff in post (as at 31 March 2004) and vacancies is zero

Staff in post:
1. Staff in post data is from the Non-Medical Workforce Census, September 2003

General:
1. Vacancy and staff in post numbers are rounded to the nearest whole number
2. Calculating the vacancy rates using the above data may not equal the actual vacancy rates
3. Due to rounding, totals may not equal the sum of component parts
4. Strategic HA figures are based on trusts, and do not necessarily reflect the geographical provision of health care
5. London Ambulance Service NHS Trust cannot be assigned to a particular Strategic Health Authority

Department of Health Vacancies Survey, March 2004
Department of Health Non-Medical Workforce Census, September 2003

Miss McIntosh: To ask the Secretary of State for Health what steps his Department is taking to increase the number of people in England and Wales training to become midwives. [215955]

Mr. Hutton: The Government have considerably increased the number of training places available for midwives. In 2003–04, 2,226 students entered training to become a midwife, an increase of 35 per cent., since 1996–97.

Furthermore, the Government are implementing a range of measures to recruit more midwives. These include improving pay and conditions, encouraging the national health service to become a better, more flexible and diverse employer, investing in childcare and continuing professional development, attracting returners and running national and international recruitment campaigns.

Miss McIntosh: To ask the Secretary of State for Health what percentage of midwifery students left their course before completion in each of the last five years. [215956]

Mr. Hutton: Information for England on the percentage of pre-registration midwifery students who have left their university course is shown in the table. Data is not held before the 1994–95 financial year. No data is available for 2001–02. The attrition data for the 2002–03 academic year administered by the Higher Education Statistics Agency is in the process of being analysed.

	Percentage failing to complete courses
1994–95	22.08
1995–96	17.43
1996–97	21.84
1997–98	18.23
1998–99	17.17
1999–2000	14.59
2000–01	6.7

Note:

This data is based on a snapshot in time of a particular cohort(s) and therefore each year there will still be students who have yet to complete their course.

Mixed-sex Wards

Sandra Gidley: To ask the Secretary of State for Health how many mixed sex Nightingale wards are still in operation. [214954]

Ms Rosie Winterton: The information is not available in the format requested. National health service trusts report annually only on the total number of Nightingale wards which are in use.

The term "Nightingale" ward is used to describe a particular layout, that is an open-plan area, which has not been subdivided into bays or cubicles, and which offers dormitory-style accommodation for 12 or more patients.

Nightingale wards are not necessarily mixed-sex wards, but their old-fashioned layout offers patients little in the way of privacy. We have set clear standards requiring NHS trusts to provide single-sex accommodation for their patients, irrespective of the layout of the ward those patients occupy.

The elimination of Nightingale wards for older people is one of our key priorities for the NHS. 98 per cent. of all Nightingale wards for older people have been eliminated or will be replaced on completion of hospital developments schemes currently under way.

The elimination of Nightingale wards for other patient groups is being addressed through the hospital building programme currently under way. This will eliminate remaining Nightingale wards incrementally as it progresses.

MRSA

Mr. Brazier: To ask the Secretary of State for Health how many people contracted the MRSA virus within the East Kent hospitals trust area between January and March 2003; how many of these were children; and what the national average is for each. [210368]

Miss Melanie Johnson *[holding answer 27 January 2005]:* The Department introduced mandatory reporting of methicillin resistant staphylococcus aureus (MRSA) bacteraemias (blood stream infections) for national health service acute trusts from 1 April 2001. The mandatory scheme does not include information broken down by age groups. The latest data covers the year April 2003 to March 2004. This shows that the overall rate was 0.18 MRSA bloodstream infections per 1,000 bed days.

The number of MRSA bacteraemia reports for the East Kent hospitals trust between April 2003 and March 2004 was 70. The MRSA rate for the trust was 0.15 per 1,000 bed days, which is lower than the national average.

Multiple Myeloma

Mr. Havard: To ask the Secretary of State for Health how many people were diagnosed with multiple myeloma in each of the last 10 years. [215823]

Mr. Timms: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Colin Mowl to Mr. Dai Havard, dated 16 February 2005:

The National Statistician has been asked to reply to your recent Parliamentary Question concerning the number of people diagnosed with multiple myeloma in each of the last 10 years. I am replying in his absence. [215823]

The most recent available figures are for the year 2001. The number of newly diagnosed cases of multiple myeloma registered in the 10 years 1992 to 2001 are given in the table below.

Number of newly diagnosed cases of multiple myeloma[1] in England, 1992–2001

	Number of cases
1992	2,635
1993	2,688
1994	2,710
1995	2,820
1996	2,682
1997	2,701
1998	3,001
1999	2,889
2000	3,078
2001	2,859

[1] From 1992 to 1994, International Classification of Diseases, Ninth Revision (ICD-9) codes 203.0–203.1; from 1995 to 2001, International Classification of Diseases, Tenth Revision (ICD-10) code C90.

Office for National Statistics

In more detailed analyses of trends in incidence over time for a particular cancer, ONS use age-standardised rates. These control for differences in the size and age structure of the population and allow unbiased comparison of incidence rates over time. Age-standardised incidence rates (directly standardised to the European standard population) for multiple myeloma in England; for each year from 1992–2001, are given in Table 10 of the Annual Reference Volume, Cancer Statistics: Registrations, Series MB1 No. 32, which is available on the National Statistics website at: http://www.statistics.gov.uk/downloads/theme_health/MB1_32/MB1_32.pdf

Mr. Havard: To ask the Secretary of State for Health what the life expectancy is of a patient with multiple myeloma. [215824]

Mr. Timms: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Colin Mowl to Mr. Dai Havard, dated 16 February 2005:

The National Statistician has been asked to reply to your recent question concerning what is the life expectancy of a patient with multiple myeloma. I am replying in his absence. [215824]

Data on life expectancy for patients with specific types of cancer are not available. Survival data are calculated as the proportion of patients still alive at a given period after diagnosis. The latest

available one- and five-year survival rates for multiple myeloma in England and Wales are for adult patients (aged 15–99 years) diagnosed during 1996–99 and followed up to 31 December 2001. These figures are given in the attached table.

One- and five-year age-standardised[1] relative survival rates (percentage) for adult patients (aged 15–99 years) diagnosed with multiple myeloma[2] during 1996–99[3], England and Wales

		Percentage	
	Number of patients[4]	*One-year survival*	*Five-year survival*
Men	5,300	60	23
Women	4,754	62	23

[1] As cancer survival varies with age at diagnosis, rates have been age standardised (directly age standardised to the 1986–90 cancer patients population) to control for changes in the age profile of cancer patients over time.
[2] International Classification of Diseases, Tenth Revision (ICD-10) code C90.
[3] Complete five-year follow-up was available only for those diagnosed in 1996. For patients diagnosed in later years the most up-to-date estimates of shorter-term survival were used in this analysis of survival rates.
[4] Eligible patients included in the survival analysis. The criteria for excluding patient records are given in Health Statistics Quarterly 2000; 6: 71–80, for example where the registration was of a second (different) primary cancer: http://www.statistics.gov.uk/downloads/theme_health/HSQ6Book.pdf

National Patient Safety Agency

Sandra Gidley: To ask the Secretary of State for Health what assessment he has made of the impact of recent changes in the National Patient Safety Agency budget on patient safety. [214953]

Ms Rosie Winterton: The effectiveness of the National Patient Safety Agency (NPSA) is kept under regular review as part of the annual ministerial accountability review process.

As a result of the recent review of all of the Department's arm's length bodies, the NPSA is to take on additional responsibilities from April 2005 and will be funded appropriately to do so in its 2005–06 budget, which is nearing finalisation.

NHS Walk-in Centres

Tom Cox: To ask the Secretary of State for Health how many NHS walk-in centres there are in England. [215171]

Mr. Hutton: There are 62 operational national health service walk-in centres in England with a further 27 under development.

NHS (Vacancy Rates)

Mr. Lansley: To ask the Secretary of State for Health what the three-month vacancy rate is for *(a)* consultant psychiatrists, *(b)* psychiatric nurses and *(c)* all medical and dental staff in the NHS, for the latest period for which figures are available. [216160]

Mr. Hutton: The latest three-month vacancy data available is at March 2004.

The tables show the three-month vacancy rates for medical and dental staff, consultants within the psychiatry group and nurses within mental health.

Three month vacancy rate and number for all medical and dental staff and psychiatry consultants in England, March 2004

	3 month vacancy rate (percentage)	*3 month vacancy number*	*Staff in post (whole-time equivalent)*	*Staff in post (headcount)*
All doctors (excluding doctors in training)	4.3	1,666	37,081	44,957
Psychiatry group	9.6	334	3,155	3,503

Notes:
1. Three month vacancies are vacancies which trusts are actively trying to fill, which had lasted for three months or more (whole time equivalents).
2. Three month vacancy rates are three month vacancies expressed as a percentage of three month vacancies plus staff in post.
3. Vacancy and staff in post numbers are rounded to the nearest whole number.
4. Percentages are rounded to one decimal place.
5. * where the sum of the staff in post and number of vacancies is less then 10.
6. — where the sum of the staff in post and number of vacancies is 0.

NHS Business Services Authority

Dr. Murrison: To ask the Secretary of State for Health what he expects the financial effects to be of the NHS Business Services Authority taking over the functions of the Dental Practice Board. [204268]

Ms Rosie Winterton: As a result of the Arm's Length Body Review and the proposed merger of the Dental Practice Board with the Prescription Pricing Authority, NHS Pensions Authority and Counter Fraud and Security Management Services to create the NHS Business Services Authority, considerable efficiencies in delivering transactional services will be secured. However no detailed estimates have yet been made.

NHS Finance

Sue Doughty: To ask the Secretary of State for Health what the expenditure per weighted head of population was in *(a)* the Guildford and Waverley primary care trust area and *(b)* the Surrey and Sussex strategic health authority area in each year since 1992; and what the expenditure per weighted head of population was in England in each year since 1997. [214182]

Mr. Hutton: The 2003–04 to 2005–06 revenue allocations were the first time funding was made directly from the Department to primary care trusts. The Department announced the latest round of allocation for 2006–07 and 2007–08 on 9 February 2005.

From 1996–97 to 2002–03 allocations were made to health authorities.

Prior to this, allocations were made on a regional basis. These allocations do not contain information down to the Surrey and Sussex area.

Information covering allocations per weighted head of population for the period from 1996–97 to 2007–08 for national health service organisations within the Surrey and Sussex strategic health authority is shown in the table.

Allocations per weighted head of population to HAs and PCTs in Surrey and Sussex SHA area—1996 to 2008

£

	Allocation per weighted head of population						
Health authorities	*1996–97*	*1997–98*	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*
East Surrey	432	448	483	641	703	751	846
East Sussex Brighton and Hove	404	446	469	642	705	758	829
West Surrey	439	450	489	643	706	749	839
West Sussex	406	427	463	624	684	733	821

	Allocation per weighted head of population		
Primary care trusts	*2003–04*	*2004–05*	*2005–06*
Adur, Arun and Worthing	924	1,011	1,106
Bexhill and Rother	977	1,064	1,157
Brighton and Hove City	918	1,005	1,098
Crawley	900	986	1,078
East Elmbridge and Mid Surrey	1,017	1,109	1,207
East Surrey	977	1,065	1,159
Eastbourne Downs	982	1,069	1,162
Guildford and Waverley	990	1,079	1,174
Hastings and St. Leonards	880	966	1,058
Horsham and Chanctonbury	934	1,017	1,105
Mid-Sussex	960	1,046	1,137
North Surrey	966	1,054	1,147
Sussex Downs and Weald	919	1,003	1,095
Western Sussex	967	1,053	1,145
Woking	989	1,078	1,173

Allocations per weighted head of population for England 1996 to 2008

England	£
1998–99	464
1999–2000	629
2000–01	689
2001–02	738
2002–03	817
2003–04	916
2004–05	1,003
2005–06	1,097

Information on allocations per weighted head of population for England from 1996–97 onwards is available in the Library.

Smoking

Tim Loughton: To ask the Secretary of State for Health (1) what his latest estimate is of the percentage of people who have used the NHS Stop Smoking Services

(2) how many people have used the NHS Stop Smoking Services in each of the last five years; and what the average cost to the NHS per person is of NHS recommended smoking cessation services. [210137]

Miss Melanie Johnson: The Department funded an evaluation of the national heath service stop smoking services programme, which was led by a team at Glasgow university.

The results will be published in due course.

The information is shown in the table.

Information about NHS stop smoking services in England, 1999–2000 to 2003–04

	1999–2000[2]	*2000–01*	*2001–02*	*2002–03*	*2003–04*
Number of people setting a quit date[1]	14,600	132,500	227,300	234,900	361,200
Number of successful four week quitters (self report)	5,700	64,500	119,800	124,100	204,900
Cost of NHS stop smoking services (£ million)[3]	5.0	21.5	24.7	24.5	36.2
Cost per person setting a quit date (£)[3]	344	162	109	104	100
Cost per successful four week quitter (£)[3]	872	334	206	197	177
Total net ingredient costs of prescriptions for NRT7 bupropion (£ million)[4]	[5]0.5	16	29	30	37

[1] Total number of people who have used the NHS stop smoking services is not collected centrally, however information is collected on the number of people setting a 'quit date'; some people may use the service but not go onto set a quit date.
[2] In 1999–2000, NHS smoking cessation services were set up in the 26 health action zones (HAZ) in England and services were rolled out across the NHS to the rest of England in 2000–01.
[3] The cost of the NHS stop smoking services and the cost per successful quitter in 1999–2000 and 2000–01 included the cost of giving clients 'free' NRT/NRT (or vouchers); from 2001–02 onwards the cost of the service and the cost per quitter excluded the cost of NRT or Zyban on prescription. Only a few nicotine replacement therapy products were available on prescription until 17 April 2001, when all NRT products became available on NHS prescription. Bupropion (Zyban) became available on NHS prescription from June 2000. Therefore, the costs from 2001–02 onwards are not directly comparable with the costs in previous years.
[4] Net ingredient cost is the basic cost of a drug and does not take account of discounts, dispensing fees or prescription charge income. Note that some prescriptions for NRT/Bupropion are dispensed to people not using the NHS stop smoking services.
[5] This figure only includes the costs of NRT, as bupropion (Zyban) was not available until June 2000.

Nurses' Uniforms

Dr. Murrison: To ask the Secretary of State for Health (1) what policy guidelines have been issued to NHS trusts since 1997 on the wearing by nurses of hospital uniform while travelling to and from their place of work *(a)* privately and *(b)* by public transport; [214734]

(2) what policy guidelines have been issued to NHS trusts since 1997 on the laundering of nurses' uniforms privately by individuals at home; and if he will make a statement; [214763]

(3) what research has been carried out since 1997 to establish the *(a)* mechanical efficiency and *(b)* hygienic effectiveness, of the washing of nurses' uniforms at home; and if he will make a statement; [214765]

(4) what monitoring is conducted by NHS trusts to ensure nurses' uniforms laundered at home are free from bacterial contamination; and if he will make a statement; [214766]

(5) what policy guidelines are in place for NHS trusts on the laundering of *(a)* bed linen for hospital beds and *(b)* curtains around hospital beds; and if he will make a statement. [214767]

Mr. Hutton: Health Service Guidance (95) 18, published in 1995, provides advice and guidance to NHS organisations on the use of laundry practices. This includes hospital bed linen and curtains around beds. The guidance covers the issue of temperature and disinfection. With regard to nurses' uniforms, dilution in domestic washing machines will effectively disinfect them. Single use aprons and other equipment should be used if contamination is likely and if a uniform is visibly soiled then it should be put through a healthcare laundry intended for such items.

It is for individual national health service trusts to determine their own policy on the laundering of nurses' uniforms and the wearing of those uniforms outdoors. The prevention and control of infection is part of the overall risk management within the healthcare environment and NHS trusts are required to have risk management protocols in place with regard to effective laundry practices. The monitoring of the cleanliness of nurses' uniforms should be part of these protocols.

Patient Charges Review

Mr. Burstow: To ask the Secretary of State for Health if he will make a statement on the Department's review of patient charges; what the remit of the review is; and when it is expected to report. [208102]

Ms Rosie Winterton: The national health service dentistry patient charges working group, chaired by Harry Cayton, was asked to recommend how the system of NHS dentistry charges might be made easier for

patients to understand and simpler for dentists to operate, without increasing the overall proportion of the dentistry budget raised. We are currently considering the group's proposals and expect to publish Regulations, for consultation, in the summer of 2005.

Payment by Results Initiative

Mr. Dismore: To ask the Secretary of State for Health when he expects to introduce the payment by results initiative; what assessment he has made of the likely consequences of the initiative for the Royal Free Hospital; and if he will make a statement. [210479]

Mr. Hutton: Payment by results has been in use by national health service organisations, for a small amount of activity, since the beginning of the financial year 2004–05. The planned, gradual implementation path will result in approximately 90 per cent. of hospital activity being covered by payment by results by 2008–09.

Payment by results will offer the Royal Free Hospital, and all other NHS providers, a fair reward for activity undertaken. The way in which the scheme affects the hospital will depend on its efficiency and future activity.

Mr. Lansley: To ask the Secretary of State for Health what mechanisms are in place to ensure that hospitals and other healthcare providers are able to remove themselves from the menus of outlying primary care trusts if their total treatment costs lie above the total tariff revenue they will receive through payment by results. [210827]

Mr. Hutton: None. The use of the national tariff will be mandatory for all commissioners of national health service services.

Primary Care Trusts

Mr. Hoyle: To ask the Secretary of State for Health what estimate he has made of the optimum number of patients in a primary care trust. [215509]

Mr. Hutton: The new NHS White Paper of 1997 suggested that primary care groups (PCGs), the forerunners of primary care trusts (PCTs),

"may typically serve about 100,000 patients."

However, this was qualified by the acknowledgement that there must be flexibility to reflect local circumstances.

These local circumstances include the advantages that coterminosity between PCTs and local authorities brings, as this facilitates joint-working by the national health service and social services. Geography is also important, as rural PCTs would need to cover a much larger geographical area to serve the same population as urban PCTs. Finally the configuration of hospitals and other health providers results in natural health communities which are not of equal size across the country.

The impact of these local circumstances on size is such that the Department has never given a figure for the optimum number of patients in a PCT. However, PCTs have tended to be larger than PCGs, as a result of their greater functions and the desire to achieve economies of scale.

Pharmaceuticals Expenditure

Simon Hughes: To ask the Secretary of State for Health what the expenditure per capita was on pharmaceuticals in each OECD country in each of the last five years. [214361]

Ms Rosie Winterton: The data requested is available in the Organisation for Economic Co-operation and Development (OECD) publication "OECD Health Data 2004—a Comprehensive Analysis of 30 Countries". A copy is available in the Library. Information can also be accessed through the OECD website at: www.oecd.org.

Postage

Mr. George Osborne: To ask the Secretary of State for Health how much has been spent on postage by the Department in each year since 1997. [215018]

Ms Rosie Winterton: The spend on postage for each year since 1997 is shown in the table.

	Postage
1997–98	1,681,753
1998–99	1,823,559
1999–2000	1,675,084
2000–01	1,714,222
2001–02	1,836,572
2002–03	1,262,092
2003–04	1,116,166
Total	11,109,449

Prescription Charges

Mr. Burstow: To ask the Secretary of State for Health if he will estimate the administration cost of prescription charge pre-payment certificates per certificate. [208123]

Ms Rosie Winterton: In 2003–04, patients purchased 1,062,263 prescription pre-payment certificates from the Prescription Pricing Authority. During the period, the cost of administering the sale of these certificates was around £1.5 million. The estimated administrative cost was £1.41 per certificate.

Radiology

Mr. Burstow: To ask the Secretary of State for Health what representations he has received on the impact of the setting of targets on *(a)* total time in accident and emergency and *(b)* in-patient waiting times on radiology departments; and if he will make a statement. [213469]

Mr. Hutton: No recent representations have been received.

Research Reports

Mrs. Anne Campbell: To ask the Secretary of State for Health how many and what percentage of opportunities for research or consulting disseminated by the Department resulted in *(a)* research reports and *(b)* physical deliverables in each year since 2001–02. [207005]

Miss Melanie Johnson: The dissemination policy of the Department's directly funded Policy Research Programme (PRP) is to encourage publication of research findings widely and in different fora so they can inform policy and practice at different levels and in

different ways. All research projects commissioned by the PRP have at least one deliverable in the form of a final report and it is only in exceptional circumstances that a final report would not be made publicly available.

The number of PRP projects completed in the three years from 2001–02, and which resulted in a final report that underwent peer review, was:

	Number
2001–02	128
2002–03	59
2003–04	94

The Department also funds national research and development programmes that provide the evidence needed to underpin quality improvement and service development in the national health service. All research projects commissioned by these programmes result in a final report. Publication in peer review journals is explicitly encouraged.

The largest of the NHS research and development programmes, the Health Technology Assessment (HTA) programme, publishes in excess of forty reports a year in the HTA Monograph series. Full details can be found at www.ncchta.org.

The new and emerging applications of technology programme has separately generated the following number of new methods, procedures or prototypes.

	Number
2001–02	1
2002–03	4
2003–04	2

The Department has used the LINK collaborative research scheme as a means of sponsoring the pre-commercial or strategic development and assessment of new technology. The MedLINK programme, which ran from 1996 to 2001, supported projects with the potential to lead to new medical devices for prevention, diagnosis, monitoring or treatment of illness or injury. A total of 48 projects received Government support of £15 million. The number of those projects completed in the years in question and where the output included proof of principle prototypes was:

	Number
2001–02	11
2002–03	9
2003–04	7

Residential Care

Mr. Hurst: To ask the Secretary of State for Health how many people were resident in residential care homes in each year from 1991 to 2004. [215114]

Dr. Ladyman: Information is not centrally available on the number of people who were resident in residential homes. The number of places in residential and nursing care homes in England is shown in the table as at 31 March for the years 1991 to 2001.

I understand from the Chair of the Commission for Social Care Inspection (CSCI) that figures for later years were collected by the National Care Standards Commission, and now CSCI, but comparable details are not available.

Number of care home places as at 31 March, 1991–2001, England

Rounded numbers

At 31 March	*All places*	*Residential places*	*Nursing places*[1]
1991	457,800	324,200	133,500
1992	469,100	321,800	147,200
1993	486,500	318,100	168,400
1994	498,000	321,600	176,400
1995	506,800	321,500	185,300
1996	517,500	326,900	190,600
1997	534,400	338,100	196,300
1998	553,500	347,900	205,600
1999	546,200	344,000	202,200
2000	539,200	345,900	193,300
2001	528,000	341,200	186,800

[1] Nursing data includes places in general nursing homes, mental nursing homes and private hospitals and clinics.

Department of Health forms RAC5, KO36, RA and RH(N).

Roaccutane

Nick Harvey: To ask the Secretary of State for Health what assessment he has made of whether there is a correlation between the number of prescriptions for Roaccutane and recorded suicides in the last 10 years. [209345]

Ms Rosie Winterton: Isotretinoin (Roaccutane) is a prescription only medicine indicated for the treatment of severe acne (such as nodular or conglobate acne or acne at risk of permanent scarring). Its use is limited to specialists in dermatology (with expertise in the use of systematic retinoids for the treatment of severe acne and a full understanding of the risks of isotretinoin therapy and monitoring requirements).

The safety of isotretinoin has been closely monitored by the Medicines and Healthcare products Regulatory Agency, with expert advice from the committee on safety of medicines (CSM), since it was approved in 1983.

The yellow card scheme receives reports of suspected adverse drug reactions suspected to be associated with medicines. To date 22 cases of suicide that have been reported in association with isotretinoin. The first report was received in 1993. There does not appear to be any correlation between the frequency of these cases and isotretinoin usage data, which is estimated to be 30,000 treatment courses per year for the last ten years.

Warnings about the risk of depression and suicidal behaviour were added to the product information for prescribers and patients in 1998. Following a review of the isotretinoin product information by an expert working group of the CSM and within Europe these warnings have recently been strengthened, to include more explicit descriptions of the symptoms and behaviours associated with psychiatric disorders. The latest evidence of psychiatric disorders suspected to be

associated with isotretinoin will be further reviewed as a commitment of the recent European review, with the United Kingdom taking the leading role.

Safer Drinking

Mr. Burstow: To ask the Secretary of State for Health how much has been spent by his Department on encouraging safer drinking in each year since 1997. [215846]

Miss Melanie Johnson: I refer the hon. Member to the reply I gave my hon. Friend the Member for Stoke-on-Trent, Central (Mr. Fisher), on 9 February 2005, *Official Report*, column 1610W.

Salt

Mr. Greg Knight: To ask the Secretary of State for Health what recent discussions he has had with food manufacturers concerning salt levels in processed food; what recent progress has been made towards further reducing salt content therein; and if he will make a statement. [214177]

Miss Melanie Johnson *[holding answer 8 February 2005]:* I have been leading discussions with industry, together with the Food Standards Agency (FSA), to identify and implement a range of proposals to increase opportunities for people to make healthy choices in what they eat. As outlined in the recent White Paper, "Choosing Health", these are aimed at increasing the availability of healthier food including reducing the levels of salt, added sugars and saturated fat in prepared and processed food and drink.

At a stakeholder event on salt in November 2003, I called for industry to submit plans to reduce salt in processed food. To date, discussions have been held with and commitments received to reduce salt from over 60 organisations. Work is continuing with the industry to secure commitments to stepwise reductions, with the aim of reducing average intakes to six grams per person per day by 2010.

Secondment

Alan Simpson: To ask the Secretary of State for Health if he will list the people working within his Department on secondment from the private sector, broken down by *(a)* the organisation or industry they came from and *(b)* the policy responsibilities they have been given. [208625]

Ms Rosie Winterton: Inquiries within the Department have revealed no people currently working on secondment from the private sector.

Seroxat

Annabelle Ewing: To ask the Secretary of State for Health what guidance he has issued to general practitioners since August 2004 on prescription of Seroxat; and to which parts of the United Kingdom the guidance applies. [214588]

Ms Rosie Winterton: In October 2004, an article was published in the Medicines and Healthcare products Regulatory Agency/Committee on Safety of Medicines (MHRA/CSM) drug safety bulletin, 'Current Problems in Pharmacovigilance', which summarised key prescribing advice for Seroxat (paroxetine). This bulletin was sent to all doctors and pharmacists in the United Kingdom. On 6 December 2004, a letter was sent to all health professionals in the UK from the Chairman of the CSM announcing the results of the review of the safety of selective serotonin reuptake inhibitors (SSRIs) including Seroxat and providing prescribing advice for all SSRIs. A copy is available in the Library.

Shipman Inquiry

Mr. McNamara: To ask the Secretary of State for Health how many hours the Shipman Inquiry sat in public; how many statements were taken by the inquiry; and how many witnesses were called. [215624]

Mr. Hutton: Information about the number of hours the Shipman Inquiry sat in public is not available. However, the Inquiry held 228 days of oral hearings in public, 2,411 witness statements were obtained by the Inquiry, and 400 witnesses gave oral evidence to the Inquiry.

Southend Health Trusts

Mr. Amess: To ask the Secretary of State for Health if he will adjust the funding allocation to Southend health trusts to take account of differences between numbers of residents reported in the 2001 census and current numbers of residents. [216354]

Mr. Hutton: The 2006–07 and 2007–08 revenue allocations to primary care trusts (PCTs) were announced on 9 February 2005. These allocations included the revisions to the 2001 Census population data and also projected increases in populations. This means we are using the best available population data, which properly takes account of the challenges faced in areas with growing populations.

Supplements

Mr. Tredinnick: To ask the Secretary of State for Health (1) how many people have died from the adverse effects of vitamins and supplements in the last five years; [215784]

(2) when the Government expects the European Food Standards Agency to publish its findings regarding dosage levels in the context of the Food Supplements Directive; [215804]

(3) whether the Government supports appropriate labelling as a means of ensuring consumer *(a)* safety and *(b)* choice within the framework of the Food Supplements Directive; [215805]

(4) what assessment his Department has made of whether companies have moved businesses outside the European Union in response to the implementation of the Food Supplements Directive; [215806]

(5) how many vitamins and supplements have been removed from sale by the Food Standards Agency in the past five years due to safety concerns; [215810]

(6) how many representations he has received expressing concern about the Food Supplements Directive; which organisations that have made representations to his Department expressed support for the Government's policy towards the Directive; and

which organisations that have made representations to his Department have informed the Department that they have changed their policy on the Directive since submitting their original representation; [215811]

(7) what research the Government have carried out on the effects of the Food Supplements Directive on small specialist manufacturers and retailers; [215812]

(8) how many dossiers have been submitted for products to be included on the positive list under the Food Supplements Directive; [215813]

(9) what estimate his Department has made of the cost of putting together a dossier for inclusion in the positive list under the Food Supplements Directive; and what plans the Government have to provide financial assistance to small specialist manufacturers in putting together dossiers; [215814]

(10) which of the nutrient sources that are not on the positive list under the Food Supplements Directive his Department assesses as dangerous. [215815]

Miss Melanie Johnson: There is currently no system in the United Kingdom for recording adverse or fatal reactions to food supplements. A very small number of adverse reactions are reported through the general practitioner yellow card system used for medicines and forwarded to the Food Standards Agency (FSA) by the Medicines and Health Care products Regulatory Agency. The FSA is not aware of any vitamin supplements that have been removed from the shelves due to safety concerns. The provision of dossiers for nutrient sources not included in the positive lists will allow the safety of these to be assessed and for any sources considered dangerous to be identified.

The European Food Safety Authority is expected to publish its advice on maximum permitted levels of vitamins and minerals, which can be used in food supplements, in spring 2005.

This Government are fully committed to the view that, in the interest of consumer choice, the law should allow food supplements that are safe and properly labelled to be freely marketed. The Food Supplements Directive (FSD) meets these requirements.

A large number of representations were received during the negotiations on the FSD, during the consultation on the regulations and since the adoption of the directive. Consumers associations, such as *Which?*, support the FSD. Trade associations for the supplements industry supported the FSD at the time of its adoption but have since changed their position.

An assessment of the economic impact of the Food Supplements Regulations was made in the Regulatory Impact Assessment (RIA) published with the Regulations and included an assessment of the impact of the FSD on small businesses.

It is not appropriate for the UK Government to provide financial assistance for dossier production by small companies, as this would set a precedent to provide financial assistance for all new legislation. To date, dossiers for nine nutrient sources have been received by the FSA with a view to these being added to the positive lists in the FSD. The FSA is unaware of any company that has moved out of the European Union as a result of the FSD.

Treatment Costs

Mr. Flight: To ask the Secretary of State for Health what the average cost of *(a)* a general practitioner consultation and *(b)* an attendance at an accident and emergency department was in the last period for which figures are available. [215135]

Mr. Hutton: The average cost of a general practitioner surgery consultation was £18 in 2003–04. (*Source:* Unit costs of health and social care 2004 by the Personal Social Services Research Unit).

The Department collects unit cost and activity data from all national health service providers in England each financial year. This information is available in the document, "Payment by Results, Core Tools, 2004", a copy of which is available in the Library.

The average cost of a patient attending an accident and emergency department, and being either referred on from the department or discharged, in 2003–04 was £66.

Tsunami

David Taylor: To ask the Secretary of State for Health whether NHS counselling and family support services have been made available to the relatives of victims and witnesses of the Indian Ocean tsunami who are resident in the UK. [215638]

Ms Rosie Winterton: All the families bereaved by the tsunami have been allocated a family liaison officer to provide immediate support and help. For others who have been affected by the disaster, psychological therapy, counselling and support services are available in every strategic health authority.

Vaccination

Sandra Gidley: To ask the Secretary of State for Health how many people in each primary care trust have received the *(a)* flu and *(b)* pneumonia vaccine this winter; and what percentage of eligible people this represents in each case. [213088]

Miss Melanie Johnson: The information requested has been placed in the Library.

Vioxx

Paul Flynn: To ask the Secretary of State for Health (1) how many people in the UK were prescribed the painkiller Vioxx in each year since 1999; [211470]

(2) how many people in the UK suffered *(a)* heart attacks and *(b)* fatal heart attacks while prescribed the painkiller Vioxx in each year since 1999; [211471]

(3) how many people in the UK have been prescribed painkillers in the category of Cox-2 inhibitors in each of the last five years. [211472]

Ms Rosie Winterton: The number of reports of heart attack (myocardial infarction) received in association with rofecoxib (Vioxx) through the yellow card scheme is shown in table 1. It is important to note that doctors are asked to report suspected adverse reactions

regardless of any doubts about a causal association. Therefore, a report of a particular adverse reaction on the database does not necessarily mean that the drug caused it, and other factors such as the patient's underlying condition may have played a part. As with all spontaneous reporting schemes, under-reporting is an inherent feature and reporting may be stimulated by publicity. 12 of these reports were received following the withdrawal of rofecoxib on 30 September 2004.

Table 1

	Number of reports of myocardial infarction (MI)	*Number of reports of MI with a fatal outcome*
1999	6	1
2000	9	4
2001	7	1
2002	5	0
2003	7	0
2004	16	2

Table 2 shows the number of prescription items of cyclo-oxygenase 2 (COX-2) selective inhibitors that have been dispensed in the community in England from 1999 to 2003.

Table 2

Number of prescription items (thousand)

	Rofecoxib (Vioxx)	*Celecoxib (Celebrex)*	*Valdecoxib (Bextra)*	*Etoricoxib (Arcoxia)*
1999	162.6	—	—	—
2000	784.5	109.5	—	—
2001	1,269.8	109.5	—	—
2002	1,780.8	1,374.2	—	86.7
2003	2,128.6	1,957.8	26.5	396.1

Source:
Prescription cost analysis data from the Prescription Pricing Authority.

Volunteer First Aiders

Nick Harvey: To ask the Secretary of State for Health whether attendance by an unqualified volunteer first-aid 'responder' at the scene of an emergency call to the ambulance service is assessed as fulfilling his Department's target response time. [216327]

Ms Rosie Winterton: Guidance is set out in the statistical bulletin 'Ambulance services, England: 2003–04', which states that an emergency response may be by:

an emergency ambulance; or

a rapid response vehicle equipped with a defibrillator to provide treatment at the scene; or

an approved first responder equipped with a defibrillator, despatched by and accountable to the ambulance service.

Although the initial emergency response may be to send a rapid response vehicle or approved first responder, a fully equipped ambulance vehicle (car or ambulance) able to transport the patient in a clinically safe manner is still required to attend the incident within 14 to 19 minutes of the initial call, not within 14 to 19 minutes from arrival of initial responder.

A copy of the statistical bulletin 'Ambulance services, England: 2003–04' is available in the Library. A copy of the 'Data set change control procedure', which details this information will be placed in the Library.

Yorkshire, Wolds and Coast PCT (Office Accommodation)

Mr. Greg Knight: To ask the Secretary of State for Health what the total cost was of the acquisition and refurbishment of the Four Winds office accommodation at Driffield for the Yorkshire, Wolds and Coast primary care trust. [215070]

Miss Melanie Johnson *[holding answer 10 February 2005]:* North and East Yorkshire and Northern Lincolnshire strategic health authority reports that the rental cost of the Four Winds office accommodation in Driffield to the Yorkshire Wolds and Coast primary care trust is £72,500, plus value added tax, per annum. The accommodation was refurbished at the expense of the landlord.

Monday 21 February 2005

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Air Quality

Sarah Teather: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the link between trees in urban areas and air quality. [214937]

Alun Michael: Trees provide benefits to urban air pollution, but can also have adverse effects on air quality.

Adverse effects of trees on air quality

Trees can have adverse effects on air quality. They can release biogenic emissions known as volatile organic compounds (VOCs), which in combination with oxides of nitrogen (NOx), can contribute to the formation of other pollutants, especially ozone and particles. Ozone and particles are known to damage human health when in the lower atmosphere. In addition, trees release pollen, which can cause allergic reactions in sensitive people, and can be associated with hay fever and asthma.

Beneficial effects of trees on air quality

Trees deliver air quality benefits in two ways. Firstly, the cooling effect of their shade can directly reduce evaporative emissions from vehicles and other fuel storage, and by cooling homes and offices, power generation emissions are also lessened. Cooling also reduces the speed at which atmospheric chemical reactions occur.

Secondly, trees can remove various pollutants from the atmosphere via deposition to their leaves and needles. Trees can remove pollutants typically associated with urban air pollution such as ozone, nitrogen dioxide, sulphur dioxide, and ammonia reducing atmospheric concentrations and improving air quality. The pollutants generally collect in the leaves or bark which are then shed as part of the tree's life cycle. Trees also reduce concentrations of harmful particulate matter when leaf surfaces collect airborne particles, that are subsequently washed to the ground when it rains. The trees most suited to removal of particles are those with large leaf areas, or sticky or hairy leaves. Studies indicate that the hairy leaves of lime trees can collect four times as many PM10 particles than plane trees.

In addition, trees can have a positive benefit in terms of global warming by acting as a sink for carbon dioxide, which is the most common greenhouse gas. Trees remove carbon dioxide from the air and release oxygen during photosynthesis. The carbon is stored in the tree and the oxygen is released back into the atmosphere.

A recent report entitled "Trees and Sustainable Urban Air Quality", produced under the Natural Environment Research Council's Urban Regeneration and the Environment (URGENT) programme by the University of Lancaster and the Centre for Ecology and Hydrology Edinburgh, investigated the role of trees in reducing urban air pollution. The report concluded that trees that emit the least reactive VOCs and have large leaf surface areas have the best effect on air quality. Scots pine, common alder, larch, Norway maple, field maple, ash and silver birch were found to remove the most pollutants without contributing to the formation of new pollutants, whereas oaks, poplars and willows were found to have detrimental effects on air quality downwind.

In general, the report concludes that the effects on air quality of large scale planting of most tree species in cities would be positive and for example, by doubling the number of trees in the West Midlands, the concentration of small particles could be reduced by 25 per cent., avoiding 140 deaths that are currently caused by airborne particles each year in the West Midlands.

Catering Costs

Mr. George Osborne: To ask the Secretary of State for Environment, Food and Rural Affairs how much has been spent on *(a)* entertainment lunches involving civil servants and guests and *(b)* working lunches, in each year since 1997. [215048]

Alun Michael: All expenditure of official entertainment is made in accordance with published departmental guidance on financial procedures and propriety, based on principles set out in Government Accounting.

The following table shows the expenditure in fiscal years since the Department was formed in 2001, up to 31 December 2004 in the current year. Figures for Defra's predecessor Departments could be provided only by incurring disproportionate cost. Further analysis of hospitality which includes entertainment lunches and working lunches would also incur disproportionate cost.

	£000
2001–02	239
2002–03	450
2003–04	428
2004–05 to 31 January 2004	360

Cleaning Costs

Mr. George Osborne: To ask the Secretary of State for Environment, Food and Rural Affairs what the costs of cleaning the Department and its predecessors were in each year since 1997. [213832]

Alun Michael: Defra came into being in June 2001 and comparison with its predecessor is not possible. Since 2001, the figures for costs incurred were:

	£
2001–02	3,379,000
2002–03	3,861,000
2003–04	4,187,000
2004–05	4,161,000

Countryside Access

Mr. Liddell-Grainger: To ask the Secretary of State for Environment, Food and Rural Affairs how much

has been spent to date on implementing the right to roam as required by the Countryside and Rights of Way Act 2000. [217345]

Alun Michael: The Government have funded the Countryside Agency, National Park Authorities and the Planning Inspectorate to implement Part I of the Act throughout the whole of England by the end of 2005.

To date, the Countryside Agency has spent £38.83 million, consisting of £0.75 million in 1999–2000; £0.92 million in 2000–01; £5.17 million in 2001–02; £8.30 million in 2002–03; £13.25 million in 2003–04 and £10.44 million to date in 2004–05. National Park Authorities have been allocated an additional £4.725 million, consisting of £0.875 million in 2002–03; £2.0 million in 2003–04 and £1.85 million in 2004–05. Defra has also funded the Planning Inspectorate to deal with appeals against the inclusion of land on provisional maps and restriction appeals of £0.11 million in 2001–02; £0.84 million in 2002–03 and £1.20 million in 2003–04. The Planning Inspectorate has spent £1.23 million in the current financial year. Local authorities have been funded to establish local access forums under Part V of the Act.

Departmental Policies

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs what grants her Department makes available to villages in Chorley constituency. [216198]

Alun Michael: Villagers in Chorley constituency can benefit from:

Funding under the England Rural Development Programme. Within this Programme, the Rural Enterprise Scheme in particular incorporates measures such as support for basic services for the rural community and renovation and development of villages, which might be of particular interest (further information is available at www.defra.gov.uk/erdp.default.htm).

Various measures (administered with the Countryside Agency) to support parish councils, e.g. parish plans, the Quality Parish Investment Fund, the Clerk's Training Bursary Fund, where various Parish Councils within the Chorley constituency have received funding (e.g. Ulnes Walton for an IT project and Croston, Wrightington, Heapy and Appley Bridge for parish plans).

Defra's programme with the voluntary and community sector which supports infrastructure bodies, social and community enterprise and a collaboration with the Department of Work and Pensions promoting benefits uptake among the elderly.

Support under the Rural Stress Action Plan.

Other grants supporting Defra's objectives from English Nature, the Countryside Agency, the Forestry Commission and the Regional Development Agency (in this case the North West Regional Development Agency) may also be relevant to villagers in the Chorley constituency.

As announced in the Rural Strategy 2004, Defra is streamlining and devolving the funding support it provides.

Mr. Martyn Jones: To ask the Secretary of State for Environment, Food and Rural Affairs (1) if she will set out, with statistical information relating as directly as possible to the Clwyd, South constituency, the effects on Clwyd, South of her Department's policies and actions since 2 May 1997; [210324]

(2) if she will set out, with statistical information relating as directly as possible to the Clwyd, South constituency, the effect on the constituency of policies pursued by her Department at the Council of Ministers; and if she will make a statement. [215721]

Alun Michael: The Department does not hold statistical information for Welsh constituencies. This is a matter for the devolved Administration.

EU Committees

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Advisory Committee on the control and reduction of pollution caused by the discharge of hydrocarbons and other dangerous substances at sea met; when and where these meetings took place; which UK Government expert was present; and if she will make a statement. [214795]

Mr. McNulty: I have been asked to reply.

The Management Committee on Marine Pollution (MCMP) has replaced the Committee referred to by the hon. Member. The MCMP met once during each of the Italian, Irish and Dutch presidencies (in September 2003, March 2004 and September 2004) in Brussels. The United Kingdom was represented at each of these meetings by the Counter Pollution Response Branch of the Maritime and Coastguard Agency.

I refer the hon. Member to the series of Command Papers on prospects for the EU—Cm6174 laid in April 2004, Cm6310 laid in September 2004 and Cm6450 laid in February 2005, which cover the periods of the above Presidencies and are available on the FCO website at: www.fco.gov.uk/commandpapers.

Queen's Flight

Chris Grayling: To ask the Secretary of State for Environment, Food and Rural Affairs (1) on how many occasions her Department's Ministers used the Queen's Flight in each of the past five years; [213702]

(2) how much money her Department has spent on chartering aircraft in each of the past five years. [213714]

Alun Michael: Since 1999 the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year. The list published in 1999 covers the period 2 May 1997 to 31 March 1999. Where RAF/Private Charter aircraft are used this is shown in the list. The Government have also published on an annual basis the cost of all Ministers' visits overseas. Copies of the lists are available in the Libraries of the House. Information for 2004–05 will be published in due course. Advice on Travel by Ministers makes clear that special flights may be authorised when a scheduled service is not available, or when it is essential to travel by air, but the requirements of official or parliamentary business or security considerations or urgency preclude the journey being made by a scheduled service.

Street Cleaning

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs what guidelines she has issued on the optimum intervals for *(a)* street sweeping and *(b)* gulley emptying. [216887]

Alun Michael: The Code of Practice on Litter and Refuse, published in June 1999, sets out the recommended cleansing standards according to different categories of land. The code is currently being reviewed and we will consult on the draft code later this year.

HOUSE OF COMMONS

First Aid

Mr. Steen: To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission if he will issue first aid equipment including treatment for burns to all areas where constant boiling water cisterns have replaced kettles on the Commons estate. [216244]

Sir Archy Kirkwood: The installation of instant boiling water dispensers to replace kettles gives a number of safety benefits that reduce the risk of scalds and burns, including elimination of steam hazard, no overturning of kettles, no cords or flexes, no hot surfaces, reduced risk of spillage, and the controlled dispensing of boiling water.

The dispensers also offer energy savings, improved hygiene and improved electrical safety.

First aiders and first aid equipment are readily available in all buildings. The Occupational Health Safety and Welfare Service advice is that the most effective treatment for a scald or burn is immediately to place the affected area under cool running water for as long as it takes for the pain to subside. All dispensers are located close to a supply of cool running water. Arrangements are being made to provide first aid instructions for scalds and burns.

PUBLIC ACCOUNTS COMMISSION

Public Sector IT Projects

26. **Andrew Selous:** To ask the Chairman of the Public Accounts Commission what assessment he has made of the resources available to National Audit Office staff to enable them to facilitate greater parliamentary scrutiny of public sector IT projects. [217014]

Mr. Alan Williams: The National Audit Office already examines IT programmes and projects as part of the annual programme of value for money studies. For example last year its report, "Improving IT Procurement", examined the impact of the Office of Government Commerce's initiatives on departments and suppliers in the delivery of major IT-enabled projects. The cost implications of the National Audit Office's work are reflected in the resource bids submitted by the Comptroller and Auditor General, the head of the National Audit Office, for consideration by the Public Accounts Commission. The Commission will be examining the NAO's bid for 2005–06 at its meeting on 22 February.

PRIME MINISTER

BAE Systems

Jeremy Corbyn: To ask the Prime Minister what meetings he has had with *(a)* board members and *(b)* staff of BAE Systems since 1 January 2004. [216823]

The Prime Minister: My officials and I have meetings with a wide range of organisations and individuals. Representatives from BAE Systems attended a business breakfast in Downing street on 10 February 2004.

Departmental Policies

Mr. Gordon Marsden: To ask the Prime Minister if he will set out, with statistical information relating as closely as possible to the constituency, the effect of his Office's actions and policies on Blackpool, South constituency since *(a)* 1997 and *(b)* 2001. [215684]

The Prime Minister: For these purposes my office forms part of the Cabinet Office. All Government Departments work closely together to ensure the coordination of policy and in collaboration with each other to improve delivery of improved public services. Since 1997, the Cabinet Office has played a major role in achieving Government objectives. The Cabinet Office Departmental Report 2004 describes how the work of management units within the Cabinet Office contributes to the achievement of the Department's objectives, copies of which are available in the Libraries of the House.

Departmental Structures

Norman Baker: To ask the Prime Minister whether he plans to change departmental structures, with particular reference to the Department for Environment, Food and Rural Affairs. [217198]

The Prime Minister: I have no current plans to do so. The allocation of responsibilities across Government is kept under close review and changes to the machinery of government are made as and when necessary.

G8 Presidency

Dr. Kumar: To ask the Prime Minister what his priorities are for the Presidency of the G8. [215879]

The Prime Minister: The two main priorities for the UK Presidency of the G8 are Africa and climate change.

We shall also take forward the Broader Middle East and North Africa initiative from the US Presidency in 2004, and continue G8 work on counter-terrorism and non-proliferation.

Government Whips

Mrs. Lait: To ask the Prime Minister whether all Members of the Government Whips Office receive ministerial salaries. [216659]

The Prime Minister: A full list of paid and unpaid Government Ministers including Government Whips is available from the Library of the House.

IBM

Mr. Gray: To ask the Prime Minister what the purpose was of his meeting at No. 10 on 2 December 1999 with Mr. Louis Gerstner Junior of the IBM Corporation of New York; which Department of Government suggested that he receive Mr. Gerstner; on what date it was first sought to arrange such a meeting; and which *(a)* departments of Government and *(b)* advisers were present at the meeting. [215746]

The Prime Minister: The meeting of 2 December 1999 with Mr. Louis Gerstner Junior of the IBM Corporation is a matter of public record. My officials and I have meetings and discussions with a wide range of organisations and individuals. All meetings are conducted in accordance with the Ministerial Code and the Civil Service Management Code.

Iran

Mr. Edward Davey: To ask the Prime Minister what discussions he has had with President Bush regarding military options should Iran continue to develop its nuclear weapons programme; and if he will make a statement. [215997]

The Prime Minister: I regularly have discussions on a wide range of issues with President Bush, including on Iran? President Bush is fully aware of our policy on Iran, and made clear in his State of the Union Address on 2 February that the United States would continue to work for a diplomatic solution.

Iraq

Llew Smith: To ask the Prime Minister if he will list the leading figures referred to by his official press spokesperson on 8 December 2004, other than those representing Her Majesty's Government or the Interim Iraqi Government, who dispute the estimate of civilian deaths in Iraq published in the Lancet. [215962]

The Prime Minister: I refer my hon. Friend to the written statement made by my right hon. Friend the Secretary of State for Foreign and Commonwealth Affairs (Mr. Straw) on 17 November 2004, *Official Report*, columns 92–5WS.

Lynne Jones: To ask the Prime Minister whether the advice from the Attorney General on the legality of the war in Iraq published in the *Official Report* on 17 March 2003 was a summary of the advice received. [216365]

The Prime Minister: I refer my hon. Friend to the answer I gave the hon. Member for Stone (Mr. Cash) on 22 May 2003, *Official Report*, columns 914–15W.

Kyoto Protocol

Dr. Kumar: To ask the Prime Minister what assessment he has made of the long-term prospect of the US signing up to the Kyoto Protocol. [215880]

The Prime Minister: I refer my hon. Friend to the answers I gave to the right hon. Member for Fylde (Mr. Jack) and to my hon. Friend the Member for Norwich, North (Dr. Gibson) during my evidence to the Liaison Committee on 8 February.

Dr. Kumar: To ask the Prime Minister what assessment he has made of whether the UK will meet its Kyoto targets by 2010. [215881]

The Prime Minister: Current projections suggest that UK greenhouse gas emissions will be around 20 per cent. below 1990 levels by 2010, which is well below our Kyoto target of 12.5 per cent. below 1990 levels.

I also refer my hon. Friend to the answers I gave to the right hon. Member for Fylde (Mr. Jack) and to the hon. Member for East Surrey (Mr. Ainsworth) during my evidence to the Liaison Committee on 8 February.

Miscarriages of Justice

Mr. Chope: To ask the Prime Minister what criteria he applies when deciding whether to issue public apologies to the victims of miscarriages of justice. [217289]

The Prime Minister: I refer the hon. Member to the comments made by my Official Spokesman on Wednesday 2 February, a transcript of which is available on the No. 10 website.

Prince of Wales

Norman Baker: To ask the Prime Minister whether he was consulted on the date for the proposed marriage between HRH The Prince of Wales and Mrs. Camilla Parker-Bowles; and if he will make a statement. [217194]

The Prime Minister: I was not consulted on the date.

CABINET OFFICE

Departmental Spending

Mr. Laws: To ask the Minister for the Cabinet Office what his latest estimate is of unallocated departmental spending in *(a)* 2005–06, *(b)* 2006–07, and *(c)* 2007–08; and if he will make a statement. [213256]

Mr. Miliband: The Cabinet Office is currently finalising its internal budget allocation for 2005–06 and the Departmental Unallocated Provision (DUP) will not be determined until that process is complete. Similarly the DUP for 2006–07 and 2007–08 will not be determined until the internal budget allocation process is complete for the respective years.

Ministerial Stationery

Mr. George Osborne: To ask the Minister for the Cabinet Office how much has been spent on official ministerial *(a)* business cards, *(b)* headed paper and *(c)* compliment slips in each year since 1997. [214955]

Mr. Miliband: It is not possible to provide the information requested as it is not held centrally and cannot be readily retrieved without incurring disproportionate cost.

Regulatory Impact Unit

Mr. George Osborne: To ask the Minister for the Cabinet Office what the cost of staffing and running the Regulatory Impact Unit was on the last year for which figures are available. [217262]

Mr. Miliband: I refer the hon. Member to the answer my predecessor (Ruth Kelly) gave to the hon. Member for Eddisbury (Mr. O'Brien) on 14 December 2004, *Official Report*, column 1004W.

WALES

Freedom of Information

Dr. Julian Lewis: To ask the Secretary of State for Wales what his policy is in respect of the publication *(a)* on the departmental website and *(b)* by placing copies in the Library of (i) all or (ii) a selection of the information disclosed in response to Freedom of Information requests since January. [215226]

Mr. Touhig: In line with guidance issued by the Department for Constitutional Affairs in July 2002, the Wales Office has considered publication of information disclosed under the Freedom of Information Act.

Any information released by the Wales Office in response to Freedom of Information requests will also be published on the Wales Office website.

Job Relocation

Paul Flynn: To ask the Secretary of State for Wales what recent discussions he has had with the First Minister of the National Assembly for Wales on the relocation of jobs from England to Wales. [216050]

Mr. Touhig: My right hon. Friend and I are working closely with ministerial colleagues in the Assembly to ensure that Wales benefits from any relocation of public sector jobs from London and the South East. To this end, I welcome the decision last September by the Office for National Statistics to make Newport its principal headquarters and move 600 jobs there.

I am actively pursuing plans by other Departments and will be following up as appropriate. On 10 February, the First Minister and I met several senior officials from London based Departments involved with the relocation exercise to highlight what Wales has to offer.

MRSA

Mr. Wiggin: To ask the Secretary of State for Wales what discussions he has had with the National Assembly for Wales Government concerning the release of MRSA figures for hospitals in Wales. [217120]

Mr. Touhig: I regularly meet the Assembly First Minister and Health Minister to discuss issues surrounding health care associated infections, in particular MRSA, which we take very seriously.

The Assembly Health Minister, Dr. Brian Gibbons has announced a new set of proposals which will enable patients to access trust based statistics on each individual hospital in Wales.

TRANSPORT

A3

Virginia Bottomley: To ask the Secretary of State for Transport which existing road schemes in addition to the A3 at Hindhead have been downgraded from national to regional significance; and what the peak traffic volumes of each were in the last period for which figures are available. [209895]

Mr. Jamieson: The Government's consultation paper—"Devolving decision making: A consultation on regional funding allocations"—issued on 2 December 2004 sets out which routes are categorised as of the greatest strategic national and international importance and which are categorised as of primarily regional importance. The following table sets out the latest available peak daily traffic flow for each scheme in the targeted programme of improvements on routes categorised as of primarily regional importance.

Trunk road schemes in the targeted programme of improvements on regional routes—Peak daily traffic flow—2004

	Government office region	Two-way peak daily traffic flow (2004)	Traffic count location
Schemes planned to start construction by April 2008			
A1 Peterborough–Blyth	East Midlands	65,800	A1 Burghley Park, NB and SB
A421 Bedford to M1 Junction 13	East	33,900	A421 Stewartby EB and WB
A1 Attleborough Bypass improvement	East	46,100	A11 Wymondham, NB and SB
A19/A184 Testos Roundabout	North East	61,400	A19, A1290-A184, South of Testos Roundabout; NB and SB
A590 High and Low Newton Bypass	North West	22,800	A592-A5074 Low Newton EB and WB
A66 Temple Sowerby	North West	24,200	A6-A685 Whinfell Forest, East of Penrith EB and WB
A57/A628 Mottram-Hollingworth-Tintwistle	North West	42,600	A6018-A628 Mottram Moor Tameside EB and WB
A595 Parton-Lillyhall Improvement	North West	22,100	B5295-A597, Commonend, Distington, Workington NB and SB
A2 Bean-Cobham Widening Phase 2	South East	134,000	A2 between A227 and B262 EB and WB
A2/A282 Dartford Improvement	South East	183,300	A282 Dartford Crossing NB and SB
A27 Southerham-Beddingham Improvement	South East	44,300	A27 Beddingham Level Crossing EB and WB
A30/A382 Merrymeet Junction	South West	61,100	A30 Tedburn St. Mary EB and WB
A30 Bodmin Indian Queens	South West	45,700	A30 Bodmin Bypass EB and WB
M5 J17 to J18A Northbound Climbing Lane (HallenHiU)	South West	*66,000	M5 J18A to 17 NB * one-way flow traffic i.e northbound
M5 J19 to J20 Northbound Climbing Lane (Tickenham Hill)	South West	*66,800	M5 J20 to J19 NB * one-way flow traffic i.e. northbound
M5 J19 to J20 Southbound Climbing Lane (Naish Hill)	South West	*69,600	M5 J19 to J20 SB * one-way flow traffic i.e. southbound
A38 Dobwalls Bypass	South West	30,800	A38 Dobwalls (A390-B3284) EB and WB

Trunk road schemes in the targeted programme of improvements on regional routes—Peak daily traffic flow—2004

	Government office region	*Two-way peak daily traffic flow (2004)*	*Traffic count location*
A419 Blunsdon	South West	26,900	Blunsdon St (B401 9-A431 1) NB and SB
A419 Commonhead Junction	South West		Refer to A419 Blunsdon above.
A45/A46 Tollbar End	West Midlands	68,500	A45, Bagington, East of A46 EB and WB
A66 Scotch Corner to Carkin Moor Dualling	Yorkshire and The Humber	26,000	A1-A167 West of A1 EB and WB
A66 Greta Bridge to Stephen Bank Dualling	Yorkshire and The Humber	28,300	A67-A685 West of Bowes EB and WB
Schemes to be progressed for future construction			
A46 Newark-Widmerpool Improvement	East Midlands	35,500	A46 Newark Relief Road, east of sewage works EB and WB
A453 widening (M1 J24 to A52 Nottingham)	East Midlands	27,800	A453, Barton Lodge, NB and WB
A505 Dunstable Northern Bypass (aka M1-A5 Link Road)	East	N/A	New link road
A66 Long Newton GS J	North East	36,500	A1 150-A135, west of Long Newton EB and WB
A19/A1067 Seaton Burn	North East	32,800	A1068-A1171 Arcott Hall EB and WB
A1 Morpeth to Felton Dualling	North East	36,400	A197-A192, Morpeth NB and SB
A1 Adderstone to Belford Dualling	North East	13,800	A1068-A1167, Belford Bypass NB and SB
A3 Hindhead Improvement	South East	37,000	A3, north of Hindhead NB and SB
Schemes to be progressed subject to regional priorities			
A428 Caxton Common to Hardwick Improvement	East	33,400	A428 North of Hardwick, EB and WB
A47 Blofield to North Burlingham	East	34,600	A47 Acle, EB and WB
A11 Fiveways to Thetford Improvement	East	32,900	A11 Thetford Bypass North NB and SB
A69 Haydon Bridge Bypass	North East	20,900	B6319-A6079, Hexham EB and WB
A23 Handcross to Warninglid Widening	South East	86,500	A23 Slaugham (B2110-B2115) NB and SB
A21 Tonbridge Bypass to Pembury Dualling	South East	36,500	A21 , Kippings Cross to Pembury, NB and SB
A21 Kippings Cross to Lamberhurst Bypass	South East	30,000	A21 , Lamberhurst Quarter to Pembury, NB and SB
A30 Garland Cross to Chiverton Cross	South West	40,800	A30 Garland Cross (A3076-A3058) EB and WB
A30 Temple to Higher Carblake Improvement	South West	41,100	A30 north of Bodmin EB and WB
A3 03 Stonehenge	South West	47,500	A303 east of Countess Roundabout EB and WB
A483 Pant-Llanymynech Bypass	West Midlands	16,300	A483 Oswestry Bypass (B5069-A5) NB and SB
A64 Rillington Bypass	Yorkshire and The Humber	21,400	B1248-B1258, Rillington Village EB and WB

Bridgwater Station

Mr. Liddell-Grainger: To ask the Secretary of State for Transport what discussions he has had with Wessex Trains with regard to parking facilities at Bridgwater station. [217410]

Mr. McNulty: None. The provision of car parking facilities at stations is a matter for individual train operating companies.

British Transport Police (Westminster Station)

Mr. Hancock: To ask the Secretary of State for Transport what the strategy of the British Transport Police is for responding to calls for assistance from Westminster tube station; and if he will make a statement. [216445]

Mr. McNulty: Westminster London Underground station is one of the more heavily policed stations in London due to its significant location. Both BTP and the Metropolitan police regularly police the station. This includes community support officers on daily security patrols in Whitehall.

The BTP at Stockwell have a dedicated priority policing team. These officers are responsible for policing Westminster tube station. In addition there is a 24-hour response team operating from Tottenham Court Road BTP station with patrol cars that both attend calls for assistance and also carry out patrols at stations.

Since 1 January this year there have been a total of 12 calls recorded by BTP regarding a variety of offences including disorder, criminal damage and drunkenness with an average police response time of 10 minutes. London Underground has direct telephone links with the BTP force control room.

As Westminster tube station is within the Government security zone area it is subject to additional police deployments and counter terrorist measures, carried out in close partnership with London Underground.

Bus Routes (Lancashire)

Mr. Hoyle: To ask the Secretary of State for Transport if he will make a statement on funding for new bus routes in Lancashire. [216209]

Charlotte Atkins: Local authorities obtain the majority of their funding for local bus service support from the Government's revenue support grant (RSG). Decisions on the amount of RSG that is used for bus services are a matter for each individual authority. Lancashire county council's RSG settlement for 2005–06 is £779.54 million, an overall increase in grant of 5.3 per cent. over the current year.

Local authorities have since 1998 also received significant Government support for rural bus services in the form of rural bus subsidy grant (RBSG). Lancashire have been allocated a total of £6.67 million in RBSG over the period 1998–99 to 2004–05. Their RBSG allocation for 2005–06 is £1.286 million. Lancashire

have also been awarded a total of £5.9 million for 11 projects in our rural and urban bus challenge competitions between 1998 and 2003.

In addition the Department's local transport plan funding supports capital expenditure on local transport, including new infrastructure used by bus services.

Correspondence

Sir Teddy Taylor: To ask the Secretary of State for Transport when he will reply to the letter from the hon. Member for Rochford and Southend East dated 29 September 2004, regarding Mr. R. Boyd of EDPA, Reference MC/CA/014501/04. [216592]

Charlotte Atkins: I replied to the hon. Member's letter on 21 October 2004.

Cycle Helmets

Mr. Pike: To ask the Secretary of State for Transport what representations he has received regarding the wearing by young people of cycle helmets; and if he will make a statement. [216088]

Mr. Jamieson: We have received representations from a range of organisations and individuals who support the promotion and compulsion of cycle helmets for children and similar representations from those who believe they should be voluntary.

Research has found that cycle helmets can be effective in reducing the severity of head injury for users of all ages, though particularly for children. Our policy is to persuade cyclists to protect themselves by wearing helmets.

Our position on compulsion has been that at current wearing rates it would cause enforcement difficulties and could have an effect on cycling levels. But the Government will keep its policies in this as in all areas under review in the light of discussion in Parliament and elsewhere.

Departmental Policies

Mr. Gordon Marsden: To ask the Secretary of State for Transport if he will set out, with statistical information relating as closely as possible to the constituency, the effect of his Department's actions and policies on Blackpool, South constituency since *(a)* 1997 and *(b)* 2001. [215617]

Charlotte Atkins: The Department has put in place a considerable programme of improvements across a wide range of transport policy areas since 1997. I am confident that the Blackpool, South constituency will have benefited from these. For example, the injury totals for all road causalities in Great Britain fell from 327,803 in 1997 to 290,607 in 2003, and the numbers of children aged under 16 years killed or seriously injured on our roads fell from 6,452 in 1997 to 4,100 in 2003. On our railways, passenger kilometres have increased from 32.1 billion in 1996–97 to 40.9 billion in 2003–04, a rise of 27 per cent. In terms of improvements to air quality, emissions of the UK's two main pollutants—nitrous oxides and particles—fell by 31 per cent. and 27 per cent. respectively between 1997 and 2002.

The funding provided directly to Blackpool borough council since 1997 is shown in the table below[1]. It has been Blackpool borough council to determine how that allocation has been spent, in line with their local transport plan and their priorities.

£ million

Blackpool—Nature of funding	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*	*2003–04*	*2004–05*
Capital maintenance	0.132	0.268	0.468	0.952	0.991	0.744	0.867
Integrated block	0.251	0.594	0.700	2.000	2.384	2.632	1.600
Targeted bus grants[2]	0	0	0	0.81	0.87	0	0
Total	0.383	0.862	1.168	3.762	4.245	3.376	2.467

[1] Funding allocations for 1997–98 not included since they cover a period proceeding May 1997 and announcements concerning the 1997–98 allocations were made in 1996.
[2] Includes Rural Bus Subsidy Grant and Rural Bus challenge funding.

Mr. Chris Smith: To ask the Secretary of State for Transport if he will set out, with statistical information relating as directly as possible to Havant constituency, the effects on Havant of his Department's policies and actions since 2 May 1997. [215984]

Charlotte Atkins: The Department has put in place a considerable programme of improvements across a wide range of transport policy areas since 1997. I am confident that the Havant constituency will have benefited from these. For example, the injury totals for all road causalities in Great Britain fell from 327,803 in 1997 to 290,607 in 2003, and the number of children aged under 16 years killed or seriously injured on our roads fell from 6,452 in 1997 to 4,100 in 2003. On our railways, passenger kilometres have increased from 32.1 billion in 1996–97 to 40.9 billion in 2003–04, a rise of 27 per cent. In terms of improvements to air quality, emissions of the UK's two main pollutants—nitrous oxides and particles—fell by 31 per cent. and 27 per cent. respectively between 1997 and 2002.

The funding provided directly to Hampshire county council since 1997 is shown in the following table[1]. It has been for Hampshire to determine how that allocation has spent, in line with their local transport plan and their priorities.

Hampshire

£ million

Nature of funding	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*	*2003–04*	*2004–05*

[2] Includes Rural Bus Subsidy Grant and Rural Bus challenge funding

In addition, since 1997 the Havant constituency has benefited from investment in new rail rolling stock.

Mr. Sheerman: To ask the Secretary of State for Transport if he will set out, with statistical information relating as directly as possible to the Huddersfield constituency, the effects on Huddersfield of his Department's policies and actions since 2 May 1997. [216870]

Charlotte Atkins: The Department has put in place a considerable programme of improvements across a wide range of transport policy areas since 1997. I am confident that the Huddersfield constituency will have benefited from these. For example, the injury totals for all road causalities in Great Britain fell from 327,803 in 1997 to 290,607 in 2003, and the numbers of children aged under 16-years killed or seriously injured on our roads fell from 6,452 in 1997 to 4,100 in 2003. On our railways, passenger kilometres have increased from 32.1 billion in 1996–07 to 40.9 billion in 2003–04, a rise of 27 per cent. In terms of improvements to air quality, emissions of the UK's two main pollutants—nitrous oxides and particles—fell by 31 per cent. and 27 per cent. respectively between 1997 and 2002.

The funding provided directly to the Metropolitan borough of Kirklees since 1997 is shown in the following table[1]. It has been for the Metropolitan borough of Kirklees to determine how that allocation has spent, in line with the local transport plan for West Yorkshire and the local priorities.

[1] Funding allocations for 1997–98 not included since they cover a period proceeding May 1997 and announcements concerning the 1997–98 allocations were made in 1996. Huddersfield also benefited from a share of the integrated block funding allocated to the West Yorkshire Passenger Transport Authority.

Metropolitan borough of Kirklees—Nature of funding

£ million

	1998–99	1999–2000	2000–01	2001–02	2002–03	2003–04	2004–05

[1] Includes rural bus subsidy grant and rural bus challenge funding.

The constituency of Huddersfield is served by the TransPennine franchise which began operations in February 2004. It offers direct links from Huddersfield to destinations including Liverpool, Manchester, and Newcastle. It is also served by the new Northern franchise providing links to destinations throughout the north of England.

Finally, the Neighbourhood Statistics Service provides a wide range of statistical information at parliamentary constituency level, taken from the 2001 census and other sources. This service is available on the National Statistics website at http://neighbourhood.statistics.gov.uk./. In addition, the Department for Transport's website also contains data on transport trends over the past twenty years at http://www.dft.gov.uk.

Mr. Sedgemore: To ask the Secretary of State for Transport if he will set out, with statistical information relating as directly as possible to Maidenhead constituency, the effects on Maidenhead of his Department's policies and actions since 2 May 1997. [216025]

Charlotte Atkins: The Department has put in place a considerable programme of improvements across a wide range of transport policy areas since 1997. I am confident that the Maidenhead constituency will have benefited from these. For example, the injury totals for all road causalities in Great Britain fell from 327,803 in 1997 to 290,607 in 2003, and the numbers of children aged under 16 years killed or seriously injured on our roads fell from 6,452 in 1997 to 4,100 in 2003. On our railways, passenger kilometres have increased from 32.1 billion in 1996–97 to 40.9 billion in 2003–04, a rise of 27 per cent. In terms of improvements to air quality, emissions of the UK's two main pollutants—nitrous oxides and particles—fell by 31 per cent. and 27 per cent. respectively between 1997 and 2002.

The funding provided directly to the Royal borough of Windsor and Maidenhead since 1997 is shown in the table[1]. It has been for the borough council to determine how that allocation has been spent, in line with its local transport plan and its priorities.

[1] Funding allocations for 1997–98 not included since they cover a period proceeding May 1997 and announcements concerning the 1997–98 allocations were made in 1996.

£ million

Royal borough of Windsor and Maidenhead	1998–99	1999–2000	2000–01	2001–02	2002–03	2003–04	2004–05
Capital maintenance	0.29	0.74	0.75	1.025	1.096	1.37	1.50
Integrated block	0.10	0.65	0.83	1.700	1.690	1.70	1.84
Major schemes	Nil	Nil	Nil	Nil	Nil	Nil	Nil
Targeted bus grants[1]	0.051	0.051	0.051	0.490	0.074	0.075	0.095
Total	0.441	1.441	1.631	3.215	2.860	3.145	3.435

[1] Includes rural bus subsidy grant and rural bus challenge funding.

In addition, since 1997 the Maidenhead constituency, which lies within the Thames area franchise, has benefited from investment in new rail rolling stock.

Mr. Chris Smith: To ask the Secretary of State for Transport if he will set out, with statistical information relating as directly as possible to Witney constituency, the effects on Witney of his Department's policies and actions since 2 May 1997. [215983]

Charlotte Atkins: The Department has put in place a considerable programme of improvements across a wide range of transport policy areas since 1997. I am confident that the Witney constituency will have benefited from these. For example, the injury totals for all road causalities in Great Britain fell from 327,803 in 1997 to 290,607 in 2003, and the number of children aged under 16 years killed or seriously injured on our roads fell from 6,452 in 1997 to 4,100 in 2003. On our railways, passenger kilometres have increased from 32.1 billion in 1996–97 to 40.9 billion in 2003–04, a rise of 27 per cent. In terms of improvements to air quality, emissions of the UK's two main pollutants—nitrous oxides and particles—fell by 31 per cent. and 27 per cent. respectively between 1997 and 2002.

The funding provided directly to Oxfordshire county council since 1997 is shown in the following table[1]. It has been for Oxfordshire county council to determine how that allocation has spent, in line with their local transport plan and their priorities.

Oxfordshire county council

£ million

Nature of funding	1998–99	1999–2000	2000–01	2001–02	2002–03	2003–04	2004–05
Capital maintenance	2.038	3.078	5.793	8.045	8.013	10.016	11.017
Integrated block	1.962	3.686	4.764	10.500	10.600	9.911	12.940
Major schemes	1.510	0	0	0	0	0	0
Targeted bus grants[2]	0.93	1.93	0.93	1.18	1.35	1.79	1.42
Total	6.44	8.694	11.487	19.725	19.963	21.717	25.377

[1] Funding allocations for 1997–98 not included since they cover a period proceeding May 1997 and announcements concerning the 1997–98 allocations were made in 1996.
[2] Includes Rural Bus Subsidy Grant and Rural Bus challenge funding

In addition, since 1997 the Witney constituency, which lies within the Thames area franchise has benefited from investment in new rail rolling stock.

EU Committees

Angus Robertson: To ask the Secretary of State for Transport (1) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the EC-Slovak Republic Joint Transport Committee met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement; [214778]

(2) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the EC-Czech Republic Joint Transport Committee met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement; [214779]

(3) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Joint Committee on the carriage of goods and passengers by inland waterway (EC-Czech Republic-Republic of Poland-Slovak Republic) met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [214780]

Mr. McNulty: I refer the hon. Member to the series of Command Papers on prospects for the EU—Cm6174 laid in April 2004, Cm6310 laid in September 2004 and Cm6450 laid in February 2005, which cover the periods of the above presidencies and are available on the FCO website at: www.fco.gov.uk/commandpapers.

Angus Robertson: To ask the Secretary of State for Transport how many times during the *(a)* Italian *(b)* Irish and *(c)* Dutch presidency of the EU, the Advisory Committee on the control and reduction of pollution caused by the discharge of hydrocarbons and other dangerous substances at sea met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [215408]

Mr. McNulty: The Management Committee on Marine Pollution (MCMP) has replaced the Committee referred to by the hon. Member. The MCMP met once during each of the Italian, Irish and Dutch presidencies (in September 2003, March 2004 and September 2004) in Brussels. The United Kingdom was represented at each of these meetings by the Counter Pollution Response Branch of the Maritime and Coastguard Agency.

I refer the hon. Member to the series of Command Papers on prospects for the EU—Cm6174 laid in April 2004, Cm6310 laid in September 2004 and Cm6450 laid in February 2005, which cover the periods of the above presidencies and are available on the FCO website at: www.fco.gov.uk/commandpapers.

Angus Robertson: To ask the Secretary of State for Transport (1) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the EC-Poland Joint Transport Committee met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement; [215419]

(2) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the EC-Romania Joint Transport Committee met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [215420]

Mr. McNulty: I refer the hon. Member to the series of Command Papers on prospects for the EU—Cm6174 laid in April 2004, Cm6310 laid in September 2004 and Cm6450 laid in February 2005, which cover the periods of the above presidencies and are available on the FCO website at: www.fco.gov.uk/commandpapers.

Angus Robertson: To ask the Secretary of State for Transport how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch Presidency of the EU the (i) Committee for granting Community financial aid in the field of trans-European transport networks, (ii) Committee for granting Community financial aid in the field of trans-European telecommunications networks met; when and where each meeting took place; what UK Government expert was present at each meeting; and if he will make a statement. [216221]

Mr. McNulty: The trans-European transport network Financial Assistance Committee (FAC) referred to by the hon. Member met four times during the course of the three Presidencies (on 1 July 2003, 24 October 2003, 10 June 2004 and 21 and 22 October 2004). The meetings took place in Brussels and on each occasion the United Kingdom was represented by an official from the European Division of the Department for Transport. The FAC is responsible for the implementation of Council regulation 2236/95 and associated budgetary allocations. Responsibility for the trans-European Telecommunications network rests with my right hon. Friend the Secretary of State for Trade and Industry.

I refer the hon. Member to the series of Command Papers on prospects for the EU—Cm6174 laid in April 2004, Cm6310 laid in September 2004 and Cm6450 laid in February 2005, which cover the periods of the above presidencies and are available on the FCO website at: www.fco.gov.uk/commandpapers

Angus Robertson: To ask the Secretary of State for Transport how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Technical Adaptation Committee on the minimum safety and health requirements for improved medical treatment on board vessels met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [216340]

Mr. McNulty: I refer the hon. Member to the series of Command Papers on prospects for the EU—Cm6174 laid in April 2004, Cm6310 laid in September 2004 and Cm6450 laid in February 2005, which cover the periods of the above presidencies and are available on the FCO website at: www.fco.gov.uk/commandpapers

Angus Robertson: To ask the Secretary of State for Transport how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the (i) Advisory Committee on the management of the research programme for management and storage of radioactive waste and management of the Community plan of action in the field of radioactive waste and (ii) Advisory Committee on measures to be taken in the event of a crisis in the market in the carriage of goods by road and for laying down the conditions under which non-resident carriers may operate national road haulage services within a member state met; when and where each meeting took place; what UK Government expert was present at each meeting; and if he will make a statement. [216723]

Mr. McNulty: The matters with which this Committee deals are not the responsibility of the Department for Transport.

I refer the hon. Member to the series of Command Papers on prospects for the EU—Cm6174 laid in April 2004, Cm6310 laid in September 2004 and Cm6450 laid in February 2005, which cover the periods of the above presidencies and are available on the FCO website at: www.fco.gov.uk/commandpapers.

Angus Robertson: To ask the Secretary of State for Transport (1) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Advisory Committee for the application of legislation on the conditions under which non-resident carriers may operate national road passenger transport services within a member state met; when and where these meetings took place; which UK Government expert was present; and if he will make a statement; [217248]

(2) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Committee on the reciprocal recognition of national boat masters' certificates for the carriage of goods and passengers by inland water met; when and where these meetings took place; which UK Government expert was present; and if he will make a statement. [217249]

Mr. McNulty: I refer the hon. Member to the series of Command Papers on prospects for the EU—Cm6174 laid in April 2004, Cm6310 laid in September 2004 and Cm6450 laid in February 2005, which cover the periods of the above presidencies and are available on the FCO website at: www.fco.gov.uk/commandpapers.

Angus Robertson: To ask the Secretary of State for Transport (1) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the EC-Former Yugoslav Republic of Macedonia Joint Transport Committee met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement; [215925]

(2) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the EC-Bulgaria Joint Transport Committee met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement; [215926]

(3) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the EC-Hungary Joint Transport Committee met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [215927]

Mr. McNulty: I refer the hon. Member to the series of Command Papers on prospects for the EU—Cm6174 laid in April 2004, Cm6310 laid in September 2004 and Cm6450 laid in February 2005, which cover the periods of the above presidencies and are available on the FCO website at: www.fco.gov.uk/commandpapers.

EU Committees

Angus Robertson: To ask the Secretary of State for Transport (1) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Consultative European Energy and Transport Forum met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement; [214306]

(2) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the EEC-Slovenia Joint Transport Committee met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [214307]

Mr. McNulty: I refer the hon. Member to the series of Command Papers on prospects for the EU—Cm6174 laid in April 2004, Cm6310 laid in September 2004 and Cm6450 laid in February 2005, which cover the periods of the above presidencies and are available on the FCO website at: www.fco.gov.uk/commandpapers.

Free Public Transport

Mr. Andrew Turner: To ask the Secretary of State for Transport what estimate he has made of the cost of providing free public transport *(a)* in each local transport authority area and *(b)* in England for (i) disabled people, (ii) all people aged over 60 years and (iii) all people under 19 in full-time education (A) in rural areas and (B) elsewhere. [217360]

Charlotte Atkins: Local authorities in England currently spend around £500 million per year on concessionary fares schemes.

It is estimated that an extension of current concessionary fares schemes to provide free local public transport for people over 60 and disabled people within their local authority area would cost an additional £200 million per year (approximately £18 million for disabled people and £182 million for the over 60s). This includes local bus journeys and, where the local authority chooses to fund wider concessions, journeys on trains, underground, light rail and ferries within the local areas. The additional cost would rise to around £250 million per year (£25 million for disabled people and £225 million for the over 60s) if all local journeys on the national rail system were included.

An England-wide scheme allowing free travel for all older and disabled people on all bus journeys would cost around £260 million per year more than the current system (approximately £24 million for disabled people and £236 million for the over 60s). The additional cost would rise to £500 million per year if all national rail journeys were included (£50 million for disabled people and £450 million for the over 60s). Breakdown by cost for each local authority or for rural and other areas is not available.

To provide free local bus travel for all under 19-year-olds would require additional funding of £520 million per year. Extending this to an England-wide scheme allowing free bus travel would cost around £580 million per year. Costs have not been estimated for free travel restricted to those in full-time education; however it is estimated that a free travel scheme applying to educational trips only would cost an additional £290 million per year. No estimates have been made to include journeys on all forms of public transport. Breakdown by area is not available.

Hengistbury Head

Mr. Chope: To ask the Secretary of State for Transport if he will ensure that the Maritime and Coastguard Agency make their watch section at Hengistbury Head available to members of National Coastwatch. [217290]

Mr. Jamieson: The Maritime and Coastguard Agency's facility at Hengistbury Head is an unmanned remote radio site housing radiocommunications equipment. Access for the National Coastwatch Institution has been carefully considered and cannot be granted because of the need to protect the security and integrity of the existing and future radiocommunications equipment, and the health safety and cost implications of partitioning the site. In addition the underlying terms of the property lease do not allow sub-letting to third parties.

Home Zones

Mr. Kidney: To ask the Secretary of State for Transport how many Home Zones there are in England; and how many of them were established with the aid of funding from his Department. [216758]

Charlotte Atkins: Between 2001–02 and 2003–04 local transport authorities have reported to the Department that they introduced 65 home zones in England (outside London), as part of their transport capital programmes, which are supported financially by the Department.

The Department is supporting 59 homes zones through a specific grant, 19 having been completed by December 2004 with site works under way for 40 more. Other home zones are supported through the funding provided to local authorities in the general local transport capital settlement.

Mobile Phones

Bob Spink: To ask the Secretary of State for Transport pursuant to his answer of 3 February 2005, to the hon. Member for North Devon (Nick Harvey), *Official Report*, column 1034W, on mobile phones, if he will make a statement on the latest survey. [216482]

Mr. Jamieson: Details of the results of the latest survey in September 2004 are available on-line at www.trl.co.uk/abstracts/LF2094.pdf The next survey will be carried out in April 2005 and the results will be published in due course.

Network Rail

Mr. Chope: To ask the Secretary of State for Transport pursuant to his written ministerial statement of 10 February 2005, *Official Report*, columns 93–96WS on rail spending, what the cumulative level of borrowing for Network Rail was at 31 March 2004; and what the projected cumulative level of borrowing is for *(a)* 31 March 2005 and *(b)* 31 March 2009. [217333]

Mr. McNulty: Network Rail's debt as of 31 March 2004 was £12.9 billion[1].

Network Rail's debt at 31 March 2005 is currently forecast to be approximately £16 billion[2].

Network Rail's debt at 31 March 2009 is currently forecast to be approximately £19.9 billionn[3].

Network Rail's actual borrowing requirements are subject to continual review. They are determined by the company, based upon its revenues and expenditure requirements, within the context of the Regulatory Settlement. The company will update its projections in its 2005 Business Plan to be published on 31 March 2005.

Sources:

[1] Network Rail Annual Report and Accounts 2003–04

[2] Latest forecast from Network Rail provided to the Office of Rail Regulation and Strategic Rail Authority.

[3] Estimated debt at 31 March 2005, plus new borrowing requirements identified in the statement issued by the Secretary of State for Transport on 10 February 2005.

Mr. Chope: To ask the Secretary of State for Transport what the projected level of new borrowing by Network Rail is in each of the next four years. [217402]

Mr. McNulty: I would refer the right hon. Gentleman to my written ministerial statement on Thursday 10 February 2005, which contains the required information.

Mr. Fallon: To ask the Secretary of State for Transport whether Network Rail is free to negotiate contracts exclusively for the installation of ATMs for which there is a charge in stations. [217404]

Mr. McNulty: The negotiation of contracts for the installation of automatic till machines (ATMs) is a commercial matter for Network Rail, the train operating companies who lease all but 17 of the stations on the national rail network and the companies wishing to install the machines at the stations.

Northern Way

Mr. Battle: To ask the Secretary of State for Transport what assessment he has made of the recommendation of the Select Committee on the Office of the Deputy Prime Minister in its fourth report of session 2004–05, that the 10 year plan should be looked at again to ensure adequate support to the Northern Way; and if he will make a statement. [216096]

Charlotte Atkins: The Department is already providing significant levels of funding for transport schemes across the three Northern Way regions. We are now consulting on proposals for regional funding allocations announced in the 2004 Future of Transport White Paper. These will provide an important opportunity for regions to influence the Government's spending decisions, to ensure that transport is fully integrated into long-term planning for sustainable economic growth. The Northern Way have identified a wide range of infrastructure improvements to support growth. The challenge now is to develop an evidence based approach which will help to identify strategic priorities within available resources. Department for Transport officials will continue to engage with the Northern Way as they take this analysis forward.

Official Residences

Chris Grayling: To ask the Secretary of State for Transport if he will list the official residences for which his Department is responsible; who occupies each one; what the annual cost is of running each property; what contribution the current occupants make towards the running costs of each; what the total capital and refurbishment expenditure has been on those properties in each of the past five years; how much money was spent in each property on *(a)* flowers and plants, *(b)* wine and entertaining, *(c)* food, *(d)* telephone bills and *(e)* electricity and gas in 2003–04; how many (i) domestic and (ii) maintenance staff are employed at each property, broken down by post; and what the total cost of staff employment at each was in 2003–04. [213608]

Charlotte Atkins: The Department for Transport has no residential properties used by Ministers or officials.

Powered Wheelchairs/Scooters

Mr. Kidney: To ask the Secretary of State for Transport what progress he has made in his review of powered wheelchairs and scooters. [216919]

Charlotte Atkins: The first part of the review into the use of powered wheelchairs and powered scooters on the highway has been a research project to gather data and to find out the views of a wide range of stakeholders about the current laws. That work is now complete and draft reports have been submitted to the Department. The next stage will be to consider the findings of the research to determine whether any changes are required to the current laws and guidance.

Powershift

Llew Smith: To ask the Secretary of State for Transport if he will make a statement on the future of the Powershift energy efficient vehicle programme; and what new initiatives he plans on more environmentally benign transport. [217167]

Mr. Jamieson: Following a consultation last year, the Department for Transport has announced that changes are being made to all the TransportEnergy grant programmes, including Powershift, after the end of this financial year. The Government plans to move to a technology neutral approach to incentivise the

cleanest cars regardless of the technology or fuel type. The Government will also be adjusting the programmes to ensure they comply with European rules on state aid.

The State Aid rules limit the amount of grant that member states can offer for environmental initiatives. In some cases this will mean that future grant levels will need to be reduced to ensure the grants allocated do not exceed permitted levels. However, overall funding for the grant programmes remains at planned levels, enabling more grants to be allocated to more interested parties.

The Department will honour grant offer letters under the PowerShift programme until 31 March 2005. The timescale for introducing the new programmes will be dependent on the process of reviewing and clearing them with the European Commission. My officials will be working hard to ensure that this process is completed as quickly and smoothly as possible.

Details of the new programmes have yet to be finalised. However, it is intended that Powershift will be replaced by a Low Carbon Vehicle programme that will award grants for cars on the basis of CO_2 performance. The Government also intends to seek European Commission approval of a Low Carbon Bus Programme to support demonstration trials of small fleets of low carbon buses.

Rail Fares

Mr. Liddell-Grainger: To ask the Secretary of State for Transport what discussions he has had with Wessex Trains with regard to recent fare increases. [217409]

Mr. McNulty: None. The Strategic Rail Authority (SRA) has responsibility for regulating fares on the national rail network. Fares are regulated as prescribed in franchise agreements between the SRA and the train operating companies.

Rail Freight

Dr. Whitehead: To ask the Secretary of State for Transport what discussions he has had with the Strategic Rail Authority on the publication of the Freight Assessments Need South East report. [216788]

Mr. McNulty: I refer the hon. Member to my answer of 3 February 2005, *Official Report*, column 1035W given to the hon. Member for Portsmouth South, (Mr. Hancock).

The Strategic Rail Authority has made assessments of the demand for freight on the railways in a series of market studies, referred to in the answer of 19 January 2005, *Official Report*, column 958W. Although they are UK market studies, much of the analysis is route specific, allowing for regional impacts to be assessed.

Mr. Yeo: To ask the Secretary of State for Transport how much freight was moved, by tonne kilometres, on the UK railways, in each year since 1990. [217211]

Mr. Darling: The information requested is in the table. This has been taken from the 'National Rail Trends Yearbook 2003–04', published by the Strategic Rail Authority.

	Billion net tonne kms
1990	16.7
1991	16.0
1992	15.3
1993	15.5
1994	13.8
1995	13.0
1996	13.3
1997	15.1
1998	16.9
1999	17.3
2000	18.2
2001	18.1
2002	19.4
2003	18.7
2004	18.9

John Thurso: To ask the Secretary of State for Transport what assessment he has made of the number of Railfreight interchanges which will be required in the UK. [217266]

Mr. McNulty: I refer the hon. Member to my answer of 3 February 2005, *Official Report*, column 1036W, given to the hon. Member for Heywood and Middleton (Jim Dobbin).

Rail Services

Mr. Laurence Robertson: To ask the Secretary of State for Transport what discussions he has had with train operating companies about the frequency of the services to and from Ashchurch station near Tewkesbury; and if he will make a statement. [216453]

Mr. McNulty: None. Train operators are contractually required to operate a minimum level of service as prescribed in their franchise agreements with the Strategic Rail Authority. The current frequency of service to Ashchurch complies with Central Trains' and Wessex Trains' contractual requirements.

Railway Noise

Mr. Hammond: To ask the Secretary of State for Transport if he will discuss with Network Rail the modification of train horns which have been installed to meet the now obsolete specification for minimum noise standards in order to reduce the impact of train horn noise on trackside residents. [216661]

Mr. McNulty: The Rail Safety and Standards Board (RSSB) is responsible for specifying the requirements for when and where train horns must be used and Network Rail is responsible for deciding how train operators comply with the standards set by the RSSB.

The RSSB has now lowered the minimum permissible sound level for train horns by eight decibels. This will permit train operators to modify and make adjustments to the volume of train horns where they consider it. South East Trains and Southern Trains have begun to install modified train horns on their fleets.

Railway Stations (Lancashire)

Mr. Hoyle: To ask the Secretary of State for Transport (1) if he will make a statement on funding for *(a)* new and *(b)* reopening railway stations in Lancashire; [216210]

(2) if he will make a statement on the new bus and improved railway station at Chorley; and how much central government money was used to fund the project. [216211]

Mr. McNulty: Funding of £137,000 was provided under the Strategic Rail Authority's Rail Passenger Partnership (RPP) scheme and a further £283,000 was provided from the Department's capital allocation grant to Lancashire county council, to support refurbishment works at Chorley station.

There are currently no plans to support funding for new, or the re-opening of, stations in Lancashire.

Regional Transport Boards

Mr. Andrew Turner: To ask the Secretary of State for Transport what the expenditure on regional transport boards was in 2003–04; which areas each covers; and how many staff each employs. [217361]

Charlotte Atkins: There were no regional transport boards in 2003–04. Two experimental transport boards were established by the South East and Yorkshire and Humberside regions in 2004–05. The costs and staffing resources were effectively absorbed by the relevant organisations.

Road Humps

John Mann: To ask the Secretary of State for Transport when he next expects to update guidelines on the use of road humps. [216330]

Mr. Jamieson: The Department hope to publish a Local Transport Note (LTN) on the design and effectiveness of traffic calming measures later this year. This document will draw together existing research and guidance on a range of traffic calming features, including road humps. There are no current plans to specifically update guidelines on the use of road humps.

Road Safety

Mr. Hammond: To ask the Secretary of State for Transport how many accidents have been recorded in the most recent 12 months for which data are available involving a vehicle turning left across a bus or cycle lane into a private access. [216639]

Mr. Jamieson: There were six such recorded injury road accidents in 2003, the last year for which data are available. Of these accidents, five were recorded as slight and the other was recorded as serious.

Mr. Hammond: To ask the Secretary of State for Transport what guidance he has issued regarding priority when motorists are required to manoeuvre across a bus or cycle lane to turn left from a highway into a private access. [216640]

Mr. Jamieson: Rules 158 and 159 of The Highway Code give advice on turning left, as follows:

158. Use your mirrors and give a left-turn signal well before you turn left. Do not overtake just before you turn left and watch out for traffic coming up on your left before you make the turn, especially if driving a large vehicle. Cyclists and motorcyclists in particular may be hidden from your view, and

159. When turning

keep as close to the left as is safe and practical

give way to any vehicles using a bus lane, cycle lane or tramway from either direction.

Speed Cameras (M25)

Mr. Wilshire: To ask the Secretary of State for Transport how many speeding offences have been identified by temporary speed cameras between junctions 12 and 15 of the M25 since the current road works began; how many *(a)* fixed penalty notices, *(b)* prosecutions and *(c)* fines have resulted from those offences; what the value is of the fines imposed; and what percentage of those sums has been paid. [215141]

Mr. Jamieson: The Metropolitan police advise that between 7 February 2004 and 1 February 2005, 17,183 fixed penalty notices and 400 summonses have been issued following speeding being recorded by the temporary speed cameras between junctions 12 and 15 of the M25. The total of fixed penalty fines imposed is £1,030,980, of which fines totalling £865,980 have so far been paid—84 per cent. of the total. Recently issued fixed penalty notices will not yet have been paid. Fines imposed following summonses are determined individually by magistrates.

Street Works

Mr. Chope: To ask the Secretary of State for Transport what research he has evaluated on the effects of utility street works on traffic congestion levels; and if he will revise the Government's published estimate of the contribution of utility company street works to congestion in the light of that research. [217405]

Charlotte Atkins: Last year the Department received a report from its consultants, Halcrow, which estimated the annual cost of congestion due to utility street works as over £4 billion. Earlier this month the Department received another report, commissioned by the National Joint Utilities Group, which looks at the disruption due to utility works. Both reports point to the need to improve the ways in which these works are managed so as to reduce the disruption they cause. We are currently consulting on a several such measures, including permits schemes, fixed penalty notices for certain offences, more advanced notice about proposed works and restrictions on further works where roads have been recently dug up.

Taxis

Mr. Geoffrey Robinson: To ask the Secretary of State for Transport pursuant to the answer of 20 January 2005, *Official Report*, column 1040W, on taxis, how his Department would define purpose built taxis if the Metropolitan Conditions of Fitness for London Taxicabs change to allow converted or adapted MPV vehicles to be licensed as taxis in London. [214716]

Charlotte Atkins: I recognise that the term "purpose built taxi" is often used to describe the type of cab which meets the requirements of the existing Metropolitan

Conditions of Fitness (MCF). However the term is not defined in legislation. Nor is it one that the Department is required to define formally.

The review by Transport for London of the MCF is continuing.

Traffic Management Act

Mrs. Spelman: To ask the Secretary of State for Transport what new responsibilities the Traffic Management Act 2004 places on local authorities. [216263]

Charlotte Atkins: The Traffic Management Act 2004 places a new network management duty on local traffic authorities to secure the expeditious movement of traffic of their network and facilitate it on the network of others, as far as may be reasonably practicable and with regard to their other obligations, policies and objectives. Guidance on carrying out this duty was published in November last year and the duty came into force on 4 January 2005. This is the main new responsibility for authorities under the Act.

Provisions in other parts of the Act will help ensure that the way in which authorities carry out their highway works is brought into line with the standard that utility companies are already expected to meet, and will help improve the way in which authorities manage their road networks. In order to enhance Transport for London's co-ordination role in London, the Act provides that a London borough proposing to carry out schemes or road works that affect the Strategic Road Network must notify Transport for London.

Mrs. Spelman: To ask the Secretary of State for Transport what the estimated expenditure on the regional control centres established under the Traffic Management Act 2004 is. [216264]

Mr. Jamieson: The total expenditure on setting up the seven Regional Control Centres buildings including technology costs but excluding on-road services and staff costs, is estimated to be £63.7 million.

The annual running cost for the seven Regional Control Centres is estimated to be in the region of £9.3 million, excluding on-road services and staff costs.

Mrs. Spelman: To ask the Secretary of State for Transport what assessment the Government has made of the impact of the Traffic Management Act 2004 on the costs of local authorities. [216265]

Charlotte Atkins: The Government considers that the Traffic Management Act 2004, overall, should be cost neutral for local authorities, taking account of the opportunities to recover some costs through the provisions of the Act, and the scope to use existing resources in new ways.

TREASURY

1992 Treasury Rules

Mr. Hancock: To ask the Chancellor of the Exchequer whether the payments under the 1992 Treasury Rules were invoked for *(a)* Gunwharf, Portsmouth, *(b)* Royal Clarence Yard, Gosport, *(c)* Peninsular Barracks, Winchester and *(d)* Ashford Barracks, Kent; and whether the Rules have ever been invoked more than once on the same site. [214283]

Mr. Caplin: I have been asked to reply. Clawback payments to the Ministry of Defence were invoked in connection with Gunwharf—more than once—and Royal Clarence Yard. However, there is no clawback clause in the contract for either Peninsula or Ashford Barracks as in each case the purchasers paid full market value at the time of disposal.

Airline Cabin Crew

Mr. Laurence Robertson: To ask the Chancellor of the Exchequer when the Inland Revenue withdrew the flat rate expenses allowance for airline cabin crew; what criteria were used in making this decision; and if he will make a statement. [216455]

Dawn Primarolo: Flat rate expense allowances are agreed with individual employers to reflect individual circumstances. The hon. Member's question concerns a particular airline. The Inland Revenue is in discussion with the airline concerned to agree a flat rate expense allowance that reflects the appropriate level of expenses in line with the qualifying conditions set in tax law.

Alcohol-related Deaths (Leicester)

Mr. Gill: To ask the Chancellor of the Exchequer in how many deaths within Leicester, South alcohol was found to be the primary cause in each year since 1997. [216387]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Mr. Parmjit Singh Gill, dated 21 February 2005:

As National Statistician I have been asked to reply to your recent Parliamentary Question asking in how many deaths within Leicester, South Parliamentary Constituency, alcohol was found to be the primary cause in each year since 1997. (216387)

The latest year for which figures are available is 2003. The attached table shows the numbers of deaths among residents of Leicester, South Parliamentary Constituency where the underlying cause of death indicated a condition directly related to alcohol use in the years 1997 to 2003.

Alcohol-related deaths[1] for Leicester, South parliamentary constituency[2] 1997 to 2003[3]

	Number of deaths
1997	10
1998	9
1999	10
2000	17
2001	10
2002	12
2003	16

[1] For the years 1997–2000 the cause of death was defined using the International Classification of Diseases, Ninth Revision (ICD-9). The codes used by ONS to define alcohol-related deaths are listed:
291—Alcoholic psychoses
303—Alcohol dependence syndrome
305.0—Non-dependent abuse of alcohol
425.5—Alcoholic cardiomyopathy
571—Chronic liver disease and cirrhosis
E860—Accidental poisoning by alcohol
For the years 2001–2003 the International Classification of Diseases, Tenth Revision (ICD-10) was used. To maintain comparability with earlier years the following codes were used:
F10—Mental and behavioural disorders due to use of alcohol
142.6—Alcoholic cardiomyopathy
K70—Alcoholic liver disease
K73—Chronic hepatitis, not elsewhere classified
K74—Fibrosis and cirrhosis of liver
X45—Accidental poisoning by and exposure to alcohol
The selection of codes to define alcohol-related deaths is described in:
Baker A and Rooney C (2003). Recent trends in alcohol-related mortality, and the impact of ICD-10 on the monitoring of these deaths in England and Wales. "Health Statistics Quarterly" 17, pp 5–14.
[2] Usual residents of this area.
[3] Deaths occurring in each calendar year.

Aviation Fuel

David Taylor: To ask the Chancellor of the Exchequer what recent assessment has been made of the merits of introducing a tax on aviation fuel. [216298]

Mr. Timms: None.

Capital Allowances

Mr. Stephen O'Brien: To ask the Chancellor of the Exchequer what plans he has to change the system of capital allowances for plant and machinery. [217174]

Dawn Primarolo: The Government's proposals for modernisation of the taxation of capital assets—including capital allowances—are set out in a Technical Note on Corporation Tax reform, published by the Inland Revenue in December 2004. This is available at http://www.inlandrevenue.gov.uk/pbr2004/sup_ct-reform-tech-note.pdf

In light of this, any changes to the system of capital allowances for plant and machinery will be considered by the Chancellor as part of the normal Budget cycle.

Carers

Mr. Oaten: To ask the Chancellor of the Exchequer what estimate he has made of the number of carers who are over the age of 65 years. [217039]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Colin Mowl to Mr. Mark Oaten, dated 21 February 2005:

The National Statistician and Registrar General for England and Wales has been asked to reply to your recent question asking what estimate has been made of the number of carers who are over the age of 65 years. I am replying in his absence. (217039)

I refer you to the answer given in the Official Report of 31 January 2005 columns 590W to 591W, which includes the latest available information.

Child Trust Fund Payments

Angela Eagle: To ask the Chancellor of the Exchequer how many households in each ward of Wallasey constituency contain children who qualify for child trust fund payments. [217313]

Mr. Timms: I refer My hon. Friend to the answer given to my hon. Friend the Member for Battersea (Martin Linton) on 30 November 2004, *Official Report*, columns 87–88W. All children born and living in the UK since 1 September 2002 whose families receive child benefit will be eligible for the child trust fund.

Climate Change Levy

Norman Baker: To ask the Chancellor of the Exchequer how much revenue was received in 2003–04 from those companies paying the climate change levy at 20 per cent. of the full rate. [216816]

Dawn Primarolo: It is not possible to determine the revenue the Exchequer received in 2003–04 from those companies paying the climate change levy at 20 per cent. of the full rate.

Design

Alan Howarth: To ask the Chancellor of the Exchequer who the ministerial design champion for his Department is. [215655]

Mr. Boateng: I am the ministerial design champion for the Treasury.

Labour Statistics

Andy Burnham: To ask the Chancellor of the Exchequer how many job vacancies there were in Leigh in *(a)* 1997 and *(b)* 2004; and if he will make a statement on the levels of long-term (i) adult and (ii) youth employment in Leigh over the last 15 y[illegible]. [214587]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Colin Mowl to Mr. Andy Burnham, dated 21 February 2005:

The National Statistician has been asked to reply to your Parliamentary Question about job vacancies and unemployment. I am replying in his absence. (214587)

Statistics on vacancies in total are only available from the ONS Vacancy Survey, which provides information at national level only. For local areas, figures for vacancies held by the Jobcentre Plus administrative system are available for periods up to April 2001. However, due to changes to that system, more recent figures are available only for newly notified vacancies, and not on a comparable basis.

There were 223 unfilled vacancies registered at Jobcentres in Leigh on average during 1997. The latest comparable figure, the average for the 12 months to April 2001, was 270. These figures represent only those vacancies notified to Jobcentres, not all vacancies in an area.

Table 1 gives estimates of the numbers of long-term unemployed people, both youth and adult, who were resident in Leigh Parliamentary Constituency, for each twelve month period ending February from 1999 to 2004, the most recent available period. Information on length of time unemployed is not available for earlier periods.

These estimates from Labour Force Survey are, as with any sample survey, subject to sampling variability.

ONS also compiles statistics of those claiming Jobseeker's Allowance (JSA) for local areas. Table 2 gives the annual average number of young people aged 18 to 24 years old and adults (aged 25 and over) resident in the Leigh constituency claiming JSA benefits for over 12 months or more in each year from 1989 to 2004.

Table 1: People resident in Leigh parliamentary constituency unemployed for over 12 months

Thousand

12 months ending February	*Youth (aged 16 to 24)*	*Adult (aged 25 and over)*
1999	[1]—	1,000
2000	[1]—	1,000
2001	[1]—	1,000
2002	[1]—	[1]—
2003	[1]—	[1]—
2004	[1]—	[1]—

[1] Estimates not shown as they are potentially disclosive.

Note:
These estimates are based on very small sample sizes and are subject to a high degree of sampling variability. Changes from year to year, especially, should be treated with caution.

Jobcentre Plus administrative system

Geraldine Smith: To ask the Chancellor of the Exchequer what the levels of *(a)* adult and *(b)* youth employment in Morecambe and Lunesdale were in each of the last eight years; and if he will make a statement. [216777]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Colin Mowl to Ms Geraldine Smith, dated 21 February 2005:

The National Statistician has been asked to reply to your Parliamentary Question about adult and youth employment. I am replying in his absence. (216777)

The attached table gives estimates of the number of youths and adults in employment, who were resident in the Morecambe & Lunesdale Parliamentary Constituency, for the twelve month periods ending November each year from 1997 to 2004.

These estimates from the Labour Force Survey are, as with any sample survey, subject to sampling variability.

Employed youths and adults resident in Morecambe and Lunesdale parliamentary constituency

12 months ending February	*Youths (aged 16–24)*	*Adults (aged 25 and over)*
1997	4,000	29,000
1998	4,000	32,000
1999	3,000	32,000
2000	5,000	33,000
2001	7,000	31,000
2002	4,000	31,000
2003	7,000	33,000
2004	8,000	32,000

Note:
These estimates are based on very small sample sizes and are subject to a high degree of sampling variability. Changes from year to year, especially, should be treated with caution.

EU Committees

Angus Robertson: To ask the Chancellor of the Exchequer how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Customs Section of the Joint Committee (EEC-Norway) met; when and where these meetings took place; which UK Government expert was present; and if he will make a statement. [217257]

Dawn Primarolo: The UK was not involved with these meetings, which are the responsibility of the European Commission. Consequently the information requested is not available.

Angus Robertson: To ask the Chancellor of the Exchequer how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Customs Section of the Joint Committee (EEC-Iceland) met; when and where these meetings took place; which UK Government expert was present; and if he will make a statement. [217258]

Dawn Primarolo: The UK was not involved with these meetings, which are the responsibility of the European Commission. Consequently the information requested is not available.

Euro

Mr. Hayes: To ask the Chancellor of the Exchequer whether the eventual phasing out of national designs on euro notes and coins is planned; and what *(a)* volume and *(b)* value of euro notes and coins has been repatriated since the inception of the euro. [217386]

Mr. Timms: The informal ECOFIN Council of Verona agreed in April 1996 that euro coins should have a distinctive national obverse side, the designs for which were decided by each member state. Arrangements concerning the technical specifications of euro coins were formally set out in Council Regulation (EC) No. 975/98 of 3 May 1998. Arrangements concerning the transfer of euro notes and coins are the responsibility of the European Central Bank and can be found on their website: www.ecb.int

Football Testimonials

Mr. Kilfoyle: To ask the Chancellor of the Exchequer what plans he has to end tax-free testimonials for professional footballers; and if he will make a statement. [216745]

Dawn Primarolo: The proceeds from footballers' testimonial events may already be chargeable to tax under present law. Whether they are or not depends upon the circumstances of each individual case. We have no current plans to change this. However, we keep all aspects of the tax system, including this one, under review.

Freedom of Information

Dr. Julian Lewis: To ask the Chancellor of the Exchequer what the cost was of the recent release of documents relating to the United Kingdom's exit from the ERM in 1992 under the Freedom of Information Act 2000. [217136]

Mr. Timms: No Treasury Minister or special adviser had any involvement in the release of these documents. I understand that the documents were obtained within the relevant cost limit.

Health Treatment (Charitable Donations)

John Mann: To ask the Chancellor of the Exchequer what assessment he has made of the merits of exempting charitable donations for health treatment from income calculations in relation to tax credit entitlements. [216328]

Mr. Timms: All charitable donations which qualify for Gift Aid, whatever their purpose, should be deducted from the calculation of income when claiming the child and working tax credits. Information is provided in the guidance notes that accompany the tax credits claim form and annual declaration. There is also a working sheet available on request from the Inland Revenue Tax Credits Helpline to help claimants make such deductions when working out their income for tax credit purposes.

Home Repossessions (North Durham)

Mr. Kevan Jones: To ask the Chancellor of the Exchequer how many home repossessions there have been in North Durham in each year since 1990. [217129]

Keith Hill: I have been asked to reply.

I refer my hon. Friend to the answer given to my hon. Friend the Member for City of Durham (Mr. Steinberg) on 7 February 2005, *Official Report*, column 1294W.

Departmental Policies (Huddersfield)

Mr. Sheerman: To ask the Chancellor of the Exchequer if he will set out, with statistical information relating as directly as possible to Huddersfield constituency, the effects on Huddersfield of his Department's policies and actions since 2 May 1997. [216875]

Mr. Timms: The Government have put in place a broad programme of both macroeconomic and microeconomic reform since our election in 1997 designed to better the economic performance of all parts of the UK. Since these policies were implemented the economic performance of the Huddersfield constituency has improved considerably. For example, since May 1997, claimant unemployment has fallen

by 53 per cent., long-term unemployment has fallen by 90 per cent., and long-term youth unemployment by 91 per cent.

The Neighbourhood Statistics Service provides a wide range of statistical information at parliamentary constituency level, taken from the 2001 Census and other sources. This service is available on the National Statistics website at http://neighbourhood.statistics.gov.uk./

Inheritance Tax

Dr. Cable: To ask the Chancellor of the Exchequer what his most recent estimate is of the total value of gifts made in a year which become exempt from inheritance tax because they have been made at least seven years before death; and what estimate he has made of how many people make such gifts in a year. [216682]

Dawn Primarolo: Information to make reliable estimates is not available.

Dr. Cable: To ask the Chancellor of the Exchequer what estimate he has made of the impact on the inheritance tax yield of changing the rate at which inheritance tax is chargeable to *(a)* zero per cent. for sums between £0 to £300,000, *(b)* 40 per cent. for sums between £300,000 to £600,000 and *(c)* 50 per cent. for sums over £600,000. [217169]

Mr. Timms: The proposed regime would produce additional yield of about £30 million in a full year.

Insulation Material

Norman Baker: To ask the Chancellor of the Exchequer what assessment he has made of the implications for the environment of the differential rates of VAT applied to insulation material when bought privately and when installed. [216335]

Dawn Primarolo: The Government are committed to improving household energy efficiency, as part of their programme to meet the Energy White Paper targets and see the use of economic instruments as an effective way to implement environmental policy.

The Government apply a reduced rate of VAT for the contractual installation of energy-saving materials in certain circumstances and have a long-standing commitment to pursue an amendment to the EU sixth VAT directive to permit a reduced rate of VAT for the purchase of energy-saving materials for DIY installation.

Evaluation of policy initiatives to protect the environment, including tax measures, is being carried out as part of the climate change programme review. This review is due to report its findings in the summer.

Ivory

Mr. Hancock: To ask the Chancellor of the Exchequer what weight of ivory and how many ivory products were seized by HM Customs and Excise since March 2004. [216082]

Dawn Primarolo: Details of ivory seizures, including weight where available, made by HM Customs and Excise in the first half of the fiscal year 2004–05 will appear in the combined Inland Revenue and HM Customs and Excise spring report, due to be published in May 2005. A copy will be placed in the Library of the House.

Landfill Tax

Mr. Liddell-Grainger: To ask the Chancellor of the Exchequer how much revenue was generated by the landfill tax in *(a)* 2003–04 and *(b)* 2002–03. [217396]

Dawn Primarolo: Landfill tax receipts are published by Customs and Excise in the Landfill Tax Bulletin, a copy of which can be found on the UK Trade Information website at www.uktradeinfo.com.

Landfill tax receipts for the financial year (net of landfill tax credit scheme payments) are as follows:

	£ million
2002–03	541
2003–04	607

National Insurance Contributions

Mr. Gregory Campbell: To ask the Chancellor of the Exchequer if he will estimate how many people who pay national insurance contributions would not do so if the threshold for payment were to be raised to £10,000 per annum, in the first year following the raising of the threshold. [215785]

Dawn Primarolo: The number of people who are currently projected to pay national insurance contributions in the UK, who would not do so if the primary threshold and lower profits limit were raised to £10,000 per annum in the year 2005–06 is estimated to be 4 million. The estimate is based upon the "Report by the Government Actuary on the drafts of the Social Security Benefits Up-rating Order 2005 and the Social Security (Contributions) (Re-rating and National Insurance Funds Payments) Order 2005".

Office for National Statistics

Mrs. Spelman: To ask the Chancellor of the Exchequer what the estimated expenditure by the Office for National Statistics on producing and compiling statistics relating to England at Government Office for Region level was in the last period for which figures are available. [216035]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Mr. Colin Mowl, to Mrs. Caroline Spelman, dated 21 February 2005:

As National Statistician, I have been asked to reply to your recent parliamentary Question on what the estimated expenditure by the Office for National Statistics on producing and compiling statistics relating to England at Government Office for Region level was in the last period for which figures are available. (216035)

For the reasons stated in the answer that appeared in the Official Report, number 125, column 312, it is not possible to provide the costs you seek to identify.

Public Expenditure

Mr. Rosindell: To ask the Chancellor of the Exchequer what assessment he has made of the influence of public spending increases on the state of the economy. [216069]

Mr. Boateng: The Treasury's latest projections for public expenditure and the Treasury's latest economic forecast are set out in the 2004 pre-Budget report, which is available in the Library of the House. Updated projections will be provided with the Budget.

Royal Marriage

Norman Baker: To ask the Chancellor of the Exchequer what estimate he has made of the costs to public funds which will arise from the proposed marriage between His Royal Highness the Prince of Wales and Mrs. Camilla Parker Bowles; whether rules exist in respect of public expenditure on such matters; and if he will make a statement. [217193]

Mr. Timms: Since the wedding will be a private event, I have made no such estimate.

Government Departments manage their own budgets in line with their statutory responsibilities, objectives and priorities.

Stamp Duty

Dr. Cable: To ask the Chancellor of the Exchequer if he will estimate the reduction in stamp duty yield from residential property which would result from raising the threshold at which 1 per cent. stamp duty starts from £60,000 to £150,000. [216683]

Dawn Primarolo: The estimated revenue cost, in 2005–06, of restructuring stamp duty on residential property sales by raising the threshold from £60,000 to £150,000 is £480 million. This does not include any allowance for behavioural changes.

Dr. Cable: To ask the Chancellor of the Exchequer what proportion of the cost of reliefs from stamp duty for transfers in designated disadvantaged wards was accounted for by *(a)* residential transfers and *(b)* non-residential transfers in the most recent year for which figures are available. [216681]

Dawn Primarolo: In 2003–04 the proportion of disadvantaged areas relief claimed in respect of residential transfers was estimated at 15 per cent. of the total relief claimed, and the amount claimed in respect of non-residential transfers was estimated at 85 per cent.

Tax Credits

Geraldine Smith: To ask the Chancellor of the Exchequer (1) how many families in Morecambe and Lunesdale have received *(a)* working tax credit and *(b)* child tax credit; [216769]

(2) what the average monetary value is of *(a)* working tax credit and *(b)* child tax credit awards. [216770]

Dawn Primarolo: Estimates of the number of in-work families receiving tax credits (broken down by families with and without children) in each constituency appear in "Child and Working Tax Credit Statistics, Geographical analyses." This can be found on the Inland Revenue website at www.inlandrevenue.gov.uk/stats/personal-tax-credits/menu.htm. The estimates are based on a sample of cases, and are subject to sampling uncertainty.

Information on average awards is not available.

Miss McIntosh: To ask the Chancellor of the Exchequer for what reasons the Tax Credit Office does not reimburse members of the general public for overpayments until the end of the financial year. [216430]

Mr. Timms: The Inland Revenue's Code of Practice 26 (COP26) 'What happens if we have paid you too much tax credit?' sets out the Department's approach to handling tax credits overpayments.

It is only after the end of the year, once all the information about income and circumstances is available, that the Revenue will compare tax credit entitlement with what they have paid. They will then finalise the award and send claimants a finalisation notice. If there is an underpayment a lump sum payment is then made. Alternatively, if the finalisation notice shows an overpayment for the year, it will wherever possible be recovered from a continuing award.

When a person's circumstances change during the year the Revenue will adjust the payments for the remainder of the year with the aim of paying the right amount of tax credits for the year as a whole.

Miss McIntosh: To ask the Chancellor of the Exchequer under what circumstances individuals who have made overpayments to the Tax Credit Office due to errors by the office are eligible to claim financial hardship payments. [216431]

Mr. Timms: The Inland Revenue's Code of Practice 26 ("What happens if we have paid you too much tax credit?") sets out their approach to handling overpayments of tax credits.

Additional tax credits payments may be made by the Inland Revenue to prevent hardship where payments are reduced following the adjustment of an award.

Mrs. May: To ask the Chancellor of the Exchequer what estimate he has made of the number of families who will benefit from the extension of the subsidy in the child care element of the working tax credit in 2006 announced in the pre-Budget report in December 2004; and what he estimates the average gain per family per year will be. [217130]

Mr. Timms: Assuming that the number of beneficiaries and average child care costs remains at December 2004 levels, around 330 thousand families will benefit from the increase in the percentage of child care costs covered in the child care element of tax credits. The average (mean) gain is assumed to be £400 per year.

Angela Eagle: To ask the Chancellor of the Exchequer how many people in each ward of Wallasey constituency claim working tax credit. [217312]

Dawn Primarolo: Estimates of the number of in-work families receiving tax credits (broken down by families with and without children) in each constituency appears in "Child and Working Tax Credit Statistics, Geographical analyses, December 2004" This can be found on the Inland

Revenue website at www.inlandrevenue.gov.uk/stats/personal-tax-credits/menu.htm. The estimates are based on a sample of cases, and are subject to sampling uncertainty.

Estimates for smaller areas are not available.

VAT

Mr. Grogan: To ask the Chancellor of the Exchequer how many VAT registered businesses there were on average in the area of *(a)* Selby district council and *(b)* City of York council in (i) 1997 and (ii) 2004. [216321]

Dawn Primarolo: Customs and Excise do not collect data on the number of VAT registered businesses by geographical area. Information on VAT registered businesses by area is available via the Small Business Service website www.sbs.gov.uk. The following table shows the number of enterprises registered for VAT at the start of the year for the unitary authorities and local authority districts within the Yorkshire and the Humber Government office region.

Number of VAT registered enterprises at the start of 1997 and 2004

Area type	*Area*	*1997*	*2004*
Region	Yorkshire and the Humber GOR	121,975	129,645
UA	East Riding of Yorkshire	9,705	10,115

Small Business Service www.sbs.gov.uk

Mr. Swayne: To ask the Chancellor of the Exchequer whether it is his policy, in cases where the Inland Revenue is persuaded that a VAT registration is unnecessary and mistaken, that *(a)* penalties for non-payment and *(b)* backdated tax claims should be withdrawn; and if he will make a statement. [216535]

Mr. Timms: Where a person makes taxable supplies and is registered for VAT voluntarily, the registration cannot be cancelled retrospectively. The person is liable to account for VAT on taxable supplies made and may be liable to penalties during the period of the registration.

Where Customs and Excise register a person for VAT and they subsequently discover that the person was neither required nor entitled to be registered, they will remove the person from the register and withdraw any assessments made for arrears of tax or penalty. Customs are, however, able to recover from that person any amount he has charged to customers as VAT and he may be liable to a penalty on this amount.

CULTURE, MEDIA AND SPORT

Licensing Act

12. **Mr. Walter:** To ask the Secretary of State for Culture, Media and Sport what progress has been made in implementing the Licensing Act 2003. [216959]

Tessa Jowell: I am pleased to announce that 7 February marked the start of the transition from the old licensing regimes to the arrangements under the 2003 Act. Applicants have six months to convert existing licences and until November to secure new licences. The necessary regulations have been made and the first two personal licence qualifications under the Act have been accredited. The old licensing laws will end in November and be superseded by a licensing regime which is fit for the 21st century and will benefit the whole community.

13. **Simon Hughes:** To ask the Secretary of State for Culture, Media and Sport what her Department's advice to local authorities is on assessing the local cumulative impact of licensing applications made under the Licensing Act 2003. [216960]

Mr. Caborn: On 7 July last year, we published our guidance to licensing authorities and this is available in the House Library and also on our website www.culture.gov.uk. Our advice on assessing the local cumulative impact of licensing applications made under the 2003 Act can be found in sections 3.13–3.28 of the guidance.

17. **Andrew Selous:** To ask the Secretary of State for Culture, Media and Sport if she will make a statement on the financial implications of the Licensing Act 2003 for sports clubs. [216964]

Mr. Caborn: In setting the fee levels and the allocation of premises to a band based on its non-domestic rateable value we have considered the impact of the approach on clubs, including sports clubs. We do not consider that the financial implications on such clubs will be significant.

14. **Sue Doughty:** To ask the Secretary of State for Culture, Media and Sport what assessment her Department has made of the impact of licence fee levels on amateur and voluntary sports clubs. [216961]

Mr. Caborn: In setting the fee levels and the allocation of premises to a band based on its non-domestic rateable value we have considered the impact of the approach on clubs, including sports clubs. We do not consider that the impact on such clubs will be significant.

Faith Communities (Built Heritage)

18. **Mr. Luff:** To ask the Secretary of State for Culture, Media and Sport if she will make a statement

on her Department's policies towards financial support for the protection of the built heritage of faith communities. [216965]

Estelle Morris: My Department has in place a comprehensive package of financial support for the repair and maintenance of historic ecclesiastical buildings. The Listed Places of Worship Grant Scheme repays the equivalent of the VAT paid on repairs to listed churches and other places of worship. English Heritage operates schemes for the funding of repair and maintenance of historic churches and cathedrals.

Alcohol Licensing (Bridgwater)

Mr. Liddell-Grainger: To ask the Secretary of State for Culture, Media and Sport how many alcohol licences are currently issued to premises in the Bridgwater constituency. [217411]

Mr. Caborn: We do not have a record of the number of alcohol licences currently issued in the Bridgwater constituency.

However, I can provide statistics for the petty sessional areas of Sedgemoor and Taunton Deane and West Somerset, which include Bridgwater. As of June 2004 there were 799 on-licensed premises and 263 off-licence premises—a total of 1,062 licences.

DCMS deposited the source publication for these figures, "Statistical Bulletin Liquor Licensing (England and Wales, July 2003-June 2004)", on 27 October 2004 in the House Libraries. This document is available on the DCMS website at: http://www.culture.gov.uk/global/research/statistics_outputs/liquor_licensing_statistics.htm

Children's Sport

Paul Flynn: To ask the Secretary of State for Culture, Media and Sport how many children participated in *(a)* boxing, *(b)* rugby, *(c)* football, *(d)* netball and *(e)* hockey in the last period for which figures are available; and if she will make a statement. [216948]

Mr. Caborn: The results of the largest and most comprehensive survey of school sport in England—published on 29 April 2004—showed that within School Sport Partnership schools; 97 per cent. offer football, 84 per cent. offer netball, 77 per cent. offer hockey, 67 per cent. offer rugby union, 12 per cent. rugby league and around 1 per cent. offer boxing.

Mr. Liddell-Grainger: To ask the Secretary of State for Culture, Media and Sport how many schoolchildren there are in the Bridgwater constituency; and what percentage participate in two hours of quality physical sport or activity each week. [217412]

Mr. Caborn: There were 12,611 pupils aged 5–19 attending schools in the Bridgwater constituency as of January 2004 (the latest figures available).

The constituency level information sought is not held centrally in the format requested. However, the 2003–04 PE, School Sport and Club Links survey showed that overall, 62 per cent. of pupils in schools within a School Sport Partnership (at the time of the survey, 30 per cent. of all schools in England) spend at least two hours in a typical week on high-quality PE and school sport within and beyond the curriculum.

Within the constituency of Bridgwater there is one School Sport Partnership, comprising 31 schools. All schools, both within Bridgwater as well as nationally, will be part of a School Sport Partnership by September 2006.

Departmental Policies

Mr. Ronnie Campbell: To ask the Secretary of State for Culture, Media and Sport if she will set out, with statistical information relating as closely as possible to the Blyth Valley constituency, the effects of the Department's policies on the Blyth Valley since 1997. [216541]

Mr. Caborn: The Department's aim is to improve the quality of life for everyone through cultural and sporting activities, to support the pursuit of excellence and to champion the tourism, creative and leisure industries. The Department's policies and actions have had a significant impact on Blyth Valley since 2 May 1997.

In 2002 we launched the first ever comprehensive national physical education, school sport and club links strategy with an investment of £459 million. A school sport partnership involving four Primary Link teachers is based at St. Benet Biscop in Blyth Valley. To achieve our challenging targets for increased participation in sport and physical activity, we have invested in thousands of new and refurbished public sports facilities. Sports facilities in Blyth Valley have benefited from six Sport England Lottery grants totalling £493,758.

We have increased our national funding to the arts in real terms by 60 per cent. from £199 million in 1998–99 to £367 million in 2004–05. Between 1998–99 and 2003–04 Arts Council England, North East grants increased from £5.7 million to £12.2 million. In 2005–06 the total Arts Council England investment in regularly funded organisations in the North East will be £11.3 million. Blyth Valley has benefited from grants to arts projects, organisations and individuals, including the Northern Cultural Skills Partnership and the Northern Disability Arts Forum.

From September 2005, schools in Blyth Valley will be included in the third phase of the Creative Partnerships programme which began in 2002. Creative Partnerships aims to give schoolchildren and their teachers the opportunity to explore their creativity by working on sustained projects with creative organisations and individuals, including artists, theatre companies, dance studios, museums, orchestras, film-makers and historic buildings. Funding of £65 million was allocated for the period 2002–05 to develop Creative Partnerships, and the programme will receive at least a further £86 million in 2005–08.

Young people in Blyth Valley have also benefited from the setting up of the Northumberland Youth Music Action Zone, known as CoMusica, in 2000. CoMusica has received a total of £866,500 and 1,450 young people from across Northumberland have taken part in its local music projects and events.

Culture Online was launched in 2002 to increase access to, and participation in, arts and culture. Many of its projects are aimed at children of school age and at audiences that might not otherwise participate in arts

and culture, including those who do not easily have access to arts and culture, people from deprived communities and people with particular educational or physical needs. People in Blyth Valley will be among those who benefit from Culture Online. Between 2002 and 2004, £13 million was allocated to fund 20 Culture Online projects.

Through our commitment to public service broadcasting we have helped to foster an environment in which a creative, commercially successful broadcasting industry provides a wide range of UK-made, high-quality original programmes catering for all viewers and listeners. We have ensured a secure funding base for the BBC and Channel 4, while giving them the freedom to develop commercial operations which complement and support their public service remit. The Communications Act 2003 includes provisions to ensure that public service broadcasting will continue to have a key role to play in the digital future.

Our support for, and promotion of, the film and broadcasting industries have contributed to the general success of film-making and television activity in Northumberland. The UK Film Council has, through Northern Film and Media, awarded £45,000 to a number of projects by writers based in the Blyth Valley.

In November 2000 we introduced free television licences for people aged 75 or over. Information on the number of beneficiaries by constituency is not available. However, according to Department for Work and Pensions records, the number of households in Blyth Valley with at least one person aged 75 or over claiming the winter fuel payment in 2003–04 was 4,135.

We have changed the licensing laws to allow people to hold and attend commercial dances on Sunday, to make it easier for restaurants to open an hour later, and to relax the alcohol licensing hours from 11 pm on new year's eve to 11 am on new year's day in all future years; and we have given the police greater powers to take action against under-age drinking and disorderly and noisy licensed premises. The Licensing Act 2003, when fully implemented, will introduce a streamlined, consistent and fair licensing regime for the provision of alcohol, public entertainment and late night refreshment. It will provide greater choice for consumers, bring regeneration and increased employment opportunities and protect local residents whose lives have been blighted by disturbance and antisocial behaviour.

The Gambling Bill will, when implemented, transfer responsibility for licensing gambling premises to local authorities. Local people and businesses will be able to make representations about applications for licences and local authorities will be able to decide not to issue licences for casino premises. These changes will give local communities, including those in Blyth Valley, a greater say in the regulation of gambling in their area.

Tourism in Blyth Valley has benefited from Government-funded marketing activity. In April 2003 we established VisitBritain with a new domestic marketing remit for England, and we gave strategic responsibility for tourism development to the Regional Development Agencies, including One North East. These changes, together with VisitBritain's successful marketing activities in promoting Britain abroad as an attractive tourist destination, benefit all parts of the country, including Blyth Valley. English Heritage has awarded grants worth £147,940 to buildings or organisations in Blyth Valley since 2 May 1997, including Seaton Delavel Hall.

In common with all those in the United Kingdom, the public library branches in Blyth Valley are connected to the internet through the People's Network which was funded through a £120 million Lottery grant and which has put all the United Kingdom's public libraries on-line. In addition, the Department is funding the Museums, Libraries and Archives Council with £5 million over three years to implement the Framework for the Future Action Plan and Library Improvement Programme, which is designed to encourage improvement across the public libraries sector in England. Information from the National Lottery distributors indicates that since 2 May 1997 Blyth Valley has benefited from over 330 awards totalling over £6.3 million. Of these, 22 awards worth over £1.7 million were made by the New Opportunities Fund, which was established by the Government in 1999. The New Opportunities Fund merged with the Community Fund in June 2004 to form the Big Lottery Fund.

Mr. Sheerman: To ask the Secretary of State for Culture, Media and Sport if she will set out, with statistical information relating as directly as possible to Huddersfield constituency, the effects on Huddersfield of her Department's policies and actions since 2 May 1997. [216874]

Mr. Caborn: The Department's aim is to improve the quality of life for everyone through cultural and sporting activities, to support the pursuit of excellence and to champion the tourism, creative and leisure industries. The Department's policies and actions have had a significant impact on Huddersfield since 2 May 1997.

In 2002 we launched the first ever comprehensive national physical education, school sport and club links strategy with an investment of £459 million. There is one school sport partnership involving two school sport co-ordinators and nine primary link teachers in Huddersfield. To achieve our challenging targets for increased participation in sport and physical activity, we have invested in thousands of new and refurbished public sports facilities. Sports facilities in Huddersfield have benefited from 19 Sport England lottery grants totalling £12,395,679, including two awards worth £249,603 in total, from the £108 million investment in innovative sports facilities through the Active England programme.

We have increased our national funding to the arts in real terms by 60 per cent. from £199 million in 1998–99 to £367 million in 2004–05. Between 1998–99 and 2003–04 Arts Council England, Yorkshire and the Humber grants increased from £6.7 million to £21.3 million. In 2005–06 the total Arts Council England, Yorkshire and the Humber investment in regularly funded organisations will be £23.4 million. Huddersfield has benefited from grants to arts projects, organisations and individuals, including the Huddersfield Contemporary Music Festival and the Lawrence Batley Theatre.

Culture Online was launched in 2002 to increase access to, and participation in, arts and culture. Many of its projects are aimed at children of school age and at audiences that might not otherwise participate in arts and culture, including those who do not easily have access to arts and culture, people from deprived communities and people with particular educational or physical needs. People in Huddersfield will be among those who benefit from Culture Online. Between 2002 and 2004, £13 million was allocated to fund 20 Culture Online projects.

Through our commitment to public service broadcasting we have helped to foster an environment in which a creative, commercially successful broadcasting industry provides a wide range of UK-made, high-quality original programmes catering for all viewers and listeners. We have ensured a secure funding base for the BBC and Channel 4, while giving them the freedom to develop commercial operations which complement and support their public service remit. The Communications Act 2003 includes provisions to ensure that public service broadcasting will continue to have a key role to play in the digital future.

Our support for, and promotion of, the film and broadcasting industries have contributed to the general success of film-making and television activity in the Huddersfield area. A number of projects have received funding through Screen Yorkshire.

In November 2000 we introduced free television licences for people aged 75 or over. Information on the number of beneficiaries by constituency is not available. However, according to Department for Work and Pensions records, the number of households in Huddersfield with at least one person aged 75 or over claiming the winter fuel payment in 2003–04 was 5,095.

We have changed the licensing laws to allow people to hold and attend commercial dances on Sunday, to make it easier for restaurants to open an hour later, and to relax the alcohol licensing hours from 11 pm on new year's eve to 11 am on new year's day in all future years; and we have given the police greater powers to take action against under-age drinking and disorderly and noisy licensed premises. The Licensing Act 2003, when fully implemented, will introduce a streamlined, consistent and fair licensing regime for the provision of alcohol, public entertainment and late night refreshment. It will provide greater choice for consumers, bring regeneration and increased employment opportunities and protect local residents whose lives have been blighted by disturbance and antisocial behaviour.

The Gambling Bill will, when implemented, transfer responsibility for licensing gambling premises to local authorities. Local people and businesses will be able to make representations about applications for licences and local authorities will be able to decide not to issue licences for casino premises. These changes will give local communities, including those in Huddersfield, a greater say in the regulation of gambling in their area.

Tourism in Huddersfield has benefited from Government-funded marketing activity. In April 2003 we established VisitBritain with a new domestic marketing remit for England, and we gave strategic responsibility for tourism development to the Regional Development Agencies, including Yorkshire Forward. These changes, together with VisitBritain's successful marketing activities in promoting Britain abroad as an attractive tourist destination, benefit all parts of the country, including Yorkshire.

English Heritage has awarded grants worth £245,000 to buildings and organisations in Huddersfield since 2 May 1997.

In common with all those in the United Kingdom, the public library branches in Huddersfield constituency are connected to the internet through the People's Network which was funded through a £120 million lottery grant. In addition, the Department is funding the Museums, Libraries and Archives Council with £5 million over three years to implement the Framework for the Future Action Plan and Library Improvement Programme, which is designed to encourage improvement across the public libraries sector in England.

The Department has been an energetic advocate of the community value of public libraries. Kirklees council has recognised this value and has undertaken initiatives such as the 'Bibliotherapy Project' where 'Bibliotherapists' work in the community alongside health professionals in local areas of social need to 'prescribe' books and promote the benefits of reading for relaxation, reducing stress, anxiety and depression. DCMS/Wolfson Public Libraries Challenge Fund 2000–01 awarded £45,000 to this project, which benefited people in Huddersfield.

Information from the national lottery distributors indicates that since 2 May 1997 Huddersfield has benefited from over 342 awards totalling over £26.5 million. Of these, 55 awards worth over £8.9 million were made by the New Opportunities Fund, which was established by the Government in 1999. The New Opportunities Fund merged with the Community Fund in June 2004 to form the Big Lottery Fund.

Mr. Reed: To ask the Secretary of State for Culture, Media and Sport if she will set out, with statistical information relating as closely as possible to Loughborough constituency, the effects of her Department's policies on Loughborough since 1997. [217083]

Mr. Caborn: The Department's aim is to improve the quality of life for everyone through cultural and sporting activities, to support the pursuit of excellence and to champion the tourism, creative and leisure industries. The Department's policies and actions have had a significant impact on Loughborough since 2 May 1997.

In 2002 we launched the first ever comprehensive national physical education, school sport and club links strategy with an investment of £459 million. There is one school sport partnership in Loughborough based at Burleigh community college involving four School Sport Co-ordinators, 18 Primary Link teachers and one partnership Development Manager. Burleigh community college has also been awarded a Sport England grant of £272,027 to support the School Sport Co-ordinator programme. To achieve our challenging targets for increased participation in sport and physical activity, we have invested in thousands of new and

refurbished public sports facilities. Sports facilities in Loughborough have benefited from 10 Sport England community capital lottery grants totalling £11,662,082, two awards worth £685,074 in total from the £108 million investment in innovative sports facilities through the Active England programme. The English Institute of Sport based in Loughborough has received a further seven lottery grants from Sport England totalling £29,563,079.

We have increased our national funding to the arts in real terms by 60 per cent. from £199 million in 1998–99 to £367 million in 2004–5. Between 1998–99 and 2003–04 Arts Council England, East Midlands grants increased from £4.3 million to £8.9 million. In 2005–06 the total Arts Council England investment in regularly funded organisations in the East Midlands will be £9.3 million. Loughborough has benefited from grants to arts projects, organisations and individuals, including Charnwood Arts and the Eastern orchestral Board.

Culture Online was launched in 2002 to increase access to, and participation in, arts and culture. Many of its projects are aimed at children of school age and at audiences that might not otherwise participate in arts and culture, including those who do not easily have access to arts and culture, people from deprived communities and people with particular educational or physical needs. People in Loughborough will be among those who benefit from Culture Online. Between 2002 and 2004, £13 million was allocated to fund 20 Culture Online projects.

Through our commitment to public service broadcasting we have helped to foster an environment in which a creative, commercially successful broadcasting industry provides a wide range of UK-made, high-quality original programmes catering for all viewers and listeners. We have ensured a secure funding base for the BBC and Channel 4, while giving them the freedom to develop commercial operations which complement and support their public service remit. The Communications Act 2003 includes provisions to ensure that public service broadcasting will continue to have a key role to play in the digital future.

In November 2000 we introduced free television licences for people aged 75 or over. Information on the number of beneficiaries by constituency is not available. However, according to Department for Work and Pensions records, the number of households in Loughborough with at least one person aged 75 or over claiming the winter fuel payment in 2003–4 was 4,585.

We have changed the licensing laws to allow people to hold and attend commercial dances on Sunday, to make it easier for restaurants to open an hour later, and to relax the alcohol licensing hours from 11pm on new year's eve to 11am on new year's day in all future years; and we have given the police greater powers to take action against under-age drinking and disorderly and noisy licensed premises. The Licensing Act 2003, when fully implemented, will introduce a streamlined, consistent and fair licensing regime for the provision of alcohol, public entertainment and late night refreshment. It will provide greater choice for consumers, bring regeneration and increased employment opportunities and protect local residents whose lives have been blighted by disturbance and antisocial behaviour.

The Gambling Bill will, when implemented, transfer responsibility for licensing gambling premises to local authorities. Local people and businesses will be able to make representations about applications for licences and local authorities will be able to decide not to issue licences for casino premises. These changes will give local communities, including those in Loughborough, a greater say in the regulation of gambling in their area.

Tourism in Loughborough has benefited from Government-funded marketing activity. In April 2003 we established VisitBritain with a new domestic marketing remit for England; and we gave strategic responsibility for tourism development to the Regional Development Agencies, including the East Midlands Development Agency. These changes, together with VisitBritain's successful marketing activities in promoting Britain abroad as an attractive tourist destination, benefit all parts of the country, including Loughborough.

English Heritage has awarded grants worth £79,700 to Loughborough since 2 May 1997.

In common with all of those in the United Kingdom, the public library branches in Loughborough are connected to the internet through the People's Network which was funded through a £120 million lottery grant and which has put all the United Kingdom's public libraries on-line. In addition, the Department is funding the museums, libraries and archives council with £5 million over three years to implement the Framework for the Future Action Plan and Library Improvement Programme, which is designed to encourage improvement across the public libraries sector in England.

Information from the national lottery distributors indicates that since 2 May 1997 Loughborough has benefited from over 230 awards totalling over £49.5 million. Of these, 21 awards, worth over £2.8 million, were made by the New Opportunities Fund which was established by the Government in 1999. The New Opportunities Fund merged with the Community Fund in June 2004 to form the Big Lottery Fund.

Digital Broadcasting

Mr. Hoyle: To ask the Secretary of State for Culture, Media and Sport which constituencies in England are not able to receive digital reception. [216569]

Estelle Morris: The vast majority of households in England can, with the appropriate equipment, receive digital TV services via either digital satellite, digital terrestrial or cable.

However at least a quarter of households cannot currently receive the digital terrestrial television (DTT) service; this figure cannot be increased before switchover. We do not have a breakdown of coverage by constituency but we are arranging for DTT coverage maps to be placed in the Libraries of both Houses. Freeview also provides a comprehensive postcode

database (www.freeview.co.uk <http://www.freeview.co.uk>) that gives availability of digital terrestrial television throughout the UK.

Mr. Liddell-Grainger: To ask the Secretary of State for Culture, Media and Sport if she will estimate the percentage of the population in the Bridgwater constituency which does not have access to digital television. [217399]

Estelle Morris: The vast majority of households in Bridgwater can, with the appropriate equipment, receive digital television services via digital satellite. However, according to Ofcom, digital terrestrial coverage in and around the Bridgwater area is patchy; this cannot be improved, before switchover, due to topography and technical constraints on the Digital Terrestrial Television (DTT) transmissions.

We do not have a breakdown of coverage by constituency but we are arranging for DTT coverage maps to be placed in the Libraries of both Houses. Freeview also provides a comprehensive postcode database (www.freeview.co.uk <http://www.freeview.co.uk>) that gives availability of digital terrestrial television throughout the UK.

Mr. John Taylor: To ask the Secretary of State for Culture, Media and Sport (1) when digital reception will be available in *(a)* the constituency of Solihull and *(b)* postcode area B92; [216346]

(2) for what reasons digital reception is not available in Solihull. [216347]

Estelle Morris: The vast majority of households in Solihull can, with the appropriate equipment, receive digital television services via either digital satellite, digital terrestrial or cable. However, according to Ofcom, digital terrestrial coverage in and around the Solihull area is patchy; this cannot be improved before switchover, due to the technical constraints on Digital Terrestrial Television (DTT) transmissions from the Sutton Coldfield transmitter.

No firm dates for Switchover have been set, but Ofcom have suggested an indicative date of 2010 for the Central ITV region.

The Government will confirm the timetable once all the remaining issues relating to digital switchover are resolved and we are satisfied that the interests of consumers, especially the most vulnerable, are well protected.

Mr. John Taylor: To ask the Secretary of State for Culture, Media and Sport if she will ensure that people in the constituency of Solihull will be able to receive analogue reception up to the point of their being able to benefit from digital reception. [216348]

Estelle Morris: This process will begin by switching off one analogue channel, which will immediately be made available on a digital multiplex, also carrying other digital services. Then at a later date the other analogue services will be switched off and immediately replaced by the remaining digital services.

Film Industry

Mr. Dhanda: To ask the Secretary of State for Culture, Media and Sport what support the Government are offering the UK film industry. [216963]

Estelle Morris: The Government are committed to creating a sustainable, stable and successful film industry. The UK Film Council, our strategic body for film, allocates Lottery money for film making, and works with Government support to promote the widest possible enjoyment and understanding of cinema throughout the UK. The Government itself continues to make available generous and appropriately-targeted tax relief for film makers, and is working to create the best possible framework for increased and improved co-productions between UK film makers and their counterparts abroad.

Gaelic Language

Mr. Alan Reid: To ask the Secretary of State for Culture, Media and Sport what her Department's policy is on the use of the Gaelic language; and what plans her Department has to prepare and implement a Gaelic language scheme. [217092]

Mr. Caborn: DCMS does not have a Gaelic language scheme. However, our good practice policy is to ensure that Gaelic versions are available on request.

Licensing

Mr. Flook: To ask the Secretary of State for Culture, Media and Sport (1) when licensing authorities were informed that Government-approved forms for the new licensing regulations were available; [216750]

(2) in what formats the new licensing forms were made available on the departmental website; and for what reasons the Word format was only available to those who had already bought the right to the US font style called Bliss; [216751]

(3) when the Department put the new licensing forms to comply with the new licensing regulations on the departmental website; [216752]

(4) whether the Bliss font style that was available in Word format for the new forms for licensing applications was made freely available on the departmental website; [216753]

(5) what the official start date was for the new licensing forms to be used. [216782]

Mr. Caborn: 7 February marked the start of the transition from the old licensing regimes to the arrangements under the 2003 Act. There was no requirement to apply on the first appointed day; applicants have six months to convert existing licences and until November to secure new licences before the new regime comes into force. New forms were placed on our website www.culture.gov.uk on 4 February at which point we also informed LACORS (Local Authorities Coordinators of Regulatory Services) so that they could inform local authorities. However, near final versions of the forms have been available for several weeks and applicants have been able to use these to plan their applications. Both versions of the application form were made available on our website as pdf files. They were

not made available on our website in Microsoft Word format using the Bliss font, although we hope to be in a position to provide them in Word format using the Arial font soon.

Mr. Boris Johnson: To ask the Secretary of State for Culture, Media and Sport how many public house licences were withdrawn in 2004 due to the sale of alcohol to *(a)* individuals below the minimum legal age and *(b)* inebriated individuals. [216608]

Mr. Caborn: We do not have information about the reasons for licence revocations and are therefore unable to provide the breakdown of figures in the categories that the hon. Gentleman has requested, but we can provide the overall figure for public house justices' on-licence revocations in the 12 months ending 30 June 2004.

The overall number of public house justices' on-licence revocations in England and Wales was 186 in 2004. These statistics are collected on a triennial basis and are for the year to 30 June.

DCMS deposited the source publication for these figures, "Statistical Bulletin Liquor Licensing (England and Wales, July 2003-June 2004)", on 27 October 2004 in the House Libraries. This document is available on the DCMS website at; http://www.culture.gov.uk/global/research/statistics_outputs/liquor_licensing_statistics.htm.

National Lottery

Mrs. Browning: To ask the Secretary of State for Culture, Media and Sport what representations she has received proposing that lottery tickets should indicate that grants may be restricted to exclude applications from areas deemed to be affluent. [216038]

Estelle Morris: None. Lottery distributors do not exclude applications from geographic areas on the grounds of affluence. Lottery tickets do indicate that further information about the National Lottery is available at www.national-lottery.co.uk <http://www.national-lottery.co.uk> and this includes details of how to apply for a Lottery grant and the many awards which have been made since the Lottery was established in 1994. Lottery distributors, the Lottery operator and the National Lottery Promotions Unit are also working together to increase public awareness of Lottery funding.

Mrs. Browning: To ask the Secretary of State for Culture, Media and Sport for what reason lottery funding is denied to specific geographic areas in the UK on the grounds of perceived affluence. [216039]

Estelle Morris: Lottery funding is not denied to specific geographic areas in the UK on the grounds of perceived affluence. Policy directions issued to distributors by the Secretary of State for Culture, Media and Sport require them to take into account "the need to ensure that all parts of England have access to lottery funding". There is extremely strong competition for lottery funding and some distributors' awards give priority to areas or people who are at risk of social exclusion.

Overseas Visitors

Mr. Moss: To ask the Secretary of State for Culture, Media and Sport how many overseas visitors to the UK there were in each quarter of the last five years. [217126]

Mr. Caborn: According to data published by the Office for National Statistics, the number of visits to the UK by overseas residents in each quarter of the last five years was as follows:

	Total (Thousand)
2000	
Q1	4,993
Q2	6,733
Q3	7,943
Q4	5,540
2001	
Q1	4,863
Q2	6,279
Q3	7,100
Q4	4,593
2002	
Q1	4,525
Q2	6,375
Q3	7,555
Q4	5,724
2003	
Q1	4,944
Q2	6,073
Q3	7,534
Q4	6,165
2004	
Q1	5,495
Q2	7,014
Q3	8,433
Q4	6,600

Playing Fields (Bridgwater)

Mr. Liddell-Grainger: To ask the Secretary of State for Culture, Media and Sport how many playing fields that were in use in 1997 in the Bridgwater constituency are no longer used for that purpose. [217395]

Mr. Caborn: According to information provided by Sedgemoor district council, the following playing fields that were in use in Bridgwater in 1997 are no longer in use today—none of which have been sold for development:

Pitches Lost	*Location*	*Reasons*
2 football pitches	Bath Road	Sold to Bridgwater college. The land is being used to create an artificial turf pitch and other field sport use.
1 football pitch	Victoria Park	Lack of use. One pitch was re-orientated to improve the quality of the remaining pitch. The land accommodating the second pitch reverted back to informal recreational open space within the park.
3 football pitches	Bristol Road	Lack of use. Pitches were also of poor quality and were prone to frequent flooding.

Public Buildings

Alan Howarth: To ask the Secretary of State for Culture, Media and Sport when the ministerial group on better public buildings last met; what assessment she has made of the work of the group; and if she will make a statement. [215656]

Mr. Caborn: Since its launch in October 2000 the Better Public Buildings initiative has achieved much by better embedding design quality at the heart of Government construction programmes. Most Government Departments have produced action plans which outline their commitment to architectural design standards. The Ministerial Design Champions Group last met on 20 January 2003 at HM Treasury. The Ministerial Group is supported by a group of senior officials from all relevant Departments and the officials group last met in March 2004.

Officials and Ministers are considering new proposals for the future structure of the Better Public Buildings initiative.

Sports Clubs (Bridgwater)

Mr. Liddell-Grainger: To ask the Secretary of State for Culture, Media and Sport how many amateur sports clubs there are in the Bridgwater constituency. [217400]

Mr. Caborn: The DCMS does not hold the information requested. The hon. Member may wish to direct his query to the local authority for Bridgwater.

Sports Facilities

Mr. Hoyle: To ask the Secretary of State for Culture, Media and Sport what Government funding is available towards the building of *(a)* full all-weather pitches, *(b)* running tracks and *(c)* sports stadiums for football and rugby. [216570]

Mr. Caborn: By 2006, Government will have committed over £1 billion to developing new or refurbished public sports facilities. This funding is being channelled through New Opportunities for PE and Sport, the Community Club Development Programme, Space for Sport and the Arts, Active England and the Football Foundation.

Building Schools for the Future will also invest £5.1 billion in new school facilities, including open and accessible multi-sport and physical activity facilities.

The national governing bodies for Rugby and Football and the Football Foundation provide advice on the funding available to build new football or rugby stadia.

Television Licences

Mr. Carmichael: To ask the Secretary of State for Culture, Media and Sport how many letters Television Licensing have issued in each of the last 10 years threatening legal proceedings; how many of these have led to prosecutions; and how many prosecutions have been successful. [216594]

Estelle Morris: The BBC has statutory responsibility for the administration of the television licensing system and TV Licensing carries out the day-to-day administration under contract to the Corporation. I have therefore asked the BBC's Head of Revenue Management to write to the hon. Member direct, placing a copy of the letter in the Libraries of both Houses.

Based on the currently available information, the number of people in England, Scotland and Wales[1] proceeded against for offences under the Wireless Telegraphy Acts[2] in each of the last 10 years was:

[1] Figures for Northern Ireland are not available.

[2] On the principal offence basis.

	Proceeded against	*Found guilty*
1993	205,661	179,253
1994	195,644	169,681
1995	137,818	120,482
1996	193,899	170,500
1997	95,730	79,898
1998	98,044	77,982
1999	69,395	[1]56,402
2000	123,153	[2]107,702
2001	97,877	85,098
2002	111,671	976,061
2003	110,170	[3]95,596

[1] Scottish figures based on incomplete data

[2] Some figures based on a sample of data covering one full week in each quarter for 2000. Estimates based on the sample are included and considered sufficiently robust.

[3] 2003 figures for Scotland are not available.

Mr. Gill: To ask the Secretary of State for Culture, Media and Sport how many households in Leicester, South are receiving a free television licence for over-75s. [216941]

Estelle Morris: TV Licensing, which administers free television licences for people aged 75 or over as agent for the BBC, is not able to provide geographical breakdowns of the number of free licences issued. However, the number of households with at least one person aged 75 or over claiming the winter fuel payment in the Leicester, South constituency in 2003–04 was 4,660, according to Department for Work and Pensions records.

Angela Eagle: To ask the Secretary of State for Culture, Media and Sport how many people in each ward of Wallasey constituency *(a)* are entitled to free television licences and *(b)* have claimed free television licences. [217117]

Estelle Morris: TV Licensing, which administers free television licences for people aged 75 or over as agent for the BBC, is not able to provide geographical breakdowns of the number of free licences issued. However, the number of households with at least one person aged 75 or over claiming the winter fuel payment in the Wallasey constituency in 2003–04 was 5,445, according to Department for Work and Pensions records. Winter fuel payment data at ward level relate to census wards rather than electoral wards and consequently do not correspond precisely to constituency boundaries.

Visitor Attractions

Mrs. Dean: To ask the Secretary of State for Culture, Media and Sport what support her Department is giving to visitor attractions in England. [216952]

Mr. Caborn: DCMS provides a range of support. For example, visitor attractions benefit from VisitBritain's overseas and domestic marketing effort, to which DCMS contributed £45.9 million in 2003–04. Many attractions benefit from grant in aid to museums, galleries, the heritage sector and RDAs. In addition, DCMS works closely with this sector to support improvements in productivity, particularly through initiatives aimed at raising skills and quality levels as well as the standard of data.

TRADE AND INDUSTRY

Animal Experiments

John Barrett: To ask the Secretary of State for Trade and Industry what incentives are available for the researching of alternatives to experimental testing on animals. [202829]

Ms Hewitt: The Medical Research Council and the Biotechnology and Biological Sciences fund the National Centre for the Replacement, Refinement and Reduction of Animals in Research (NCSRs). NCSRs has made £500,000 available for research on all 3Rs in the 2005–06 period.

Business Rates

Mr. Drew: To ask the Secretary of State for Trade and Industry what discussions she has had with the Office of the Deputy Prime Minister on its business rates proposals in relation to green generation of electricity. [217084]

Mr. Mike O'Brien: I have discussed this matter with my right hon. Friend the Minister for Local and Regional Government (ODPM) (Mr. Raynsford). My predecessor, my hon. Friend the Member for East Ham (Mr. Timms) also wrote to the Minister for Local and Regional Government on the issue. There have also been a number of discussions at official level between our respective Departments and the renewables industry.

Departmental Buildings

Mr. Hancock: To ask the Secretary of State for Trade and Industry what the *(a)* capital and *(b)* running costs of providing supplementary heating was in her Department's buildings in London in each of the last three years. [215149]

Ms Hewitt: Over the last three years the Department has purchased a small number of stand-alone radiators at a total cost of £1,700 for emergency use only.

The running costs cannot be identified as use of each unit is not individually logged or metered.

Design

Alan Howarth: To ask the Secretary of State for Trade and Industry who the ministerial design champion for her Department is. [215651]

Ms Hewitt: My noble Friend the Parliamentary Under-Secretary of State for Science and Innovation leads on design for the Department.

ECGD (Anti-corruption Procedures)

Malcolm Bruce: To ask the Secretary of State for Trade and Industry pursuant to the answer of 27 October 2004, *Official Report*, column 1242W, on the Export Credits Guarantee Department, if she will place in the Library the Government's written responses to the written and verbal representations made by *(a)* Export Credits Guarantee Department (ECGD) customers and *(b)* organisations representing ECGD's customers in respect of ECGD's anti-bribery and corruption procedures. [210121]

Mr. Alexander *[holding answer 24 January 2005]:* Documents relating to discussions between ECGD, the CBI and industry on the Department's new anti-bribery and corruption procedures introduced on 1 May 2004 and the revised procedures that came into force have been placed in the Libraries of the House and are available on the ECGD website (www.ecgd.gov.uk/_)

ECGD will shortly be launching a public consultation on these procedures.

Malcolm Bruce: To ask the Secretary of State for Trade and Industry (1) what representations were made by BAES, Rolls-Royce and Airbus to the Export Credit Guarantees Department about its anti-corruption procedures; and if she will place written submissions in the Library; [203068]

(2) if she will place in the Library representations made by *(a)* BAES, *(b)* Rolls-Royce and *(c)* Airbus at meetings held with her Department since January to discuss the anti-corruption procedures brought into force by the Export Credits Guarantee Department on 1 May; [200600]

(3) if she will place in the Library minutes from the meetings since January in which *(a)* her officials and *(b)* Export Credits Guarantee Department staff have met organisations to discuss anti-corruption procedures brought in by the Export Credits Guarantee Department; [200601]

(4) which companies have made representations to her Department regarding the anti-corruption procedures brought into force by the Export Credits Guarantee Department on 1 May; and if she will place these representations in the Library. [201178]

Mr. Alexander: Documents relating to discussions between ECGD, the CBI and industry on the Department's new anti-bribery and corruption procedures introduced on 1 May 2004 and the revised procedures that came into force have been placed in the Libraries of the House and are available on the ECGD web site (www.ecgd.gov.uk/_)

ECGD will shortly be launching a public consultation on these procedures.

Malcolm Bruce: To ask the Secretary of State for Trade and Industry if she will place in the Library a copy of the Export Credits Guarantee Department's anti-bribery and corruption provisions that applied to Airbus prior to 1 May. [201181]

Mr. Alexander: Copies of ECGD anti-bribery and corruption procedures that applied to all companies prior to 1 May 2004 have been placed in the Libraries of the House.

EU Waste Electrical and Electronic Equipment Directive

Mr. Lidington: To ask the Secretary of State for Trade and Industry what estimate she has made of the likely costs to local authorities of complying with the EU Waste Electrical and Electronic Equipment Directive. [216031]

Mr. Mike O'Brien: Local authorities have no specific obligations under the EU Directive on Waste Electrical and Electronic Equipment (WEEE) although their established role in relation to domestic waste collection means they will inevitably be involved. Under current proposals, local authorities will have the opportunity to register civic amenity sites for free collection and recycling of separately collected WEEE by producers.

Non-domestic Rates

Mr. Allan: To ask the Secretary of State for Trade and Industry whether her Department has carried out analysis of the impact of the non-domestic property rating system on the development of a competitive telecommunications market. [206983]

Mr. Mike O'Brien: In response to recommendations made by the Broadband Stakeholder Group (BSG) the Department appointed a contractor to carry out an independent review of the rating system as it applies to telecommunications. The BSG published an interim status report on their website in December 2004.

Nuclear Industry

Mr. Hayes: To ask the Secretary of State for Trade and Industry if she will make a statement on her policy on state aid case C 39/2004 (ex N613/2003), 2004/C 315/05 of OJ C315 volume 47 of 21 December 2004, on public financing of nuclear decontamination; what representations she has received from the nuclear industry; what representations she has made on the issue to the European Commission; and what impact the case will have on the establishment of the Nuclear Decommissioning Authority. [215242]

Mr. Mike O'Brien: We notified the European Commission of our intention to support the creation of the NDA in December 2003. The Commission announced a formal investigation into state aid to the NDA on 1 December 2004. This announcement confirmed that the transitional arrangements under which the NDA will start work on 1 April 2005 do not involve state aid. We are working closely with the Commission and formally responded to them on 31 January 2005. We will make further responses to the Commission as required. We are in ongoing consultation with BNFL.

Oil and Gas Exploration

Mr. Donaldson: To ask the Secretary of State for Trade and Industry how many licences have been issued for oil and gas exploration in UK territorial waters off the coast of Northern Ireland. [216669]

Mr. Mike O'Brien: Since offshore licensing began in the 1960s, three production licences (which cover exploration activity) have been issued over acreage in quadrants 111, 124, 125 or 126, which lie just off Northern Ireland.

Licence number	*Blocks covered*	*Issued*	*Surrendered*	*Operator*
P869	111/03, 111/04, 111/08	1993	1999	BG International Limited
P870	111/10, 111/15	1993	1997	BG International Limited
P871	111/25, 111/29, 111/30	1993	1997	Elf Exploration UK plc

Parliamentary Questions

Malcolm Bruce: To ask the Secretary of State for Trade and Industry when she will answer the questions tabled by the hon. Member for Gordon, with reference numbers *(a)* 206155, tabled on 21 December 2004, *(b)* 206131, tabled on 20 December 2004, *(c)* 202945, tabled on 6 December 2004, *(d)* 203088, tabled on 6 December 2004, *(e)* 201181, tabled on 30 November 2004, *(f)* 201178, tabled on 30 November 2004, *(g)* 200600, tabled on 29 November 2004 and *(h)* 200601, tabled on 29 November 2004. [212057]

Mr. Alexander *[holding answer 31 January 2005]*: I answered question 206155 on 13 January 2005, 206131 and 202945 on 3 February 2005 and I am answering the remaining questions today.

Wind Turbines

Janet Anderson: To ask the Secretary of State for Trade and Industry what research her Department *(a)* has commissioned and *(b)* plans to commission on (i) impulsive noise and noise modulation effects arising from groups of wind turbines and (ii) general noise from wind turbines. [209185]

Mr. Mike O'Brien: There are four main studies on the impact of noise from wind turbines that have been commissioned and examined by my Department. These are:

The Assessment and Rating of Noise from Wind Farms, published 1996,

Noise emission from wind turbines, published 1999,

Aerodynamic noise reduction for variable speed turbines, published 2000, and

Assessment of the Effects of Noise and Vibration from Offshore Wind Farms on Marine Wildlife, published 2001.

Two other studies that have been commissioned and are both due to report in Spring 2005 are:

Study into the Effects of Wind Farms on the Eskdalemuir Seismic Array (Joint study with MOD and BWEA), and

The measurement and assessment of low frequency noise from three UK wind farms.

DEFENCE

Armed Forces (Commonwealth Personnel)

Mr. Keetch: To ask the Secretary of State for Defence how many members of the armed forces from Commonwealth countries have requested British nationality in the last six months; in which branches and units of each service they were serving; and if he will make a statement. [216703]

Mr. Caplin: Applications for British citizenship are a matter for individual service personnel to apply direct to the Home Office. Although some applications are brought to the Department's attention, the armed forces have no firm knowledge of the numbers of personnel of Commonwealth origin who have applied to the Home Office for British nationality, as this is a personal matter.

Armed Forces Housing

Mr. Edward Davey: To ask the Secretary of State for Defence what housing standards are applied in the management of current and former Ministry of Defence housing provided for members of the armed forces. [214538]

Mr. Caplin: Joint Services Publications (JSP) 315 is the Services Accommodation Code, which lays down the general housing standards, set by the Ministry of Defence (with the agreement of HM Treasury) for the provision of accommodation for the armed forces. Within this publication, scale 21 relates to the standards for Service Families Accommodation for officers and scale 22 relates to standards for other ranks.

BAE Warton

Mr. Hoyle: To ask the Secretary of State for Defence what plans he has for servicing of aircraft at BAE Warton. [215505]

Mr. Ingram: At present nine Harrier aircraft are being modified at Warton together with 10 Typhoon aircraft which are undergoing routine operational maintenance under the terms of the initial support contract. All of this work will be completed by the end of 2005. Currently, no further aircraft are scheduled for servicing at the Warton site.

Design

Alan Howarth: To ask the Secretary of State for Defence who the ministerial design champion for his Department is. [215644]

Mr. Caplin: I am the Department's ministerial design champion.

Falklands Anniversary

Mr. Hoyle: To ask the Secretary of State for Defence if he will make a statement on the 25th anniversary of the Falklands conflict; and whether he has set up a group to organise a veterans' visit. [216233]

Mr. Caplin: Ministry of Defence officials have been considering how best to mark the 25th anniversary of the Falklands conflict in 2007 for some time, in consultation with the South Atlantic Medal Association (82). A number of proposals are being considered but no group has yet been established to develop plans for veterans' visits.

Fire Control and Retargeting Systems

Angus Robertson: To ask the Secretary of State for Defence (1) what assessment his Department has made of the functions of the Mk98 Mod 5 Fire Control System and the SLBM Retargeting System; when this assessment was last *(a)* reviewed and *(b)* changed; and if he will make a statement; [214238]

(2) what assessment his Department has made of the total cost of acquiring the *(a)* hardware and *(b)* software for (i) the Mk98 Mod 5 Fire Control System and (ii) modifications to the Trident system under the SLBM Retargeting System; and if he will make a statement; [214239]

(3) what assessment his Department has made of the date of entry into service of the Mk98 Mod 5 Fire Control System for Trident; when this assessment was last *(a)* reviewed and *(b)* changed; and if he will make a statement. [214240]

Mr. Hoon: The Mk98 Fire Control System draws together all the information needed to calculate the flight data required by a Trident missile prior to launch. The Mk98 Mod 2 Fire Control System was installed on the Vanguard class of submarines at build. The Mk98 Mod 5 programme was undertaken to update hardware to overcome obsolescence and is now complete. Initial Operating Capability was achieved in September 2002 and all SSBNs had been modified by February 2003. The update programme, for hardware only, cost $39.810 million (including the costs of fitting) and $6.987 million for initial spares.

Information on the costs of the related software modifications is not held separately from that relating to other software costs in this area. All aspects of deterrent capability are kept under continuous review. The United Kingdom has no requirement for a SLBM Retargeting System on Trident submarines, and has no plans to acquire that capability.

Freedom of Information

Dr. Julian Lewis: To ask the Secretary of State for Defence what his policy is in respect of the publication *(a)* on the departmental website and *(b)* by placing copies in the Library of (i) all or (ii) only a selection of the information disclosed in response to freedom of information requests since January. [215194]

Mr. Caplin *[holding answer 10 February 2005]:* The Ministry of Defence website hosts the MOD Publication Scheme (as required by s.19 of the Freedom of Information Act 2000). Since early January 2005, the website has also included a FOI "Reading Room". This was specifically set up to publish information released in response to requests which is considered to be of wider public interest. We are keeping the Reading Room under review with the possibility of adding new Classes of Information to the Publication Scheme if appropriate. We do not plan to publish all information released in response to requests because some is not of general interest.

Information on the website will be available to the Library of the House, and there seems no advantage, and potentially significant cost, in supplying hard copies. We therefore have no plans to do so.

Gibraltar

Mr. Hoyle: To ask the Secretary of State for Defence how many people have been treated at the Ministry of Defence hospital in Gibraltar in each of the last five years. [216554]

Mr. Caplin: The numbers of attendances at the Ministry of Defence hospital in Gibraltar (the Royal Naval Hospital) in the last three years have been:

Attendances at the Ministry of Defence hospital in Gibraltar

	Number
2004	7,301
2003	7,261
2002	6,103

Statistics are not readily available for the previous two years and collecting them would incur disproportionate cost.

Mr. Hoyle: To ask the Secretary of State for Defence what discussions his Department has had with the Gibraltar Government on joint administration of the Gibraltar hospital; and if he will make a statement. [216881]

Mr. Caplin: The Ministry of Defence has not held any formal discussions with the Government of Gibraltar on joint administration of the Gibraltar hospital.

Gulf War-related Illnesses

Richard Burden: To ask the Secretary of State for Defence pursuant to the answer of 29 November 2004, *Official Report*, column 354, on Gulf War-related illnesses, if he will provide further details on the funding for the research programme on Gulf veterans' illnesses; which institutions are undertaking the research; and how the funding to carry out the research will be allotted. [215710]

Mr. Caplin: The Ministry of Defence receives independent advice on its programme of research into whether the health of Gulf veterans has been adversely affected by their service in the 1990–91 Gulf conflict from the Medical Research Council (MRC). We will consider funding any proposal for research which has been formally considered and approved by the MRC.

Studies which we have already funded (in whole or part) are:

Study	*Institution*
Epidemiological study of Mortality/Morbidity	University of Manchester
Epidemiological study of Reproductive Health	London School of Hygiene and Tropical Medicine
Vaccines Interactions Research Programme	Defence Science and Technology Laboratory (with independent academic support) and National Institute for Biological Standards and Control
Systematic literature review of research	University of Wales/University of Bristol
Neuromuscular symptoms in Gulf veterans	Kings College
Testing for Squalene in vaccines	Independent Laboratory
Paraoxonase work	Manchester Royal Infirmary and Kings College
Anthropological study into "Gulf War Syndrome"	PhD student at University College London
Longitudinal study of changing health in Gulf veterans	Kings College
Cancer Study	University of Manchester

We have also co-operated with epidemiological and clinical studies of UK veterans sponsored by the US Department of Defense and conducted by Kings College. Moreover, a number of research papers on the health of those veterans attending the Gulf veterans' Medical Assessment Programme have been published. In addition, further research into Gulf veterans' illnesses recommended by MRC following their review of the subject in 2003 is in various stages of progression.

Iraq

Mr. Keetch: To ask the Secretary of State for Defence what obstacles have been encountered in training and equipping British soldiers in Iraq; and if he will make a statement. [214723]

Mr. Ingram: We have identified and responded to a number of lessons with regard to training and equipping of British Soldiers in Iraq. These are detailed in our comprehensive report 'Operations in Iraq—Lessons for the Future', which is available in the Library of the House.

Mr. Gray: To ask the Secretary of State for Defence what discussions he has had with the United States Pentagon about the cause of the Hercules crash in Iraq. [217157]

Mr. Hoon: The investigation team has spoken to in-theatre personnel, including US military personnel as appropriate, in order to help them ascertain the cause of the crash.

Ministerial Travel

Mr. Andrew Turner: To ask the Secretary of State for Defence if he will list overseas trips he and his departmental Ministers have made on official business or using official transport, since 1997, broken down by date. [211870]

Mr. Caplin *[holding answer 31 January 2005]:* Since 1999, the Government publishes, on an annual basis, the total costs of all ministerial overseas travel and a list of all visits by Cabinet Ministers costing in excess of £500. Copies of the lists are available in the Library of the House.

All ministerial travel is undertaken fully in accordance with the rules set out in the Ministerial Code and Travel by Ministers, copies of which are available in the Library of the House.

Ministerial Visits

Mr. Hayes: To ask the Secretary of State for Defence pursuant to the answer of 11 January 2005, *Official Report*, column 376W, on ministerial visits, whether on any occasion the flight returned to the United Kingdom with unused passenger capacity. [216512]

Mr. Ingram: I refer the hon. Member to the answer I gave on 10 February 2005, *Official Report*, column 1631W. On the June 2004 return military flight from Basra to the United Kingdom all vacant seats on the aircraft were made available to Ministry of Defence personnel.

MRSA

Simon Hughes: To ask the Secretary of State for Defence how many cases of MRSA have been recorded in Ministry of Defence hospitals since 1997; and if he will make a statement. [216398]

Mr. Caplin: The majority of secondary care for armed forces personnel is now provided at Ministry of Defence Hospital Units (MDHUs) which are based within NHS Trust hospitals around the UK. MRSA numbers are now monitored by the Infection Control Teams of each NHS Trust under the direction of a Consultant Microbiologist, not the MOD. The Department therefore does not hold these records. Royal hospital Haslar is currently an exception to this.

Since April 2001 it has been run in partnership with Portsmouth Hospitals NHS Trust. The number of cases of MRSA at Royal hospital Haslar are only available from the year 2000. Due to reasons of medical confidentiality, numbers are not broken down below five.

Royal hospital Haslar:

	Number of cases
2000	[1]5
2001	22
2002	66
2003	34
2004	26
2005	5

[1] Less than five cases.

The Ministry of Defence currently has two military hospitals at its permanent overseas bases in Cyprus and Gibraltar. Records for these bases are only held for the last five years and less than five cases of MRSA have been recorded. Those cases recorded have been transferred in from other hospitals and no new cases of MRSA have been identified in either hospital in this period.

Nepal

Jeremy Corbyn: To ask the Secretary of State for Defence (1) if he will withdraw the minute, dated 20 January, concerning the gifting of non-lethal military equipment to the Government of Nepal; [217326]

Clare Short: To ask the Secretary of State for Defence (1) if he will reconsider his decision to gift military equipment to Nepal in response to the actions by the King of Nepal since the departmental minute was tabled on 20 January. [217071]

Mr. Ingram: In light of the recent events in Nepal, the Government have decided to withdraw the minute relating to the gift of military equipment pending a full review of our policy with regard to the provision of military assistance and equipment to Nepal. We are naturally extremely concerned about these events and we are currently consulting with our international partners on a co-ordinated response. I will write to my right hon. and hon. Friends when this review has developed.

New Aircraft Carrier

John Robertson: To ask the Secretary of State for Defence (1) if he will make a statement on the physical integrator for the new aircraft carrier project; [213997]

(2) what assessment his Department has made of the ability of Kellogg Brown and Root to perform the role of physical integrator for the new aircraft carrier project. [213996]

Mr. Hoon: I refer my hon. Friend to the Written Statement I made to the House on 8 February 2005, *Official Report*, columns 74–75WS, and my letter of 7 February 2005.

New Recruits

Mr. Jim Cunningham: To ask the Secretary of State for Defence what mechanisms his Department uses to promote the importance of physical fitness to new recruits in training. [215174]

Mr. Caplin: All potential applicants and new recruits are given pre-joining fitness booklets and/or shown videos which include information and advice on how to prepare for the pre-selection fitness test that they must pass.

Publicity

Mr. Laws: To ask the Secretary of State for Defence what the total expenditure by his Department on *(a)* advertising and *(b)* advertising and publicity was in (i) 1996–97, (ii) 1997–98 and (iii) 2003–04; and what the estimate of cost of each will be in (A) 2004–05, (B) 2005–06, (C) 2006–07 and (D) 2007–08. [211678]

Mr. Caplin: Details of the Ministry of Defence's expenditure on advertising and publicity are included in the annual Departmental Performance Reports, copies of which have been placed in the Library of the House. For 1996–97 the information is shown on page 49, Cm 3781 and for 1997–98 the information is shown on page 49, Cm 4170.

Expenditure on advertising, and advertising and publicity, is now included in figures for publicity and recruiting, and a detailed breakdown is not available. For 2003–04, costs of publicity and recruitment were £53.6 million. We have no estimate for publicity and recruitment expenditure for the current year; expenditure in future years has not yet been decided.

RAF Lossiemouth

Angus Robertson: To ask the Secretary of State for Defence how many *(a)* RAF personnel and *(b)* civilian personnel were relocated each month from RAF

Lossiemouth from September 2004 to February 2005, including where they were relocated to and what tasks they had previously been assigned to at RAF Lossiemouth; and if he will make a statement. [217275]

Mr. Caplin: None.

Russia

Angus Robertson: To ask the Secretary of State for Defence what assessment his Department has made of the *(a)* technical and *(b)* tactical advances offered to the armed forces of Russia by the Bulava (SS-N-30) missile; and if he will make a statement. [216715]

Mr. Hoon: Bulava is reported to be a new solid propellant submarine launched ballistic missile (SLBM) which has been under development in Russia for several years and has a reported maximum range of approx 8000km. When it enters service, probably in a new class of submarine, it will supplement and eventually replace older SLBMs, thus enabling Russia to maintain its sea-based strategic nuclear capability. Although not expected to provide Russia with a greater capability in terms of range, Bulava is likely to incorporate more modern materials and technology than currently deployed systems.

Angus Robertson: To ask the Secretary of State for Defence what assessment his Department has made of *(a)* the Russian Kh-555 conventional missile and *(b)* what (i) technical and (ii) tactical advances this missile offers over the Kh-55 Granat missile; and if he will make a statement. [216716]

Mr. Hoon: The Kh-555 is Russia's new conventionally armed air-launched cruise missile and is based on the Kh-55 nuclear-armed cruise missile that was developed during the cold war. Both missiles are expected to be carried by Tu-95 Bear and Tu-160 Blackjack bombers.

The Kh-555 has been in development for a number of years. The nuclear warhead is replaced by a 500 kg class conventional warhead. These changes are likely to reduce the range of the Kh-555 to 2,500–3,000 km compared to the Kh-55 range of 3,000–3,500 km.

When fully integrated into operational units, the Kh-555 will provide Russia with the ability to strike high-priority targets with precision from long ranges.

Angus Robertson: To ask the Secretary of State for Defence what assessment his Department has made of Russia's supersonic anti-ship cruise missile capabilities; and if he will make a statement. [216717]

Mr. Hoon: The Ministry of Defence maintains a continuous assessment of Russia's supersonic anti-ship missile capability. Russia has a credible supersonic anti-ship missile capability to engage surface warships at long range (greater than 100 km). A number of these systems are very old, as are the ships that carry them, and they are expected to be phased out over the next decade. New more capable systems are being developed.

Scottish Regiments

Annabelle Ewing: To ask the Secretary of State for Defence (1) where the Royal Regiment of Scotland will have its *(a)* headquarters and *(b)* museum; [212108]

(2) what plans he has for the current Scottish Regimental Headquarters and museums. [212109]

Mr. Caplin: The future location of the regimental headquarters of the Royal Regiment of Scotland is yet to be determined.

There is likely to be a study on how the Scottish museums can best represent the antecedent regiments and the new regiment. It is too early to provide definitive advice on the future arrangements for these museums.

Sickness Absence

Mr. Hammond: To ask the Secretary of State for Defence what steps his Department is taking to reduce the number of sick days taken by staff in the Department. [216530]

Mr. Caplin: The Ministry of Defence is fully committed to taking forward the findings and delivery plan stemming from the joint Cabinet Office, Department for Work and Pensions and Health and Safety Executive initiative 'Managing Absence in the Public Sector'.

We are undertaking a thorough review of our approach to managing absence and the requirement for occupational health advice. In the meantime, a new e-enabled sick absence reporting process is to be implemented from April 2005. As well as improving the accuracy of sick absence reporting, this reinforces the responsibilities for all involved in the absence process. We have robust procedures for the management of short-term absence to tackle poor attendance. A lifestyle screening programme is available to all civilian staff, which monitors major health risk factors and provides advice on how risks can be reduced.

Staff Identity Cards

Mr. George Osborne: To ask the Secretary of State for Defence what the cost of producing a staff identity pass was in the Department on the latest date for which figures are available; and how many staff identity passes have been reported lost or stolen in each year since 1997. [215087]

Mr. Caplin: In the Ministry of Defence, all service personnel are issued with a service identity card, which is used to access all but the most sensitive areas. MOD civilians are not routinely issued with identity cards but are instead provided with a site-specific security pass. The present cost of producing either type of pass is approximately £4 per card. Information on how many passes have been reported lost or stolen in each year since 1997 is not held centrally and could be provided only at disproportionate cost. However, records are available for 2003 and I refer the hon. Member to the answer I gave on 28 January 2004, *Official Report*, column 371W, to the hon. Member for Winchester (Mr. Oaten).

Suez Canal Zone Medal

Mr. Dalyell: To ask the Secretary of State for Defence when the application for a Suez Canal Zone Medal of Mr. Samuel Hill of Whitburn, West Lothian, referred to in the letter of 27 April 2004 from the Parliamentary

Under-Secretary of State for Defence and Minister for Veterans to the hon. Member for Linlithgow, reference 1670/04/A, will be processed. [216912]

Mr. Caplin: Mr. Hill's Service Records were received by the Canal Zone Section at the Army Medal Office this week and a check of his eligibility for the medal carried out. I can confirm that he qualified for the General Service Medal 1918–62 with the clasp Canal Zone and arrangements have been made to have his Service details engraved on a new medal which will be despatched to him shortly.

Trident

Mr. Salmond: To ask the Secretary of State for Defence whether he expects the UK to make a decision on a replacement for the Trident nuclear weapons system in the next Parliament. [209882]

Mr. Hoon *[holding answer 20 January 2005]:* I refer the hon. Member to paragraph 3.11 of the 2003 Defence White Paper (Cm 6041-I).

Angus Robertson: To ask the Secretary of State for Defence what the average cost per year of maintenance for one Trident nuclear submarine has been since 1997; and if he will make a statement. [216714]

Mr. Hoon: The data required to answer the question is not held centrally or in a standard format and it will take time to prepare a substantive response. I will therefore write to the hon. Member in due course and a copy of my letter will be placed in the Library of the House.

CHURCH COMMISSIONERS

Clergy (Employment Rights)

23. **Mr. Edwards:** To ask the hon. Member for Middlesbrough, representing the Church Commissioners, what progress is being made in granting employment rights to clergy. [217010]

Sir Stuart Bell: Last Tuesday the General Synod debated the group's second report and welcomed the recommendation that employment rights under section 23 of the Employment Relations Act 1999 be granted to all clergy. The report was commended to the wider Church for comment and an implementation group will be set up to bring forward legislation.

Hunting Act

Paul Flynn: To ask the hon. Member for Middlesbrough, representing the Church Commissioners, what action the Church Commissioners have taken to ensure that their tenants comply with the Hunting Act 2004. [217011]

Sir Stuart Bell: The Commissioners expect their tenants to obey the law and would not condone any breach of the hunting ban. Any such breach would be a matter for the police.

York Minster

Mr. Gordon Prentice: To ask the hon. Member for Middlesbrough, representing the Church Commissioners, what estimate the commissioners have made of the cost of restoring the fabric and maintaining the structures of York Cathedral; and if he will make a statement. [217008]

Sir Stuart Bell: York Minster has recently identified the need for major repair work on the East Front. The Cathedrals Fabric Commission is involved in discussion with the Chapter and has encouraged it to look at all the options. Any estimates of costs would be a matter for the Chapter.

I should add by way of the statement requested by my hon. Friend that in 2003 the Commissioners provided £2.5 million in grants to cathedrals and spent £3.8 million on cathedral clergy stipends. In the case of York Minster, it receives no other financial support from the Commissioners, whose grants are targeted on the least well resourced.

EDUCATION AND SKILLS

Bullying

Mr. Hoyle: To ask the Secretary of State for Education and Skills if she will make a statement on steps taken by local education authorities to stop bullying in *(a)* primary and *(b)* secondary schools. [216308]

Derek Twigg: There is much effective practice in preventing and addressing bullying in many LEAs around the country and the 'Make The Difference' conference programme has allowed this work to be shared and celebrated. The conferences offered LEAs as well as schools an opportunity to learn at first hand from the very successful. Many LEAs were represented at the nine regional conferences, either as speakers, workshop leaders or delegates, and evaluations tell us that attendees left feeling inspired and motivated.

The Anti Bullying Alliance (ABA) has been funded to sustain the momentum created by those conferences and each of their regional leads is working with the LEAs in its region to promote best practice and develop innovative and practical approaches to tackle bullying at strategic level. Anti bullying work has a high profile within the Key Stage 3 behaviour and attendance (B and A) strand and within the primary behaviour and attendance pilot, and there are KS3 Behaviour and Attendance Consultants in every LEA working directly with schools to tackle a range of behaviour issues including bullying.

Many LEAs provide guidance on anti bullying to their schools to supplement and localise the guidance issued by the DfES nationally, and advice to parents on what to do if they are worried their child is being bullied.

We know that LEAs around the country are at various stages of addressing this agenda. A number are well advanced and have been successfully working in this area for a number of years and other LEAs have recently appointed dedicated anti bullying officers or are considering doing so, but some have yet to tackle the problem in a structured and systematic way. We will continue to work through the national strategies and the ABA to encourage these LEAs to move forward on this agenda.

Capita SIMS System

Mr. Forth: To ask the Secretary of State for Education and Skills what assessment she has made of the accuracy of the 2005 Pupil Level Annual School Census returns derived from Capita SIMS systems in schools. [215723]

Mr. Stephen Twigg: As we are still in the process of collecting the Annual School Census data, we have not yet made an assessment of the accuracy of any of the data derived from any of the management information systems available to schools.

However, this process will start shortly and data derived from the Capita SIMS system will be subject to the same rigorous quality assessment as those from all other school management information systems.

Mr. Forth: To ask the Secretary of State for Education and Skills how many secondary schools have reported problems with Capita SIMS.net systems. [215724]

Mr. Stephen Twigg: We have received reports from around 500 schools (normally via their local education authority) regarding software issues from December 2004 to date. While this is higher than in the same period last year, we have been able to resolve the vast majority.

We are continuing to monitor the situation and are working closely with Capita to keep problems to a minimum.

Child Abuse

Bob Spink: To ask the Secretary of State for Education and Skills what her targets are for reduction in child abuse deaths over the next 10 years. [213113]

Margaret Hodge: The Government does not have specific targets to reduce the numbers of child abuse deaths. We do want all children to stay safe and to reduce the number of avoidable child deaths. That is why following the Laming Inquiry that reported on the terrible death of Victoria Climbié we have introduced a major programme of action called "Every Child Matters: Change for Children". This includes the introduction of: a duty on key local services to safeguard and promote the welfare of children; Local Safeguarding Children Boards (LSCBs) to make sure that local agencies and services are doing this effectively; Local Screening Teams to investigate all unexpected child deaths; better sharing of information, with new systems for all local agencies to share concerns that they have about a particular child; and a new inspection framework. Agencies' involvement in LSCBs and the work of LSCBs themselves will be assessed regularly by the relevant inspectorates.

We have provided £90 million in 2004–05 and 2005–06 as a Specific Formula Grant to support councils in improving their services to safeguard children.

Child Care Places

Mr. Kevan Jones: To ask the Secretary of State for Education and Skills what the change has been in the number of child care places in North Durham since 2001. [214671]

Margaret Hodge: The information is not available in the form requested. The available information on child care places and nursery education places is shown in the tables.

The available information on child care places for Durham local authority area is shown in Tables 1 and 2.

Table 1: Number [1,2] of registered child care places for children under eight years of age by type of care Durham local authority area—position at 31 March each year 2003 and 2004

Type of care	*2003*	*2004*
Full day care	2,300	2,800
Sessional day care	1,400	1,400
Childminders	3,100	3,400
Out of school day care	1,700	1,900
Creche day care	500	500

[1] Rounded to the nearest 100 places.
[2] Data Source: Ofsted

Table 2: Number [1,2] of day care places for children under eight years of age by type of provider Durham local authority area—position at 31 March each year 2001 to 2002

Type of provider	*2001*	*2002*
Day nurseries	1,500	n/a
Playgroups and pre-schools	2,200	n/a
Childminders	3,900	n/a
Out of school clubs	1,600	n/a
Holiday schemes[3]	7,900	n/a

n/a = Not available.
[1] Figures have been rounded to the nearest 10 or 100 places.
[2] Data Source: Children's Day Care Facilities Survey.
[3] From 1999, places were counted once for each school holiday. Before 1999, places were counted once each year.

The figures for child care places for 2003 and 2004 are not directly comparable with the day care figures for 1997–2001. The figures for 2003 and 2004 were derived from the Ofsted database of registered child care providers. The figures for 1997–2001 were derived from the Children's Day Care Facilities Survey, which was discontinued in 2001. There are no figures for 2002.

With the introduction of the National Day Care Standards and the transfer of responsibilities for registration and inspection of child care providers from local authority Social Service Departments to Ofsted in September 2001, childcare places were classified according to the type of day care provided: full day care, sessional day care, childminder, out of school day care or creche day care. Ofsted have produced figures based on this classification on a quarterly basis from March 2003. Their latest figures were published on 19 January 2005 in their report "Registered Childcare Providers and Places, 31 December 2004", which is available on their website, www.ofsted.gov.uk/publications.

Up until March 2001, child care providers were classified according to the type of provider: day nurseries, playgroups and pre-schools, childminders, out of school clubs and holiday schemes. Figures based on this classification were published in a series of statistical bulletins, which are available from the Department's website, www.dfes.gov.uk/statistics.

The available information on nursery education places for Durham local authority area is shown in Table 3.

Table 3: Number[1] of free nursery education places taken up by 3 and 4-year-olds Durham local authority area—maintained schools and private, voluntary and independent providers of early years education

Position in January each year 2001–04	Number
2001	[2]9,900
2002	[2]10,200
2003	[3]10,000
2004	9,600

[1] Rounded to the nearest 100 places.

Annual schools census and nursery education grant data collection exercise
[3] Annual schools census, nursery education grant data collection exercise and early years census.

Children Act

Mrs. Spelman: To ask the Secretary of State for Education and Skills how the Children Act 2004 amends the inspection regimes facing local government. [216266]

Margaret Hodge: To ensure a shared approach across inspection, the Children Act 2004 allows for the creation of a Framework for the inspection of Children's Services and for inspectorates to carry out joint area reviews (JARs) of all children's services provided in an area.

The new inspection arrangements will capture how well services are delivered and how well they work together to improve children and young people's wellbeing. Through the common approach provided by the Framework, joint area reviews will provide a picture of what it is to be a child in the local authority area being reviewed. JARs will replace a number of existing separate inspections for children and young people at local authority level, including LEA inspections, Connexions service inspections and inspections of children's social care. Together, inspectorates will judge the way in which all services for education, health, social care and youth justice, both individually and collectively, contribute to improving outcomes.

Ofsted, in partnership with other related inspectorates and commissions, are currently consulting on new arrangements for Children's Services inspection.

Mrs. Spelman: To ask the Secretary of State for Education and Skills what new responsibilities the Children Act 2004 places on local authorities. [216267]

Margaret Hodge: The Children Act 2004 places a number of new statutory duties on those persons and bodies responsible for children's services, including local authorities. These new duties will help improve outcomes for all children and young people, by maximising opportunity and minimising risk.

The new duties are set out in enclosures 1 and 3 of 'Every Child Matters: Change for Children'. This can be downloaded from www.everychildmatters.gov.uk/_content/documents/Every%20Child%20Matinserts.pdf

Children in Care

Mrs. May: To ask the Secretary of State for Education and Skills how many children are in *(a)* children's homes and *(b)* foster care, broken down by ethnic group. [213755]

Margaret Hodge: The following table shows the number of children looked after at 31 March 2004 by placement and ethnicity.

Children looked after at 31 March 2004 in a children's home or a foster placement by ethnicity[1, 3, 4]

Number

		Placement	
England	All children	Foster	Children's homes[2]
All children	61,100	41,600	7,000
White	48,800	33,200	5,500
Mixed	4,800	3,300	500
Asian or Asian British	1,500	990	130
Black or Black British	4,900	3,400	700
Other ethnic groups	1,200	770	180

[1] Figures exclude children looked after under an agreed series of short-term placements.
[2] Includes secure units, homes and hostels subject to children's homes regulations, and homes and hostels not subject to children's homes regulations, but excludes residential schools.
[3] Figures taken from the SSDA903 return.
[4] Figures over 1,000 have been rounded to the nearest 100. All other figures have been rounded to the nearest 10.
Source:
Children looked after in England (including adoptions and care leavers), 2003–04.

Children's Fund Partnership

Harry Cohen: To ask the Secretary of State for Education and Skills what the outcome was of *(a)* the Redbridge Children's Fund partnership and *(b)* the Waltham Forest Children's Fund partnership submitting a budget and preventive plan to the regional team demonstrating how funding for 2005 to 2008 would be spent; whether the funding for this period has now been agreed; what main activities will be undertaken; what the likely funding will be; and if she will make a statement. [215169]

Margaret Hodge: Redbridge Children's Fund Partnership has had its plan, including its funding plan, approved for three years and will be drawing down a total of £1.7 millioin. This resource will support a number of local projects, including—for example—the Children's Participation Project run by the Redbridge council for Voluntary Services and the Youth Crime Prevention Team. The Partnership has yet to make firm decisions on the other services it will commission beyond July 2005.

Waltham Forest Children's Fund Partnership has had its plan approved for one year, and will be submitting an updated plan for 2006–08 later this year. Subject to this plan being satisfactory, it will be able to access funding totalling £2.5 million over the three year period 2005–08. This resource will support a number of local projects, including, for example:

the 5–13 Early Intervention team;

the Youth Inclusion and Support Panel;

work with Somali families;

work with young victims of crime and bullying.

The partnership will be finalising the range of services it will support for 2005–06 and beyond between now and April.

Chorley High Schools

Mr. Hoyle: To ask the Secretary of State for Education and Skills how many pupils are attending Chorley high schools; and how many pupils attended each such school in each of the last five years. [216562]

Mr. Stephen Twigg: The available information on pupils attending Chorley secondary schools is shown in the following table.

Maintained secondary schools: number on roll—Chorley parliamentary constituency

Position in January each year / *School name*	*2004*	*2003*	*2002*	*2001*	*2000*
Chorley Southlands high school	1,023	1,003	993	978	958
Parklands high school	1,107	1,085	1,061	1,049	1,043
Albany Science College	608	835	840	812	814
Rivington and Blackrod high school	1,913	1,889	1,845	1,823	1,799
Bishop Rawstome Church of England language college	925	926	926	889	867
St. Michael's Church of England high school	1,111	1,100	1,090	1,056	1,045
Holy Cross Catholic high school, a sports and science college	829	806	791	775	763
Total all secondary schools	7,716	7,644	7,546	7,382	7,289

Note:
Figures as reported by schools via the Annual Schools Census

Class Sizes

Sarah Teather: To ask the Secretary of State for Education and Skills how many children in Greater London have been taught in classes of more than *(a)* 25 and *(b)* 30 in each year since 1997, broken down by local education authority. [214557]

Mr. Stephen Twigg: The requested information has been placed in the House of Commons Libraries.

Correspondence

Sarah Teather: To ask the Secretary of State for Education and Skills when she will reply to the letter dated 29 July 2004 sent to her predecessor by the hon. Member for Brent, East regarding Ms Margaret Thomas. [215625]

Derek Twigg: The Department has no record of having received correspondence from the hon. Member regarding Ms Margaret Thomas. The Department's officials requested and received a copy of the correspondence on 8 February, and I expect to be able to reply by 1 March 2005.

Sir Gerald Kaufman: To ask the Secretary of State for Education and Skills when she will reply to the letter dated 30 December 2004 from the right hon. Member for Manchester, Gorton, with regard to Wright Robinson Sports College. [215705]

Derek Twigg: My right hon. Friend the Secretary of State replied to my right hon. Friend's letter of 30 December on 08 February.

Data Collection

Mr. Hoban: To ask the Secretary of State for Education and Skills what statistical data is collected from schools by *(a)* local education authorities and *(b)* her Department on a termly basis. [216422]

Mr. Stephen Twigg: The Department collects information on absent and excluded pupils on a termly basis from schools, via local education authorities.

Until last autumn term 2004, the Department also invited a sample of head teachers, teachers, support staff and governors to provide attitudinal information as part of a termly stakeholder tracking survey, but future plans are to move to carrying this out twice a year.

We have no comprehensive information about data collected by individual local education authorities.

Departmental Policies

Mr. Gordon Marsden: To ask the Secretary of State for Education and Skills if she will set out, with statistical information relating as closely as possible to the constituency, the effect of her Department's actions and policies on Blackpool, South constituency since *(a)* 1997 and *(b)* 2001. [215747]

Mr. Stephen Twigg: The Blackpool, South constituency lies within Blackpool local education authority. The most recent Key Stage 2 and GCSE and equivalents achievement for pupils attending schools in Blackpool, South are given in the following tables:

Key stage 2 achievements of 11-year-old pupils attending schools in the Blackpool, South constituency

Percentage of pupils gaining level 4 and above	*1997*	*2001*	*2004*	*Percentage point improvement 1997–2004*
Blackpool, South—English[1]	57	70	73	16
Blackpool, South—Maths[1]	55	70	70	15
National Average—English[2]	63	75	78	15
National Average—Maths[2]	61	71	74	13

[1] Pupils attending schools in Blackpool, South constituency.

[2] The average for all schools in England (including independent schools).

GCSE and equivalents[1] achievement of 15-year-old pupils[2] attending schools in the Blackpool, South constituency

Percentage of 15-year-olds gaining	*1997*	*2001*	*2004*	*Percentage point improvement 1997–2004*
Blackpool, South—5+A*-C	30.4	34.0	31.9	1.5
Blackpool, South—5+A*-G	79.1	83.6	86.7	7.6
Blackpool, South—1+A*-G	88.5	92.5	96.6	8.1
National average—5+A*-C	45.1	50.0	53.7	8.6
National average—5+A*-G	87.0	88.9	88.8	1.8
National average—1+A*-G	92.3	94.5	95.9	3.6

[1] For 2004 only results incorporate GCSEs, GNVQs and a wide range of other qualifications approved pre-16. Prior to 2004 results are based on GCSEs and GNVQs only.

[2] As standard the results reported relate to pupils aged-15 at the start of the academic year, i.e. 31 August, and therefore reaching the end of compulsory education at the end of the school year.

At national level, standards have improved across all key stages. The Primary and Key Stage 3 National Strategies, together with the measures we have taken to help schools in the toughest areas, are continuing to deliver better results,

Further information by constituency is provided within the Department's "In Your Area" website available at http://www.dfes.gov.uk/lnyourarea. Where information is not available at the constituency level it has been provided at local education authority level.

This website allows users to access key facts and local information about education and skills based on postcodes. The data available within the site offer comparisons between 1997 and the latest available year and cover five geographies. These are parliamentary constituency, ward, local authority district, local education authority, Government Office region. England figures are also provided.

The information available within the website is grouped in a number of broad categories including Literacy and Numeracy at age 11, Literacy and Numeracy at age 14, GCSE/GNVQ results, Pupils with Special Educational Needs, School Initiatives, School Workforce, School Funding and Resources, Children's Social Services, Early Years, Class Sizes, Post-16, Higher Education and Adult Education.

Additional information could be provided only at disproportionate cost. However, my Department is investigating ways in which we can disseminate more information about the effects of our policies at a local level. The "In Your Area" website will be further developed over the coming months to include additional information about Adult Education, School Funding, School Initiatives, School Performance, School Workforce and Post-16.

Mr. Hoyle: To ask the Secretary of State for Education and Skills if she will set out, with statistical information relating as closely as possible to Chorley constituency, the effect of her Department's actions and policies on Chorley since 1997. [216311]

Mr. Stephen Twigg: The Chorley constituency lies within Lancashire local education authority. The most recent Key Stage 2 and GCSE and equivalents achievement for pupils attending schools in Chorley are given in the following tables:

Key Stage 2 achievements of 11-year-old pupils attending schools in the Chorley constituency—percentage of pupils gaining level 4 and above

	1997	*2004*	*Percentage point improvement 1997/2004*
Chorley—English[1]	71	82	11
Chorley—Maths[1]	73	78	5
National Average—English[2]	63	78	15
National Average—Maths[2]	61	74	13

[1] Pupils attending schools in Chorley constituency

[2] The average for all schools in England (including independent schools)

GCSE and equivalents[1] achievement of 15-year-old pupils[2] attending schools in the Chorley constituency

Percentage of 15-year-olds gaining	*1997*	*2004*	*Percentage point improvement 1997/2004*
Chorley—5 + A*-C	53.7	60.9	7.2
Chorley—5 + A*-G	91.6	90.5	-1.1
National Average—5+ A*-C	45.1	53.7	8.6
National Average—5+ A*-G	87.0	88.8	1.8

[1] For 2004 only results incorporate GCSEs, GNVQs and a wide range of other qualifications approved pre-16. Prior to 2004 results are based on GCSEs and GNVQs only.

[2] As standard the results reported relate to pupils aged 15 at the start of the academic year, i.e. 31 August, and therefore reaching the end of compulsory education at the end of the school year.

At national level, standards have improved across all key stages. The Primary and Key Stage 3 National Strategies, together with the measures we have taken to help schools in the toughest areas, are continuing to deliver better results.

Further information by constituency is provided within the Department's "In Your Area" website available at http://www.dfes.gov.uk/inyourarea. Where information is not available at the constituency level it has been provided at local education authority level.

This website allows users to access key facts and local information about education and skills based on postcodes. The data available within the site offer comparisons between 1997 and the latest available year and cover five geographies. These are parliamentary constituency, ward, local authority district, local education authority, Government Office region. England figures are also provided.

The information available within the website is grouped in a number of broad categories including Literacy and Numeracy at age 11, Literacy and Numeracy at age 14, GCSE/GNVQ results, Pupils with Special Educational Needs, School Initiatives, School Workforce, School Funding and Resources, Children's Social Services, Early Years, Class Sizes, Post-16, Higher Education and Adult Education

Additional information could be provided only at disproportionate cost. However, my Department is investigating ways in which we can disseminate more information about the effects of our policies at a local level. The "In Your Area" website will be further developed over the coming months to include additional information about Adult Education, School Funding, School Initiatives, School Performance, School Workforce and Post-16.

Linda Perham: To ask the Secretary of State for Education and Skills if she will set out, with statistical information relating as closely as possible to the constituency, the effects of her Department's policies since 2 May 1997 on the constituents of Ilford, North. [215204]

Mr. Stephen Twigg: The Ilford, North constituency lies within Redbridge local education authority. The most recent Key Stage 2 and GCSE and equivalents Achievement for pupils attending schools in Ilford, North are given in the following tables.

Key Stage 2 achievements of 11-year-old pupils attending schools in the Ilford, North constituency.

	Percentage of pupils gaining level 4 and above		
	1997	2004	Percentage point improvement 1997–2004
Ilford, North—English[1]	68	80	12

Design

Alan Howarth: To ask the Secretary of State for Education and Skills who the ministerial design champion for her Department is. [215646]

Mr. Stephen Twigg: I have responsibility for school buildings and as part of that brief I am the design champion for the Department for Education and Skills.

Education Funding

Ross Cranston: To ask the Secretary of State for Education and Skills how much capital funding has been invested in *(a)* primary schools and *(b)* secondary schools in Dudley, North in each year since 1996–97; and if she will make a statement. [215788]

Mr. Stephen Twigg: Capital funding allocated to Dudley local education authority and to schools in each year since 1996–97 is detailed in the following table. Information is not held centrally on investment in *(a)* primary schools and *(b)* secondary schools in Dudley, North. Investment in primary schools and secondary schools is determined by the local authority in accordance with its asset management plan.

	£000
1996–97	2,972
1997–98	1,206
1998–99	36,108
1999–2000	6,764
2000–01	11,100
2001–02	33,425
2002–03	12,371
2003–04	13,415
2004–05	15,703

Note:
The years 1998–99 and 2001–02 include Private Finance Initiative allocations of £29,550,000 and £22,000,000 respectively.

Mr. Cousins: To ask the Secretary of State for Education and Skills what funding was allocated by the Higher Education Funding Council to institutions in each region of England in *(a)* 2003–04 and *(b)* 2004–05; and how much will be allocated to each region in 2005–06. [216377]

Dr. Howells: The information on recurrent funding for the 2003–04 and 2004–05 academic years is shown in the table. Funding for 2005–06 has not yet been allocated. This will be announced by the Funding Council in March and finalised before the start of the academic year. The details will be published on the HEFCE website www.hefce.ac.uk/pubs.

£

Region	2003–04	2004–05
Eastern	331,955,091	346,910,892
East Midlands	374,804,576	395,594,592
London	1,089,681,410	1,151,336,052
North East	255,911,200	274,637,443
North West	580,977,274	614,173,467
South East	761,680,303	802,284,781
South West	356,913,892	384,473,659

Yorkshire and Humberside	490,045,241	519,620,441

Source:
HEFCE recurrent grants final allocations 2003–04 and 2004–05. Higher education institutions may also receive funding for capital and for special initiatives from HEFCE.

Mr. Hoyle: To ask the Secretary of State for Education and Skills how much funding from the New Deal for Schools has passed to schools in *(a)* Lancashire and *(b)* Chorley; and if she will list the schools which received funding. [215470]

Mr. Stephen Twigg: The information requested has been placed in the House Libraries.

Mr. Hoyle: To ask the Secretary of State for Education and Skills how much central government education funding was allocated on average to each *(a)* three to 10-year-old and *(b)* 11 to 15-year-old in Lancashire in each year since 1997. [216054]

Mr. Stephen Twigg: Total funding includes funding via Education Formula Spending/Standard Spending Assessment and grants allocated at an LEA level. It excludes the pensions transfer to EPS and the Learning and Skills Council, and is in real terms. Education Formula Spending is part of the wider local government finance system and is supported by council tax as well as central government grant. The following table shows the per pupil figures for Lancashire.

Average funding per pupil (£)—Lancashire

	Real terms, excluding pensions transfer to EPS and LSC in 2003-04 and 2004-05	
	Primary (3 to 10-year-olds)	*Secondary (11 to 15-year-olds)*
1997-98	2,240	3,120
1998-99	2,350	3,170
1999-2000	2,510	3,290
2000-01	2,750	3,560
2001-02	2,900	3,710
2002-03	2,950	3,790
2003-04	3,100	3,810
2004-05	3,220	4,010

Notes:

Price Base: Real terms at 2003-04 prices, based on GDP deflators as at 30 September 2004

Figures reflect relevant sub-blocks of education SSA/EFS settlements and exclude the pensions transfer to EPS and LSC.

Total funding also includes all revenue grants in DfES Departmental Expenditure Limits relevant to pupils aged 3-10 and 11-15 and exclude EMAs and grants not allocated at LEA level.

The pupil numbers used to convert £ million figures to £ per pupil are those underlying the SSA/EFS settlement calculations plus PLASC 3-year-old maintained pupils and estimated 3 to 4-year-olds funded through state support in maintained and other educational institutions where these are not included in the SSA pupil numbers.

Rounding: Figures are rounded to the nearest 10.

Status: 2003-04 and 2004-05 figures are provisional as some grants have not yet been finalised/audited.

Mr. Hoyle: To ask the Secretary of State for Education and Skills how much was spent on teaching of *(a)* science, *(b)* history, *(c)* mathematics, *(d)* religious education and *(e)* physical education in Lancashire in each year since 1997. [216055]

Mr. Stephen Twigg: My Department does not collect this information.

Ethnic Minorities

Keith Vaz: To ask the Secretary of State for Education and Skills what assessment she has made of the extent to which her Department's policies are meeting the needs of ethnic minorities. [205720]

Derek Twigg: My Department is fully committed to equality and diversity and to meeting our obligations under the Race Relations (Amendment) Act. We recognise that through evaluating our policies and processes thoroughly, we go a long way to achieving this.

Like many public bodies, we have an obligation to publish a Race Equality Scheme every three years. This requires us to examine all our policies and functions to identify those that are most likely to impact adversely on black and minority ethnic people, prioritise their significance and develop action plans to address the problem. The Department updates its action plan within the scheme annually in the light of the latest evidence.

We are currently working on the Department's new scheme, to be published by the end of May 2005, in accordance with the statutory requirements. In doing so, each programme in the Department has assessed its functions and policies framed around the Department's five year strategy, for their contribution to race equality. A full Department-wide examination of our policies will continue to be made every three years and the results will be published and available on the Department's website.

In addition the Department is committed to the process of Race Impact Assessment, an example of which can be seen in our published assessments within the higher education sector.

EU Committees

Angus Robertson: To ask the Secretary of State for Education and Skills how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Advisory Committee on vocational training met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [216285]

Mr. Ivan Lewis: The EU Advisory Committee on Vocational Training (ACVT) met *(a)* once during the Italian presidency (26–27 November 2003), *(b)* once during the Irish presidency (23–24 June 2004), and *(c)* once during the Dutch presidency (25–26 November 2004). All of these meetings took place in Brussels. In each case an official from the DfES attended. Officials from the TUC and CBI represent the UK trade unions and employers. The ACVT is a tripartite committee of Government, employer and trade union representatives. It was set up by Council Decision 63/266/EEC dated 2 April 1963 which laid down general principles for implementing a common vocational training policy across the EU. This decision was superseded by Council Decision 2004/223/EC dated 26 February 2004 which laid down new rules to take account of enlargement of the EU. For further information, please refer to the series of Command Papers on prospects for the EU—Cm6174 (April 2004), Cm6310 (September 2004) and Cm6450 (February 2005), which cover the periods of the above presidencies and are available on the FCO website at: www.fco.gov.uk/commandpapers.

Expenditure per Pupil

Mr. Swire: To ask the Secretary of State for Education and Skills how much central Government funding was spent on average per child in England in the latest period for which figures are available. [216045]

Mr. Stephen Twigg: My Department does not collect information on overall Government funding spent on children. However, the funding per pupil in England in year 2004–05 was £4,020.

Notes:

1. Price Base: Cash.
2. Figures reflect relevant sub-blocks of education EPS settlements and include the pensions transfer to EPS and LSC.
3. Total funding also includes all revenue grants in DfES Departmental Expenditure Limits relevant to pupils aged 3 to 19 and exclude EMAs and grants not allocated at LEA level.
4. The pupil numbers used to convert £ million figures to £ per pupil are those underlying the EPS settlement calculations.
5. Rounding: Figures are rounded to the nearest £10.
6. Status: 2004–05 figures are provisional as some grants have not yet been finalised/audited.

Mr. Swire: To ask the Secretary of State for Education and Skills how much funding central government provided per head for each East Devon pupil in 2003; and how much is provided per pupil for 2005. [216046]

Mr. Stephen Twigg: The information requested is produced according to local authority areas rather than districts within an area. The total funding per pupil aged 3–19 in Devon was £3,530. Figures for 2005–06 are not yet available. This figure includes funding via Education Formula Spending/Standard Spending Assessment and Grants. It includes the pensions transfer and is in cash terms. Education Formula Spending is part of the wider local government finance system and is supported by council tax as well as central Government grant.

Notes:

1. Price Base: Cash
2. Figures reflect relevant sub-blocks of education EFS settlements and include the pensions transfer to EFS and LSC.
3. Total funding also includes all revenue grants in DfES departmental expenditure limits relevant to pupils aged 3–19 and exclude EMAs and grants not allocated at LEA level.
4. The pupil numbers used to convert £ million figures to £ per pupil are those underlying the EFS settlement calculations.
5. Rounding: Figures are rounded to the nearest £10.
6. Status: 2003–04 figures are provisional as some grants have not yet been finalised/audited.

Failing Schools

Mr. Willis: To ask the Secretary of State for Education and Skills by what criteria a school is judged to be a failing school. [216861]

Mr. Stephen Twigg: A school is judged to require special measures following an Ofsted inspection which concludes that it is failing to provide an acceptable standard of education for its pupils. The factors inspectors must consider in reaching a judgement that a school requires special measures are set out in the Ofsted "Handbooks for Inspecting Schools" available on the Ofsted website.

Faith-based Schools

Mr. Willis: To ask the Secretary of State for Education and Skills how many private faith-based schools there were, broken down by faith, in each year between 1997 to 2004. [216686]

Mr. Stephen Twigg: The figures in the following table show the number of independent faith based schools there were in each year from 1997 to 2003 based on schools inspection criteria.

	Jewish	*Muslim*	*Evangelical Christian*
1997	53	54	53
1998	52	61	55
1999	53	65	63
2000	52	71	67
2001	55	73	68
2002	59	77	70
2003	56	75	76

In 2004 we asked all independent schools for the first time to indicate their religious ethos, if any, and the results are given as follows:

	Number
Buddhist	1
Church of England	284
Hindu	1
Jewish	[1]37
Methodist	14
Muslim	111
Other Christian	355
Roman Catholic	122
Sikh	1

[1] We recognise 50 Jewish schools for inspection purposes

Free Nursery Places (Birmingham)

Mr. Byrne: To ask the Secretary of State for Education and Skills how many children in Birmingham have benefited from free nursery places since the policy was introduced, broken down by constituency. [214037]

Margaret Hodge: All four-year-olds in England have been entitled to a free part-time early education place since September 1998. All three-year-olds in England have been entitled to a free part-time early education place since April 2004.

The available information on the numbers of free part-time early education places taken up by three and four-year-olds in Birmingham local education authority area and parliamentary constituencies within Birmingham since 1997 is shown in the tables.

The latest figures on early education places for three and four-year-olds in England were published in Statistical First Release 39/2004 "Provision for children under five years of age in England—January 2004 (final)", which is available on the Department's website www.dfes.gov.uk/rsgateway/.

Number of free nursery education places[1] taken up by three and four-year-old—Birmingham local education authority area—position in January each year

[2] Headcount of children aged three at 31 December in the previous calendar year from the Annual Schools' Census.

[3] Part-time equivalent number of children aged three at 31 December in the previous calendar year from the Early Years Census and the Annual Schools' Census.

[4] Headcount of children aged four at 31 December in the previous calendar year from the Annual Schools' Census.

[5] Part-time equivalent number of children aged four at 31 December in the previous calendar year from the Early Years Census and the Annual Schools' Census.

[6] Matching providers to constituencies makes use of the provider postcode as returned in the Early Years Census data collection exercise.

[7] Negligible.

Further Education

Dr. Vis: To ask the Secretary of State for Education and Skills what the funding gap is between school sixth forms and further education colleges in the London North Learning and Skills Council area; and if she will make a statement. [216679]

Dr. Howells: The Department does not have information on what the funding gap is between school sixth forms and further education colleges in the London North Learning and Skills Council area specifically.

However, the main measure the Department has used

to identify the funding gap is the difference in Learning and Skills Council (LSC) national funding rates for an AS/A2 qualification.

In 2002/03 the difference between the AS/A2 base rates was 10.5 per cent. Increased funding to support our Success for All strategy enabled the LSC to deliver a 4.5 per cent. increase in funding rates in 2003/04 for all colleges that agreed development plans. In the same year school sixth form funding rates increased by 3 per cent.—resulting in a narrowing of the funding gap to 9 per cent.

FE colleges that delivered against their plans receive a further 5 per cent. increase in funding rates for 2004/05 compared with a 4 per cent. increase for schools—a further narrowing of the gap to 8 per cent. We expect a similar step in funding rates in 2005/06 reducing the gap to 7 per cent.

Dr. Vis: To ask the Secretary of State for Education and Skills what steps she is taking to reduce the funding gap between school sixth forms and further education colleges in the London North Learning and Skills Council area. [217118]

Mr. Stephen Twigg: Government recognise that there are differences in the funding allocated to further education colleges and school sixth forms nationally and has taken action to address this. For the academic year 2003/04, base funding rates per qualification increased by 3 per cent. for school sixth forms and by 4.5 per cent. for further education colleges on a broadly comparable basis. In 2004/05, funding rates for colleges meeting their targets increased by 5 per cent., while those for school sixth forms rose by 4 per cent. This trend will continue in the 2005/06 academic year.

GCSE Results (North Durham)

Mr. Kevan Jones: To ask the Secretary of State for Education and Skills what the GCSE results were for students in North Durham in *(a)* 1997, *(b)* 2001 and *(c)* the latest period for which figures are available. [214195]

Mr. Stephen Twigg: The table shows the results of 15-year-old pupils in GCSE and equivalent examinations for North Durham in 1997,2001 and 2004:

Percentage

Percentage achieving:	*1997*	*2001*	*2004*
5 or more grades A*-C	34.7	44.9	47.2
5 or more grades A*-G	86.8	88.8	89.1
Any passes	91.7	93.4	94.1

Notes:

1. As standard the results reported relate to pupils aged 15 at the start of the academic year, i.e. 31 August, and therefore reaching the end of compulsory education at the end of the school year.

2. For 2004 only results incorporate GCSEs, GNVQs and a wide range of other qualifications approved pre-16. Prior to 2004 results are based on GCSEs and GNVQs only.

Increased Flexibility Programme

Mr. Lidington: To ask the Secretary of State for Education and Skills what assessment she has made of the Increased Flexibility Programme. [215740]

Mr. Stephen Twigg: The Department engaged the National Foundation for Educational Research to evaluate the Increased Flexibility Programme. A number of evaluation reports have been published, including the report of the evaluation of the first year in February 2004 and the report of the evaluation of the second year in January 2005. The evaluations have covered the experience of implementation and the impact on:

progress towards qualifications;

social skills;

employability skills;

behaviour and attitudes;

attendance;

plans for progression;

partnership working.

A final report of the evaluation is due to be published in August 2005 and will include findings on achievements of young people in the first cohort, and their post-16 participation.

Independent Schools (Pre-registration)

Mrs. Fitzsimons: To ask the Secretary of State for Education and Skills how many pre-registration independent schools which did not comply fully with regulations 2e and 2d on the first visit complied on the second visit; and how many were non-compliant with regulations 2e and 2d, broken down by faith. [210853]

Mr. Stephen Twigg: The following table gives the figures requested for those schools that have already had two inspections after the new regulations came into force.

Regulation number/visit	*Number of schools not meeting the Regulation*	*Faith (if any)*
2(d)

International Students

Chris Grayling: To ask the Secretary of State for Education and Skills pursuant to the answer of 21 December 2004, *Official Report*, column 1701W to the hon. Member for Huddersfield (Mr. Sheerman), on international students, if she will list the organisations and individuals from which representations have been received. [215460

Dr. Howells: The following table shows details of the representations received by my Department as at 10 February 2005 on the proposed charges for visa extension applications made by international students.

Representations to the Department for Education and Skills on Home Office proposals to increase charges for leave to remain applications as at 10 February 2005

Hillingdon LEA

Mr. Randall: To ask the Secretary of State for Education and Skills if she will list the members of the School Organising Committee for the London borough of Hillingdon local education authority. [216436]

Derek Twigg: The Department does not hold information on the members of Hillingdon or any other School Organisation Committee (SOC). SOCs are committees set up by, but independent of, the local authority. Regulations require that all SOCs are constituted with five groups with representatives drawn from the LEA, local school governors, the Roman Catholic Diocese, the Church of England Diocese and the local Learning and Skills Council. SOCs may also include an optional sixth group to represent other local community interests.

Looked-after Children

Mrs. May: To ask the Secretary of State for Education and Skills (1) what estimate she has made of the number of *(a)* looked-after children and *(b)* former looked-after children who received custodial sentences in each year between 1997 and 2004; [212082]

(2) what estimate she has made of the number of *(a)* looked-after children and *(b)* former looked-after children who received custodial sentences in each year between 1997 and 2004. [212086]

Margaret Hodge: The information requested on sentencing is not collected centrally. However, the following tables show the numbers of looked-after children who were in a young offenders institution or prison at 31 March, and the number of 19-year-old former care leavers in custody on their 19th birthday.

Children looked after at 31 March in a young offenders institution or prison

Number

	Year ending 31 March						
England	*1997*[2]	*1998*[3]	*1999*[3]	*2000*[3]	*2001*[4]	*2002*[4]	*2003*[4]
Number of children looked after[1]	51,200	53,300	55,500	58,100	58,900	59,700	60,800
Number of children looked after in a young offenders institution	150	170	180	170	150	120	100

[1] Figures exclude children looked after under an agreed series of short term placements.
[2] Figures derived from the SSDA903 return.
[3] Figures taken from the CLA100 return.
[4] Figures derived from the CLA100 return and the SSDA903 return.
Note:
1. Figures over 1,000 have been rounded to the nearest 100. All other figures have been rounded to the nearest 10.

Number

	Year ending 31 March		
England	*2002*[2]	*2003*[3]	*2004*[4]
All young people[5]	4,700	4,900	5,100
In custody	110	120	120

[1] Figures exclude children who were looked after on 1 April aged 16 under an agreed series of short term placements
[2] Looked after on 1 April 1999
[3] Looked after on 1 April 2000.
[4] Looked after on 1 April 2001.
[5] Figures include former care leavers with whom the local authority is not in touch.
[6] Figures taken from the OC3 return.
[7] Figures over 1,000 have been rounded to the nearest 100. All other figures have been rounded to the nearest 10.
Source:
Children looked after in England (including adoptions and care leavers), 2003–04.

Mrs. May: To ask the Secretary of State for Education and Skills what estimate she has made of the number of cared-for children who become involved in prostitution. [212088]

Margaret Hodge: The data requested is not collected or held centrally.

Morecambe and Lunesdale (Funding)

Geraldine Smith: To ask the Secretary of State for Education and Skills how much Government funding has been spent on education in Morecambe and Lunesdale in each of the last 10 years. [216781]

Mr. Stephen Twigg: The information requested is submitted to the Department according to local education authority areas, rather than districts within an LEA. Morecambe and Lunesdale form part of Lancashire LEA. The information is contained within the following table.

Combined LEA and school based expenditure[1,2]	Cash terms (£)
1994–95	583,765,000
1995–96	570,257,000
1996–97	577,176,000
1997–98[3]	586,427,000
1998–99[4]	492,850,000
1999–2000	508,395,000
2000–01	532,819,000
2001–02	588,951,000
2002–03	595,937,000
2003–04	703,296,000

[1] The combined LEA and school based expenditure includes all expenditure on the education of children in LEA maintained establishments and pupils educated by the LEA other than in maintained establishments. This includes both school based expenditure and all elements of central LEA expenditure except youth and community and capital expenditure from revenue (CERA).

[2] Upto and including 1998–99 financial data are taken from Revenue Outturn spending returns submitted to the ODPM. From 1999–00 onwards financial data are taken from Section 52 Outturn Statements submitted to the Department for Education and Skills. 2003–04 data remains provisional and is subject to change by the LEA.

[3] Spending in 1997–98 reflects the transfer of moneys from local government to central government for the nursery vouchers scheme. These were returned to local government from 1998–99.

[4] Local government reorganisation (LGR) took place on the 1 April 1998 where pre-LGR Lancashire LEA was split into Lancashire LEA, Blackburn with Darwin LEA and Blackpool LEA. As a result, up to 1997–98 data are for pre-LGR Lancashire LEA and from 1998–99 data are for post-LGR Lancashire LEA. This break in consistency is shown by the dotted line.

Notes:

1. Financial data are collected at local authority level and not constituency level and as such the figures provided are for Lancashire LEA.

2. Figures are rounded to the nearest 1,000 as reported by Lancashire LEA at 14 February 2005.

Geraldine Smith: To ask the Secretary of State for Education and Skills how much public funding has been spent on computers for schools in Morecambe and Lunesdale since 1997. [216784]

Derek Twigg: The Department does not hold information on funding for ICT at constituency level. However, Morecambe and Lunesdale is in Lancashire LEA and allocations for this authority since 1998 are detailed in "Funding for ICT in Schools in England" which is available in the House Library.

Geraldine Smith: To ask the Secretary of State for Education and Skills what expenditure there has been on schools in Morecambe and Lunesdale since 1997; and if she will make a statement. [216787]

Mr. Stephen Twigg: The following table shows capital resources allocated to Lancashire local education authority and its schools since 1997. Decisions on how resources should be invested in schools are taken by the local education authority in accordance with its locally prepared asset management plan. The information on how capital allocations are split between constituencies is not held centrally.

	Lancashire
1997–98	13,288
1998–99	19,457
1999–2000	23,407
2000–01	42,200
2001–02	36,021
2002–03	55,453
2003–04	62,607
2004–05	44,234

Geraldine Smith: To ask the Secretary of State for Education and Skills how many residents of Morecambe and Lunesdale have undertaken apprenticeships since 1997. [216806]

Mr. Ivan Lewis: Figures for Morecambe and Lunesdale cannot be provided as information at parliamentary constituency level is not available. The following table shows the number of starts on Apprenticeships in (i) the Lancashire Learning and Skills Council (LSC) area between April 2001 and the end of July 2004; and (ii) in the Training and Enterprise Council (TEC) for the area LAWTEC (Lancashire West) between April 1997 and March 2001.

Time period[1]	TEC/LSC	Advanced apprenticeship	Apprenticeship at level 2
April 1997 to March 1998	LAWTEC	1,800	
April 1998 to March 1999	LAWTEC	1,600	100
April 1999 to March 2000	LAWTEC	1,900	1,800
April 2000 to March 2001	LAWTEC	1,800	2,100
April 2001 to July 2002	Lancashire LSC	1,900	4,100
August 2002 to July 2003	Lancashire LSC	1,700	3,600
August 2003 to July 2004	Lancashire LSC	1,400	3,900

[1] TECs reported the figures in financial years. LSC reports figures in academic years. The first LSC 'year' was 16 months in order to bring the financial year figures into line with academic years.

LSC Individualised Learner Record

Northumberland Education Authority

Mr. Ronnie Campbell: To ask the Secretary of State for Education and Skills what the per pupil funding allocation to the Northumberland education authority was in *(a)* 1997, *(b)* 2001 and *(c)* the latest year for which figures are available. [216078]

Mr. Stephen Twigg: The latest year for which figures are available is 2004–05. The following table sets out the total funding (in real terms) per 3–19 pupil for Northumberland for 1997–98, 2001–02 and 2004–05.

	Total funding £ pp
1997–98	2,720
2001–02	3,330
2004–05	3,700

Notes:

1. Price Base: Real terms at 2003–04 prices, based on GDP deflators as at 30 September 2004.
2. Figures reflect relevant sub-blocks of education SSA/EFS settlements and exclude the pensions transfer to EPS and LSC.
3. Total funding also includes all revenue grants in DfES departmental expenditure limits relevant to pupils aged 3–19 and exclude EMAs and grants not allocated at LEA level.
4. The pupil numbers used to convert £ million figures to per pupil are those underlying the SSA/EFS settlement calculations plus PLASC three-year-old maintained pupils and estimated three to four-year-olds funded through state support in maintained and other educational institutions where these are not included in the SSA pupil numbers.
5. Rounding: Figures are rounded to the nearest £10.
6. Status: 2004–05 figures are provisional as some grants have not yet been finalised/audited.

Popular Schools

Mr. Rosindell: To ask the Secretary of State for Education and Skills how a school's popularity will be determined in order to allocate additional money to popular state schools due to a rising enrolment demand; and what is expected to be the total cost of such additional funding. [217140]

Mr. Stephen Twigg: Guidance on the DfES website, titled Decision Makers Guidance Section 1, sets out a number of indicators to be considered when deciding whether a school should be classified as successful and popular. These include the school's performance, the numbers of applications for places, and any other relevant evidence prepared by schools.

The cost of such additional funding is decided on a case by case basis.

Pupil Referral Units

Mr. Hoyle: To ask the Secretary of State for Education and Skills what the average cost of providing a pupil with education in a referral unit was in Lancashire in each year since 2000. [216309]

Derek Twigg: We do not hold the information requested, although we do hold planned net expenditure on Pupil Referral Unit (PRU) places in Lancashire.

The number of pupils shown in the following table is for pupils attending PRUs who are not registered at a maintained mainstream or special school. This underestimates PRU activity, and therefore overestimates the unit cost, as it does not include the number of pupils attending a PRU, but registered in another school. The figures do not include cross-border pupils who live in Lancashire but attend a PRU in a bordering authority, for which Lancashire LEA pays. This payments included in the planned expenditure, but the number of pupils involved is not known.

The average cost of a pupil attending a PRU in England is £10,000.

	Planned net expenditure on PRUs (£)		Pupils attending PRUs	
	Lancashire	England	Lancashire	England
2000–01	4,054,057	100,309,321	70	9,019
2001–02	4,245,559	108,466,872	131	9,734
2002–03	9,761,772	134,740,764	149	11,322
2003–04	9,948,486	177,444,103	297	12,694
2004–05	10,219,390	198,460,713	n/a	n/a

n/a = denotes figures not available.

Note:

1. The planned net expenditure on PRUs includes all planned expenditure on the provision of education at PRUs as defined in section 19 of the 1996 Act. Figures for 2001–02 onwards include all School Standards Grant income and expenditure in relation to PRUs.

Mr. Willis: To ask the Secretary of State for Education and Skills what training is required for a teacher to teach in a pupil referral unit; what the cost of the training is; and if she will make a statement. [216862]

Mr. Stephen Twigg: Teachers in pupil referral units are the same as any other teachers and therefore receive the same initial teacher training as teachers in other schools.

There are a number of different routes into teaching. According to research, undertaken by JM Consulting Ltd. for my Department, the average annual cost of initial teacher training per full-time equivalent student was £5,973 in 2002/03. The research was based on a review of the costs of initial teacher training at 15 higher education institutions chosen to represent a broad range of types of institution and types of provision (primary, secondary, undergraduate and postgraduate).

Mr. Willis: To ask the Secretary of State for Education and Skills how many teachers are teaching in pupil referral units in *(a)* England, *(b)* each region and *(c)* each local education authority; and how many have received specific training to teach in such units. [216863]

Mr. Stephen Twigg: The following table shows the full-time equivalent number of regular teachers in pupil referral units for each Government Office region and local education authority in January 2004, the latest information available.

All teachers with qualified teacher status are trained to teach in pupil referral units.

Annual survey of teachers in service and teacher vacancies.

Pupil-Teacher Ratios

Mr. Rosindell: To ask the Secretary of State for Education and Skills how many *(a)* students and *(b)* teachers there were in Essex county in the 2003–04 school year. [217146]

Mr. Stephen Twigg: In January 2004 there were 200,420 full-time equivalent students and 10,980 full-time equivalent regular teachers in maintained nursery, primary, secondary, special and pupil referral units in Essex local education authority.

Romford Schools

Mr. Rosindell: To ask the Secretary of State for Education and Skills how much money is allocated to each school in Romford. [217144]

Mr. Stephen Twigg: The information requested is collected at local education authority level. Romford schools fall within Barking and Dagenham, Essex, Havering and Redbridge LEAs. I have placed in the Library tables showing the requested financial data for 2004–05.

SATs Tests

Mr. Gibb: To ask the Secretary of State for Education and Skills if she will list the grounds on which children can be excused or withdrawn from sitting SATs tests for *(a)* reading, *(b)* writing. [216067]

Mr. Stephen Twigg: The key stage 2 tests assess levels 3 to 5 of the national curriculum. Schools should enter pupils for the tests in English, mathematics and science except where:

a pupil has been assessed as working at level 2 or below, and will not be working at level 3 by May;

the school is unable to establish whether a pupil is working at the level of the tests, for example because they have recently arrived in the school and cannot speak English; or

a pupil is working at the level of the tests but is unable to access them, for example because of a very severe physical disability.

Details of circumstances in which pupils should not be entered for the key stage 2 tests are set out in section 8 of the "Key Stage 2 Assessment and Reporting Arrangements" booklet, published by the Qualifications and Curriculum Authority, which is issued to schools and is available on the QCA website.

School Admissions Policy

Mrs. Brooke: To ask the Secretary of State for Education and Skills how the local education authority admissions authorities determine which address is used for a child seeking a school place in an oversubscribed school in the case of joint custody; and if she will make a statement. [216100]

Derek Twigg: Guidance in the statutory School Admissions Code of Practice advises admission authorities that where a child lives with parents with shared responsibility, each for part of a week, the oversubscription criteria need to make clear how the 'home' address will be decided in a fair and considered way. It is for the individual admission authority to decide what method they will use.

School Attendance

Mr. Forth: To ask the Secretary of State for Education and Skills what assessment she has made of the accuracy of the data provided by schools to her Department for the last three years regarding attendance. [215725]

Mr. Stephen Twigg: We are satisfied the pupil absence in schools data published by my Department is accurate. We have processes in place to quality assure and clean the data submitted by each school prior to its provisional publication each September. The data is checked by schools as part of the School and College Achievement and Attainment Tables exercise and revised figures are published each December.

School Building (Isle of Wight)

Mr. Andrew Turner: To ask the Secretary of State for Education and Skills what *(a)* commitments and *(b)* undertakings she has made to the Isle of Wight Council regarding future capital allocations provided (i) through the Building Schools for the Future programme or (ii) otherwise, whether (A) contingent on or (B) not contingent on school reorganisation. [216280]

Mr. Stephen Twigg: A letter has been sent to all council leaders stating that, for authorities not prioritised in the first three waves of Building Schools for the Future (BSF), including the Isle of Wight, we are determined to make a start on BSF plans between 2005–06 and 2010–11. Our ambition is that in the next full Parliament, subject to future spending decisions, 60 per cent. of all authorities will have started in the BSF programme, or else be given resources to renew at least one secondary school with the greatest need as a school for the future, or as an academy. Each BSF scheme will be judged on its merits, and is not necessarily contingent on school reorganisation. Other capital allocations to the council and its schools were announced on 30 November, and are set out in the following table:

	£000
2006–07	14,853
2007–08	15,446

School Incomes

Mr. Andrew Turner: To ask the Secretary of State for Education and Skills for how long her Department has collected information on the income of individual schools; and if she will provide that information and the number of pupils for the first 10 community primary schools and first 10 community secondary schools by her Department's number in each local education authority for each year for which the information is available. [216033]

Mr. Stephen Twigg: The Department has just finished collecting the second year's worth of Consistent Financial Reporting data from individual schools. I have placed in the Library tables showing the requested

financial data for 2002–03 and 2003–04. Some authorities have fewer than 10 community primary or secondary schools.

School Leavers (City of Durham)

Mr. Steinberg: To ask the Secretary of State for Education and Skills how many school leavers in the City of Durham moved on to *(a)* higher education, *(b)* further education and *(c)* employment in each of the last five years. [214357]

Mr. Stephen Twigg: Information on 18-year-olds entering HE is collected by the Higher Education Statistics Agency (HESA) and is available at constituency level. The number of 18-year-olds entering HE from City of Durham constituency from end 1999 to end 2003 is given in Table 1. The numbers have been rounded to the nearest five.

Table 1: The number of 18-year-olds from City of Durham constituency entering HE: 1999 to 2003

End of calendar year	*Number of people*
1999	260
2000	240
2001	260
2002	295
2003	305

Estimates of the percentage of young people participating in education and LSC-funded work-based learning (WBL) are not available below the local education authority (LEA) level. The number of 16-year-olds participating in full-time education, and in education and WBL, in Durham LEA, from end 1997 to end 2001, are shown in Table 2. The numbers have been rounded to the nearest hundred. Estimates for end 2002 and end 2003 (provisional) are due to be published in March 2005.

Table 2: Participation in education and training by 16-year-olds in Durham LEA: 1997 to 2001

End of calendar year	*Full-time education*	*Education and LSC funded work based learning (WBL)*
1997	3,800	5,400
1998	3,800	5,200
1999	4,000	5,500
2000	3,900	5,200
2001	4,200	5,500

Information on 16 to 19-year-olds in employment (both full and part-time) is available at parliamentary constituency level from the Office for National Statistics. Table 3 following shows the numbers and percentages in City of Durham constituency since 2001. However, sample sizes are very small due to the narrow age band and small geographic area. Therefore, the employment rate is volatile and care should be taken when interpreting the figures. The numbers have been rounded to the nearest thousand, with the rates calculated from unrounded numbers.

Table 3: The number and the percentage of 16 to 19-year-olds in employment in City of Durham constituency, 2001/02 to 2003/04

	Number	*Percentage*
2001–02	3,000	88.3
2002–03	3,000	49.1
2003–04[1]	1,000	37.8

[1] The employment rate for 2003–04 is based on a sample size of less than 10.

School Organising Committees

Mr. Randall: To ask the Secretary of State for Education and Skills what guidance she has provided on declaration of interests by members of school organising committees. [216437]

Derek Twigg: My right hon. Friend the Secretary of State has issued guidance on the conduct of members of School Organisation Committees (SOCs) which includes advice that members should declare an interest in any proposal which directly affects a school at which they are a governor or which their children attend, or in which they might have a pecuniary interest in the decision made. The guidance suggests that any member with such an interest should withdraw from the discussion and take no part in the decision. Alternatively, where it is known in advance that a conflict of interest will arise, a member may invite an alternate, who has no interest to declare, to attend the meeting in his place.

Regulations also provide that where two groups on a SOC do not vote on a statutory proposal because members of two groups declare an interest, the proposals should be referred to the schools adjudicator for decision.

School Toilets

Mr. Berry: To ask the Secretary of State for Education and Skills if she will extend school premises regulations to stipulate the *(a)* suitability, *(b)* condition and *(c)* accessibility of pupils' toilets. [215712]

Mr. Stephen Twigg: The Education (School Premises) Regulations 1999 are due to be revised within the next year and, subject to consultation, may be extended to place a duty on schools to maintain pupils' toilets in good condition, although the regulations do provide for necessary maintenance under the health, safety and welfare paragraph. Accessibility by disabled pupils is already covered by the regulations; suitability is taken into account in design for build, rebuild or refurbishment of premises.

Mr. Berry: To ask the Secretary of State for Education and Skills if she will introduce legislation governing toilet provision for pupils in schools to bring provisions into line with those governing the adult workplace. [215713]

Mr. Stephen Twigg: Provision of toilet and wash facilities is covered by the Education (School Premises) Regulations 1999. These regulations, which are due to be revised later this year, include a section on Health, Safety and Welfare. Paragraph 17(3) provides that

"every part of a school building and of the land provided for a school shall be such that the health, safety and welfare of the occupants . . . are reasonably assured".

This paragraph, we believe, should ensure that toilet provision equates with that provided for adults under Health and Safety legislation.

Mr. Berry: To ask the Secretary of State for Education and Skills how adherence to the Education (School Premises) Regulations 1999 is monitored with regard to the number of toilets and washbasins provided for pupils. [215714]

Mr. Stephen Twigg: The responsibility for enforcement of the Education (School Premises) Regulations 1999 lies with local education authorities. The Department does not monitor individual schools for compliance with the regulations.

School Uniforms

Mr. Rosindell: To ask the Secretary of State for Education and Skills what the Department's policy is on school uniforms in primary schools. [217142]

Derek Twigg: School governing bodies are responsible for deciding whether their school should have a uniform policy, and if so, what it should consist of. The headteacher's role is to ensure pupils comply with the uniform policy agreed by the governing body.

When setting a uniform policy the Department expects school governing bodies to behave reasonably, considering the impact of their policies on parents and pupils.

Secondary Schools (Romford)

Mr. Rosindell: To ask the Secretary of State for Education and Skills if she will make a statement on the performance of secondary schools in Romford. [217141]

Mr. Stephen Twigg: Between 1997 and 2003, the percentage of pupils achieving level 5 or above at key stage 3 in Romford constituency schools increased by 4.2 percentage points in English, by 9.2 percentage points in mathematics and by 7.3 percentage points in science. School level key stage 3 information for 2004 is not yet available. At key stage 4 there has been a significant increase of 20.6 percentage points in the attainment of 5A*-C GCSEs between 1997 and 2004, well above the national rate of improvement of 8.6 percentage points. A summary of secondary outcomes is set out in the following table.

Information about education and skills by constituency is made available by the Department through the 'In Your Area' website, available at http://www.dfes.gov.uk/inyourarea.

Key stage 3: percentage of pupils at level 5 and above

	English	*Maths*	*Science*
1997	63	65.2	63
1998	64.3	62.3	61.5
1999	72.2	67.8	58.5
2000	71.3	70.6	61.1
2001	74.5	72.5	70.5
2002	70.3	74.4	72.6
2003	67.2	74.4	70.3

Key Stage 4

	Percentage of 15-year-olds gaining 5+ GCSEs at A-C*
1997	41.7
1998	42.6
1999	46.8
2000	48.4
2001	47.6
2002	52.8
2003	58.2
2004	62.3

Sex Education

Mr. Flook: To ask the Secretary of State for Education and Skills if she will establish abstinence as the starting point for all sex education lessons; and if she will make a statement. [216438]

Derek Twigg: The Government believes that all young people should receive a balanced programme of sex and relationship education (SRE) at school, which encourages them to delay sexual activity until they are ready and prepares them to make responsible choices about their relationships when they do become sexually active.

In 2000, DfES issued guidance to schools on the teaching of SRE. Schools are required to adhere to the principles set out in the guidance, which makes clear that pupils should learn the reasons for delaying sexual activity and the benefits to be gained from such delay.

School Staff

Ms Dari Taylor: To ask the Secretary of State for Education and Skills how the number of *(a)* teachers and *(b)* teaching assistants has changed in Stockton, South since 1997. [215311]

Mr. Stephen Twigg: Information for maintained nursery, primary, secondary and special schools, and pupil referral units, in Stockton, South is provided in the following table.

	January 1997	*January 2004*
Full-time equivalent number of teachers	910	940
Full-time equivalent number of teaching assistants	90	160

Note:

Figures are rounded to the nearest 10.

Source:

Annual School Census

Mr. Cummings: To ask the Secretary of State for Education and Skills how many teachers were employed at all schools in Easington constituency in each year since 2001. [216091]

Mr. Stephen Twigg: The full-time equivalent number of teachers in all maintained schools in Easington constituency is given in the following table.

Maintained nursery, primary, secondary, special schools and pupil referral units[1,2,3,4]
Full-time equivalent number of teachers
Position in January each year: 2001 to 2004
Easington parliamentary constituency

	FTE Teachers
2001	640
2002	650
2003	650
2004	650

[1] Includes middle schools as deemed.
[2] Includes maintained and non-maintained special schools.
[3] Includes teachers with and without qualified teacher status.
[4] Figures have been rounded to the nearest 10.

Source:
Annual Schools' Census

Mr. Gill: To ask the Secretary of State for Education and Skills how many teaching assistant posts there were in *(a)* primary and *(b)* secondary schools in Leicester, South in each year since 1997. [216384]

Mr. Stephen Twigg: The full-time equivalent number of teaching assistants and other support staff in Leicester, South constituency is given in the following table:

Maintained primary and secondary schools[1,2]: full-time equivalent number of teaching assistants
January 2004
Leicester, South parliamentary constituency

	Primary schools	Secondary schools
1997	90	10
1998	90	10
1999	110	10
2000	100	20
2001	130	20
2002	180	30
2003	210	30
2004	210	30

[1] Includes middle schools as deemed.

Source:
Annual Schools' Census

Helen Jones: To ask the Secretary of State for Education and Skills how many teaching assistants are employed in schools in *(a)* Warrington and *(b)* Warrington, North. [214971]

Mr. Stephen Twigg: In January 2004 there were 460 full-time equivalent teaching assistants in maintained nursery, primary, secondary and special schools, and pupil referral units, in Warrington local education authority. There were 240 in Warrington, North parliamentary constituency.

University Education

Dr. Kumar: To ask the Secretary of State for Education and Skills what the university drop-out rate was in *(a)* England and *(b)* the North East in 2003–04. [215872]

Dr. Howells: The latest information on non-completion rates was published last September by the Higher Education Statistics Agency (HESA) in "Performance Indicators in HE", which is available from their website at http://www.hesa.ac.uk/ The figures for HE institutions in the North East and England are shown in the table.

Projected non-completion rates of students on full-time first degree courses

	Percentage Non-completion rate of those starting courses in 2001/02[1]	
	Projected[2]	Benchmark[3]
University of Durham	2.3	6.4 +
University of Newcastle	7.0	8.7
Northumbria University	13.9	16.5
University of Sunderland	26.9	18.5-
University of Teeside[4]		
England	14.1	[5]

[1] The non-completion rates cover UK domiciled full-time students starting first degree courses who are projected neither to transfer nor achieve an alternative award from their study.
[2] HESA use a method of projection applied to the cohort of students starting full-time first degree courses in a particular year, based on the assumption that they will move through the system in the same way as current students.
[3] As well as the projected value, HESA also calculate an expected (benchmark) value for each institution, which allows for the entry qualifications, age and subject mix of the institution's students. Those institutions whose projected non completion rate differs significantly from their benchmark value are highlighted (+ or -) in the table.
[4] The outcomes for the University of Teesside have been left out because problems with their data this year have adversely affected their figures.
[5] Benchmarks are not calculated at national level.

Dr. Kumar: To ask the Secretary of State for Education and Skills what percentage of those between the ages of 18 and 22 years from the constituency of Middlesbrough, South and Cleveland, East are studying at university. [215871]

Dr. Howells: The recent HEFCE publication "Young participation in higher education" (HEFCE 2005/03) looks at the proportion of young people who enter higher education at age 18 or 19 by parliamentary constituency. A discussion of the participation divisions and trends (18-year-olds in 1994 to 18-year-olds in 2000) for constituencies is contained in the report [sections 2.12, 3.8 and 4.1].

In addition, participation rates for parliamentary constituencies based on this work are given on the supporting POLAR website (www.hefce.ac.uk/polar). These indicate that, for the cohorts reaching 18 between 1997 and 1999, 28 per cent. of young people living in Middlesbrough, South and Cleveland, East constituency entered higher education at age 18 or 19 (the English average for these cohorts is 29 per cent.).

Mr. Hoyle: To ask the Secretary of State for Education and Skills what percentage of 18 to 22-year-olds from Chorley constituency are studying at university. [216310]

Dr. Howells: The recent HEFCE publication 'Young participation in higher education' (HEFCE 2005/03) looks at the proportion of young people who enter higher education at age 18 or 19 by parliamentary constituency. A discussion of the participation divisions and trends (18-year-olds in 1994 to 18-year-olds in 2000) for constituencies is contained in the report [sections 2.12, 3.8 and 4.1].

School Initiatives, School Performance, School Workforce and Post-16.

Higher education institutions may also receive funding for capital and for special initiatives from HEFCE.

In addition, participation rates for parliamentary constituencies based on this work are given on the supporting POLAR website www.hefce.ac.uk/polar. These indicate that, for the cohorts reaching 18 between 1997 and 1999, 34 per cent. of young people living in Chorley constituency entered higher education at age 18 or 19 (the English average for these cohorts is 29 per cent.)

Youth Clubs

Mr. Sheerman: To ask the Secretary of State for Education and Skills what steps her Department is taking to encourage provision of further youth clubs and other recreational places for young people. [214841]

Margaret Hodge: The Department for Education and Skills Five Year Strategy signalled the intention to consider a new offer for young people. Details will be set out in a Green Paper to be published for consultation shortly.

Central to this offer is enabling young people to access exciting and enjoyable activities in and out of school or college that enhance their personal, social and educational development and reflect what they do, including sport, outdoor activities and residential opportunities. As part of this work, my Department is looking at the full range of youth facilities, safe places and spaces in which young people can spend their leisure time.

NORTHERN IRELAND

Doctor/Nurse Ratios

Mrs. Robinson: To ask the Secretary of State for Northern Ireland what the *(a)* doctor and *(b)* nurse to patient ratio is at each hospital in the Province; and what it was (i) 10 and (ii) 20 years ago. [215378]

Angela Smith: The information requested is not available.

Nursing Vacancies

Mrs. Robinson: To ask the Secretary of State for Northern Ireland how many whole-time equivalent nursing vacancies there were on the latest date for which figures are available at each trust in the Province. [215461]

Angela Smith: I refer the hon. Lady to the answer I gave on 3 February 2005, *Official Report*, column 1074W.

Police (Medical Retirements)

Lady Hermon: To ask the Secretary of State for Northern Ireland how many *(a)* regular, *(b)* full-time reserve and *(c)* part-time reserve police officers were medically retired as a result of an injury on duty in each year since 1975. [216246]

Mr. Pearson: The figures requested are provided in the following table.

Figures for medical retirements as a result of IOD

	Regular officer	*Full-time reserve*	*Part-time reserve*	*Service total*
1970	1	0	0	1
1971	1	0	0	1
1972	2	0	0	2
1973	5	0	1	6
1974	6	0	1	7
1975	4	0	1	5
1976	2	0	3	5
1977	6	2	4	12
1978	4	5	5	14
1979	3	4	5	12
1980	5	1	0	6
1981	3	1	2	6
1982	1	3	0	4
1983	4	4	4	12
1984	11	2	2	15
1985	10	2	3	15
1986	6	2	2	10
1987	13	5	2	20
1988	7	2	1	10
1989	10	4	2	16
1990	10	3	1	14
1991	4	6	0	10
1992	12	7	1	20
1993	10	6	3	19
1994	7	2	0	9
1995	18	7	0	25
1996	38	14	4	56
1997	26	13	3	42
1998	29	13	2	44
1999	24	28	0	52
2000	65	55	3	123
2001	90	101	0	191
2002	102	145	0	247
2003	65	61	3	129
2004	55	66	1	122
Total	659	564	56	1,279

Television Licences

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many television licences have been issued in Northern Ireland in each year since 1997, broken down by parliamentary constituency. [216478]

Estelle Morris: I have been asked to reply.

The BBC has statutory responsibility for the administration of the television licensing system and TV Licensing carries out the day to day administration under contract to the Corporation. The BBC has advised that this information is not available as the Corporation does not collect any data on a constituency level.

Mr. Dodds: To ask the Secretary of State for Northern Ireland how much money has been paid in television licence fees in Northern Ireland in each year since 1997. [216479]

Estelle Morris: I have been asked to reply.

The BBC has statutory responsibility for the administration of the television licensing system and TV Licensing carries out the day to day administration under contract to the Corporation. The BBC has advised that this information is not available as it does not split licence fee revenue by nation or region.

this information.

website at: www.fco.gov.uk/commandpapers.

Mr. Dodds: To ask the Secretary of State for Northern Ireland what estimate he has made of the number of households in Northern Ireland which have not paid for television licences where such licences should have been paid for. [216480]

Estelle Morris: I have been asked to reply.

The BBC has indicated that the data required to produce accurate estimates is not available for the nations and regions. However, as the hon. Member may be aware, the National Audit Office's 2002 report "The BBC: Collecting the Television Licence Fee" indicated that the estimated evasion rate for Northern Ireland at the end of March 2001 was 17.6 per cent.

CONSTITUTIONAL AFFAIRS

Children and Young People Action Plan

Charles Hendry: To ask the Parliamentary Secretary, Department for Constitutional Affairs what the total costs of publishing the Involving Children and Young People Action Plan 2004–05 were; and what he estimates the total costs of implementing the plans set out in the document will be. [217208]

Mr. Leslie: The total cost of publishing the Involving Children and Young People Action Plan 2004–05 was £3,748.20. The total cost for implementing the plans set out in the Proposal section and the Appendices of the Action Plan could be supplied only at disproportionate cost. The DCA Schools Conference held in September 2004 cost £9,314.90.

Electoral Registration

Mr. Gale: To ask the Parliamentary Secretary, Department for Constitutional Affairs what steps his Department is taking to ensure that only the names of bona fide electors appear on the electoral register and are eligible and permitted to vote in any forthcoming general election. [216252]

Mr. Lammy: The annual canvass form which is sent to all households provides information about who is eligible to register. Electoral Registration Officers (EROs), who are responsible for compiling the electoral register as accurately as possible, may require a person applying to register to give additional information if they are in doubt as to whether that person is eligible to be registered. They may also refer to other records kept by the council or the registrar of births, marriages and deaths if they consider that further checks are necessary. It is an offence under the Representation of the People Regulations 2001 to fail to comply with a request for information from an ERO or to provide false or inaccurate information to a registration officer. The electoral register is available for public inspection which enables checks to be made that only eligible electors are on the register. It is an offence to register fraudulently as another person and also for a person who has so registered subsequently to vote in an election.

Equality of Opportunity

Mrs. Curtis-Thomas: To ask the Parliamentary Secretary, Department for Constitutional Affairs whether under the Equality Bill it will be the responsibility of the Commission for Equality and Human Rights to promote equality of opportunity regardless of religion and sexual orientation. [215294]

Ms Hewitt: I have been asked to reply.

The Commission for Equality and Human Rights will have the function of promoting equality, diversity and human rights generally, and will do so particularly in relation to religion or belief and sexual orientation as well as age, disability, gender (including reassigned gender) and race.

Freedom of Information

Dr. Julian Lewis: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many requests under the Freedom of Information Act 2000 were received by Government departments between 1 and 12 January; and how many *(a)* had been answered, *(b)* had been refused and *(c)* were still outstanding 20 working days from the date of receipt. [217121]

Mr. Lammy: The Department for Constitutional Affairs will be publishing full monitoring statistics of central Government's operation of the Freedom of Information Act in spring 2005.

The monitoring regime is published at: http://www.foi.gov.uk/map/gus-v4-appf.pdf. It does not require Government departments to provide statistics broken down into specific time periods. Consequently, the information requested is not immediately available and could be provided only at disproportionate cost.

However, given the public interest in the volume and handling of Freedom of Information requests, the following figures are available for the Department for Constitutional Affairs.

The Department for Constitutional Affairs received 106 requests between 1 January and 12 January. Of these:

(a) 94 have been answered;

(b) 25 were refused either in full or in part;

(c) 12 were still outstanding 20 working days from the date of receipt (including nine cases extended in accordance with section 10(3) of the Act).

Judicial Studies Board

Vera Baird: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will make a statement on the training programme of the Judicial Studies Board (JSB) in relation to section 101 of the Criminal Justice Act 2003; how many judges were trained by *(a)* 15 January and *(b)* 15 February; and how many judges he anticipates will have been trained by 15 March or the conclusion of the JSB training programme, whichever is the later. [216791]

Mr. Lammy: The Judicial Studies Board (JSB) has developed a training package to support the implementation of the Criminal Justice Reforms, which include the Criminal Justice Act 2003, the Courts Act 2003 and the Sexual Offences Act 2003. The core of the programme is a series of two-day residential seminars held during the period January to March 2005 to which all judges exercising the criminal jurisdiction have been invited. The training package also includes seminar and distance learning materials in hard copy and electronic format. Section 101 of the Criminal Justice Act 2003 forms a significant element of the seminars and training materials. All criminal judges were issued with written materials on the provisions of Section 101 before their implementation in December 2004, which are available on the JSB's website at www.jsboard.co.uk. Numbers of judges trained in the CJR programme are: *(a)* 268; *(b)* 1,146. It is anticipated that 2,212 judges will have been trained by the completion of the seminars on 23 March 2005.

Departmental Costs

Mr. George Osborne: To ask the Parliamentary Secretary, Department for Constitutional Affairs how much has been spent on *(a)* the provision of parking spaces for civil servants and *(b)* parking tickets and penalties incurred by civil servants in the Department and its predecessors in each year since 1997. [213837]

Mr. Lammy: The cost of parking spaces for civil servants is not readily available and could be provided only at disproportionate cost. Civil servants are personally responsible for meeting the cost of parking tickets and penalties and therefore, there is no cost to the Department.

Mr. George Osborne: To ask the Parliamentary Under-Secretary, Department for Constitutional Affairs how much has been spent on postage by the Department and its predecessors in each year since 1997. [215026]

Mr. Lammy: Total postage cost for the Department, which covers costs for the Court Service, the Public Guardianship Office and DCA Headquarters, was £7.7 million in 1998–99, £7.2 million in 1999–2000, £7.6 million in 2000–01, £5.8 million in 2001–02, £7.6 million in 2002–03, £7.3 million in 2003–04 and £6.0 million in 2004–05 (to 31 December).

These figures cover cost of distribution, postage, franking machines, IDX and DX. The Department has a general policy where all post is sent out second class unless it is stated otherwise.

Information on 1997–98 is not readily available.

Mr. George Osborne: To ask the Parliamentary Under-Secretary, Department for Constitutional Affairs how much has been spent on *(a)* entertainment lunches involving civil servants and guests and *(b)* working lunches, in each year since 1997. [215043]

Mr. Lammy: It is not possible to list the entertainment costs spent by the Department broken down by *(a)* entertainment lunches involving civil servants and guests and *(b)* working lunches, in each year since 1997 without incurring disproportionate costs.

However, for overall expenditure on entertainment for the Department, I refer the hon. Gentleman to my previous answer on 10 January 2005, *Official Report*, column 118W.

Prince of Wales

Norman Baker: To ask the Parliamentary Secretary, Department for Constitutional Affairs whether the Privy Council was consulted on the date for the proposed marriage between His Royal Highness the Prince of Wales and Mrs. Camilla Parker Bowles; and if he will make a statement. [217192]

Mr. Leslie: I refer the hon. Member to the reply given by my right hon. Friend the Prime Minister today.

Rape Trials

Vera Baird: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will take steps to stop rape trials at Crown courts from being listed as floating trials. [215689]

Mr. Lammy: Departmental records show that during 2004 four cases were listed as floaters, but this should be placed in the context of 1,039 cases listed for trial where there was at least one count of rape.

Court Service policy is that rape cases are listed as fixtures and not as floating trials because of their sensitivity. However, courts' listing practices are a matter for local judicial discretion.

Staff Surveys

Mr. George Osborne: To ask the Parliamentary Secretary, Department for Constitutional Affairs (1) how much was paid to consultants carrying out staff surveys in the Department in each year since 1997; [213659]

(2) what the cost of staff surveys in the Department and its predecessors was in each year since 1997. [213680]

Mr. Lammy: My Department undertakes staff surveys to cover key issues relating to staff satisfaction. Through regular surveying (usually annually) the survey acts as a temperature check for the organisation with a combination of demographic and benchmark questions. This enables my Department to make comparisons between groups internally as well as with other similar organisations and to monitor progress. Staff surveys are usually carried out by external consultants. The costs of these surveys are given as follows.

	Cost (£)	*Surveys*
1997[1]	17,649	Court Service
1998[1]	24,612	Court Service
1999	43,270	Court Service and LCD
2000	82,063	Court Service and LCD
2001[1]	71,090	Court Service
2002	55,923	Court Service and LCD
2003	60,765	DCA combined survey

[1] Surveys not conducted by LCD.

HEALTH

ATMs

Mr. Fallon: To ask the Secretary of State for Health whether NHS trusts are free to negotiate contracts exclusively for the installation of ATMs for which there is a charge in hospitals. [217403]

Mr. Hutton: National health service trusts are free to enter into contracts for the installation of ATMs on their premises. Whether users of ATMs are charged for doing so will depend on the policy of the financial institution providing the ATM.

Better Healthcare Consultation

Mr. Edward Davey: To ask the Secretary of State for Health what guidance he gave to the Merton, Sutton and Mid-Surrey NHS Trust during the recent consultation Better Healthcare Closer to Home, with particular reference to *(a)* publicising the consultation within the catchment area and *(b)* definition of the catchment area; and what guidance is available for NHS trusts performing similar consultations on each aspect area. [215787]

Dr. Ladyman: The Department has issued general guidance to the national health service on changes to services to support Sections 7 and 11 of the Health and Social Care Act 2001.

Overview and Scrutiny of Health—guidance to support consultation with overview and scrutiny committees was issued in May 2003.

Strengthening Accountability—policy and practice guidance on public consultation and involvement was issued in February 2003.

Keeping the NHS local: a new direction of travel—guidance on the principles and approach which should be applied to all proposed service change was issued in February 2003.

Botox

Mr. Hancock: To ask the Secretary of State for Health how much botox is manufactured in the UK by *(a)* Ipsen (Dysport) and *(b)* Allergan (botox). [216115]

Ms Rosie Winterton: The Medicines and Healthcare products Regulatory Agency does not collect information about the amounts of medicinal products manufactured in the United Kingdom.

Chiropodists/Podiatrists

Miss Begg: To ask the Secretary of State for Health if he will list the organisations representing chiropody and podiatry practitioners who responded to his Department's consultation on the establishment of the Health Professional Council; and which organisations *(a)* supported and *(b)* opposed the establishment of the Council. [214056]

Mr. Hutton: The consultation exercise did not seek respondents' views on whether or not they supported the establishment of a new Council, but sought their views on the structure, composition, functions and operations of the proposed Council.

The following organisations representing chiropody and podiatry were consulted:

The Association of Chiropodists and Podiatrists.

The British Chiropody and Podiatry Association.

Heads of Chiropody/Podiatry Service Group for Wales.

The Institute for Chiropodists and Podiatrists.

Podiatrists Group in Scotland.

Scottish Chiropodists Association.

The SMAE Institute.

The Society of Chiropodists and Podiatrists.

Waiting Times (Worcestershire)

Mr. Michael Foster: To ask the Secretary of State for Health (1) how many consultant episodes were completed in Worcestershire in each year since 1997; and if he will make a statement; [213458]

(2) what the *(a)* maximum and *(b)* average waiting times were for in-patient treatment in Worcestershire in each year since 1997; and if he will make a statement; [213478]

(3) how many people waited for in-patient treatment for more than 18 months in Worcestershire in each year since 1997; and if he will make a statement. [213480]

Dr. Ladyman: The table shows the number of finished consultant episodes, the average waiting time (both the mean and the median) and the number of patients who waited more than 18 months for each year since 1997–98, for Worcestershire Acute Hospitals National Health Service Trust and its predecessor organisations; Alexandra Healthcare NHS Trust, Worcestershire Royal Infirmary NHS Trust and Kidderminster Healthcare NHS Trust.

Maximum waiting time information is not available centrally.

Activity and waiting times for Worcestershire Acute Hospital NHS Trust 1997–98 to 2003–04

	Finished episodes	*Mean waiting time in days*	*Median waiting time in days*	*Finished admissions with more than 18 months waiting time*
1997–98	91,549	100.7	42	158
1998–99	93,133	125.7	57	404
1999–2000	94,279	112.3	56	439
2000–01	91,325	98.5	48	294
2001–02	88,468	107.3	56	240
2002–03	92,091	128.8	75	414
2003–04	97,612	131.1	82	377

Notes:

1. Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

2. A finished consultant episode (FCE) is defined as a period of admitted patient care under one consultant within one healthcare provider. Please note that the figures do not represent the number of patients, as a person may have more than one episode of care within the year.

3. A finished admission episode is the first period of in-patient care under one consultant within one healthcare provider. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.

4. Length of stay—duration of spell (LOS)—is calculated as the difference in days between the admission date and the discharge date, where both are given. LOS is based on hospital spells and only applies to ordinary admissions, i.e. day cases are excluded (unless otherwise stated). Information relating to LOS figures, including discharge method/destination, diagnoses and any operative procedures, is based only on the final episode of the spell.

5. Time waited statistics from hospital episode statistics (HES) are not the same as the published waiting list statistics. HES provides counts and time waited for all patients admitted to hospital within a given period whereas the published waiting list statistics count those waiting for treatment on a specific date and how long they have been on the waiting list. Also, HES calculates the time waited as the difference between the admission and decision to admit dates. Unlike published waiting list statistics, this is not adjusted for self-deferrals or periods of medical/social suspension.

HES, Department of Health.

Dentistry (Lancashire)

Mr. Hoyle: To ask the Secretary of State for Health how many NHS dentists are working in *(a)* Chorley and *(b)* Lancashire. [216240]

Ms Rosie Winterton: As of 31 December 2004, there were 79 general dental service (GDS) or personal dental service (PDS) dentists working in the Chorley and South Ribble Primary Care Trust area and 454 GDS or PDS dentists working in the county of Lancashire.

Source:
Department of Health.

Depression

Mr. Jim Cunningham: To ask the Secretary of State for Health what resources are available from the NHS for people suffering from depression. [216334]

Ms Rosie Winterton: The national service framework for mental health sets out how people suffering from depression should be able to access a full range of effective national health service treatment and care in and through primary care, and in specialised secondary services, including in-patient care, where appropriate.

Guidance published by the National Institute for Clinical Excellence further elaborates the services that may be needed for people suffering from chronic, treatment-resistant, recurrent, atypical, psychotic depression, and for those at significant risk.

Further information about the financial, service-related and workforce resources currently available nationally may be found in the "National Service Framework for Mental Health—Five Years On", published in December 2004. Information about the resources and services in any one locality may be obtained from the relevant primary care trust.

Diabetes

Mr. Hoyle: To ask the Secretary of State for Health how many people suffer from diabetes in *(a)* Lancashire and *(b)* Chorley and South Ribble primary care trust. [215512]

Miss Melanie Johnson: This information is not collected centrally.

Dr. Gibson: To ask the Secretary of State for Health what his most recent estimate is of the cost to the NHS in a year of treating *(a)* diabetes, *(b)* diabetes type 1 and *(c)* diabetes type 2. [217269]

Dr. Ladyman: The recent report by Wanless, "Securing good health for the whole population: Final report—February 2004" states that the total cost to the national health service of treating type one and type two diabetes is £1.3 billion per year. The specific costs relating to treatment of type one and type two are not available.

Digital Hearing Aids

Mr. Gill: To ask the Secretary of State for Health how many people in Leicester, South are on waiting lists for digital hearing aids. [216943]

Dr. Ladyman: This information is not collected centrally.

Dr. Chai Patel

Mr. Willis: To ask the Secretary of State for Health in what capacity Dr. Chai Patel advises his Department. [214849]

Dr. Ladyman *[holding answer 8 February 2005]:* Dr. Chai Patel does not act as an advisor to the Department.

Eating Disorders

Ms Keeble: To ask the Secretary of State for Health what assessment he has made of the effect of outreach workers on the rates of readmission for in-patient care by people with serious eating disorders living in the community. [215958]

Ms Rosie Winterton: Assertive outreach has been shown to be an effective approach to the management of people with severe mental health problems with complex needs who have difficulty engaging with services and often require repeat admission to hospital. Using an assertive outreach approach can:

Improve engagement.

Reduce hospital admissions.

Reduce length of stay when hospitalisation is required.

Increase stability in the lives of service users and their carers/family.

Improve social functioning.

Be cost effective.

Assertive outreach teams work with people with severe and persistent mental disorders, which may include serious eating disorders. However, the Department does not collect diagnostic information centrally about case loads of such teams.

The evidence base for assertive outreach was set out in the "Mental Health Policy Implementation Guide" (2001).

Ms Keeble: To ask the Secretary of State for Health what guidance his Department provides to primary care trusts on commissioning primary care services for people with serious eating disorders. [215959]

Ms Rosie Winterton: Tertiary eating disorder services are part of the national specialised services definition set (NSSDS), which provides guidance to commissioners on securing effective collective planning arrangements that take into account the needs of a planning population considerably larger than that of a single primary care trust. A group led by the national director for mental health is currently reviewing the NSSDS, with a view to publishing updated guidance later this year.

Local health communities should design the provision of their services for the treatment and management of anorexia nervosa, bulimia nervosa and related eating disorders in light of the clinical guidelines published by the National Institute for Clinical Excellence in 2004.

Elective Surgery

Mr. Lansley: To ask the Secretary of State for Health what research he has commissioned into the information on which patients would want to base their choices for elective surgery; and what steps he is taking

to provide this information *(a)* through primary care trusts, *(b)* through strategic health authorities and *(c)* centrally. [210826]

Mr. Hutton: The Department has commissioned research through MORI and Dr. Foster and consulted with patients and clinicians through a number of workshops to identify the information that patients would want to make a choice of hospital. We have also drawn on a number of independent studies including those looking at the information and support needs of hard-to-reach groups.

We know from this body of research that patients require information on four key areas: waiting times, location and convenience factors, patient experience and clinical quality. The Department provides comparative information for national health service providers in these four key areas on its website at http://www.dh.gov.uk/PolicyAndGuidance/PatientChoice/Choice/ChoiceArticle/fs/en?CONTENT_ID=4084336&chk=j6/TOq

It has also asked primary care trusts to supplement this with local information on providers to further support patients.

EU Committees

Angus Robertson: To ask the Secretary of State for Health how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Committee for the implementation of the Community action programme on pollution-related diseases in the framework of the action plan for public health met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [214772]

Mr. Hutton: The committee for the implementation of the Community action programme on pollution-related diseases did not meet during the Italian, Irish or Dutch presidencies.

Angus Robertson: To ask the Secretary of State for Health how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Committee for the implementation of the Community action programme on health promotion information, education and training met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [214773]

Ms Rosie Winterton: The Community action programme on health promotion, information, education and training ran from 1996 to 2002. The last meeting of the programme committee was held on 7 February 2002 in Luxembourg, prior to the commencement of the Italian, Irish and Dutch European Union presidencies, which fell within the period from July 2003 to December 2004.

Angus Robertson: To ask the Secretary of State for Health how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Committee for the implementation of the Community action programme on the prevention of drug dependence in the framework of the action plan for public health met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [215446]

Miss Melanie Johnson: None. The purpose of the committee for the implementation of the community action programme on the prevention of drug dependence was to assist the European Commission in implementing the action programme. The committee's work had been completed by the time the Italian presidency began.

General Practitioners

Mr. Flook: To ask the Secretary of State for Health what the average proportion of patients to general practitioner is in each primary care trust in *(a)* Somerset, *(b)* Devon, *(c)* Dorset and *(d)* North Somerset. [214616]

Ms Rosie Winterton: The average number of patients per general practitioner for each primary care trust (PCT) in Somerset, Devon, Dorset and North Somerset is shown in the table.

Average list size of unrestricted principals and equivalents (UPEs)[1] for specified PCTs

Number (headcount)

	PCT	UPEs	Patients of UPEs	Average list size
5CE	Bournemouth	106	170,436	1,608
5 FT	East Devon	78	115,844	1,485
5FR	Exeter	85	131,297	1,545
5FX	Mendip	61	110,276	1,808
5FV	Mid Devon	75	105,718	1,410
5FQ	North Devon	113	156,543	1,385
5CD	North Dorset	66	91,061	1,380
5F1	Plymouth	159	260,369	1,638
5KV	Poole	109	172,143	1,579
5FW	Somerset Coast	92	143,437	1,559
5FN	South and East Dorset	105	152,625	1,454
5CV	South Hams and West Devon	72	104,468	1,451
5K1	South Somerset	99	150,087	1,516
5FP	South West Dorset	97	140,690	1,450
5K2	Taunton Deane	74	106,809	1,443
5FY	Teignbridge	68	108,439	1,595
5CW	Torbay	89	142,209	1,598

[1] UPEs include general medical service unrestricted principals, personal medical service contracted general practitioners and personal medical service salaried general practitioners. Patient data has been revised from previously published figures.

Note:

Data as at 30 September 2003.

Source:

Department of Health general and personal medical services statistics.

Mr. Flook: To ask the Secretary of State for Health how many general practitioners there are in each primary care trust in *(a)* Somerset, *(b)* Devon, *(c)* Dorset and *(d)* North Somerset. [214617]

Ms Rosie Winterton: The number of general practitioners in these areas are shown in the table.

All practitioners (excluding retainers, registrars and locums)[1] for specified organisations as at 30 September 2003

		Numbers (headcount)
5CE	Bournemouth PCT	107
5 FT	East Devon PCT	79
5FR	Exeter PCT	86
5FX	Mendip PCT	75
5FV	Mid Devon PCT	77
5FQ	North Devon PCT	114
5CD	North Dorset PCT	69
5KV	Poole PCT	109
5FW	Somerset Coast PCT	102
5FN	South and East Dorset PCT	107
5CV	South Hams and West Devon PCT	72
5K1	South Somerset PCT	103
5FP	South West Dorset PCT	97
5K2	Taunton Deane PCT	75

[1] All practitioners (excluding retainers, registrars and locums) includes general medical service (GMS) unrestricted principals, personal medical service (PMS) contracted general practitioners, PMS salaried GPs, restricted principals, assistants, salaried doctors, PMS other, flexible career scheme GPs and GP returners.

Department of Health GMS and PMS statistics.

Health Expenditure (Leicester, South)

Mr. Gill: To ask the Secretary of State for Health what the health expenditure per head of population in Leicester, South constituency has been in each year since 1997. [215733]

Dr. Ladyman: It is not possible to provide expenditure figures for the Leicester, South constituency, as this does not correspond to any specific health authority (HA) area. The information shown in the table is from the relevant HA areas from 1996–97 to 2003–04, which is the latest year for which figures are available.

Expenditure per weighted head of population in the relevant HA areas

£ per head

	Leicestershire HA area	Leicestershire, Northamptonshire and Rutland Strategic Health Authority area
1996–97	635.71	n/a
1997–98	617.54	n/a
1998–99	654.02	n/a
1999–2000	762.80	n/a
2000–01	779.71	n/a
2001–02	821.16	n/a
2002–03	n/a	951.51
2003–04	n/a	1,082.64

Notes:

1. Expenditure is taken from audited health authority summarisation forms and primary care trust summarisation schedules, which are prepared on a resource basis and therefore differ from cash allocations in the year. The expenditure is the total expenditure by the relevant HAs, and the commissioner costs of the primary care trusts (PCTs). Figures are given in cash terms.

2. Allocations per weighted head of population provide a much more reliable measure to identify differences between funding of HAs and PCTs.

3. Figures for 1996–97 to 2001–02 have been prepared using gross expenditure figures. This is to ensure consistency between years. Figures based on strategic health authority (SHA) areas have been adjusted to eliminate expenditure, which would be double counted where an authority acts as a lead in commissioning healthcare or other services.

4. In many HAs, there are factors, which distort the expenditure. These include:

the health authority acting in a lead capacity to commission healthcare or fund training on behalf of other health bodies; and asset revaluations in national health service trusts being funded through health authorities or primary care trusts.

5. The majority of general dental services expenditure is not included in the individual health authority accounts or primary care trust summarisation schedules and is separately accounted for by the Dental Practice Board. An element of pharmaceutical services expenditure is accounted for by the Prescription Pricing Authority and not by health authorities or primary care trusts. Total expenditure on these items by the Dental Practice Board and the Prescription Pricing Authority cannot be allocated to individual health bodies. For these reasons, expenditure per head cannot be compared reliably between health authorities or between different years.

6. Expenditure on general dental services and pharmaceutical services accounted for by the Dental Practice Board and Prescription Pricing Authority, respectively, are excluded. This expenditure cannot be included within the figures for the individual health bodies as they are not included in commissioner accounts.

Weighted population figures 1996–97 to 2003–04.

Health Funding (Chorley)

Mr. Hoyle: To ask the Secretary of State for Health if he will adjust the funding allocations to Chorley to take account of the increased number of residents. [216826]

Mr. Hutton: Revenue allocations made to primary care trusts for 2003–04 to 2005–06 were announced on 11 December 2002. These allocations were based on the best available populations data. There are no plans to revisit these allocations.

Revenue allocations for 2006–07 and 2007–08 were announced on 9 February 2005. These allocations are based on population projections, which include an adjustment for expected increases in populations.

Health Promotion

John McDonnell: To ask the Secretary of State for Health what measures have been put in place by the Government to tackle *(a)* cardiovascular disease and *(b)* diabetes in the South Asian population in England. [213895]

Ms Rosie Winterton: Both the national service framework (NSF) for coronary heart disease (CHD) and the national service framework for diabetes have set out modern standards and service models for the national health service for the prevention and treatment of these conditions. Both frameworks highlight the need to pay close attention to the needs of groups which are particularly vulnerable to CHD and diabetes, including South Asians.

To support this work, the Department produced a best practice guide for providing CHD services to South Asians last year. The guide includes a chapter on diabetes, which describes the NSF and provides some case studies of good practice. The guide aims to support service providers, including strategic health authorities

(SHAs), primary care trusts (PCTs), hospitals and other organisations working with South Asian communities to deliver heart disease services to South Asian people.

The toolkit is entitled, Heart Disease and South Asians, and was published by the South Asian Health Foundation in conjunction with the Department and the British Heart Foundation. A copy has been placed in the Library.

In addition, the United Kingdom National Screening Committee (NSC) has been asked to advise the Department by the end of 2005 on policy for screening for Type 2 diabetes. The NSC will advise on whether general population screening for diabetes is necessary, or alternatively that screening should be offered to specific sub-groups of the population who are at high risk for diabetes, such as some ethnic minority groups.

LIFT Scheme

Mr. Flook: To ask the Secretary of State for Health (1) when the Local Improvement Finance Trust (LIFT) Scheme to fund general practitioners' surgeries was announced; [216469]

(2) when the Local Improvement Finance Trust (LIFT) Scheme came into operation. [216470]

Mr. Hutton: We announced our intention to set up the National Health Service Local Improvement Finance Trust (LIFT) programme in the NHS Plan, published in July 2000, and explained in detail how LIFT would operate in the NHS LIFT prospectus issued in July 2001. The first wave of LIFT projects was given the green light in November 2001 to proceed to procurement. The first LIFT building was opened to patients on 14 September 2004 at Manor Park in East London.

Mental Health

Mr. Hoyle: To ask the Secretary of State for Health how many people he estimates are suffering from depression in Lancashire. [215511]

Miss Melanie Johnson: This information is not collected centrally.

Mixed-sex Wards

Mr. Hammond: To ask the Secretary of State for Health how many *(a)* wards, *(b)* medical assessment units and *(c)* surgical assessment units in NHS hospitals in England are operated on a mixed-sex basis. [216521]

Ms Rosie Winterton: The information is not available in the format requested.

The provision of single-sex accommodation is measured as compliance with three objectives we have set, requiring national health service trusts to provide single-sex sleeping areas, separate bathroom and toilet facilities for men and women, and where appropriate, safe facilities for the mentally ill.

Compliance is measured annually at trust level, and information at ward level is therefore not available. Nationally, 97 per cent., of NHS trusts are fully compliant with our standards.

We do not collect information on compliance in specialised areas of a hospital such as medical or surgical assessment units, where the need to provide urgent treatment may take precedence over the strict separation of men and women. No area of a hospital is exempt from the need to protect the privacy and dignity of patients, but no hospital will turn a patient away because a bed is not available in an area appropriate to that patient's gender.

Departmental Costs

Mr. George Osborne: To ask the Secretary of State for Health what the cost of staff mobile phone bills was in each year since 1997. [214891]

Ms Rosie Winterton: The cost of Departmental mobile phone bills for each financial year since 2001–02 is shown in the table. Figures for the years 1997–98 to 2000–01 are not available.

Financial year	*Costs (£)*
2001–02	270,000
2002–03	280,000
2003–04	304,000
2004–05	301,000

Healthy Living

Mr. Dhanda: To ask the Secretary of State for Health what discussions he has had with the Deputy Prime Minister about future funding for healthy living centres and healthy lifestyles workers. [213077]

Miss Melanie Johnson: I have had no discussions with my right hon. Friend the Deputy Prime Minister about future funding for healthy living centres or healthy lifestyles workers.

Learning Disabilities

Ann Winterton: To ask the Secretary of State for Health how many village and intentional communities have been established for people with learning disabilities since the publication of his Department's White Paper, "Valuing People", (2001) and its statutory guidance. [216910]

Dr. Ladyman: This information is not held centrally.

MRSA

Mr. Rosindell: To ask the Secretary of State for Health what the infection rates of MRSA have been by age groups in *(a)* the London borough of Havering, *(b)* Greater London and *(c)* the United Kingdom for the past five years. [209439]

Miss Melanie Johnson: The Health Protection Agency's voluntary reporting system is the only national dataset providing information on methicillin resistant Staphylococcus aureus bloodstream infections by age.

Information is not available by London borough. Available data for the London region and England, Wales and Northern Ireland is shown in the following tables.

Table 1: Rates of MRSA bloodstream infections by age group: London region, 1999 to 2003 (number of cases per 100,000 population)[1]

Age group	1999	2000	2001	2002	2003
Up to 1	13.40	15.56	10.07	11.70	22.34
1 to 4	0.50	1.02	—	2.11	1.06
5 to 9	0.84	0.85	0.87	—	0.44
10 to 14	0.45	1.35	0.90	0.45	—
15 to 44	2.93	3.64	3.27	3.39	4.67
45 to 64	13.87	20.15	17.91	19.41	25.93
65 to 74	52.71	55.40	56.62	67.12	67.32
75 plus	108.89	123.55	124.45	132.27	139.09
Overall rate	13.34	15.64	16.35	18.72	19.24

Source:
[1] Health Protection Agency.

Table 2: Rates of MRSA bloodstream infections by age group: England, Wales and Northern Ireland, 1999 to 2003 (number of cases per 100,000 population)[1]

Age group	1999	2000	2001	2002	2003
Up to 1	5.87	5.89	6.88	6.73	10.52
1 to 4	0.64	0.64	0.73	0.95	0.76
5 to 9	0.25	0.14	0.15	0.15	0.21
10 to 14	0.09	0.42	0.17	0.22	0.11
15 to 44	1.50	1.78	2.38	2.44	2.55
45 to 64	5.82	7.94	8.68	9.08	10.21
65 to 74	18.99	23.89	28.15	28.00	29.21
75 plus	32.31	41.50	52.28	56.01	63.48
Overall rate	6.24	7.99	9.68	10.20	11.10

Source:
[1] Health Protection Agency.

Mrs. Spelman: To ask the Secretary of State for Health how many MRSA cases there were in each Government Office region in each year since 1997. [211948]

Miss Melanie Johnson: Regional data for the time period requested are only available from the voluntary reporting scheme for methicillin resistant Staphylococcus aureus (MRSA) bloodstream infections, run by the Health Protection Agency. The data is shown in the following table.

MRSA bloodstream infections reported through voluntary reporting system in England

Region	1997	1998	1999	2000	2001	2002	2003
East Midlands	131	135	208	316	451	433	390
East of England	286	364	442	495	632	619	627
London	439	407	451	535	569	680	702
North East	43	138	143	152	181	235	337
North West	15	294	367	365	465	472	501
South East	182	390	408	568	738	771	812
South West	353	191	300	374	481	540	593
West Midlands	219	395	498	763	819	771	868
Yorkshire and Humber	344	206	187	327	396	494	655

Source:
Health Protection Agency.

Orthopaedic Surgery (Ashford Hospital)

Mr. Wilshire: To ask the Secretary of State for Health if he will make a statement on the delay to his plans to privatise routine orthopaedic surgery at Ashford (Middlesex) hospital; [215139]

Mr. Hammond: To ask the Secretary of State for Health if he will make a statement on progress with the proposed independent diagnostic and treatment centre to be established at Ashford hospital. [216527]

Mr. Hutton: Detailed negotiations with private sector provider Capio to create an integrated service orthopaedic treatment centre at Ashford (Middlesex) hospital are ongoing. They were delayed for a time whilst detailed costings for the proposed scheme were developed and agreed. This work was completed at the end of January and a way forward should be agreed by the end of February.

Paediatric and Congenital Services Report

Mr. Best: To ask the Secretary of State for Health (1) if he will make a statement on the recommendations of the paediatric and congenital services report; [214907]

(2) when he plans to implement the recommendations of the paediatric and congenital services report. [214908]

Dr. Ladyman: I understand the questions relate to the report of the paediatric and congenital cardiac services review group, which considered health care services and treatment for children with congenital heart disease in the light of the Bristol Royal Infirmary Inquiry. The group reported that all paediatric cardiac centres were providing high standards of care for children and made a number of recommendations to preserve these standards. This report and the Government's response was published in December 2003 and a copy is available in the Library.

The Government accepted and commended these recommendations to national health service primary care trusts, strategic health authorities and the Healthcare Commission, apart from one recommendation, the effect of which would have been to immediately close centres providing a high level of service, but which were carrying out less than a minimum of 300 operations per year. There was no evidence within the report to support this measure, nor has there been any since. Responsibility for commissioning national clinical audit of paediatric cardiac surgery and congenital heart disease transferred to the Healthcare Commission, previously the Commission Healthcare Audit and Inspection, in April 2003.

Payment by Results

Mr. Hammond: To ask the Secretary of State for Health what his estimate is for the commencement date of payment by results in NHS acute hospitals. [216528]

Mr. Hutton: National health service trusts began to use the national tariff in a limited way on 1 April 2003. There is a gradual implementation path, with more services being brought within the scope of the tariff on 1 April 2005, and which will see approximately 90 per cent. of all hospital activity being commissioned using the tariff by 2008–09.

Primary Care Trusts

Sandra Gidley: To ask the Secretary of State for Health how many reorganisations in the geographical composition of primary care trusts (PCT) there have been since their establishment; and how many PCTs are operating with a chief executive overseeing a cluster of PCTs. [209655]

Mr. Hutton: Since their establishment, 124 primary care trusts (PCTs) have amended the statutory instruments that set out their geographical composition. However, the majority of these changes were not to reflect substantial changes in population served, but merely to identify a district by a more appropriate name or to take account of minor changes in electoral ward boundaries.

The Department does not collect information on the number of PCTs who share a chief executive. Such local management arrangements are at the discretion of strategic health authorities and PCTs.

Respiratory Syncytial Virus

John Mann: To ask the Secretary of State for Health (1) if he will allocate more funding to the NHS to allow preventative treatment for respiratory syncytial virus in premature babies; [217119]

(2) how many premature babies contracted respiratory syncytial virus in hospital in *(a)* 2001, *(b)* 2002 and *(c)* 2003. [217132]

Dr. Ladyman: My right hon. Friend the Secretary of State for Health recently announced an allocation of £135 billion to national health service primary care trusts for the next two financial years. Among other objectives, this will assist primary care trusts to invest more funding in preventative treatments including appropriate prophylactic treatment for respiratory syncytial virus (RSV).

Infants born preterm are at especially high risk of the consequences of RSV because they may have lungs that were damaged as a result of their prematurity. For that reason, they feature high on the list of children who should be considered for prophylactic therapy.

The information requested on numbers of premature babies who contracted RSV in hospital is not collected centrally.

Sane

Miss McIntosh: To ask the Secretary of State for Health what budget was allocated to the mental health charity Sane for *(a)* 2003–04 and *(b)* 2004–05; and what the allocation will be in (i) 2005–06 and (ii) 2006–07. [216432]

Ms Rosie Winterton: The Department has a two-year contract with Saneline for the financial years 2003–04 and 2004–05. £1 million has been paid in each of these financial years.

No specific funding has been allocated to Saneline for 2005–06 and 2006–07.

The contract ends in March 2005. Saneline, like other voluntary and community sector organisations in health and social care, can apply for funding through the Department's section 64 scheme, mental health helplines investment framework and any other Government funding streams.

Sexual Assault Referral Centres

Vera Baird: To ask the Secretary of State for Health (1) what plans he has for primary care trusts to fund the capital and revenue costs of new sexual assault referral centres; [215561]

(2) what advice he has issued to primary care trusts on the funding of sexual assault referral centres in their trust areas. [215562]

Ms Rosie Winterton: The Department is working together with the Home Office to strengthen and extend the network of Sexual Assault Referral Centres (SARCs) in England and Wales. Money from the victims fund has been made available over this and next financial year to local police and health partnerships to assist with the set-up costs for SARCs. Applications must demonstrate long-term funding commitments from local police and primary care trusts (PCTs) to sustain the SARC.

In addition, guidance has recently been issued to Crime and Disorder Reduction Partnerships, which include PCTs, on tackling sexual violence. This recommends the development of SARCs, funded jointly by police and PCTs.

Further guidelines on the development of SARCs will be issued jointly by the Department and the Home Office later this year.

Silverlands

Mr. Hammond: To ask the Secretary of State for Health when he expects to complete the sale of the Silverlands mansion in Chertsey, Surrey. [216525]

Mr. Hutton: The property is currently advertised for sale on the open market and we hope that a sale will be concluded as soon as possible.

Smoking Cessation

David Taylor: To ask the Secretary of State for Health what assessment has been made of the use of psychotherapy in smoking cessation programmes. [215012]

Miss Melanie Johnson: A systematic review of the evidence on the effectiveness of smoking cessation approaches, including individual counselling, has been undertaken by the Cochrane review—Lancaster T., Stead, L. F., Individual behavioural counselling for smoking cessation. "The Cochrane Database of Systematic Reviews" 2002, (3), a copy of which is available in the Library.

David Taylor: To ask the Secretary of State for Health (1) whether officials from his Department have met representatives of the Allen Carr Easyway to Stop Smoking organisation; [214669]

(2) what recent representations he has received on smoking cessation techniques. [214706]

Miss Melanie Johnson: Officials from the Department have not met representatives of the "Allen Carr Easyway to Stop Smoking" organisation. However, officials have corresponded with the organisation.

The Department regularly receives approaches about smoking cessation techniques and recognises that there are a number of methods that may help smokers to quit. The national policy focus is on those methods with accumulated independent evidence of efficacy. The Department, following guidance from the National Institute for Clinical Excellence, endorsed the use on the national health service of nicotine replacement therapy and bupropion (Zyban) as effective stop smoking aids. Used in conjunction with trained support through the NHS stop smoking service, smokers are up to four times more likely to quit successfully than using willpower alone.

Staff Surveys

Mr. George Osborne: To ask the Secretary of State for Health (1) how much was paid to consultants carrying out staff surveys in the Department in each year since 1997; [213664]

(2) what the cost of staff surveys in the Department was in each year since 1997. [213672]

Ms Rosie Winterton: There have been four staff surveys in the Department since 1997. These were contracted out to consultants and the costs were as follows:

	Costs (£)
1999	39,500
2000	42,900
2001	35,800
2004	[1]13,000

[1] Sample survey.

Targets

Mr. George Osborne: To ask the Secretary of State for Health how many targets have been set in each year since 1997 by the Department; and, of these, which have been *(a)* met, *(b)* nearly met, *(c)* not met, *(d)* changed and *(e)* dropped. [215796]

Ms Rosie Winterton: Information on the Department's public service agreement (PSA) targets and progress against these is reported bi-annually in the departmental report and autumn performance report. These are publicly available and are published by the Stationery Office. Copies are currently available in the Library and can also be accessed via the Department's website at:

http://www.dh.gov.uk/assetRoot/04/08/12/85/04081285.pdf (departmental report 2004)

http://www.dh.gov.uk/assetRoot/04/09/83/48/04098348.pdf (autumn performance report 2004).

Vacancy Statistics

Mr. Burstow: To ask the Secretary of State for Health what the three-month vacancy *(a)* rates and *(b)* numbers were for (i) midwives, (ii) nurses, (iii) GPs, (iv) district nurses, (v) health visitors, (vi) physiotherapists, (vii) occupational therapists, (viii) speech and language therapists and (ix) consultants, by specialty for (A) England, (B) Strategic Health Authority, (C) each NHS trust and foundation trust and (D) each primary care trust in each year since 1997. [209548]

Mr. Hutton: The Department's annual vacancy survey, which collects medical and non-medical data, started in 1999.

Information on the three-month vacancy rate and number of qualified nursing, midwifery and health visiting staff, midwives, district nurses, health visitors, occupied therapists, physiotherapists and speech and language therapists by health authority from 1999 to 2001 and by strategic health authority (SHA) from 2002 to 2004 has been placed in the Library.

Information on the three-month vacancy rates and vacancy number for consultants in England broken down by speciality group and by SHA from 2002 to 2004 has also been placed in the Library. Prior to 2002, the medical and dental work force data was collected on a different basis with regard to specialty and therefore is not available in a comparable format.

The Department could provide information by national health service trust or by specialty only at a disproportionate cost.

The Department's annual general practitioner (GP) recruitment and retention vacancy survey started in 2000 and began collecting information at primary care trust (PCT) level for the first time in 2003. The survey takes place between 1 April and 31 March each year and is a count of all GP vacancies that have occurred during each year. It will include existing posts that doctors have left and also new posts created to increase the work force, even where they were filled very quickly.

Information on the number of GP vacancies in England broken down by SHA in each year from 2000 to 2004 and by PCT from 2003 to 2004 has been placed in the Library.

The estimated three-month GP vacancy rate for England from 2002 to 2004 has been placed in the Library. It is not possible to produce reliable estimates of the vacancy rate for GPs at SHA or PCT level. Estimated three-month vacancy rates are not available before 2002.

DEPUTY PRIME MINISTER

Affordable Housing

Mr. Rosindell: To ask the Deputy Prime Minister how and where he plans for houses to be constructed for a selling price of £60,000. [213652]

Keith Hill: Homes for All the Office of the Deputy Prime Minister's Five-Year Plan, launched on 24 January 2005, stated that a "Design for Manufacture" competition would invite organisations to bid for the right to construct one or more new developments on sites owned by English Partnerships.

The competition will provide up to 1,000 homes. A minimum of 30 per cent. of the housing dwellings within the competition will be built to a target cost of £60,000 and the remainder will be larger or smaller dwellings that should be built at an equivalent cost-efficiency.

English Partnerships are currently identifying the sites for the competition. These will be in the south-east of England. A formal prior information notice will shortly be placed in the Official Journal of the European Union, and advertised in the media.

Business Rates

Mr. Drew: To ask the Deputy Prime Minister what plans he has to change business rates for those who generate electricity using green methods. [217087]

Mr. Raynsford: There are no present plans to do so. Any specific rate relief scheme would require primary legislation and the costs and benefits would have to be fully appraised. Through the Renewables Obligation, the Government already provides a very significant level of support for renewable energy generation; this is expected to reach £1 billion per year by 2010. Government will also be providing approximately £500 million of support for renewables in the form of research and development and capital grants between 2002 and 2008. In addition, good quality Combined Heat and Power generators already have certain plant and machinery excluded from the rating valuation.

Council Tax

Mrs. Spelman: To ask the Deputy Prime Minister what the average council tax per dwelling was in each local authority in England in each year since 1996–97. [216260]

Mr. Raynsford: The figures requested have been made available in the Library of the House.

Mrs. Spelman: To ask the Deputy Prime Minister what the average parish council precept on council tax levied was in England in the most recent year for which figures are available. [216273]

Mr. Raynsford: Information on amounts of council tax precepted by individual parish and town councils is not held centrally and could be provided only at disproportionate cost.

The average precept for parish and town councils for 2004–05 is, however, estimated to be equivalent to about £40 per Band D property, if averaged across parished areas only, rather than across the whole of England.

Mr. Flook: To ask the Deputy Prime Minister whether each collecting local authority's council tax register is available for public inspection. [216439]

Mr. Raynsford: The valuation list prepared for each English billing authority area by the Valuation Office Agency sets out information about dwellings which may be subject to council tax. Each list is available for inspection at the Valuation Office Agency and at the principal office of the relevant local billing authority. It is also possible to view and search the valuation list for any billing authority on the Valuation Office Agency's website (www.voa.gov.uk)

Decent Homes Standard

Lynne Jones: To ask the Deputy Prime Minister what estimate he has made of the cost of increasing to SAP 65 the thermal requirements set out in the Decent Homes Standard for Social Housing in all buildings where it is practicable to do so. [216476]

Keith Hill: The Office of the Deputy Prime Minister estimates that it would cost £8.5 billion to bring up to SAP 65 all social housing for which that level of thermal efficiency is achievable by means of improvement works. To demolish and rebuild the social sector homes that could not otherwise be brought up to SAP 65 would cost an estimated additional £20 billion.

Departmental Costs

Mr. George Osborne: To ask the Deputy Prime Minister how much has been spent on official Ministerial *(a)* business cards, *(b)* headed paper and *(c)* compliment slips in each year since 1997. [214956]

Yvette Cooper: The Office of the Deputy Prime Minister was created on 29 May 2002.

In the financial year 2002–03 the amount spent was:

(a) £96 on ministerial business cards

(b) £3,753 on ministerial headed paper

(c) £962 on ministerial compliment slips.

In the financial year 2003–04 the amount spent was:

(a) £939 on ministerial business cards

(b) £750 on ministerial headed paper

(c) £505 on ministerial compliment slips.

In the financial year 2004–05 the amount spent was:

(a) £1,785 on ministerial business cards

(b) £1,406 on ministerial headed paper

(c) £743 on compliment slips.

The Office of the Deputy Prime Minister uses an electronic template for much of the ministerial correspondence as opposed to pre-printed headed paper.

Departmental Expenditure (London)

Mr. Rosindell: To ask the Deputy Prime Minister what his Office's expenditure has been on *(a)* Romford and the *(b)* London borough of Havering in each of the last seven years. [217147]

Mr. Raynsford: The Office of the Deputy Prime Minister was established following the Machinery of Government changes on 29 May 2002. The table sets out the amounts of formula grant and other grants and payments made to the London borough of Havering since 2002–03. The Office of the Deputy Prime Minister does not hold separate expenditure data on Romford.

In addition to the amounts in the table, the London Development Agency (LDA) has spent some £61.6 million in Havering since 2000. The LDA receives around 80 per cent. of its funding from the Office of the Deputy Prime Minister.

All figures (£ million)

	Formula grant[1]	*Other grants and payments*
2002–03	142.977	12.983
2003–04	154.419	15.755
2004–05	161.568	[2]4.610

[1] These figures may not be comparable year-on-year due to changes in the funding and function of local authorities.
[2] Excludes Housing Revenue Account Subsidy for which audited data for 2004–05 is not yet available.

E-Government

Mrs. Spelman: To ask the Deputy Prime Minister what plans the Government have to continue funding for e-government after the completion of IEG4. [216648]

Phil Hope: Following the Office of the Deputy Prime Minister's notification of a satisfactory IEG4 return, local authorities in England will be eligible to apply for further IEG capital grant of £150,000 towards achieving e-government covering the period 1 April 2005–31 March 2006. The equivalent IEG capital grant for National Park Authorities in 2005–06 is £100,000.

Empty Dwellings

Mrs. Spelman: To ask the Deputy Prime Minister how many empty homes there have been in each Government Office Region in England in each year since 1997. [216037]

Keith Hill: The available information on empty residential dwellings in England by Government Office region is tabled as follows:

Vacant dwelling stock at 1 April, 1997 to 2004

	1997	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*
North East	41,000	44,000	49,000	50,000	46,000	47,000	44,000	40,000
North West	125,000	126,000	127,000	138,000	141,000	136,000	135,000	128,000
Yorkshire and the Humber	81,000	86,000	100,000	100,000	100,000	94,000	88,000	85,000
East Midlands	67,000	67,000	67,000	68,000	63,000	58,000	59,000	59,000
West Midlands	73,000	78,000	77,000	80,000	79,000	77,000	73,000	76,000
East of England	81,000	73,000	70,000	70,000	63,000	64,000	63,000	60,000
London	122,000	114,000	114,000	105,000	105,000	101,000	101,000	100,000
South East	101,000	96,000	95,000	87,000	86,000	85,000	81,000	84,000
South West	78,000	70,000	67,000	64,000	68,000	71,000	76,000	63,000
England	767,000	753,000	767,000	761,000	751,000	732,000	720,000	694,000

The Office of the Deputy Prime Minister's Housing Strategy Statistical Appendix return and Housing Corporation's Regulatory and Statistical Return.

Exchange Flags

Mrs. Ellman: To ask the Deputy Prime Minister what progress has been made in reinvesting in Liverpool the sum repaid by the Walton Group in respect of Exchange Flags, as promised by his Department on 4 April 2003. [216461]

Yvette Cooper: English Partnerships (EP), the Government's national regeneration agency, is currently working on a number of schemes in Liverpool including one to significantly enhance the Lime Street Gateway. This will include new public space, improved accessibility and potentially a new landmark building. English Partnerships will seek to allocate the Exchange Buildings windfall to a scheme including environmental improvements, in line with the intention behind the original grant. One option is the proposed investment in the Lime Street scheme where EP is working with Liverpool Vision, Liverpool city council, Network Rail, Merseytravel and the private sector.

Detailed design work and financial analysis is ongoing with a view to obtaining the necessary approvals for this scheme by the summer.

Fire Authority (Lancashire)

Mr. Hoyle: To ask the Deputy Prime Minister if he will make provision for district council representation on the Fire Authority in Lancashire. [216212]

Mr. Raynsford: The Lancashire Combined Fire Authority comprises of 25 councillors representing Lancashire County and the Unitary Authorities of Blackburn with Darwen and Blackpool. There are no proposals to alter the composition of the Authority.

Fire Deaths (Leicester, South)

Mr. Gill: To ask the Deputy Prime Minister how many fire-related deaths in dwellings in Leicester, South there were in each year since 1997. [216937]

Phil Hope: This information is not published at constituency level. Fire statistics are compiled by the Office of the Deputy Prime Minister for each fire and rescue authority. In this case, Leicester, South's fires and casualties are reported as part of the Leicestershire total.

Figures supplied by the Leicestershire fire and rescue service are tabled as follows:

Fire related deaths in dwellings: Leicester, South constituency, 1997 to date

	Number
1997	1
1998	2
1999	2
2000	0
2001	0
2002	1
2003	1
2004	1
2005 (to date)	0

Fire Service

Mr. Hammond: To ask the Deputy Prime Minister what his Department's estimate is of the *(a)* capital and *(b)* start-up cost of the Firelink communications system. [216614]

Mr. Raynsford: This information is commercially sensitive. The Office of the Deputy Prime Minister is conducting an open competition under EU procurement procedures for the Firelink contract, with a view to letting a contract by mid 2005. The imperative is to run a fair and open competition in order to deliver best value for money for the public purse.

Mr. Hammond: To ask the Deputy Prime Minister what advice he has given to fire and rescue authorities regarding retention of skilled fire control staff in the period up to the introduction of regional fire control centres in 2007–08. [216618]

Mr. Raynsford: Fire and Rescue Authorities are the employers of control staff and are best placed to understand what is required to retain them. The Office of the Deputy Prime Minister has provided draft guidance to the Employers' Organisation, which they may wish to use. It has also indicated a willingness to fund sensible retention programmes devised by local Fire and Rescue Authorities taking into account the proximity of the location of existing controls to the RCC, the local employment market and other local conditions, and provided for the first element of those costs in 2005–06 under "new burdens" principles.

Mr. Hammond: To ask the Deputy Prime Minister what estimate his Department has made of the capital receipt that would be achieved from the sale of radio spectrum released by the fire and rescue services upon completion of the Firelink Project. [216624]

Mr. Raynsford: The sale of spectrum is a matter for Ofcom, the independent regulator and competition authority for the UK communications industries.

Mr. Rosindell: To ask the Deputy Prime Minister what recent studies his Department has commissioned on fire services. [217150]

Mr. Raynsford: The following sets out recent studies (commissioned in this financial year) that were commissioned by the Office of the Deputy Prime Minister on fire services (or their work):

A study to standardise terminology used by police and fire services.

A study to examine the potential for a low cost suppression system for the domestic environment.

A study to explore Fire and Rescue Service experiences of implementing key components of the Integrated Personal Development System (IPDS).

A study to establish and assess the range of interventions currently available at rehabilitating known or suspected arsonists, or aim to prevent a young child's interest in fire from developing into more serious fire-setting behaviour.

A study commissioned a specialist consultant to review existing materials relating to fire investigation standards/protocols, and to devise new standards for fire investigation applicable to all professionals who investigate fires (eg fire, forensic service, Ministry of Defence fire services etc.).

A survey of retained duty system personnel working to establish their main or primary employment and the extent to which their current employers support them in taking time off work to undertake retained duties.

A study to evaluate the work of the Community Fire Safety Innovation Fund in its first two years.

The Building Disaster Assessment Group commissioned three elements of work to further inform fire and rescue service operating procedures. These are *(a)* the development of computer programme to inform personnel of the pressures and flows available for dry rising fire mains in tall buildings, *(b)* an initial review of the performance of externally located systems for measuring core body temperature, and *(c)* formal agreement with the Australasian Fire Authorities Council on the joint development of a fire brigade intervention model.

A scoping study to define requirements for the development of decision making support tools for incidents involving hazardous materials.

A study to examine the effectiveness of casualty showering as a decontamination process for chemical, biological, radiological and nuclear (CBRN) incidents.

A joint study between the Association of Chief Police Officers (ACPO) and the Chief Fire Officers Association (CFOA) evaluation of personal protective equipment (PPE), including the FRS gas tight suit.

Mr. Rosindell: To ask the Deputy Prime Minister how many firefighters were *(a)* wounded and *(b)* killed on duty in (i) 2004 and (ii) each of the previous seven years. [217151]

Mr. Raynsford: The latest available information reported to the Office of the Deputy Prime Minister by fire and rescue services via the FDR1 return is in the following table:

Firefighter casualties incurred while fighting fires in England, 1997–2003

	Fatal casualties	Non fatal casualties[1]
1997	0	538
1998	0	509
1999	0	499
2000	0	428
2001	0	375
2002	1	336
2003[2]	0	361

[1] Excludes precautionary checks
[2] Provisional

Source:
Fire and Rescue Service returns to ODPM

From others sources; there were two firefighter fatalities reported in 2004. Full information on non fatal injuries to firefighters in 2004 is not available at present.

Miss McIntosh: To ask the Deputy Prime Minister what representations he has received on the impact his proposed regional reorganisation of the fire service will have on services in North Yorkshire; and if he will make a statement. [215953]

Mr. Raynsford: The North Yorkshire Fire and Rescue Service operates under the direction of a Fire and Rescue Authority made up of elected councillors from York and North Yorkshire. The Office of the Deputy Prime Minister has no plans to change these arrangements.

Fires (Romford)

Mr. Rosindell: To ask the Deputy Prime Minister if he will publish the statistics on recorded fires in Romford in each of the last five years. [217148]

Mr. Raynsford: This information is not held centrally. Fire statistics are compiled by the Office of the Deputy Prime Minister for each Fire and Rescue Authority. In this case, Romford's fires are reported as part of the London total.

The London Safety Plan (figures prepared by the London Fire and Emergency Planning Authority) lists the number of fires in Havering on an annual average based on a five year period (1999–2000 to 2003–04) as 1,585.

Government Building Projects

Mr. Rosindell: To ask the Deputy Prime Minister what Government-funded building projects are under construction in *(a)* Romford and *(b)* Essex. [217149]

Keith Hill: The information requested is not held centrally and could be provided only at disproportionate cost.

Homelessness

Tim Loughton: To ask the Deputy Prime Minister (1) how many homeless families with children were living in bed and breakfast accommodation on the latest date for which figures are available; [211564]

(2) what proportion of homeless people in bed and breakfast accommodation are families with children. [212258]

Yvette Cooper: Local authorities report their activities under homelessness legislation quarterly, and this includes the number of homeless households in temporary accommodation, either following acceptance by the local authority as homeless, or pending a decision an their application, on the last day of the quarter. Bed and breakfast style accommodation involving the shared use of bathroom and kitchen facilities is separately distinguished.

The following table shows the number of homeless households in B and B type accommodation as at 31 March in each of the past three years, how many contained dependent children and/or an expectant mother and how many of the households with children had been resident for more than six weeks in B and B. Also shown are the numbers on 30 September 2004, the latest quarter for which figures are available. The September figures were reported in the Statistical Release on statutory homelessness for the third quarter of 2004, published on 14 December; copies are available in the Library of the House, and on the Office of the Deputy Prime Minister's website.

Homeless households[1] in B and B type accommodation, England

		Of which: with dependent children[2]	
As at	*Total*	*Total*	*Resident for six weeks or more[3]*
31 March 2002	11,840	6,730	
31 March 2003	12,070	4,800	2,770
31 March 2004	7,170	830	30
30 September 2004	7,400	1,370	190

[1] Households in B and B type accommodation either pending a decision on their homelessness application or awaiting re-allocation of a settled home following acceptance.
[2] Includes households that contain an expectant mother.
[3] Data collected from December 2002.
Source:
ODPM P1E homelessness returns (quarterly)

Sarah Teather: To ask the Deputy Prime Minister how many homeless families there were in each Greater London borough in each of the last seven years.[214559]

Keith Hill: Local authorities report their activities under homelessness legislation quarterly. Information on the number of households accepted as eligible for assistance, unintentionally homeless and in priority need during the quarter and the number of these that contain dependent children, together with the number of homeless households in temporary accommodation as on the last day of the quarter and how many of these contain dependent children, as reported by the London boroughs for the past seven years, has been placed in the Library of the House.

After being accepted as homeless, a household will be placed in some form of accommodation. They may be placed in temporary accommodation, until a settled solution becomes available, or they may be given a settled solution straight away depending on the accommodation available to the local authority. As an alternative to temporary accommodation an authority may arrange for a household to remain in their current accommodation (homeless at home), until a settled solution becomes available.

Quarterly Statistical Releases on statutory homelessness published by the Office of the Deputy Prime Minister include information on acceptances, and households in temporary accommodation, at local authority level in an associated Supplementary Table. The latest Release of, 13 December, and previous editions are available both in the Library of the House and via the Office of the Deputy Prime Minister's website.

Mrs. Curtis-Thomas: To ask the Deputy Prime Minister (1) how many families with children were housed in bed and breakfast accommodation for more than six weeks in Sefton in each year since 1997; [214594]

(2) how many homeless families have been housed in bed and breakfast accommodation in Sefton in each year since 1997. [214688]

Yvette Cooper: Information reported by Sefton district council about the number of homeless households in bed and breakfast style accommodation as at 31 March of each year since 1997 is tabled as follows. The number of households containing dependent children or an expectant mother has been collected since March 2002, and the number of these resident in B&B for longer than six weeks has been collected since December 2002.

Households in Bed and Breakfast style temporary accommodation arranged by Sefton MBC under homelessness legislation, as at the end of March

	All households	*Of which: with dependent children*[2] *Total*	*Of which: resident longer than 6 weeks*
1997	0	0	0
1998	0	0	0
1999	0	0	0
2000	0	0	0
2001	0	0	0
2002	0	0	0
2003	0	0	0
2004	3	3	0

[1] Households in B&B accommodation either pending a decision on their homelessness application or awaiting re-allocation of a settled home following Acceptance.

[2] Households containing dependent children and/or an expectant mother.

ODPM P1E homelessness returns (quarterly).

Mrs. Curtis-Thomas: To ask the Deputy Prime Minister how many rough sleepers there were in Crosby in each year since 1997. [214687]

Keith Hill: The number of rough sleepers within each local authority in England have been collected by the Office of the Deputy Prime Minister since 1998. Figures for Sefton MBC, which includes Crosby, are tabled as follows:

Rough sleepers for Sefton MBC

	Number
1998	21
1999	21
2000	17
2001	5
2002	2
2003	0
2004	0

ODPM Housing Strategy Statistical Appendix (annual)

Housing

Simon Hughes: To ask the Deputy Prime Minister if he will ask the Housing Corporation to issue updated guidance on the use of ground 8, schedule 2 to the Housing Act 1988 following Lord Justice Dyson's concluding remarks in the case of North British Housing Association *v.* Snaith. [215716]

Keith Hill: The regulatory circular "Tenancy Management: Eligibility and Evictions" issued by the Housing Corporation in July 2004 contains clear guidance about the corporation's expectations of registered social landlords (RSLs) (more commonly known as housing associations) in dealing with eviction and in particular housing benefit. The guidance states

'Possession proceedings for rent arrears should not be started against a tenant who can demonstrate that they have (1) a reasonable expectation of eligibility for housing benefit; (2) provided the local authority with all the evidence required to process a housing benefit claim; (3) paid required personal contributions towards the charges. Associations should make every effort to establish effective ongoing liaison with housing benefit departments and to make direct contact with them before taking enforcement action. A certificate should be obtained, if possible, to confirm that there are no outstanding benefit enquires, according to Department of Work and Pensions good practice guidance'.

The Housing Corporation expects RSLs as a matter of course to make continued contact with local authority housing benefit departments before and during enforcement action. It is in an RSL's interest to collect the rent that is owed to it.

The Civil Justice Council is working with the Department of Constitutional Affairs to issue a pre-action protocol for possessions cases. If introduced, then it would require social landlords to have carried out all the actions contained within before a court will hear a possessions case. In addition the Office of the Deputy Prime Minister is leading on a cross-Whitehall group on possessions and evictions which includes the Housing Corporation. We are clear that possession should be a last resort and intend to issue good practice guidance later this year which will set out the steps we would expect landlords to take in order to avoid possession action wherever possible.

Mr. Hoyle: To ask the Deputy Prime Minister how many residential properties have been built in each Lancashire district in each of the last five years. [216406]

Keith Hill: The annual numbers of new build completions reported for each of the authorities in Lancashire since 1999–2000 are in the following table.

New build completions

Number	*1999–2000*	*2000–01*	*2001–02*	*2002–03*	*2003–04*
Blackburn and Darwen	312	524	400	407	347
Blackpool	149	227	521	206	141
Burnley	249	260	96	77	132
Chorley	467	412	404	464	385
Fylde	244	241	184	248	327
Hyndburn	212	178	143	164	169
Lancaster	335	284	172	459	500
Pendle	190	207	272	159	158
Preston	274	360	401	82	289
Ribble Valley	133	198	172	187	226
Rossendale	133	59	148	158	208

New build completions

Number	*1999–2000*	*2000–01*	*2001–02*	*2002–03*	*2003–04*
South Ribble	428	237	330	523	269
West Lancashire	330	340	274	411	256
Wyre	324	493	398	368	381

Source: Returns (P2) to the Office of the Deputy Prime Minister on building control completions

Mr. Gill: To ask the Deputy Prime Minister how many local authority-owned properties in Leicester, South do not meet the Government's decent homes standard; and what the estimated cost of bringing them up to this standard is. [215732]

Keith Hill: The information requested is submitted to the Office of the Deputy Prime Minister according to local authority districts rather than by parliamentary constituency. In their Business Plan Statistical Appendix Leicester reported that 11,350 local authority-owned properties did not meet the Government's decent homes standard at April 2004.

Leicester reported that it would cost £68 million to bring these dwellings up to the standard. This covers the cost to bring existing non-decent dwellings up to the decent homes standard, but does not cover work to prevent currently decent dwellings from falling into non-decency.

Mr. Gill: To ask the Deputy Prime Minister what percentage of Leicester, South Housing Association homes are fitted with *(a)* smoke alarms, *(b)* fire doors and *(c)* double glazing. [216385]

Keith Hill: The information requested is not held centrally, and could be provided only at disproportionate cost. Housing Associations are regulated by the Housing Corporation, which is a non-departmental public body which in turn is sponsored by the Office of the Deputy Prime Minister. The Housing Corporation does not keep the detailed information requested.

Mr. Hoyle: To ask the Deputy Prime Minister what help his Department gives to those people who need rented housing when the relevant council lists are very long and the relevant housing associations have closed lists. [216557]

Keith Hill: In England housing authorities are responsible for setting their own allocation policies and procedures. However, they must ensure that their allocation scheme is framed so as to give reasonable preference to certain categories of persons. The categories are set out in s167 (2) of the Housing Act 1996 and are designed to ensure that priority for the allocation of social housing is given to those in the greatest housing need.

The Government recognise, however, that in some areas of the country there is a great demand for social housing resulting in long waiting lists; to alleviate this we have secured funding in the Spending Review 2004 which will, along with efficiency improvements, produce 75,000 new social homes for rent by 2008.

"Homes for All" sets out the Government's agenda to increase choice and opportunity for tenants. It makes clear that the Government are keen to encourage the extension of choice based lettings to cover low cost home ownership options and properties for rent from private landlords, as well as social housing.

The Government believe that the private rented sector is an important resource in meeting housing need. "Homes for All" states that the Government will improve access to the private rented sector for households who might otherwise face homelessness, through schemes that provide rent deposits, guarantees or rent in advance, or which offer approved lettings with accredited private landlords.

"Homes for All" also outlines our plans to help 80,000 people get a foot on the property ladder, through our First Time Buyers Initiative and other low cost home ownership schemes.

Housing Standards

Mr. Kidney: To ask the Deputy Prime Minister if he will adopt the EcoHomes very good standard within his proposed sustainable building code. [216010]

Phil Hope: The Senior Steering Group overseeing the development of the Code for Sustainable Buildings will consider how best to build upon all relevant existing assessment methods, including EcoHomes and its "very good" standard.

Mr. Kidney: To ask the Deputy Prime Minister what target he has set for new Government-funded housing to meet the EcoHomes very good standard. [216011]

Phil Hope: The Office of the Deputy Prime Minister is committed to increasing the standard to which all publicly funded housing is built. As of April 2003 all new built homes funded by the Housing Corporation are required to achieve a British Research Establishment (BRE) EcoHomes rating of "Pass" as a minimum essential condition of grant and Registered Social Landlords are encouraged to aim for "Good". The Housing Corporation intends to increase the minimum requirement to a 'Good' rating from April 2005 with Registered Social Landlords Associations encouraged to aim for the higher 'Very Good' rating from the same date.

English Partnerships requires that all its developments must achieve a BREEAM (Building Research Establishment Environmental Assessment Method) rating of "Very Good" or better on their mainstream site disposals. This includes residential developments. The Millennium Communities programme, a specific initiative being taken forward by English Partnerships, is working towards the 'Excellent' target

Mr. Kidney: To ask the Deputy Prime Minister what environmental standards he intends to incorporate into the Thames Gateway development. [216012]

Keith Hill: In the Thames Gateway, as elsewhere, the Government are committed to the construction of sustainable homes that minimise the impact on climate change.

Building Regulations set minimum environmental standards for new buildings. The 2002 revision of Building Regulations sets performance standards that mean new dwellings will be around 25 per cent. more energy efficient than before. The Government are currently carrying out a further review of Part L of Building Regulations and new standards will come into effect by the end of 2005.

The Government are committed to raising the environmental standards to which publicly funded housing is built. All new homes funded by the Housing Corporation, including those in the Thames Gateway, will be required to achieve a BRE EcoHomes "Good" rating from April 2005.

The Government are developing a new Code for Sustainable Buildings to establish higher standards for energy and water efficiency, waste and use of materials than the minimum standards in Building Regulations. This will be taken forward in demonstration schemes in the Thames Gateway before being rolled out nationally.

Departmental Costs

Mr. George Osborne: To ask the Deputy Prime Minister how much has been spent on the production of in-house magazines in the Department and its predecessors in each year since 1997. [213646]

Yvette Cooper: The Office of the Deputy Prime Minister came into existence as a Government Department in May 2002.

The Office of the Deputy Prime Minister has spent the following on its in-house magazine since 2002:

	£
2002–03	29,710
2003–04	48,204
2004–05	37,002

The magazine aims to communicate key Office of the Deputy Prime Minister's news and policy issues to the Office of the Deputy Prime Minister's staff both centrally and in the Government Offices for the Regions. It includes a range of articles, from short news pieces detailing policy announcements and internal events, to more in depth articles highlighting and sharing good practice in delivery on the ground.

Mr. George Osborne: To ask the Deputy Prime Minister if he will list the *(a)* newspapers and *(b)* periodicals taken by his Office in each year since 1997; and how much the Office spent on each in each year. [207652]

Yvette Cooper: The Office of the Deputy Prime Minister was created on 29 May 2002. Separate expenditure figures for the Office of the Deputy Prime Minister while subsumed within the Department for Transport, Local Government and Regions and Cabinet Office are not available for previous years. The total expenditure by the Office of the Deputy Prime Minister (C) for the period from formation until 23 December 2004 was £429,000. to the nearest £1,000. This figure can be split between newspapers and periodicals only at disproportionate cost.

With effect from 1 November 2004, the Office of the Deputy Prime Minister's central publications acquisitions service ceased operation and responsibility for purchases was transferred to individual Divisions within the Office of the Deputy Prime Minister as part of its commitment to greater efficiency. Although expenditure information can still be obtained for the whole of the Office of the Deputy Prime Minister, information on titles purchased is only available centrally for those titles ordered or on active subscription as at 31 October 2004. The current list has been made available in the Library of the House. The list of titles includes those titles taken by the Department for Transport, to whom the central acquisitions services was also provided. Extracting listings for individual Departments can be done only at disproportionate cost.

Mr. George Osborne: To ask the Deputy Prime Minister how much his Office and its predecessors spent on *(a)* stationery and *(b)* office supplies in each year since 1997. [213855]

Yvette Cooper: The Office of the Deputy Prime Minister was formed in May 2002 and figures for previous years are unavailable. The spend shown does not include figures from the Government Offices. The available spend information is tabled as follows:

£

	Stationery	*Office supplies*
2002–03	1,438,559.68	275,434.26
2003–04	1,482,321.29	163,885.46
2004–05 (to date)	688,071.88	154,419.16

Key Worker Housing

Mrs. Spelman: To ask the Deputy Prime Minister whether his plans for developing homes for key workers on public sector land will include greenfield or green belt development; and if he will make a statement. [216649]

Keith Hill: Proposals for key worker homes will be subject to planning policies and procedures in the normal way. The Office of the Deputy Prime Minister's planning policies for housing set out in Planning Policy Guidance Note 3: "Housing" gives priority to reusing suitable brownfield land in preference to the development of greenfield. The Government does not rule out sustainable greenfield development if it is necessary to meet a justified housing need. Planning policies for the Green Belt set out in Planning Policy Guidance Note 2: "Green Belts", which include the general presumption against inappropriate development in the Green Belt, will also apply in any case where development on Green Belt land is proposed.

Much of the surplus public sector land that has been identified for affordable housing by the Government is brownfield.

Local Government

Mrs. Spelman: To ask the Deputy Prime Minister what recent estimate the Government has made of the cost of local government inspection to local government. [211974]

Mr. Raynsford: There are no agreed or reliable figures to calculate indirect costs of inspections to local government (e.g. staff time).

Mr. Flight: To ask the Deputy Prime Minister what representations he has received on the establishment and implementation of local authority call centres. [215256]

Phil Hope: The Office of the Deputy Prime Minister has not received any specific representations on this issue.

Mr. Flight: To ask the Deputy Prime Minister what the total cost of establishing and running local authority call centres has been in each year for which figures are available. [215257]

Phil Hope: The information requested is not held centrally and could be provided only at disproportionate cost.

Mr. Flight: To ask the Deputy Prime Minister (1) what measures his Department uses to assess the *(a)* cost-effectiveness and *(b)* efficiency of local authority call centres in terms of local service delivery; [215258]

(2) what the total Government investment into local authority call centres has been; and if he will make a statement; [215266]

(3) what assessment he has made of the effectiveness of local authority call centres on the improvement of local service delivery; and if he will make a statement; [215268]

(4) what assessment he has made of the effect of local authority call centres on local service delivery costs; and if he will make a statement. [215269]

Phil Hope: The Office of the Deputy Prime Minister has not made any specific investments in or appraisals of local authority call centres. Many individual local authorities will, however, have invested their own resources in developing call centres where these demonstrate an effective way of meeting local priorities. This development will often have been supplemented with funds provided by the Office of the Deputy Prime Minister to support their overall e-government development programme. Local authorities recognise the contribution effective initial contact can make to efficient service delivery.

Mr. Flight: To ask the Deputy Prime Minister how many directives his Department has issued to local authorities regarding local authority call centres in each year since 1997. [215259]

Phil Hope: The Office of the Deputy Prime Minister has not issued any specific directives regarding local authority call centres.

Mr. Flight: To ask the Deputy Prime Minister if he will make a statement on the funding arrangements for local authority call centres; and what estimate he has made of the impact of this funding on *(a)* local government budgets and *(b)* council tax. [215267]

Phil Hope: The Office of the Deputy Prime Minister does not make any specific funding available for local authority call centres.

Local Government Finance

Mr. Hancock: To ask the Deputy Prime Minister what level of balances his Department assesses as reasonable for each of the tiers of local authorities to retain in their budgets; and if he will make a statement. [216122]

Mr. Raynsford: It is for each local authority to decide for itself the level of balances it should hold in the light of the financial risks and circumstances affecting it. In doing so members should take account of the views of their chief finance officer, in accordance with section 25 of the Local Government Act 2003. It would not therefore be appropriate for central Government to specify reasonable levels of balances for tiers of local authorities.

Mr. Michael Foster: To ask the Deputy Prime Minister what the change in the per capita grant was for *(a)* Worcestershire and *(b)* Worcester City between (i) 1993–94 and 1997–98 and (ii) 1997–98 and 2004–05. [216576]

Mr. Raynsford: The per capita grant for Hereford and Worcester between 1993–94 and 1997–98 showed a decrease of 38 per head. Hereford & Worcester authority was abolished on 31 March 1998. The change in per capita grant for Worcestershire between 1998–99 and 2004–05 was an increase of £233 per head.

The per capita grant for Worcester City increased by £2 per head between 1993–94 and 1997–98 and between 1997–98 and 2004–05 increased by £21 per head.

Mr. Kidney: To ask the Deputy Prime Minister what population statistics he relied upon in setting the revenue support grant for Stafford borough council for 2005–06; and what representations he has received about the accuracy of those statistics. [216896]

Mr. Raynsford: The 2005–06 Revenue Support Grant was calculated using the 2003 mid-year population estimates produced by the Office for National Statistics (ONS). During the consultation period, representations were received from 17 local authorities plus the Association of London Government (ALG) commenting on the accuracy of the population estimates.

Mr. Reed: To ask the Deputy Prime Minister what the *(a)* cash and *(b)* percentage funding variance of Leicestershire county council from the county council (i) Standard Spending Assessment and (ii) Education Funding Assessment average was in each year between 1998 and 2004–05. [216930]

Mr. Raynsford: The information requested is tabled as follows:

Total standard spending assessment/total formula spending share

	Leicestershire	*Average shire county*	*Change from average*	*Percentage change from average*
1998–99	352.825	416.951	-64.126	-15.4
1999–2000	371.945	438.818	-66.873	-15.2
2000–01	390.321	461.008	-70.686	-15.3
2001–02	410.978	483.929	-72.951	-15.1
2002–03	410.854	491.364	-80.510	-16.4

Total standard spending assessment/total formula spending share

	Leicestershire	Average shire county	Change from average	Percentage change from average
2003–04	480.995	569.310	-88.315	-15.5
2004–05	489.279	587.804	-98.525	-16.8

Education standard spending assessment/education formula spending share

	Leicestershire	Average shire county	Change from average	Percentage change from average
1998–99	215.261	244.681	-29.420	-12.0
1999–2000	228.194	258.399	-30.205	-11.7
2000–01	241.044	272.584	-31.541	-11.6
2001–02	255.752	287.793	-32.041	-11.1
2002–03	247.670	285.698	-38.028	-13.3
2003–04	278.946	319.900	-40.954	-12.8
2004–05	294.246	337.564	-43.318	-12.8

Interpreting this information is difficult. It is complicated by the fact that shire counties differ considerably with respect to the number of people for which services are provided. For this reason amounts per head are often used to compare one authority against another. An equivalent table showing amounts per head is tabled as follows:

Total standard spending assessment per head/total formula spending share per head

	Leicestershire	Average shire county	Change from average	Percentage change from average
1998–99	590.71	627.09	-36.38	-5.8
1999–2000	620.05	655. 72	-35.68	-5.4
2000–01	651.92	685.34	-33.42	-4.9
2001–02	677.29	714.25	-36.95	-5.2
2002–03	672. 18	721.15	-48.97	-6.8
2003–04	788.16	842.01	-53.85	-6.4
2004–05	794.94	864.98	-70.04	-8.1

Education standard spending assessment per head/education formula spending share per head

	Leicestershire	Average shire county	Change from average	Percentage change from average
1998–99	360.40	368.00	-7.60	-2.1
1999–2000	380.41	386.12	-5.72	-1.5
2000–01	402.59	405.23	-2.63	-0.7
2001–02	421.48	424.76	-3.28	-0.8
2002–03	405.20	419.30	-14.10	-3.4
2003–04	457.08	473.13	-16.05	-3.4
2004–05	478.07	496.74	-18.67	-3.8

Mr. Fallon: To ask the Deputy Prime Minister what the total amount of *(a)* council tax raised by and *(b)* central Government grant paid to Sevenoaks district council was in (i) 1996–97 and (ii) 2003–04. [216034]

Mr. Raynsford: The information is as follows:

(a) Sevenoaks district council set a council tax requirement (excluding parish precepts) of £2.860 million for 1996–97 and £6.308 million for 2003–04.

(b) Sevenoaks district council received £6.860 million in revenue grants for 1996–97. The budgeted figure for 2003–04 was £6.740 million. These figures are as reported by the local authority and include special and specific grants inside Aggregate External Finance, revenue support grant and redistributed non-domestic rates.

Because of changes in local authority responsibilities in the intervening period, such comparisons are not statistically valid.

Mr. Gordon Prentice: To ask the Deputy Prime Minister what assessment he has made of the practicalities of introducing a local income tax whose rates could be varied by county, district and parish councils; and if he will make a statement. [215006]

Mr. Raynsford: Local income tax (LIT) was one of the options for the reform of local government funding in England considered by the Balance of Funding Review which reported in July 2004. Copies of the report are available in the Library of the House. Working papers of the review are available on the website of the Office of the Deputy Prime Minister.

In looking at LIT, the review found that there are a number of potentially serious risks and disadvantages that would need to be considered in detail, including the potential additional costs that the system could impose. A LIT could be potentially complex to administer and its effects on individuals or employers would also need to be examined with great care. The review concluded that council tax should be retained but reformed and that any further work on LIT should proceed on the basis that it is a supplement to, not a replacement for, council tax.

The Government agreed with the review's conclusion that council tax should be retained but reformed. It has appointed Sir Michael Lyons to undertake an independent inquiry that will consider, in the light of the report by Balance of Funding Review, the detailed case for changes to the present system of local government funding and make recommendations on any changes that are necessary and how to implement them. The inquiry will, among other things, conduct thorough analysis of options other than council tax for local authorities to raise supplementary revenue, including LIT, reform of non-domestic rates and other possible local taxes and charges, as well as the possible combination of such options. Sir Michael will report by the end of 2005.

Millennium Dome

Mr. Hammond: To ask the Deputy Prime Minister if he will commission an external valuation of the Government's remaining interest in the Millennium Dome site, including the current value of its future expected receipts under the sale contract. [216612]

Keith Hill: Independent formal valuations and valuation advice, by retained professionals, have been obtained by English Partnerships as a matter of course throughout the entire sale process in respect of land on the Greenwich Peninsula, and similar advice will continue to be taken on a regular basis as the developments are delivered over time. Appropriate protections and mechanisms are built into the contracts

between English Partnerships and Meridian Delta Ltd. and Anschutz Entertainment Group to ensure that English Partnerships receives value from money from the transaction, as was verified by the recently published report from the National Audit Office. Regular valuations of English Partnerships' landholdings will also be undertaken as part of English Partnerships' corporate responsibilities to report to Parliament, in its annual report and accounts, the value of assets held.

Northern Way

Mr. Jenkin: To ask the Deputy Prime Minister pursuant to section C9 of Moving Forward: The Northern Way, First Growth Strategy Report, if he will list *(a)* the total number of houses proposed for demolition in each local authority area and *(b)* the streets where demolition s proposed. [217105]

Keith Hill: The Northern Way is an independently chaired, Regional Development Agency-led initiative. "Moving Forward: The Northern Way" First Growth Strategy Report is a publication of its steering group. The report makes no proposals for the demolition of houses.

It is an essential pillar of the strategy that people living in the north, and the people the Northern Way Steering Group want to attract to the north, have real quality and diversity in housing that not only accommodates their needs when starting out but also provides real choice when they begin to prosper and their families grow.

The Northern Way Steering Group have made it clear that any proposals will be taken forward by working with the Regional Housing Boards and through the Regional Spatial Strategies, which are subject to formal consultation processes with stakeholders, at which heritage and conservation issues can be fully explored.

Parish Councils (Chorley)

Mr. Hoyle: To ask the Deputy Prime Minister what the percentage increase in the parish council precept in each parish council area in Chorley has been since 1997. [216559]

Mr. Raynsford: Information on amounts of council tax precepted by individual parish and town councils is not held centrally and could be collected only at disproportionate cost. The information requested should be available from Chorley borough council.

Park Homes

Mrs. Brooke: To ask the Deputy Prime Minister if he will require local authorities which implement the six metre rule on park homes to make appropriate grants to the owners of such park homes; and if he will make a statement. [216428]

Yvette Cooper: No. It is for a local authority to decide whether to impose the six metre rule as a site licence condition and to decide whether to enforce a site owner to comply with any condition. The cost of compliance is normally met by the site owner who may seek to recover his costs from residents as part of the pitch fee review.

Under the park home provisions in the Housing Act 2004 the Office of the Deputy Prime Minister is to lay secondary legislation on the pitch fee reviews. These provisions are expected to come into force in July 2005.

Planning Advisory Service

Mrs. Spelman: To ask the Deputy Prime Minister if he will make a statement on the *(a)* purpose and *(b)* estimated yearly expenditure of the Planning Advisory Service. [216274]

Keith Hill: The Planning Advisory Service (PAS) supports local planning authorities across England in improving their performance and promotes good practice. It also offers direct support to individual authorities to help them deliver key Government objectives, such as large-scale regeneration projects.

The Office of the Deputy Prime Minister has allocated £1.5 million to PAS in 2004–05, and £2 million in 2005–06.

Planning Appeals

Mrs. Spelman: To ask the Deputy Prime Minister what the longest time taken for the Planning Inspectorate to consider an individual appeal was, in each year since 1997. [216269]

Keith Hill: The information requested is tabled as follows:

Longest time taken to determine an appeal

	Weeks
1998–99	117
1999–2000	147
2000–01	138
2001–02	271
2002–03	127
2003–04	151
1 April to 31 December 2004	205

Information prior to 1998–99 is not readily available.

It is common practice for an applicant for planning approval, having had permission refused and having submitted an appeal, to submit an amended application to the local planning authority and to ask the Inspectorate for the determination of the initial appeal to be delayed. If the amended application is also turned down by the local planning authority, both appeals are determined together.

So far as can be ascertained, the appeals listed were linked to and decided with subsequent appeals. This would have been done at the request of the appellant.

Policy Initiatives

Mrs. Spelman: To ask the Deputy Prime Minister what *(a)* reports, *(b)* strategies, *(c)* five-year plans and *(d)* 10 year plans he has launched in his role as Deputy Prime Minister or Secretary of State for the Department of Environment, Transport and the Regions. [211136]

Yvette Cooper: The Office of the Deputy Prime Minister and the Department for Environment, Transport and the Regions have published reports, strategies and plans reflecting the wide range of their

responsibilities. Most recently this has included two five year plans: "Sustainable Communities: Homes for All" and "Sustainable Communities: People, Places and Prosperity". Together these plans show how the Office of the Deputy Prime Minister will take forward its agenda of creating sustainable communities, first described in the 2003 "Sustainable Communities Plan". A full list of the Office of the Deputy Prime Minister's publications is available on its website at http://www.publications.odpm.gov.uk/.

Polytunnels

Norman Baker: To ask the Deputy Prime Minister whether under planning policy guidance polytunnels which are placed on the same agricultural land each year for several months, while being removed during winter months, constitute a permanent fixture requiring full planning permission. [216350]

Keith Hill: It is for the local planning authority to decide if placing any structure on farmland would amount to development. Even where a polytunnel is regarded as development, it is likely to benefit from the general permission granted in the Town and Country Planning (General Permitted Development) Order 1995. The Office of the Deputy Prime Minister has issued no guidance on polytunnels as such, but we do encourage farmers always to have regard to the impact of their work on the environment.

Queen's Flight

Chris Grayling: To ask the Deputy Prime Minister (1) on how many occasions his Department's Ministers used the Queen's Flight in each of the past five years; [213704]

(2) how much money his Department has spent on chartering aircraft in each of the past five years. [213706]

Yvette Cooper: "Travel by Ministers" makes clear that special flights may be authorised when a scheduled service is not available, or when it is essential to travel by air, but the requirements of official or parliamentary business or security considerations or urgency preclude the journey being made by a scheduled service. In respect of overseas travel by Ministers, since 1999 the Government has published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year. The list published in 1999 covers the period 2 May 1997 to 31 March 1999. Where RAF/Private Charter aircraft are used this is shown in the list. The Government has also published on an annual basis the cost of all Ministers' visits overseas. Copies of the lists are available in the Libraries of the House. Information for 2004–05 will be published in due course.

All ministerial travel is undertaken in accordance with the rules set out in the Ministerial Code and "Travel by Ministers", copies of which are available in the Libraries of the House.

Regional Assemblies

Mr. Clifton-Brown: To ask the Deputy Prime Minister what guidance he has issued to regional assemblies on holding meetings in different locations around the region. [214157]

Mr. Raynsford: My right hon. Friend the Deputy Prime Minister has not issued any guidance on where regional assemblies should hold meetings.

Regional Referendums

Mr. Jenkin: To ask the Deputy Prime Minister pursuant to his answer of 3 February 2005, *Official Report*, column 1087W on regional referendums, if he will place in the Library copies of the research undertaken on *(a)* the Your Say Information Campaign and *(b)* other groups' campaigns relating to the regional referendum in the north-east. [216427]

Mr. Raynsford: Copies of the research conducted on the Your Say Information Campaign have been made available in the Library of the House This research was conducted by NOP World and was designed to measure the effect of the information campaign in raising awareness of the referendums.

Six quantitative studies were undertaken between October 2003 and September 2004. These studies were undertaken in all three northern regions, with the exception of the last study, which was only undertaken in the north-east. In addition, a qualitative study was undertaken in October 2003 and June 2004 in all three regions.

The Office of the Deputy Prime Minister does not hold any research relating to any other groups' campaigns.

Regional Spatial Strategies

Mr. Hancock: To ask the Deputy Prime Minister (1) what discussions his Department has had with each of the English regions with regard to their spatial strategies concerning *(a)* key priorities, *(b)* resources required and *(c)* time scales for delivery; and if he will make a statement; [216120]

(2) what discussions *(a)* his Department and *(b)* Government Offices have had with regional assemblies in England on the preparation of their spatial strategies with particular reference to developing freight infrastructure. [216121]

Keith Hill: Regional Spatial Strategies (RSSs) were put on a statutory basis by section 1(1) of the Planning and Compulsory Purchase Act 2004. The final version of any Regional Spatial Strategy revision is approved and issued by the Secretary of State, my right hon. Friend the Deputy Prime Minister.

The Regional Planning Body (RPB) is required to work in consultation and cooperation with the Government office (GO) in the development of the RSS. The RPB should for example, agree the project plan with the GO which will include key priorities and timescales for delivery. It is good practice for the RPB to work closely with the GO in preparing the draft revision, although care needs to be taken to ensure that ownership of the emerging RSS rests clearly with the RPB until the point at which the revised draft RSS is submitted to the Secretary of State, my right hon. Friend the Deputy Prime Minister. The Government office can advise on issues to be addressed in the revision and the application of national policy. This could include working in liaison with the Office of the Deputy

Prime Minister and the Department for Transport to inform the development of the transport aspects of the Regional Spatial Strategy.

A number of Government offices have been involved with Regional Assemblies, Regional Development Agencies and local stakeholders to develop regional freight strategies to inform the development of Regional Transport Strategies.

The Regional Assemblies are required to produce rolling medium-term business plans for three financial years, setting out for year one their proposed activities including priorities and timescales for delivery of the RSS for the year in question and providing forward projections for years two and three. Business plans are submitted to the Government office for consideration, and inform the level of resources required for the relevant financial year.

Mr. Hancock: To ask the Deputy Prime Minister what steps he plans to take when the consultation process on the South East Spatial Strategy is complete; and if he will make a statement. [216458]

Keith Hill: The South East England Regional Assembly is currently consulting on spatial options for future development in the south east region. The Office of the Deputy Prime Minister expects it to submit the draft south east plan by late 2005. Thereafter it will tested by an independent panel. It would not be right for us to pre-empt the outcome of this process. Therefore Government will not make a statement at this stage.

Rent Harmonisation

Mr. Hammond: To ask the Deputy Prime Minister what he expects the average change to council tenant rents will be when the measures designed to increase harmonisation between council and housing association tenants come into effect. [216611]

Keith Hill: At this stage the effect on council rents is unknown. The plans are being reviewed in response to concerns raised following the consultation over the summer of 2004. As they stood, those proposals would have had the effect of increasing the average rent by £0.36 per week beyond that planned under the existing policy.

Mr. Hammond: To ask the Deputy Prime Minister for what reason rent harmonisation measures for council and housing association rents have been postponed until the end of 2005. [216643]

Keith Hill: The decision was taken to postpone the introduction of the proposals after concerns were raised over the accuracy of some of the property valuation data, and the impact this would have had on rent levels.

These concerns are being investigated and, subject to a further consultation period, the revised proposals will be introduced in time for the 2006–07 financial year.

Roadside Advertising

Simon Hughes: To ask the Deputy Prime Minister what Government policy is on commercial advertising alongside motorways and major roads. [216392]

Keith Hill: Local planning authorities are responsible for the control of outdoor advertisements and have powers to take enforcement action against any advertisements displayed unlawfully. Before giving consent for an advertisement to be displayed, local planning authorities must consider amenity and public safety aspects. Prior consent from the owner of the land is also required. Advertisements which are likely to distract motorists on a motorway or major road are unlikely to be approved.

Mr. Ben Chapman: To ask the Deputy Prime Minister (1) whether his Department maintains records of temporary wheeled billboards placed next to motorways; and if he will make a statement; [216858]

(2) what provisions there are for temporary wheeled billboards placed next to motorways to be removed where they are judged to be a distraction to drivers; [216859]

(3) what assessment he has made of the potential for distraction by temporary wheeled billboards being placed next to motorways. [216860]

Keith Hill: The Office of the Deputy Prime Minister does not maintain records of temporary wheeled billboards placed next to motorways. Research carried out into causes of road accidents has considered the effect of advertisements alongside motorways and trunk roads but the results have not been conclusive.

Local planning authorities have enforcement powers they can use to remove unlawfully displayed advertisements.

Sand Reserves

Mr. Hoyle: To ask the Deputy Prime Minister pursuant to the answer of 9 February 2005, *Official Report*, column 1586W, on sand reserves, how much of the 3.2 million tonnes of sand released under the Lancashire Minerals and Waste Local Plan has been taken; what estimate he has made of how long the sand at the existing permitted reserves will last; whether a full survey has been carried out to establish the total sand reserves in Lancashire; and how much sand will be needed for the next 10 years for Lancashire in accordance with revised Minerals Planning Guidance Note 6. [217159]

Keith Hill: None of the 3.2 million tonnes of sand required to be released by the Lancashire Minerals and Waste Local Plan has been extracted since the plan was adopted. All production has been from reserves which already had planning permission at the time of adoption. Two applications for sand extraction have been submitted recently and await determination—one is near St. Michaels on Wyre, in Wyre borough, and the other is at Adlington in Chorley borough.

The existing permitted reserves of sand in Lancashire amount to £3.54 million tonnes. At the present rates of production, these reserves would last for seven years.

Stage 1 of a Sand and Gravel Study, undertaken by planning consultants and the British Geological Survey on behalf of the Lancashire joint authorities, has recently been completed. It identifies potential areas of high grade sand deposits within the county for further investigation in stage 2 to be conducted later this year.

The revised Mineral Planning Guidance Note 6 require the north-west to provide 55 million tonnes of land-won sand and gravel over the period 2001 to 2016. Lancashire's share of this total is 8.2 million tonnes, which equates to 5 million tonnes in a 10-year period.

Social Exclusion Unit

Mr. George Osborne: To ask the Deputy Prime Minister what the cost of the Social Exclusion Unit was in the last year for which figures are available. [217318]

Yvette Cooper: I refer the hon. Member to the answer given on 3 February 2005, *Official Report*, column 1088W to the hon. Member for Isle of Wight (Mr. Turner).

Social Housing

Mr. Willetts: To ask the Deputy Prime Minister what percentage of the working age population who are *(a)* economically active and *(b)* economically inactive are social housing tenants. [215526]

Keith Hill: Based on Labour Force Survey results for spring 2004 it is estimated that, of household reference persons[1] in England of working age:

11 per cent. of those who were economically active were social housing tenants.

47 per cent. of those who were economically inactive were social housing tenants.

[1] Previously referred to as heads of household.

Mr. Willetts: To ask the Deputy Prime Minister how many social housing tenants there are; and how many are *(a)* employed, *(b)* unemployed and *(c)* economically active, broken down by age and gender. [215527]

Keith Hill: Using data from the Labour Force Survey (LFS) it is estimated that in spring 2004 there were approximately 3,782,000 social housing tenancies in England.

The following table provides a breakdown of these households on the basis of the economic status, age and gender of the household reference persons for households living in social housing.

Thousand

	Economic activity of household reference persons for households in social housing						
Sex/age	*Employed*	*Unemployed*	*Economically active*	*Retired*	*Other inactive*	*Not known*	*Total*
Male							
16–24	31	7	38	0	14	2	53
25–34	116	23	139	0	59	6	204
35–44	168	34	202	1	82	6	290
45–64	239	31	271	15	257	12	554
65 or over	24	2	26	492	35	1	554
Total	578	97	675	507	447	27	1,656
Female							
16–24	50	16	66	0	91	1	158
25–34	151	24	175	0	194	4	373
35–44	200	30	231	0	194	4	428
45–64	179	19	198	52	209	4	463
65 or over	10	0	10	693	0	1	705
Total	590	90	680	745	688	13	2,126
All	1,168	187	1,355	1,252	1,135	40	3,782

Source:
ONS Labour Force Survey

Mr. Hoyle: To ask the Deputy Prime Minister how many *(a)* housing association tenants and *(b)* local authority tenants (i) have and (ii) do not have the right to buy in the Chorley constituency; and how many properties have been sold in each of the last five years. [216405]

Keith Hill: At 1 April 2003, there were around 2,800 housing association tenants in Chorley. It is not possible to say exactly how many of these have the right to buy their rented homes.

In England, around 50 per cent. of housing association tenants qualify for the right to buy or the preserved right to buy. The right to buy is available to pre-1988 secure tenants of non-charitable housing associations. Housing association properties were generally let on secure tenancies until 1988, but all new lettings since then have been on assured tenancies which do not include the right to buy. In addition, tenants of former local authority housing stock that has been transferred to housing associations retain a preserved right-to-buy.

At 1 April 2003, there were around 3,200 local authority tenants in Chorley. The majority of these have the right to buy their homes. Secure tenants of local authorities (ie, the majority of local authority tenants) have the right to buy.

Tenants must have spent at least two years as a public sector tenant to qualify for the right to buy. The Housing Act 2004 increases the qualification period to five years for new tenancies granted on or after 18 January 2005.

Right to buy sales in Chorley during the past five years for which figures are available are tabled as follows:

	Number
1999–2000	44
2000–01	41
2001–02	52
2002–03	95
2003–04	134

Special Advisers

Mr. Tyrie: To ask the Deputy Prime Minister (1) if he will list the occasions between 31 March 2003 and 31 March 2004 when special advisers attended meetings with external representatives at which ministers were not present; [210538]

(2) if he will list the speeches his special advisers made in an official capacity between 31 March 2003 and 31 March 2004, broken down by date. [210567]

Yvette Cooper: Special advisers attend meetings with a wide range of external representatives in their official capacity. Information relating to these meetings could be provided only at disproportionate cost. One special adviser has made various speeches on the role of the special adviser at civil service training events.

All meetings held by special advisers and all speeches given by special advisers are conducted in accordance with the requirements of the "Code of Conduct for Special Advisers."

Staff Surveys

Mr. George Osborne: To ask the Deputy Prime Minister what the cost of staff surveys in the Department and its predecessors was in each year since 1997. [213684]

Yvette Cooper: The Office of the Deputy Prime Minister was created in May 2002. One staff survey has been conducted since that date, in January 2003. The total cost of the survey, was £57,980 excluding VAT.

The purpose of the survey was particularly to obtain baseline information to direct the corporate change programme.

Supporting People Grant

Nick Harvey: To ask the Deputy Prime Minister what factors underlay the decision to reduce the Supporting People grant; what assessment he has made of the effects of reduction of grant; and what plans he has to consult on the proposed draft distribution formula for this grant. [215503]

Yvette Cooper: The Government commissioned an Independent Review into the Supporting People programme following significant late growth in estimated costs from £1.4 billion in December 2002 to £1.8 billion by March 2003. The review reported in January 2004 that there are wide variations in unit costs between authorities and that £1.8 billion was too much to pay for the services provided.

Reductions in Supporting People programme grant reflect the findings of the Independent Review and subsequent work carried out on value for money including work commissioned into the efficient use of legacy funding and the results of Audit Commission inspections. These studies demonstrate that there is significant potential for making savings in the current pattern of service provision whilst safeguarding valuable services.

Administering authorities should be using the service review process for identifying and delivering efficiency savings. The Supporting People standards and monitoring team monitor the progress being made by authorities in their service reviews. They also monitor the feedback from the Supporting People Audit Commission Inspections and milestones information from administering authorities.

We will consult widely on a revised version on the distribution formula later this year.

Miss McIntosh: To ask the Deputy Prime Minister for what reasons funding for the Supporting People programme in North Yorkshire is to be reduced by 40 per cent. from the 2003–04 level; and what steps his Department is taking to ensure that quality of care received by people in North Yorkshire is not adversely affected. [215515]

Yvette Cooper: The Government commissioned an Independent Review into the Supporting People programme following significant late growth in estimated costs from £1.4 billion in December 2002 to £1.8 billion by March 2003. The review reported in January 2004 that there are wide variations in unit costs between authorities and that £1.8 billion was too much to pay for the services provided.

Reductions in Supporting People programme grant reflect the findings of the Independent Review and subsequent work carried out on value for money including work commissioned into the efficient use of legacy funding and the results of Audit Commission inspections. These studies demonstrate that there is significant potential for making savings in the current pattern of service provision whilst safeguarding valuable services.

The Office of the Deputy Prime Minister has taken no decisions about the longer term distribution. A formula for the distribution of Supporting People funding in the longer term is being developed. We are working with local authority representative bodies and will consult widely on a revised version later this year. The extent of the increases or reductions and the rate of which they are introduced are open to further consideration. We will include this issue in the consultation.

The Office of the Deputy Prime Minister will monitor the impact on administering authorities of introducing any new needs based distribution formula.

Terrorist Suspects

Mr. Austin Mitchell: To ask the Deputy Prime Minister whether terrorist suspects subject to house arrest in council housing under the Home Secretary's proposals for detaining suspects without trial will be eligible *(a)* for the Right-to-Buy scheme, *(b)* for housing benefit and *(c)* to vote in ballots on large scale voluntary transfers. [213461]

Keith Hill: Full details of how Control Orders will operate will be brought forward in due course. Their precise effect in such cases will need to be assessed once these details are available.

Timber

Sue Doughty: To ask the Deputy Prime Minister what steps he will take to ensure that environmentally sustainable building materials, with particular reference to sustainable timber, are used in the construction of proposed new homes in London and the South East as outlined in the report, Sustainable Communities: Homes for All. [216600]

Phil Hope: The Government are committed to raising the environmental standards to which publicly funded housing is built. All new homes funded by the Housing Corporation will be required to achieve a BRE EcoHomes "Good" rating from April 2005. Those delivered by English Partnerships must reach a "Very Good" standard.

We are also committed to delivering new homes in London and the South East, as set out in Homes For All to high environmental and sustainability standards. We will achieve this both through raising building standards and also through the Code for Sustainable Buildings, which will be piloted in the Thames Gateway. In particular, the Code will specify a minimum percentage of timber to be acquired from sources that are independently verified as either legal and sustainable or reclaimed.

In addition, in pursuance of its objective to establish a Central Point of Expertise on Timber Procurement, the Department for Environment, Food and Rural Affairs aims to establish in 2005 an inquiry point that will help local authorities and other stakeholders to procure legal and sustainable timber.

Tri-service Centres

Mr. Drew: To ask the Deputy Prime Minister what the evidential basis was for the statements made at the meeting with Ministers on 13 January *(a)* that local geographical knowledge of staff in a fire control room was less important than access to computerised gazetteers and *(b)* that the different business needs of the three services in a Tri-Service Centre are a key implementation barrier. [215058]

Mr. Raynsford: The 12 fire and rescue services in England which have installed advanced technology and geographical information systems to locate callers and mobilise appliances have demonstrated that local knowledge of individual members of staff is unreliable and of diminishing use. This was stated at the presentation on 13 January by a control room officer who has 25 years of experience of working in four different fire and rescue service control rooms in both urban and rural areas. The requirement to have local knowledge does not form part of the selection criteria for staff so its depth, accuracy and currency are not measurable. It would be unacceptable for the quality of control services to be dependent upon which staff are on duty.

A joint report in 2001 by the presidents of the professional associations representing the three emergency services, entitled 'Three Distinct Services—Shared Ambitions for a Healthier and Safer Community' states that the operational requirements of the three services are very different and should not be compromised. The report cited different cultures, financial regimes, organisational structures and statutory responsibilities as barriers to joint working and that the emphasis should be on collaboration, not integration. None of the three ISB tri-service projects has yet been able to implement common mobilisation systems. Control room staff in Wiltshire and Gloucestershire have been co-located but continue to work separately.

FOREIGN AND COMMONWEALTH AFFAIRS

Burma

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent reports he has received on *(a)* relations within the ruling military Junta in Burma and *(b)* the position of the Junta leader Than Shwe. [215760]

Mr. Alexander: Our embassy in Rangoon closely monitors developments in Burma. There have been no changes announced in the senior leadership since October 2004, with the departure of the then Prime Minister Khin Nyunt.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Burmese regime on reported unrest within the region. [215761]

Mr. Alexander: None.

However, I last met the Burmese ambassador on 29 November and pressed for political reform, full respect for human rights and the need for all groups in Burma, including ethnic nationalities, to play a full part in national reconciliation.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the future of democracy in Burma. [215762]

Mr. Alexander: It is essential that the National Convention to draw up a new constitution, which reconvened on 17 February, is an inclusive and transparent process, involving all political parties and ethnic groups in Burma. Without their participation, the process lacks all credibility and the prospects for democracy in Burma will be bleak.

We remain willing to support a genuine process of national reconciliation leading to the restoration of democracy and full respect for human rights in Burma and we will respond positively to tangible progress.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the statement of the Workshop of ASEAN Parliamentarians in November on the Myanmar Issue. [215763]

Mr. Alexander: We fully support the Association of South East Asian Nations (ASEAN) Parliamentarians' efforts to promote national reconciliation in Burma.

We believe that all Burma's regional neighbours have a key role to play in encouraging substantive change in Burma.

We shall continue to work closely with our partners in the region to press the regime to begin a genuine process of reform involving all political parties and ethnic groups. That is the only way to achieve lasting peace and national reconciliation. The prospect of Burmese chairmanship of ASEAN in 2006 makes the need for change all the more pressing.

I met ambassadors from ASEAN on 29 November and underlined the need for political reform and full respect for human rights in Burma.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the UN Human Rights Commission regarding the Government of Burma's treatment of *(a)* Muslim Rohingya, *(b)* Christians among the Chin, Kachin, Karen and Karenni ethnic nationalities and *(c)* Buddhists who do not support the regime. [215764]

Mr. Alexander: The UK works closely with its UN partners to promote human rights in Burma, and fully supports the efforts of the UN Secretary General's Special Rapporteur for Human Rights in Burma, Professor Sergio Pinheiro, with whom officials remain in close contact.

Discrimination and persecution on the basis of religious or ethnic background has been condemned in successive UK co-sponsored UN Commission on Human Rights Resolutions on Burma, most recently in April 2004.

Correspondence

Sarah Teather: To ask the Secretary of State for Foreign and Commonwealth Affairs when he will reply to the letters dated 1 June 2004, 8 September 2004 and 25 November 2004 from the hon. Member for Brent, East regarding Indonesian Christians and the Indonesian Government's draft Bill on Religious Harmony. [215627]

Mr. Alexander: I replied to the letters on Indonesia on 1 February 2005.

Departmental Costs

Chris Grayling: To ask the Secretary of State for Foreign and Commonwealth Affairs how much money his Department has spent on chartering aircraft in each of the past five years. [213715]

Mr. Straw: The guidance note "Travel by Ministers", makes clear that special flights may be authorised when a scheduled service is not available, or when it is essential to travel by air but the requirements of official or parliamentary business or security considerations or urgency preclude the journey being made by a scheduled service. In respect of overseas travel by Ministers, since 1999 the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year. The list published in 1999 covers the period 2 May 1997 to 31 March 1999. Where RAF/private charter aircraft are used this is shown in the list. The Government have also published on an annual basis the cost of all Ministers' visits overseas. Copies of the lists are available in the Library of the House. Information for 2004–05 will be published in due course.

All ministerial travel is undertaken in accordance with the rules set out in the Ministerial Code and the guidance on Travel by Ministers, copies of which are available in the Library of the House.

Mr. George Osborne: To ask the Secretary of State for Foreign and Commonwealth Affairs how much has been spent on entertainment by his Department in each year since 1997, broken down by *(a)* food, *(b)* alcohol, *(c)* staff and *(d)* accommodation. [204356]

Mr. Rammell: The Foreign and Commonwealth Office does not separately record the information requested by the hon. Member. Analysis of records to produce the information requested could be undertaken only at disproportionate cost. However, we do record the total amount spent on entertainment.

I refer the hon. Member to the answer I gave to the hon. Member for Yeovil (Mr. Laws) on 27 January 2003, *Official Report*, column 565W, for entertainment costs for 2000–01 and 2001–02. Costs for the years 1998–99, 1999–2000, 2002–03 and 2003–04 are shown as follows. Figures for 1997–98 have not been included, as they were not recorded on the same basis as subsequent years.

	£ million
1998–99	5.69
1999–2000	8.46
2002–03	8.61
2003–04	8.39

Design

Alan Howarth: To ask the Secretary of State for Foreign and Commonwealth Affairs who the ministerial design champion for his Department is. [215648]

Mr. Straw: My hon. Friend the Parliamentary Under-Secretary of State (Mr. Rammell) is the Ministerial Design Champion for the Foreign and Commonwealth Office.

Diplomatic Bags

Lynne Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs what the cost of the Department's diplomatic bag service was in 2003–04; and what proportion of that cost is estimated to be related specifically to the delivery of sensitive documents. [214247]

Mr. Rammell: The cost of the Foreign and Commonwealth Office (FCO) diplomatic bag service from London to its diplomatic missions overseas for the financial year 2003–04 was £6,317,417 of which 39 per cent. was spent on the classified bag service.

4.3 per cent. of the total (£269,754) was spent on sensitive documents sent by air freight bag.

Information on the cost of inward diplomatic bags from our overseas missions to the FCO in London could be compiled only at disproportionate cost. Each mission holds a local budget for this expenditure.

EU Intelligence Sharing and Co-ordination Service

Mr. Hayes: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 10 January 2005, *Official Report*, column 13W, on EU Intelligence Sharing and Co-ordination Service, if he will list those documents, with security grading and caveat, that have been supplied to the EU Intelligence Sharing and Co-ordination Service by his Department; and if he will make a statement on his Department's policy on the nature of departmental material that may be supplied. [216510]

Mr. MacShane: There is no "EU Intelligence Sharing and Co-ordination Service". The EU's Joint Situation Centre does not share or co-ordinate intelligence. The Situation Centre produces analyses and risk assessments, to help formulate EU policy, based on inputs from member states including nationally-assessed material. The Government's policy on release of material was set out in my answer of 10 January 2005, *Official Report*, column 13W: UK information is released to the Situation Centre on a strict need-to-know basis at classifications up to and including secret.

It would not be appropriate for the Government to give details of the information which has been released to the centre. Parallel exemptions under the Freedom of Information Act would likely be section 23 (information supplied by, or related to, bodies dealing with security matters), section 24 (national security) and section 27 (international relations).

European Constitution

Pete Wishart: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans his Department has to translate the treaty establishing a constitution for Europe into *(a)* Gaelic and *(b)* Scots. [203691]

Mr. MacShane: The Foreign and Commonwealth Office has no plans to translate the EU constitutional treaty into Gaelic or Scots.

Gaelic Language

Mr. Alan Reid: To ask the Secretary of State for Foreign and Commonwealth Affairs what his Department's policy is on the use of the Gaelic language; and what plans his Department has to prepare and implement a Gaelic language scheme. [217094]

Mr. Straw: The UK Government have committed themselves to the principles of protecting and promoting specified regional minority languages, including Gaelic, through their ratification of the Council of Europe's European Charter for Regional or Minority Languages.

We have no current plans to prepare and implement a Gaelic language scheme for the Foreign and Commonwealth Office (FCO), but FCO officials, if approached, are ready to work with the Bòrd na Gàidhlig to explore what scope exists for facilitating the use of the Gaelic language.

GCHQ

Mr. Laurence Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs when child care vouchers will be made available to staff at GCHQ; and if he will make a statement. [216452]

Mr. Straw: GCHQ has committed itself to making child care vouchers available to staff as part of its overall package of benefits. The plan is to introduce child care vouchers as part of a thorough overhaul of the pay system currently being negotiated with the trade union. The intention is to introduce child care vouchers no later than April 2006.

Global Conflict Prevention Pool

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what proportion of the Global Conflict Prevention Pool has been spent on human rights since its inception; [217320]

(2) what proportion of the Global Conflict Prevention Pool has gone on mine clearance. [217321]

Mr. Rammell: The Global Conflict Prevention Pool (GCPP) was established in 2001. From 2001–02 to 2004–05 £276 million has been allocated to the GCPP strategies. There are 15 regional and thematic GCPP strategies, each running a large number of individual projects.

The Global Opportunities Fund (GOF) is now the main Foreign and Commonwealth Office vehicle for funding human rights projects. In financial year 2004–05, the GOF is supporting human rights projects worth approximately £13 million, up from about £11 million in 2003–04. We expect this to increase still further in 2005–06.

The GCPP only funds de-mining and human rights activities if they clearly form an integral part of a conflict prevention strategy. However, the human rights impact of every GCPP project is considered during the project selection process. Specific details relating to de-mining and human rights activities funded under GCPP strategies are not held centrally. As a result, the information could be collated only at disproportionate cost.

Haiti

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the impact on the security situation in Haiti of MINUSTAH since 1 June 2004; and if he will make a statement. [216401]

Mr. Rammell: The security situation in Haiti has improved over recent months, thanks to the deployment of the UN stabilisation force MINUSTAH. MINUSTAH is now operating at full strength, and this should be an important factor in helping to provide the more secure environment needed for Haitian elections at the end of 2005. But further progress is needed—disarmament, demobilisation and reintegration need to be accelerated.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports his Department has received regarding the killing of police

officers in Clercine neighbourhood in Port-au-Prince on 7 February; how many similar incidents have been reported since September 2004; and if he will make a statement. [216402]

Mr. Rammell: We have received reports on the killing of four police officers in the Clercine neighbourhood of Port-au-Prince on 6 February. Despite improvements since the departure of former President Aristide in February 2004, the security situation in Haiti remains tense. There have been a number of violent incidents over recent months, many of which have involved armed groups of ex-military personnel. The UK has supported the UN's role in providing a stabilisation force, and has lobbied for the disarming of gangs.

Iraq

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the *(a)* nationalities and *(b)* identities of the foreign (i) suppliers and (ii) financiers of the Iraqi military procurement programme during Saddam Hussein's regime; and if he will make a statement. [212174]

Mr. Rammell: During the course of UN weapons inspections in the 1990s, the inspection teams did, on occasion, bring to the notice of the Government details of equipment uncovered in Iraq that had been supplied by UK firms. Similarly, Iraq's Full, Final and Complete Declaration produced in December 2002 under UN Security Council Resolution 1441 also listed a number of companies and individuals as suppliers of materials to Iraq. The circumstances surrounding the supply and/or financing of supplies were investigated at the time by the relevant UK authorities and any appropriate action taken.

The Government have not undertaken any investigation into supplies by, or financing from, companies or individuals from other countries. Any such investigation is the responsibility of the authorities of those countries.

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he had with *(a)* the US Administration, *(b)* the Iraq Coalition Provisional Authority and *(c)* others on the management of reconstruction funds in Iraq (i) prior to the establishment of those funds and (ii) since the report of the US Government auditors; and if he will make a statement. [215154]

Mr. Rammell: The UK had discussions with the US Administration and other coalition partners over the text of United Nations Security Council Resolution (UNSCR) 1483 of 22 May 2003, which noted the establishment of the Development Fund for Iraq (DFI) as the account into which Iraq's oil revenues would be paid. Following establishment of the DFI the UK Government had discussions with the US Administration and officials in the Coalition Provisional Authority (CPA) over the terms of reference for the International Advisory and Monitoring Board (IAMB), mandated under UNSCR 1483 to oversee the auditing of Iraq's oil revenues and their management by the coalition.

The UK has not had discussions with the US or Iraqi Administrations following the report into CPA operations and programmes by the Special Inspector General for Iraq Reconstruction (SIGIR). Under UNSCR 1546 of 8 June 2004, as of the end of the occupation and the dissolution of the CPA on 28 June 2004, control over management of the DFI passed to the Iraqi Administration. UNSCR 1546 also provided for continuation of the IAMB'S oversight function until the Iraqi Government decides otherwise.

In addition to discussions on the DFI, the UK Government have worked closely with other Governments, the UN and the World Bank over the establishment and management of the UN and World Bank managed International Reconstruction Fund Facility for Iraq, which provides a channel for donor country support to the reconstruction of Iraq. The UK Government also have regular discussions with other bilateral donors to promote the co-ordination of international assistance to Iraq.

Denzil Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what percentage of the total Iraqi adult population is estimated to have voted in the recent election; [215829]

(2) what the official estimate is of the percentage of registered voters who voted in the recent election in Iraq. [215830]

Mr. Rammell: There has been no recent, reliable population census in Iraq. In preparation for the January elections, around 14 million adult Iraqis were included in a passive registration conducted by the Public Distribution System using Oil for Food Programme records. The Independent Electoral Commission of Iraq announced the provisional final election results on 13 February and said that 8.45 million people voted on 30 January, 58 per cent. of the registered voters.

Nepal

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the reign of King Gyanendra of Nepal since his coronation in 2001; and if he will make a statement. [214729]

Mr. Alexander: King Gyanendra of Nepal assumed the throne under difficult circumstances, following the massacre of King Birendra and members of the royal family in 2001. During King Gyanendra's reign the conflict with the Maoists has escalated while the security and human rights situations have deteriorated considerably. While we have welcomed the King's stated commitment to multi-party democracy and peace, the shared failure of the King and the political parties to work together to find a common way forward on tackling Nepal's problems has been disappointing. We are deeply concerned by the King's assumption of power on 1 February, which will increase the risk of instability in Nepal and undermine the institutions of democracy and constitutional monarchy in the country.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the investigation

announced by King Gyanendra of Nepal on 4 June 2001 into the massacre at the royal palace on 1 June 2001; and if he will make a statement. [214730]

Mr. Alexander: We welcomed the publication on 14 June 2001 of the investigating commission's report into the massacre of the Nepalese royal family. The terms of reference for the investigating commission were extensive and gave the commission the authority to make a thorough investigation.

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will change his advice on travel to Nepal to indicate that travel there is unsafe. [215541]

Mr. Alexander: Our Travel Advice has been changed to take account of the situation in Nepal following the King's takeover of power on 1 February. This change reflected our assessment that, given the fairly muted reaction in Nepal to the King's action, it was not necessary at the time to advise against all but essential travel.

The changes are intended to ensure that the public are aware the country is in a volatile state at present and there is the potential for disturbances. The Travel Advice also urges travellers who decide to go to Nepal to exercise extreme caution and vigilance, especially in and around Kathmandu, until the situation becomes clearer.

Officials are keeping the situation in Nepal under regular review and will change this travel advice if and when necessary.

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with governments of other countries on the safety of travel by their nationals to Nepal. [215542]

Mr. Alexander: Travel Advice Unit of the Foreign and Commonwealth Office discusses travel advice issues regularly with our international partners. But our Travel Advice is written ultimately for the benefit of British nationals; other countries' advisories are for their own nationals. We are keeping a very close eye on events in Nepal, but we continue to believe that British nationals are not being specifically targeted. We aim to include the level of detail necessary to allow British nationals to make their own decisions on whether or not to travel to Nepal. We will continue to keep the advice for Nepal under regular review.

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs what his current assessment is of the *(a)* safety and *(b)* desirability of travel by British citizens to Nepal; and if he will make a statement. [215543]

Mr. Alexander: Our Travel Advice for Nepal is based on an objective assessment of the risks to British nationals at any given time. It is designed to help British travellers make informed decisions and to avoid trouble by providing information on threats to personal safety.

As our Travel Advice for Nepal makes clear, the country is in a volatile state at present and there is the potential for disturbances following the King's takeover of power. There is a significant risk that there may be violent demonstrations in the weeks to come, especially in Kathmandu and the surrounding valley. Such demonstrations may flare up quickly and with little warning. However, the actual response so far to the King's takeover of power in Nepal on 1 February has been fairly muted and business is still operating much as usual. We have therefore judged that it was not necessary at this stage to advise against all but essential travel.

We are keeping the situation under regular review and will change this Travel Advice if and when necessary. In the meantime we continue to advise travellers to Nepal to exercise extreme caution and vigilance, especially in and around Kathmandu, until the situation becomes clearer. If the situation in Nepal deteriorates we would change our Travel Advice to reflect this.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received on the King of Nepal's recent political actions. [215660]

Mr. Alexander: We have received reporting on recent events in Nepal from our embassy in Kathmandu and through other diplomatic channels as well as from non-governmental organisations and the media. We have also shared assessments with a number of our international partners.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Government of Nepal on progress towards democracy, with particular reference to freedom of the press. [215661]

Mr. Alexander: The UK has consistently upheld the importance of democracy and democratic institutions in Nepal, including freedom of the press. The King's takeover of power on 1 February seriously undermines Nepal's democratic credentials and we have called for the immediate restitution of multi-party democracy. Since the Palace takeover and the introduction of very strict media censorship, our ambassador in Kathmandu has specifically raised the importance we attach to the freedom of the press with both the King and the Foreign Minister.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the call by the Government of Nepal on 7 February for unconditional peace talks with Maoist rebels; and if he will make a statement. [215986]

Mr. Alexander: The UK has consistently held the view that only a negotiated political settlement leading to a democratic outcome will achieve peace, stability and prosperity for Nepal. To that end we welcome calls by the Government of Nepal for unconditional peace talks with the Maoist rebels. However, we have always argued that a successful settlement will require the participation of all interested parties, including the political parties. The King's move to dismiss the Prime Minister and assume power outside the framework of a multi-party democratic system will increase the risk of instability in Nepal and undermine democracy in the country. We have called for the immediate restitution of multi-party democracy in the country.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the possibilities for resolving the situation created by the Maoist revolt in Nepal; and if he will make a statement. [215987]

Mr. Alexander: The UK has always argued that a negotiated political settlement involving all the constitutional forces offers the best way to resolve the conflict in Nepal and to create a stable democracy with good governance and respect for human rights. We have always maintained that no wholly military solution will produce an acceptable outcome. This remains our judgment. We will continue to press all parties for an early return to negotiations.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports his Department has received on Government control over the media in Nepal since 1 February; and if he will make a statement. [215991]

Mr. Alexander: The King of Nepal's takeover of power on 1 February was accompanied by the announcement of a state of emergency, which included a number of draconian measures including strict censorship of the media. The UK has consistently upheld the importance of democracy and democratic institutions in Nepal, including freedom of the press. Since the King's assumption of power our ambassador in Kathmandu has specifically raised the importance we attach to the freedom of the press with both the King and the Foreign Minister.

Staff Identity Passes

Mr. George Osborne: To ask the Secretary of State for Foreign and Commonwealth Affairs what the cost of producing a staff identity pass was in the Department on the latest date for which figures are available; and how many staff identity passes have been reported lost or stolen in each year since 1997. [215089]

Mr. Rammell: Foreign and Commonwealth Office (FCO) staff identity passes are authorised using a computer-based system which was purchased and installed in 2002. The computer is linked to three FCO sites, the FCO Main Building, Old Admiralty Building and Hanslope Park. The identity pass comprises a digital photograph and a unique computer chip. There are currently nearly 12,000 active identity pass holders. 110 identity passes are issued weekly.

The full cost of producing and issuing an FCO staff identity pass, including staff costs, is £3.36 each.

Breakdown of FCO identity passes lost or stolen since 1997 based on our existing records is as follows:

	Stolen	*Lost*	*Total*
1997	0	1	1
1998	2	23	25
1999	8	48	56
2000	7	46	53
2001	16	58	74
2002	10	37	47
2003	13	24	37
2004	10	41	51
2005	1	12	13

(As at 4 February 2005)

Swaziland

Mr. Pike: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he had with the Prime Minister of Swaziland on his recent visit to the UK. [216083]

Mr. Mullin: During the Prime Minister of Swaziland's visit to the UK in early February my right hon. Friend the Foreign Secretary and I discussed with him current political developments in Swaziland including constitutional developments and the rule of law; economic developments including the proposed changes to the EU sugar regime; the HIV/Aids pandemic; and the future of British representation in Swaziland.

Mr. Pike: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has received regarding the proposed closure of the high commission in Swaziland; and if he will make a statement. [216084]

Mr. Mullin: The Prime Minister of Swaziland raised the planned closure of the high commission in Mbabane with my right hon. Friend the Foreign Secretary and with me during his visit to the UK in early February. There has also been some parliamentary and public interest.

Vietnam

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Government of Vietnam regarding *(a)* the pre-Christmas mass detention of Montagnard Christians in the Central Highlands and *(b)* human rights abuses of Montagnards in Vietnam's Central Highlands; and if he will make a statement. [209568]

Mr. Alexander: We remain concerned about the situation of the Montagnards in the Central Highlands region of Vietnam.

Our ambassador in Hanoi visited the Central Highlands on 17–19 January as part of an EU Troika mission to assess the situation on the ground. We are aware of reports of the arrest of Christians over the Christmas period but have not been able to corroborate these reports.

We raise human rights concerns regularly with the Vietnamese Government, both bilaterally and with our EU partners. These include the problems faced by the Montagnards in the Central Highlands, particularly with regard to land and religious freedom.

With our other EU partners, we participate in a regular human rights dialogue with Vietnam. The most recent meeting, attended by our ambassador in Hanoi, took place on 17 December. We raised the situation of the Montagnards at this meeting.

We will continue to raise our concerns and press the Vietnamese Government to adhere to its international human rights obligations at every suitable opportunity.

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations the Government have made to the Cambodian authorities on *(a)* the deportation of Montagnard refugees from

Vietnam's Central Highlands back to Vietnam and *(b)* reopening its north eastern border with Vietnam; and if he will make a statement. [209569]

Mr. Alexander: The UK Government regularly raises its concerns about ethnic mmorities in the Central Highlands and refugees from the region with both the Cambodian and Vietnamese authorities. The EU is also active in this area—it has urged the Cambodian Government to comply with its international refugee obligations and to co-operate with the UN High Commission for Refugees (UNHCR).

Our embassy in Phnom Penh also remains in close contact with the UNHCR. We will continue to encourage the Cambodian and Vietnamese authorities to engage with the UNHCR on the issue.

INTERNATIONAL DEVELOPMENT

Asian Tsunami

Mr. Oaten: To ask the Secretary of State for International Development how much money the Government provided for aid in the first week after the Asian tsunami. [217036]

Hilary Benn: By the 3 January, DFID had allocated £50 million and spent £7.2 million in response to the Indian Ocean Crisis. This comprised £6 million channelled through the World Health Organisation, various non-governmental organisations and a DFID chartered flight carrying relief items, £900,000 in donations in kind, and £250,000 for the International Humanitarian Partnership airlift to establish working environments and communications capability for United Nations staff.

Mr. Oaten: To ask the Secretary of State for International Development what discussions his Department has had with UK-based refugee communities from those countries affected by the tsunami concerning the reconstruction efforts; and if he will make a statement. [214997]

Mr. Gareth Thomas: It is important that the longer-term reconstruction of the regions devastated by the tsunami takes into account the views and needs of the communities affected, and in particular of civil society and vulnerable groups. My right hon. Friend the Secretary for International Development visited the region 6–8 January and spoke to affected communities to better understand their needs, as well as aid agencies operating in the region.

We have received many representations about our response to the tsunami including from UK-based refugee communities from some of those countries affected and welcome the views of all interested groups, including those based in the UK.

A co-ordinated international response to the tsunami, led by the Governments affected and organisations such as the UN and the Asian Development Bank, will ensure that the views of the poorest and most vulnerable are taken into account throughout the process of rehabilitation. The Department for International Development (DFID) will work to ensure a focus on helping the poorest people and those often marginalized because of caste, gender, age, ethnicity or religion.

Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for International Development when he will reply to the letter dated 10 January from the right hon. Member for Manchester, Gorton with regard to Oscar Brogdan. [217051]

Hilary Benn: Unfortunately, the Department for International Development has no record of having received this letter. If my right hon. Friend would kindly re-send the letter I will ensure that he receives a prompt reply.

Cote d'Ivoire

Angus Robertson: To ask the Secretary of State for International Development what steps his Department is taking to assist refugees from Cote d'Ivoire in *(a)* Liberia, *(b)* Guinea, *(c)* Mali, *(d)* Burkina Faso and *(e)* Ghana. [216288]

Hilary Benn: In Guinea, DFID has supported the United Nations High Commissioner for Refugees (UNHCR) and UNICEF to a total of £1 million in 2004 to provide for the care and needs of all refugees residing in camps. We are assessing this support, before deciding on possible additional funding. In Liberia, Ivorian refugees are being assisted by the UNHCR and the World Food Programme. DFID has provided grants totalling £2.1 million to these agencies for their work in Liberia, in 2004. DFID is not providing support to Ivorian refugees in Mali, Burkina Faso or Ghana. DFID understands that the numbers in Mali and Ghana are low. According to UNHCR, 10,000 Burkinabe migrants returned to Burkina Faso, but no Ivorian refugees have been recorded there.

Angus Robertson: To ask the Secretary of State for International Development what assessment his Department has made of the number of refugees from Cote d'Ivoire that have arrived in *(a)* Liberia, *(b)* Guinea, *(c)* Mali, *(d)* Burkina Faso and *(e)* Ghana in each month since September 2003. [216289]

Hilary Benn: Monthly disaggregated data of this nature is not readily available. According to the UN High Commissioner for Refugees (UNHCR), the agency responsible for registering and monitoring formal cross-border refugee flows, the numbers of Ivorian refugees arriving in these countries since September 2003 have been relatively low. Between January 2004 and September 2004, Mali registered 805 Ivorian refugee arrivals, Guinea registered nine, and none were recorded in the other countries. Following the upsurge in violence in Cote d'Ivoire in November 2004, 10,000 Ivorians were registered as newly-arriving refugees in Liberia, although more than half have since returned. The same events prompted up to 10,000 Burkinabe migrants to return to Burkina Faso, but, according to the UNHCR, there was no similar movement of Ivorians.

Cuba

Angus Robertson: To ask the Secretary of State for International Development what discussions *(a)* he, *(b)* members of his Department and *(c)* representatives of the UK Government have had with members and representatives of the Government of (i) the United States of America and (ii) Cuba regarding Cuba's humanitarian assistance to South and Central American countries; and if he will make a statement. [216403]

Mr. Gareth Thomas: DFID has had no recent discussions with either the Cuban or US Government concerning Cuban humanitarian assistance to South and Central American countries. Representatives of HMG have had wide-ranging discussions with the Cuban authorities, including on their relations with these countries. Cuba provides technical assistance to a number of countries in the region, most notably Venezuela, but no assessment of its effectiveness has been shared by the Cuban Government or been made independently.

Debt Relief

Clare Short: To ask the Secretary of State for International Development pursuant to the answers of 3 February 2005, *Official Report*, columns 1044–45W, on debt relief and 1049–50W on Tanzania, what additional debt relief is being provided by the UK under the Chancellor of the Exchequer's recently announced debt initiative; and if he will list *(a)* each recipient country and *(b)* the sum each is due to receive in each year up to 2015. [215934]

Hilary Benn: Under the new multilateral debt relief initiative, the UK will pay 10 per cent. of the debt service owed to the International Development Association (IDA) and African Development Fund (AfDF) on behalf the world's poorest countries. This initiative will be funded through the additional resources allocated to DFID in the recent Spending Review, and is additional to the UK's commitments to the Heavily Indebted Poor Countries (HIPC) Initiative.

All low-income countries with a demonstrated commitment to poverty reduction are potentially eligible. These countries are those that have reached Completion Point under the HIPC Initiative, and all other IDA-only (i.e. eligible to borrow only from the most concessional lending arm of the World Bank) low-income countries (LICs) that have a Poverty Reduction Support Credit (PRSC) approved by the World Bank. Sri Lanka has also been added in light of the impact of the South East Asian tsunami.

The list of currently eligible countries comprises 15 post-Completion Point HIPCs, 4 IDA-only LICs with PRSCs, and Sri Lanka. The cost to the UK for these countries through to 2015 is estimated at up to around US $870 million. As more countries progress through the HIPC Initiative, or have PRSCs approved, the list of eligible countries will expand. The cost to the UK through to 2015 for all countries that could potentially qualify for this initiative is estimated at around US $1,931 million. A table listing the UK's share of (estimated) annual debt service to IDA and AfDF for each country in each year up to 2015 has been placed in the Library under the title "UK's Annual Debt Service to IDA and AfDF to 2015".

Democratic Republic of the Congo

Angus Robertson: To ask the Secretary of State for International Development what assessment his Department has made of the availability of *(a)* medical supplies and *(b)* adequately trained medical staff in the Manguredjipa area in North Kivu province, Democratic Republic of the Congo; and if he will make a statement. [216711]

Hilary Benn: A joint DFID/OCHA (Office for the Co-ordination of Humanitarian Affairs) visit to Eastern DRC in October 2004 considered the humanitarian situation in Manguredjipa, although no particular assessment was made of the availability of medical supplies and the number of trained medical staff.

The mission reported concern about the capacity of NGOs to respond to humanitarian needs throughout North Kivu exacerbated by the number of internally displaced persons (IDPs) and high level of sexual violence.

Angus Robertson: To ask the Secretary of State for International Development what assessment his Department has made of the *(a)* security and *(b)* humanitarian situation in the Manguredjipa area in North Kivu province, Democratic Republic of the Congo since September 2004; and if he will make a statement. [216712]

Hilary Benn: The main concern in the Manguredjipa area of North Kivu over the past few months has been the high level of Internally Displaced Persons (IDPs) due to fighting between different armed groups. A joint DFID/OCHA (Office for the Co-ordination of Humanitarian Affairs) mission to the region in October 2004 reported that most of Manguredjipa population (more than 6,000 households) had been displaced. Fighting in the Kanyabayonga area, south of Manguredjipa, triggered further movement of populations.

Following the cessation of fighting, many displaced people are returning to their homes. 60 per cent. of the Manguredjipa population are now back home, according to an OCHA monitoring report in late January.

Angus Robertson: To ask the Secretary of State for International Development what *(a)* financial, *(b)* logistical and *(c)* material assistance his Department (i) has provided since November 2004 and (ii) plans to provide to Merlin for its work in the Manguredjipa area in North Kivu province, Democratic Republic of the Congo; and if he will make a statement. [216713]

Hilary Benn: We are aware that Merlin is supporting health centres in the Manguredjipa area of North Kivu. During 2003 and 2004, DFID provided £450,000 over 13 months to a Merlin Emergency Health Assistance project for conflict affected populations in Ituri and North Kivu. DFID has committed £17 million of humanitarian assistance to the DRC in this current financial year, including £2 million for a UNICEF

Rapid Reaction Fund in Eastern DRC. Future funding will be made available for those interventions that are directed at meeting the most urgent needs and according to established international standards.

Mr. Laurence Robertson: To ask the Secretary of State for International Development if he will make a statement on the humanitarian situation in the Democratic Republic of the Congo. [217391]

Hilary Benn: The latest UN consolidated appeal for DRC reports that the humanitarian situation has not improved significantly over the past year. Up to 3 million Congolese remain displaced from their homes, internally and within the Great Lakes region. Less than 30 per cent. of the population has access to clean drinking water and basic health services.

The humanitarian situation in the east is of particular concern. Although fighting in north Kivu has largely died down since January, and many of the tens of thousands of displaced Congolese have been able to return to their homes, the province remains tense.

Ituri district suffered further serious outbreaks of violence in January. UN agencies report that up to 80,000 civilians have been displaced. Where possible, UNICEF and some NGOs are providing humanitarian support. DFID is providing £2 million of support for a UNICEF Rapid Reaction Fund in eastern DRC, within an overall humanitarian package of £17 million for the country in this current financial year.

Departmental Costs

Mr. George Osborne: To ask the Secretary of State for International Development how many departmental *(a)* canteens and *(b)* bars there are; and how much has been spent on the (i) running, (ii) staffing and (iii) supply costs of each in each year since 1997. [213618]

Hilary Benn: The Department For International Development has two main headquarters offices and each has a canteen. The following table shows the cost of staffing and supplying the canteens; utilities are not separately metered and cannot therefore be identified. The increase in costs in recent years followed the competitive tendering of the catering contracts to provide an improved quality and range of food to staff compared to the previous very limited service.

	£
1997–98	54,485
1998–99	56,022
1999–00	63,656
2000–01	81,537
2001–02	73,949
2002–03	92,840
2003–04	181,237
2004–05 (to date)	161,937

There are also two bars, but DFID makes no contribution to the staffing or supply costs for either of these.

Mr. George Osborne: To ask the Secretary of State for International Development how much has been spent on *(a)* entertainment lunches involving civil servants and guests and *(b)* working lunches, in each year since 1997. [215049]

Mr. Gareth Thomas: It is not possible to disaggregate specific costs relating to entertainment lunches and working lunches involving civil servants and guests from overall entertainment expenditure without incurring disproportionate cost. The following table shows recorded expenditure by my Department on entertainment for the years in question, to the nearest £000.

	£
1996–97	10,000
1997–98	24,000
1998–99	43,000
1999–2000	62,000
2000–01	48,000
2001–02	55,000
2002–03	82,000
2003–04	[1]219,000

[1] In 2003–04 DFID introduced new procedures to draw together administration costs, including those entertainment costs which had previously been recorded on country programme budgets. These changes have improved transparency and management of administration costs, but mean that figures from 2003–04 now include entertainment costs that were previously funded by country programmes and as a result are not comparable with earlier years.

All expenditure on official entertainment is made in accordance with published Departmental guidance on financial procedures and propriety, based on the principles set out in Government Accounting.

Mr. George Osborne: To ask the Secretary of State for International Development what the costs of cleaning the Department were in each year since 1997. [213784]

Hilary Benn: The Department For International Development (DFID) has spent the following sums on cleaning its offices since 1997:

		£
	Cost	*Cost per square foot*
1997–98	185,971	0.65
1998–99	169,170	0.68
1999–2000	185,055	0.74
2000–01	193,888	0.78
2001–02	165,807	0.82
2002–03	286,933	0.96
2003–04	351,331	1.17
2004–05 (to date)	267,380	n/a

The increase in overall costs from 2002–03 financial year is largely attributable to the Department's expansion in the amount of space occupied, as can be seen from the much smaller increase in cost per square foot.

Mr. George Osborne: To ask the Secretary of State for International Development what the cost of staff mobile phone bills was in each year since 1997. [214890]

Mr. Gareth Thomas: DFID has spent the following amounts on staff mobile phone bills:

April 2004 to date: £132,186

June 2003 to March 2004: £89,500

Mobile phones were not managed under a central contract prior to June 2004, and therefore information for earlier years (and information on mobile phones in overseas offices) is not readily available and cannot be provided without incurring disproportionate cost.

Mr. George Osborne: To ask the Secretary of State for International Development how much has been spent on *(a)* provision of parking spaces for civil servants and *(b)* parking tickets and penalties incurred by civil servants in the Department in each year since 1997. [213807]

Hilary Benn: The only sum spent in relation to car parking facilities for DFID staff in the UK during the period in question was approximately £1,000 on relining the car park at our East Kilbride office in 2001. Since the relocation of our London headquarters to our current location at 1 Palace street, with the exception of one disabled space we do not have car parking for our staff in either of our London offices.

DFID does not pay for parking tickets or penalties incurred by civil servants. Individuals are personally responsible for meeting the cost of any such fines.

Mr. George Osborne: To ask the Secretary of State for International Development how much has been spent on postage by the Department in each year since 1997. [215019]

Mr. Gareth Thomas: DFID has spent the following amounts on postage since 1997:

	£
1997–98	164,417
1998–99	161,627
1999–2000	216,120
2000–01	154,737
2001–02	128,424
2002–03	105,748
2003–04	102,125
2004–05 to date	55,860

In addition over the same periods the following has been spent on pre-paid postage:

	£
1997–98	29,944
1998–99	43,612
1999–2000	21,105
2000–01	34,588
2001–02	37,794
2002–03	40,876
2003–04	34,195
2004–05 to date	26,272

Mr. George Osborne: To ask the Secretary of State for International Development how much has been spent on official ministerial *(a)* business cards, *(b)* headed paper and *(c)* compliment slips in each year since 1997. [214943]

Hilary Benn: Expenditure on business cards was as follows:

	£
1999–2000	14,779.49
2000–01	24,283.85
2001–02	23,112.34
2002–03	18,161.58
2003–04	24,802.65
2004–05	[1]15,871.00

[1] To date

Corresponding information for the two earlier years is not readily available as it was not separately identified, and cannot be obtained without incurring disproportionate cost. DFID does not purchase headed notepaper as this is produced using an electronic template, and compliment slips are printed internally rather than purchased.

Mr. George Osborne: To ask the Secretary of State for International Development how much the Department spent on *(a)* stationery and *(b)* office supplies in each year since 1997. [213844]

Hilary Benn: The Department for International Development has spent the following on stationery and office supplies since 1997:

Financial year	£
1997–98	112,920.88
1998–99	97,315.35
1999–2000	99,704.63
2000–01	139,896.64
2001–02	100,488.02
2002–03	136,592.65
2003–04	158,603.15
2004–05 to date	96,286.70

Our records do not allow us to differentiate between stationery and office supplies.

Development Assistance

Tom Brake: To ask the Secretary of State for International Development which countries he expects will cease to receive development assistance from the UK in each of the next five years. [215316]

Hilary Benn: On current plans, we expect that the following countries will cease to receive development assistance directly from the British Government over the next five years:

2005: Romania, Bulgaria, Croatia, Former Yugoslav Republic of Macedonia, Kazakhstan.

2006: None

2007: None

2008: East Timor

2009: None

These countries will however continue to receive development assistance from the EC, other multilateral development organisations and/or British non-governmental organisations to which DFID makes substantial contributions.

Disaster Planning

Mr. Bercow: To ask the Secretary of State for International Development (1) what resources his Department plans to allocate to improve counter-disaster measures in the developing world; [215754]

(2) what discussions he has had with the representatives of developing countries on *(a)* preparing for and *(b)* improving their response to natural disasters; [215755]

(3) what assessment he has made of the views of the UN head of humanitarian affairs on disaster prevention and preparedness; [215756]

(4) if he will increase funding for disaster reduction. [215757]

Hilary Benn: DFID is already funding significant disaster risk reduction programmes in countries particularly susceptible to natural disasters, including India where we are providing over £60 million on disaster preparedness and reconstruction in Orissa over six years. DFID is the leading donor to the UN's International Strategy for Disaster Reduction at £1 million a year. We are also supporting other international organisations' efforts in this area including the International Federation of Red Cross and Crescent Societies and the Prevention Consortium Initiative.

We aim to increase our spending on disaster risk reduction. Where practical, we will allocate up to 10 per cent. of each natural disaster response to mitigate the impact of future disasters. We also plan to develop a strategy to set out how we can best make further progress in this sector.

The Parliamentary Under-Secretary of State for International Development held discussions with the UN Under Secretary General for Humanitarian Affairs at the Kobe Conference on 18 January 2005. We are pleased that Mr. Egeland is committed to pressing forward UN reform in this area and we are working closely with him and other interested donors to progress this.

The UK Delegation, led by the Parliamentary Under-Secretary of State for International Development, discussed disaster risk reduction with a number of developing countries at the World Conference on Disaster Reduction, including those most affected by the Indian Ocean tsunami. We stressed the importance of disaster risk reduction and encouraged the inclusion of disaster risk reduction measures, where appropriate, in countries' poverty reduction strategies.

EC Aid

Mr. Hayes: To ask the Secretary of State for International Development pursuant to the oral answer of 15 December 2004, *Official Report*, column 1654, on the European Union budget, if he will make a statement on the statistical evidence supporting the statement that repatriation of EC aid would lead to lower levels of development assistance worldwide. [207117]

Mr. Gareth Thomas: Member state contributions to European Commission development programmes are an annual, legally binding treaty obligation. There is no guarantee that in the event of repatriation, other member states and governments would maintain their previous level of development spend. Globally, the level of aid volumes could therefore fall.

As important is that working with the EC is an effective way to leverage more resources for development. EC aid equals 10 per cent. of world overseas development assistance and the member states of the European Union and the EC together provide over half of global development assistance. This collective effort has given Europe the credibility to challenge its own member states and other Development Assistance Committee (DAC) donors to increase ODA/gross national income targets and global development aid. EU co-ordination led in 2002 to a specific EU ODA/GNI volume target commitment of 0.39 per cent: by 2006 as an input to the Monterrey Financing for Development Conference. This has contributed to a considerable increase of aid resources by EU and non-EU donors in support of the Millennium Development Goals. Repatriating aid would reduce the UK's and EU's leverage to help secure such increases.

Eritrea

Mr. Laurence Robertson: To ask the Secretary of State for International Development if he will make a statement on the humanitarian situation in Eritrea. [217392]

Hilary Benn: Eritrea remains one of the poorest countries in the world. The humanitarian situation has been compounded by drought, four consecutive years of failed harvests and on-going conflict over its border with Ethiopia. The UN estimates that roughly two thirds of the population—2.2 million out of a population of 3.6 million—may need food aid assistance at some time during 2005.

The UN Consolidated Humanitarian Appeal (UN CAP) 2005 reports that global acute malnutrition (GAM) rates in 2004 peaked at 19 per cent. in Debub and 18.4 per cent. in Anseba, although rates are lower at present. Maternal malnutrition rates are thought to be among the highest in the world. The UN CAP 2005 for Eritrea is for $158 million, ($144 million of which is specifically for food aid).

Last year, DFID contributed £1 million to the UN CAP 2004 through the World Food Programme (WFP) and currently supports two humanitarian supplementary feeding programmes with the Dutch Interchurch Aid and CAFOD. DFID also funds a water project with Oxfam. The humanitarian programme for 2005 will be £3 million, an increase of £1 million for this financial year. The increase reflects the need to ensure the most urgent humanitarian needs are met in Eritrea this year.

EU Committees

Angus Robertson: To ask the Secretary of State for International Development how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch Presidency of the EU the Committee on co-financing operations with European non-governmental organisations in fields of interest to the developing countries met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [214261]

Mr. Gareth Thomas: The Co-Financing Operations with European Non Governmental Organisations Committee met once under the Italian Presidency of the EU, on 25 November 2003. The Committee met once under the Irish Presidency on 20 21 April 2004. The committee met twice under the Dutch Presidency, on 29 September 2004 and on 23 November 2004.

All meetings took place in Brussels and were attended by an official from the Department for International Development.

I refer the hon. Gentleman to the series of Command Papers that sets out the main elements of government business in the EU under the respective Presidencies: Cm 6174 laid in April 2004, Cm 6310 laid in September 2004 and Cm 6450 laid in February 2005. These are available on the Foreign and Commonwealth Office website: www.fco.gov.uk/commandpapers

Angus Robertson: To ask the Secretary of State for International Development how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch Presidency of the EU the Committee on food security and food aid met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [214262]

Mr. Gareth Thomas: The Food Aid and Food Security Committee met twice under the Italian Presidency of the EU, on 16 July 2003 and on 6 November 2003. The Committee did not meet under the Irish Presidency. Under the Dutch Presidency the Committee met twice; on 2 July 2004 and on 10 November 2004.

All meetings took place in Brussels and were attended by an official from the Department for International Development.

The Food Security and Food Aid Management Committee is convened and chaired by the Commission and is constituted for member states to assist the Commission with implementation of Council Regulation No 1292/96 of 27 June 1996. The EC's Food Security and Food Aid programme consists of identification, planning and implementation of food aid operations and operations in support of food security in developing countries.

Council Decision 1999/468/EC sets out to

"simplify the requirements for the exercise of implementing powers conferred on the Commission".

Under this decision, the Commission undertakes to publish an annual report on the working of committees. The reports are deposited in the Libraries of both Houses.

I refer the hon. Gentleman to the series of Command Papers that sets out the main elements of Government business in the EU under the respective Presidencies: Cm6174, laid in April 2004 and Cm6310, laid in September 2004.

Angus Robertson: To ask the Secretary of State for International Development how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Committee on implementation of humanitarian aid operations met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [215427]

Mr. Gareth Thomas: The Italian presidency of the European Union occupied the second six months of 2003. During that period the Humanitarian Aid Committee met five times, on a monthly basis with a break in August. Four meetings were held in Brussels, and one in Rome (October 2003). The Irish presidency ran for the first six months of 2004. Five meetings were held in Brussels, and one in Dublin (March 2004). The Dutch presidency occupied the second six months of 2004. Four meetings were held in Brussels, and one in the Hague (October 2004). The UK was represented by officials from DFID's Conflict and Humanitarian Affairs Department.

The Humanitarian Aid Committee operates independently of the presidency. It is convened and chaired by the Commission and is constituted for member states to assist the Commission with implementation of Council Regulation No. 1257/96 of 20 June 1996 concerning humanitarian aid. The EC's humanitarian aid programme provides assistance, relief and protection to victims of natural disasters and man-made crises in third countries, as well as preparedness for risks of natural disasters. It approves annual allocations ("global plans") to countries suffering chronic humanitarian crises, as well as emergency response to disasters.

Council Decision 1999/468/EC sets out to "simplify the requirements for the exercise of implementing powers conferred on the Commission". Under this Decision, the Commission undertakes to publish an annual report on the working of committees. The reports are deposited in the Libraries of both Houses.

I refer the hon. Gentleman to the series of Command Papers that sets out the main elements of government business in the EU under the respective presidencies: Cm6174, laid in April 2004 and Cm6310, laid in September 2004 refer.

Angus Robertson: To ask the Secretary of State for International Development how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Joint Committee (EEC-Côte d'Ivoire) met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [215428]

Mr. Gareth Thomas: DFID officials are not aware of any meetings of a Joint Committee (EEC-Côte d'Ivoire) having taken place. In response to our inquiries, the European Commission was unable to recall such a Committee ever having met or what its mandate might have been.

Angus Robertson: To ask the Secretary of State for International Development how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidencies of the EU the European Development Fund Committee met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [215935]

Mr. Gareth Thomas: The European Development Fund (EDF) Committee met four times under the Italian presidency of the EU, in July, September,

October and November 2003. The Committee met four times under the Irish presidency of the EU, in February, March, May and June 2004. The Committee met four times under the Dutch presidency, in July, September, October and November 2004.

All meetings took place in Brussels and were attended by officials from-the Department for International Development and the UK Permanent Representation in Brussels.

The EDF Committee operates independently of the presidency. It is convened and chaired by the Commission and is constituted for member states to meet with the Commission and the European Investment Bank (EIB). Its role is to scrutinise and approve financing proposals and allocation of EDF funds, serve as a forum for the exchange of views on country and regional strategies and approve multi-annual allocations to country and regional programmes.

Operations financed from the European Development Fund are governed by the provisions of the Partnership Agreement between the African, Caribbean and Pacific States and the European Community (ACP-EU) signed in Cotonou, Benin on 23 June 2000 (known as the Cotonou Agreement).

The 15 December 2000 Internal Agreement applicable to the Cotonou Agreement specifies that the Commission produce an annual report. This report is subject to parliamentary scrutiny in the normal manner.

I refer the hon. Gentleman to the series of Command Papers that sets out the main elements of government business in the EU under the respective presidencies: Cm6174, laid in April 2004 and Cm6310, laid in September 2004.

Angus Robertson: To ask the Secretary of State for International Development how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidencies of the EU the Advisory Committee on the special system of assistance to traditional ACP suppliers of bananas met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [215941]

Mr. Gareth Thomas: The Advisory Committee on the special system of assistance to traditional African, Caribbean and Pacific Countries (ACP) suppliers of bananas met once in November 2003 under the Dutch presidency of the EU, the Committee did not meet under the Irish presidency of the EU and met once in November 2004 under the Dutch presidency of the EU.

All meetings of this Committee took place in Brussels and were attended by officials from the Department for International Development and the UK Permanent Representation in Brussels.

The special framework of assistance (SFA) for traditional ACP suppliers of bananas provides for financial and technical assistance to 12 ACP countries, taking account of changes in the marketing arrangements for bananas in Europe following the amendments to the import regime introduced on 1 January 1999. The objective of this programme is to improve competitiveness of traditional ACP banana production. The Council regulation aims to achieve this goal by funding projects designed to increase banana productivity. Funding is also available for diversification where no opportunities for sustainable increase in banana production exists.

Council Decision 1999/468/EC sets out to "simplify the requirements for the exercise of implementing powers conferred on the Commission". As an obligation to this Decision, the Commission undertakes to publish an annual report on the working of committees. The reports are deposited in the Libraries of both Houses.

I refer the hon. Gentleman to the series of Command Papers that sets out the main elements of government business in the EU under the respective presidencies: Cm6174, laid in April 2004 and Cm6310, laid in September 2004.

EU Trade

Angus Robertson: To ask the Secretary of State for International Development what assessment his Department has made of the potential impact of the Expanding Exports Helpdesk on the *(a)* value and *(b)* volume of exports from developing countries into the European Union; and if he will make a statement. [215942]

Mr. Gareth Thomas: To help exporters in developing countries to make the most of EU trade preferences, and to make sure that this theoretical market access translates into more trade in practice, the European Commission set up the online Export Helpdesk in February 2004. This innovation aims to boost developing countries' exports by ensuring that exporters in these countries get the maximum information and assistance necessary to tackle the EU market. Practically it provides extensive information free of charge on customs duties, documentation, and rules of origin and trade statistics. An improved multilingual version, the Expanding Exports Helpdesk, was launched on 4 February 2005.

DFID has not made a formal assessment of the potential impact of this Helpdesk, but we expect the European Commission itself to monitor its impact regularly to ensure that it is effective and provides good value for money.

Angus Robertson: To ask the Secretary of State for International Development if he will list the official initiatives in *(a)* the UK and *(b)* the EU to boost export opportunities for developing countries; and if he will make a statement. [215943]

Mr. Gareth Thomas: The European Commission is responsible for EU member states' trade policies, including import policies. As part of this, the EU as a whole operates a series of preferential import arrangements with all developing country partners, either on a bilateral, regional or multilateral basis, including arrangements under the Cotonou Agreement, the Generalised System of Preferences, and the Everything But Arms Initiative. All of these have as part of their objectives the aim of improving the export competitiveness of developing countries and helping them take advantage of trading opportunities through privileged access to EU markets. In addition, the European Commission has recently launched an improved version of its "Expanding Exports Helpdesk".

aimed at boosting developing country exports to the EU by giving exporters in these countries all the practical information and advice they need.

In addition, the UK and EU provide support through its Trade Related Capacity Building (TRCB) Programmes. The UK has committed a total of £109 million since 1998 to building the skills and knowledge developing countries need to develop their trading capabilities, almost three quarters of which is aimed at helping small businesses export both regionally and internationally. The UK provides this support to increase the volume and value of developing country exports, including widening their range of exports and selling in a wider range of markets.

For example, in Southern Africa, the UK is funding a £12 million programme to boost export opportunities for small-scale farmers and traders by developing common standards across goods and services in the region and improving customs procedures.

We are also funding a £2 million programme in Kenya, which is supporting the business and investment climate there, in order to strengthen Kenyan capacity to export goods to regional and international markets.

The UK is also funding a £17 million programme which will enable small enterprises from Nigeria to access new commodity and services markets—including international markets.

Additionally, we contribute to European TRCB efforts, which have provided £675 million to develop the exports of developing countries since 2001.

Grenada

John Austin: To ask the Secretary of State for International Development (1) what assessment he has made of the level of continuing need for aid and assistance in Grenada following Hurricane Ivan; and if he will make a statement; [216601]

(2) what assessment he has made of the impact on the *(a)* tourist industry and *(b)* economy of Grenada of Hurricane Ivan; and if he will make a statement; [216603]

(3) what assistance is being given to Grenada to diversify its agricultural production; and if he will make a statement; [216606]

(4) what assessment he has made of the impact of Hurricane Ivan on agriculture in Grenada, with particular reference to *(a)* nutmeg and *(b)* cocoa; and what assistance is being given towards recovery of these industries; [216604]

(5) what assessment he has made of housing need in Grenada following Hurricane Ivan; and what assistance his Department is providing. [216605]

Mr. Gareth Thomas: Hurricane Ivan has been a catastrophe for Grenada. Two weeks after the hurricane hit the island, the Organisation of Eastern Caribbean States (OECS) and the Economic Commission for Latin America and the Caribbean (ECLAC) undertook a macro-socio-economic assessment of the damage caused. This assessed that 90 per cent. of housing stock was either destroyed or damaged, and around 30 per cent. of the population made homeless. The OECS/ECLAC assessment indicated that the damage to schools, hospitals, businesses and infrastructure was estimated to be in the region of £500 million, or twice Grenada's Gross Domestic Product (GDP).

Grenada had been recording impressive growth rates in recent years and was expected to grow by 5.7 per cent. in 2004. With significant losses to the main productive sectors of agriculture and tourism caused by the hurricane, the economy is now expected to have contracted by 1.4 per cent. in 2004. Some 90 per cent. of hotel rooms on the island were affected by the hurricane. A staff mission from the International Monetary Fund (IMF) will provide a further update on the post-Ivan macro-economic situation and the prospects for economic recovery at a donor briefing meeting in Barbados at the end of February 2005.

Unemployment has increased with an estimated 40,000 jobs directly affected by the hurricane. However, as the physical reconstruction of buildings and infrastructure gets under way, it is anticipated that unemployment levels will start to decline.

The devastation to the agricultural sector caused by Hurricane Ivan was particularly severe: 95 per cent. of nutmeg trees—Grenada's principal export commodity—were uprooted. Regrowth and recovery of the nutmeg industry will take an estimated 7–10 years. Grenada can, however, continue to export its reserve stocks for the next three years. This should help to cushion the impact of the loss of the trees on the economy. Cocoa was also affected, albeit, to a much lesser extent. 30 per cent. of the crop will need to be replanted, and it is expected that 50–70 per cent. of the harvest for next year will be available.

At the 19 November donor conference on Grenada, the IMF announced that for the calendar year of 2004, donor contributions would fill the £21 million gap in Grenada's finances. At that time, the IMF anticipated that a financing gap of £4.2 million remained for 2005, which would widen in 2006 to £19.2 million. The IMF currently has a team in Grenada to undertake a fuller assessment of financing needs in 2005 and 2006. The IMF team will brief DFID officials and other development partners on their findings at a meeting in Barbados on 23 February 2005.

One of the key financial challenges for the Government of Grenada is a high debt burden. We are working with the United States Agency for International Development, to provide a team of debt advisers to help the Government of Grenada to restructure its total stock of debt.

Despite the unprecedented scale of the damage to the agricultural sector, the Grenadian Government has identified significant potential to restructure and transform the sector with support from the private sector. DFID is currently funding an evaluation of the direct and indirect effects of Hurricane Ivan on the forestry sector in Grenada as the basis for determining the interventions needed to rehabilitate and reconstruct the forestry sector. The study will implement a detailed assessment of the key damage to forestation on the island, and prioritise activities to ensure that work is urgently undertaken to prevent landslides and provide protection to the water table.

Under the United Nations Flash Appeal for Grenada, the UN's Food and Agriculture Organisation, appealed for some £2.2[1] million to support agriculture. £1.4 million has so far been committed and assistance has been provided to rehabilitate the cocoa crop and to assist the Government in its development of a strategy for nutmeg production.

The Grenada Board of Tourism now reports 50 per cent. of hotel rooms on the island are back in operation, and predicts that the figure will be 80 per cent. by the end of December 2005. The rehabilitation has been mainly funded by private insurance and the private sector.

Reconstruction of the housing sector is a Government of Grenada priority, and is under way. Insurance payments are being made to those eligible, and the raw materials needed are being imported. For priority vulnerable and needy families, the Government of Grenada has committed itself to constructing 225 low-income homes between November 2004 and February 2005 at a cost of about £8,000 per home, and providing material assistance for the repair of 1,125 roofs during the same period. The Government are also offering a Soft Loan Facility that provides a maximum loan amount of approximately £8,000 for 10 years with a one year grace period, at an interest rate of 3 per cent. A training and a public information programme on construction tips are also on-going, with model houses displaying appropriate building techniques being driven around the island. Over a longer timeframe, the Government of Grenada has set a target to construct 10,000 low-income homes under a phased programme over the next five years.

In addition, the Venezuelan Government has committed to the construction of 130 homes in the Parish of St. David's; the United States Agency for International Development (USAID) to constructing 200 houses and repairing a further 1,500 houses by the end of 2005; and the People's Republic of China has also undertaken to provide 2,000 low-cost homes. A number of NGOs are seeking to provide low-cost, quickly constructed homes.

DFID's micro finance project in Grenada has developed a new facility for small housing loans. The European Commission are considering how their micro finance programme might provide similar support.

[1] Conversion US$ to GBP = 1.8

Guyana

Angus Robertson: To ask the Secretary of State for International Development what assistance his Department is providing to *(a)* the Government of Guyana, *(b)* non-governmental organisations in Guyana and *(c)* multinational agencies and institutions assisting Guyana to deal with the aftermath of the flooding that occurred in Guyana in January 2005; and if he will make a statement. [216322]

Mr. Gareth Thomas: I refer the hon. Member to the answer I gave to my hon. Friend the Member for Hackney, North and Stoke Newington (Ms Abbott) on 7 February 2005, *Official Report*, column 1219W, and also to the written ministerial statement I made on 10 February 2005, *Official Report*, columns 91–93WS.

HIV/AIDS

Mr. Colman: To ask the Secretary of State for International Development what assessment his Department has made of recent research into *(a)* the drug Nevirapine and *(b)* the consequences of that research for use of the drug in preventing HIV/AIDS transmission from mother to baby. [215964]

Hilary Benn: Nevirapine is one of the most cost-effective and clinically effective ways of preventing mother to child transmission of HIV. However, there have been concerns raised about the extent to which the use of the drug creates resistance. These issues will be discussed at a conference on Retrovirus and Opportunistic Infections in Boston in two weeks time.

DFID follows World Health Organisation guidelines on treatment for HIV positive mothers. The guidelines provide for a range of options, that take into account both clinical outcomes and practical considerations about health system capacity in each country, and the difficulties for women to adhere to more complicated treatment regimes.

Ms Keeble: To ask the Secretary of State for International Development if he will take steps to ensure that the EU's HIV/AIDS strategy in developing countries *(a)* gives priority to HIV/AIDS orphans and vulnerable children, *(b)* adopts the Unicef-led framework for protection of these children and *(c)* allocates adequate resources to it. [215345]

Mr. Gareth Thomas: Along with other member states we are engaging in the consultation process towards a new Programme for Action on HIV/AIDS, malaria and tuberculosis which the EC expects to adopt in 2006. The current Programme for Action does not sufficiently address the needs of orphans and vulnerable children and we will consider how best to address this gap in the forthcoming consultations.

Last July, DFID was one of the first bilateral development agencies, along with Danish International Development Agency (DANI DA) and USAID, to endorse the UNAIDS/UNICEF Framework for the protection, care and support of orphans and vulnerable children living in a world with HIV/AIDS. Since then we have taken every opportunity to promote its use with governments and other organisations working to provide protection, care and support to children affected by AIDS. This includes children living with HIV and AIDS.

We will use our Presidencies of the G8 and the EU to increase action on AIDS and will encourage those member states who have not yet endorsed the framework to do so. Committing resources to implement the framework for the protection, care and support of orphans and vulnerable children through national plans is key to this.

Responding to the needs of orphans and vulnerable children needs to be part of the larger picture of the AIDS response. By the end of 2005, we want to have agreement among donors and the international system on a well coordinated and funded plan to tackle AIDS which will include support for the protection, care and support of orphans and vulnerable children.

Hurricane Ivan

John Austin: To ask the Secretary of State for International Development what assessment he has made of the differences between pledges made by the international community of donations to assist with recovery from Hurricane Ivan and the amounts raised. [216602]

Mr. Gareth Thomas: Officials from the Department for International Development (DFID) are in constant contact with the other major donors, and receive regular updates on commitments and disbursements. Thus far, the Government of Grenada have received considerable commitments from the international donor community to provide reconstruction and recovery assistance. At the 19 November 2004 Second Donor Conference on Grenada, the World Bank reported that the total commitments were in the order of £105 million. However, this remains a fluid situation, and additional monies have also been pledged from non-traditional donors such as Taiwan and Venezuela.

DFID is leading on the development of a single donor framework for monitoring and reporting on finances and implementation progress. This will reduce the burden on the Government of Grenada to fulfil a number of different reporting requirements. It will also provide a clearer picture of donor commitments and disbursements, allowing the Government to plan better their reconstruction programme.

The UK Government have provided nearly £7.1 million of additional support to Grenada since the hurricane, as represented in the following table. On 18 October, the Secretary of State for International Development announced the provision of £5.5 million worth of emergency budgetary support to the Government of Grenada in order to help meet their wage and salaries bill in the last quarter of 2004. This budgetary support was released to the Government at the beginning of January 2005 while emergency response contributions were released immediately after the hurricane hit Grenada.

UK's financial contributions to Grenada post-Ivan

	£
Emergency relief supplies	56,000
Development assistance to maintain the delivery of public services	5.5 million
Health services through the Pan-American Health Organisation	85,000
Emergency help through the International Federation of the Red Cross	300,000
Relief and rehabilitation through Christian Aid	239,000
Relief operations through Oxfam	200,000
The UK's portion of European humanitarian assistance	700,000
Total	7,080,193

Mr. Gill: To ask the Secretary of State for International Development what assistance is being provided by his Department to *(a)* Grenada, *(b)* the Cayman Islands and *(c)* the Caribbean region as a result of Hurricane Ivan; and if he will make a statement. [216656]

Mr. Gareth Thomas: In response to the disaster caused in the Caribbean by Hurricane Ivan, the Government have provided both immediate emergency assistance and additional development assistance totalling some £8.6 million. Most of this has been delivered by the Department for International Development (DFID), and has included:

	£
Emergency relief supplies	56,000
Development Assistance to enable public services to continue	5.5 million
Health services through the Pan-American Health Organisation	85,000
Emergency help through the International Federation of the Red Cross	300,000
Relief and rehabilitation through Christian Aid	239,193
Relief operations through Oxfam	200,000
The UK's portion of European humanitarian assistance	700,000
Total	7,080,193

We have also changed our ongoing programmes in Public Sector Reform, Education and Micro-Finance to take account of the disaster in Grenada. We are funding a surveyor and architect to assess the damage and re-building options for the Grenadian Parliament and the Governor-General's House; jointly with the United States Agency for International Development, we are providing a team of debt advisers to help the Government of Grenada restructure the total stock of Grenada's debt; and funding a Forestry specialist to advise on reforestation, which will help prevent landslides and provide some protection for the water table. We are also co-ordinating design work for a harmonised donor approach to monitoring and reporting which will reduce the Government's need to respond to a number of different reporting requirements. DFID continues to remain engaged in this process as the international community works together to assist Grenada rebuild its economy.

Other UK Government Departments played a vital role in the immediate aftermath of the hurricane. HMS Richmond and the Royal Fleet Auxiliary ship Wave Ruler provided immediate emergency medical help and clean-up support. The Foreign and Commonwealth Office funded urgent repairs to the prison.

In the aftermath of Hurricane Ivan, the Government provided emergency relief supplies and a contribution to the clean-up operations, worth about £230,000 in total, to the Cayman Islands. In addition, DFID's Disaster Management Adviser visited Grand Cayman to offer advice. The Government remains engaged.

Other assistance in the region included £940,699 to Jamaica, £50,000 to Cuba and £304,560 to the Bahamas. A further £50,000 worth of assistance to the region was provided through the Pan American Health Organisation.

Iran (Bam Earthquake)

Tom Brake: To ask the Secretary of State for International Development how much *(a)* financial, *(b)* material, *(c)* personnel and *(d)* other aid the UK Government (i) pledged and (ii) delivered to Iran after the Bam earthquake. [207738]

Hilary Benn: After the Bam earthquake, DFID pledged around £2.15 million, of which we have disbursed all apart from £450,000 which we had pledged

to the International Federation of the Red Cross but which was subsequently not needed because their appeal was sufficiently funded by other contributions they received.

Of the money spent, £1,206,640 was channelled through United Nations agencies and non-governmental organisations as financial support. From the balance, DFID provided 68 search and rescue specialists and four DFID personnel, 450 family winterised tents and other shelter materials for distribution by the Iranian Red Crescent as well as two cargo aircraft put at the disposal of the Iranian Government.

Iraq

Mr. Hayes: To ask the Secretary of State for International Development what reports his Department has received on corruption within the UN aid distribution network in Southern Iraq; what investigations have been undertaken by agencies within the Basrah UN node; what losses have been estimated of UN assets; and if he will make a statement. [216460]

Hilary Benn: DFID has not received any reports of corruption, or investigations into corruption, relating to United Nations development projects in southern Iraq.

Lembit Öpik: To ask the Secretary of State for International Development (1) what steps the Government have taken to provide medical assistance to civilians injured during the conflict in Iraq; and if he will make a statement; [216847]

(2) what resources the Government have provided to assist civilians injured during the conflict in Iraq; and if he will make a statement. [216848]

Hilary Benn: Improving health services presents major challenges and will take time. The system has suffered from neglect and decades of under-investment. The Iraqi Ministry of Health (MoH) have acknowledged these challenges and, with support from donors, has identified priorities for investment and development. Despite the security situation steady progress is being made: for example salaries have improved, hospital and primary care clinics rehabilitated and national immunisation programmes organised.

The UN and the World Bank managed multi-donor Trusts Funds are providing support to the health sector in partnership with the MoH, focusing on emergency and primary health care services which affect the poorest and most vulnerable. DFID has contributed £70 million to the multi-donor trust funds, £5 million to the World Health Organisation (WHO) and technical assistance to the MoH.

Lembit Öpik: To ask the Secretary of State for International Development (1) what resources the Government have provided to assist civilians suffering from psychological distress as a result of the conflict in Iraq; and if he will make a statement; [216849]

(2) what steps the Government have taken to provide assistance to civilians suffering from psychological distress as the result of the conflict in Iraq; and if he will make a statement. [216850]

Hilary Benn: In its 'Health in Iraq' report of September 2004, the Iraqi Ministry of Health (MoH) notes the lack of mental health services and that new approaches to community mental health are needed. The report also highlights the need to address psychosocial issues, mental health promotion at individual and community level integration of mental health into primary care. A national workshop, conducted by the MoH in June 2004, discussed priorities for mental health promotion and strengthening of services. The MoH has taken this agenda forward through the development of a new planning process for 2005, published as the 'Planning Guidelines for 2005', in which the MoH have set out national priorities, objectives and standards.

DFID's support for the health sector in Iraq, including psychosocial support, is primarily channelled through the multi-donor Trust Fund managed by the United Nations, to which DFID has made an initial contribution of £30 million. UN work in this sector will focus on the provision of technical assistance to develop mental health and psychosocial support services at the primary level. DFID has also provided technical assistance to the MoH, directly and through the World Health Organisation (WH[illegible]

Kazakhstan

Mr. Bercow: To ask the Secretary of State for International Development what discussions he has had with the Government of Kazakhstan about the use of oil revenues to promote sustainable development. [215769]

Mr. Gareth Thomas: DFID has had numerous discussions with the Government of Kazakhstan, to urge them to participate in the Extractive Industries Transparency Initiative (EITI), a UK-led international initiative to promote transparency over revenues from oil, gas and mining. The UK Government believe that EITI could lead to significant improvements in resource management in Kazakhstan, and help to ensure that Kazakhstan's significant oil revenues fulfil their potential as an engine for growth and poverty reduction.

Kazakhstan sent representatives to the EITI conference held in London in 2003, and signed the statement of principles agreed at that conference. However, DFID is not aware of any significant progress by the Government of Kazakhstan towards EITI implementation since then. The UK Government have raised this issue at official level on a number of occasions, and will continue to do so. We also hope to be able to discuss it with Kazakh representatives at the forthcoming EITI conference on 17 March, and the issue is part of the broader UK-Kazakhstan Energy Dialogue.

The UK Government are also supporting a project through the FCO's Global Opportunities Fund, which is developing Kazakhstan's Energy Strategy to 2020. A sound energy policy will help promote sustainable development. The same fund is being used to support a series of Chatham House workshops on good governance in oil and gas producing countries, to which Kazakhstan has been invited.

Kenya

Mr. Bercow: To ask the Secretary of State for International Development what recent assessment he has made of the level of corruption in Kenya; and what discussions he has had with the Kenyan Government on *(a)* tackling corruption and *(b)* establishing good governance. [215662]

Hilary Benn: The anti-corruption ticket, which swept the Kenyan Government into power in 2002, has been almost totally discredited. Though Transparency International records a slight reduction in the perception of petty corruption and bribery, grand corruption seems to have returned to pre-2002 levels and possibly higher. The resignation on 7 February of the Permanent Secretary in the Office of Governance and Ethics, John Githongo, was a particularly severe blow to the Government's anti-corruption credentials.

In continued dialogue with the Government, the UK and other donors have made clear that allegations about *unsatisfactory tendering and contracting procedures are* serious and need to be fully investigated. We have remained categorical that firm action should be taken against those found to have acted corruptly. We have continued to press the Government to pass important legislation including the Public Procurement Bill, and the Public Financial Management Bill.

At the same time, we continue to encourage the Kenyan Government to give their full and undivided support to the country's anti-corruption institutions. The UK authorities have assisted the Kenyan authorities with their ongoing investigations. We will continue to give them co-operation and would consider further help with investigations into corrupt cases that are followed through with energy and probity. They should be followed through to their conclusion and those found responsible made to answer for their wrongdoings, regardless of position or connections.

To this end, DFID is supporting the central Government systems that are intended to ensure that public financial resources are monitored and used more effectively. DFID, alongside 16 other donors, is also supporting the Kenyan Governance, Justice, Law and Order sector. This programme is working to strengthen key institutions that are directly involved in fighting corruption. There is to be increased support to the Director of Public Prosecution, Kenya Anti-Corruption Commission and civil society organisations, such as Transparency International, that work to improve the transparency of public resources. The donors will take recent events into account when making their assessments and planning their joint ongoing support, and the emphasis must be on building the institutions over the medium term, but the Kenyan Government will have to demonstrate that they are serious about tackling corruption.

Mr. Bercow: To ask the Secretary of State for International Development what mechanisms his Department has put in place to ensure that effective delivery of aid is not prevented by corruption in Kenya. [215663]

Hilary Benn: DFID's programme in Kenya is subject to the same rigorous safeguards as all our development assistance. These are intended to ensure that funds are spent in line with our objectives and with minimal risk of fraud or misappropriation. DFID is not providing poverty reduction budget support to the Kenyan Government, since we are not convinced that the Government are either seriously committed to fighting corruption or to making good progress on its overall reform programme. However, we can make progress on the Millennium Development Goals by supporting specific sectors and projects.

DFID is also supporting the central Government systems that are intended to ensure that public financial resources are monitored and used more effectively.

DFID, alongside 16 other donors, is also supporting the Kenyan Governance, Justice, Law and Order sector. This programme is working to strengthen key institutions that are directly involved in fighting corruption. There is to be increased support to the Director of Public Prosecution, Kenya Anti-Corruption Commission and civil society organisations, such as Transparency International, that work to improve the transparency of public resources.

Mr. Bercow: To ask the Secretary of State for International Development whether he plans to reduce aid to Kenya in response to its slow progress in tackling corruption. [215664]

Hilary Benn: Our Country Assistance Plan, launched with the Government of Kenya in June 2004, makes clear that we want to support the implementation of Kenya's Economic Recovery Strategy (ERS). Our CAP makes provision to increase our development assistance to £50 million in 2005–06, but final decisions will depend on ERS progress, including tackling corruption. Our assistance is designed to support long term change in Kenya that will lead to improved governance, and to help Kenya to make sustainable progress towards the MDGs. The faster the pace of reform, and the more conducive the environment, the faster progress we will make.

However, we are not providing poverty reduction budget support to the Kenyan Government, since we are not convinced that the Government is seriously committed to fighting corruption and making good progress on its overall reform programme.

Nonetheless, we believe that we can make progress on the Millennium Development Goals by supporting specific sectors and projects. For example there are opportunities for constructive engagement in, and support to, the education and justice, law and order sectors. In these we have pooled our funding with other donors to support the Government of Kenya's own strategies such as free primary education, without putting our money directly into their systems. Under these arrangements, we helped the Government to set up reliable school management systems to attract large support for learning materials for primary schools. All 18,000 primary schools in Kenya now have textbooks.

In addition, there are opportunities even in sectors that have less well-established strategies by the Government of Kenya. In health for example, DFID is funding the social marketing of insecticide treated bed nets that is expected to reduce the rate of under-five mortality by 14 per cent. (68,000 lives saved).

Mr. Bercow: To ask the Secretary of State for International Development what progress has been made by the Kenyan Government in *(a)* promoting and *(b)* implementing good governance practices. [215665]

Hilary Benn: Progress on governance by the Kenyan Government has generally been disappointing. However, there have been a few exceptions. The Government established a governance, justice, law and order reform programme with support from 16 donors, including support for anti-corruption institutions, police training, and judicial reform. In addition, the investigations into the Goldenberg scandal have continued credibly; all public servants (including the president) have declared their assets; land policy has been formulated and land laws are being reviewed; and there have been wider governance achievements around improved national budgetary processes and primary school management. Progress is being made in the implementation of the national integrated Monitoring and Evaluation system at both central and devolved level, and this will be fully rolled out during 2005.

However, progress on dealing with corruption, especially on prosecutions, remains too slow. The biggest blow came last week with the resignation of the Permanent Secretary in the Office of President in charge of Public Ethics and Governance. The Public Procurement Bill has still not been passed. The continuing failure to bring the Constitutional Review process to a satisfactory conclusion has impeded progress towards the Government's objective of decentralisation and empowerment of local communities.

Latin America

Angus Robertson: To ask the Secretary of State for International Development what assessment his Department has made of the impact of the Cartagena Declaration on the *(a)* definition and *(b)* treatment of refugees in Latin America; and if he will make a statement. [216293]

Mr. Gareth Thomas: DFID has made no assessment of its own of the impact of the Cartagena Declaration on either *(a)* the definition or *(b)* treatment of refugees in Latin America.

The United Nations High Commissioner for Refugees (UNHCR), who leads on refugee issues, organised a meeting last November in Mexico City on the 20th anniversary of the Cartagena Declaration. At that meeting, the Latin American countries re-affirmed their commitment to the spirit of the Cartagena Declaration on Refugees and approved a Plan of Action to improve refugee protection throughout the region. The UNHCR is expected to include a number of programmes/projects outlined in the Mexico Plan of Action into its 2006 country operation plans in the region, as a way to guarantee a concrete follow up and implementation of the recommendations. Further details can be found on the UNHCR website (www.unhcr.ch).

Liberia

Angus Robertson: To ask the Secretary of State for International Development what contribution his Department *(a)* has made and *(b)* is making to the dispatch of emergency aid to Butuo, Liberia. [216287]

Hilary Benn: With the upsurge of violence in Cote d'Ivoire in November 2004, approximately 10,000 Ivorian refugees fled to Liberia, into Butuo town and its vicinity. The UN High Commissioner for Refugees (UNHCR), the World Food Programme and NGOs brought initial food and other assistance to these refugees by helicopter, drawing in part on £4.7 million in grants already provided by DFID for their work in Liberia. According to the UNHCR, over half the refugees have returned to Cote d'Ivoire, and the remaining 5,000 in and around Butuo are now receiving adequate levels of support, again drawing on DFID grants.

Angus Robertson: To ask the Secretary of State for International Development what assistance his Department is providing to the UN High Commissioner for Refugees for its voluntary return programme for the repatriation of Liberian refugees. [216290]

Hilary Benn: DFID has recently provided a grant of £1.1 million to the United Nations High Commissioner for Refugees (UNHCR) in support of its programme to facilitate voluntary return of Liberian refugees from neighbouring countries. DFID funds are helping provide non-food items, transport capacity, road repairs and protection assistance. DFID has also provided £1 million to the World Food Programme to support the distribution of food rations to returning refugees, and a further £3 million to various agencies and NGOs to reactivate services and livelihoods in areas to which refugees are returning.

Angus Robertson: To ask the Secretary of State for International Development what estimate his Department has made of the number of Liberian refugees in West Africa. [216291]

Hilary Benn: DFID relies mainly on data from the UN High Commissioner for Refugees, who reports that there are currently 257,000 Liberian refugees registered in camps across West Africa: 42,000 in Ghana, 52,500 in Sierra Leone, 74,000 in Côte d'Ivoire, 1,000 in the Gambia, and 87,500 in Guinea. These figures take into account recent voluntary facilitated returns of nearly 7,000 refugees from neighbouring countries, but may not take into account unofficial spontaneous repatriation. In addition, up to 75,000 Liberian refugees are estimated to reside outside formal refugee camps in Sierra Leone, Guinea and Nigeria.

Malawi

Angus Robertson: To ask the Secretary of State for International Development what assessment his Department has made of projects aimed at diversifying the agricultural sector of the economy of Malawi; and if he will make a statement. [216735]

Hilary Benn: DFID has supported studies, programmes and organisations in Malawi that have contributed to the development of Malawi's economic

growth strategy and more productive agriculture. Over time, these will lead to a re-balancing of the economy and of crop production.

Angus Robertson: To ask the Secretary of State for International Development what assessment his Department has made of the need to diversify the agricultural sector of the economy of Malawi away from tobacco farming; and if he will make a statement.[216736]

Hilary Benn: Tobacco contributes 60 per cent. of Malawi's export earnings. It is produced increasingly by smallholders who make up 80 per cent. of the population. Furthermore, Malawi is one of the poorest countries in the world and the Government of Malawi is naturally cautious about the risks of premature diversification out of tobacco. DFID knows of no evidence to suggest that there are alternative crops that are high value and low volume and therefore appropriate for export from a landlocked country and whose production could be scaled up rapidly under present circumstances in Malawi to replace tobacco in the short to medium term.

However, if the Malawi Government's policies for promoting economic growth are successful, we expect agriculture to contribute significantly less to national income in the longer term and more emphasis to be placed in agriculture on the regional trade in food staples. Changes in international trade policies could facilitate this diversification.

Mr. Nelson Mandela

Llew Smith: To ask the Secretary of State for International Development when he last met Mr. Nelson Mandela; and what matters were discussed. [215329]

Hilary Benn: I met with Nelson Mandela on 3 February 2005 with the Prime Minister and Chancellor of Exchequer. We discussed the Africa and the G8 and how we can achieve our objectives on aid, debt relief and trade.

Nepal

Clare Short: To ask the Secretary of State for International Development what plans he has to modify his Department's development programme in Nepal following King Gyanendra's recent actions in the country; what assessment he has made of allegations of misuse of development funds by the Royal Nepal Army; and if he will make a statement. [215937]

Mr. Gareth Thomas: DFID has been monitoring recent developments in Nepal closely and with considerable concern.

The criteria for reviewing the DFID programme in Nepal will remain clearly focused on an assessment of continued effectiveness and capacity to support pro-poor development and on the safety and security of staff.

DFID will monitor the situation over the coming weeks, do all we can to maintain respect for unhindered access by poor communities to development assistance and assess changes in the operating environment over this period.

For the time being, DFID will continue those programmes that operate through non-government channels, where we assess it is safe to do so. We have placed under immediate review, our programmes which operate through governmental channels, in order to assess, case by case, whether they can now be expected to deliver the poverty reduction benefits anticipated at the time of their approval.

Over a slightly longer timeframe, we will also undertake a comprehensive review of the programme, to decide on a balance of aid instruments, funding channels and resource allocations that is appropriate under the new circumstances.

I am not aware of any systematic or orchestrated misuse of development funds by the Royal Nepalese Army.

New Partnership for Africa's Development

Mr. Bercow: To ask the Secretary of State for International Development (1) what measures his Department supports to improve the effectiveness of the New Partnership for Africa's Development peer review mechanism; [215636]

(2) what assessment he has made of the New Partnership for Africa's Development peer review mechanism. [215635]

Hilary Benn: The New Partnership for African Development's (NEPAD) African Peer Review Mechanism (APRM) is a promising initiative to improve governance in Africa. DFID is ready to support the APRM Trust Fund when it is up and running. This will facilitate the work of the APRM secretariat and their engagement with country peer reviews. DFID has contributed £160,000 to Ghana and £300,000 to Rwanda to support the APRM in these two countries. The initiative is still in its early stages and it is too early to assess effectiveness.

Mr. Bercow: To ask the Secretary of State for International Development what discussions he has had with *(a)* the African Union (AU), *(b)* the South African Government and *(c)* the New Partnership for Africa's Development (NEPAD) concerning the possible incorporation of NEPAD into the AU structure.[215680]

Hilary Benn: In July 2004 at the African Union (AU) Summit, the New Partnership for Africa's Development (NEPAD) was legally and administratively incorporated into the AU, changing the name to AU-NEPAD. Prior to this and subsequently, DFID officials have regularly discussed related issues with the AU, South African Government and NEPAD.

Mr. Bercow: To ask the Secretary of State for International Development what assessment he has made of the effects of incorporating into the African Union the New Partnership for Africa's Development. [215681]

Hilary Benn: We support the incorporation of the New Partnership for Africa's Development (NEPAD) into the African Union (AU) as a means of ensuring coordination of these important initiatives. It is too early to make an assessment of how effective this will be in practice.

Palestine

Mrs. Anne Campbell: To ask the Secretary of State for International Development what *(a)* humanitarian and *(b)* other aid assistance is being provided by his Department to the Palestinian Lebanese refugees. [215772]

Hilary Benn: DFID provides humanitarian and development assistance to Palestinian refugees in Lebanon through its funding of the United Nations Relief and Works Agency for Palestinian Refugees (UNRWA). Since 2000, DFID has contributed over £65 million to UNRWA's regular budget which provides basic education, health and social services to the refugee population. Over 15 per cent. of this funding directly supports those refugees based in Lebanon. Because of the particularly poor social and economic conditions in the refugee camps in Lebanon, UNRWA allocates more per person there than to the other centres in the region.

Rohingya Refugees

Angus Robertson: To ask the Secretary of State for International Development what programmes his Department *(a)* has set up, *(b)* is running and *(c)* is funding in Malaysia to assist the Rohingya refugees from Myanmar. [216292]

Mr. Gareth Thomas: DFID is not running or funding projects in Malaysia to assist the approximately 10,000 Rohingya refugees from Burma. DFID does not have a programme in Malaysia, which is one of South East Asia's richest countries. EU Missions in Malaysia, at the initiative of the UK, have lobbied the Malaysian Government over the status and treatment of Rohingya refugees, most recently in November 2004 following the Malaysian Government's decision to issue them with identify cards.

DFID's support to Burmese refugees is focused on support to the 185,000 Burmese people living in camps in Thailand. We support the Thailand Burma Border Consortium (TBBC) in providing food and shelter for those living in the camps. We are also funding the World Health Organisation to co-ordinate health services to refugees on the Thai-Burma border.

South Africa

Mr. Bercow: To ask the Secretary of State for International Development what recent discussions he has had with the Government of South Africa about *(a)* acknowledgement of the scale of the HIV/AIDS problem and *(b)* the allocation of resources and expertise to tackle the epidemic. [215666]

Hilary Benn: The Government of South Africa recognises the scale of their HIV/AIDS epidemic and, since 2000, has increased sevenfold, the amount allocated through the budget to HIV/AIDS programmes. South Africa launched its "operational plan" for comprehensive HIV and AIDS care, management and treatment in November 2003. During 2004, more than half a million people undertook voluntary counselling and testing, and more than 50,000 started anti-retroviral treatment.

DFID supports South African efforts to combat HIV and AIDS through a number of programmes. A £30 million multisectoral HIV/AIDS programme, approved in 2003, provides technical support and advice to Government at national and provincial levels to implement its plans. The programme also provides support to non-governmental organisations and works with the private sector to disseminate best practice.

DFID and British high commission staff in Pretoria regularly discuss both the scale of the epidemic, and the Government of South Africa's response, with their South African Government counterparts.

Staff Identity Passes

Mr. George Osborne: To ask the Secretary of State for International Development what the cost of producing a staff identity pass was in the Department on the latest date for which figures are available; and how many staff identity passes have been reported lost or stolen in each year since 1997. [215085]

Mr. Gareth Thomas: The cost of producing a staff identity pass is £4.57, made up of the encodable pass itself (£3.99) and production costs (58p).

According to available records the number of passes reported lost or stolen since 1998 is as follows:

	Number
1998	4
1999	21
2000	26
2001	30
2002	45
2003	39
2004	30

Figures for 1997 are not available.

Staff Surveys

Mr. George Osborne: To ask the Secretary of State for International Development (1) what the cost of staff surveys in the Department was in each year since 1997; [213673]

(2) how much was paid to consultants carrying out staff surveys in the Department in each year since 1997. [213665]

Hilary Benn: The Department for International Development commissioned two staff surveys in 2004, at a total cost of £86,435. The Department has also carried out staff management surveys in 2000, 2001 and 2003. These were undertaken in house and no external costs were incurred

The specific internal costs could not be identified without incurring a disproportionate cost.

Sudan

Mr. Hume: To ask the Secretary of State for International Development what steps the United Kingdom is taking in partnership with other countries to ensure that the food, shelter, sanitation, healthcare and other basic needs of refugees in the Darfur region of

Sudan are being adequately met; and what steps are being taken to assist in providing protection against attacks. [216664]

Hilary Benn: The UK is the second largest bilateral donor to the Darfur crisis, having committed £62.5 million since September 2003. The UK also contributes around 18 per cent. of the European Commission's €152 million contribution to the crisis. This year the UK will provide £70 million in humanitarian assistance across Sudan. This includes £20 million for non-governmental organisations (NGOs) working in a wide range of sectors, including food, shelter, sanitation, and healthcare; £5 million for the International Committee of the Red Cross (ICRC) 2005 Sudan Appeal; £5 million for the UN consolidated Appeal for Eastern Chad; and an un-earmarked £40 million contribution for the UN Workplan for Sudan, which will allow the UN Humanitarian Coordinator in Khartoum to target funding where it is needed most. When making funding allocations, DFID co-ordinates closely with other major donors; particularly the US and EC. The large majority of DFID interventions are jointly funded by other donors.

The UK remains gravely concerned about the security situation in Darfur, and we are pressing all sides to stop fighting and adhere to the Abuja protocols on providing unimpeded and unrestricted humanitarian access and refraining from all hostilities and military actions in the region. The UK has provided some £14 million to the Africa Union monitoring mission in Darfur, including the provision of 143 vehicles; 470 more vehicles are on their way. DFID also funds NGOs and international organisations providing protection to the Sudanese population. One such example is, the ICRC 2005 Appeal, to which DFID will contribute £5 million this year, this includes dialogue with all parties, and interventions to minimise violence due to competition for resources between internally displaced peoples (IDPs), nomads and farmers.

Mr. Laurence Robertson: To ask the Secretary of State for International Development if he will make a statement on the humanitarian situation in the Sudan. [217390]

Hilary Benn: UN social indicators for Sudan are among the lowest in the world. Infant mortality is 106–111 per 1,000 live births and in large areas of the country people continue to rely on humanitarian assistance to survive. Needs are huge—the UN Workplan for Sudan requires $1.48 billion for development and humanitarian assistance in 2005.

The recently ended conflict in southern Sudan is estimated to have displaced four million people. Food insecurity is critical and there is little primary health care except that provided by non-governmental organisations (NGOs). However the Comprehensive Peace Agreement, signed in January this year, now holds out the prospect of peace throughout Sudan. Ensuring a stable, sustainable environment for the return of the displaced population will be a critical challenge.

In Darfur the humanitarian situation remains precarious. There are over 1.8 million internally displaced people (IDPs), and a further 200,000 have fled to eastern Chad. The total population affected by the crisis in Darfur is estimated at 2.4 million. Despite limitations due to increasing insecurity, the humanitarian response continues to improve. In January 2005 food distribution reached 1.48 million people, some 140,000 more than the previous month. Shelter and non-food items have been provided to 73 per cent. of the IDP population while 56 per cent. were covered by sanitation activities. Of the total affected population, 49 per cent. had access to clean water, 62 per cent. to primary health facilities and 54 per cent. to secondary health facilities. Of major concern, is the observation of the first signs of food shortages among the general population, expected after the failure of the 2004 harvest season.

Other areas of concern in Sudan include the Northern Red Sea State, which has suffered persistent drought and repeated crop failures since 1988, resulting in high food insecurity for the 700,000 population. Agricultural production for 2004 was better than the previous few years, but a large proportion of the population is likely to remain without sufficient food, and will require nutritional assistance for some time to come.

The UK is the second largest bilateral donor to the humanitarian crisis in Darfur, having allocated £62.5 million since September 2003. This year the UK will provide £70 million for humanitarian assistance across Sudan.

Tobacco

Angus Robertson: To ask the Secretary of State for International Development what assessment his Department has made of the *(a)* social and *(b)* economic impact of the World Health Organisation's Framework Convention on Tobacco Control on (i) Malawi and (ii) other developing countries with a large tobacco sector in their economy; and if he will make a statement. [216734]

Hilary Benn: DFID has made no formal assessment of the likely impact of the World Health Organisation (WHO)'s Framework Convention on Tobacco Control (FCTC) in Malawi or other countries. However, the WHO envisages that reducing tobacco consumption will take several decades. In the more immediate term, it is likely that national and regional policy factors such as domestic trade reform in China; energy, transport and land tenure crises in Zimbabwe; and the prospects of losing market share to expanding producers like Brazil are more pressing constraints for poor tobacco-dependent economies.

We are very sensitive to the serious adverse consequences of tobacco on public health, in particular the growing burden of tobacco-related disease in developing countries, and we recognise the importance of the FCTC. DFID funds are not used identifiably to support the tobacco sector, but it is consistent with our Millennium Development Goal mandate to provide advice to tobacco-dependent poor countries on constraints to their economic development and the livelihoods of their citizens. This may include measures to assist farmers dependent on tobacco crops to diversify into alternative activities.

Uganda

Mr. Simmonds: To ask the Secretary of State for International Development what assessment has been made of birth control policies in Uganda. [216914]

Hilary Benn: Uganda's Poverty Eradication Action Plan emphasises the need to improve the ability of individuals to plan the size of their families as a way of contributing to the reduction of poverty. The Government's family planning policy seeks to increase access to high quality, affordable family planning services for those that require contraceptives and to promote integrated family planning information and services. These objectives are set out in the Ministry of Health's draft Health Sector Strategic Plan for 2005–10. Uganda faces a number of challenges in meeting these goals, including social misconceptions about family planning and a shortage of skilled staff and family planning commodities at the district level.

DFID welcomes Uganda's prioritisation of family planning in its efforts to reduce poverty, and its inclusion in the Health Sector Strategic Plan. The latter will help ensure family planning is not an afterthought, but an integral part of the evolution of the health sector. We strongly support the focus on improving services at the district level. DFID also welcomes the Ugandan Government's development of a comprehensive advocacy strategy tackling a range of issues including education for young people in school and public leadership.

The UK supports these efforts in a number of ways: through Poverty Reduction Budget Support and project assistance.

Mr. Simmonds: To ask the Secretary of State for International Development what safeguards are in place to ensure that UK development aid donated to Uganda is spent *(a)* appropriately and *(b)* where designated; and what assurance the Ugandan Government has provided on this. [217077]

Hilary Benn: The UK currently provides 60 per cent. of its assistance as Poverty Reduction Budget Support, as a direct contribution to the Government of Uganda's budget.

Uganda has a well-developed and consultative budgetary process which allows donors to ensure that Uganda meets its commitment to prioritise poverty reduction. It provides an opportunity to endorse the budget at the annual Public Expenditure Review. Allocations to the Government's "Poverty Action Fund", for example, have risen from less than 20 per cent. of the budget in 1997 to 38 per cent. in 2004.

Budget execution is generally good and is closely monitored by Government and donors, including the International Financial Institutions. DFID's Poverty Reduction Budget Support, and that of other partners such as the World Bank, is conditional on endorsement of the budget and its subsequent execution. This ensures that allocations to the Poverty Action Fund are protected. Detailed half and full year budget execution reports are posted on the internet, and the Government continues to produce audited accounts within the statutory period of nine months. Uganda performs well in international comparative assessments of public financial management, including the World Bank/IMF expenditure tracking assessment conducted in 2004.

In addition to DFID's contribution to Uganda's budget, the UK provides a significant amount of project assistance, including support for improving public financial management. These projects are managed in accordance with DFID procedures and are subject to regular reviews to ensure impact and financial propriety. The National Audit Office was satisfied with DFID systems in Uganda when it audited our programme in December 2004.

UN Millennium Project

Mr. Bercow: To ask the Secretary of State for International Development what assessment he has made of the report of the United Nations Millennium Project, with particular reference to its call for results-based management of international aid. [215753]

Hilary Benn: The Government strongly supports the analysis in the report, which shows the Millennium Development Goals are off-track and demonstrates that aid works. We welcome the focus on Africa, and we agree that more countries can meet more of the 2015 targets if we act boldly now. Donors must commit more resources through traditional aid channels, enhanced debt relief, and the International Finance Facility. This will enable developing countries to develop and implement more ambitious poverty reduction strategies. On results-based management, we believe that aid should be provided to support country-led programmes with clear development outcomes and benchmarks.

Zambia

Mr. Bercow: To ask the Secretary of State for International Development what recent discussions he has had with the Government of Zambia concerning *(a)* good governance and *(b)* tackling corruption. [215767]

Hilary Benn: I visited Zambia on 8 February, and met President Levy Mwanawasa, Finance Minister Ng'andu Magande, and Commerce Minister Dipak Patel. We discussed good governance, and the political and economic challenges facing Zambia.

In my meeting with President Mwanawasa I highlighted the importance of his Government's continued fight against corruption. Cases have been launched against members of the previous administration, including former President Chiluba. Assets have been recovered or frozen in Zambia and abroad. Measures to prevent future corruption are being put in place across Government by the Anti-Corruption Commission, which is receiving technical and financial assistance from DFID.

In my meeting with the Finance Minister I congratulated him on recent economic and fiscal policies that are improving growth and the investment climate. Domestic borrowing, interest rates and inflation are all falling. We also discussed the Government's recent improvements in public expenditure management and financial accountability (PEMFA). A PEMFA reform programme is now in place, supported by a group of donors, including DFID. The UK will provide £15 million to this programme over the next five years.

Good economic governance will help ensure that public spending is more focused on poverty reduction priorities. Minister Magande emphasised that Zambia's 2005 budget is allocating more resources to health, education and other priority programmes.

Mr. Pike: To ask the Secretary of State for International Development what aid projects Her Majesty's Government are considering assisting in Zambia; and if he will make a statement. [216086]

Hilary Benn: UK assistance to Zambia presently totals £30 million per year on projects in various areas such as: health, education, HIV/AIDS, public sector reforms, and private sector growth.

In recognition of Zambia's recent progress, I announced during my visit to Zambia on 8 February that DFID will provide up to £60 million over the next three years (2005–07) in the form of Poverty Reduction Budget Support. This will mean a rising UK aid programme, from £30 million per year, to £40 million per year by 2006–07.

In addition, the UK Government will cancel all of Zambia's remaining bilateral debt to the UK if and when HIPC Completion Point is reached. Completion Point is likely in April 2005. The value of this debt cancellation is expected to be £128 million. The UK Government will also then pay 10 per cent. of the debt service owed by Zambia on outstanding World Bank and African Development Bank loans until 2015 in order to release additional funds to support the Government's poverty reduction programme. The savings from this initiative are expected to be £850,000 in 2005, rising to £2.5 million in 2015.

Potential projects being considered at the moment include:

Technical assistance to the Government of Zambia's new Public Sector Management Programme.

Technical and financial assistance to scaling up social safety net programmes being piloted by the Government and other agencies, including ways of assisting the extreme poor, orphans and vulnerable children.

Extension of the UK's present support to the public health system.

The high commission's small grants scheme funds an average of 15 to 20 community and NGO projects every year, up to a total of £160,000. For 2005–06 applications will be accepted from April to June.

Zimbabwe

Mr. Bercow: To ask the Secretary of State for International Development what measures his Department is taking in order to prepare for a possible food shortage in Zimbabwe. [215669]

Hilary Benn: Recent assessments by NGOs working at community level in Zimbabwe suggest that malnutrition is not presently high by emergency standards, but that food availability and affordability are decreasing. The Government of Zimbabwe claimed last year that there had been a bumper crop and that it would not need international food aid during the period up to the next harvest (around April 2005). However, independent surveys suggest that the last harvest was much lower than the Zimbabwean Government claim. The Government cancelled the UN crop assessment and have not provided information to donors and UN agencies about their imports, stocks or their ability to sell or distribute grain. Even if the Government of Zimbabwe can import and distribute enough food, many vulnerable groups will not have resources to buy it. The World Food Programme continue to provide targeted feeding through their regional programme predominantly through institutions such as schools and clinics and some food supplements to Home Based Care programmes.

DFID Zimbabwe, in collaboration with other major donors and the UN system, will continue to monitor the humanitarian situation in Zimbabwe closely, while continuing to provide targeted food assistance and other humanitarian support to the most vulnerable sections of Zimbabwe society through NGO programmes which we are able to fund directly. At present DFID provides support to over 1.5 million of the poorest people with the goal to improve household food security through agricultural inputs and targeted food aid.

Mr. Bercow: To ask the Secretary of State for International Development what assessment he has made of the Zimbabwe Government's refusal to accept food aid from the United Nations. [215670]

Hilary Benn: The Government of Zimbabwe's decision not to renew their appeal to the United Nations for food aid is of concern to the humanitarian community. The absence of an appeal may restrict the World Food Programme's capacity to plan, seek funding for, and implement further emergency operations over the coming months. Many observers believe that the Government intend to control the supply and availability of food in the country over the coming months as a political tool to gain votes in the parliamentary elections, scheduled for 31 March 2005. Donor-funded relief programmes have remained generally free of political interference. But there has been some evidence that access to food distributed by the Zimbabwe Government is being politicised. We will continue to monitor the situation closely.

WORK AND PENSIONS

Allowances (Midlothian)

David Hamilton: To ask the Secretary of State for Work and Pensions how many people in Midlothian receive *(a)* reduced earnings allowance and *(b)* retirement allowance. [217293]

Mr. Pond: At 30 June 2004 there were 690 people receiving reduced earnings allowance and 330 receiving retirement allowance in Midlothian parliamentary constituency.

Source:

Industrial Injuries Computer System 100 per cent. count, rounded to nearest five to maintain anonymity of customers.

Benefit Claims (Scotland)

Mr. David Marshall: To ask the Secretary of State for Work and Pensions (1) how many people claimed attendance allowance in each constituency in Scotland in the latest period for which figures are available; [215387]

(2) how many people claimed disability living allowance in each constituency in Scotland in the latest period for which figures are available. [215389]

Maria Eagle: The administration of attendance allowance is a matter for the Chief Executive of the Disability and Carers Service, Mr. Terry Moran. He will write to the hon. Member with the information requested.

Letter from Vivien Hopkins to Mr. David Marshall, dated 21 February 2005:

In reply to two of your recent Parliamentary Questions about the Disability and Carers Service, the Minister for Disabled People, Maria Eagle MP, on behalf of the Secretary of State for Work and Pensions, promised a substantive reply from the Chief Executive. In the Chief Executive's absence I have been asked to reply on his behalf.

You asked the Secretary of State for Work and Pensions how many people claimed attendance allowance and disability living allowance in each constituency in Scotland in the latest period for which figures are available. The information requested is as follows:

Thousands

Recipients by constituency at 31 August 2004	*AA*	*DLA*
Aberdeen Central	1.8	3.0
Aberdeen North	1.9	3.3
Aberdeen South	1.8	2.7
Airdrie and Shotts	2.2	6.1

Western Isles	0.8	1.0

Notes:

1. Figures taken from a 5 per cent. sample at 31 May 2004
2. Figures are in thousands and rounded to the nearest hundred.
3. From November 2002, the methodology for producing these figures was changed to allow statistics to be published much sooner. This has resulted in a small increase in the reported caseload. This is because some cases which have actually terminated but have not yet been updated on the computer system are now included.

IAD Information Centre.

Please let me know if I can be of further help.

Benefit Office Closures

John Thurso: To ask the Secretary of State for Work and Pensions how many redundancies are proposed for each of his Department's benefit offices in Scotland. [217079]

Maria Eagle: Detailed work force plans are currently being developed for Scotland the outcome of which will inform any requirements for funded early releases. Until detailed business cases are fully developed it is too early to say if any redundancies will be required. Our intention remains that wherever possible we will avoid compulsory redundancy.

Benefits Agency

Mr. Laurence Robertson: To ask the Secretary of State for Work and Pensions (1) what the policy of the Benefits Agency is on visiting people who wish to make a claim but cannot attend an office; and if he will make a statement; [214797]

(2) what assistance is available from the Benefits Agency to people who wish to make claims but cannot understand the forms they are to complete; and if he will make a statement. [214798]

Mr. Pond: The administration of Jobcentre Plus is a matter for the Chief Executive of the Jobcentre Plus, David Anderson. He will write to the hon. Member.

Letter from Mr. David Anderson to Mr. Laurence Robertson, dated 21 February 2005:

The Secretary of State has asked me to reply direct to your questions concerning the Benefits Agency policy on visiting people who wish to make a claim for benefit but cannot attend the office and what assistance is available from the Benefits Agency to people who wish to make claims but cannot understand the forms

they are to complete. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

The Jobcentre Plus Customers' Charter explains the level of service our customers can expect from our network which includes the new style Jobcentre Plus offices, social security offices and Jobcentres. Copies of the Jobcentre Plus Customers' Charter are available from the Library.

We want to give the best service we can to everyone who needs our help and we aim to serve all our customers fairly and to the same high standards.

All our claim forms have a statement, which tells customers to contact the local office should they have problems with completing a claim form. For example, if a customer has difficulties that affect the way they can use our service and they have made us aware of this, we will discuss with them the best ways in which we can help them.

Where customers have literacy difficulties, we can help them or, if they prefer, we could refer them to a third party in their local area, where such arrangements are in place. For instance, if a customer had difficulties completing Jobseeker's Allowance claim forms, arrangements would be made for them to attend the office in advance of their interview to get help with completion.

If a customer has difficulty in understanding English, we will arrange for an interpreter to assist them via Language Line or the Department's Face to Face Interpreter Contract.

Where there is a legitimate reason for the customer being unable to attend the office or complete and return a postal claim form, a visit will be offered. For example where the customer has a physical, learning, mental, or communication difficulty, and it is not reasonable for anyone else to help, a visit will be arranged with the customer.

I hope this is helpful.

Carers

Mr. Oaten: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of carers who are over the age of 65 years and receive carers' allowance. [217038]

Maria Eagle: As at 31 August 2004, the latest date for which information is available, there were some 9,550 carers aged 65 or over who were receiving carer's allowance.

Source:

IAD information centre, 100 per cent. sample, as at 31 August 2004. Figures are rounded to the nearest 5.

Mr. George Osborne: To ask the Secretary of State for Work and Pensions how many carers received both the carers premium and the basic state pension in the latest year for which figures are available. [217325]

Malcolm Wicks: I refer the hon. Member to the reply I gave on 31 January 2005, *Official Report*, column 602W to the hon. Member for the Isle of Wight (Mr. Turner).

Chemical Labelling

Mr. Yeo: To ask the Secretary of State for Work and Pensions (1) how the concept of normal handling and use contained in EU legislation on the classification and labelling of chemicals is applied in the United Kingdom; who is responsible for advising the Government on the application of this concept; what guidance has been issued by the Health and Safety Executive to the business community and others on how the concept of normal handling and use will be applied; and if he will make a statement; [211172]

(2) whether he plans to issue guidance to the business community on how the concept of normal handling and use in EU legislation on the classification and labelling of chemicals will be applied. [211174]

Jane Kennedy: The EU legislation which includes the expression "normal handling and use" is applied in the United Kingdom through the Chemicals (Hazard Information and Packaging Regulations 2002. These regulations formally refer to the Approved Classification and Labelling Guide, a practical document which contains the expression without specific advice on its application. This guide is based on the relevant EU directive and was prepared by the Health and Safety Executive.

We are aware that there is some concern that the present advice does not sufficiently explain the application of "normal handling and use". The term is particularly important in EU negotiations when the dangerous properties of chemicals are discussed and agreed between member states. Clarification of the concept should be developed at European level and UK officials are actively pursuing this in the appropriate fora.

Child Support Agency

Mr. Fisher: To ask the Secretary of State for Work and Pensions how many self-employed people have been pursued *(a)* successfully and *(b)* unsuccessfully for money owed to the Child Support Agency in each of the past seven years. [211717]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member with the information requested.

Letter from Mr. Doug Smith to Mr. Mark Fisher, dated 21 February 2005:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

Your asked the Secretary of State for Work and Pensions, how many self-employed people have been pursued *(a)* successfully and *(b)* unsuccessfully for money owed to the Child Support Agency in each of the past seven years.

I am unable to provide the information you seek. I can however say that on the new scheme at the current time there are around 7,000 cases where calculations have been made under the new child support arrangements and the main source of income is derived from self employment. Of these payments are being received on around 3,900 cases. The new computer system also contains around 3,500 cases where the calculation of maintenance is made under the 'old rules' and the non resident parent is categorised as self employed. Payments are being received on around 2,500 of these cases. Equivalent information for earlier years for 'old scheme' cases is as follows—the information relates to August in each year:

August	*Number of cases*	*Estimated number in payment*
2003	29,000	19,400
2002	29,000	18,900
2001	27,000	16,700

August	Number of cases	Estimated number in payment
2000	25,000	14,500
1999	23,000	13,100
1998	18,500	10,400

Cleaning Costs

Mr. George Osborne: To ask the Secretary of State for Work and Pensions what the costs of cleaning the Department were in each year since 1997. [213782]

Jane Kennedy: DWP was formed in June 2001 from the former Department of Social Security (DSS) and parts of the former Department for Education and Employment (DfEE) including the former Employment Service. The vast majority of the DWP Estate has been occupied under the terms of the PRIME PFI contract since April 1998. The PRIME contract was expanded in December 2003 to include former Employment Service properties. The Department pays a Facilities Unit Price for the accommodation which includes cleaning costs. The cost of cleaning is not separately identifiable.

The figures in the table represent costs of cleaning former Employment Service properties prior to December 2003. The figures also include the cost of cleaning the Health and Safety Executive offices since it became part of DWP in 2002.

	£ million
1997–98	6
1998–99	6.3
1999–2000	7.4
2000–01	7.5
2001–02	8.3
2002–03	10.4
2003–04[1]	8.3

[1] April 2003 to December 2003

Consultants

Mr. Laws: To ask the Secretary of State for Work and Pensions what the total expenditure by his Department on external consultants was in *(a)* 1996–97 and *(b)* 2003–04, and what the estimated cost of employing consultants will be in (i) 2004–05, (ii) 2005–06, (iii) 2006–07 and (iv) 2007–08. [211562]

Jane Kennedy: The total expenditure by the Department for Work and Pensions on all external consultants in the years requested was:

Financial year	Total (£ million)
1996–97	[1]100.3
2003–04	[2]306.7
2005–08	n/a

[1] Figures for ex-Department of Social Security only.
[2] DWP was formed in 2001 (from former DSS, Employment Service ad parts of the DfEE)

A high level assessment of current consultancy commitments and contracts indicates that consultancy expenditure is reducing during 2004–05.

An estimate of future expenditure is not available and could be provided only at disproportionate cost.

Council Tax Benefit

Mr. Liddell-Grainger: To ask the Secretary of State for Work and Pensions how many people in the Bridgwater constituency are *(a)* eligible for and *(b)* in receipt of council tax benefit. [217350]

Mr. Pond: Council tax benefit data is not available broken down by constituency.

Estimates of the total amount council tax benefit that went unclaimed in 2002–03, the latest year for which information is available, can be found in the Department's report entitled: "Income Related Benefits Estimates of Take-Up in 2002/2003"; copies are available in the Library.

Data Sharing

Mr. Frank Field: To ask the Secretary of State for Work and Pensions what progress the Department has made in sharing data on deceased claimants with *(a)* CIFAS and *(b)* other public agencies. [210053]

Mr. Pond: The Home Office led Identity Fraud Steering Committee, which comprises public and private sector organisations that are committed to reducing identity fraud, began a project in November 2004 to explore the benefits, feasibility and legal impediments of sharing public sector deceased person information with private sector organisations involved in fraud prevention.

The project is making good progress against the objectives set out in the agreed terms of reference.

Departmental Catering

Mr. George Osborne: To ask the Secretary of State for Work and Pensions how many departmental *(a)* canteens and *(b)* bars there are; and how much has been spent on the (i) running, (ii) staffing and (iii) supply costs of each in each year since 1997. [213616]

Maria Eagle: The Department for Work and Pensions was formed in June 2001 from the former Department of Social Security (DSS), and parts of the former Department for Education and Employment including the Employment Service. Health and Safety Executive joined DWP in July 2002. Canteen facilities are currently provided in around 165 of our 1,800 offices. The only costs incurred by DWP in providing these facilities is in the form of subsidies. The first year for which figures are available is 1998–99. The available information is in the following table.

	£ million
1998–99	2.7
1999–2000	3.1
2000–01	3.3
2001–02	3.5
2002–03	3.6
2003–04	3.8

Note:
Figures for periods prior to June 2001 are for the former DSS only.

There is one bar on DWP premises, this is run, managed and financed by a sports and social club and therefore no running, staffing or supply costs have been incurred by DWP.

Departmental Offices, Chelmsford

Mr. Burns: To ask the Secretary of State for Work and Pensions when he expects his Department's offices in Beeches road, Chelmsford to close; and if he will make a statement. [216247]

Jane Kennedy: The administration of Jobcentre Plus is a matter for the Chief Executive of the Jobcentre Plus, David Anderson. He will write to the hon. Member.

Letter from David Anderson to Mr. Simon Burns, dated 21 February 2005:

The Secretary of State has asked me to reply direct to your question concerning plans to close the Jobcentre Plus premises at Beeches Road, Chelmsford. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

I wrote to you in March 2004 regarding our plans for this site. Since then, the future of our Beeches Road site has been still under review as part of a DWP wide exercise to review Estate holdings throughout Essex. I am aware that a somewhat misleading article was recently featured in the press relating to the closure of our site in Beeches Road.

It may be helpful if I briefly describe the changes we are currently planning.

With the Executive Board of Jobcentre Plus I have carefully considered how we can make benefit processing more efficient in the interests of all our customers. We have now concluded that we should consolidate this important area of our business into a smaller number of locations. Currently we carry out this work in several hundred sites and reducing this to around 77 Benefit Processing Centres by 2008 will enable us to deliver a faster, more efficient service using the improved information technology systems which are now starting to become available to us.

As you are already aware, the benefit processing work we currently carry out at Beeches Road, Chelmsford will be moving to one of our new processing centres. The announcement of our planned changes was obviously a sensitive issue for the staff who currently undertake this work in Chelmsford and a number of similar sites nationally. We considered it vitally important that our people should hear about the plans as soon as possible and that they should hear the news from Jobcentre Plus Managers.

We therefore planned and undertook an extensive programme of communications throughout our organisation, to MPs and to other people and organisations we work closely with. Even at this early stage, an essential part of our communications strategy was to set out the arrangements we are making to re-deploy employees who will be affected by the changes, including our commitment to avoid redundancies as far as possible. The timescale for the transfer of benefit processing work from sites such as Beeches Road has still to be determined, although our intention is that this will take place by 2008.

Jobcentre Plus provides a telephone contact centre network where our customers are able to make enquiries without having to come into one of our offices. Our Beeches Road site currently houses a small part of this network. Our current plans involve this work being undertaken from another part of the network by our staff based in Derby, from 2 September 2005.

Other face-to-face services will continue to be provided by staff at Beeches Road.

Jobcentre Plus keeps under constant review our Estates and operational delivery to customers. I hope it will reassure you to know that, at the present time, there are still no plans to close the Beeches Road premises.

Departmental Policies

Mr. Gordon Marsden: To ask the Secretary of State for Work and Pensions if he will set out, with statistical information relating as closely as possible to the constituency, the effect of his Department's actions and policies on Blackpool, South constituency since *(a)* 1997 and *(b)* 2001. [215619]

Jane Kennedy: We have undertaken a fundamental overhaul of the welfare system, transforming it to an active system that fights poverty, creates opportunity and helps people become self-sufficient and independent.

Since 2001, the Government have significantly extended and improved civil rights for disabled people in areas such as employment, education, access to goods and services and transport. Disabled people in Blackpool, South will have benefited from these improvements in disability rights. Similarly, families with severely disabled three and four-year-old children who are unable, or virtually unable to walk will have benefited from the Government's decision to lower the minimum age entitlement to the higher rate mobility component of disability living allowance from April 2001, while older and less well off carers have gained extra help through the provisions within the National Carers Strategy.

In 2002–03 we estimate there were around 10 million adults (22 per cent.) and 0.7 million children (5 per cent.) in Great Britain likely to be covered by the provisions of the Disability Discrimination Act (DDA).

The figures can be broken down to regional level which shows that 24 per cent. of adults and 5 per cent. of children in the north-west are likely to be covered by the provisions of the DDA.

Information on the numbers of customers in Blackpool, South who are in receipt of disability living allowance (DLA) and attendance allowance (AA) is in the table.

Operational year	*Blackpool, South DLA/AA recipients*
2001	10,600
2002	10,400
2003	11,100
2004	11,600

Note:
Figures are rounded to the nearest 100 and are from a 5 per cent. sample at 31 August each year.
Source:
DWP Information Centre.

Through Jobcentre Plus, we are promoting work as the best form of welfare for people of working age. The number of people in work is at historically high levels of over 28.5 million; though in Blackpool, South, the proportion in employment has reduced by 4.7 points since 1997 to 69.7 per cent.

Our new deals have helped lone parents, the young unemployed, the long-term unemployed, disabled people, the over 50s and partners of unemployed people to move from benefit into work. Nationally over 1.2 million people have been helped into work by the new deals, with 2,260 in Blackpool, South alone.

Significant progress has been made in eradicating child poverty and the latest figures (for 2002–03) show that, in the UK, there were over half a million fewer children in relative low income than there were in 1996–97. Since 2001–02 incomes for lone parents in

receipt of benefit have risen by more than prices or the cost of living. In April 2005 the child allowance rate in income support for a child up to 18-years-old will have been increased by 40 per cent. since 2001–02. Child rates in income support and jobseeker's allowance are also being increased above inflation in April 2005 in line with child tax credit upratings. All of this has benefited 2,600 families in Blackpool, South.

We want all pensioners to have a decent and secure income in retirement and to share fairly in the rising prosperity of the country and our first priority has been to help the poorest pensioners. The Government will be spending nearly £10 billion more in 2004–05 (in 2004–05 prices) on pensioners as a result of measures introduced since 1997, with around half going to the poorest third.

Our reforms include the State Second Pension, which helps more future pensioners build up better pensions, especially carers. Pension credit, introduced from October 2003, provides a contribution to a guaranteed minimum income for those aged 60 and over and, for the first time, those over aged 65 and over may be rewarded for savings and income. As of December 2004, around 6,710 pensioners in Blackpool, South are receiving pension credit, with an average award of £43.14 per week.

We know that older people are disproportionately affected by fuel poverty. This winter (2004–05) we have again made available a winter fuel payment of £200 for each eligible household with someone aged 60 or over and £300 to those with someone aged 80 or over to help with their fuel bills. Additionally, for this year, eligible households with someone aged 70 or over will receive the one-off 70+ payment of £100 to help with living expenses including council tax bills. It is paid with the winter fuel payment.

The constituency data on winter fuel payments and the additional 80+ annual payment is available in the Library.

Since 1997 single pensioners and pensioner couples have seen a real terms increase in their Basic State Pension of 7 per cent. and 8 per cent., respectively. Some 20,700 pensioners in Blackpool, South have benefited from this increase.

Mr. Chris Smith: To ask the Secretary of State for Work and Pensions if he will set out, with statistical information relating as directly as possible to Folkestone and Hythe constituency, the effects on Folkestone and Hythe of his Department's policies and actions since 2 May 1997. [215985]

Jane Kennedy: We have undertaken a fundamental overhaul of the welfare system, transforming it to an active system that fights poverty, creates opportunity and helps people become self-sufficient and independent.

Since 2001, the Government have significantly extended and improved civil rights for disabled people in areas such as employment, education, access to goods and services and transport. Disabled people in Folkestone and Hythe will have benefited from these improvements in disability rights. Similarly, families with severely disabled three and four-year-old children who are unable, or virtually unable to walk will have benefited from the Government's decision to lower the minimum age entitlement to the higher rate mobility component of disability living allowance from April 2001, while older and less well off carers have gained extra help through the provisions within the National Carers Strategy.

In 2002–03 we estimate there were around 10 million adults (22 per cent.) and 0.7 million children (5 per cent.) in Great Britain likely to be covered by the provisions of the Disability Discrimination Act (DDA).

The figures can be broken down to regional level which shows that 18 per cent. of adults and 5 per cent. of children in the South East are likely to be covered by the provisions of the DDA.

Information on the numbers of customers in Folkestone and Hythe who are in receipt of disability living allowance (DLA) and attendance allowance (AA) is in the table.

Operational year	*Folkestone and Hythe DLA/AA recipients*
2001	6,000
2002	6,400
2003	6,300
2004	6,800

Note:
Figures are rounded to the nearest 100 and are from a 5 per cent. sample at 31 August each year.
Source:
DWP Information Centre.

Through Jobcentre Plus, we are promoting work as the best form of welfare for people of working age. The number of people in work is at historically high levels of over 28.5 million; though in Folkestone and Hythe, the proportion in employment has reduced by 8 points since 1997 to 71.4 per cent.

Our new deals have helped lone parents, the young unemployed, the long-term unemployed, disabled people, the over 50s and partners of unemployed people to move from benefit into work. Nationally over 1.2 million people have been helped into work by the new deals, with 1,880 in Folkestone and Hythe alone.

Significant progress has been made in eradicating child poverty and the latest figures (for 2002–03) show that, in the UK, there were over half a million fewer children in relative low income than there were in 1996–97. The constituency data on winter fuel payments and the additional 80+ annual payment is available in the Library.

Since 1997 single pensioners and pensioner couples have seen a real terms increase in their Basic State Pension of 7 per cent. and 8 per cent., respectively.Some 21,800 pensioners in Folkestone and Hythe have benefited from this increase.

Mr. Sheerman: To ask the Secretary of State for Work and Pensions if he will set out, with statistical information relating as directly as possible to Huddersfield constituency, the effects on Huddersfield of his Department's policies and actions since 2 May 1997. [216872]

Jane Kennedy: We have undertaken a fundamental overhaul of the welfare system, transforming it to an active system that fights poverty, creates opportunity and helps people become self-sufficient and independent.

Since 2001, the Government has significantly extended and improved civil rights for disabled people in areas such as employment, education, access to goods and services and transport. Disabled people in Huddersfield will have benefited from these improvements in disability rights. Similarly, families with severely disabled 3 and 4-year-old children who are unable, or virtually unable to walk will have benefited from the Government's decision to lower the minimum age entitlement to the higher rate mobility component of disability living allowance from April 2001, while older and less well off carers have gained extra help through the provisions within the National Carers Strategy.

In 2002–03 we estimate there were around 10 million adults (22 per cent.) and 0.7 million children (5 per cent.) in Great Britain likely to be covered by the provisions of the Disability Discrimination Act (DDA).

The figures can be broken down to regional level which shows that 25 per cent. of adults and 4 per cent. of children in the Yorkshire and Humber region are likely to be covered by the provisions of the DDA.

Information on the numbers of customers in Huddersfield who are in receipt of Disability Living Allowance (DLA) and Attendance Allowance (AA) is in the following table.

Huddersfield

Operational year	*DLA/AA recipients*
2001	6,900
2002	7,000
2003	6,900
2004	7,400

Source:
DWP Information Centre. Figures are rounded to the nearest 100 and are from a 5 per cent. sample at 31 August each year.

Through Jobcentre Plus, we are promoting work as the best form of welfare for people of working age. The number of people in work is at historically high levels of over 28.5 million; in Huddersfield, the proportion in employment has risen to 70.3 per cent.

Our new deals have helped lone parents, the young unemployed, the long-term unemployed, disabled people, the over 50s and partners of unemployed people to move from benefit into work. Nationally over 1.2 million people have been helped into work by the new deals, with 2,970 in Huddersfield alone.

Significant progress has been made in eradicating child poverty and the latest figures (for 2002–03) show that, in the UK, there were over half a million fewer children in relative low income than there were in 1996–97. Since 2001–02 incomes for lone parents in receipt of benefit have risen by more than prices or the cost of living. In April 2005 the child allowance rate in income support for a child up to 18-years-old will have been increased by 40 per cent. since 2001–02. Child rates in income support and jobseeker's allowance are also being increased above inflation in April 2005 in line with child tax credit upratings. All of this has benefited 2,400 families in Huddersfield.

We want all pensioners to have a decent and secure income in retirement and to share fairly in the rising prosperity of the country and our first priority has been to help the poorest pensioners. The Government will be spending nearly £10 billion more in 2004–05 (in 2004–05 prices) on pensioners as a result of measures introduced since 1997, with around half going to the poorest third.

Our reforms include the state second pension, which helps more future pensioners build up better pensions, especially carers. pension credit, introduced from October 2003, provides a contribution to a guaranteed minimum income for those aged 60 and over and, for the first time, those aged 65 and over may be rewarded for savings and income. As of December 2004, around 4,750 pensioners in Huddersfield are receiving pension credit, with an average award of 40.58 per week.

We know that older people are disproportionately affected by fuel poverty. This winter (2004–05) we have again made available a winter fuel payment of £200 for each eligible household with someone aged 60 or over and £300 to those with someone aged 80 or over to help with their fuel bills. Additionally, for this year, eligible households with someone aged 70 or over will receive

the one-off 70 plus payment of £100 to help with living expenses including council tax bills. It is paid with the winter fuel payment.

The constituency data on winter fuel payments and the additional 80 plus annual payment is available in the Library.

Since 1997 single pensioners and pensioner couples have seen a real terms increase in their basic state pension of 7 per cent. and 8 per cent., respectively. Some 15,000 pensioners in Huddersfield have benefited from this increase.

Mrs. Fitzsimons: To ask the Secretary of State for Work and Pensions if he will set out, with statistical information relating as closely as possible to Rochdale constituency, the effects of his Department's actions and policies since 1997 on Rochdale. [217379]

Jane Kennedy: We have undertaken a fundamental overhaul of the welfare system, transforming it to an active system that fights poverty, creates opportunity and helps people become self-sufficient and independent.

Since 2001, the Government have significantly extended and improved civil rights for disabled people in areas such as employment, education, access to goods and services and transport. Disabled people in Rochdale will have benefited from these improvements in disability rights. Similarly, families with severely disabled 3 and 4-year-old children who are unable, or virtually unable to walk will have benefited from the Government's decision to lower the minimum age entitlement to the higher rate mobility component of disability living allowance from April 2001, while older and less well off carers have gained extra help through the provisions within the National Carers Strategy.

In 2002–03 we estimate there were around 10 million adults (22 per cent.) and 0.7 million children (5 per cent.) in Great Britain likely to be covered by the provisions of the Disability Discrimination Act (DDA).

The figures can be broken down to national level which shows that 24 per cent. of adults and 5 per cent. of children in the North West are likely to be covered by the provisions of the DDA.

Information on the numbers of customers in Rochdale who are in receipt of disability living allowance (DLA) and attendance allowance (AA) is in the table.

Rochdale

Operational year	*DLA/AA recipients*
2001	6,900
2002	7,400
2003	7,700
2004	7,900

It is paid with the winter fuel payment.

The constituency data on winter fuel payments and the additional 80+ annual payment is available in the Library.

Since 1997 single pensioners and pensioner couples have seen a real terms increase in their basic state pension of 7 per cent. and 8 per cent., respectively. Some 14,500 pensioners in Rochdale have benefited from this increase.

Direct Benefit and Pension Payments

Mr. Liddell-Grainger: To ask the Secretary of State for Work and Pensions how many people in the Bridgwater constituency have been converted to direct payment of pensions and benefits. [217353]

Mr. Pond: In April 2003, when the conversion to direct payment began, 15,905 benefit accounts in Bridgewater were paid into a bank account. By

December 2004 (the latest date for which figures are available) the figure had increased to 31,595 benefit accounts.

DLA and Winter Fuel Payments

Angela Eagle: To ask the Secretary of State for Work and Pensions how many people in each ward of Wallasey constituency claim *(a)* disability living allowance and *(b)* winter fuel payments. [217116]

Malcolm Wicks: The number of people in each ward of Wallasey constituency in receipt of disability living allowance and winter fuel payments is in the table.

Ward	*Disability living allowance recipients*	*Winter fuel payment recipients*
Moreton	995	2,850
Leasowe	1,245	2,600
Wallasey	720	3,615
New Brighton	1,070	3,810
Liscard	1,185	2,940
Seacombe	1,440	2,440

Notes:
1. All wards based on census wards—those current as at April 2003.
2. DLA figures are taken at August 2004, the latest currently available at ward level, and include all DLA claimants including children, working age and pensioners claiming DLA.
3. WFP data are the latest currently available, winter 2003-04.
4. All benefit counts at ward level are rounded to a multiple of 5.

IAD Information Centre

Employment Advisers

Paul Holmes: To ask the Secretary of State for Work and Pensions whether patients' referral to employment advisers based in general practitioners' surgeries will be made on a voluntary basis. [217339]

Jane Kennedy: GPs have a key role to play in ensuring that their advice supports the recovery and rehabilitation of patients and, where appropriate, encourages a return to work or work-related activity. We are currently exploring options for the pilot and we will bring forward our proposals in due course.

Employment Rehabilitation

Mr. Boswell: To ask the Secretary of State for Work and Pensions what standardised data he collates on the performance of UK agencies in securing rehabilitation into employment in comparison with that of other OECD countries. [216434]

Mr. Pond: We provide data for the OECD on active labour market policies for the disabled. A time series for the UK excluding Northern Ireland is shown in the table:

Spending on programmes for disabled people

	Nominal spending (£ million)	*Real spending (£ million 2003-04 prices)*
1982-83	85	191
1983-84	92	198
1984-85	97	198
1985-86	105	204
1986-87	122	229
1987-88	133	237
1988-89	147	245
1989-90	136	211
1990-91	132	190
1991-92	143	194
1992-93	160	211
1993-94	159	204
1994-95	174	220
1995-96	183	225
1996-97	175	208

EU Committee of Senior Labour Inspectors

Angus Robertson: To ask the Secretary of State for Work and Pensions how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Committee of senior labour inspectors met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [214259]

Jane Kennedy: The Senior Labour Inspector Committee (SLIC) meets twice yearly, once in each EU presidency. During the Italian presidency, in the second half of 2003, the SLIC met in Rome between the 25 and 27 of October. The Irish presidency hosted the SLIC meeting in Dublin between the 19 and 21 of May 2004. The Netherlands held their SLIC meeting between the 3 and 5 of November 2004 in Maastricht. Senior operational officials from the Health and Safety Executive attended on all three occasions.

There have been three Command Papers produced on prospects for the European Union which include highlights from the Presidencies in question—Cm6174 laid in April 2004, Cm6310 laid in September 2004 and Cm6450 laid in February 2005. They are available in the Library and on the FCO website at: www.fco.gov.uk/commandpapers.

EU Committees

Angus Robertson: To ask the Secretary of State for Work and Pensions how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU

the (i) Advisory Committee on the implementation of the Community action programme to combat social exclusion, (ii) Advisory Committee on the free movement of workers met; when and where each meeting took place; what UK Government expert was present at each meeting; and if he will make a statement. [216727]

Mr. Pond: The Advisory Committee on the implementation of the Community Action Programme to combat social exclusion met in Brussels on the following dates:

	Date
Italian presidency	30 September 2003
	10 December 2003
Irish presidency	11 February 2004
	28 April 2004
Dutch presidency	28 September 2004
	7 December 2004

The Advisory Committee on the Free Movement of Workers met in Brussels on the following dates:

	Date
Italian presidency	2 July 2003
	26 November 2003
Irish presidency	12 March 2004
Dutch presidency	20 October 2004

The UK Government were represented by officials from the Department for Work and Pensions at all these meetings.

I refer the hon. Member to the series of Command Papers on the prospects for the European Union—Cm 6174 laid in April 2004, Cm 6310 laid in September 2004 and Cm 6450 laid in February 2005, which cover the periods of the above presidencies. They are available in the Library and on the FCO website at: www.fco.gov.uk/commandpapers.

Angus Robertson: To ask the Secretary of State for Work and Pensions how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Technical Committee for the implementation of regulations concerning the free movement and employment of workers met; when and where these meetings took place; which UK Government expert was present; and if he will make a statement. [217259]

Mr. Pond: The Technical Committee on the Free Movement of Workers met in Brussels on the following dates:

	Date
Italian presidency	1 July 2003
	25 November 2003
Irish presidency	11 March 2004
Dutch presidency	19 October 2004

The UK Government were represented by an official from the Department for Work and Pensions at the meetings on 25 November 2003 and 19 October 2004. An official from the Home Office also attended the meeting on 19 October 2004.

The UK Government were not represented at the meetings on 1 July 2003 and 11 March 2004.

I refer the hon. Member to the series of Command Papers on the prospects for the European Union—Cm6174 laid in April 2004, Cm6310 laid in September 2004 and Cm6450 laid in February 2005, which cover the periods of the above presidencies. They are available in the Library and on the FCO website at: www.fco.gov.uk/commandpapers.

Angus Robertson: To ask the Secretary of State for Work and Pensions how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Administrative Commission on social security for migrant workers (and working parties) met; when and where these meetings took place; which UK Government expert was present; and if he will make a statement. [217260]

Mr. Pond: The Administrative Commission on Social Security for Migrant Workers (and working parties) met in Brussels on the following dates:

Italian presidency

Administrative Commission

28–29 October 2003: Officials from the Department for Work and Pensions (DWP), Department of Health and Inland Revenue attended.

16–17 December 2003: Officials from DWP, the Department of Health and Inland Revenue attended.

Administrative Commission Working Party

15 September 2003: Two officials from DWP attended.

10 October 2003: An official from the Department of Health attended.

20 November 2003: Two officials from Inland Revenue attended.

Irish presidency

Administrative Commission

23–24 March 2004: Officials from DWP and the Department of Health attended.

16 June 2004: Officials from DWP, the Department of Health and Inland Revenue attended.

Administrative Commission Working Party

12 February 2004: An official from the Department of Health attended.

Dutch presidency

Administrative Commission

13–14 October 2004: Officials from DWP, the Department of Health, Inland Revenue and HM Treasury attended.

15–16 December 2004: Officials from DWP, the Department of Health, and HM Treasury attended.

Administrative Commission Working Party

21 October 2004: Officials from DWP, the Department of Health and Inland Revenue attended.

30 November 2004: An official from the Department of Health attended.

I refer the hon. Member to the series of Command Papers on the prospects for the European Union—Cm6174 laid in April 2004, Cm6310 laid in September 2004 and Cm6450 laid in February 2005, which cover the periods of the above presidencies. They are available in the Library and on the FCO website at: www.fco.gov.uk/commandpapers.

Angus Robertson: To ask the Secretary of State for Work and Pensions how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the

EU the Scientific Committee for occupational exposure limits to chemical agents met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [214260]

Jane Kennedy: The European Commission's Scientific Committee for Occupational Exposure Limits (SCOEL) met on six occasions in the last 18 months. During the Italian presidency the SCOEL met between 23–24 September 2003 and 10–11 December 2003. During the Irish presidency it met between 17–18 March 2004 and 16–17 June 2004. During the Dutch presidency the Committee met between 22–23 September 2004 and 15–16 December 2004. All meetings took place in the Jean Monnet Building in Luxembourg.

SCOEL members act as independent scientific experts, not as representatives of national Governments. Two SCOEL members are nominated by the Health and Safety Executive, on behalf of the UK. One of the two UK Members of SCOEL is the Head of the Health and Safety Executive's Industrial Chemicals Unit. He attended all six meetings.

There have been three Command Papers produced on prospects for the European Union which include highlights from the Presidencies in question: Cm6174 laid in April 2004, Cm6310 laid in September 2004 and Cm6450 laid in February 2005. These are available in the Library and on the FCO website at: www.fco.gov.uk/commandpapers.

External Suppliers

John Mann: To ask the Secretary of State for Work and Pensions how many tenders were let by his Department to external suppliers in the financial year 2003–04; and what the value was. [209102]

Maria Eagle: The majority of tenders received are in response to low value, low risk procurements let locally under devolved budget arrangements. The Department does not collect information centrally about these tenders and to provide a complete answer to the question would incur disproportionate cost. However, information is collected centrally on high value, high risk procurements conducted by specialist procurement teams. In 2003–04 the Department let 440 contracts and framework agreements with values over the EU threshold level (about £100,000). The total value of these over their full durations, which range between two and 18 years, is expected to be about £2,012 million. The actual value will depend upon the volume of business we place and the quality of services delivered over the period.

Five Year Strategy

Paul Holmes: To ask the Secretary of State for Work and Pensions how the employment advisers pledged in the Department's Five Year Strategy will be recruited; and if they will be exempt from the Department's proposed job cuts. [217343]

Jane Kennedy: The administration of Jobcentre Plus is a matter for the Chief Executive of the Jobcentre Plus, David Anderson. He will write to the hon. Member.

Letter from Mr. David Anderson to Mr. Paul Holmes, dated 21 February 2005:

The Secretary of State has asked me to reply to your question concerning how the employment advisers pledged in the Department's Five Year Strategy will be recruited: and if they will be exempt from the Department's proposed job cuts. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Whilst external recruitment may be required in some locations, many of the Personal Adviser posts, which will help Jobcentre Plus continue to deliver services to jobless customers, are already occupied by our skilled staff. In other cases, as an important element of the Department's approach to seek to avoid compulsory redundancies, vacant Adviser posts will be filled by re-trained, surplus staff from Jobcentre Plus, or from elsewhere within the Department.

It is not possible to say that any individual staff member will be exempt from the staffing reductions which will be implemented. The particular circumstances of, for example, a voluntary early release scheme could lead to a current Personal Adviser deciding to leave Jobcentre Plus to be replaced by a surplus person. However, given Jobcentre Plus will increase the proportion of our staff in active roles which support customers into work, it is likely that this group of staff will be affected less than those providing support roles which do not involve contact with the public.

I hope this is helpful.

Mr. Willetts: To ask the Secretary of State for Work and Pensions if he will place in the Library a list of the wards referred to in paragraph 30, page 29, of his Department's Five Year Strategy, broken down by constituency. [215530]

Jane Kennedy: The requested information has been placed in the Library.

Generators (Accidents)

Mr. Sanders: To ask the Secretary of State for Work and Pensions what his estimate is of the number of accidents involving low voltage single phase generators since 1996–97 *(a)* in total and *(b)* in fair and amusement park sites; and if he will make a statement. [215703]

Jane Kennedy: Accident data collected by the Health and Safety Executive is not collected in this level of detail. It is therefore not possible to provide these estimates.

Housing Benefit

Mr. Flight: To ask the Secretary of State for Work and Pensions (1) what assessment he has made of the impact that implementation of the Verification Framework has had on the processing of housing benefit by local authorities; [215130]

(2) how his Department measures the impact that the Verification Framework has had on the performance of housing benefit delivery. [215131]

Mr. Pond: We monitor processing times for new claims and change of circumstance across all local authorities, but we have not specifically assessed the impact of the Verification Framework (VF) since 2002. The assessment was inconclusive but suggested that there is an initial dip in performance followed by an improvement in some groups of local authorities.

Local authority performance is affected by a multitude of factors, but using the most recent data, the average processing times for new claims for VF and non-VF local authorities are currently 45 days and 52 days respectively. The average processing times for changes of circumstances are 13 days and 15 days respectively. In some other recent quarters, however, these differences have been smaller.

It is our conclusion that this recent data provides no evidence that VF currently has a significant effect on the performance of housing benefit delivery.

Mr. Ronnie Campbell: To ask the Secretary of State for Work and Pensions how many people were claiming housing benefit in Blyth Valley on the latest date for which figures are available. [217189]

Mr. Pond: As at May 2004 there were 6,200 people in receipt of housing benefit in the Blyth Valley borough council area.

Notes:

1. The figure is rounded to the nearest hundred
2. The data refers to benefit units, which may be a single person or a couple.
3. The figure excludes any Extended Payment cases

Source:

Housing Benefit and Council Tax Benefit Management Information System Quarterly 100 per cent. caseload stock-count.

Mr. David Marshall: To ask the Secretary of State for Work and Pensions how many people claimed housing benefit in Scotland in the latest period for which figures are available. [217380]

Mr. Pond: As at May 2004 there were 446,900 people in receipt of housing benefit in Scotland.

Notes:

1. The figure is rounded to the nearest hundred.
2. The data refers to benefit units, which may be a single person or a couple.
3. Figures for any non-responding authorities have been estimated.
4. The figure excludes any extended payment cases.

Incapacity Benefit

Mr. Goodman: To ask the Secretary of State for Work and Pensions how many people leaving incapacity benefit in each year since 1995 had received the benefit for *(a)* less than six months, *(b)* less than 12 months, *(c)* less than two years and *(d)* more than five years. [216044]

Maria Eagle: The available information is in the table.

All incapacity benefit and severe disability allowance terminations in the quarters shown, by duration of claim.

August 2001	175,300	77,500	28,600	17,300	22,000	29,800
November 2001	188,400	82,500	30,800	19,100	22,700	33,300
February 2002	176,300	74,700	27,400	17,500	22,700	33,900
May 2002	181,200	76,700	27,600	17,500	25,100	34,400
August 2002	176,600	74,200	27,200	17,300	23,500	34,400
November 2002	186,100	80,700	27,700	17,400	24,400	35,900
February 2003	170,700	72,000	26,500	15,900	21,900	34,300
May 2003	166,300	72,800	29,800	17,300	23,200	23,000
August 2003	183,400	75,200	28,000	17,100	24,600	38,500
November 2003	187,500	76,100	30,200	15,700	24,600	40,900
February 2004	173,900	70,000	28,100	15,500	22,500	37,800
May 2004	178,100	69,000	29,300	17,200	25,700	36,800
August 2004	125,300	51,600	22,000	12,700	20,000	19,100

Notes:

1. Figures are rounded to the nearest hundred. Totals may not sum due to rounding.
2. Information is not available on claims which commenced prior to April 1995.
3. "n/a" not available.
4. Figures include all incapacity benefit, severe disability allowance and credits-only cases.

5. These figures have been updated to include late notified terminations, including terminations for retirement pension. Figures for the latest quarter do not include any late notifications and are subject to major changes in future quarters. For illustration purposes, total terminations for August 2003 increased by 34 per cent. in the year following their initial release.
Source:
Information Directorate, 5 per cent. sample.

Angela Eagle: To ask the Secretary of State for Work and Pensions how many people in each ward of Wallasey constituency claim incapacity benefit. [217115]

Maria Eagle: The information is in the table.

Incapacity benefit (IB) and severe disability allowance (SDA) claimants in Wallasey, by ward

Ward name	*Number*
Moretown	890
Leasowe	1,325
Wallasey	650
New Brighton	1,195
Liscard	1,230
Seacombe	1,610

Notes:
1. All wards based on census wards—those current as at April 2003.
2. Figures include all IB, SDA and IB credits-only cases.
3. IB and SDA figures are taken at August 2004.
4. All benefit counts at ward level are rounded to a multiple of five to protect the confidentiality of individual claimants.
Source:
IAD Information Directorate, Department for Work and Pensions.

Income Support

Mr. Andrew Turner: To ask the Secretary of State for Work and Pensions how many families with children have been in receipt of income support for more than one year. [217358]

Mr. Pond: The information is in the table.

Families with children/dependents who have been in receipt of income support for more than one year in Great Britain

	Number of families
Families with children	843,000
Families with dependants	880,600

Notes:
1. Figures are rounded to the nearest hundred and quoted in thousands.
2. The figure for families with dependants includes families with children.
3. Figures are based on a 5 per cent. sample and therefore subject to a degree of sampling variation.
4. Children are defined as aged 0–15 years.
5. Dependants are defined as aged 0–19 years.
Source:
DWP information centre, 5 per cent. samples.

Lie Detectors

Mr. Goodman: To ask the Secretary of State for Work and Pensions pursuant to the answer of 24 January 2005, *Official Report*, column 59W on lie detectors, what plans he has to make a formal assessment of the value of voice stress analysis technology with particular reference to benefit delivery. [216042]

Mr. Pond: We have no plans to make a formal assessment of the value of voice stress analysis technology in respect of benefit delivery.

MIG

Mr. Liddell-Grainger: To ask the Secretary of State for Work and Pensions (1) how many pensioners in the Bridgwater constituency were in receipt of the minimum income guarantee in September 2004; [217352]

(2) how many pensioners in the Bridgwater constituency are *(a)* eligible for pension credit and *(b)* in receipt of pension credit. [217398]

Malcolm Wicks: The minimum income guarantee was replaced by pension credit in October 2003. Information on the number of pension credit recipients in Bridgewater in September and December 2004 is given in the following table. Information on the number of people likely to be eligible for pension credit is not available at constituency level. However, we estimate that approximately 350,000 households in the south-west region, corresponding to approximately 450,000 individuals (rounded to the nearest 50,000), are likely to be eligible for pension credit in 2004–05. This is an indicative estimate, subject to a significant margin of error. At the end of December 2004, 219,810 pensioner households in the south-west region, comprising approximately 268,430 individuals, were in receipt of pension credit.

Pension credit recipients in Bridgewater

	Households	*Individuals*
30 September 2004	4,615	5,740
31 December 2004	4,680	5,810

Notes:
1. Figures are rounded to the nearest five.
2. Individual recipients comprise claimants and partners and may contain a small number of partners aged under 60.
3. Parliamentary constituencies are assigned by matching postcodes against the relevant ONS directory.
4. The figures for December 2004 are the latest available.
Source:
IAD Information Centre, Department for Work and Pensions, 100 per cent. sample.

New Deal

Andy Burnham: To ask the Secretary of State for Work and Pensions how many women in Leigh constituency have participated in *(a)* the new deal for lone parents and *(b)* the new deal for partners since 1997; how many lone parents have gained work through the new deal programme; and if he will make a statement. [214584]

Jane Kennedy: 1,180 women have started new deal for lone parents in the Leigh constituency since the beginning of the programme in October 1998. Information on the number of women who have started the new deal for partners is not available at constituency level.

Information on the number of lone parents who have gained work through the new deal for lone parents programme nationally and in the Leigh constituency is in the table.

Number of lone parents gaining a job through the new deal for lone parents

	Leigh constituency
Male	40
Female	700
Total	740

Notes:
1. Information on the number of people who have participated in the new deal for partners is not available at constituency level.
2. Figures for lone parents who have gained work through other new deal programmes are not available.
3. Totals include those for whom gender is not recorded. For this reason, and because of rounding, components will not necessarily sum to totals.
4. Data is to September 2004.
Source:
New Deal Evaluation Data Base

Paul Holmes: To ask the Secretary of State for Work and Pensions how many and what percentage of people who have entered the new deal for lone parents have started jobs since the programme was launched; and how many and what percentage of those who have *(a)* entered the programme and *(b)* started jobs were in receipt of income support (i) in the UK and (ii) broken down by constituency. [215500]

Jane Kennedy: The available information for Great Britain broken down by constituencies has been placed in the Library.

Mr. Hoyle: To ask the Secretary of State for Work and Pensions how many jobs have been created in *(a)* Lancashire and *(b)* Chorley by the new deal. [216305]

Jane Kennedy: The new deal is not a job creation scheme. It is designed to help unemployed and disadvantaged people into work or training. It has already been successful in helping more than 1.2 million people into employment, including 28,520 people in Lancashire and 1,580 people in the Chorley constituency.

Geraldine Smith: To ask the Secretary of State for Work and Pensions how many *(a)* lone parents and *(b)* young people have gained work through the new deal programme. [216884]

Jane Kennedy: The available information is in the following table.

Lone parents and young people helped into work through new deal

	Individuals into work
Lone parents	296,410
Young people	580,760

Notes:
1. Lone parent data relates to the number of lone parents who have gained a job through the new deal for lone parents programme. Information on the number of lone parents who have gained a job through the other new deal programmes is not available.
2. Young people data relates to the number of people who have gained a job through the new deal for young people programme and people aged 24 and under gaining a job through the new deal for lone parents, new deal for disabled people and new deal for partners programmes.
3. Information on new deal for young people is from January 1998 to September 2004; Information on new deal for lone parents is from October 1998 to September 2004; Information on new deal for disabled people is from July 2001 to September 2004.
4. Information on new deal for partners is from April 2002 to March 2004. new deal for partners information is not available from May 1999 to March 2002 as information broken down by age is not available for this period.
5. All figures have been rounded to the nearest 10.
Source:
DWP Information Directorate

Paul Holmes: To ask the Secretary of State for Work and Pensions how much each organisation contracted to deliver the new deal for disabled people receives in respect of each person they support into work. [217342]

Jane Kennedy: The funding structure of the new deal for disabled people provides the organisations who deliver it, the job brokers, with an initial payment, usually of £304 for each person who registers with them. Further payments are then made for each entry into a job and for each job that is sustained for at least 13 weeks. There is no standard rate for these latter payments. They vary from broker to broker and are consequently commercial in confidence.

Dr. Kumar: To ask the Secretary of State for Work and Pensions how many jobs have been created in Middlesbrough, South and Cleveland, East under the new deal. [215887]

Jane Kennedy: The new deal is not a job creation scheme. It is designed to help unemployed and disadvantaged people into work or training. It has already been successful in helping more than 1.2 million people into employment, including 2,890 in the Middlesbrough, South and Cleveland, East constituency.

Parking

Mr. George Osborne: To ask the Secretary of State for Work and Pensions how much has been spent on *(a)* provision of parking spaces for civil servants and *(b)* parking tickets and penalties incurred by civil servants, in the Department in each year since 1997. [213809]

Maria Eagle: DWP was formed in June 2001 from the former Department of Social Security (DSS) and parts of the former Department for Education and Employment, including the Employment Service (ES). Information for the period prior to June 2001 refers only to the former DSS.

DWP currently occupies approximately 1,800 buildings, of which there are only nine where the cost of car parking can be readily identified. For all other buildings car parking costs are not recorded separately from other occupancy costs.

The available information is in the following table.

	Cost (£)
1998–99	163,900
1999–2000	61,400
2000–01	58,700
2001–02	61,100
2002–03	167,000
2003–04	243,000

Notes:
1. The information is not available for 1997.
2. The increase in costs in 2002–03 and 2003–04 is due to the inclusion of expenditure on car park rental by HSE. This parking is in addition to the parking provided at any DWP site.

The Department does not incur any costs relating to parking tickets and penalties incurred by civil servants.

Pension Credit and Winter Fuel Payments

Geraldine Smith: To ask the Secretary of State for Work and Pensions how many pensioners are in receipt of pension credit; and what the average value is of awards. [216772]

Malcolm Wicks: Information on numbers of households and individuals in receipt of pension credit at national level and in each Government Office Region and constituency at 31 December 2004, with the average award, is contained in the most recent quarterly pension credit progress report published on 3 February. A copy of the report is in the Library.

Angela Eagle: To ask the Secretary of State for Work and Pensions how many people in each ward of Wallasey constituency claim pension credit. [217314]

Malcolm Wicks: The information is given in the following table.

Pension credit recipients, Wallasey

Ward	*Pension credit recipients (households), December 2004*
Leasowe	960
Liscard	935
Moreton	730
New Brighton	1,020
Seacombe	1,050
Wallasey	615

Notes:
1. All wards are based on census wards, current as at April 2003.
2. All benefit counts at ward level are rounded to a multiple of five, to protect the confidentiality of individual claimants.

Source:
IAD Information Centre, Department for Work and Pensions, 100 per cent. sample.

Mrs. Fitzsimons: To ask the Secretary of State for Work and Pensions how many pensioners in Rochdale constituency have received pension credit in each year since it started. [217378]

Malcolm Wicks: The information is given in the table. Further information on numbers of households and individuals in receipt of pension credit and average awards at 31 December 2004 is contained in the most recent quarterly pension credit progress report, which was published on 3 February. A copy of the report is in the Library.

Pension credit recipients, Rochdale, 2003–04

Date	*Households*	*Individuals*
December 2003	4,510	5,465
December 2004	5,485	6,710

Notes:
1. Figures are rounded to the nearest five.
2. Figures relate to the end of the month.
3. Individuals comprise claimants and partners and may contain a small number of partners aged under 60.
4. Pension credit replaced minimum income guarantee from 6 October 2003.
5. Parliamentary constituencies are assigned by matching postcodes against the relevant ONS directory.
6. The figures for December 2004 are the latest available.

Source:
IAD Information Centre, Department for Work and Pensions, 100 per cent. sample

Mr. Ronnie Campbell: To ask the Secretary of State for Work and Pensions how many pensioners in each ward in Blyth Valley were receiving *(a)* pension credit and *(b)* winter fuel payments on the latest date for which figures are available. [217152]

Malcolm Wicks: The information is given in the table.

Pension credit and winter fuel recipients, Blyth Valley

Ward	*Pension credit recipients (households), 31 December 2004*	*Winter fuel payments, winter 2003–04*
Cowpen	435	945
Cramlington East	390	1,110
Cramlington Eastfield with East Hartford	70	285
Cramlington North	35	380
Cramlington Parkside	60	365
Cramlington South East	160	925
Cramlington Village	255	1,125
Cramlington West	185	540
Croft	360	895
Hartley	275	1,290
Holywell	230	750
Isabella	255	725
Kitty Brewster	215	720
Newsham and New Delaval	195	740
Plessey	405	1,265
Seaton Delaval	285	1,020
Seghill	175	640
South Beach	60	510
South Newsham	35	455
Wensleydale	245	805

Notes:
1. All wards are based on census wards, current as at April 2003.
2. Winter fuel payment data for winter 2003–04 is the latest available. No figures are currently available for 2004–05.
3. All benefit counts at ward level are rounded to a multiple of five, to protect the confidentiality of individual claimants.

Source:
IAD Information Centre, Department for Work and Pensions

Pensions

Mr. Webb: To ask the Secretary of State for Work and Pensions if he will place in the Library, from successful applications to the Pension Service Partnership Fund for *(a)* one year contracts and *(b)* two year contracts, anonymised information on how each applicant would (i) measure the progress and (ii) evaluate the success of their initiative; what each applicant listed as its expected outcome; and how many of the successful applications made reference to the number of people the proposed initiative aimed to target. [216759]

Malcolm Wicks: All one year and two year contracts awarded by the Pension Service Partnership Fund require successful applicants to provide monthly statistical returns to the DWP on the progress of their activity for the purpose of informing both the evaluation of the individual schemes and the fund as a whole.

We anticipate that increased benefit take-up will be an end result of activity resourced through the fund and all successful applicants provided information on the potential numbers of benefit applications they expected to generate through their activities.

The variation in the scale of the contracts awarded through the fund is significant with national and countywide schemes expecting to contact in excess of 50,000 individuals, and the smallest scale neighbourhood schemes intending to reach around 150–200 potential benefit customers.

Information on the expected outcomes of each successful applicant and their specific proposals for measuring progress and evaluating success is only available by individual scrutiny of their application and could be obtained only at disproportionate cost.

Sir John Butterfill: To ask the Secretary of State for Work and Pensions if he will restore the indexing of pensions to British subjects living in overseas countries where uprating no longer takes place; and if he will make a statement. [217031]

Malcolm Wicks: We have always uprated State Pensions for British citizens living overseas where there is a legal requirement or a reciprocal social security agreement to do so.

However, the uprating of State Pensions outside this arrangement is the subject of an appeal to the House of Lords from a decision of the Court of Appeal which found in favour of the Government. We will respond accordingly at the hearing which is set for 28 February and 1 March this year.

Mr. Waterson: To ask the Secretary of State for Work and Pensions (1) when the last pension order book was issued; [217101]

(2) how many pension order books are in circulation. [217102]

Mr. Pond: The last pension order book was issued on 9 February 2005 and all order book production for the Pension Service ceased on 10 February. Information available at 2 February suggests that the total number of pension order books in circulation at that date was 1,016,908.

Publicity

Mr. Laws: To ask the Secretary of State for Work and Pensions what the total expenditure by his Department on *(a)* advertising and *(b)* advertising and publicity was in (i) 1996–97, (ii) 1997–98 and (iii) 2003–04; and what the estimated cost of each will be in (A) 2004–05, (B) 2005–06, (C) 2006–07 and (D) 2007–08. [211563]

Jane Kennedy: The Department for Work and Pensions was formed in June 2001 from the former Department of Social Security, parts of the former Department for Education and Employment and the Employment Service. Information on costs for 1996–98 is not held centrally and could be obtained only at disproportionate cost.

Details on spending on advertising and publicity in 2003 to 2004 are in the table:

£

2003–04 campaign	*Advertising expenditure*	*Total publicity expenditure*
Future pensioners/Informed Choice	—	2,450,000
Second State Pension	215,590	304,090
Pensioners Guide	—	952,890
Pension Credit	10,378,380	15,580,000
The Pension Service	74,000	522,000
Direct Payment	11,044,000	12,474,000
Direct Payment roadshow	—	480,000
Fraud	8,383,000	9,339,000
New Deal	5,800,000	7,500,000
Jobcentre Plus Awareness	—	557,170
Jobcentre Direct	1,593,200	1,700,330
Age Positive	66,000	882,000
DDA Awareness and Disability Rights	775,220	2,450,000
Council Tax Benefit	556,230	673,000
Winter Fuel Payments	627,000	938,000
Total	39,512,620	56,802,480

For 2004 to 2005 estimated total expenditure is in the table:

£

2004–05 campaign	Advertising expenditure	Total publicity expenditure
Future pensioners/Informed Choice	—	854,400
State Pension Deferral	200,000	300,000
Pensioners Guide	—	1,000,000
Pension Credit	4,023,810	6,500,000
The Pension Service	—	559,000
Direct Payment Information Campaign	8,808,000	9,500,000
Direct Payment roadshow	—	3,000,000
Fraud	6,450,000	7,150,000
New Deal	—	1,650,000
Jobcentre Plus employer marketing	443,000	1,300,000
Jobcentre Plus Awareness	—	275,740
Age Positive	—	600,000
DDA Awareness	1,122,000	2,000,000
Council Tax Benefit	661,640	850,000
Winter Fuel Payments	514,910	815,000
Total	22,223,360	36,354,140

Notes:
1. All costs exclude VAT.
2. All figures have been rounded.
3. Advertising costs are total media costs excluding all production costs.
4. Information campaigns costing under £250,000 and details of highly localised publicity activity by the Department's customer-facing businesses have generally not been included as a disproportionate cost would be incurred in compiling these figures.

Decisions have not yet been made on future expenditure for 2005–06, 2006–07 and 2007–08.

Queen's Flight

Chris Grayling: To ask the Secretary of State for Work and Pensions on how many occasions departmental Ministers have used the Queen's flight in each of the past five years. [213449]

Maria Eagle: Travel by Ministers makes clear that special flights may be authorised when a scheduled service is not available, or when it is essential to travel by air, but the requirements of official or parliamentary business or security considerations or urgency preclude the journey being made by a scheduled service.

In respect of overseas travel by Ministers, since 1999 the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 of more during each financial year. The list published in 1999 covers the period 2 May 1997 to 31 March 1999. Where RAF/private charter aircraft are used this is shown in the list. The Government have also published on an annual basis the cost of all Ministers' visits overseas. Copies of the lists are available in the Libraries of the House. Information for 2004–05 will be published in due course.

There is no record of any Ministers from DWP or its predecessor departments using the Queen's flight in the last five years.

Social Fund

Mr. Webb: To ask the Secretary of State for Work and Pensions if he will place in the Library a copy of the guidance given to Social Fund staff covering crisis loan applications from those in receipt of tax credits. [216804]

Mr. Pond: A copy of the Social Fund Guide is available in the Library. Additional guidance for Social Fund staff contained in Social Fund Bulletin 11/04 released on 12 July 2004 has been placed in the Library.

John Thurso: To ask the Secretary of State for Work and Pensions what the average processing time for Social Fund *(a)* community care grants, *(b)* crisis loans and *(c)* budgeting loans has been in each year since 2002, broken down by region. [216922]

Mr. Pond: The information is in the table.

Actual average clearance times for Social Fund community care grants (CCGs), crisis loans (CLs) and budgeting loans (BLs) for the period April to December 2004

Government office region	CCGs	CLs	BLs
East of England	9.1	1.4	2.6
East Midlands	9.3	1.3	3.5
London	10.8	1.3	3.7
North East	6.1	1.2	3.2
North West	7.3	1.3	2.5
Scotland	8.4	1.3	3.2
South East	8.3	1.3	3.7
South West	9.2	1.3	3.0
Wales	6.8	1.4	2.2
West Midlands	8.8	1.2	3.1
Yorkshire and the Humber	8.6	1.3	2.9

Notes:
1. Data by GOR are not available for 2002–03 or 2003–04 due to boundary changes that occurred during this period.
2. A small area of the East Midlands GOR is currently administered for Social Fund purposes from a district within the North West GOR. Regional data are built up from district data, therefore the data for these two GORs may be slightly inaccurate.
3. The actual average clearance times for individual applications are measured in whole working days from the date the application is received until the date the decision is made.
4. When a loan offer is made, the number of whole working days from receiving the applicant's reply to the recording of that reply is added to the clearance time.
5. The minimum clearance time that can be recorded is one day.

Source:
Social Fund Policy, Budget and Management Information System (PBMIS).

Staff Identity Passes

Mr. George Osborne: To ask the Secretary of State for Work and Pensions what the cost of producing a staff identity pass was in the Department on the latest date

for which figures are available; and how many staff identity passes have been reported lost or stolen in each year since 1997. [215083]

Maria Eagle: The information is not available in the format requested. Such information that is available is detailed as follows.

The Department for Work and Pensions was formed in June 2001 from the former Department of Social Security (DSS) and parts of the former Department for Education and Employment (DfEE) including the former Employment Service. The ex DSS part of the DWP Estate has been occupied under the terms of the PRIME PFI contract since April 1998. The PRIME contract was expanded in December 2003 to include former Employment Service properties.

The Department pays a Facilities Unit Price (FUP) to Land Securities Trillium for such accommodation which includes costs of providing staff identity passes for the majority of DWP staff. Information on the costs of producing such passes is not separately identifiable. No central records are kept of passes that have been lost or stolen. Where records are kept they do not differentiate between cards that require replacement because they have been lost or stolen, because a name needs changing or because they have been broken.

The Health and Safety Executive (HSE) joined DWP in July 2002. The cost of producing identity passes for HSE staff averages out at £4.15 per pass. The number of passes lost since 1997 is 284; an annual breakdown is not available.

The Rent Service joined DWP in April 2004. The cost of producing identity passes for Rent Service staff is £4.80 per pass. 18 passes have been reported lost or stolen since April 2004.

Staff Surveys

Mr. George Osborne: To ask the Secretary of State for Work and Pensions how much was paid to consultants carrying out staff surveys in the Department in each year since 1997. [213663]

Maria Eagle: The information requested is available only since 2002.

The costs paid to consultants for the departmental staff survey was £244,000 in 2002 and £196,000 in 2003. The survey cycle for 2004 is not yet complete. These costs include the printing of survey related materials.

The use of consultants provides an economy in terms of speed of analysis and also reassurance to staff as to the confidentiality of their responses. The consultants used by DWP manage an extensive benchmarking database, allowing results to be compared to other public and private sector organisations.

Stationery

Mr. George Osborne: To ask the Secretary of State for Work and Pensions how much the Department spent on *(a)* stationery and *(b)* office supplies in each year since 1997. [213840]

Maria Eagle: The information is not held centrally and could be obtained only at disproportionate cost.

Sure Start

Andy Burnham: To ask the Secretary of State for Work and Pensions how many mothers in Leigh constituency have received the Sure Start maternity grant. [214586]

Mr. Pond: The information is not available in the format requested; the available information is in the table.

Sure Start maternity grant (SSMG) awards for Wigan and Leigh Social Fund District/Wigan Jobcentre plus district

	Awards
2000–01	1,055
2001–02	1,209
2002–03	1,405
2003–04	1,385
2004–05 to January	1,168

Notes:
1. SSMGs were introduced on 27 March 2000.
2. Data is not available by parliamentary constituency, but only by district.
3. Leigh parliamentary constituency is part of Wigan Jobcentre plus district, which was previously called Wigan and Leigh social fund district.
4. Data is given for all awards, irrespective of whether the award was made to the mother or her partner.

Telephone Claims Lines

Anne Picking: To ask the Secretary of State for Work and Pensions what measures the Government are taking to ensure that telephone claims lines are adequate to cope timeously with crisis loan applications; and if he will make a statement. [211089]

Jane Kennedy: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, David Anderson. He will write to the hon. Member.

Letter from David Anderson to Mrs. Anne Picking, dated 21 February 2005:

The Secretary of State has asked me to reply to your question concerning the measures the Government is taking to ensure that telephone claims lines are adequate to cope timeously with crisis loan applications. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Legislation was changed in 2002 to allow crisis loan applications to be taken by telephone. Since then, a varying level of service has been offered in different parts of the country, due to factors such as the telephony equipment available in different areas. While the telephone service has generally proved popular and efficient, in the few areas where there have been problems dealing with the high volume of calls, urgent local management action has been taken to improve the service for customers. Irrespective of the level or adequacy of the telephone service, customers retain a right to apply for a loan in person at a Jobcentre Plus office.

For the future, we plan to reduce the number of offices processing Social Fund applications from 142 to around 20, and to implement a standard operating model for the Fund. We are piloting the new model in two Welsh district offices and aim to roll it out nationally from April 2005 onwards. The model includes a standard telephone service for crisis loans, supported by the

appropriate telephone technology. The increased size of the processing units will give much greater staffing flexibility and allow us to assign staff as necessary to meet fluctuating customer demand. Although the telephone will become the normal and preferred method of taking crisis loan applications, we will retain the option of face to face interviews for people who require them.

I hope this is helpful,

Winter Fuel Payments

Andy Burnham: To ask the Secretary of State for Work and Pensions how many senior citizens in Leigh constituency have received the winter fuel allowance since 1997. [214583]

Malcolm Wicks: Information on the number of senior citizens who have received a winter fuel payment in Leigh in each year for which figures are available is in the Library.

Geraldine Smith: To ask the Secretary of State for Work and Pensions how many pensioners in Morecambe and Lunesdale have received each level of the winter fuel allowance in 2004–05. [216771]

Malcolm Wicks: Information is not yet available for winter 2004–05. Information on the number of payments made at each level in Morecombe and Lunesdale for winter 2003–04 is in the Library. We would expect the numbers to be similar for this winter.

Mrs. Fitzsimons: To ask the Secretary of State for Work and Pensions how many pensioners in Rochdale constituency received the winter fuel allowance in 2004–05; and what total amount of payments this represented. [217377]

Malcolm Wicks: Information is not yet available for winter 2004–05. Information about the number of payments at each rate to people in the Rochdale constituency for winter 2003–04 is in the Library. We would expect the number to be similar for this winter.

Annabelle Ewing: To ask the Secretary of State for Work and Pensions whether the winter fuel payment is treated as a recurring item of pension income expenditure in his Department's budget. [211992]

Malcolm Wicks: Expenditure on the winter fuel payment is included in each year of the DWP's benefit expenditure forecasts. The latest medium-term forecast was published following the pre-Budget report, and continues to 2007–08. Long-term spending projections also include the winter fuel payment.

Benefit expenditure forecast information is published on the internet at: http://www.dwp.gov.uk/asd/asd4/expenditure.asp.

Mr. Dhanda: To ask the Secretary of State for Work and Pensions (1) what estimate his Department has made of the cost of overpayment of the winter fuel payment in each of the last three years; [216544]

(2) if he will make it his policy to recover overpayments of the winter fuel payment. [216583]

Malcolm Wicks: It is departmental policy to recover all overpayments that arise from misrepresentation or fraud. If a customer receives an excess amount because of official error they may in some circumstances be invited to repay it. Information about the total cost of overpayments of the winter fuel payment is not collected centrally.

Mr. Gill: To ask the Secretary of State for Work and Pensions how many *(a)* people and *(b)* households in (i) Leicester, South and (ii) the City of Leicester were (A) eligible to receive and (B) received winter fuel payments in each year since 1997. [216942]

Malcolm Wicks: It is not possible to provide an estimate of the number of people or households that were eligible for a winter fuel payment. Information on the number of winter fuel payments made in Leicester, South and City of Leicester in each year for which figures are available is in the Library.

HOME DEPARTMENT

Alcohol-related Crime

David Davis: To ask the Secretary of State for the Home Department pursuant to the answer of 21 December 2004, *Official Report*, columns 1526–27W, on alcohol-related crimes, what the level of alcohol-related crime was; and how many fixed penalties were issued in each of the 92 participating basic command units. [209252]

Ms Blears: Data on whether alcohol was involved in the commission of an offence is not collected centrally. The number of fixed penalty notices issued as part of the campaign is set out in the table.

Antisocial Behaviour Orders

Mr. Hoyle: To ask the Secretary of State for the Home Department how many antisocial behaviour orders have been issued in each district in Lancashire since they were introduced, broken down by age group and sex. [215327]

Ms Blears: The available information is given in the following table.

Number of ASBOs issued in Lancashire, as notified to the Home Office by all courts, where restriction are imposed within local authorities within the county of Lancashire by sex and age group of recipient from 1 June 2000 to 30 June 2004

County/local authority area	Total persons	Male			Female		
		Aged 10 to 17	Aged 18 and over	All ages	Aged 10 to 17	Aged 18 and over	All ages
Lancashire	109	57	42	99	5	5	10
Blackburn with Darwen BC	8	4	2	6	0	2	2
Blackpool BC	13	10	1	11	2	0	2
Burnley BC	26	10	13	23	2	1	3
Chorley BC	5	3	2	5	0	0	0
Fylde BC	3	2	1	3	0	0	0
Hyndburn BC	10	2	7	9	0	1	1
Lancaster CC	3	2	1	3	0	0	0
Pendle BC	5	5	0	5	0	0	0
Preston BC	10	5	5	10	0	0	0
Ribble Valley BC	3	2	1	3	0	0	0
Rossendale BC	10	9	1	10	0	0	0
South Ribble BC	4	0	4	4	0	0	0
West Lancashire DC	6	3	2	5	1	0	1
Wyre BC	3	0	2	2	0	1	1

Note:

ASBOs were introduced under The Crime and Disorder Act 1998 , however data from 1 April 1999 to 31 May 2000 are not available as they were collected on aggregate numbers only at police force area level. The number of ASBOs issued during the period within Lancashire police force area was five.

Mr. Byrne: To ask the Secretary of State for the Home Department how many *(a)* criminal antisocial behaviour orders and *(b)* antisocial behaviour orders have been secured by courts since the introduction of the Anti-social Behaviour Act 2003 in (i) Birmingham, (ii) Bristol, (iiii) Leeds, (iv) Liverpool, (v) Manchester, (vi) Newcastle, (vii) Nottingham and (viii) Sheffield.[214015]

Ms Blears: The Anti-social Behaviour Act received royal assent in November 2003. antisocial behaviour orders (ASBOs) were introduced under The Crime and Disorder Act 1998 and have been available since April 1999. ASBOs following conviction were introduced under The Police Reform Act 2002 and have been available since December 2002.

Available information, including the availability of ASBOs since the introduction of the Anti-social Behaviour Act, is given in the table.

Number of ASBOs issued, as notified to the Home Office, from 1 June 2000 to 30 June 2004 (latest available) by type of ASBO and local authority area where restrictions have been imposed

	Local authority where restrictions have been imposed							
	Birmingham	*Bristol*	*Leeds*	*Liverpool*	*Manchester*	*Newcastle-Upon-Tyne*	*Nottingham*	*Sheffield*

April to June	10	9	7	6	3	0	8	3
All ASBO issued								
Total	73	38	157	68	202	14	36	29

[1] Introduced under The Crime and Disorder Act 1998 ASBOs were made available to the magistrates courts, acting in their civil capacity, on application, from 1 April 1999. However data from 1 April 1999 to 31 May 2000 are not available as they were collected on aggregate numbers only at police force area level.

[2] The Police Reform Act 2002 authorised application to the county courts, as from 1 April 2003, where there are existing proceedings, for an ASBO to be issued.

[3] As from 31 March 2004 the Anti-social Behaviour Act 2003 added housing action trusts (HATS) and English county councils to the list of relevant authorities who can apply for an ASBO or an order in county court proceedings.

[4] As from 2 December 2002 The Police Reform Act 2002 gave authority to the magistrates courts acting in their criminal capacity, and the Crown Court to issue ASBOs following conviction.

Anti-terrorism Measures

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what steps the Government are taking to institute anti-terrorism measures in inner-city schools, with particular reference to *(a)* the replacement of glass in windows with laminated glass, *(b)* the installation of anti-bomb litter bins and *(c)* increased patrol security. [215348]

Derek Twigg: I have been asked to reply.

My Department has issued guidelines for schools on the use of laminated glass or safety film to maintain the integrity of windows, and on the use of security patrols. We have also issued guidance on school security overall, and the Security Service has issued advice on protective security for organisations. The Government is always looking at ways of protecting people and works hard to strengthen our defences against terrorist attacks by having proportionate protective and preventative security in place. In schools, employers are responsible for security measures as part of their responsibility in law for health and safety at work.

Asylum Seekers

Mr. Gordon Prentice: To ask the Secretary of State for the Home Department pursuant to his oral statement of 7 February 2005, *Official Report*, columns 1181–98, on the Five Year Asylum Strategy, what abuses he has identified in relation to the operation of family visit appeals. [215827]

Mr. Browne: 'Controlling our borders: Making migration work for Britain' is the product of a review of the whole immigration and asylum system, including appeal rights and the appeals system. The strategy sets out proposals to remove appeal rights for student and employment routes into the United Kingdom, but states that we will retain the right of appeal for family visitors because we recognise the importance of family life. We are, however, confronted with rising numbers of family visit applications and appeals. We recognise that family visit appeals need to be considered quickly, if they are to be of value to appellants. We also have a duty to ensure that the asylum and immigration appeals system as a whole is able to function effectively. We have decided, in order to make the best use of available resources, and to provide a fair and efficient appeals process for appellants, that family visit appeals should be dealt with on the papers only and to limit the right of appeal to close family members.

Mrs. Spelman: To ask the Secretary of State for the Home Department what the estimated public cost of supporting asylum seekers in *(a)* Wales, *(b)* Scotland and *(c)* Northern Ireland has been in each year since 1996–97. [216230]

Mr. Browne: The answer is not available in the precise format requested. It is only possible to provide information on the direct costs (financial support and accommodation) for the whole of the United Kingdom.

Costs of providing support to asylum seekers

Financial year	*£ million*[1]
1996–97	413
1997–98	375
1998–99	475
1999–2000	589
2000–01	747
2001–02	1,046
2002–03	1,070
2003–04	1,007

[1] All figures rounded to nearest million.

Mr. Gale: To ask the Secretary of State for the Home Department pursuant to his oral statement on 7 February 2005, *Official Report*, column 1190, what his estimate of the number of asylum seekers resident in Kent is. [216248]

Mr. Browne: Statistics on the location of asylum seekers in the UK are linked to the available information on the support that the asylum seeker receives.

At the end of September 2004 there were 265[1] asylum seekers in Kent[2] recorded as in receipt of National Asylum Support Service (NASS) support.

Corresponding figures for those not in receipt of NASS support are not available and could be produced only at disproportionate cost.

Numbers of asylum seekers receiving MASS accommodation support and numbers receiving NASS subsistence only support, are published on a quarterly and annual basis. The next publication, providing information relating to the end of the fourth quarter of 2004 (October to December), will be published shortly.

[1] This figure is rounded to the nearest five and covers both those receiving NASS accommodation support and those receiving NASS subsistence only support

[2] Kent is defined as the 12 local authorities (Ashford, Canterbury, Dartford, Dover, Gravesham, Sevenoaks, Shepway, Swale, Thanet, Tonbridge and Malling and Tunbridge Wells) and one Unitary Authority (Medway).

Mr. Gale: To ask the Secretary of State for the Home Department when he expects to be able to authorise outstanding monies due from his Department to Kent county council in respect of payments for costs arising for provision for asylum seekers. [216249]

Mr. Browne: The Immigration and Nationality Directorate does not readily agree with the claim by Kent county council that any additional payments are outstanding. Officials from the Immigration and Nationality Directorate are working with officials from Kent county council to reconcile the claim that money remains owing. If it is found that money is owing, consideration will be given to payment.

Keith Vaz: To ask the Secretary of State for the Home Department how many people arrived in Britain seeking asylum in 2004. [216316]

Mr. Browne: The available information relates to when asylum applications were made, rather than when applicants arrived in the UK.

25,465 principal applicants (30,180 including dependants) sought asylum between January and September 2004 in the United Kingdom. Applications have fallen by two thirds from their peak level in 2002.

Information on asylum applications is published quarterly. The next publication, covering the last quarter of 2004 (October to December), and including provisional 2004 totals, will be published shortly.

Ms Keeble: To ask the Secretary of State for the Home Department what plans he has to return unaccompanied asylum-seeking children to their countries of origin; and what consultation will be carried out on those plans. [216515]

Mr. Browne: We have been developing a returns programme for some time for unaccompanied asylum seeking children (UASCs) who are under 18 years of age and whose asylum or Humanitarian Protection claims have been refused.

Only those UASCs for whom an appropriate package of reception care and support has been put in place, or whose families have been traced, will be returned. The programme will be piloted in Albania. We set out our intentions in this area in "Controlling our borders: Making Migration Work For Britain, Five year strategy for asylum and immigration" (Cm 6472, February 2005, paragraph 76).

Other Government Departments, non-governmental organisations and local authorities have been closely consulted throughout the development of the programme. We have also engaged formally with the Albanian Government both in Albania and the UK.

Keith Vaz: To ask the Secretary of State for the Home Department whether the Government are planning to return unaccompanied asylum seeker children to their countries of origin. [217173]

Mr. Browne: We have been developing a returns programme for some time for unaccompanied asylum seeking children (UASCs) who are under 18 years of age and whose asylum or Humanitarian Protection claims have been refused.

Only those UASCs for whom an appropriate package of reception care and support has been put in place, or whose families have been traced, will be returned. The programme will be piloted in Albania. We set out our intentions in this area in "Controlling our borders: Making Migration Work For Britain, Five year strategy for asylum and immigration" (Cm 6472, February 2005, paragraph 76).

Avon and Somerset Constabulary

Mr. Flook: To ask the Secretary of State for the Home Department how many *(a)* police officers and *(b)* civilian personnel were assigned to each basic command unit of the Avon and Somerset constabulary in each year since 1997. [214651]

Ms Blears *[holding answer 7 February 2005]:* Police officer strength by basic command unit was not collected centrally prior to 31 March 2002 and police staff prior to 31 March 2003.

The available information for Avon and Somerset constabulary is given in the table.

	Police officers			*Police staff*	
	2002[1]	*2003*[1]	*2004*[1]	*2003*[1]	*2004*[1]
Bath and North East Somerset	228	224	224	43	56
Central Bristol	367	378	385	51	71
North Bristol	263	255	270	42	49
North Somerset	203	213	227	49	61
Somerset East	255	257	266	66	89
Somerset West	295	295	308	65	99
South Bristol	251	251	258	46	52
South Gloucestershire	265	263	267	55	61

[1] As at 31 March.

Mr. Flook: To ask the Secretary of State for the Home Department what the full-time equivalent head count for Avon and Somerset constabulary was in each of the last eight years. [214652]

Ms Blears *[holding answer 7 February 2005]:* Information on police service strength is published annually in a Home Office statistical bulletin and half-yearly in an online report. The latest figures were published in Home Office Statistical Bulletin number 13/04, "Police Service Strength England and Wales, 31 March 2004".

Full-time equivalent strength for Avon and Somerset constabulary is given in the following table.

	Police officers	*Police staff*	*Community support officers*	*Traffic wardens*	*Total strength*
31 March 1997	2,989	1,439	—	108	4,536
31 March 1998	2,976	1,393	—	114	4,483
31 March 1999	2,999	1,425	—	115	4,539
31 March 2000	2,934	1,436	—	59	4,429
31 March 2001	2,994	1,452	—	48	4,494
31 March 2002	3,096	1,611	—	44	4,751
31 March 2003[1]	3,149	1,767	—	43	4,959
31 March 2004[1]	3,401	1,952	45	34	5,432

[1] Comparable strength with previous years. Excludes staff on career breaks and maternity/paternity leave.

Bail

David Davis: To ask the Secretary of State for the Home Department how many people have broken their bail conditions in each year since 1997; and what offences they had committed. [210017]

Paul Goggins: It is not possible from data collected via the Home Office Court Proceedings database to identify the number of people who have skipped bail nor the offences they had committed.

However, statistics of persons proceeded against at magistrates' courts and convicted at all courts for the offence 'absconding by person released on bail' is as follows:

Number of defendants proceeded against at magistrates' courts and found guilty at all courts for offences under S.6 Bail Act 1976, England and Wales 1997 to 2003[1]

	Proceeded against	*Found guilty*
1997	44,245	26,068
1998	45,495	26,669
1999	45,203	26,750
2000	41,847	24,271
2001	45,047	24,559
2002	52,187	27,704
2003	57,562	30,025

[1] These data are on the principal offence basis.

Statistics for 2004 will be available in the autumn.

CCTV

Mr. Hoyle: To ask the Secretary of State for the Home Department what grant schemes are available for CCTV in *(a)* villages in Lancashire and *(b)* railway stations at (i) Coppall, (ii) Acklington, (iii) Astley Village, (iv) Clayton and (v) Euxton. [215328]

Ms Blears: All Crime and Disorder Reduction Partnerships (CDRPs) within Lancashire receive the following grants, which could potentially be used to purchase and install CCTV cameras within each district:

The Building Safer Communities Fund (BSCF) (including funding for an anti-social behaviour co-ordinator); and

The Basic Command Unit (BCD) Fund.

It is for the CDRP in each area to decide, as a partnership, what the priorities for that area are and what interventions will be used to tackle them.

All of the railway stations identified are within Chorley and, so, the Building Safer Communities and Basic Command Unit Funds are all potential funding streams.

Child Curfew Orders

Mr. Andrew Mitchell: To ask the Secretary of State for the Home Department how many Child Curfew Orders have been made under the scheme introduced by the Crime and Disorder Act 1998. [214932]

Paul Goggins: No applications have been received to establish a local child curfew scheme under section 14 of the Crime and Disorder Act 1998. The powers in the Anti-social Behaviour Act 2003 for the dispersal of groups and the removal of persons under 16 to their place of residence have been used in preference to this power.

Community Sentences

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what steps he is taking to increase public confidence in community sentences as an alternative to prison. [216754]

Paul Goggins: The Government believe that prison should be reserved for serious, violent and seriously persistent offenders. For all other offenders, alternatives to prison can often be more effective in addressing offender behaviour than short custodial sentences. The new generic community sentence, provided by the Criminal Justice Act 2003, will be commenced on 4 April 2005. This will give the courts a flexible range of tough community punishments suitable for dealing with a wide range of offenders whose offence is too serious for them to be fined but who do not fall into the serious, violent or seriously persistent category.

The Government recognise that there is a lack of public knowledge and understanding of community sentences.

That is why the National Offender Management Service has launched a major communications campaign which aims to demonstrate that community sentences are both tough and demanding whilst providing the opportunity for offenders to give something back directly to the community. It will target national, regional and local media to secure the broadest public audience.

There is a national visibility scheme in place to identify community work done by offenders. In the next few weeks a 'Clean Up' campaign will start in 10 regions, which will give local people the opportunity to have a say in the unpaid work to be done by offenders as part of their community punishment.

Community Support Officers (London)

Simon Hughes: To ask the Secretary of State for the Home Department how many of the 20,000 community support officers the Government proposes to recruit by 2008 are to be posted in Greater London; and if he will make a statement. [216426]

Ms Blears: Community support officers are a key element of neighbourhood policing. We have made provision of £50 million available for the first phase of the Neighbourhood Policing Fund by enabling forces to commence recruitment of an additional 1,568 community support officers (CSOs). The Metropolitan police were allocated 250 of these CSOs. The City of London police applied for their first allocation of CSOs and received 16 in this funding round. These CSOs will help to build the total number in England and Wales to 5,500 by 31 March 2005.

Decisions about further allocations will be made in the coming months to assist forces in reaching the target of 24,000 CSOs in 2008. We are currently discussing the criteria for investment under the Neighbourhood

Policing Fund with the Association of Chief Police Officers, the Association of Police Authorities and other stakeholders.

Contempt Laws

Dr. Kumar: To ask the Secretary of State for the Home Department what plans he has to reform the laws of contempt. [215895]

Mr. Lammy: I have been asked to reply.

The law of contempt plays a vital role in safeguarding the administration of justice and there are no plans to reform it. The Attorney General issued guidance to the media on the publication of articles amounting to contempt in his keynote address to the Law for Journalists Conference in November 2003 (available at www.lslo.gov.uk) and in his speech to the Weber Shandwick Contempt Seminar in November 2004 (available from the Attorney General's press office).

Coroners' Inquests

Miss McIntosh: To ask the Secretary of State for the Home Department in what circumstances a delay of over three years might occur between a suspicious death and a coroner's inquest. [203834]

Paul Goggins: Such a delay would be highly unusual. It may be difficult to obtain all the evidence required by the coroner, particularly if the death occurred abroad. Or the coroner may be awaiting the outcome of criminal proceedings or investigations by other bodies.

Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department when he intends to answer the letter dated 30 December 2004 from the right hon. Member for Manchester, Gorton with regard to Mr. Amanat Ullah. [217045]

Mr. Charles Clarke: I wrote to my right hon. Friend on 2 February 2005.

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department when he will reply to the letter dated 6 January from the right hon. Member for Manchester, Gorton with regard to Mr. Jim Holloway. [217049]

Mr. Charles Clarke: I wrote to my right hon. Friend on 16 February.

Crime Statistics

Mr. Evans: To ask the Secretary of State for the Home Department what the level of violent crime in Ribble Valley and Fulwood was in each year since 1997. [205071]

Ms Blears: The available information relates to the Ribble Valley Crime and Disorder Reduction Partnership (CDRP) area and is given in the table. Data at CDRP level is only available from 1999–2000. Since 1997, there have been two major changes to the way crime is recorded. The effect of the change in the counting rules in 1998 was to artificially increase recorded violent crime nationally by more than 80 per cent. while it is estimated that the effect of the introduction of the National Crime Recording Standard (NCRS) in April 2002 caused a further 20 per cent. increase in recorded violent crime in its first year.

Table 1: Recorded offences of violent crime in the Ribble Valley Crime and Disorder Reduction Partnership area—1999–2000 to 2001–02

Period	*Number of violent crimes*
1997–98	n/a
1998–99	n/a
1999–2000	161
2000–01	194
2001–02	334

n/a = Not available

Note:
The data in this table are prior to the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for later years.

Table 2: Recorded offences of violent crime in the Ribble Valley Crime and Disorder Reduction Partnership area—2002–03 and 2003–04

Period	*Number of violent crimes*
2002–03	330
2003–04	473

Note:
The data in this table take account of the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for earlier years.

Sue Doughty: To ask the Secretary of State for the Home Department what the recorded level of *(a)* crime and *(b)* violent crime was in Surrey in each year since 1997. [214197]

Ms Blears: The information requested is given in the tables.

Since 1997, there have been two major changes to the way crime is recorded. The effect of the change in the counting rules in 1998 was to artificially increase recorded violent crime nationally by more than 80 per cent. while it is estimated that the effect of the introduction of the National Crime Recording Standard (NCRS) in April 2002 caused a further 20 per cent. increase in recorded violent crime in its first year.

Table 1: Total and violent crime recorded by the police in Surrey, 1997–98 to 2001–02

	Number of offences	
	Total crime	*Violent crime*
1997–98[1]	38,015	3,447
1998–99[2]	42,467	4,914
1999–2000	46,288	6,099
2000–01[3]	63,321	9,014
2001–02	61,970	7,908

[1] The number of crimes recorded using the coverage and rules in use until 31 March 1998.
[2] The number of crimes recorded using the expanded coverage and revised counting rules which came into effect on 1 April 1998.
[3] Surrey experienced boundary changes in April 2000 which increased the size of the force area.'

Note:
The data in this table are prior to the introduction of the National Crime Recording Standard. These figures are not directly comparable with those for later years.

Table 2. Total and violent crime recorded by the police in Surrey, 2002–03 and 2003–04

	Number of offences	
	Total crime	*Violent crime*
2002–03	68,452	9,718
2003–04	73,252	10,858

Note:
The data in this table take account of the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for earlier years.

Criminal Records Bureau

Mr. Oaten: To ask the Secretary of State for the Home Department what plans he has to allow colleges and universities to have access to the Criminal Records Bureau for the vetting of potential students. [214989]

Ms Blears: All colleges and universities have access to the Criminal Records Bureau Disclosure service to enable them to apply for criminal records checks for members of staff whose duties involve looking after children and/or vulnerable adults. The service can also enable criminal records checks to be conducted against students whose studies would, through placements, bring them into contact with children and vulnerable adults; for example student nurses and those studying for teaching qualifications.

There have been no requests made by the Department for Education and Skills nor are there any plans by the Home Office to extend the checks to other students.

Departmental Establishment

Hugh Bayley: To ask the Secretary of State for the Home Department how many full-time equivalent jobs *(a)* his Department and *(b)* its executive agencies had in (i) Yorkshire and the Humber and (ii) the City of York in (A) 1997 and (B) the latest year for which figures are available. [199548]

Fiona Mactaggart: I refer my hon. Friend to the reply given by my hon. Friend the former Minister of State for the Cabinet Office (Ruth Kelly) on 25 October 2004, *Official Report*, column 1053W. The following is an extract from the information placed in the House of Commons Library.

Permanent staff in Yorks and Humberside, and York from 1997 to 2004 by Department

	Full-time equivalent As at 1 April:		
Department/Location	*1997*	*1998*	*1999*
Home Office			
York	0	0	0
Elsewhere in Yorks and Humberside	170	160	160
Total	170	160	160
HM Prison Service			
Elsewhere in Yorks and Humberside	3,540	4,250	4,260
Total	3,540	4,250	4,260
Combined Home Office and Prison Service Agency			
Total	3,710	4,410	4,420

Deportation

Mr. Bellingham: To ask the Secretary of State for the Home Department what assessment he has made of the effect on prison overcrowding for each category of prison of foreign nationals who, having completed their sentence, continue to be detained, awaiting deportation. [209453]

Paul Goggins: No study has been made of the effect of overcrowding on each category of prison holding foreign nationals who are detained after their sentence and awaiting deportation. The numbers however are relatively small and do not have any significant effect on prison accommodation.

European Public Bodies

Mr. Hayes: To ask the Secretary of State for the Home Department if he will make a statement on the activity of the European monitoring centre for drugs and drug addiction in the UK in the last 12 months; and if he will list its publications and newsletters published over that period. [215230]

Miss Melanie Johnson: I have been asked to reply.

The European monitoring centre for drugs and drug addiction (EMCCDDA) collects, analyses and disseminates information on drugs and drug addiction based on data supplied by the United Kingdom and other member states of the European Union. Its publications aim to provide an evidence-based picture of drug misuse and addiction across Europe for a range of audiences including policy-makers, professionals and the general public.

In the past 12 months, the EMCCDDA has published:

Annual Report 2004—The state of the drugs problem in the European Union and Norway.

"Drugs in Focus", EMCDDA policy briefings (three issues).

"Drugnet Europe", EMCDDA newsletters (four issues).

"An overview of cannabis potency in Europe", EMCDDA insights 6.

"Hepatitis C and injecting Drug use: impact costs and policy option", EMCDDA monographs 7.

Report on the risk assessment of TMA-2 in the framework of the joint action on new synthetic drugs.

Report on the risk assessment 2C-I, 2C-T-2 and 2C-T-7 in the framework of the joint action on new synthetic drugs.

European Refugee Fund

Mr. Hayes: To ask the Secretary of State for the Home Department if he will make a statement on UK participation in the European Refugee Fund. [215235]

Mr. Browne: The European Refugee Fund has been for some years an important source of support for Britain's programmes for the integration of refugees and the voluntary return of asylum seekers to their own countries. The UK will participate in the new phase of the Fund which began in January 2005. Actions carried out in the UK will be implemented on the basis of guidelines which will be issued by the Commission on the basis of two phases of Multi-annual Programmes, each lasting three years (2005–07 and 2008–10).

Mr. Hayes: To ask the Secretary of State for the Home Department if he will make a statement on the application of Article 8*(c)* of the European Refugee Fund in the United Kingdom; and what rules have been drawn up to assure balanced representation of views in such projects. [215236]

Mr. Browne: Article 8*(c)* of the Council Decision establishing the European Refugee Fund for the period 2005–10 (13086/84) envisages the possibility of the expenditure of such funds on multi-national awareness raising-campaigns relating to the situation of refugees, stateless persons, and people otherwise in need of protection. It will be for member states to draw up, after consultation, proposals for the expenditure of the Fund within their countries. The process of consultation will take place later this year and the Government would not propose to pre-empt it by taking a firm view at this stage on whether rules would be needed in respect of expenditure under Article 8*(c)* ".

Female Prisoners

Sandra Gidley: To ask the Secretary of State for the Home Department what percentage of women were homeless on leaving prison in the last period for which figures are available. [206287]

Paul Goggins: Recorded information on the discharges of female prisoners between April and December 2004 shows that 19 per cent. had no address on release. All prisoners who are discharged with no address to go to are referred for a Local Authority Homelessness Assessment.

Gurkhas

Annabelle Ewing: To ask the Secretary of State for the Home Department pursuant to the answer of 10 February 2005, *Official Report*, column 1738W, on Gurkhas, what criteria were used to determine the cut-off date of 1 July 1997 for eligibility. [217387]

Mr. Browne: The date of 1 July 1997 recognises when the Brigade of Gurkhas moved their headquarters from Hong Kong to the UK. Settlement is normally granted on the basis of residence in the UK and so it was considered appropriate to enable all those discharged after this date, and who would have developed close physical ties with the UK through being based here, to be able to apply for settlement. However, applications from Gurkhas discharged before 1 July 1997 will be considered on their individual merits, and discretion will be exercised in appropriate cases. Factors such as time spent in the UK, the presence of close family members here, or a chronic medical condition will be taken into account in reaching a decision on applications that are outside the rules.

High Visibility Policing

Mr. Hoyle: To ask the Secretary of State for the Home Department what recent discussions he has had with chief constables concerning high visibility policing. [215325]

Ms Blears: Neighbourhood policing, of which high visibility is an important element, is a key priority for Government for the next five years. We see effective and responsive policing at the neighbourhood level as essential to sustaining the trust and confidence of the public. However, unlike previous community policing initiatives, neighbourhood policing is about more than just public reassurance and high visibility—it does not stand in isolation from other levels of policing, but is essential in tackling the 21st century challenges of crime and antisocial behaviour.

We are working closely with the Association of Chief Police Officers (ACPO) on a programme to embed a neighbourhood policing approach in all forces by 2008, and my officials meet regularly with the ACPO lead for neighbourhood policing—the Chief Constable of Leicester—to discuss progress. I have regular bilaterals with the president of ACPO to discuss policing priorities, and I met with Chief Constables from all 43 forces in England and Wales on 12 January to discuss progress on a range of police reform issues, including the approach to neighbourhood policing set out in the Police Reform White Paper, Building Communities, Beating Crime.

Home Detention Curfews

David Davis: To ask the Secretary of State for the Home Department how many offences were committed by prisoners while released on the home detention curfew scheme since January 1999; what the category of each offence was; and on how many occasions the offence committed was similar in character to that for which the prisoner had originally been sentenced. [203518]

Paul Goggins: As of 31 October 2004, 101,806 prisoners have been placed on home detention curfew since the scheme was introduced in January 1999. Up to 31 October 2004, 2,107 of those prisoners have been reported to the Home Office as having been cautioned, convicted or awaiting prosecution for an offence committed while they were subject to the scheme. This represents around 2 per cent. of the offenders placed on the scheme.

The following table gives a breakdown of these figures into offence category for the last five years up to 31 October 2004. These figures will be subject to constant change as further data is provided, such as when court proceedings on outstanding charges are completed.

	Total breakdown of all further offences from January 1999 to 31 October 2004	*Total further offences committed that are similar to the index offence*
Violence against the person	471	60
Sexual offences	10	0
Burglary	161	68
Robbery	44	8
Theft and handling	906	288
Fraud and forgery	119	14
Drug offences	313	54
Motoring offences	1,023	120
Other	701	7
Total	3,748	619

Identity Cards and Passports

Mr. Oaten: To ask the Secretary of State for the Home Department pursuant to the answer of 27 January 2005, *Official Report*, column 472W, on the Identity Cards Programme, what issues were under discussion at the meetings held with *(a)* the Football Association and *(b)* Idenex; and what conclusions were reached. [214952]

Mr. Browne: The topic of discussion at the meeting between the Identity Cards Programme and TMG.TV Ltd. which was representing the Football Association was the potential use of ID Cards for those organisations who either currently or may in the future require certain employees to undertake Criminal Records Bureau (CRB) checks. In this instance, the discussion focused around local football teams and volunteers and the potential requirement on coaches for children's football teams to undertake CRB checks and how this may work with the introduction of ID Cards. The purpose of the meeting was to inform both parties' understanding of the issues, rather than to reach any specific conclusions.

This meeting was with Identix and I apologise for the typographical error in the original answer. The meeting was part of market sounding process to inform the Programme Team's knowledge of capability and capacity in the biometrics technology sector. The company provided insight on the experience of large scale deployments of biometric technology. Following the meeting the company provided the team with further information on the international structure of relevant standards setting bodies together with various case studies and product brochures.

Mr. Oaten: To ask the Secretary of State for the Home Department whether the UK Passport Service biometrics trial has included groups who by reason of their disabilities are unable to provide biometric data. [210158]

Mr. Browne: A sample of 750 people with disabilities was included in the United Kingdom Passport Service (UKPS) trial. In making these arrangements the UKPS engaged with organisations representing people with disabilities to ensure that issues relating to difficulty in providing biometric data were identified. These issues were recorded during the trial for analysis in order to seek resolutions.

Immigration

Dr. Kumar: To ask the Secretary of State for the Home Department if he will introduce *(a)* a green card system and *(b)* an independent body to handle immigration requests. [215893]

Mr. Browne: The Government's proposals for a new system to manage the admission of non-EEA nationals coming to the United Kingdom for the purpose of work are set out in the five year strategy for asylum and immigration announced by my right hon. Friend, the Home Secretary on 7 February 2005. Under those proposals, Tier 1 of the employment scheme would provide for the admission of the most highly skilled without an advance offer of a job. Applications for admission to work under the new system would continue to be handled by the Immigration and Nationality Directorate and UK Visas. However, it is proposed to establish an independent skills advisory body to advise on labour market and skills shortages.

Mr. Hancock: To ask the Secretary of State for the Home Department how many *(a)* immigration officers and *(b)* senior immigration officers (i) are in post and (ii) form a full complement at the docks in (A) Hull, (B) Harwich, (C) Portsmouth, (D) Poole, (E) Plymouth and (F) Dover. [216502]

Mr. Browne: I refer the hon. Member to the information in the table.

Port	*Number of FTE[1] immigration officers in post*	*Target FTE immigration officer staffing figure*	*Number of FTE senior immigration officers[2] in post*	*Target FTE senior immigration officer staffing figure*
Humber Ports[3]	19	20	4	5
Harwich	25.8	26.8	5.8	5.8
Portsmouth	48.6	49.6	9	9
Poole	20.7	20.8	3.8	3.8
Plymouth	13.4	13.6	2	2
Calais[4]	249.3	237	37.5	51

[1] FTE = Full-time equivalent.
[2] Senior immigration officers have been defined as chief immigration officers and HM inspectors.
[3] Staff at Humber Ports are deployed to Hull port, Humberside airport and other areas including Immingham docks.
[4] Following the establishment of the juxtaposed controls in France, immigration officials operating the control for passengers arriving in Dover are based in Calais.

Keith Vaz: To ask the Secretary of State for the Home Department what training members of staff in the front line services of immigration in the UK receive. [216315]

Mr. Browne: In depth training is provided to front line immigration staff, including Immigration Officers and caseworkers, specific to their role. This is supplemented by mentoring and coaching in the workplace, and by a range of broader learning activities, covering diversity, management and IT for example.

Inquests

Andrew Selous: To ask the Secretary of State for the Home Department whether inquests can be adjourned indefinitely; and if he will make a statement. [216687]

Paul Goggins: Yes, a coroner has the power, and in certain circumstances is obliged, to adjourn an inquest indefinitely. These are cases where any criminal proceedings arising out of the death are pending or envisaged and cases where a public inquiry is to be held

into the events surrounding the death. The coroner has discretion to resume the inquest on conclusion of the criminal proceedings or public inquiry. Cases involving a member of the visiting forces must also be adjourned and can only be resumed on the direction of the Secretary of State.

Andrew Selous: To ask the Secretary of State for the Home Department whether there is a limit on the amounts of money that can be spent by coroners' offices on legal fees in opposing the re-opening of an inquest; and if he will make a statement. [216906]

Paul Goggins: The costs of such proceedings shall be met by the coroner's local authority, subject to those costs being reasonable and also that the authority agrees to indemnify the coroner in advance. The coroner may appeal to the Secretary of State against any decision made by the authority in these circumstances. There is no legal limit as to the costs of the proceedings.

National Offender Management Service

Mrs. Gillan: To ask the Secretary of State for the Home Department what he expects the *(a)* role and *(b)* function of the National Offender Management Service to be by April 2007; and what percentage of those functions will be run by the statutory services of the National Offender Management Service. [209387]

Paul Goggins: By April 2007, budget allocations for offender management on probation areas and prisons will be agreed by Regional Offender Managers (ROMs), the common offender database (NOMIS) will be on line and the Criminal Justice Act 2003, including custody plus provisions, will have been implemented. ROMs will continue to oversee and influence the work of offender managers and, with the National Offender Manager, to develop the commissioning and contestability of services for offenders.

As announced on 20 July 2004, offender managers will remain employed by Probation Boards at this stage. As the National Offender Management Service (NOMS) develops, the end state will involve changes to the role of Boards and to the management relations between ROMs and offender managers. Detailed feasibility work and consultation will be undertaken before final decisions are made.

John McDonnell: To ask the Secretary of State for the Home Department whether comments are being sought on the Vision Statement for the National Offender Management Service from stakeholders. [215999]

Paul Goggins: Yes. The Vision and Blueprint for the National Offender Management Service (NOMS), dated 24 January, was circulated to trade unions via the NOMS Joint Consultative Council and to probation and prison staff on 1 February through their respective internal communications networks. The documents are a record of the agreed view of the NOMS board. Staff were invited to comment and offer views via e-mail.

John McDonnell: To ask the Secretary of State for the Home Department whether any members of the National Offender Management Service Performance Board have resigned during the last three months. [216000]

Paul Goggins: During the last three months Judy McKnight (NAPO) and Colin Moses (POA) have withdrawn from the National Offender Management Board.

Mr. Hancock: To ask the Secretary of State for the Home Department how he will ensure that probation boards continue to maintain probation accountability to local communities under the National Offender Management Service structure. [216116]

Paul Goggins: The final structure of the National Offender Management Service is still the subject of detailed planning and consultation. Links with local communities is a key consideration. The Management of Offenders and Sentencing Bill, which is currently before Parliament, does not alter the principle upon which Boards currently operate.

Mr. Hancock: To ask the Secretary of State for the Home Department what representations he received from *(a)* individuals and *(b)* organisations in favour of dividing the Probation Service into Offender Management and Interventions, during the 2004 consultation process. [216118]

Paul Goggins: Representations were published in the summary of responses to two Government consultation exercises in 2004. A copy of the document is in the Library.

John Austin: To ask the Secretary of State for the Home Department what role partnership between the probation service and the voluntary sector will have under the National Offender Management Service structure. [216369]

Paul Goggins: The National Offender Management Service (NOMS) offers opportunities to expand voluntary sector work with offenders and develop new areas for partnership and voluntary sector involvement. Funding has been secured from the Home Office Change Up Public Sector Programme to provide training, advice and support to help the voluntary sector respond to partnership opportunities as well as prepare for contestability. A draft strategy entitled "The role of the Voluntary and Community Sector in the National Offender Management Service" was published on 31 January 2005, and has been sent to probation areas and voluntary and community groups for consultation.

John Austin: To ask the Secretary of State for the Home Department how career training and professional development of staff will be conducted under the National Offender Management Service structure. [216370]

Paul Goggins: Planning has begun on the creation of a learning and development strategy for the National Offender Management Service (NOMS). Working closely with Skills for Justice (the Sector Skills Council for the justice sector) and regional probation training consortia, this strategy will identify new learning programmes and qualifications needed to support the development of NOMS.

As the offender management model is now being developed, a particular priority is to define the occupational standards and competencies needed to undertake this critical new role, and hence to develop supporting learning programmes.

The Prison Service and National Probation Service are also developing proposals for an integrated approach to leadership and management development for managers across NOMS. An early output has been the creation of an induction and development programme for the 10 Regional Offender Managers.

Peter Bottomley: To ask the Secretary of State for the Home Department what the planned budget is for *(a)* the National Offender Management Service, *(b)* the National Probation Service local area boards, *(c)* the Probation Headquarters and *(d)* private sector prisons for each of the next three years. [216660]

Paul Goggins: The budget for the National Offender Management Service for 2005–06 is £4.035 billion resource and £321 million capital.

Of this, the National Probation Service budget for 2005–06 is £945 million resource and £32 million capital of which £620 million resource is the main Probation Boards grant.

Of the other 3325 million a further £173 million goes to boards and the remaining amount is centrally managed including headquarters costs and a significant amount for electronic monitoring (£79 million). The budget for Probation Headquarters will be subject to revision following the current structural review.

The provisional private sector prisons budget for 2005–06 is £231 million resource.

Budgets for 2006–07 and 2007–08 have not yet been finalised.

Pieter Minnaid

Mr. Caton: To ask the Secretary of State for the Home Department what reports his Department has received on the current whereabouts of Pieter Minnaid. [216572]

Paul Goggins: Inquiries are continuing and I will write to my hon. Friend as soon as these are complete.

Mr. Caton: To ask the Secretary of State for the Home Department whether a request has been made to the Netherlands Government for the extradition of Pieter Minnaid; and what steps his Department have taken to secure his return to prison in the UK. [216573]

Paul Goggins: Inquiries are continuing and I will write to my hon. Friend as soon as these are complete.

Police

Mr. Amess: To ask the Secretary of State for the Home Department how many special constables will attend the National Special Constables Weekend on 25–27 February, broken down by constabulary; and if he will make a statement. [215524]

Ms Blears: Special constables are volunteers. Forces in England and Wales are inviting all their special constables to make themselves available for duty over the weekend but it is not known at this stage how many will be available for deployment.

Mr. Amess: To ask the Secretary of State for the Home Department what the estimated cost for the National Special Constables Weekend from 25 to 27 February is; and if he will make a statement. [215525]

Ms Blears: Special constables are volunteers who can claim allowances to cover out of pocket expenses incurred in connection with their police duties . There may be some marginal increase in the cost of allowances claimed as a result of having greater numbers of specials on duty over the weekend. These costs and the cost of organising events, marketing, advertising and so on, will be met from within existing force budgets.

Mr. Amess: To ask the Secretary of State for the Home Department what criteria are taken into account by police forces before suspending a police officer from duty. [215931]

Ms Blears: Regulations 4 and 5 of the Police (Conduct) Regulations 2004 define the circumstances in which an officer may be suspended. The decision to suspend officers up to and including the rank of Chief Superintendent is taken by the chief officer of the force; for officers ranked higher than Chief Superintendent the decision lies with the police authority.

Home Office guidance states that the decision to suspend should be taken only when the presence of an officer on duty may be detrimental to criminal or disciplinary investigations or proceedings, or when it is in the public interest to do so. This will normally apply only in cases where the complaint or allegation is of a serious nature likely to result in disciplinary or criminal conviction, and an officer is likely to be dismissed, required to resign or reduced in rank.

Prison Overcrowding

Tom Cox: To ask the Secretary of State for the Home Department which prisons in England and Wales were considered to be overcrowded, as at 1 February. [215161]

Paul Goggins: The latest available data on overcrowding in prisons relates to the end of December 2004. The list shows prisons holding prisoners in excess of their certified normal capacity.

In total, 81 of 138 prisons were considered to be overcrowded at the end of December 2004. No prison exceeded its operational capacity which is the total number of prisoners that can be held in an establishment without serious risk to good order, security and the proper running of planned regimes.

Prison Service

Mr. Bellingham: To ask the Secretary of State for the Home Department what plans he has to establish the independent monitoring of *(a)* performance and *(b)* market testing in the Prison Service; and if he will make a statement. [209399]

Paul Goggins: Performance testing is used by the Prison Service as a means of improving the performance of underperforming public sector prisons. Market testing is a delegated responsibility of the National Offender Management Service (NOMS) and can be applied to all prisons, whether publicly or privately managed. Under market testing the bids made in each competition are assessed by an evaluation panel which includes independent members. Performance testing and market testing processes are liable to be the subject of regular scrutiny by Parliament, the National Audit Office, and other independent bodies and there are no plans to establish any additional independent monitoring of these processes.

Mr. Bellingham: To ask the Secretary of State for the Home Department what plans he has to extend *(a)* performance and *(b)* market testing within the Prison Service; and if he will make a statement. [209401]

Paul Goggins: There are no plans to extend performance testing wider than underperforming prisons.

I plan to make an announcement on the market testing of prisons in due course.

Mr. Bellingham: To ask the Secretary of State for the Home Department what assessment he has made of the progress made by each prison under *(a)* performance and *(b)* market testing. [209402]

Paul Goggins: Those establishments that have successfully completed performance tests have delivered substantial improvements in performance and value for money. The improvements are evident across a range of indicators, including better regimes with more positive outcomes for prisoners, progression in published performance ratings and in reports from HM Chief Inspector of Prisons.

The progress of the five prisons market tested since 1999 is continuously assessed through the operation of the relevant contract or Service Level Agreement. The role of the public sector controllers in monitoring contracts with the private sector and that of the public sector monitors in monitoring Service Level Agreements with public sector prisons is central to the assessment process.

Mr. Llwyd: To ask the Secretary of State for the Home Department when he expects the Prison Service to be staffed to its operational staffing requirement. [216749]

Paul Goggins: Prison governors keep staffing levels under regular review. During the last two years, the public sector Prison Service has been successful in attracting new prison officer recruits. 2,420 new officers were recruited in 2003 (an increase of 50.5 per cent. on 2002), and 1,983 officers were recruited in 2004. Leaving rates are currently less than four per cent per year across the service. There are a range of reasons why vacancies may occur in individual prisons, including retirements, exits, promotions and transfers, and the time taken for the recruitment and training processes.

It is not realistic to expect staffing levels to exactly match the operational staffing requirement at any particular time. However, at 31 January 2005, the difference between the total operational staffing availability in the public sector Prison Service (including officers working contract supplementary hours) and the operational staffing requirement for prison officers, senior officers, principal officers and operational managers was just one per cent (269 full-time equivalent officers against an operational staffing requirement of 25,704). The Director General considers this to be an acceptable operating margin.

Prisons

Mr. Allen: To ask the Secretary of State for the Home Department what expenditure was incurred by the Prison Service in providing faith-based offending behaviour courses at Dartmoor prison in the latest year for which figures are available. [216435]

Paul Goggins: There are currently no faith-based offending behaviour courses running at Dartmoor prison and hence no expenditure has been incurred.

Sandra Gidley: To ask the Secretary of State for the Home Department what percentage of prisoners have been denied visitation rights in each of the last five years. [217109]

Paul Goggins: This information is not centrally collated. Prisoners have a statutory entitlement to social visits, which are managed locally at each establishment. There may be a number of reasons why a social visit does not take place. Some prisoners choose not to take advantage of their full entitlement or are unable to do so owing to factors beyond their, or the prison's control.

Governors have the authority to prohibit or restrict visits to a prisoner, or to bar a particular visitor for such periods of time as is considered necessary in the circumstances. For example, restrictions may be placed on the prisoner or a visitor for public protection reasons, or where there is a specific threat to the security or good order of an establishment.

Keith Vaz: To ask the Secretary of State for the Home Department what steps the Government takes to tackle *(a)* racism and *(b)* violence in prisons. [217175]

Paul Goggins: Race equality is a core standard for the Prison Service that must permeate everything that it does. The Service works hard to ensure that all aspects of current and future policy, functions and activities take full account of race equality issues and promote good race relations, adopting a zero tolerance approach of anyone who holds racist views. The Service has dismissed a number of staff for their actions and was the first public sector employer to prevent staff being members of racist organisations.

The joint CRE/Prison Service Action Plan "Implementing Race Equality in Prisons: A shared agenda for change" represents a milestone for race relations in the Service. It specifically focuses on the key areas of work identified by the Commission for Racial Equality in its formal investigation, and sets out the work which the Service will undertake to meet its commitment to race equality by making race equality an integral part of all that the Service does.

The Prison Service is currently reviewing its Race Equality Scheme for 2002–05, and is drawing up plans to deliver race equality in 2005–08.

The Prison Service has a responsibility to keep prisoners and staff safe. A Service-wide Violence Reduction Strategy has been developed through the work of the Safer Custody Group. Prison Service Order 2,750 directs every public sector prison to have in place a local violence reduction strategy.

Each establishment is required to undertake regular analysis of the problem areas and provide an action plan to improve personal safety.

An intranet toolkit supports the violence reduction PSO and guides establishments to develop practical solutions, including environmental and physical measures as well as alternatives for behaviour management. Specific issues such as racism, are covered with good practice examples.

Prisons are audited against a violence reduction standard, and work towards a Key Performance Target on the rate of serious assault.

Keith Vaz: To ask the Secretary of State for the Home Department what records are kept of *(a)* violent and *(b)* racially motivated behaviour in prisons. [217176]

Paul Goggins: HM Prison Service keeps detailed records of all violent incidents through a national incident reporting system. All establishments must enter any violent incident on to the system. These are collated centrally. The rate of serious assault is a key performance indicator for the Violence Reduction Strategy.

Following a review, a dedicated form for registering racist incidents is now available across the whole of the Prison Estate. This form can be completed by anyone who is a victim or a witness to an incident within the prison. The purpose of the revised form is to improve:

The recording of racist incidents;

Responses to individual reports in order to increase the confidence of victims in the system; and

Monitoring, to enable prisons to improve the implementation and practice of good race relations.

Information on racist incidents is broken down into the following categories:

Prisoner on prisoner

Prisoner on staff

Staff on prisoner

Staff on staff

Establishments record this information locally and submit it to Headquarters on a quarterly basis.

As well as the racist incident reporting form, the Prison Service has revised its prisoner complaints system and the Request and Complaints form now includes a tick box to indicate whether the prisoner feels the incident was racially motivated.

The new system is supported by a central unit that holds and monitors information on all formal investigations commissioned across the Prison Service. This information includes the source, location and type of investigation, its causes, and its outcome, enabling the Service to monitor trends and identify areas of concern.

Probation Inspectorate

Mrs. Spelman: To ask the Secretary of State for the Home Department what the expenditure of Her Majesty's Inspectorate of Probation was in each year since 1997–98. [213572]

Paul Goggins: The budget of Her Majesty's Inspectorate of Probation in these years has been:

	£ million
1997–98	[1]
1998–99	[1]
1999–2000	1.522
2000–01	1.530
2001–02	1.981
2002–03	2.749
2003–04	3.229
2004–05	3.352

[1] Information prior to 1999–2000 has been archived and will need some time to retrieve. I will write to the hon. Member with the information when it is available.

The overall pattern of inspections undertaken each year has changed radically since 2000 in response to the creation of the National Probation Service (NPS) and other related developments.

The budget figures reflect additional work that has been undertaken by Her Majesty's Inspectorate of Probation.

From 2001–2003 this included an additional programme examining accredited groupwork programmes delivered by the NPS.

From 2003–04 onwards this also includes the joint inspection of Youth Offending Teams, a major new programme of inspections, led and fully resourced by Her Majesty's Inspectorate of Probation. This programme now takes up more than 40 per cent. of the Inspectorate's deployable resources on a continuing basis.

This additional work and other recent changes have resulted in a substantial increase in the output of Her Majesty's Inspectorate of Probation.

Probation Service

Mr. Hancock: To ask the Secretary of State for the Home Department what the role is of the Probation Service in England and Wales in working locally with other criminal justice agencies on public protection issues. [216119]

Paul Goggins: Working purposefully with other criminal justice agencies to protect the public from harm remains a key priority for the National Probation Service (NPS). Together with the local police and prison services, the NPS is responsible for reviewing and monitoring arrangements for assessing and managing the risks posed by sexual and violent offenders within multi-agency public protection arrangements (MAPPA). This involves working with other criminal justice organisations, including the youth offending teams, together with local providers of health, housing, education and social services.

Chief officers of probation sit on local criminal justice boards (LCJBs) which are responsible for the local delivery of criminal justice system (CJS) objectives, improvement in the delivery of justice, the service provided to victims and witnesses, and securing public confidence in the system. In addition, the responsible authority for each crime and disorder reduction partnerships (CDRPs) is required to co-operate with local probation boards in developing and implementing strategies to tackle crime and disorder and misuse of drugs in their area.

Working together with partners under each of these headings the NPS will continue work to improve child protection arrangements, enhance the service to victims, and develop a co-ordinated response to domestic abuse. It will also prioritise work with prolific and priority offenders to help reduce their re-offending by ensuring swift assessment, priority access to interventions, intensive supervision and prompt enforcement of any breach of licence or court order.

John Austin: To ask the Secretary of State for the Home Department how much of the increase in the probation service budget will be allocated to frontline services. [216373]

Paul Goggins: The probation service budget is increasing in 2005–06 by £61 million. The whole of this is being allocated to front-line services.

Fire and Rescue Services (Race Relations)

Mr. Dhanda: To ask the Secretary of State for the Home Department how many fire and rescue services have *(a)* complied with their statutory duties under the Race Relations (Amendment) Act 2000, *(b)* published a race equality scheme and action plan and *(c)* carried out race impact assessments. [216584]

Mr. Raynsford: I have been asked to reply.

This information is not currently held centrally. However, under the requirements of the best value performance indicator (BVPI) 2B for local government, all fire and rescue authorities are in the process of providing the Office of the Deputy Prime Minister with information relevant to their compliance with their statutory responsibilities under the Race Relations (Amendment) Act (RR(A)A) 2000. This information will be reported in our publication "The Office of the Deputy Prime Minister Best Value Performance Indicators 2003–04" which will be available this spring.

This report will be published on the Office of the Deputy Prime Minister's website and copies will be available in the Libraries of both Houses.

Additionally the Office of the Deputy Prime Minister is gathering more in-depth information on the service's compliance with the requirements of the RR(A)A 2000, in particular with regard to action planning and impact assessment. The results of this exercise will be reported to the Fire and Rescue Service Practitioners' Forum in June.

Sexual Assault Referral Centres

Vera Baird: To ask the Secretary of State for the Home Department how many sexual assault referral centres are located in or adjacent to hospitals. [215572]

Paul Goggins: There are 13 Sexual Assault Referral Centres (SARCs) currently operating in England and Wales. 12 are based on single sites, with one based in two separate locations. Of the one-site SARCs, nine are located in or adjacent to hospitals. A further two are located in primary care centres. One occupies police premises in a residential area removed from any police station. The two-site SARC has one centre within a hospital, and one centre in police premises in a residential area.

The following list shows the location of the 13 SARCs:

	Location
St. Mary's, Manchester	St. Mary's Hospital, Manchester
The Haven Camberwell	King's College Hospital, London, SE5
The Haven Paddington	St. Mary's Hospital, London, W2
The Haven Whitechapel	The Royal London Hospital, London E1
REACH Centre, Northumbria	This SARC is based in two sites. One is within the Sunderland Royal Hospital, the other in a converted police house in a residential area
SAFE Centre, Lancashire	Royal Preston Hospital, Preston
Juniper Lodge, Leicestershire	Leicester General Hospital, Leicester
Milne Centre, Bristol	Bristol Royal Infirmary, Bristol
Renton Clinic, Kent	Darent Valley Hospital, Dartford
Rowan Centre, West Midlands	Within premises of Manor Hospital, Walsall
The Swindon Sanctuary, Wiltshire	Taw Hill Medical Practice, Swindon
Cambridgeshire SARC	Rivergate Primary Care Centre, Peterborough
Millfield House, Derbyshire	Converted police house in a residential area

Student Visa Extensions

Dr. Tonge: To ask the Secretary of State for the Home Department what the evidential basis is for his calculations of the cost of processing a visa extension application made by an international student studying at a British university. [214048]

Mr. Browne: The new fees I announced on 7 February expand the principle of full cost recovery to include the costs of providing the appeals system for leave to remain applicants, including students. We have calculated the fees using the full cost recovery formula, which has been approved by HM Treasury.

The basic fee represents the full administration costs of delivering the decision up to and including the appeals process and outstanding deficits for providing the service. All elements have associated overhead costs.

The £250 postal charge for student leave to remain includes recovery of appeals costs. However, the fee set for students will mean we will not recover the full administrative cost of processing student applications.

Suicides

Mr. Lansley: To ask the Secretary of State for the Home Department how many *(a)* male and *(b)* female suicides there have been in (i) prison and (ii) police custody in England in each year since 1997; and if he will make a statement. [216155]

Paul Goggins: The numbers requested are shown in the following tables:

Table 1: Male and female self-inflicted deaths in Prison Service establishments in England and Wales

Calendar year	*Male self-inflicted deaths*	*Female self-inflicted deaths*
1997	65	3
1998	81	3
1999	86	5
2000	73	8
2001	67	6
2002	86	9
2003	80	14
2004	82	13

The Prison Service employs the term "self-inflicted death" rather than "suicide". This includes all those deaths where it appears the person may have acted specifically to take his/her own life.

Table 2: Male and female suicides during or following police contact in England and Wales

	Female	*Male*
1997–98	3	31 (11)
1998–99	1	31 (16)
1999–2000	None	21 (7)
2000–01	None	7 (5)
2001–02	None	7 (3)
2002–03	1	12 (8)
2003–04	1	8 (4)

Note:
The figures in brackets show the numbers of those (both male and female) that died in police cells. The Home Office records this information on a yearly basis; 1 April to 31 March.

Every death that occurs in prison or following contact with the police is a tragedy and is treated with the utmost seriousness by the Government, and the Prison and Police Services. On 31 March 2004, I announced the outline suicide prevention strategy for prisons that can be summarised as, 'Reducing distress and promoting the well-being of all who live and work in prisons.' This follows extensive consultations including those with the Howard League, Prison Reform Trust, Inquest, the Youth Justice Board, Prisons and Probations Ombudsman, Her Majesty's Chief Inspector of Prisons, Samaritans and the Department of Health.

This builds on the three-year Safer Custody strategy that ran from April 2001, which was geared towards making progress in resettlement, detoxification, health, and purposeful activity, as well as staff outlooks, leadership and training. Key achievements were the placement of Suicide Prevention Co-ordinators (or equivalents) operating in all prisons, an investment of over £21 million at six 'Safer Local' pilot sites, and the development of safer prison design, including 'safer cells.'

Police forces are also working hard to ensure that all possible measures are in place to minimise the risks relating to suicide and self-harm. The care, assessment and monitoring of detainees are a top priority, custody facilities have been made safer and training and CCTV monitoring has been improved.

The Home Office, Association of Chief Police Officers (ACPO) and the National Centre for Policing Excellence (NCPE) have set up a Project Group to develop and disseminate policy and best practice on the safer handling of detainees in order to prevent deaths in custody. The Project Group hopes to publish this guidance in January 2006, following consultation with practitioners within the CJS and health/medical disciples.

Tackling Intruders

David Davis: To ask the Secretary of State for the Home Department (1) how many people have been charged in connection with people tackling intruders in *(a)* residential properties and *(b)* retail properties in each year since 1990; [214323]

(2) how many people have been convicted of an offence in connection with people tackling intruders in *(a)* residential properties and *(b)* retail properties in each year since 1990. [214324]

Paul Goggins: It is not possible to identify those persons prosecuted or convicted for offences arising out of the intruders entering their property, as the circumstances surrounding an offence are not centrally collected on the Home Office Court Proceedings database. However the Director of Public Prosecutions would look for clear evidence of very excessive force before considering a prosecution.

Women Remand Prisoners

Sandra Gidley: To ask the Secretary of State for the Home Department what percentage of women remand prisoners did not receive a custodial sentence in each of the last five years for which figures are available. [217165]

Paul Goggins: The table gives the estimated percentages of women remand prisoners who were not given a custodial sentence in each of the last five years.

Percentage of women remanded in custody who did not receive a custodial sentence 1999–2003, England and Wales

	Percentage
1999	64
2000	62
2001	57
2002	58
2003	59

Work Permits

Mr. Laxton: To ask the Secretary of State for the Home Department what the average time taken in the last 12 months to grant further leave to remain status to a work permit extension that has already been approved is. [216654]

Mr. Browne: The information requested is not specifically identifiable on the database used to record Leave to Remain decisions.

Mr. Laxton: To ask the Secretary of State for the Home Department what the average time taken in the last 12 months to grant approval to a work permit extension application is. [216655]

Mr. Browne: The average time taken to grant an approval for a work permit extension was four working days during the calendar year 2004.

This is the time taken from receipt of the work permit application in Work Permits (UK) to dispatch of a decision.

Yukos

Malcolm Bruce: To ask the Secretary of State for the Home Department whether the Government of the Russian Federation has made representations to the UK Government regarding Yukos employees or executives currently residing in the UK; and if he will make a statement. [216474]

Mr. Browne: The UK Government have received no representations from the Government of the Russian Federation regarding Yukos employees or executives currently residing in the UK.

Written Answers to Questions

Tuesday 22 February 2005

INTERNATIONAL DEVELOPMENT

Kazakhstan

Mr. Bercow: To ask the Secretary of State for International Development what representations he has made to the Government of Kazakhstan concerning *(a)* human rights and *(b)* the implementation of good governance practices. [215768]

Mr. Rammell: I have been asked to reply.

We continually raise, bilaterally and with our EU partners, the importance of respect for human rights and good governance in Kazakhstan. When I met the Kazakh Minister for Justice last May I raised democratic reform and human rights issues, including the death penalty and conditions in Kazakh prisons. Following the parliamentary elections in September/October 2004, the EU released a statement reflecting the concerns of the OSCE Election Observers that the elections had failed to meet international standards. The concerns were also raised by our Ambassador with the Foreign Minister in October 2004. More recently, in February, along with our EU partners we raised human rights issues at an EU-Kazakhstan sub-committee meeting. This month, we supported an EU statement in Vienna expressing concern at the new law on Extremism and the recent banning of an opposition party.

Wherever possible we also look to work with the Kazakh authorities to improve the human rights situation and have funded projects aimed at improving the conditions in prisons, preventing torture in places of detention and encouraging the abolition of the death penalty. We have an on-going dialogue with the government of Kazakhstan on transparency issues and are working closely with NGOs on this too.

We will continue to stress the importance of human rights and good governance with the Kazakh authorities and look for opportunities to provide suitable assistance. Kazakhstan has recently been identified as a priority country under the sustainable development strand of the Foreign and Commonwealth Office's Global Opportunities Fund. This will provide further scope for the UK Government to support rule of law, torture prevention and death penalty abolition initiatives.

Official Residences

Chris Grayling: To ask the Secretary of State for International Development if he will list the official residences for which his Department is responsible; who occupies each one; what the annual cost is of running each property; what contribution the current occupants make towards the running costs of each; what the total capital and refurbishment expenditure has been on those properties in each of the past five years; how much money was spent in each property on *(a)* flowers and plants, *(b)* wine and entertaining, *(c)* food, *(d)* telephone bills and *(e)* electricity and gas in 2003–04; how many (i) domestic and (ii) maintenance staff are employed at each property, broken down by post; and what the total cost of staff employment at each was in 2003–04. [213604]

Hilary Benn: DFID currently owns 11 domestic properties overseas, in Zimbabwe (3), Solomon Islands (1), and Malawi (7). DFID also provides approximately 450 UK-based staff posted overseas with commercially leased accommodation. DFID does not pay for flowers and plants, food, wine, or domestic staff, all of which are the responsibility of the occupier. Individuals receive a cost of living allowance, and where appropriate a gardening allowance, in respect of the additional costs incurred of living overseas, and these allowances vary depending on location.

Official expenditure on business phone calls and utilities are met from individual delegated budgets but are not separately identifiable and this detailed information cannot be obtained without incurring disproportionate cost. Similarly, information on the individual occupancy of each of the overseas properties, and the overall cost to DFID, are not held centrally and cannot be obtained without incurring disproportionate cost.

Publicity

Mr. Laws: To ask the Secretary of State, Department for International Development what the total expenditure by his Department on *(a)* advertising and *(b)* advertising and publicity was in (i) 1996–97, (ii) 1997–98 and (iii) 2003–04; and what the estimate of cost of each will be in (A) 2004–05, (B) 2005–06, (C) 2006–07 and (D) 2007–08. [211660]

Hilary Benn *[pursuant to the reply, 10 February 2005, Official Report, c. 1642W]:* The correct figure for expenditure on advertising for 2003–04 was £676,649 and the estimated figure for 2004–05 is £663,591.

It was originally stated that the expenditure on advertising for 2004–05, which was then believed to be higher than that for 2003–04, reflected a higher number of posts being advertised in 2004–05. On re-examination this is incorrect. The number of recruitment competitions for which advertisements were placed was in fact slightly more in 2003–04 than the number to date in 2004–05.

TREASURY

Consultants

Mr. Laws: To ask the Chancellor of the Exchequer what the total expenditure by his Department on external consultants was in *(a)* 1996–97 and *(b)* 2003–04; and what the estimated cost of employing external consultants will be in (i) 2004–05, (ii) 2005–06, (iii) 2006–07 and (iv) 2007–08. [211663]

Mr. Timms: The Treasury's spending on external consultants was as follows:

£ million

	Revenue	Capital	Total
1996–97	1.03	n/a	1.03
2003–04	6.16	0.44	6.60
2004–05[1]	6.04	0.60	6.64

n/a = not available
[1] estimated

Until the introduction of resource accounting from 2001–02, all expenditure was classed as revenue.

Estimates for future years are not available.

It has come to my attention that the answer I gave to the hon. Members for New Forest, East (Dr. Lewis) and Stratford on Avon (Mr. Maples) on 25 October 2004, *Official Report*, column 1055W, was inaccurate in the following respect. The answer stated that the capital consultancy spend of the Treasury was £0.78 million in 2002–03 and £1.40 million in 2003–04. The correct figures are £0.84 million in 2002–03 and £0.44 million in 2003–04. I apologise to the hon. Members for the error.

Death Rates

Mr. Lansley: To ask the Chancellor of the Exchequer what the death rate from suicide and undetermined injury has been in each year since 1986 for *(a)* men, *(b)* women and *(c)* in total. [216167]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Mr Andrew Lansley, dated 22 February 2005:

As National Statistician I have been asked to reply to your recent question concerning what the death rate from suicide and undetermined injury has been in each year since 1986 for *(a)* men, *(b)* women and *(c)* in total. (216167)

The most recent available figures on suicide and undetermined injury are for the calendar year 2003. The figures in the attached table show the age-standardised mortality rate for suicide and undetermined injury by sex among those aged 15 and over for the calendar years 1986 to 2003.

Age-standardised mortality rate[1] for ages 15 and over from suicide[2] and injury and poisoning of undetermined intent,[3] (a) men, (b) women and (c) persons, England and Wales, 1986 to 2003[4]

Rate per 100,000

Calendar year	(a) Men	(b) Women	(c) Persons
1986	19.7	8.5	13.9
1987	19.6	8.0	13.6
1988	21.1	8.0	14.3
1989	19.2	7.0	12.9
1990	20.4	6.8	13.4
1991	20.5	6.5	13.3
1992	20.4	6.4	13.2
1993	19.4	6.1	12.6
1994	19.3	5.6	12.3
1995	19.1	5.9	12.3
1996	18.0	5.6	11.7
1997	18.4	5.7	11.9
1998	19.4	5.5	12.3
1999	19.2	5.7	12.3
2000	17.8	5.7	11.6
2001	17.1	5.1	11.0
2002	16.7	5.3	10.9
2003	16.5	5.2	10.7

[1] Directly age-standardised to the European standard population.
[2] The cause of death for intentional self harm was defined using the International Classification of Diseases, Ninth Revision (ICD-9) codes E950-E959for the years 1986 to 2000, and, for the years 2001 to 2003, the International Classification of Diseases, Tenth Revision (ICD-10) codes X60-X84.
[3] The cause of death for injury and poisoning of undetermined intent was defined using the International Classification of Diseases, Ninth Revision (ICD-9) codes E980-E989 excluding E9 88.8 for the years 1986 to 2000, and, for the years 2001 to 2003, the International Classification of Diseases, Tenth Revision (ICD-10) codes YJO-Y34 excluding Y33.9-where the Coroner's verdict was pending.
[4] Figures are for deaths registered in each calendar year from 1986 to 1992 and for deaths occurring in each calendar year from 1993 onwards.

Labour Statistics

Mr. Gill: To ask the Chancellor of the Exchequer how many people were in full-time employment in Leicester, South constituency in each year since 1997. [216940]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Mr. Parmjit Singh Gill, dated 22 February 2005:

As National Statistician, I have been asked to reply to your Parliamentary Question about employment. (216940)

The attached table gives estimates of those people resident in the Leicester, South parliamentary constituency who are in full-time employment for the 12-month periods ending February each year from 1997 to 2004.

As with any sample survey, estimates from the Labour Force Survey are subject to sampling variability.

Full-time[1] employed people resident in the parliamentary constituency of Leicester, South

12-month period ending February each year	Full-time employment[2]
1997	29,000
1998	33,000
1999	28,000
2000	27,000
2001	29,000
2002	34,000
2003	29,000
2004	24,000

[1] Full-time is based on respondents self assessment.
[2] LFS estimates for local areas are particularly subject to sampling variations. Changes from year-to-year should be treated with caution.

Source:
ONS Labour Force Survey

Angela Eagle: To ask the Chancellor of the Exchequer how many people in each ward of Wallasey constituency are *(a)* employed and *(b)* unemployed. [217334]

Mr. Timms: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Ms Angela Eagle, dated 22 February 2005:

As National Statistician, I have been asked to reply to your Parliamentary Question about employment and unemployment in each ward of Wallasey Parliamentary Constituency. (217334)

Regular statistics of employment and unemployment are compiled from the Labour Force Survey (LFS) on the basis of standard international definitions. For individual wards the LFS sample size is too small to provide estimates, but information at ward level is available from the 2001 Population Census. Table 1 shows the information requested for people aged 16 to 74 from these sources.

The Office for National Statistics also compiles statistics by ward of residence for people claiming Jobseeker's Allowance (JSA). Table 2 gives the number of JSA claimants resident in each of the wards of Wallasey Parliamentary Constituency in January 2005.

Table 1: Employment and unemployment among people aged 16–74 resident in wards of the Wallasey parliamentary constituency, 2001

Number

	All people	Employment	Unemployment
Wallasey PC	59,479	32,928	2,983
Leasowe	8,793	4,374	565
Liscard	10,146	5,499	547
Moreton	9,123	5,385	311
New Brighton	10,324	5,883	516
Seacombe	10,243	5,109	675
Wallasey	10,850	6,678	369

Mr. Liddell-Grainger: To ask the Chancellor of the Exchequer how many people were unemployed in the Bridgwater constituency in each year since 1990. [217349]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Mr. Ian Liddell-Grainger, dated 22 February 2005:

As National Statistician, I have been asked to reply to your Parliamentary Question about unemployment. (217349)

Table 1 gives estimates of the numbers of unemployed people who were resident in the Bridgwater Parliamentary Constituency, for the 12-month periods ending February 1997 to 2004, the latest period for which figures are available. Data prior to 1997 are not available.

These estimates from Labour Force Survey are, as with any sample survey, subject to sampling variability.

The Office for National Statistics also compiles statistics of people claiming Jobseeker's allowance who are resident in local areas. Table 2 gives the annual average number of Jobseeker's Allowance claimants resident in the Bridgwater Parliamentary Constituency for the years 1990 to 2004.

Table 1: Unemployed people resident in the parliamentary constituency of Bridgwater

12-month period ending February	Unemployed
1997	3,000
1998	3,000
1999	3,000
2000	2,000
2001	2,000
2002	1,000
2003	3,000
2004	1,000

Note:
These estimates are based on very small sample sizes and are subject to a very high degree of sampling variability. Changes from year to year, especially, should be treated with caution.

Mr. Liddell-Grainger: To ask the Chancellor of the Exchequer how many *(a)* people aged 16 to 24 years, *(b)* men and *(c)* people of working age in Bridgwater constituency were economically inactive in each year since 1997. [217397]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Mr. Ian Liddell-Grainger, dated 22 February 2005:

As National Statistician, I have been asked to reply to your Parliamentary Question about Economic Inactivity. (217397)

The attached table gives the information requested for groups of people resident in the Bridgwater Parliamentary Constituency who were economically inactive for the twelve month periods ending in February from 1997 to 2004.

As with any sample survey, estimates from the Labour Force Survey are subject to sampling variability.

Economic inactivity[1] among people resident in Bridgwater parliamentary constituency

Number

12 months ending February each year	*Inactive 16–24 year olds*	*Inactive men aged 16 and over*	*Inactive population of working age[2]*
1997	2,000	12,000	12,000
1998	2,000	10,000	12,000
1999	3,000	10,000	15,000
2000	3,000	12,000	14,000
2001	2,000	11,000	13,000
2002	1,000	11,000	9,000
2003	2,000	9,000	8,000
2004	1,000	10,000	8,000

[1] People who are neither In employment nor unemployed
[2] Working age refers to men aged 16 to 64 and women 16 to 59.

ONS-Labour Force Survey

Mr. Hoyle: To ask the Chancellor of the Exchequer what the level of unemployment was in *(a)* Chorley, *(b)* Lancashire and *(c)* the North West in (i) 1997, (ii) 2003 and (iii) 2005; what percentage were (A) male and (B) female; and what percentage were under (1) 21, (2) 30 and (3) 60 years. [216306]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Mr. Lindsay Hoyle, dated 22 February 2005:

As National Statistician I have been asked to reply to your recent Parliamentary Question about unemployment in Chorley, Lancashire and the North West.

Table 1 gives estimates of the levels of all unemployed people resident in the Chorley Parliamentary Constituency, County of Lancashire, and the North West Region. Proportions are given by gender, and who were: aged under 20; aged under 30; and aged under 60 for the 12-month periods ending November 1997, 2002 and 2004. Estimates have not been given for people aged under 21, as this breakdown is not available for all years.

These estimates from the Labour Force Survey (LFS) are, as with any statistical sample survey, subject to sampling variability.

The Office for National Statistics also compiles statistics of those claiming Jobseeker's Allowance (JSA) for local areas. Table 2 gives the annual average number of people resident in each of the areas specified claiming Jobseeker's Allowance (JSA) benefits. The table also shows the proportions of these totals who were aged under 20, aged under 30; and aged under 60 analysed by gender. Estimates are not available for people aged under 21.

Table 1: Unemployed people resident in the Chorley parliamentary constituency, Lancashire and the North West

12-month period ending February	*Chorley PCA[1]*	*Lancashire*	*North West*
1997

Geraldine Smith: To ask the Chancellor of the Exchequer what the level of unemployment has been in Morecambe and Lunesdale in each year since 1997. [216768]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Ms Geraldine Smith, 22 February 2005:

As National Statistician, I have been asked to reply to your Parliamentary Question about unemployment. (216768)

Table 1 gives estimates of the numbers of unemployed people who were resident in Morecambe and Lunesdale Parliamentary Constituency, for the 12-month periods ending February 1997 to 2004, the latest period for which figures are available.

These estimates from Labour Force Survey are, as with any sample survey, subject to sampling variability.

The Office for National Statistics also compiles statistics of people claiming Jobseeker's Allowance who are resident in local areas. Table 2 gives the annual average number of Jobseeker's Allowance claimants resident in the Morecambe and Lunesdale Parliamentary Constituency for the years 1997 to 2004.

Table 1: Unemployed people resident in Morecambe and Lunesdale parliamentary constituency

Mrs. Fitzsimons: To ask the Chancellor of the Exchequer what the level of unemployment was in *(a)* Rochdale and *(b)* the North West in (i) 1997 and (ii) 2004; and what percentage were (A) female and (B) male. [217300]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Ms Lorna Fitzsimons, dated 22 February 2005:

As National Statistician, I have been asked to reply to your Parliamentary Question about unemployment. (217300)

The attached table gives estimates of the number and percentage of unemployed people who were resident in Rochdale and the North West, for the 12-month periods ending February 1997 and 2004.

These estimates from Labour Force Survey are, as with any sample survey, subject to sampling variability.

Unemployment among residents of Rochdale UA and the North West,12 months ending February 1997 and 2004

12 months ending February	*Rochdale unitary authority*[1] *Level*	*Rochdale unitary authority*[1] *Percent*[2]	*North west region Level*	*North west region Percent*[2]
1997				
Total unemployed	7,000	100	246,000	100

ONS-Labour Force Survey

Mr. Stinchcombe: To ask the Chancellor of the Exchequer how many *(a)* unemployed people and *(b)* unemployed young people there are in the constituency of Wellingborough; and if he will make a statement. [216685]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Mr. Paul Stinchcombe, dated 22 February 2005:

As National Statistician, I have been asked to reply to your Parliamentary Question about unemployment. (216685)

It is estimated that for the 12-month period ending February 2004, there were 2,000 people resident in the Wellingborough Parliamentary Constituency who were unemployed. Of those an estimated 1,000 were aged 16–24 years old. These estimates from the Labour Force Survey are subject to sampling variability and rounded to the nearest thousand.

The Office for National Statistics also compiles statistics of those claiming Jobseeker's Allowance for local areas. In December 2004, there were 1,085 residents of the Wellingborough Parliamentary Constituency who were claiming Jobseeker's Allowance. Of these, 305 were aged 18 to 24.

Regional Statistics

Mrs. Spelman: To ask the Chancellor of the Exchequer which local authorities fall within Nomenclature of Units for Territorial Statistics *(a)* 1, *(b)* 2 and *(c)* 3. [216560]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Mrs. Caroline Spelman, dated 22 February 2005:

As National Statistician I have been asked to reply to your recent Parliamentary Question asking which local authorities fall within NUTS *(a)* 1, *(b)* 2 and *(c)* 3. (216560)

The current relationships between local authority districts and NUTS levels 1, 2 and 3 are contained in the *Gazetteer of the old and new geographies of the United Kingdom* (ISBN 1 85774 298 2) published by the Office for National Statistics in 1999. The publication can be viewed on the National Statistics website, and can be downloaded in pdf format at: http://www.statistics.gov.uk/geography/gazetteer.asp

The relationships between the local authority districts and the NUTS 1–3 levels are shown in tabular form on pages 10–40, and the full NUTS 1–3 classification with maps, is shown on pages 88–113.

Since local government reorganisation in 1998, there have been minor changes to local authority district boundaries in Wales in April 2002 and April 2003, and in Scotland in June 2002. However, these have not impacted on the NUTS 1–3 areas because the NUTS boundaries moved to retain the relationships. There have not been any local authority district boundary changes in England since 1998 or in Northern Ireland since 1973.

The NUTS 1–3 areas were frozen by EU Regulation in July 2003 and, in consequence, the small change in the boundary between Powys and Neath Port Talbot, effective on 1 April 2005, will result in part of Powys falling within "Bridgend and Neath Port Talbot" NUTS 3 area, and within "West Wales and the Valleys" NUTS 2 area. There are no other local authority district boundary changes being effected in the UK in 2005.

The EU Regulation does not permit the NUTS classification to be amended to reflect small changes to administrative area boundaries more frequently than every 3 years but amendments can be made at lesser intervals if the administrative structure is substantially reorganised.

Mrs. Spelman: To ask the Chancellor of the Exchequer which statistics relating to England the Office for National Statistics *(a)* collates, *(b)* publishes and *(c)* aggregates at a Government Office for Region level. [216036]

Mr. Timms: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Mrs. Caroline Spelman, dated 22 February 2005:

The National Statistician has been asked to reply to your recent question on which statistics relating to England, the Office for National Statistics *(a)* collates, *(b)* publishes and *(c)* aggregates at a Government Office for Regions level. I am replying in his absence. 216036

ONS's practice is to provide analyses by region where this is meaningful in terms of the statistics concerned, subject to the reliability of the figures and providing that release does not create a risk of disclosure of confidential personal information. Following the establishment of Government Offices in 1994, the decision was taken in 1996 that the Government Office regions should become the standard statistical regions for England.

It is standard practice in ONS data collection to include suitable geographic referencing in surveys of businesses and individuals, allowing statistics to be analysed and published at a variety of geographic levels including region. The bulk of ONS statistics can therefore be produced by region, including the Census of population and household and business surveys. A list of major statistical collections indicating the levels at which figures are available will be placed in the House of Commons library.

ONS also publishes a number of statistical reports—such as Regional Trends and Region in Figures—that include regional figures obtained from other Government departments. A list of the contents at regional level will also be placed in the Library. In addition, the Neighbourhood Statistics service includes a wealth of data relating to much smaller geographic areas which can be aggregated to regional level.

Following the 2004 report of the review by Christopher Allsopp of statistics for economic policymaking, the Office is looking to improve the information on its web site about the availability of regional and other sub-national statistics.

Pupil Absence Rates

Mr. Flook: To ask the Chancellor of the Exchequer if he will ask the Office for National Statistics to publish pupil absence rates by local authority ward on the Neighbourhood Statistics website. [216923]

Mr. Timms *[holding answer 21 February 2005]:* The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Adrian Flook, dated 22 February 2005:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking if the Office for National Statistics will publish pupil absence rates by local authority ward on the Neighbourhood Statistics website. (216923)

The Office for National Statistics is planning to publish information on pupil absence as part of the on-going development of the Neighbourhood Statistics website to support work on neighbourhood renewal. It is hoped that the data will be released in the second quarter of 2005.

A recent review, with representatives from the Department for Education and Skills, has confirmed that data on pupil absences has the highest priority. As a result the Office for National Statistics is working with the Department for Education and Skills to make available details of authorised and unauthorised absences in primary and secondary schools for the periods 2002–03 and 2003–04. The level of detail (including the geographical level) cannot be guaranteed at this time as it would depend on whether the information would be disclosive. To protect the confidentiality of information about identifiable individuals, information will be published in strict accordance with the National Statistics Code of Practice.

Staff Identity Passes

Mr. George Osborne: To ask the Chancellor of the Exchequer what the cost of producing a staff identity pass was in the Department on the latest date for which figures are available; and how many staff identity passes have been reported lost or stolen in each year since 1997. [215078]

Mr. Timms: The cost of producing security access passes for Treasury staff is not separately identifiable. The number of passes reported lost or stolen in 2003 and 2004 was 128 and 120 respectively. Numbers for previous years are not available.

Staff Surveys

Mr. George Osborne: To ask the Chancellor of the Exchequer (1) how much was paid to consultants carrying out staff surveys in the Department in each year since 1997; [213655]

(2) what the cost of staff surveys in the Department was in each year since 1997. [213683]

Mr. Timms: The Treasury expenditure for staff surveys were:

	£
2002–03	24,000
2003–04	58,000
2004–05	38,000

For years prior to 2002–03 full details are not readily available. I refer the hon. Member to the responses given by my predecessor on 26 February 2004, *Official Report*, column. 534W and on 26 February 2003, *Official Report*, column. 567W for further details.

The Treasury use consultants in carrying out surveys and all the expense relates to consultancy fees.

Suicides (Lancashire)

Mr. Hoyle: To ask the Chancellor of the Exchequer how many people committed suicide in Lancashire in 2003–04. [216895]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Mr. Lindsay Hoyle, dated 22 February 2005:

As National Statistician, I have been asked to reply to your recent question asking how many people committed suicide in Lancashire in 2003–2004. (216895)

The latest year for which figures are available is 2003. In that year there were 104 suicides[1] of usual residents of Lancashire.[2]

[1] Cause of death was defined using the International Classification of Diseases, Tenth Revision (ICD-10) codes X60-X84 (intentional self-harm) and Y10-Y34 (event of undetermined intent) excluding Y33.9 where the Coroner's verdict was pending.

[2] The figure provided relates to the current county of Lancashire. This excludes the unitary authorities of Blackburn and Darwen, and Blackpool, created in 1998, which were part of the former county. The figure is the number of suicides of those who normally lived in Lancashire, rather than the number of these deaths which occurred within the county.

Swimming Pool Accidents

Dr. Whitehead: To ask the Chancellor of the Exchequer how many fatal accidents have occurred to *(a)* adults and *(b)* children in domestic swimming pools in each of the last five years. [216789]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Mr. Alan Whitehead, 22 February 2005:

As National Statistician I have been asked to reply to your recent question concerning how many fatal accidents have occurred to *(a)* adults and *(b)* children in domestic swimming pools in each of the last five years. (216789)

The most recently available information is for deaths in 2003. Figures for deaths due to accidental drowning in adults and children are shown in the table below for each year from 2001 to 2003. Although accidental drowning deaths are available for years prior to 2001 it is not possible to say if these deaths occurred in domestic swimming pools.

Number of deaths from accidental drowning in domestic swimming pools[1] in (a) adults aged 16 and over, and (b) children aged under 16, England and Wales, 2001 to 2003[2]

	Number of deaths in Year	
	(a) Adults	*(b) Children*
2001	0	0
2002	2	1
2003	1	2

[1] Cause of death was defined using the International Classification of Diseases, Tenth Revision (ICD-10) codes W67.0 and W68.0.
[2] Figures are for deaths occurring in each calendar year.

Tax Credits

Mr. Tynan: To ask the Chancellor of the Exchequer (1) what monitoring his Department is carrying out to ensure that the Tax Credit Office liaises with those individuals who are required to repay overpayments and who await the outcome of their application concerning the reconsideration of recovery of tax credits, to ensure that the repayments are affordable; [216902]

(2) whether the Inland Revenue liaises with individuals who have accrued overpayments of tax credits in order to agree a level of affordable repayment. [216903]

Mr. Timms: The Inland Revenue regularly assesses and reviews its procedures for recovering tax credit overpayments. Their Code of Practice 26 "What happens if we have paid you too much tax credit?" explains that where a claimant has been paid too much they will normally be expected to pay back the overpayment. It describes a number of measures the Revenue has put in place to protect against hardship being caused by the recovery of an overpayment. A copy is available on the Inland Revenue website at http://www.inlandrevenue.gov.uk/leaflets/cop26.htm

Tax Exempt Savings

Dr. Cable: To ask the Chancellor of the Exchequer (1) if he will list increases to the premium limit of tax exempt savings plans since 1992; [217171]

(2) what estimate he has made of the cost to the Treasury of raising premiums of tax exempt savings plans to *(a)* £600 per annum and *(b)* £1,200 per annum. [217172]

Mr. Timms: The premium limit for tax exempt savings plans was increased from the 1992 level to the current level on 1 May 1995, the day on which the Finance Act 1995 was passed.

The estimated current cost of tax-exempt savings plans, with an annual premium limit of £300 is around £70 million per year and in recent years this cost has been increasing at an annual rate of about 10 per cent.

Increasing the limit to £600 or £1,200 per annum would potentially cost the Exchequer an extra £30 million or £120 million per year respectively in the long run. Doubling the limit would not necessarily double the cost because many tax-exempt savings plan customers do not save at the current maximum.

Women (Dismissals/Redundancies)

Keith Vaz: To ask the Chancellor of the Exchequer how many women were *(a)* dismissed and *(b)* made redundant in each year between 1997 and 2004. [215474]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Mr. Keith Vaz, dated 22 February 2005:

As National Statistician I have been asked to reply to your recent Parliamentary Question about redundancies and dismissals of women in the UK between 1997 and 2004. (215474)

The attached table gives estimates of those women dismissed or made redundant in the 12-month periods ending in November each year for the years 1997 to 2004. Estimates are from the Labour Force Survey (LFS) in which respondents are asked about whether they have been dismissed or made redundant in the three months prior to their survey interview.

As with any statistical sample survey, estimates from the LFS are subject to sampling variability.

Women who were dismissed or made redundant[1]

Number

12 months ending November	*Dismissed*	*Made Redundant*
1997	50,000	216,000
1998	48,000	227,000
1999	52,000	250,000
2000	46,000	254,000
2001	36,000	246,000
2002	36,000	259,000
2003	35,000	222,000
2004	38,000	208,000

ONS Labour Force Survey

HEALTH

General Practitioners

15. **Brian Cotter:** To ask the Secretary of State for Health how many general practitioners in the NHS have lists closed to new patients. [216980]

Mr. Hutton: The Department does not collect data on the number of practices with closed lists. Since 1997 there are 3,169 more GPs working in the NHS and spending on primary care is set to increase under the new GMS contract from £6.1 billion to £8 billion by 2005–06—a 33 per cent. increase.

19. **Mr. McCabe:** To ask the Secretary of State for Health what guidelines he issues on standardisation of computer equipment used by general practitioners. [216985]

Mr. Hutton: "Requirements For Accreditation" (RFA) specify a core set of requirements for primary care computer systems which all general practitioner systems must be capable of performing. The RFA process, first introduced in April 1993, is operated by the NHS Information Authority, which is the sole provider of accreditation testing services.

Vera Baird: To ask the Secretary of State for Health what percentage of general practitioners are women in *(a)* England and *(b)* the area covered by Durham and Tees Valley strategic health authority. [215569]

Miss Melanie Johnson: The latest figures available—30 June 2004—show that 38 per cent. of all general practitioners[1] in England are women. In the area covered by Durham and Tees Valley strategic health authority, 34 per cent. of general practitioners are women.

[1] All practitioners (excluding retainers, registrars and locums) include general medical service (GMS) unrestricted principals, personal medical service (PMS) contracted GPs, PMS salaried GPs, restricted principals, assistants, salaried doctors (Para 52 SFA), PMS other and flexible career scheme GPs and GP returners.

Source:
Department of Health GMS and PMS statistics.

Mr. Lansley: To ask the Secretary of State for Health what steps he is taking to inform general practitioners about additional training requirements necessary to assist the delivery of patient choice; how this training will be organised; and from what sources the funding of this training will be drawn. [210819]

Mr. Hutton: The Department published a delivery framework for the implementation of choice and booking at the point of general practitioner referral in August 2004. The framework is intended to support primary care trusts (PCTs) in fulfilling their responsibility for implementing patient choice and booking in local health communities, including ensuring appropriate training and support for primary care staff. The delivery framework is available at www.chooseandbook.nhs.uk.

Material has been made available nationally at www.chooseandbook.nhs.uk to help PCTs deliver training. It is for PCTs to determine locally the funding for training from within the financial allocations made by the Department. The Department allocates revenue funding to PCTs on the basis of the relative needs of their populations. The Department has also made available an additional £44 million annually in 2003–04, 2004–05 and 2005–06 to support PCTs in implementing new booking systems that support patient choice.

Dentistry

16. **Dr. Palmer:** To ask the Secretary of State for Health if he will make a statement on NHS dentistry. [216981]

Ms Rosie Winterton: We are undertaking the most far-reaching reforms of NHS dentistry since 1948, supported by an additional £368 million. To ensure that more people can see a NHS dentist when and where they need to, the equivalent of 1,000 dentists will be recruited by October 2005.

Mrs. Spelman: To ask the Secretary of State for Health how many patients were registered with a NHS dentist in *(a)* each Government office region and *(b)* each parliamentary constituency in each year since 1997. [211946]

Ms Rosie Winterton: The information requested on registrations by Government regional office is shown in the table.

Registrations by Government regional office—September 1997 to September 2004

Regional code	*Regional office name*	*Data*	*GDS contract*	*PDS contract*
Y41	North East Cluster	1997	4,566,672	0
		1998	4,112,309	0
		1999	4,117,129	0
		2000	4,192,609	336
		2001	4,142,997	3,895
		2002	4,112,027	15,250
		2003	4,129,295	20,881
		2004	3,708,273	335,413
Y42	North West and West Midlands	1997	6,985,233	0
		1998	6,143,868	0
		1999	6,136,972	61,253

Registrations by Government regional office—September 1997 to September 2004

Regional code	Regional office name	Date	GDS contract	PDS contract
		2000	6,153,516	87,919
		2001	6,074,349	104,390
		2002	6,028,081	136,535
		2003	5,999,217	140,830
		2004	4,980,764	1,093,200

		1998	4,782,355	0
		1999	4,876,903	2,371
		2000	5,010,484	4,329
		2001	4,943,102	5,178
		2002	4,953,229	22,740
		2003	4,973,857	28,536
		2004	4,807,586	96,117
Y44	Southern Cluster	1997	6,631,532	0
		1998	5,823,594	0
		1999	5,873,973	3,261
		2000	5,971,245	6,686
		2001	5,927,497	16,261
		2002	5,844,976	52,218
		2003	5,844,315	56,428
		2004	5,259,470	326,183
Y45	London Cluster	1997	3,614,103	0
		1998	3,005,724	0
		1999	2,974,168	41,001
		2000	3,025,344	42,992
		2001	3,001,930	46,084
		2002	2,982,202	38,960
		2003	3,030,985	40,033
		2004	2,906,464	97,666
	Total	1997	27,103,875	0
		1998	23,867,850	0
		1999	23,979,145	107,886
		2000	24,353,198	142,262
		2001	24,089,875	175,808
		2002	23,926,515	265,703
		2003	23,977,669	286,708
		2004	21,662,557	1,948,579

Notes:

1. The drop in registrations between September 1997 and September 1998 is mostly attributable to the reduction in the re-registration period from two years to 15 months.

2. The figures excludes patients treated in dental access centres who are not registered. In 2004 there were some 375,000 episodes of treatment in dental access centres.

Mr. Steinberg: To ask the Secretary of State for Health (1) how many dentists ceased providing NHS dental services in each of the last three years *(a)* in England and *(b)* within Durham and Chester-le-Street primary care trust; [214107]

(2) how many NHS patients were registered with a dentist in each of the last three years in *(a)* England and *(b)* Durham and Chester-le-Street primary care trust; [214333]

(3) how may NHS patients were unable to register with a dentist in each of the last three years in *(a)* England and *(b)* Durham and Chester-le-Street primary care trust. [214334]

Ms Rosie Winterton: Information is not held on the number of dentists who ceased providing national health service dental services altogether. The Office of Fair Trading report, "The private dentistry market in the UK", published in March 2003, estimated that out of 11,000 dental practices nationally, only about 210 are totally private.

The following table shows the number of dental patients registered with a general dental service (GDS) or personal dental service (PDS) dentist in England, and Durham and Chester-le-Street primary care trust area, as at 30 September each year.

	England	Durham and Chester-le-Street PCT
2002	24,217,483	65,122
2003	24,295,652	65,504
2004	23,639,904	58,962

Registrations in the GDS lapse if the patient has not returned to the dentist within 15 months. These figures do not include patients who get dental treatment without registration, for example in dental access centres.

Information is not available on patients who are unable to register with a dentist, but we are undertaking a wide range of initiatives to improve access to NHS dentistry. In the Durham and Chester-le-Street PCT, a local dental access scheme has been developed at a cost of £65,770 from central funds. Under the scheme, 10 practices, which were not previously taking on new NHS patients, have been funded to provide an agreed number of new patient contacts. From September 2004, the scheme has delivered 1,000 additional NHS appointments and expects shortly to deliver a further 300 appointments. As a result, between late September and November, all patients seeking a NHS dentist should have been able to access occasional NHS dental treatment and, in addition, some were able to register with a NHS dentist.

Mr. Kidney: To ask the Secretary of State for Health how many unfilled dental clinical academic staff vacancies there are in dental schools; how he plans to assist in filling them; and if he will make a statement. [216508]

Ms Rosie Winterton: The latest information available centrally is from a survey conducted in 2001, which found that, out of 476 academic posts in the 15 dental schools in the United Kingdom, 74, or 16 per cent., were unfilled. We are undertaking a major programme of investment in dental education. We are to fund an extra 170 extra undergraduate dental training places in English dental schools from October 2005. The funds, which build up to £29 million per annum by 2010–11, include provision for the creation of more clinical academic posts and enhancing the terms of service for staff working in dental schools. We are also working jointly with the Department for Education and Skills to address issues relating to the recruitment and retention of academic staff.

South Gloucestershire PCT

17. **Mr. Webb:** To ask the Secretary of State for Health if he will make a statement on the funding of South Gloucestershire primary care trust. [216983]

Dr. Ladyman: The latest round of revenue allocations covering 2006–07 and 2007–08 was announced on 9 February 2005.

South Gloucestershire primary care trust will receive funding of £250 million for 2006–07 and £275 million for 2007–08. These allocations include increases of £21 million, or 9.1 per cent., for 2006–07 and £25 million, or 10 per cent., for 2007–08.

New Community Hospitals

18. **Mr. Luff:** To ask the Secretary of State for Health if he will make a statement on his Department's policies on the construction of new or replacement community hospitals. [216984]

Mr. Hutton: Decisions on service provision are best made at a local level, which is why "Keeping the NHS Local" was published in February 2003. This guidance covers service expansion and redesign. The NHS will need to follow it when considering the role of community hospitals.

21. **Andrew Selous:** To ask the Secretary of State for Health if he will make a statement on the criteria for establishing community hospitals. [216987]

Mr. Hutton: Decisions on establishing community hospitals are a local matter. The Department has not therefore set any criteria for their establishment.

Foundation Hospitals (England)

20. **Mr. Hendrick:** To ask the Secretary of State for Health how many three star hospitals there are in England; and how many have applied for foundation status. [216986]

Mr. Hutton: 76 acute and specialist trusts were awarded three stars in the 2003–04 national health service performance ratings last July.

Of these, 24 trusts submitted a preliminary application for NHS Foundation Trust status last November as part of wave two For the first time, invitations for foundation status were also extended to Mental Health trusts and eight out of 10 eligible three star rated trusts submitted a preliminary application.

Private Sector Services

22. **Andrew George:** To ask the Secretary of State for Health if he will make a statement on the proportion of NHS funding which was spent purchasing private sector services in 2003–04. [216988]

Mr. Hutton: The national health service spent £3.3 billion on independent sector healthcare services in 2003–04. This represents approximately 5 per cent. of the £61 billion planned NHS expenditure for 2003–04.

Wycombe Hospital

23. **Mr. Goodman:** To ask the Secretary of State for Health what recent representations he has received about Wycombe hospital. [216989]

Ms Rosie Winterton: Since October 2004, the Department has received several written representations from the hon. Member and members of the public about Wycombe hospital.

Dorset and Somerset Strategic Health Authority

24. **Mr. Walter:** To ask the Secretary of State for Health if he will make a statement on the number of people employed directly by the Dorset and Somerset strategic health authority. [216990]

Ms Rosie Winterton: I refer the hon. Member to the reply given on 3 February 2005, *Official Report*, column 1124W by my right hon. Friend the Minister for Health to the hon. Member for Tatton (Mr. Osborne).

Ambulances

Mr. Hoyle: To ask the Secretary of State for Health how many *(a)* ambulances and *(b)* paramedic staff the Lancashire Ambulance Trust has; and what the average time taken to respond to a 999 call was in each Lancashire district in the last period for which figures are available. [215497]

Miss Melanie Johnson: Performance information is available by ambulance service and may be found in the statistical bulletin, "Ambulance Services, England: 2003–04", a copy of which is available in the Library. It is also available on the Department's website at http://www.publications.doh.gov.uk/public/sb0411 .htm.

Information relating to the numbers of paramedic staff is shown in the table.

	Headcount
Total qualified ambulance staff	552
Manager	23
Paramedic	198
Ambulance personnel	331

Source:
Department of Health non-medical workforce census.

Burns Unit (Kent)

Mr. Damian Green: To ask the Secretary of State for Health what provision he has planned for specialist burns unit provision for patients in Kent; and if he will make a statement. [217232]

Ms Rosie Winterton: The national burn care group, which is considering options for reconfiguration of specialist burns services across England and Wales, is being led by the national health service. Decisions have not yet been made regarding the development of burn care centres; any proposals for change will be submitted' to a full public consultation process, probably in the summer of 2005. This is a process is being developed by and for the NHS and the Department has no formal role at this time, though we are kept in touch with developments.

Currently, people in Kent have access to specialised burn services at the Queen Victoria hospital, East Grinstead, Sussex, which has historically served the population of Kent, although, since the Dartford Crossing has been open, it is now easier for people from some parts of Kent to go to Chelmsford.

There are also specialised burn services in the following locations in South East England:

Chelsea and Westminster hospital (the only specialist service within London).

Broomfield hospital, Chelmsford, Essex.

Mount Vernon hospital, Northwood, Middlesex.

Stoke Mandeville hospital, Aylesbury, Buckinghamshire.

Catering Costs

Mr. George Osborne: To ask the Secretary of State for Health how much has been spent on *(a)* entertainment lunches involving civil servants and guests and *(b)* working lunches, in each year since 1997. [215050]

Ms Rosie Winterton: Expenditure arises on hospitality and entertainment only in the context of promoting the Department's business objectives. All such expenditure is made in accordance with published departmental guidance on financial procedures and propriety, based on principles set out in "Government Accounting".

There has been no expenditure on entertainment lunches involving civil servants and guests. The amount spent by the Department on working lunches since 1997 is shown in the table.

	Amount (£)
1997–98	379,089
1998–99	493,024
1999–2000	607,370
2000–01	580,449
2001–02	523,338
2002–03	633,875
2003–04	863,404

Cervical Cancer

Mr. Streeter: To ask the Secretary of State for Health what progress has been made in the roll-out of the liquid-based cytology system for cervical cancer screening in each of the strategic health authority areas since April 2004. [216099]

Miss Melanie Johnson *[holding answer 21 February 2005]:* Following the evaluation of a Government-funded pilot study of liquid based cytology (LBC), National Institute for Clinical Excellence concluded in October 2003 that this new technology should be rolled out across the NHS cervical screening programme. It will take five years to implement LBC across England as all staff, who read the tests or take the tests will have to be retrained. The Department is providing £1.2 million for 2003–04 and £6 million for 2004–05 to kick-start this process. The nine regional cytology training schools in England are being converted to train the rest of the programme. As of January 2005, eight out of the nine training schools in England had been trained or had a specific date to begin their retraining. The ninth is awaiting a local decision on which system they will use.

Children's Burns Unit (Newcastle)

Mr. Cousins: To ask the Secretary of State for Health what the capacity is of the children's burns unit at the Royal Victoria Infirmary, Newcastle; and what the patient throughput was in the most recent year for which figures are available. [216492]

Miss Melanie Johnson: The information requested is not collected centrally.

Co-Proxamol

Paul Flynn: To ask the Secretary of State for Health what alternative drugs will be available for prescription in place of co-proxamol following its withdrawal by the Medicines and Healthcare Products Regulatory Agency. [216049]

Ms Rosie Winterton: There are a number of alternatives for managing painful conditions and the committee on safety of medicines (CSM) has issued advice on pain management options to assist prescribers, together with individual patients, in choosing appropriate pain management strategies. This guidance also refers to a number of sources of additional advice, including the British National Formulary, which is sent to all doctors and pharmacists.

The CSM's overview of alternative analgesic options was communicated through the Chief Medical Officer's Public Health Link to all health care professionals accompanying the communication on the withdrawal of co-proxamol and is available on the Medicines and Healthcare products Regulatory Agency's website www.mhra.gov.uk Copies have been placed in the Library.

Departmental Policies

Mr. Prosser: To ask the Secretary of State for Health (1) if he will set out, with statistical evidence relating as closely as possible to the South Thanet constituency, the effects of changes to the Department's policy since 1997 on the South Thanet constituency; [216793]

(2) if he will set out, with statistical evidence relating as closely as possible to the Dover constituency, the effects of changes to the Department's policies since 1997 on the Dover constituency. [216794]

Ms Rosie Winterton: The Government have put in place a programme of national health service investment and reform since 1997 to improve service delivery in all parts of the United Kingdom. There is significant evidence that these policies have yielded considerable benefits for the South Thanet and Dover areas.

For example:

At the end of November 2004, the number of people waiting more than nine months for inpatient treatment within East Kent Coastal Primary Care Trust (PCT) has fallen to zero from 834 in June 2002.

At the end of September 2004, the number of patients waiting over 13 weeks for outpatient treatment within East Kent Coastal PCT has fallen to 341 from 1,033 in June 2002.

Between September 1999 and June 2004, the number of consultants at East Kent Hospitals NHS Trust has increased from 201 to 254. The number of nurses increased from 2,151 in September 1999 to 2,461 in September 2003.

Figures for December 2004 show that 100 per cent. of patients within East Kent Coastal PCT are able to be offered an appointment with a primary care professional within two working days.

In the South Thanet local authority (LA) area, death rates from cancer per 100,000 population have fallen from 214.2 in 1997 to 210.1 in 2003. In the Dover local authority area, death rates from cancer per 100,000 have fallen from 204.1 in 1997 to 198.1 in 2003.

In the South Thanet LA area, death rates from coronary heart disease per 100,000 population have fallen from 149.3 in 1997 to 122.5 in 2003. In the Dover LA area, death rates from coronary heart disease per 100,000 population have fallen from 149.8 in 1997 to 122.5 in 2003.

East Kent Coastal PCT has received an allocation of £256.5 million in 2004–05. In the recently announced PCT allocations for 2006–07 and 2007–08, East Kent Coastal PCT will receive an increase of £27.4 million in 2006–07 and 32.1 million in 2007–08. This is a total increase of 18.7 per cent. over the two years. By 2007–08, East Kent Coastal PCT will receive an allocation of £362.5 million.

Mr. Gordon Marsden: To ask the Secretary of State for Health if he will set out, with statistical information relating as closely as possible to the constituency, the effect of his Department's actions and policies on Blackpool, South constituency since *(a)* 1997 and *(b)* 2001. [215614]

Miss Melanie Johnson: The Government have put in place a programme of national health service investment and reform since 1997 to improve service delivery in all parts of the United Kingdom. There is significant evidence that these policies have yielded considerable benefits for the Blackpool South constituency.

For example:

At the end of November 2004, the number of people waiting more than nine months for in-patient treatment within Blackpool Primary Care Trust (PCT) has fallen to zero, from 342 in June 2002.

At the end of September 2004, the number of patients waiting over 13 weeks for out-patient treatment within Blackpool PCT has fallen to 260, from 724 in June 2002.

In June 2003, at Blackpool, Fylde and Wyre Hospitals NHS Trust, 87.9 per cent. of patients spent less than four hours in accident and emergency from arrival to admission, transfer or discharge. Figures for September 2004 show an improvement to 93. per cent.

The latest figures, September 2004, show that all urgent general practitioner referrals with suspected cancer are seen by a specialist within two weeks.

Figures for December 2004 show that all patients within Blackpool PCT are able to be offered an appointment with a GP within two working days and a primary care professional within one working day.

In 1997–98 the Lancashire Ambulance Service was able to attend 66.1 per cent. of category A emergency calls within eight minutes. During 2003–04, 77.7 per cent. of category A emergency calls were attended within eight minutes.

Work has started on a 5.8 million twin theatre day case unit at Blackpool Victoria hospital. This is due for completion in March 2006. The new facility will enable the hospital to increase the number of operations it carries out as day cases and will help cut waiting times for patients.

A new £45 million regional cardiac centre is being developed at the Blackpool Victoria hospital, which is scheduled to open in 2006. This will increase the number of beds by 38 and provide three additional operating theatres. There will also be a new 10-bed high dependency unit.

A second computed tomography scanner became operational at the Blackpool Victoria hospital in April 2004, enabling an extra 4,600 scans to be undertaken each year.

Fleetwood hospital is to undergo a £2.6 million redevelopment, providing additional x-ray equipment, treatment rooms, a new endoscopy unit and a new main entrance to the hospital. This is due to be completed in June 2005.

Digital Hearing Aids

Sir John Butterfill: To ask the Secretary of State for Health what assessment he has made of the effects on patients of waiting times for assessments for digital hearing aids in Bournemouth west; what proposals he has to help the Bournemouth teaching primary care trust to reduce this time; what steps he is taking to increase the number of audiologists; and if he will make a statement. [217041]

Ms Rosie Winterton: Information relating to the waiting times for patients waiting for assessments for digital hearing aids is not collected centrally.

In line with our policy of "Shifting the Balance of Power", it is now for primary care trusts (PCTs,) in partnership with strategic health authorities (SHAs) and other local stakeholders, to plan, develop and improve services for local people including audiology services.

I am advised by Dorset and Somerset SHA that the Bournemouth PCT is making good progress with reducing waiting lists by increasing in-house activity, and using private providers under the public private partnership scheme.

More generally, the modernising hearing aids services (MHAS) project is being managed on behalf of the Department by the Royal National Institute for the Deaf. Since September 2000, the MHAS project has been retaining audiologists and generally modernised services in a phased way to enable them to offer digital hearing aids to people who would benefit from them. The fourth and final wave should be complete by the end of March 2005.

Drug Addiction/Treatment

Mr. Connarty: To ask the Secretary of State for Health what information he has gathered on the relative addictiveness of *(a)* nicotine, *(b)* heroin and *(c)* methadone; and if he will make a statement. [214279]

Miss Melanie Johnson: The Department has not commissioned any specific research to gather information on the relative addictiveness of these drugs. Relative addictiveness depends on dose, route of consumption and other factors, and varies for each drug across the components that make up the syndrome of dependence.

Mr. Flook: To ask the Secretary of State for Health how many people were treated by the Somerset drugs service in each of the last eight years. [214474]

Ms Rosie Winterton: Data is not available prior to 2003–04.

Data published by the National Drug Monitoring System, indicates that 1,118 people were in contact with structured drug treatment services in Somerset in 2003–04.

Enbrel

Mr. Kidney: To ask the Secretary of State for Health pursuant to his answer of 3 February 2005, *Official Report*, column 1117W, on Enbrel, if he will refer the drug Enbrel to the National Institute for Clinical Excellence in relation to its prescription in cases of juvenile arthritis. [217166]

Ms Rosie Winterton: The National Institute for Clinical Excellence (NICE) issued appraisal 2002/016 on 22 March 2002, which addressed the use of Etanercept (Enbrel) for the treatment of juvenile idiopathic arthritis and Etanercept and Infliximab for rheumatoid arthritis. Further information is available on the NICE website at www.nice.org.uk.

EU Committees

Angus Robertson: To ask the Secretary of State for Health how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch Presidency of the EU the Pharmaceutical Committee met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [214308]

Ms Rosie Winterton: The pharmaceutical committee met on 19 January 2004 and 8 and 9 November 2004, under the Irish and Netherlands presidencies. There were no meetings during the Italian presidency from 1 July to 31 December 2003. On both occasions, the meetings were held in Brussels and the United Kingdom was represented by at least one senior official from the Medicines and Healthcare products Regulatory Agency.

I refer the hon. Member to the series of Command Papers on prospects for the European Union—Cm 6174 laid in April 2004, Cm 6310 laid in September 2004 and Cm 6450 laid in February 2005, which cover the periods of the above presidencies and are available on the Foreign and Commonwealth Office website at www.fco.gov.uk/commandpapers.

Forensic Medical Examiners

Mr. Hoyle: To ask the Secretary of State for Health how many female doctors are forensic medical examiners at the Lancashire Teaching Hospitals Trust. [216203]

Miss Melanie Johnson: The information requested is shown in the table.

Hospital, Public Health Medicine and Community Health Services (HCHS): medical staff in Lancashire Teaching Hospitals National Health Service Trust within the pathology group of specialties—as at 30 September 2003

Number (headcount)

	All staff	*of which: Male*	*Female*
All staff	18	9	9
of which:			
Consultant	13	7	6

Source:
Department of Health medical and dental workforce census

HIV/AIDS

Mr. Edwards: To ask the Secretary of State for Health if he will exempt HIV treatment and care from the regulations applying charges to those not entitled to free NHS care. [216473]

Mr. Hutton: Diagnostic testing for HIV and associated counselling is free to all, but the national health service (charges to overseas visitors) Regulations 1989 (as amended) have always specified that subsequent treatment for HIV, should the test prove positive, is chargeable if the patient is a chargeable overseas visitor. There are no plans to change that.

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 1 February 2005, *Official Report*, column 883W, for what reasons only initial diagnostic testing and associated counselling given to those suffering from HIV/AIDS are exempt from charges made to those who are not ordinarily resident in the UK. [216179]

Mr. Hutton: It has always been the case that only diagnostic testing for HIV and associated counselling is free of charge to all under the provisions of the NHS (Charges to Overseas Visitors) Regulations 1989 (as amended). Subsequent treatment should be charged for if the patient is a chargeable overseas visitor. The greatest public health risk is from those who are unaware that they are infected with HIV, so it makes sense that diagnosis, and the advice that needs to go with it, should be free to all.

Hospital Infections

Mr. Lansley: To ask the Secretary of State for Health (1) what is his Department's procedure for the use of new infection control technologies in the NHS following a recommendation from its Rapid Review Panel; [208995]

(2) what plans he has to publish the minutes of the meetings of the Rapid Review Panel; [208996]

(3) how many products have been recommended to his Department by the Rapid Review Panel for *(a)* development for use in the NHS or *(b)* trial in an NHS clinical setting; [208997]

(5) if he will publish a list detailing the number and name of all products which have submitted applications to the Rapid Review Panel for use in fighting infection in the NHS since the Panel's establishment; [209000]

(4) if he will publish the list of those products and treatments reviewed by the Rapid Review Panel since December 2003 that are now being used for infection control or cleaning purposes in NHS facilities; [208999]

(6) how many submissions the Rapid Review Panel has received for its review of products to aid cleanliness and fight infections in the NHS; when each submission was received; and for each submission, when the Rapid Review Panel reported its results. [209001]

Miss Melanie Johnson: The Health Protection Agency rapid review panel assesses all products for which

applications have been received from companies, provided the product falls within the panel's remit. There are currently 58 product reports available on the Health Protection Agency's website, together with the minutes of the panel meetings and a list of products reviewed by the panel. This information can be found at www.hpa.org.uk/infections/topics_az/rapid_review/. A further 25 applications received since 13 January will be reviewed later this month. Information on those products awaiting review is not publicly available as information provided by applicants is regarded as commercial in confidence until the applications have been assessed.

Of the 58 reports available on the panel's website so far, 19 contain recommendations for further research and development before the product is ready for evaluation and 10 contain recommendations for in-use evaluation/trial in a national health service clinical setting. Two products have been identified as showing benefits that should be available to NHS bodies to use as appropriate. These products are being considered for inclusion in future workplans for the NHS Purchasing and Supply Agency (PASA) and the National Institute for Clinical Excellence. Information on which products are currently used in NHS facilities is not collected centrally.

Where the rapid review panel suggests further work, it is generally the company's responsibility to organise this; the panel itself does not organise product evaluations. Some evaluations may be performed as part of normal PASA tendering exercises. Also, some products may be included in the Department's research and development programme for healthcare associated infection if it is thought they may have a particular impact in a priority area.

Lancashire Teaching Hospital

Mr. Hoyle: To ask the Secretary of State for Health how many vacancies for *(a)* doctors, *(b)* consultants and *(c)* nurses there are at the Lancashire teaching hospital; and for how long each vacancy has been unfilled. [215496]

Miss Melanie Johnson: The information requested is shown in the following tables.

Three month vacancy rate and number for all doctors (excluding doctors in training) in Lancashire teaching hospitals NHS trust, March 2004

RXN	*Lancashire teaching hospitals NHS trust*	*Three month vacancy rate percentage*	*Three month vacancy number*	*Staff in post (whole-time equivalent)*	*Staff in post (headcount)*
	All	0.0	0	234	265
	Consultant	0.0	0	165	169
	Other doctors (excluding doctors in training)	0.0	0	68	96

Notes:

1. Three month vacancies are vacancies which trusts are actively trying to fill, which had lasted for three months or more (whole-time equivalents).
2. Three month vacancy rates are three month vacancies expressed as a percentage of three month vacancies plus staff in post.
3. Vacancy and staff in post numbers are rounded to the nearest whole number.
4. Percentages are rounded to one decimal place.
5. * where the sum of the staff in post and number of vacancies is less then 10.
6. — where the sum of the staff in post and number of vacancies is 0.

Source:

Department of Health Medical and Dental vacancy survey.

Department of Health vacancies survey, March 2004—NHS three month vacancies in the Lancashire teaching hospital NHS trust for qualified nursing, midwifery and health visiting staff: three month vacancy rates, numbers and staff in post

		March 2004		*September 2003*	
		Three month vacancy rate percentage	*Three month vacancy number*	*Staff in post (whole-time equivalent)*	*Staff in post (headcount)*
	England	2.6	7,508	291,925	364,692
	Of which:				
RXN	Lancashire teaching hospitals NHS trust	0.0	0	1,533	1,928

Notes:

1. Three month vacancy information is as at 31 March each year.
2. Three month vacancies are vacancies which trusts are actively trying to fill, which had lasted for three months or more (whole time equivalents).
3. Three month vacancy rates are three month vacancies expressed as a percentage of three month vacancies plus staff in post.
4. Percentages are rounded to one decimal place.
5. Staff in post data is from the Non-Medical Workforce Census.

Department of Health Non-Medical Workforce Census

Incubators (North-east)

Mr. Cousins: To ask the Secretary of State for Health how many baby incubators are available at each relevant hospital in the north-east; how many were available in *(a)* 1997 and *(b)* 2001; and what plans there are to increase the number. [216494]

Miss Melanie Johnson: The information requested is not collected centrally.

Lancashire Ambulance Trust

Mr. Hoyle: To ask the Secretary of State for Health what plans Lancashire Ambulance Trust has to merge with other ambulance trusts in the North West. [216060]

Miss Melanie Johnson: There are no plans for Lancashire Ambulance Service National Health Service Trust to merge with other ambulance trusts in the North West area.

Mental Health

Mr. Hoyle: To ask the Secretary of State for Health how many people he estimates suffer from Alzheimer's disease in *(a)* Lancashire and *(b)* Chorley and South Ribble Primary Care Trust; and which PCTs in Lancashire provide treatment with the drug Ebixa. [215508]

Miss Melanie Johnson: The number of people suffering from Alzheimer's disease is not collected centrally. Information on which primary care trusts (PCTs) are currently prescribing Memantine (Ebixa) is not held centrally. Ebixa is not currently covered by existing National Institute for Clinical Excellence guidance. PCTs, when considering the funding of such treatment, are expected to use their existing prescribing arrangements and to consider all the evidence available to them on clinical effectiveness.

Mr. Lansley: To ask the Secretary of State for Health how many *(a)* medical staff and *(b)* non-medical staff employed in mental health services there have been in the NHS in England in each year since 1986, broken down by (i) general psychiatrists, (ii) child and adolescent psychiatrists, (iii) forensic psychiatrists, (iv) learning disabilities consultants, (v) old age psychiatrists, (vi) psychotherapists, (vii) psychiatric nurses, (viii) clinical psychologists, (ix) art, music and drama therapists, (x) occupational therapists, (xi) social workers and (xii) other. [216161]

Mr. Hutton: The information requested is shown in the tables.

Hospital, Public Health Medicine and Community Health Services (HCHS): medical consultants[1] within the psychiatry group of specialities by speciality, England[2]

Department of Health Non-Medical Workforce Census

Midwives (Lancashire)

Mr. Hoyle: To ask the Secretary of State for Health how many midwives work at *(a)* Chorley and *(b)* Preston hospital. [216238]

Miss Melanie Johnson: This information is not available in the format requested. At 30 September 2003, there were 149 midwives working at Lancashire Teaching Hospitals National Health Service Trust.
Source:
Department of Health Non-Medical Workforce Census

Minor Injuries Units

Richard Younger-Ross: To ask the Secretary of State for Health if he will make a statement on minor injuries unit hours of opening. [216982]

Ms Rosie Winterton: Opening hours for minor injury units are a matter for local determination. It is up to primary care trusts to assess local need and demand for urgent care services and ensure that services respond to patient need.

MRSA

Simon Hughes: To ask the Secretary of State for Health what *(a)* advice has been given and *(b)* precautions are taken against the spread of MRSA in ambulances; and if he will make a statement. [216396]

Miss Melanie Johnson: Advice on appropriate precautions to reduce the spread of infection has been published by the Department in the health service circular 2000–02 and in Winning Ways—Working together to reduce hospital acquired infection in England (December 2003). All healthcare organisations, including ambulance trusts, should have systems in place to minimise the risk to patients from healthcare associated infections as required by Standards for Better Health (July 2004). Infection control policies and any particular precautions for reducing the spread of methicillin resistant Staphylococcus aureus (MRSA) are a matter for individual trusts.

The Ambulance Service Association published guidelines on infection prevention and control in June 2004. Additionally, the training and common core syllabus for ambulance personnel covers infection control, including reference to MRSA.

Multiple Myeloma

Mr. Havard: To ask the Secretary of State for Health whether it is his policy that patients suffering from rare cancers, with particular reference to multiple myeloma, should receive equal priority within the NHS as those suffering from more common forms of the disease. [215826]

Miss Melanie Johnson: The Government are committed to providing high quality cancer services across the country, irrespective of cancer type. The National Institute for Clinical Excellence (NICE) has been commissioned to continue the improving outcomes series to ensure there is a comprehensive package of cancer services guidance covering all cancers.

The NICE improving outcomes in haematological cancers guidance was published in October 2003 and addresses multiple myeloma.

NHS Bank

Mr. Burstow: To ask the Secretary of State for Health pursuant to the answer of 27 January 2005, *Official Report*, columns 556–7W, on the NHS Bank, how the budget of £732 million will be spent. [215992]

Mr. Hutton: The overall budget managed by the NHS Bank on behalf of the Department in 2004–05 has now increased to £746 million.

A breakdown of planned expenditure is shown in the table.

NHS Bank planned expenditure 2004–05

Area of expenditure	*Amount (£ million)*
Special assistance	70
Strategic health authority managed allocation	120
Impairments/accelerated depreciation funding	258
Private finance initiative revenue costs	15
General and personal medical services quality and outcomes framework achievement	283
Total	746

NHS Recruitment

Mr. Evans: To ask the Secretary of State for Health how many *(a)* doctors and *(b)* nurses have been recruited to work in the NHS from (i) Sub-Saharan Africa and (ii) India. [215507]

Mr. Hutton: The information requested is not collected centrally. Healthcare professionals who work in the United Kingdom have to be registered with the relevant professional body. In this case, the professional bodies are the Nursing and Midwifery Council (NMC) and the General Medical Council (CMC). Both professional bodies produce a statistical breakdown of their register, which can be found on their respective websites at www.nmc-uk.org and www.gmc-uk.org.

It is important to note that healthcare professionals registered with the CMC and the NMC may not come to work in the UK and those that do may not work within the national health service.

NHS Staff

Mr. Burstow: To ask the Secretary of State for Health what the average cost to the NHS of paying the salary of *(a)* a radiographer and *(b)* a radiologist was in the last year for which figures are available. [213927]

Mr. Hutton *[holding answer 3 February 2005]:* The average cost of a radiographer in England is shown in the table. We cannot provide information regarding the earnings of radiologists as we do not hold medical and dental earnings data by specialty.

Average cost of a radiographer in 2002 in England

Mean cost of radiographer to national health service	[1]£30,000

[1] Figure rounded to nearest £100.

Note:

Average cost is the average earnings of a Radiographer grossed up by 12 per cent., to represent "on-costs". The NHS earnings information is based on payroll data taken from a sample of approximately 50 per cent. of trusts during August 2002.

Department of Health NHS Earnings Survey

NHS University Courses

Keith Vaz: To ask the Secretary of State for Health pursuant to the answer of 24 January 2005 to the hon. Member for Aberavon (Dr. Francis), *Official Report*, columns 183–184W, on the NHS university, which of the NHS university courses are accredited; by which bodies they have been accredited; and what the length was of each course. [216372]

Mr. Hutton: The NHS university (NHSU) was set up to provide a range of learning opportunities for all levels of staff across the national health service. Its courses run to meet specific learning and skills needs.

The following table shows are the NHSU courses which are currently accredited, by which body and the length of each course.

Name of course	*Accredited by*	*Length of course*
1. First Contact Care	Sheffield Hallam university	i) Postgraduate Diploma—one year ii) M.Sc.—two years
2. Managing Patient Complaints	Middlesex university	180 hours of study
3. Managing Health and Social Care Certificate Programme	Programmes based on four modules of open learning, currently used and accredited locally by 12 higher education institutes (HEIs) and nationally by the Institute of Health Care Management	600 hours of study in 12–14 months
4. Managing Health and Social Care Diploma Programme	Programmes based on six modules of open learning currently used and accredited locally by 12 HEIs and nationally by the Institute of Health Care Management	1,200 hours of study over 18–24 months

Source:

NHSU February 2005.

Obesity

Mr. Evans: To ask the Secretary of State for Health (1) how many obesity clinics there are in England; [217267]

(2) what the waiting time to attend an obesity clinic in England is. [217268]

Miss Melanie Johnson: There are seven adult and seven child national health service obesity clinics in England. Information on the waiting list to attend these clinics is not collected centrally.

Patient and Public Involvement Forums

Mr. Laurence Robertson: To ask the Secretary of State for Health what assessment he has made of the effectiveness of Patient and Public Involvement Forums since their inception; and if he will make a statement. [216454]

Ms Rosie Winterton *[holding answer 21 February 2005]:* It is the responsibility of the Commission for Patient and Public Involvement in Health rather than the Department to review the effectiveness of patients' forums and to report to the Secretary of State on that effectiveness.

The Commission recently published a report, entitled "PPI Forum Activity Summary", which highlighted the valuable contributions made by patients' forums in their first year's activities.

Premature Babies

John Mann: To ask the Secretary of State for Health if he will assess the merits of introducing a respiratory syncytial virus preventative treatment programme for premature babies who are most vulnerable to that virus. [215765]

Miss Melanie Johnson: Such a programme already exists. Recommendations on the use of paluvizumab were made by the joint committee on vaccination and immunisation at its November 2002 meeting. Details can be found at http://www.advisorybodies.doh.gov.uk/jcvi/mins01nov02.htm.

Primary Care Trusts

Mr. Lansley: To ask the Secretary of State for Health if he will list the 88 spearhead primary care trusts referred to in his statement of 9 February. [216767]

Mr. Hutton *[holding answer 21 February 2005]:* The list of spearhead local authorities and primary care trusts was placed in the Library as part of the launch in November 2004. The list is also available to the public at: www.dh.gov.uk/healthinequalities.

Mr. Burns: To ask the Secretary of State for Health what he deems to be *(a)* an appropriate and *(b)* a maximum period for a primary care trust to respond to correspondence from an hon. Member concerning problems which a constituent might have with healthcare or with a primary care trust. [215854]

Mr. Hutton *[holding answer 10 February 2005]:* The Department does not set correspondence standards for primary care trusts or any other national health service organisation. We would expect them to have similar standards to those used in other public sector organisations. The Department's own standard for replying to correspondence is 90 per cent., of replies within 20 working days.

Research

Dr. Kumar: To ask the Secretary of State for Health how much was spent on research by his Department in *(a)* 2000, *(b)* 2001, *(c)* 2002, *(d)* 2003 and *(e)* 2004. [215886]

Miss Melanie Johnson: The total departmental expenditure on research and development is shown in the table.

Total research and development spend

	£ million
2000–01	510
2001–02	538
2002–03	574
2003–04	Not available

Respiratory Syncytial Virus

John Mann: To ask the Secretary of State for Health (1) if he will ask the Rapid Review Panel to look into preventative treatments for respiratory syncytial virus as part of its programme to reduce hospital acquired infections; [217133]

(2) if he will invite the Rapid Review Panel to examine preventative treatments for respiratory syncytial virus as part of its programme to reduce hospital acquired infections. [217134]

Miss Melanie Johnson: The rapid review panel considers all applications that it receives provided the product falls within the panel's remit, that is, it should be a new or novel product which could help reduce healthcare associated infection. Any application submitted regarding a product specifically aimed at reducing respiratory syncytial virus would be considered as part of this process.

Applications for a marketing authorisation of any medicinal product for the treatment of this and other infections would be considered by the Medicines and Healthcare products Regulatory Agency rather than the panel.

Staff Training

Mr. George Osborne: To ask the Secretary of State for Health what the costs of departmental *(a)* staff training days and *(b)* staff development days held away from the Department were in each year since 1997. [213793]

Ms Rosie Winterton: The information requested could be provided only at disproportionate cost.

Temporary Nurses

Mr. Burstow: To ask the Secretary of State for Health what action has been taken by his Department to implement the recommendations on temporary nurses in the Audit Commission report Brief Encounters. [216389]

Mr. Hutton: The Department has issued guidance setting standards for the use of temporary staffing in the national health service. Agency framework agreements have been negotiated with external agencies providing temporary staff to NHS employers, to drive up standards and improve efficiency and cost-effectiveness. NHS Professionals has been established as a special health authority to bring greater co-ordination and consistency to the use of temporary staff within the NHS and in turn, offer better quality patient care and better value for money.

The provisional spend on temporary nursing staff has reduced by £65 million in 2003–04. This represents a reduction of more than 10 per cent.

Transplants

Mr. Hume: To ask the Secretary of State for Health how many people have been assessed and accepted for *(a)* heart, *(b)* lung and *(c)* heart and lung transplant waiting lists in each of the last three years; how many have received transplants; and how many have died while waiting for transplantation. [216667]

Ms Rosie Winterton: The number of people assessed and accepted for heart, lung and heart and lung transplant waiting lists in each of the last three years; the number who have received transplants; and the number who have died while waiting for transplantation is shown in the tables.

Registrations for a heart transplant, 2002–04, United Kingdom, by year of registration and outcome[1] of that registration

[1] As at 10 January 2005.

Travel Costs Scheme

Dr. Gibson: To ask the Secretary of State for Health which part of his Department has the power to change the rules of the Hospital Travel Costs scheme. [216443]

Ms Rosie Winterton: Changes to the provisions of the hospital travel cost scheme are delivered through amendments to the statutory instruments for NHS (Travel Expenses and Remission of Charges) Regulations 2003, SI 2003/2382, which are approved by Parliament. The chief nursing officer's user experience and professional leadership directorate has the policy lead for the scheme.

Triage

Mr. Burstow: To ask the Secretary of State for Health (1) which NHS trusts have introduced orthopaedic triage systems using *(a)* general practitioners with a special interest, *(b)* physiotherapists and *(c)* multi-professional teams; and if he will make a statement; [213473]

(2) what assessment his Department has made of the impact on orthopaedic waiting times of triage systems using *(a)* physiotherapists, *(b)* general practitioners with a special interest and *(c)* multi-professional teams. [213474]

Mr. Hutton: This information is not collected centrally. The Department is working with a range of external stakeholders to develop a framework for musculoskeletal services. This will include drawing on a number of existing examples of good practice in using triage services to reduce waiting times, improve co-ordination of care and promote quality, convenience and choice for NHS patients.

Waiting Times (Middlesbrough)

Dr. Kumar: To ask the Secretary of State for Health what the average waiting time for surgery on the NHS was for patients in Middlesbrough, South and Cleveland, East constituency in *(a)* 1997, *(b)* 2001 and *(c)* 2005. [215885]

Miss Melanie Johnson: The information is not available at constituency level.

The table shows the average (median) waiting time for elective patients where the patient was awaiting surgery at: South Tees Acute National Health Service Trust, South Tees Hospitals NHS Trust, Middlesbrough Primary Care Trust (PCT) and Langbaurgh PCT for the years 1997–98, 2001–02 and 2003–04. Figures for 2004–05 are not yet available.

Elective (waiting list and booked) cases with an operation; median time waited—1997–98, 2001–02 and 2003–04

	Providers	*Median time waited (days)*
1997–98	South Tees Acute NHS Trust	41
2001–02	South Tees Acute NHS Trust	39
2003–04	Middlesbrough PCT, Langbaurgh PCT and South Tees Hospitals NHS Trust	50

Notes:

1. A finished in-year admission is the first period of in-patient care under one consultant within one healthcare provider, excluding admissions beginning before 1 April at the start of the data year. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
2. Data quality—hospital episode statistics (HES) are compiled from data sent by over 300 NHS trusts and PCTs in England. The Department liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.
3. Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).
4. Time waited statistics from HES are not the same as the published waiting list statistics. HES provides counts and time waited for all patients admitted to hospital within a given period whereas the published waiting list statistics count those waiting for treatment on a specific date and how long they have been on the waiting list. Also, HES calculates the time waited as the difference between the admission and decision to admit dates. Unlike published waiting list statistics, this is not adjusted for self-deferrals or periods of medical/social suspension.

Source:

HES, Department of Health.

Working Tax Credit

Mr. Todd: To ask the Secretary of State for Health what representations he has made concerning entitlement to the child care element of working tax credit of a couple where one person is engaged in qualifying remunerative work and the other is a student nurse. [216645]

Mr. Hutton: The current NHS Bursary Scheme provides an allowance for health professional students who use a registered or approved child care provider during their period of training. Where the student, spouse or partner is in receipt of the child care element of working tax credit no allowance is payable to the student. Before the introduction of the allowance to meet child care costs within the NHS Bursary Scheme there was a public consultation.

TRANSPORT

Bus Services

Geraldine Smith: To ask the Secretary of State for Transport how many rural bus services in Morecambe and Lunesdale are supported by rural bus grants. [216778]

Charlotte Atkins: The Department provides specific funding to local authorities for rural bus services through the rural bus subsidy grant (RBSG), introduced in 1998. Lancashire's RBSG allocation for 2004–05 is £1.24 million rising to £1.28 million in 2005–06. Between 1998 and 2003 the Department's annual rural bus challenge (RBC) competitions also provided funds for innovative rural transport schemes. Lancashire has been awarded £3.74 million for eight different RBC schemes.

Local authorities are also able to support rural bus services through their general revenue support grant (RSG) funding. It is a matter for each individual authority to decide which services to support from their RSG and RBSG resources.

Lancashire county council advise us that there are six rural bus services that serve Morecambe and Lunesdale supported by the Department's two rural bus grant schemes as shown in the following table (RBSG unless indicated):

Service	*Description*
L1 (RBC)	Carnforth-Milnthorpe (Carnforth Connect)
33	Silverdale Shuttle
43/45/81A/81B	Lancaster-The Kellets-Carnforth/Kirkby Lonsdale
55A	Lancaster-Carnforth-Warton
21	Lancaster-Aldcliffe
556	Kendal-Lancaster-Kendal

Departmental Costs

Mr. George Osborne: To ask the Secretary of State for Transport what the costs of cleaning the Department and its predecessors were in each year since 1997. [213829]

Charlotte Atkins: The Department for Transport was formed in May 2002.

The total cost of cleaning in the central Department comprising DFT HQ in London and Hastings, The Air Accidents and Marine Accident Investigation Branches and Mobility Advice and Vehicle Information Service was £384,833 in 2002–03 and £405,480 in 2003–04. For the six departmental agencies, who by the nature of their businesses and operations have a large number of properties located throughout the country, the total costs were £2,772,182 in 2002–03 and £2,931,915 in 2003–04.

Mr. George Osborne: To ask the Secretary of State for Transport how many departmental *(a)* canteens and

(b) bars there are; and how much has been spent on the (i) running, (ii) staffing and (iii) supply costs of each in each year since 1997. [213627]

Charlotte Atkins: The Department for Transport was formed in May 2002.

DfT HQ in London at Great Minster House has one canteen, which is provided without direct subsidy. The associated costs cannot be broken down in the detail requested but the overall catering costs were £12,776 in 2002–03 and £24,679 in 2003–04.

Elsewhere DfT's HQ staff at Ashdown House, Hastings have access to a canteen provided by the major occupier but catering costs are covered in the general service charge and are not identifiable separately. The Driver Vehicle and Licensing Agency have three canteens at their Swansea offices that are run on a nil cost basis. Driving Standards Agency have one canteen and a bar at their Cardington Training Centre but the individual costs cannot be broken out from the overall delegate charges levied by the company running the contracted out facilities management services at the site. VOSA provides a contracted out canteen service for delegates attending its training courses in Bristol which staff may use and the cost contribution for this service was £13,592 in 2002–03 and £19,002 in 2003–04

Ministerial Stationery

Mr. George Osborne: To ask the Secretary of State for Transport how much has been spent on official ministerial *(a)* business cards, *(b)* headed paper and *(c)* compliment slips in each year since 1997. [214958]

Charlotte Atkins: The Department's records do not allow me to provide the information broken down to the level of detail requested by the hon. Member. However the combined cost of official ministerial business cards, headed paper and compliment slips is known. The combined costs of these three elements since the formation of the Department in May 2002, in each financial year is:

£

	Combined cost
29 May 2002 to 31 March 2003	3,994
1 April 2003 to 31 March 2004	2,198
1 April 2004 to 31 January 2005	2,602

Mobile Phones

Mr. George Osborne: To ask the Secretary of State for Transport what the cost of staff mobile phone bills was in each year since 1997. [214897]

Charlotte Atkins: The information requested is not accounted for separately from the cost of other telecommunications throughout the Department, and so cannot be provided on grounds of disproportionate cost.

Motorway Cameras

Mr. Greg Knight: To ask the Secretary of State for Transport for what purpose cameras are being placed on traffic message gantries on some sections of the M1 motorway; and what the total cost is thereof. [214176]

Mr. Jamieson *[holding answer 8 February 2005]:* The M1 motorway is equipped with cameras for traffic and incident management purposes such as comprehensive surveillance of accidents, traffic and weather conditions. They do not measure individual vehicle speed. However, some cameras measure the average speed of the traffic for the purposes of setting automatic queue-warning signs. These cameras are not used for speed enforcement. The provision of CCTV cameras is controlled by departmental standards and they can only be used for the purposes described. Most cameras are fixed to free-standing masts installed in the motorway verge. In Nottinghamshire and Derbyshire, 12 cameras (installed early in 2004) have been fitted to traffic message sign gantries.

On the A1 just north of the end of the M1 near Wetherby, a number of traffic and incident management cameras are being provided on message sign gantries. These works are part of the ongoing A1 Darrington to Dishforth Design Build Finance and Operate (DBFO) scheme which is converting parts of the A1 into new motorway.

These cameras have all been provided as part of a much larger project, thus an accurate cost of camera only provision cannot be determined. However it is estimated that the typical cost of installing a single camera on a traffic message sign gantry and making it operational is around £15,000.

Noise Pollution (Maidenhead)

Mrs. May: To ask the Secretary of State for Transport what studies his Department has conducted of the effect at different times of day of noise pollution from Heathrow airport in Maidenhead and the surrounding area. [213495]

Charlotte Atkins *[pursuant to the reply, 8 February 2005, Official Report, c. 1450–1W]:* I am advised that noise at Heathrow is continually monitored by BAA using 10 permanent monitors. These are situated close to the airport, but none is situated in Maidenhead. Mobile monitors have been used for specific studies in the past at Dorney and Shurlock but there are no monitors in the surrounding area at present.

Rail Freight

John Thurso: To ask the Secretary of State for Transport what plans he has to continue the Strategic Rail Authority's policies towards large-scale Railfreight interchanges. [217265]

Mr. McNulty: The Government continue to believe that railfreight interchanges play an important role in supporting the sustainable transport of goods. Decisions about individual railfreight terminals will be taken at the regional and local level, but the Government have given guidance on the development of Regional Transport Strategies that says

> "Particular consideration should be given to the spatial issues, such as identifying the broad location of new multi-modal freight interchanges which include regional rail freight interchanges as set out in the SRA's Strategic Rail Freight Interchange Policy and distribution centres of regional or sub-regional significance to encourage modal shift of freight from road to rail".

Rail Services

Andrew Bennett: To ask the Secretary of State for Transport how many trains on the West Coast Main Line from Manchester to London *(a)* were cancelled, *(b)* broke down during the journey and *(c)* arrived over 30 minutes late during the first six weeks of 2005. [216517]

Mr. McNulty: In the first six weeks of 2005 (to 11 February), Virgin Trains planned to run 2,658 services on the Manchester to London route. Of these services 152 trains did not run or failed to complete their journey and 169 were late by 30 minutes or more. Precise data on trains breaking down mid-journey are not readily available.

Railway Stations

Norman Baker: To ask the Secretary of State for Transport how many railway stations have closed since 1 May 1997. [216336]

Mr. McNulty *[holding answer 21 February 2005]:* Five stations have been permanently closed since 1997 (Sinfin North, Sinfin Central, Pendleton, Croxley Green and Watford West). Three other station closures (Filton, Wrexham Central and Mountain Ash) were associated with facilitating new stations. The Secretary of State is also considering a decision to close Etruria station, part of the West Coast Route Modernisation project.

Staff Surveys

Mr. George Osborne: To ask the Secretary of State for Transport (1) how much was paid to consultants carrying out staff surveys in the Department and its predecessors in each year since 1997; [213654]

(2) what the cost of staff surveys in the Department and its predecessors was in each year since 1997. [213682]

Charlotte Atkins: Since the creation of the Department for Transport in May 2002, the costs incurred by the Department and its Executive Agencies for consultants conducting staff surveys are as follows:

£000

	2002-03	2003-04	2004-05
DfT(C)	0	34.2	0
HA	15.5	9.4	17.3
DVLA	0	0	40.0
15DSA	18.0	0	0
VGA	0	0	0
VOSA	2.4	0	0
MCA	3.4	47.2	15.6
Total	39.3	90.8	72.9

Internal costs arising from staff surveys are not identified separately and are included in the Department's and agencies' administrative budgets. Copies of the annual reports are deposited in the Library of the House.

Staff surveys are an important measure of how people feel about working in the Department. They help to provide focus on areas for improvement such as performance management, development and leadership. Surveys also allow a better overview when staff are spread over numerous locations, as with the agencies.

Stationery

Mr. George Osborne: To ask the Secretary of State for Transport how much the Department and its predecessors spent on *(a)* stationery and *(b)* office supplies in each year since 1997. [213854]

Charlotte Atkins: The Department was formed in May 2002. The information for the central Department and its agencies is set out in the following table.

£000

	2002-03	2003-04
DfTc		
Stationery	240.0	307.3
Office supplies	109.4	182.1
DVLA		
Stationery[1]	11,110.0	12,111.0
Office supplies	[2]	[2]
DSA		
Stationery	374.4	478.5
Office supplies	[3]	205.6
VCA		
Stationery	19.4	20.7
Office supplies	4.5	5.9
VOSA		
Stationery	[4]	2,312.2
Office supplies	[4]	157.3
HA		
Stationery	91.6	395.7
Office supplies	305.1	582.8
MCA		
Stationery[5]	214.2	213.1
Office supplies	102.7	82.1

[1] This expenditure also includes the stationery which the Agency uses for its core business i.e. print on tax discs, V5s, V11s etc.
[2] Office supplies included in figure for stationery.
[3] Office supplies not recorded separately under previous accounting system.
[4] VOSA was created in April 2003.
[5] Figures exclude some IT and reprographics consumables as these had not been recorded separately from operating and capital costs.

Targets

Mr. George Osborne: To ask the Secretary of State for Transport how many targets have been set in each year since 1997 by the Department; and, of these, which have been *(a)* met, *(b)* nearly met, *(c)* not met, *(d)* changed and *(e)* dropped. [215836]

Charlotte Atkins: I refer to the answer given by the Financial Secretary to the Treasury on 21 February 2005, *Official Report*, column 75W.

ELECTORAL COMMISSION

Armed Services

Mr. Robathan: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral

Commission how much was spent by the Electoral Commission on raising voting awareness among service voters in each year since 2000. [216367]

Mr. Viggers: Section 13 of the Political Parties, Elections and Referendums Act 2000, under which the Electoral Commission acts to raise voter awareness, came into force on 19 January 2001. The Electoral Commission informs me that it has spent £11,000 in the current financial year on measures specifically aimed at raising awareness of registration among service voters, most of it on the production and distribution to Ministry of Defence units of a leaflet providing electoral information for members of the armed forces. The Ministry of Defence is responsible for all aspects of distribution within units. In 2001–02, 2002–03 and 2003–04 the Commission incurred only staff costs, which cannot be separately identified, in respect of media relations activity specifically to highlight registration amongst service voters.

Commission programmes aimed at raising voter awareness generally are also likely to have made some contribution to raising voter awareness among service voters.

SOLICITOR-GENERAL

Racial Hatred

Ross Cranston: To ask the Solicitor-General how many people have been charged with offences relating to the stirring-up of racial hatred; how many files on such cases have been put to the Attorney-General; in how many of those cases prosecutions were approved; in which years; how many of those prosecutions were successful; and what the nature was of the issues in successful cases. [215121]

The Solicitor-General: The Attorney-General's consent to prosecute a person for offences relating to the stirring-up of racial hatred has been sought, to date, on 80 occasions. In total, consent to prosecute was given in relation to 73 of those persons. A table showing those consent decisions is as follows.

	Consent given
1988	2
1989	1
1990	2
1991	3
1992	4
1993	2
1994	2
1995	7
1996	12
1997	9
1998	1
1999	4
2000	4
2001	8
2002	2
2003	0
2004	3
2005	7
Total	73

Seventy-two of those persons have been charged with offences relating to the stirring-up of racial hatred. One person absconded before charge.

The 72 prosecutions have resulted in 44 convictions, five acquittals, six cases dropped by the prosecution and 17 other outcomes.

The seventeen "other outcomes" are as follows: two cases in which the defendant was bound over, one case where the defendant absconded, 10 cases that are on-going, one case where the defendant died before completion of the proceedings, one case where a nolle prosequi was entered, one case where the proceedings were stayed on the ground that the defendant was medically unfit to be tried and one case where the outcome is unknown.

It is not possible to say what the nature of the issues was in the successful cases, as the prosecution statistics relating to incitement to racial hatred do not record information of this nature.

"Behzti"

Mr. Gordon Prentice: To ask the Solicitor-General whether the Attorney-General considered initiating a prosecution against the producers of the play "Behzti" on the grounds that it was allegedly offensive to Sikhs; and if she will make a statement. [215831]

The Solicitor-General: Prosecutions for the offences of incitement to racial hatred, under Part III of the Public Order Act 1986, are brought by the Crown Prosecution Service, who seek the consent of the Attorney-General to prosecute.

The Crown Prosecution Service has not sought the consent of the Attorney-General to prosecute any offence in relation to the play "Behzti".

CULTURE, MEDIA AND SPORT

BBC

John Thurso: To ask the Secretary of State for Culture, Media and Sport when she expects to publish the Burns Report into the renewal of the BBC Charter. [217233]

Tessa Jowell: The independent panel, chaired by Lord Burns, which I appointed to advise me on matters relating to Charter review, issued its final advice on Friday 28 January. In line with previous commitments, I published it on the same day.

Free TV Licences

Mr. Kevan Jones: To ask the Secretary of State for Culture, Media and Sport how many pensioners have received a free television licence in North Durham.[214681]

Estelle Morris: TV Licensing, who administer free television licences for people aged 75 or over as agents for the BBC, are not able to provide geographical breakdowns of the number of free licences issued. However, the number of households with at least one person aged 75 or over claiming the winter fuel payment in the North Durham constituency in 2003–04 was 4,785, according to Department for Work and Pensions records.

Government Art Fund

Mr. George Osborne: To ask the Secretary of State for Culture, Media and Sport if she will list the works of art purchased by the Government art fund in each year since 1997; what the cost of each item was; and where each item is on display. [215807]

Estelle Morris: It is not possible to provide information on the activities of the Government art fund as there is no such organisation within the Department or elsewhere within Her Majesty's Government. The Government Art Collection, is responsible for purchases of works of art for display within certain United Kingdom Government buildings both in this country and around the world. I refer the hon. Member to the answer given on 10 February 2005, *Official Report*, column 1724W for detailed information on purchases of works of art in the Government Art Collection from 1997–2005.

Licensing

Mr. Cousins: To ask the Secretary of State for Culture, Media and Sport whether guidance on licensing policy to local authorities allows local authorities to impose a requirement on licensed premises to display information on sensible alcohol consumption and typical drink unit content. [216486]

Mr. Caborn: In July 2004 we issued Guidance under section 182 of the Licensing Act 2003 to licensing authorities. Chapter 7 contains advice and recommendations on best practice regarding conditions attached to premises licences and club premises certificates. Conditions may be attached only where they are necessary for the promotion of one or more of the licensing objectives.

Peter Bradley: To ask the Secretary of State for Culture, Media and Sport what guidance she has issued concerning the status of *(a)* parish and *(b)* town councils in relation to consultation under sections 13 and 69 of the Licensing Act 2003. [216477]

Mr. Caborn: No special guidance has been issued concerning the status of parish and town councils in relation to consultations under the Licensing Act 2003. Members of parish and town councils have the same rights as any other citizen. The Licensing Act 2003 provides that interested parties, including persons living or involved in a business in the vicinity of a premises or bodies representing them, may make representations about applications for provisional statements and about the grant or variation of premises licences or club premises certificates, except where a simple conversion of an existing licence or certificate is made under the grandfather rights provisions in Schedule 8 of the Act. Interested parties may also apply for a review of a licence or certificate at any time as well as make representations about a review once it has been applied for. Representations must be about the effects of the application on the promotion of the licensing objectives. Members of parish and town councils will be able to make representations if they are interested parties under the terms of the Act. They are not free to make representations in their own right unless they live in the vicinity of the premises concerned. However, there is nothing to prevent a council member acting on behalf of any resident living in the vicinity of the premises and making the representations that the resident would like to have made.

Public Service Publisher

Miss McIntosh: To ask the Secretary of State for Culture, Media and Sport what representations she has received on the role of a public service publisher. [217332]

Estelle Morris: Representatives of the broadcasting industry and other interested individuals have expressed a range of views on Ofcom's proposal for a Public Service Publisher (PSP). On 8 February 2005, Ofcom reported on the final phase of its review of Public Service Broadcasting which expanded on the PSP proposal. The Government is considering Ofcom's recommendation and will respond in due course.

Royal Parks Constabulary

Simon Hughes: To ask the Secretary of State for Culture, Media and Sport how many police officers there were in the Royal Parks Constabulary in each year since 1994; and what projections there are for numbers of officers in the force in future years. [214289]

Mr. Caborn: The number of police officers in the Royal Parks Constabulary in each year between 1994 and 2004 is set out in the following table. The figures show uniformed staff numbers as at 31 March each year.

	Number
1994	176
1995	171
1996	163
1997	157
1998	164
1999	156
2000	158
2001	156
2002	149
2003	151
2004	140

From 1 April 2004 the Royal Parks have been policed by an Operational Command Unit of the Metropolitan Police Service, under a co-policing arrangement with the RPC. There are currently 144 police officers and 47 community support officers in the Operational Command Unit.

Clauses have been included in the Serious Organised Crime and Police Bill for the functions of the RPC to be taken over by the MPS in 2005–06. The projected number of MPS staff who will police the Royal Parks from 2006–07 is 135 police officers and 45 community support officers.

HOME DEPARTMENT

Antisocial Behaviour

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what measures he plans to introduce to divert youngsters from antisocial behaviour. [213360]

Ms Blears: The Government have introduced a range of programmes to reduce crime committed by young people which also have an impact on antisocial behaviour.

The Home Office is supporting a wide range of schemes targeted at young people who are most at risk. These include:

Youth Inclusion Programmes (YIPS), Youth Inclusion and Support Panels (YISP) and Positive Futures.

The Youth Inclusion Programmes (YIPs) and Youth Inclusion and Support Panels (YISPS) are part of the Government's wider programme to target young people at risk of getting involved in criminal and antisocial behaviour. These are essentially intensive intervention programmes that target the risk factors often associated with young people's offending.

Positive Futures programme was launched in March 2000 and is targeted at 10–19 year olds living in the most deprived neighbourhoods in England and Wales. Its objective is to have a positive influence on drug use and other negative behaviours of vulnerable young people. Since its launch over 51,000 young people have taken regular part in Positive Futures activities.

The Government will also be publishing in the near future a green paper on young people, which will consult on proposals for more places to go and things to do for teenagers, as well as on ways to improve advice and support on the choices and challenges they face. The proposals in the green paper are intended to contribute to the Government's efforts to divert youngsters from crime and antisocial behaviour, and more generally to contribute to positive outcomes for teenagers. There is evidence that a lack of things to do can lead people into offending. A 2003 MORI/Youth Justice Board Survey showed that 25 per cent. of offenders in mainstream education and 42 per cent. of school-excluded offenders said their motive for offending was they were bored. There will be a specific focus within the green paper on those who are at risk of crime and antisocial behaviour, and other poor outcomes.

Drug Crime (Lancashire)

Mr. Hoyle: To ask the Secretary of State for the Home Department (1) how many arrests of drug dealers Lancashire police have made in each Lancashire constituency in each of the last three years; [216832]

(2) how many people have been arrested in Lancashire for antisocial behaviour in each of the last three years. [216833]

Ms Blears: The information requested is not available centrally. Information on arrests collected centrally is based on persons arrested for "notifiable" offences by main offence group and police force area only and therefore does not identify individual offences, such as drug dealing, or whether the arrest is as a result of antisocial behaviour.

Asylum Seekers

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what steps his Department is taking to remove from the UK a higher proportion of failed asylum seekers; and whether asylum seekers are required to attend in person to receive their appeal decision. [216838]

Mr. Browne: The Immigration Service is undertaking a number of initiatives to remove a greater proportion of failed asylum seekers from the United Kingdom. These include among other things: securing re-admission agreements with other countries so that those without passports can be re-documented and removed more quickly, increasing the number of removals under the assisted voluntary returns scheme; increasing the number of returns to safe third countries through the increased use of ring fenced detention; increasing the number of removals in London by using flexible and mobile teams able better to support other agencies; re-evaluating the way in which we deal with family removals; maximising removals from our network of reporting centres and working to reduce disruptive behaviour designed to frustrate removal at the point of departure.

At present, first determinations in asylum appeal cases are served by post by the Immigration Appellate Authority, as the applicable procedure rules do not permit service by the Immigration and Nationality Directorate (IND). However the rules do permit the service in person by IND of the outcome of applications for Statutory Review, and these are, wherever possible, served in person.

From 4 April 2005 a new appeal system will come into force. The procedure rules governing this will allow us to serve a much higher number of determinations, at all stages of the appeal, in person, and work is in hand to ensure that where asylum seekers are reporting regularly to the Immigration Service, they receive their determinations, and are advised of their further options, when they report.

British Crime Survey

Mr. Amess: To ask the Secretary of State for the Home Department, what assessment he has made of the value of the British Crime Survey. [214825]

Ms Blears: The British Crime Survey (BCS) is the most reliable and robust measure of crime in England and Wales today. Although no formal evaluation of the BCS has been undertaken, both the criminological and policing communities respect it as an authoritative measure of crime trends. The overwhelming value of the BCS is that it provides the most reliable measurement of crime trends as it has measured crime consistently since 1981.

The BCS provides the best reflection of the true extent of crime because it also includes crimes that are not reported to the police. We have never claimed that the BCS counts all crimes that occur in England and Wales, but rather that it provides a reliable measure of trends in the crimes that it does count from one year to the next. The design of the survey ensures statistically robust data is obtained. The BCS count also gives a better indication of trends in crime over time than police recorded crime because it is unaffected by changes in levels of reporting to the police and in police recording practices.

Mr. Amess: To ask the Secretary of State for the Home Department what assessment he has made of public confidence in the British Crime Survey. [214826]

Ms Blears: There has been no research looking specifically at public confidence in the British crime survey (BCS). However, the Home Office are involved in a project conducted by the Office for National Statistics (ONS) and the Statistics Commission to look into the factors that affect public confidence in official statistics.

Control Techniques (Young People)

Ms Keeble: To ask the Secretary of State for the Home Department what the terms of reference are of the review of control and restraint techniques in facilities for young people; and when he expects to announce the results. [216918]

Paul Goggins: The terms of reference for the review of physical control in care (PCC) in the secure training centres are:

To review the methods of physical control of trainees aged from 10 to 17 years presented by the Prison Service college including proposals for change to existing methods.

To comment on the suitability of these methods for use by custody officers performing either custodial duties at secure training centres or escort functions in respect of children placed in secure training centres and local authority secure children's homes. To comment on the suitability of these methods for use on pregnant young women and those who have had caesarean sections.

To recommend a preferred system of PCC restraints for use on young persons to the Youth Justice Board (YJB).

The PCC review panel is expected to meet in early March to make its recommendations. These will be considered by the YJB who expect to submit a report of the review, with recommendations, to Ministers in the spring.

The Youth Justice Board has also commissioned a wider review of physical restraint, including behaviour management, by a specialist in restraint techniques and a trauma surgeon. Recommendations from the draft report are currently being considered, with a view to determining an appropriate way forward.

Crime Statistics

Mr. Amess: To ask the Secretary of State for the Home Department, pursuant to the answers of 25 January 2005, *Official Report*, columns 268–69W, on crime, if he will make it his policy to record *(a)* alcohol-related violent offences, *(b)* youth offences, *(c)* internet crime and *(d)* domestic violence offences centrally; and if he will make a statement. [213868]

Ms Blears: The offences which form the recorded crime series are all indictable and triable-either-way offences together with a few closely related summary ones. As such these offences are defined by statute. Those referred to in the question are not. For example, a "domestic violence offence" would be recorded as more or less serious wounding or common assault depending on the severity of the violence used and in accordance with the relevant legislation.

The ability to produce police recorded crime statistics on the topics mentioned is dependent on the adoption of new IT systems in police forces and the Home Office. An exercise is under way to assess the costs and benefits associated with making this change.

Essex Police

Mr. Amess: To ask the Secretary of State for the Home Department what the responsibilities are of Essex police's mobile support unit; and which other constabularies have mobile support units. [216355]

Ms Blears: The chief constable is responsible for the day to day operational management of the force. This is not something on which we hold information.

EU Committees

Angus Robertson: To ask the Secretary of State for the Home Department how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch Presidency of the EU the Committee for the European Refugee Fund met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [215410]

Mr. Browne: We have records of no meetings during the Italian Presidency, one during the Irish Presidency, and two during the Dutch Presidency. The UK was represented by officials from the Home Office's Immigration and Nationality Directorate, or by the UK Permanent Representation as necessary.

Illegal Working

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what measures his Department is taking to reduce illegal working. [216799]

Mr. Browne: The Government are firmly committed to tackling illegal migrant working. Our strategy involves increasing enforcing capacity, encouraging compliance by business, and developing joint working between agencies responsible for enforcing workplace regulations. In 2004, the UK Immigration Service carried out 1,600 enforcement operations against illegal work, a 360 per cent. increase on the previous year, and apprehended 3,330 illegal migrant workers.

During the course of 2004, we strengthened section 8 of the Asylum and Immigration Act 1996, the law preventing illegal migrant working, by adjusting the requirement on employers to check and copy certain documents for prospective employees, and by making

the summary offence under section 8 triable either way. Following conviction on indictment, there is no upper limit to the level of fine that can be imposed. We introduced a new, separate criminal offence of trafficking for the purpose of exploitation. We also provided monitored access to our labour market for EU accession state workers.

As we made clear in our five-year strategy for asylum and immigration, we are continuing to examine ways to develop joint working and the sharing of intelligence between workplace enforcement agencies. We will pilot a joint team from April this year to target the use of illegal migrant workers in the West Midlands and explore the scope for closer collaboration between departments. We are setting up a new authority to regulate gangmasters in the agricultural and shellfish gathering sectors. We will also introduce civil penalties for employers found to be using illegal workers. In the longer term, the establishment of a national identity card system will provide a simple and secure means of verifying entitlement to work in the United Kingdom.

Juvenile Offenders

Simon Hughes: To ask the Secretary of State for the Home Department how many juvenile offenders are currently held in *(a)* young offenders' institutions and *(b)* elsewhere within the Prison Estate; and if he will make a statement. [214364]

Paul Goggins: Data on the number of young people held in Young Offender Institutions (YOI) within the juvenile estate as at 2 February 2005, is set out in the table.

Establishment	*Number of juveniles on remand*	*Number of sentenced juveniles*	*Total*
Ashfield	50	235	285
Brinsford	69	132	201
Bullwood Hall	0	13	13
Castington	58	94	152
Downview	5	6	11
Eastwood Park	2	6	8
Feltham	141	116	257
Hindley	35	129	164
Holloway	n/a	2	2
Huntercombe	n/a	337	337
Lancaster Farms	83	120	203
New Hall	6	24	30
Parc	16	17	33
Stoke Heath	44	128	172
Thorn Cross	n/a	55	55
Warren Hill	25	171	196
Werrington	n/a	116	116
Wetherby	46	271	317
Total	580	1,972	2,552

In addition to the above, two juveniles are currently held on remand in the dedicated unit for category A juveniles at HM Prison Woodhill.

Lancashire Police

Mr. Hoyle: To ask the Secretary of State for the Home Department how many *(a)* men and *(b)* women are training to join Lancashire police. [216213]

Ms Blears: Lancashire constabulary recruits do not commence training to be a police officer until they have actually joined the constabulary. The initial training period lasts for 15 weeks, although officers remain on probation for two years, during which time they undergo additional training.

On 10 February 2005 there were a total of 456 probationers in the Lancashire constabulary; 318 male and 138 female. Of these, 25 male and 15 female officers are currently undergoing their initial training course.

A further intake of recruits is scheduled for March 2005 when it is anticipated that 16 males and 10 females will join the Constabulary.

Mr. Hoyle: To ask the Secretary of State for the Home Department how many *(a)* men and *(b)* women have joined Lancashire police in each year since 2001. [216214]

Ms Blears: The latest information on police officers joining the service was published in Home Office Statistical Bulletin number 13/04, "Police Service Strength England and Wales, 31 March 2004. Prior to March 2003, the numbers of support staff and traffic wardens joining were not collected centrally and community support officers were only introduced after 31 March 2002.

The available data for Lancashire[1] are given in the following table:

	Men				*Women*			
As at 31 March:	*Police officers*	*Police staff*	*Community Support officers*	*Traffic wardens*	*Police officers*	*Police staff*	*Community Support officers*	*Traffic wardens*
2001	118	n/a	[illegible]	n/a	46	n/a		n/a
2002	144	n/a	—	n/a	59	n/a	—	n/a
2003	[2]153	15	24	0	[2]71	42	17	0
2004	[2]208	158	1	5	[2]93	273	6	6

[1] headcount
[2] not comparable with previous years as it includes transfers from other England and Wales forces.

Paedophiles (Grooming)

Mr. Burstow: To ask the Secretary of State for the Home Department what assessment he has made of the civil and criminal provisions in the Sexual Offences Act 2004 to tackle grooming by paedophiles on the internet and other media; and if he will make a statement. [215283]

Paul Goggins *[holding answer 9 February 2005]:* The Inter-Departmental Ministerial Group on Sexual Offending, which is chaired by Baroness Scotland, has been charged with monitoring the implementation of the whole Sexual Offences Act 2003 which came into force on 1 May 2004. It is still too early to assess the use of the new grooming offence and the new risk of sexual

harm order but the Ministerial Group will be taking stock of the situation when data about a full year's operation of the provisions is available.

Police

Mr. Hancock: To ask the Secretary of State for the Home Department what guidance he has given to police authorities on how the integrity of evidence would be protected in the event that custody officers are civilianised; and if he will make a statement. [210980]

Ms Blears: The integrity of evidence gathered during an investigation is the responsibility of the senior investigating officer. The role of the staff custody officer would be the same as that for a police custody officer as set out in the Police and Criminal Evidence Act 1984 and accompanying codes of practice. Guidance would be issued to all relevant stakeholders in advance of the introduction of staff custody officers.

Mr. Gerrard: To ask the Secretary of State for the Home Department how many searches of *(a)* persons and *(b)* vehicles under section 60 of the Criminal Justice and Public Order Act 1994 were carried out by each Metropolitan Police division *(a)* in each of the last five years and *(b)* in 2005 to date; and how many arrests were made as a result in each division for (i) offensive weapons and (ii) other reasons. [217413]

Ms Blears: Information from 1999–2000 to 2003–04 (latest available) for the Metropolitan Police area is given in the table. The information is collected centrally at police force area level only.

Data for 2004–05 will be published later in the year.

Searches of persons and vehicles under section 60 of the Criminal Justice and Public Order Act 1994[1] within the Metropolitan police area by resultant arrests, 1999–2000 to 2003–04

Number

				Arrests for:	
	Total searches	*Vehicles only searched*	*Persons searched*	*Offensive weapons*	*Other reasons*
1999–2000	2,693	2	2,691	4	34
2000–01	2,813	7	2,806	3	64
2001–02	6,065	65	6,000	89	144
2002–03	8,606	117	8,489	88	338
2003–04	4,359	11	4,348	29	122

[1] Searches in anticipation of violence.

Dr. Starkey: To ask the Secretary of State for the Home Department how many *(a)* police officers and *(b)* community safety officers were based in Milton Keynes in each year since 1997. [217191]

Ms Blears: Information on strength at Basic Command Unit (BCU) level is collected annually and reflects the position at the end of March. Information on BCU strength is only available from 2002 and is set out in the table. The deployment of officers to BCUs is a matter for the chief constable (Mr. Peter Neyroud QPM) and within the Milton Keynes (D) Division deployment of officers is a matter for the Divisional Commander.

I am told by the chief constable that until 21 February there were no community support officers in Milton Keynes. From Monday 21 February, five community support officers will be patrolling in Milton Keynes.

Milton Keynes (D) Division

As at 31 March	*Number of police officers*
2002	343
2003	346
2004	371

Geraldine Smith: To ask the Secretary of State for the Home Department how many community support officers there are in Morecambe and Lunesdale. [216774]

Ms Blears: I am told by the chief constable of Lancashire (Mr. Paul Stephenson QPM) that the northern (B) division currently has 25 community support officers (CSOs) and seven are deployed to the Morecambe area.

I announced on 24 November 2004 that, under the first phase of the Neighbourhood Policing Fund, the Home Office will support the recruitment of an additional 57 CSOs in Lancashire. This will enable the force to deploy a total of 185 CSOs by 31 March 2005. I understand from the Chief Constable that he plans to allocate a further eight CSOs to the northern division.

Geraldine Smith: To ask the Secretary of State for the Home Department how much public funding has been spent on CCTV security cameras in Morecambe and Lunesdale since 1997. [216775]

Ms Blears: The Home Office has provided a total of £83,692 to Morecambe and Lunesdale under the Closed Circuit Television initiatives, which formed part of the Crime Reduction Programme.

Since the completion of the Crime Reduction Programme, crime reduction funding has been allocated directly to the local Crime and Disorder Reduction Partnership through the Building Safer Communities fund and to Basic Command Unit (BCD) Commanders through the BUG fund. These funding streams finance a variety of interventions, including CCTV, to tackle local crime priorities. Exactly how funding is allocated across the area is the responsibility of the local Crime and Disorder Reduction Partnership and Lancashire Constabulary.

Probation Service (Lancashire)

Mr. Hoyle: To ask the Secretary of State for the Home Department how much will be spent on the probation service in *(a)* Lancashire and *(b)* Chorley in 2005–06. [216830]

Paul Goggins: The Lancashire Probation Board has so far been allocated £19.547 million of Home Office funds for the financial year 2005–06. The amount of this that is allocated for services in Chorley is a matter for the Lancashire Probation Board.

Secure Sites (Young People's Deaths)

Mr. Pike: To ask the Secretary of State for the Home Department how many young people under 21 years have died in each of the last five years for which figures are available in *(a)* police custody, *(b)* prison and *(c)* other secure sites; and if he will make a statement. [213322]

Ms Blears: The table sets out the information requested. Of the deaths of young people who die following contact with the police, 89 per cent. (77 deaths out of 87) do so as a result of road traffic incidents. Operational measures to avoid pursuits or curtail them include the use of helicopters, the early deployment of tyre deflation devices across the carriageway and tactical pursuit and containment in which a number of police vehicles are deployed in a planned manner to box in the target vehicle and bring it safely to a halt. More widely, we are working with the Association of Chief Police Officers, the National Centre for Policing Excellence and other key stakeholders in developing guidance setting out minimum standards for safer custody practice. This is due for publication in January 2006 following consultation in summer 2005 on the draft guidance with practitioner groups.

The National Offender Management Service (NOMS) is, within stakeholders, developing a suicide prevention strategy which includes specific provision for juveniles. This will focus on:

Increasing activity within regimes—better control of activities; more pertinent and constructive outdoor activity

Improved first night/ reception facilities

Recognising the innate vulnerability of the juvenile population

Child protection training

Improvements to healthcare centres—mental health nursing initiatives

Decreased use of segregation unit

Counselling, support groups, and specialised psychological interventions for those who self-harm

Promotion of peer support for juveniles through insider schemes.

	Police custody	*Prison*	*Young offenders institution*
1999–2000	18	1	15
2000–01	10	2	16
2001–02	12	0	12
2002–03	27	0	16
2003–04	20	2	8

Shannon Trust

Mr. Oaten: To ask the Secretary of State for the Home Department what support his Department gives to the Shannon Trust; and what plans there are for further support. [214318]

Paul Goggins: The Department for Education and Skills has commissioned an evaluation of the Toe by Toe scheme, run by the Shannon Trust. The evaluative exercise offers a structured analysis that will identify the success factors in the secure estate, determine the role of the learner/tutor relationship in the scheme's success, and consider its applicability to all learners. The evaluation will ascertain the potential for mainstreaming the scheme within the wider Skills for Life learning community and establishing stronger links with the overall Skills for Life initiative.

Under-age Drinking

Jeff Ennis: To ask the Secretary of State for the Home Department how many prosecutions there have been in *(a)* south Yorkshire and *(b)* England of retailers for selling alcohol to people under 18 years in each of the last five years. [212264]

Paul Goggins: The available information, relating to England and south Yorkshire police force area, 1999 to 2003, is shown in the following table.

Defendants proceeded against at magistrates courts for offences relating to the sale of alcohol to underage persons[1], England and South Yorkshire police force area: 1999 to 2003

Offence description	*Statute*	*Year*	*England*	*South Yorkshire PFA*

		2001	3	2
		2002	2	—
		2003	12	—

[1] These data are on the principal offence basis.

West Mercia Police

Mr. Paul Marsden: To ask the Secretary of State for the Home Department how much was paid by West Mercia constabulary in out of court settlements in the last 12 months. [213313]

Ms Blears: The chief constable of West Mercia constabulary informs me that £72,483 has been paid in out of court settlements in the 12 month period to January 2005.

Mr. Paul Marsden: To ask the Secretary of State for the Home Department how many complaints have been made against West Mercia Police Constabulary in the last 12 months. [213315]

Ms Blears: I am advised by West Mercia police that 790 complaints were made against the force between 1 January 2004 and 31 December 2004.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Waste

Mr. Lidington: To ask the Secretary of State for Environment, Food and Rural Affairs which landfill sites in England are licensed to accept hazardous waste.[216901]

Mr. Morley: At the end of 2004, 16 landfills in England were permitted to accept hazardous wastes, with a further seven awaiting a decision (of those seven, some may be accepting hazardous wastes under the terms of a waste management licence). Also, the Environment Agency has received 47 applications to operate separate cells in non-hazardous landfills, for the disposal of stable non reactive hazardous waste, with 24 sites currently operational. Details on all the sites can be found on the Environment Agency website at http://www.environment-agency.gov.uk/business/444217/444663/landfill/

CABINET OFFICE

Departmental Publications

Mr. George Osborne: To ask the Minister for the Cabinet Office how much has been spent on the production of in-house magazines in the Department in each year since 1997. [213647]

Mr. Miliband: The Cabinet Office in-house magazine "SCOOPS" was published from 1997 until December 2002.

Early production costs were minimal, excluding staff production costs. From October 1998 with the introduction of the first colour edition, until publication was discontinued in December 2002, costs rose to £2,500 per issue. "SCOOPS" was published ten times per year, at a cost of £25,000 per year between 1999 and 2002.

The staff newsletter, "The Weekly", has always been produced entirely in-house and has incurred no additional production costs.

Mobile Phones

Mr. George Osborne: To ask the Minister for the Cabinet Office what the cost of staff mobile phone bills was in each year since 1997. [214900]

Mr. Miliband: Information relating to mobile telephones and their cost is not held centrally and is not separately identifiable on the Department's accounting system. It cannot therefore be readily retrieved without incurring disproportionate cost.

Queen's Flight

Chris Grayling: To ask the Minister for the Cabinet Office (1) on how many occasions his Department's Ministers used the Queen's Flight in each of the past five years; [213694]

(2) how much money his Department has spent on chartering aircraft in each of the past five years.[213711]

Mr. Miliband: "Travel by Ministers" makes clear that special flights may be authorised when a scheduled service is not available, or when it is essential to travel by air, but the requirements of official or parliamentary business or security considerations or urgency preclude the journey being made by a scheduled service. In respect of overseas travel by Ministers, since 1999 the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year. The list published in 1999 covers the period 2 May 1997 to 31 March 1999. Where RAF/private charter aircraft are used this is shown in the list. The Government have also published on an annual basis the cost of all Ministers' visits overseas. Copies of the lists are available in the Libraries of the House. Information for 2004–05 will be published in due course.

All ministerial travel is undertaken in accordance with the "Ministerial Code" and "Travel by Ministers."

Staff Surveys

Mr. George Osborne: To ask the Minister for the Cabinet Office (1) how much was paid to consultants carrying out staff surveys in the Department in each year since 1997; [213662]

(2) what the cost of staff surveys in the Department was in each year since 1997. [213685]

Mr. Miliband: The Cabinet Office and its agencies carry out regular Staff Surveys as part of good management practice in developing people to deliver more efficient and better quality services. Staff Surveys are usually carried out by external consultants.

Consultant costs are set out in the table.

Consultant costs of staff surveys in the department from 1997

£

Year of staff survey	Cabinet Office	Central Office of Information	Government Car and Despatch Agency
1997	—	•	•
1998	—	—	—
1999	29,963	•	—
2000	26,554	—	—
2001	—	25,350	—
2002	27,833	25,873	—
2003	—	—	—
2004	35,973	32,900	—

Notes:
1. Survey not carried out in that year.
2. Fees inclusive of VAT.
3. A Staff Survey was developed, carried out and analysed internally. No external costs were incurred.

Stationery

Mr. George Osborne: To ask the Minister for the Cabinet Office how much the Department spent on *(a)* stationery and *(b)* office supplies in each year since 1997. [213850]

Mr. Miliband: Detail of the Department's spend on stationery in each year since 1997 are shown in the table.

	Stationery expenditure (£000)
1997–98	392
1998–99	565
1999–2000	823
2000–01	756
2001–02	610
2002–03	712
2003–04	637

The cost of office supplies is not separately identifiable on the Department's Accounting System.

Swan Hunter

Mr. Nicholas Brown: To ask the Minister for the Cabinet Office if he will make a statement on his recent visit to Swan Hunter shipyard. [215820]

Mr. Miliband: My visit to the Swan Hunter ship yard was in my capacity as constituency MP for South Shields and not as Minister for the Cabinet Office.

EDUCATION AND SKILLS

Adoption

Tom Cox: To ask the Secretary of State for Education and Skills how many children were adopted in the United Kingdom in each of the last three years. [209410]

Margaret Hodge: The tables show the number of adoptions in the UK for the last four calendar years for which numbers are available, and the number of looked after children adoptions in England for the last five years ending 31 March.

Number

Calendar year ending	2000	2001	2002	2003
United Kingdom	5,503	6,588	6,240	5,429
England	4,671	5,657	5,265	4,479
Wales	269	324	416	342
Scotland	391	468	385	468
Northern Ireland	172	139	174	140

Source:
Office for National Statistics

Adoptions of looked after children in the year ending 31 March[1]

England	Number
2000	2700
2001	3100
2002	3400
2003	3500
2003	3700

[1] Figures have been rounded to the nearest 100.
Source:
DfES

While the total number of children adopted in England has fallen between the calendar years 2001 and 2003, the number of looked after children adopted in England has increased by 37 per cent. between the years ending 31 March 2000 and 2004.

Children Act

Mrs. Spelman: To ask the Secretary of State for Education and Skills what assessment the Government have made of the impact of the Children Act 2004 on the costs of local authorities. [216268]

Margaret Hodge: Details of the costs associated with the Children Act 2004 are set out in the regulatory impact assessment which is available on the Department's website. The resources which the Government will be providing to support the reforms introduced by Children Act 2004 are set out in Every Child Matters: Change for Children (paragraphs 4.16–4.25), a copy of which is in the Library.

Class Sizes

Mr. Reed: To ask the Secretary of State for Education and Skills what progress has been made in reducing infant class sizes for five, six and seven-year-olds in Leicestershire since 1997. [216932]

Derek Twigg: The age of individual pupils in classes is not collected centrally. The available information is shown in the table.

Maintained primary schools[1]: number of pupils in key stage 1 classes of 31 or more pupils taught by one teacher 1997 to 2004

Position in January each year
Leicestershire local education authority

	Total pupils in all classes	Number of pupils in classes of 31 or more: Number of pupils	Number of pupils in classes of 31 or more: Percentage of pupils[2]
1997[3]	30,324	7,098	23.4
1998	20,311	4,407	21.7
1999	19,696	3,497	17.8
2000	19,977	2,464	12.3
2001	20,560	1,033	5.0
2002	20,112	280	1.4
2003[4]	18,077	436	2.4
2004[4]	17,720	818	4.6

[1] Includes middle schools as deemed.
[2] Percentage of pupils in those classes expressed as a percentage of pupils in all classes taught by one teacher.
[3] Before local Government reorganisation.
[4] From 2003 reception classes were returned alongside nursery classes as foundation stage for the first time. Therefore, reception classes have been included in the key stage 1 figures to produce a coverage as close as possible to that available for previous years.
Source:
Annual Schools' Census

Congestion Charge

Mr. George Osborne: To ask the Secretary of State for Education and Skills how much has been spent on congestion *(a)* charges and *(b)* penalty charge notices by the Department since the commencement of the congestion charging scheme. [213821]

Derek Twigg: Since the commencement of the congestion charging scheme the Department has spent,

(a) £5,300 on registering two official vans;

(b) £368 in respect of one penalty charge for an official vehicle.

Departmental employees incurring congestion charges while on official business claim these on an individual basis. Information regarding this expenditure is not held centrally. Such information could be provided only at disproportionate cost. It is departmental policy that penalty charges are not reimbursed to individuals.

Correspondence

Sarah Teather: To ask the Secretary of State for Education and Skills when she will reply to the letter dated 5 March 2004 sent to her predecessor by the hon. Member for Brent, East regarding Mr. Christopher McMahon. [215628]

Derek Twigg: My right hon. Friend the then Minister for Lifelong Learning, Further and Higher Education replied to the hon. Member's letter dated 5 March on 30 March.

Early Years Education

Ms Dari Taylor: To ask the Secretary of State for Education and Skills how many free nursery and pre-reception class places have been created for three, four and five-year-olds in the constituency of Stockton, South since 1997. [215305]

Margaret Hodge: All four-year-olds in England have been entitled to a free part-time early education place since September 1998. All three-year-olds in England have been entitled to a free part-time early education place since April 2004.

The available information on the numbers of free part-time early education places taken up by three and four-year-olds in Stockton-on-Tees local education authority area and parliamentary constituencies within Stockton-on-Tees local education authority area since 1997 is shown in the tables.

The latest figures on early education places for three and four-year-olds in England were published in Statistical First Release 39/2004 "Provision for children under five years of age in England—January 2004 (final)", which is available on the Department's website www.dfes.gov.uk/rsgateway/.

Number of free nursery education places[1] taken up 3 and 4-year-olds—Stockton local education authority area

Position in January each year

Changes in pupil figures may arise from changes to the underlying population in the local education authority area and other factors. However, my Department does not publish population figures for individual age cohorts at sub-national level because of the unreliability of the underlying population estimates. The Office for National Statistics publish sub-national population estimates in five-year age bands.

Mr. Patrick Hall: To ask the Secretary of State for Education and Skills how many free early years education places were taken up in Bedford and Kempston in *(a)* 1997 and *(b)* 2004. [207222]

Margaret Hodge: All four year olds in England have been entitled to a free part-time early education place since September 1998. All three-year-olds in England have been entitled to a free part-time early education place since April 2004.

The available information on the numbers of free part-time early education places taken up by three and four year olds in Bedford parliamentary constituency and Bedfordshire local education authority area is shown in the tables. Information for private and voluntary providers is available for Bedfordshire but not for Bedford constituency.

Changes in pupil figures may arise from changes to the underlying population in the local education authority area and other factors. However, my Department does not publish population figures for individual age cohorts at sub-national level because of the unreliability of the underlying population estimates. The Office for National Statistics publish sub-national population estimates in five-year age bands.

The latest figures on early education places for three and four-year-olds in England were published in Statistical First Release 39/2004 "Provision for children under five years of age in England—January 2004 (final)", which is available on the Department's website www.dfes.gov.uk/rsgateway/.

EU Committees

Angus Robertson: To ask the Secretary of State for Education and Skills how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Leonardo da Vinci Committee met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [216284]

Mr. Ivan Lewis: The Leonardo da Vinci programme Committee met twice during the Italian presidency on 17 September 2003 and 17–18 November 2003. It met twice during the Irish presidency on13 February 2004 and 26 April 2004 and three times during the Dutch presidency on 17 September 2004, 11 November 2004 and 16 December 2004. All the meetings were held in Brussels apart from the last of the Dutch presidency which was held in Maastricht. The meetings were attended by officials from the joint international unit of my Department and the Department for Work and Pensions.

I refer the hon. Member to the series of Command Papers on the prospects for the EU—Cm6174 laid in April 2004, Cm6310 laid in September 2004 and Cm6450 laid in February 2005, which cover the periods of the above presidencies and are available on the FCO website at www.fco.gov.uk/commandpapers.

Angus Robertson: To ask the Secretary of State for Education and Skills how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Committee for the implementation of the community action programme concerning co-operation policy in the youth field, including European voluntary service and youth exchanges within the community and with third countries (YOUTH), met; when and where these meetings took place; which UK Government expert was present; and if she will make a statement. [217247]

Mr. Ivan Lewis: The YOUTH programme committee met once in each of the Italian, Irish and Dutch presidencies. The meetings took place on 5 December 2003, 22 June 2004 and 15 October 2004 and all were held in Brussels. The meetings were attended by an official from the joint international unit of my Department and the Department for Work and Pensions and by a representative of the UK National Agency.

I refer the hon. Member to the series of Command Papers on the prospects for the EU—Cm6174 laid in April 2004, Cm6310 laid in September 2004 and Cm6450 laid in February 2005, which cover the periods of the above presidencies and are available on the FCO website at www.fco.gov.uk/commandpapers.

Angus Robertson: To ask the Secretary of State for Education and Skills how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the advisory committee on medical training met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [215924]

Mr. Hutton: I have been asked to reply.

The advisory committee on medical training was set up to advise the European Commission and member states on matters relating to the training of workers whose professions come under sectoral directives guaranteeing free movement and automatic recognition of qualifications.

The advisory committees have not met during the last three years and are not likely to do so again.

Marriage and Relationship Support

Mrs. Brooke: To ask the Secretary of State for Education and Skills how much funding her Department has made available for *(a)* marriage and relationship support agencies and *(b)* parenting and family agencies in each year since 1997; how many (i) marriage and relationship support agencies and (ii) parenting and family agencies have received such funding in each year since 1997, broken down by agency; and if she will make a statement. [214783]

Margaret Hodge: As a result of the machinery of Government changes in June 2003, responsibility for marriage and relationship support policy and funding transferred to DfES from the Department for Constitutional Affairs, previously the Lord Chancellor's Department; and responsibility for parenting and family support policy and funding transferred to DfES from the Home Office.

In 2003–04 the DfES made £14.9 million available to voluntary and community sector organisations specialising in marriage and relationship support and/or parenting and family support. This has been distributed as follows:

Programme	*Grants*	*Budget (£)*
Marriage and relationship support grant	44 Projects delivered	5.0
Parenting and family support	125 grants, 132 projects	9.4

In 2004–05, the DfES made £24.9 million available to voluntary and community sector organisations specialising in marriage and relationship support and/or parenting and family support. This has been distributed as follows:

Programme	*Grants*	*Budget (£)*
Marriage and relationship support grant	33 Organisations to deliver 42 projects	4.9
Parenting and family support	100 grants; 139 projects	20

Mrs. Brooke: To ask the Secretary of State for Education and Skills how much funding is available in 2004–05 to couples for relationship counselling *(a)* within marriage, *(b)* outside marriage and *(c)* where there are children in the relationship; and if she will make a statement. [214784]

Margaret Hodge: The Marriage and Relationship Support Grant (MARS) has provided funding of £4.9 million in 2004–05 to voluntary and community sector groups specialising in the provision of help, advice and information to support people to maintain successful relationships with their partners. The MARS Grant does not directly fund the provision of counselling services. It is used for work to prevent relationship problems and so to provide a stable environment for any children in the family.

The MARS Grant has now been amalgamated with the former Family Support Grant to form the Strengthening Families Grant. The same amount of money is available for relationship support. Adult relationship support services remain an important and integral element of the range of family support services funded by the Department.

Ministerial Stationery

Mr. George Osborne: To ask the Secretary of State for Education and Skills how much has been spent on official ministerial *(a)* business cards, *(b)* headed paper and *(c)* compliment slips in each year since 1997. [214938]

Derek Twigg: The cost of official ministerial *(a)* business cards, *(b)* headed paper and *(c)* compliment slips comes out of the general stationery budget and we do not have a breakdown for these individual items. Such information could be provided only at disproportionate cost.

Offenders' Learning and Skills Service

Mr. Oaten: To ask the Secretary of State for Education and Skills how the creation of the Offenders' Learning and Skills Service will affect offender learning provision in Wales. [214990]

Mr. Ivan Lewis: The new arrangements for offender learning and skills in Wales (and in England) will make the provision for offender learners considerably better. An early focus on advice, guidance and assessment will secure a tightly focused Individual Learning Plan that will accompany the offender learner through the Criminal Justice System. The Plan will ensure that learning needs continue to be met as he or she passes through the System's principal points of transition.

We will substantially enhance offender learners' chances of employment on release—and successful resettlement—through significantly greater planning and co-ordinated funding of learning. A particular focus on the needs of the labour market will make the provision much more relevant to the needs of employers.

The new learning offer is described in The Offender's Learning Journey". I have arranged for a copy of this document to be placed in the Library.

Mr. Oaten: To ask the Secretary of State for Education and Skills what the projected budget for the offenders' learning and skills service is for the next three years; and what ring-fencing of these budgets will take place. [214991]

Mr. Ivan Lewis: This Department currently has a ring-fenced budget for offenders' learning and skills of £152.5 million for each of the years 2005–06, 2006–07 and 2007–08.

Parking

Mr. George Osborne: To ask the Secretary of State for Education and Skills how much has been spent on *(a)* provision of parking spaces for civil servants and *(b)* parking tickets and penalties incurred by civil servants in the Department and its predecessors in each year since 1997. [213836]

Derek Twigg: The Department for Education and Skills provides 660 car parking spaces at its four headquarter sites, all of which, form part of the physical estate and therefore incur no additional costs.

Parking tickets and penalties incurred by civil servants remain the responsibility of the individuals.

Postage

Mr. George Osborne: To ask the Secretary of State for Education and Skills how much has been spent on postage by the Department and its predecessors in each year since 1997. [215024]

Derek Twigg: The Department for Education and Skills has spent the following on postage since 1997:

	£
2003–04	607,497
2002–03	763,931
2001–02	654,160
2000–01	749,150
1999–2000	806,590
1998–99	[1]
1997–98	[1]

[1] This information can be provided only at disproportionate cost.

The figures provided include first and second class postal/poundage charges and expenditure incurred through the use of business reply.

The departmental policy is that all outgoing mail is sent second class unless there is a business need for the item to be sent at premium rate.

Post-compulsory Education

Mr. Cousins: To ask the Secretary of State for Education and Skills what percentage of 16-year-olds were in post-compulsory education in England in *(a)* 2001–02, *(b)* 2002–03, *(c)* 2003–04 and *(d)* 2004–05, broken down by region. [216484]

Mr. Ivan Lewis *[holding answer 21 February 2005]:* The latest published local participation estimates for 16-year-olds in education and Learning and Skills Council (LSC) funded work based learning (WBL) in England are for end 2001 (2001–02 academic year). Local participation estimates for end 2002 and end 2003

(provisional) are due to be published in March 2005 together with a consistent historic participation time series.

Participation estimates of education and LSC funded WBL by 16-year-olds in England, broken down by region, for end 2001 are given in Table 1.

The data are taken from the Department's Statistical Bulletin entitled, "Participation in education and training by 16 and 17-year-olds in each local area in England, end 2001".

Table 1: Participation in education and LSC funded WBL by region in England for end 2001

Percentage

	Full-time education	*Education and LSC funded WBL*
England	71	82
North East	67	88
North West	67	81
Yorkshire and the Number	67	83
East Midlands	68	82
West Midlands	69	82
East of England	72	81
London	74	82
South East	74	82
South West	74	84

Pre-school Funding (Warrington)

Helen Southworth: To ask the Secretary of State for Education and Skills what funding has been provided for *(a)* nursery and *(b)* pre-school education in Warrington in each of the last seven years. [211406]

Margaret Hodge: The information is not available in the form requested. Funding for nursery and pre-school education has been provided through a mixture of nursery education grant and education standard spending (up till 2002–03) and education formula spending (from 2003–04). The new education formula spending system is not directly comparable with the old education standard spending assessments at sub-block level. This is because the coverage of the sub-blocks and the amount of resources allocated within them changed significantly in 2003–04. Therefore the figures are not comparable between 2002–03 and 2003–04.

The figures in the following table provide details of the resources provided for Warrington from 1998–99 together with estimated figures for 1997–98 (Warrington was part of Cheshire in 1997–98). Funding through education standard spending assessments and education formula spending shares is unhypothecated.

£ million

School spending assessments plus nursery education grant (vouchers in 1997–98) in cash terms	
1997–98	4.1
1998–99	5.9
1999–2000	5.5
2000–01	6.7
2001–02	6.8
2002–03	7.4
Nursery sub-block from education formula spending in cash terms including pensions	
2003–04	10.2
2004–05	10.4

Notes:
Price base: cash
1997–98 figures for LEAs subject to local Government reorganisation in that year have been estimated, pro-rata to their post LGR figures.
Figures reflect relevant sub-blocks of education SSA/EFS settlements and include the pensions transfer to EPS for 2003–04 and 2004–05
Total funding shown includes nursery education grant for 1998–99 to 2002–03 and nursery vouchers in 1997–98. Extra funding through schools standards grant and standards fund is not included as it is not possible to identify how much of these grants are spent on under fives.
Rounding: Figures are rounded to the nearest £0.1 million.

Pupil Referral Units

Mr. Willis: To ask the Secretary of State for Education and Skills how many pupil referral units there are in *(a)* England, *(b)* each region and *(c)* each local education authority. [216866]

Derek Twigg: The information requested is shown in the following table.

Secondments

Alan Simpson: To ask the Secretary of State for Education and Skills if she will list the people working within the Department on secondment from the private sector, broken down by *(a)* the organisation or industry they came from and *(b)* the policy responsibilities they have been given. [208628]

Derek Twigg *[pursuant to the reply, 26 January 2005, Official Report, c. 366–67W]*: My Department currently has two individuals on secondment from the private sector. Caroline Hughes from Edexcel is seconded to the Skills for Life Unit and working on

embedding skills for life qualifications into vocational qualifications. Ian Foyle is seconded for six months on a part time basis from Prospects Services Ltd., under the auspices of the CBI, and is currently contributing to the production of guidance for children's trusts on planning and commissioning skills.

Sure Start

Ms Dari Taylor: To ask the Secretary of State for Education and Skills how many families have received support from Sure Start in the constituency of Stockton, South. [215304]

Margaret Hodge: Stockton South has two Sure Start local programmes (Parkfield & Victoria and Mandale, Village & Stainsby) approved by the Sure Start Unit in December 2002 supporting around 1,560 young children and their families living in the area. They deliver a wide range of child, family health and parental support services seeing on average around 17 per cent. of these children. The Parkfield and Victoria local programme has visited 100 per cent. of families with newborn babies within the first two months of their child's life.

Linked to these programmes are two neighbourhood nurseries delivering a total of 100 full daycare places. Both programmes were designated as children's centres in September 2004 and are contributing towards achieving our goal of a children's centre in every community by 2010.

Peter Bradley: To ask the Secretary of State for Education and Skills what assessment she has made of the impact of the Sure Start programme on families in The Wrekin; and if she will make a statement. [216051]

Margaret Hodge: Telford and Wrekin local authority is served by two Sure Start local programmes: Sure Start Lawley Plus, which serves the communities in Lawley, Arleston and College, The Rock, Overdale and Newdale and Ketley Bank; and Sure Start Jubilee, which serves Madeley, Woodside and Cuckoo Oak. The programmes between them support over 1500 local young children and their families.

Prior to the establishment of Sure Start Lawley Plus at the end of 1999, the area was identified as an isolated area with no early years infrastructure. It now has a nursery closely integrated with the local primary school and with social care and health services. It has strong links with the Carpenter Family Centre which has a parent and toddler group and training sessions. The programme also supports mothers with post-natal depression. It had meaningful contact with over 95 per cent. of the children in its catchment area in the year ending 31 March 2004.

Sure Start Jubilee was approved in early 2003. It offers a range of services including family support through home visiting, parenting support, baby massage, home safety promotion and reading and early language development and support. It has had some success in reducing smoking during pregnancy and just under 19 per cent. of the mothers in the area gave up smoking prior to or during pregnancy. It is using its £1 million capital allocation towards two children's centres. One of these, Woodside children's centre will create a 64 place day nursery and family room in a building to which the PCT's health visiting team will relocate alongside the Sure Start team. The other, Sutton Hill children's centre will create 42 full day care places, training facilities and a health room. Although it was a very new programme at the time and had no dedicated building from which to deliver services, it had already had meaningful contact with some 17 per cent. of the children in its catchment area in the three months between its establishment and 31 March 2004.

In addition to these services, between April 2003 and March 2004, both programmes contacted all pregnant women in their areas to give ante-natal advice and support. They also both visited 100 per cent. of these families within two months of the baby being born. In the last annual satisfaction survey, some 92 per cent. of families who responded said they were satisfied or very satisfied with the local services for young children.

Rob Marris: To ask the Secretary of State for Education and Skills if she will make a statement on the effects of the Sure Start programme in *(a)* Whitmore Reans and *(b)* Dunstall, Wolverhampton. [216227]

Margaret Hodge: One Sure Start programme serves both the Whitmore Reans and Dunstall areas. It was approved in 2001 and supports around 870 young local children and their families. It delivers a wide range of services to support local families including family support in partnership with the Primary Care Trust (PCT); a support group for single parents; the provision of healthy eating advice to families, provision of safety equipment on a loan basis to families at a subsidised rate; a toy library; a crèche; play and stay as well as play groups; additional home visits by qualified midwife and health visitors and early assessment and referral for children with development delay.

Since opening, this programme has helped to improve the quality of life for local families. For example it works closely with the smoking cessation programme run by the PCT and all staff have received training in ways to support parents and families who may want to give up smoking. All staff have been trained to be able to identify children with delayed language development and either apply strategies recommended by therapists or refer the families for specialist help.

Local health visitors report back to the local programme on all women identified with post natal depression—so that support can be offered.

Programme Monitoring shows that the programme has seen 700 of the 870 children in their catchment area since the programme opened (81 per cent.).

The programme has strong parental participation both on the management board, which has six parent representatives with a parent vice chair and in activities where parents act as volunteers. It has a volunteer policy which aims to match skills gaps within the programme to the skills of the parents within the catchment area. This is used as a stepping stone to further training and ultimately employment. Volunteer parents can access all the training available to the programme staff.

Dr. Stoate: To ask the Secretary of State for Education and Skills if she will make a statement on the impact of the Sure Start programme in the Dartford constituency. [214980]

Margaret Hodge: The Dartford Sure Start Local Programme has been running since September 2002 supporting 710 children and their families within Joyce Green, Littlebrook, Princes and Wilmington wards.

The Programme delivers a wide range of services to support local people including; antenatal support, breast feeding classes, home visits by qualified midwife and health visitors; speech and language therapy; smoking cessation groups; young parents groups; training courses for parents on a range of subjects including self esteem, women's health, nutrition and weaning workshops;

The programme has only been open for just over two years and has already made a real impact on the lives of the community. The Programme has provided the following information on its progress: they have seen— 95 per cent. of all babies have been seen within two months of their birth, the percentage of pregnant women contacted by SSLP during their pregnancies also increased from 18.6 per cent. to 31.48 per cent.; number of mothers breast feeding at birth increased from 31.84 per cent. to 49.07 per cent. and the number of mothers smoking during pregnancy has reduced from 50 per cent. to 29 per cent. In the short time the programme had been open to September 2004; the programme had made contact with 40 per cent. of the children in its catchments area.

The community has also got involved in the development of the Programme, there are six parents on the Management Board and parents have also been trained to work on the planned consultation and evaluation of the programme.

The programme is working towards developing children's centre status, and its proposals for Temple Hill children's centre (Joyce Green ward) have been approved.

Targets

Mr. George Osborne: To ask the Secretary of State for Education and Skills how many targets have been set in each year since 1997 by the Department; and, of these, which have been *(a)* met, *(b)* nearly met, *(c)* not met, *(d)* changed and *(e)* dropped. [215792]

Derek Twigg: I refer the hon. Member to the answer given by my hon. Friend the Financial Secretary to the Treasury on 21 February 2005, *Official Report*, column 75W.

Vocational Education

Mr. Jim Cunningham: To ask the Secretary of State for Education and Skills what strategy her Department is using to promote vocational education to those students not wishing to enter further academic study. [216243]

Mr. Ivan Lewis *[holding answer 21 February 2005]:* Students wishing to follow a vocational pathway are currently able to gain access through a number of routes. These are available to all students. The Department's increased flexibility for 14 to 16-year-olds' programme creates and promotes enhanced vocational and work related learning opportunities. Our young apprenticeships programme also offers well motivated 14 to 16-year-olds the opportunity to pursue industry specific vocational programmes outside of school in partnership with employers. In September 2004 work related learning at Key Stage 4 became a statutory requirement. 8 GCSEs in vocational subjects were introduced in September 2002. Apprenticeships and advanced apprenticeships offer structured programmes of training in a wide range of occupations leading to a recognised qualification for learners of foundation degrees). We will shortly be publishing a White Paper which will set out our future plans for 14 to 19-year-olds.

Youth Education, Employment and Training

Mr. Hoban: To ask the Secretary of State for Education and Skills how many young people aged between *(a)* 16 and 18, *(b)* 18 and 21 and *(c)* 21 and 25 years in each parliamentary constituency were not in education, employment or training in 2004. [216423]

Mr. Ivan Lewis *[holding answer 21 February 2005]:* The percentage of 16 to 19-year-olds and 20 to 24-year-olds who were not in education, employment or training (NEET) are given for each local education authority (LEA) in the table.

These figures have been produced by combining information from the local Labour Force Survey for the last three years, to reduce the error margins around the NEET percentages. However, sample sizes are still very small due to the narrow age bands and small geographic area. The rates are volatile and care should be taken when interpreting the figures. An estimate of the confidence interval is provided, to aid with interpretation. Where fewer than 10 people who took part in the survey in a given LEA were NEET, the information has been suppressed as it would be potentially disclosive or particularly unreliable.

Figures are not available for the specified age groups, nor for parliamentary constituency, as sample sizes are too small for these narrow groups.

Percentage of age group not in employment, education or training (NEET)

Local Labour Force Survey for 2001, 2002 and 2003.

TRADE AND INDUSTRY

Autonomy plc

Mr. Bellingham: To ask the Secretary of State for Trade and Industry what contracts for which her Department is responsible have been awarded to Autonomy plc. [212205]

Ms Hewitt: The Department has not directly awarded any contracts to Autonomy plc.

Chartered Aircraft

Chris Grayling: To ask the Secretary of State for Trade and Industry how much money her Department has spent on chartering aircraft in each of the past five years. [213689]

Ms Hewitt: "Travel by Ministers" makes it clear that special flights may be authorised when a scheduled service is not available, or when it is essential to travel by air, but the requirements of official or parliamentary business or security considerations or urgency preclude the journey being made by a scheduled service. In respect of overseas travel by Ministers, since 1999 the Government has published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year. Where RAF/private charter aircraft are used this is shown in the list. The Government has also published on an annual basis the cost of all Ministers' visits overseas. Copies of the lists are available in the Libraries of the House. Information for 2004–05 will be published in due course.

No costs have been incurred by the Department in the last five years on chartering aircraft for internal flights.

Civil Service Salaries

Mr. Llwyd: To ask the Secretary of State for Trade and Industry what the average annual increase in gross salary was for the year 2003–04 for *(a)* staff below the senior civil service and *(b)* the senior civil service in her Department. [208108]

Ms Hewitt: The available information for average annual increases in salary for DTI staff is presented as follows:

Average annual increase per head 2003–04 for DTI staff, full time equivalents[1]

	Gross salary[1] (£)
(a) Staff below the senior civil service[2]	1,070
(b) Senior civil service[3]	3,436

[1] Annualised increase in gross salary ie salary before deductions for tax, national insurance etc.
[2] Based on the pay award made on 1 August 2003.
[3] Based on the pay award made on 1 April 2003.
Note:
These figures do not include the DTI agencies.

Cold Calling/Doorstep Selling

Mr. Robathan: To ask the Secretary of State for Trade and Industry when she expects to have completed her consultation on cold calling and doorstep selling; whether she expects to propose legislative measures in relation to these matters; and if she will make a statement. [216420]

Mr. Sutcliffe *[holding answer 21 February 2005]:* Responses to the consultation are currently being analysed by officials and these will inform decisions on how best to proceed. Careful consideration is also being given to the impact of the Unfair Commercial Practices Directive (UCPD) which may address many of the high pressured sales techniques of the sector.

Departmental Contracts

Mr. Hancock: To ask the Secretary of State for Trade and Industry how many contracts in her Department have been granted to *(a)* EDS, *(b)* Fujitsu and *(c)* jointly in each of the last two years; whether they were open to competition; for what they were granted; for how much; over what period of time; and if she will make a statement. [211611]

Ms Hewitt: The information requested is as follows:
(a) From 2003 to 2004 four contracts were awarded to EDS. Three of these related to the broadband aggregation project and one related to management information.
(b) The DTI has a long-term PFI contract with Fujitsu and orders to Fujitsu during this period were under this contract. The type of orders related to our existing IT infrastructure and associated services and applications. The PFI contract was of course the subject of a major competition and extends until 2014.

The DTI is not disclosing the amounts for these particular contracts as this information is protected by Section 43(2) of the Freedom of Information Act 2000 (commercial prejudice).
(c) No contracts were awarded jointly to EDS and Fujitsu.

Departmental Properties

Mr. George Osborne: To ask the Secretary of State for Trade and Industry how many properties are held by the Department; what total floor space these properties provide; how many properties are vacant; and how much floor space vacant properties comprise. [206495]

Ms Hewitt: The Department has the lead responsibility for accommodation in twelve buildings on its HQ estate with a total floor space of 98,500 sq m. There are no empty properties.

EU Committees

Angus Robertson: To ask the Secretary of State for Trade and Industry how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Committee for implementation of multiannual framework programme for actions in the reinforcement of international co-operation (Synergy) met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [215915]

Ms Hewitt: The committee to which the hon. Member refers no longer meets. Aspects of its work have, since 2003, been undertaken by the Intelligent Energy Europe programme committee.

This committee met on the following dates in Brussels:

24 July 2003 (informal)

8 October 2003

5–6 February 2004

15 September 2004

8 December 2004

The meetings were attended by a DTI and a Defra official.

European Constitution

Mr. Davidson: To ask the Secretary of State for Trade and Industry (1) if she will make a statement on the impact of the Charter of Fundamental Rights within the EU Constitution on industrial relations law in the UK; [214353]

(2) if he will make a statement on the impact of the Charter of Fundamental Rights within the EU Constitution on the rights of workers in the UK. [214354]

Mr. Sutcliffe: I refer my hon. Friend to the statement made by my right hon. Friend the Secretary of State for Foreign Affairs on 9 September 2004, *Official Report*, columns 133–35WS, which made it clear that the Charter of Fundamental Rights will have no practical impact upon UK industrial relations law or the rights of UK workers. The full statement is available in the Library of the House.

The provisions of the Charter of Fundamental Rights and Freedoms are addressed to the institutions, bodies, offices and agencies of the European Union with due regard to the principle of subsidiarity and to the member states only when they are implementing Union Law. The Charter does not extend the scope of application of Union Law beyond the existing powers of the Union or establish any new power or task for the Union. Nor does it modify powers and tasks defined in the other parts of the constitutional treaty, which specifically excludes EU action on legislative areas such as pay, the right of association, the right to strike and the right to impose lock-outs.

UK legislation on industrial relations maintains a balance between workers' rights to pursue legitimate disputes and employers' rights to conduct business without disruption from illegitimate industrial action. The Charter will not alter that balance.

External Consultants

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what work was commissioned by her Department's executive agencies to be carried out by external consultants and advisors in 2003–04. [210279]

Ms Hewitt: I have asked the Chief Executives listed as follows to write to the hon. Member.

Mr. Ron Marchant, Chief Executive of the Patent Office

Mr. Desmond Flynn, Chief Executive of The Insolvency Service

Dr. J W Llewellyn, Chief Executive of the National Weights and Measures Laboratory

Ms Claire Clancy, Chief Executive of Companies House

Ms Jeanne Spinks, Chief Executive of the Employment Tribunals Service

Letter from Ron Marchant to Mr. Stephen O'Brien, dated 21 February 2005:

House of Commons Parliamentary Question: 2004/837

I am replying on behalf of the Patent Office to the above parliamentary question concerning work commissioned by the Department of Trade & Industry's executive agencies to be carried out by external consultants and advisors in 2003–04.

The Patent Office has a limited requirement for such services. The cost of work carried out in 2003/04 by external consultants and advisors was £32,000 and covered surveys and feasibility studies for minor building alterations, staff objective setting and the implementation of an EC Directive.

Letter from Desmond Flynn to Mr. Stephen O'Brien, dated 21 February 2005:

The Secretary of State for Trade and Industry has asked me to reply to you directly on behalf of The Insolvency Service in respect of your question (2004/837) requesting information on money spent on external consultants and advisors in 2003–04.

Money spent on external consultants and advisors during April 2003 to date amounts to £34,000. This expenditure was broken down between £18,000 on a Race Equality Impact Study and £16,000 on The Insolvency Service Help Line.

Letter from Dr. J W Llewellyn to Mr. Stephen O'Brien, dated 21 February 2005:

The Secretary of State for Trade and Industry has asked me to reply on behalf of the National Weights and Measures Laboratory (NWML) to your question regarding what work was commissioned by her Department's executive agencies to be carried out by external consultants and advisors in 2003–04.

NWML commissioned external consultants and advisors to carry out work on a wide range of issues including Electronic Records Management, Market Surveillance, performance monitoring and IT Development in 2003/04. The total cost of their work was £68k.

Letter from Claire Clancy to Mr. Stephen O'Brien, dated 21 February 2005:

House of Commons Parliamentary Question: 2004/837

To ask the Secretary of State for Trade and Industry, what work was commissioned by her Department's executive agencies to be carried out by external consultants and advisors in 2003–04.

I refer to the above Parliamentary Question that you have raised. I am replying to you as Chief Executive of Companies House.

The details of the external consultants used and the costs for 2003/2004 are:

	£
IT consultancy	880,165
Management consultancy	51,431
Consultants for accommodation project	69,838
Total	1,001,434

I hope that you will find this information useful.

Letter from Jeanne Spinks to Mr. Stephen O'Brien, dated 21 February 2005:

You asked the Secretary of State for Trade and Industry, what work was commissioned by her Department's executive agencies to be carried out by external consultants and advisors in 2003–04. I have been asked to reply on behalf of the Employment Tribunals Service.

The major work commissioned was to research the benefits of, and develop the business case for, a computerised case-handling system which in addition will allow the sharing of information with Acas.

The remainder of the work related to professional advice on premises management and development.

Homeworkers

Tim Loughton: To ask the Secretary of State for Trade and Industry what plans she has to strengthen the employment rights of homeworkers *(a)* to enable them to claim the minimum wage and *(b)* to give them greater legal protection. [210210]

Mr. Sutcliffe: The Government introduced regulations last year so that employers have to pay output workers (including homeworkers) either the minimum wage for every hour they work or pay a fair piece rate that allows an average worker to earn the minimum wage. From April 2005 the fair piece rates will need to be multiplied-up by 1.2, at which point most homeworkers should be entitled to the minimum wage.

We have also been considering the position of homeworkers as part of the Employment Status Review and aim to issue a response this year.

Human Rights Act

Mr. Bercow: To ask the Secretary of State for Trade and Industry how many cases have been brought against her Department under the Human Rights Act 1998; and what the cost has been in *(a)* legal fees to defend cases and *(b)* compensation payments. [202385]

Ms Hewitt: We do not collect central records of all cases in which the Human Rights Act 1998 is relied on. Human rights are now integrated in the general law and are rarely the sole basis for a challenge. We do monitor centrally those cases which we consider may be of particular significance to this Department.

We do not collect separate information centrally about the costs to public funds, legal fees or compensation payments in cases which include a human rights issue. In most cases it will be difficult to single out associated costs relating to the human rights element.

Labour Statistics (Greater London)

Tom Cox: To ask the Secretary of State for Trade and Industry what estimate she has made of how many jobs have moved abroad from the Greater London area in each of the last three years. [211051]

Mr. Alexander: The Government does not collect data from which such estimates could be made. However, employment in the Greater London area has remained broadly constant over the last three years:

December to November	*Number employed*
2000–01	3,298,000
2001–02	3,319,000
2002–03	3,310,000
2003–04	3,327,000

Source:
Local Area Labour Force Survey.

Halliburton

Dr. Cable: To ask the Secretary of State for Trade and Industry how many export credit guarantees have been entered into by subsidiaries of Halliburton in each year since 1997; what the terms were of the deals for each of these guarantees; and if she will make a statement. [205057]

Ms Hewitt: ECGD has issued guarantees in respect of the following loans supporting UK exporters in which Halliburton has an interest:

1999

$231.4 million for work by Dresser Kellogg Energy Services Ltd. to develop a gas-field in South Africa. The majority of this loan has already been prepaid. The remainder is payable in half-yearly instalments ending in 2010.

2002

$215 million for work by M. W. Kellogg Ltd. in the construction of two gas liquefaction units in Nigeria. The loan is to be repaid in half-yearly instalments ending in 2010.

2004

$10.5 million for work by Kellogg, Brown and Root in connection with an oilfield in Kazakhstan. The loan is to be repaid in half-yearly instalments ending in 2011.

Queen's Flight

Chris Grayling: To ask the Secretary of State for Trade and Industry on how many occasions departmental Ministers have used the Queen's Flight in each of the past five years. [213446]

Ms Hewitt: "Travel by Ministers" makes it clear that special flights may be authorised when a scheduled service is not available, or when it is essential to travel by air, but the requirements of official or parliamentary business or security considerations or urgency preclude the journey being made by a scheduled service. In respect of overseas travel by Ministers, since 1999 the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year. Where RAF/private charter aircraft are used this is shown in the list. The Government have also published on an annual basis the cost of all Ministers' visits overseas. Copies of the lists are available in the Libraries of the House. Information for 2004–05 will be published in due course.

In addition an RAF aircraft was used for an internal visit on one occasion in June 2002.

Regional Venture Capital Funds

Mr. Fallon: To ask the Secretary of State for Trade and Industry how many formal applications have been made to each regional venture capital fund up to 31 December 2004. [215860]

Nigel Griffiths *[holding answer 21 February 2005]:* As at 31 December 2004 a total of 299 potential investment opportunities had been formally considered for support by the nine Regional Venture Capital Funds (RVCFs), these are broken down by English region in the following table:

RVCF	*Number of applications presented to investment committee*
South East	35
South West	20
London	49
East of England	18
East Midlands	51
West Midlands	28

RVCF	Number of applications presented to investment committee
Yorkshire and Humber	28
North East	25
North West	45
Total:	299

Mr. Fallon: To ask the Secretary of State for Trade and Industry how many businesses in each region have been assisted by regional venture capital funds as at 31 December 2004. [215862]

Nigel Griffiths *[holding answer 21 February 2005]:* Set out in the table below is a breakdown of the number of SMEs invested in each Regional Venture Capital Fund, as at 31 December 2004.

RVCF	Number of different SMEs invested in
South East	26
South West	6
London	17
East of England	4
East Midlands	26
West Midlands	21
Yorkshire and Humber	9
North East	25
North West	21

Sickness Absence

Mr. Hammond: To ask the Secretary of State for Trade and Industry what initiatives her Department is taking to reduce the numbers of sick days taken by staff in the Department. [216637]

Ms Hewitt: The DTI takes the management of sickness absence very seriously and is tightening up procedures for reporting, improving data collection and handling absences, including coaching managers on dealing with specific cases.

Staff Identity Passes

Mr. George Osborne: To ask the Secretary of State for Trade and Industry what the cost of producing a staff identity pass was in the Department on the latest date for which figures are available; and how many staff identity passes have been reported lost or stolen in each year since 1997. [215082]

Ms Hewitt: The current cost of producing a DTI identity pass is £1.17 (including VAT). The number of DTI passes which have been lost or stolen on a year-by-year basis, April to March, since 1997 are as follows:

	Passes Lost/Stolen
1996–97	123
1997–98	105
1998–99	115
1999–2000	66
2000–01	90
2001	98
2002–03	80
2003–04	125
2004 (to end December)	82

There is nothing on the pass to indicate that it belongs to a DTI staff member.

Sub-postmasters' Contract

Michael Fabricant: To ask the Secretary of State for Trade and Industry on what date she expects the Office of Fair Trading to make a final adjudication on the complaint made by the Association of Convenience Stores with respect to the contract between sub-postmasters and Post Office Limited; and if she will make a statement. [215032]

Mr. Sutcliffe: This is a matter for the Office of Fair Trading (OFT). My officials have asked colleagues at the OFT to write to you with any information they can provide about progress with this case.

Targets

Mr. George Osborne: To ask the Secretary of State for Trade and Industry how many targets have been set in each year since 1997 by the Department; and, of these, which have been *(a)* met, *(b)* nearly met, *(c)* not met, *(d)* changed and *(e)* dropped. [215837]

Ms Hewitt: Since the 1998 comprehensive spending review the Department's key objectives have been set out in public service agreements (PSA), which include high-level performance targets. Progress against these targets has been reported every year since then in the Department's annual expenditure plans and departmental reports.

The Department's annual reports also cover progress against a range of other departmental targets, for example in relation to diversity in public appointments and the Department's environmental performance.

Since December 2002 the Department has provided further mid-year updates on progress towards delivering its PSA targets in annual autumn performance reports.

Details of these reports are given as follows:

The Government's expenditure plans 1998–99 Cm 3905

The Government's expenditure plans 1999–2000 to 2001–02 Cm 4211

The Government's expenditure plans 2000–01 2001–02 Cm 4611

Textiles

Mr. Hoyle: To ask the Secretary of State for Trade and Industry what discussions the Department has had with the Ministry of Defence about the procurement of textiles. [216235]

Nigel Griffiths: My right hon. Friend the Secretary of State chairs an inter-departmental committee on public procurement on which the Ministry of Defence is represented and at which a range of public procurement issues are discussed. This Department's officials also have regular contact with officials in MoD on procurement issues, including textiles.

Training and Development

Mr. George Osborne: To ask the Secretary of State for Trade and Industry what the costs of departmental *(a)* staff training days and *(b)* staff development days held away from the Department were in each year since 1997. [213795]

Ms Hewitt: DTI is committed to providing access to learning and development for its staff. This will ensure they have the right skills and expertise to enable them to meet their customer's needs and deliver the Department's business objectives effectively.

The cost for staff learning during FY 2003–04 (and the budget for 2004–05) was around £4.8 million. To provide more detailed information would be possible only at disproportionate cost.

UK-based Companies (Complaints)

Angus Robertson: To ask the Secretary of State for Trade and Industry how many complaints were received by her Department in each year since 1997 regarding the actions of UK-based companies abroad; what procedure has been established to deal with such complaints; and if she will make a statement. [210639]

Mr. Alexander: The primary locus for my Department in dealing with complaints regarding the actions of UK-based companies abroad is the OECD Guidelines for Multinational Enterprises. A National Contact Point (NCP) was created when the Guidelines were revised in 2000 for discussions with the parties concerned on all matters covered by the Guidelines so that it can contribute to the solution of problems that may arise in this connection.

The number of cases (specific instances) that has arisen from complaints since 2000 is as follows:

	Number
2000	0
2001	0
2002	1
2003	7
2004	0

The NCP issued Statements on two of these cases, and one was resolved by the parties. The remainder are on-going.

Working Time Directive

Mr. Laxton: To ask the Secretary of State for Trade and Industry what discussions her Department has had with trade unions on compliance by businesses with the Working Time Directive. [216131]

Mr. Sutcliffe: DTI Ministers and officials regularly meet representatives of both trade unions and business. We discuss many different employment issues, including how to ensure the Working Time Regulations made under the Working Time Directive are not abused.

Mr. Laxton: To ask the Secretary of State for Trade and Industry what steps her Department is taking to ensure that businesses comply with the Working Time Directive. [216132]

Mr. Sutcliffe: Enforcement of the working time regulations is undertaken on DTFs behalf by a number of different authorities: the Health and Safety Executive (HSE), local authorities, the Civil Aviation Authority (CAA), the Vehicle and Operator Services Agency (VOSA) and the Maritime and Coastguard Agency (MCA). These authorities follow up complaints about the regulations and, if necessary, have the power to initiate prosecutions. During the 12 months to 31 March 2004, the HSE Infoline received over 5,000 enquiries on working time issues. All those requiring further action were followed up. The Advisory, Conciliation and Arbitration Service (ACAS) also provides advice and, if necessary, conciliation on matters relating to the working time regulations. Employees can pursue working time entitlements through employment tribunals.

World Trade Organisation

Angus Robertson: To ask the Secretary of State for Trade and Industry on what basis the World Trade Organisation's Dispute Settlement Body rests its authority; and if he will make a statement. [215402]

Mr. Alexander: The Dispute Settlement Body is established under the provisions of the WTO Dispute Settlement Understanding which is set down in Annex 2 to the WTO Agreement.

Angus Robertson: To ask the Secretary of State for Trade and Industry what assessment his Department has made of the *(a)* role, *(b)* composition and *(c)* work of the World Trade Organisation's Appellate Body; and if he will make a statement. [215403]

Mr. Alexander: The Appellate Body is provided for in Article 17 of the Dispute Settlement Understanding (DSU) which is an integral part of the WTO Agreement. Its function is to address appeals by WTO members of WTO panel rulings. Its mandate is limited to consideration of issues of law covered in the Panel report and legal interpretations developed by the Panel.

The composition of the Appellate Body is determined by the provisions of Article 17 of the DSU. It is composed of seven members who are selected because of their recognised authority and demonstrated expertise in law, international trade and the subject matter of the WTO agreements.

The Government considers that the Appellate Body has and continues to perform its task well and plays a valuable role in the resolution of disputes within the WTO and ensuring consistency in the interpretation of the multilateral trade agreements.

Angus Robertson: To ask the Secretary of State for Trade and Industry what assessment his Department has made of the *(a)* function, *(b)* foundation and *(c)* make-up of the World Trade Organisation's Dispute Settlement Body; and if he will make a statement. [215418]

Mr. Alexander: The Dispute Settlement Body meets as often as is necessary to carry out its functions under the Dispute Settlement Understanding. Among its main functions are:

administering the rules and procedures applicable to WTO dispute settlement

establishing WTO Panels, and adoption of Panel and Appellate Body reports

to maintain surveillance and implementation of rulings and recommendations of Panel and Appellate Body reports, and

to authorise the suspension of concessions and other obligations.

The DSU is an integral part of the WTO agreement and has been accepted by all members of the WTO. It has the advantage of providing one dispute settlement process covering all of the agreements falling under the WTO umbrella.

The Government considers that overall the WTO dispute settlement system has performed well since it entered into force in 1995.

NORTHERN IRELAND

Area Plan (Antrim)

David Burnside: To ask the Secretary of State for Northern Ireland when the Antrim, Ballymena, Larne Area Plan will be published. [216072]

Angela Smith: In recent months the Planning Service has been reviewing the rapidly increasing and unprecedented workload pressures being faced by the agency. After careful consideration of the available options, it was decided to concentrate as much of the agency's resources as possible for a period of time on the operational side of the business.

The reallocation of staff has had a knock-on effect on emerging area plans. Work is continuing on those plans that are at an advanced stage in the preparation process. However, progress on the remaining area plans, including Antrim, Ballymena and Larne, will be slower then previously programmed.

The importance of delivering full area plan coverage is recognised and the Planning Service will move forward with the area plan programme as quickly as is feasible. At this point in time it is not possible to say precisely when this will be. Much will depend on how quickly the pressure on the operational side can be reduced. An announcement on revised timescales for the area plan programme, including the Antrim, Ballymena and Larne area plan, will be made in due course.

Armagh Observatory

Mr. Trimble: To ask the Secretary of State for Northern Ireland what budget has been allocated by the Department of Culture, Arts and Leisure to Armagh observatory for the financial years *(a)* 2003–04 and *(b)* 2004–05; and what budget is planned for 2005–06. [211931]

Angela Smith: The Department of Culture, Arts and Leisure allocated £633,500 in 2003–04 and £666,000 in 2004–05 towards the running costs of the Armagh observatory. An indicative allocation of £666,500 is anticipated for 2005–06. The Department also provided an additional £115,000 in 2003–04 and £218,000 in 2004–05 to fund research and specific projects and includes £104,000 for work in respect of the Disability Discrimination Act.

Mr. Trimble: To ask the Secretary of State for Northern Ireland what plans the Government have to develop, expand or enhance the facilities at Armagh observatory. [211932]

Angela Smith: The enhancement of the human orrery will continue with plans to add two outer stainless steel rings. Other plans to develop, expand or enhance the facilities at Armagh observatory would be matters for the director, committee and board of the Armagh observatory. The Department of Culture, Arts and Leisure would consider any proposals put forward by the committee and board through the normal business planning processes.

Belfast Regeneration Office

Mr. Dodds: To ask the Secretary of State for Northern Ireland how much has been spent by the Belfast Regeneration Office in each of the Belfast constituencies in each year since it was set up. [216413]

Mr. Spellar: The information requested is not held centrally and could be obtained only by means of a special administrative exercise that would entail a disproportionate cost.

Mr. Dodds: To ask the Secretary of State for Northern Ireland how much has been spent by the Belfast Regeneration Office in each of the district electoral areas of north Belfast in each year since it was set up. [216414]

Mr. Spellar: The information requested is not held centrally and could be obtained only by a special administrative exercise and would entail a disproportionate cost.

Catering Costs

Mr. George Osborne: To ask the Secretary of State for Northern Ireland how much has been spent on *(a)* entertainment lunches involving civil servants and guests and *(b)* working lunches, in each year since 1997. [215053]

Mr. Paul Murphy: Information is not available in the format requested by the hon. Member.

The information requested is captured under overall "entertainment" costs and these costs have previously been provided in the answer I gave to the hon. Member on 11 January 2005, *Official Report*, column 471W.

Charity Laws

Lady Hermon: To ask the Secretary of State for Northern Ireland what progress has been made in bringing forward changes to charity laws in Northern Ireland following the recommendations of the Independent Monitoring Commission's report of November 2004. [216409]

Mr. Spellar: The Department for Social Development has launched a public consultation exercise to seek views on proposed changes to the existing laws governing charities in Northern Ireland.

The appointment of a Charities Commission and a Register of Charities in Northern Ireland are among the main proposals in a document called "Consultation on the Review of Charities Administration and Legislation in Northern Ireland 2005" and published by the Department for Social Development.

Charities in Northern Ireland make an immense contribution helping those in our society who are most in need. The proposed changes are designed to provide greater public confidence and will address concerns that the lack of tighter control of charities in Northern Ireland provides opportunities for abuse by organised criminal elements.

Child Mental Health Specialists

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many specialists in child mental health are employed by the North and West Belfast Health and Social Services Trust. [216415]

Angela Smith: Information requested is provided in the table as follows.

Specialists in child mental health employed by North and West Belfast Health and Social Services Trust as at January 2005

Grade	*Headcount*	*Whole-time equivalent*
Consultant Clinical Psychologist	1	0.9
Clinical Psychologist	1	1.0
Child and Adolescent Psychotherapist	1	1.0
Total	3	2.9

Notes:
North and West Belfast Health and Social Services Trust considers that specialist staff are those who have particular expertise in the field of Child and Adolescent Mental Health attendant upon their professional training and ongoing professional development including accredited training. The above staff have the competencies to independently provide community-based Tier 2 services across North and West Belfast and to work within a specialist multi-disciplinary Team at Tiers 3 and 4. Tier 2 services are concerned with the provision of child and adolescent mental health services with a focus on prevention and early intervention with children and adolescents with moderate mental health needs. Tier 3 (out-patient) and Tier 4 (in-patient) provide assessment and intervention of children and adolescents with the most complex mental health issues.

Mr. Dodds: To ask the Secretary of State for Northern Ireland what provision is made for children and young peoples' mental health in north Belfast. [216416]

Angela Smith: North and West Belfast Health and Social Services Trust provide Child and Adolescent Mental Health services through the Multi-Disciplinary Adolescent Team, the Children's Clinical Psychology Service, the Early Interventions Service, Children's Services Network and the Shankill Resource Centre. Specialist in-patient and out-patient services are accessed through the regional provider.

City of Derry Airport

Mr. Hume: To ask the Secretary of State for Northern Ireland when he expects a decision to be made on the funding application for the safety works at City of Derry Airport; and what assessment has been made of the *(a)* safety and *(b)* regional economic implications of the time scale for making a decision. [216663]

Mr. Spellar: I hope that an announcement can be made soon. Issues relating to the economic benefit to the northwest of investment in the airport, options for airport governance and state aid issues are still being considered. I am aware of the safety and regional economic issues involved in the time scale for making a decision.

Construction Industry Training Scheme

Mr. Lidington: To ask the Secretary of State for Northern Ireland if he will make a statement on the operation of the Construction Industry Training Scheme in Northern Ireland. [215742]

Mr. Gardiner: The Construction Industry Training Scheme does not operate in Northern Ireland.

The Construction Industry Training Board in Northern Ireland is the only remaining industrial training board and it raises annually a statutory levy to encourage training in the construction industry in Northern Ireland through:

identifying and meeting industry training needs;

encouraging new entrants to join the construction industry;

providing training, training advice and grant aid to levy paying employers, and;

monitoring training standards.

Department of Education (Judicial Review)

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland pursuant to his answer of 26 January 2005, *Official Report*, column 421W, what the basis for the judicial review against the Department of Education and ELB was; who paid the costs of the case; and what the total amount involved was. [217307]

Mr. Gardiner: The judicial review against the Department and the NEELB was sought on the grounds that refusal of transport assistance in respect of the Applicant was an infringement of human rights (Section 75 of the Northern Ireland Act 1998 and Article 6 of the European Convention on Human Rights as incorporated by the Human Rights Act 1998). This application was dismissed by Mr. Justice Girvan.

To date the Department has incurred costs of £4,509, and the NEELB has incurred costs of £8,519. However, the Department is awaiting receipt of a copy of the Court Order before final costs are calculated. Both the Department and the Board have agreed to pay their own costs. The costs associated with the Applicant's Solicitors plus Junior and Senior Council will be met by the Applicant.

Digital Hearing Aids

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what steps he is taking to increase the number of people in the Province provided with digital hearing aids. [216536]

Angela Smith: I refer the hon. Lady to my answers of 15 September 2004, *Official Report*, column 1639W and 20 December 2004, *Official Report*, column 1424W.

Education and Library Boards

Mr. Beggs: To ask the Secretary of State for Northern Ireland whether each of Northern Ireland's five education and library boards request the same standards of service from their transport providers. [216925]

Mr. Gardiner: Education and library boards operate a common set of standards which relate to the appropriate transport legislation such as vehicle licensing, public service testing, insurance etc. Boards also insist on the continued maintenance of core standards of safety. They carry out spot checks to ensure that transport providers continue to meet these standards throughout the period of a contract.

Election Posters

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many party election posters were removed in each constituency by the Roads Service in each year since 1997 because they were not removed by the party responsible within the stipulated period; what the cost was in each year; and in what cases recompense was sought from the responsible party. [216411]

Mr. Spellar: The Chief Executive of Roads Service (Dr. Malcolm McKibbin) has been asked to write to the hon. Gentleman in response to this question.

Letter from Malcolm McKibbin to Mr. Nigel Dodds, dated February 2005:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question regarding the number of party election posters that were removed in each constituency by the Roads Service in each year since 1997 because they were not removed by the party responsible within the stipulated period; what the cost was in each year; and in what cases recompense was sought from the responsible party. (216411). I have been asked to reply as this issue falls within my responsibility as Chief Executive or Roads Service.

I should explain that the erection of election posters is governed by planning legislation and I understand that the Department of the Environment's Planning Service practice is to write to all political parties prior to elections, advising of the statutory regulations for the display of election posters. Under current legislation, all election posters are required to be removed within 14 days after the close of the relevant poll to which they relate.

Although permission is not required from Roads Service for parties to erect election posters on our property, we have powers under Article 87 of the Roads (NI) Order 1993 to remove advertising signs, including election posters, from our property, to seek the recovery of costs and to prosecute those responsible for the signs. In practice, we prefer to persuade offenders to remove such signs themselves and only take stronger action if this proves necessary. Our approach normally begins with a courtesy call to the individual or organisation concerned and this action usually results in the vast majority of posters being removed.

With regard to the recovery of costs involved, Roads Service policy prior to 2001 was to remove election posters without seeking reimbursement from the political parties. Consequently, there is no record of the number of posters removed, or the cost incurred by Roads Service, before 2001.

Roads Service does not maintain details of the removal of election posters on a parliamentary constituency basis, however, the table below shows the posters removed by Roads Service Eastern Divisional area since 2001. Other Divisions have confirmed that requests to constituency offices for posters to be removed from specific locations have usually resulted in their removal and, that on the few occasions where posters have had to be removed by Roads Service staff, no records were kept.

	Number of posters removed in Eastern Division	*Costs recovered (£)*
2001	150	500
2002	0	0
2003	0	0
2004	17	300
2005	2	[1]

[1] Ongoing

I hope this information is helpful.

Ferry Services

Mr. Alan Reid: To ask the Secretary of State for Northern Ireland what his Department's intentions are regarding the reinstatement of the ferry service between Ballycastle and Campbeltown. [217089]

Mr. Gardiner: The proposed reinstatement of the ferry service between Campbeltown and Ballycastle is a matter in which my colleagues in the Scottish Executive have lead responsibility. The views of Northern Ireland Office Ministers have recently been conveyed to the Minister for Transport in the Scottish Executive re-affirming our continued support, in principle, in relation to their attempts to reinstate the service. Discussions between officials in the Scottish Executive and the Northern Ireland Department of Enterprise, Trade and Investment continue on how best to progress the matter.

Freedom of Information

Dr. Julian Lewis: To ask the Secretary of State for Northern Ireland what his policy is in respect of the publication *(a)* on the departmental website and *(b)* by placing copies in the Library of (i) all or (ii) a selection of the information disclosed in response to freedom of information requests since January. [215223]

Mr. Paul Murphy: The Northern Ireland Office and Northern Ireland Departments publish on the departmental websites information which is considered to be of wide public interest. In the case of information provided as a result of freedom of information requests, data protection principles are taken into account where it is appropriate to make the name of the requester anonymous. Such information may also be placed in the Library if it is considered to be of general interest to the House.

Guidance on Publication Schemes, issued by the Department for Constitutional Affairs in July 2002, recommended that where information is disclosed to an individual in response to a request under the Freedom of Information Act, Departments and NDPBs should

consider whether the information disclosed is of general interest and include released information in the publication scheme where appropriate.

General Practitioners

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many individuals completed general practice training in the Province in each of the last three years. [216538]

Angela Smith: The total number of individuals completing general practice training in the Province in the last three years is as follows:

	Number
2004	46
2003	41
2002	36

Housing Executive

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many properties there are in the Housing Executive's Purpose Built Commercial Property Portfolio; what their value is; how many are *(a)* vacant, *(b)* let on a five year lease and *(c)* let on less than a five year lease; how many were acquired in each of the last five years; at what cost; how many were sold in each of the last 10 years; and what the total income from such sales was in each of those years. [216844]

Mr. Spellar: There are 433 properties in the Housing Executive's Purpose Built Commercial Property Portfolio and are valued at £14,514,920.00. Of these 24 are vacant, 318 are let on a five year or more lease and 84 are let on less than a five year lease (seven of which have no lease as they are being used by the Housing Executive). No properties have been acquired in the last five years. During the last 10 years the numbers sold with the annual income is as follows:

	Number sold (unit)	*Annual income (£)*
2002	1	9,000.00
2001	1	25,000.00
2000	11	460,000.00
1999	8	150,000.00
1998	1	14,000.00
1997	1	5,000.00
1996	None	0
1995	None	0
1994	1	6,000.00
1993	None	0

Mr. Dodds: To ask the Secretary of State for Northern Ireland which posts, not including Housing Executive staff, are funded by the Housing Executive to assist local communities and residents' groups in each Northern Ireland constituency; who the occupants are of each post; what the length of service is in each case; and what the remuneration for each post is. [216845]

Mr. Spellar: The name of the post holders and their length of service is personal data and constitutes exempt information under section 40(2) of the Freedom of Information Act 2000 and as such it would inappropriate to release it with out the consent of the postholder. However the following table provides the name of the organisation funded or partly funded by the Housing Executive during the 2004–05 financial year and the amount of funding paid by the Housing Executive. When organisations approach the Housing Executive for funding this normally covers more than just the salary. The amount of funding shown only includes costs paid by the Housing Executive that were associated with the post. The organisations are grouped by constituency based on the name of the group and/or the known area where it operates and compared with the names of the wards in that constituency.

Constituency/group name	*Housing Executive funding level (2004–05) (percentage)*	*Amount of Housing Executive funding (£)*
Belfast, West		
Lenadoon	50	12,751
Upper Springfield Resource Centre	50	10,250
West Belfast Partnership Board	100	18,582
Whiterock/Westrock	62	9,143
Greater Shankill	100	18,200
Tudor Renewal Residents Association	100	18,886
Twadell/Woodvale	100	10,250
Belfast, North		
New Lodge Housing Forum	100	21,100
Ardoyne	100	17,000
Lower North Belfast Community Council	50	11,400
Concerned Residents Upper Ardoyne[1]	100	25,561
Belfast, South		
Markets Development Association	50	5,640
Greater Village Regeneration Trust	50	10,600
Strangford		
Glen Ward Community Association	50	10,000

Constituency/group name	Housing Executive funding level (2004–05) (percentage)	Amount of Housing Executive funding (£)
Foyle		
Bogside/Brandywell Community Housing project	100	18,417
Belfast, East		
Mersey Street Area Residents Association[2]	50	2,397

[1] The post has yet to be filled.
[2] Current postholder has left employment and funding has been sought to fill the post in the 2005–06 year.

Jobskills Traineeships

Mr. Lidington: To ask the Secretary of State for Northern Ireland how many and what percentage of young people enrolled on year three of a jobskills traineeship in Northern Ireland had found a full-time job by the end of that year in each year since 2001. [215743]

Mr. Gardiner: The traineeship strand of the jobskills programme has a maximum training period of 78 weeks. Therefore the question is being answered on the basis of the number of young people who commenced a jobskills traineeship in each financial year since 2001 and, of those, the number who subsequently gained full-time employment.

The number of young people who commenced a jobskills traineeship in each financial year since 2001 is as follows:

	Number
2001–02	5,304
2002–03	4,956
2003–04	5,064
2004–05	[1]4,464

[1] To date.

The number and percentage of young people recruited in each of the above years that subsequently found a full-time job is as follows:

	Number	Percentage
2001–02	3,018	57
2002–03	2,806	57
2003–04	[1]–	[1]–
2004–05	[1]–	[1]–

[1] Too early to report.

Medical Negligence

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will estimate the number of deaths that resulted from medical negligence in the Province in each of the last 10 years. [216537]

Angela Smith: The information requested is not collected centrally.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will estimate the total annual cost to the Northern Ireland economy of medical negligence in each of the last three years. [216539]

Angela Smith: Information in relation to the last three years is detailed in the following table:

Amounts paid in settlements for clinical negligence claims from 2001–02 to 2003–04

	£000
2001–02	7,415
2002–03	13,550
2003–04	15,194

The amount paid in any one year in respect of clinical negligence can vary considerably due to the uncertain timing of the settlement of cases.

Motorcycle Races (Funding)

David Burnside: To ask the Secretary of State for Northern Ireland what public sector *(a)* funding and *(b)* support is being provided to (i) the International North West 200 and (ii) the Ulster Grand Prix at Dundrod motorcycle races in 2005; and what assessment he has made of the economic effects on the local economy. [216304]

Angela Smith: To date, £5,800 has been made available by the Sports Council for Northern Ireland through the 2 and 4 Wheel Motorsport Steering Group Ltd. for the North West 200 in 2005. The Northern Ireland Events Company (NIEC) and the Northern Ireland Tourist Board (NITB) are presently considering applications for funding for the North West 200 and the NIEC is also considering an application for funding from the Ulster Grand Prix. Both the NIEC and NITB provide support to the organisers in developing these events.

An economic impact study commissioned by NIEC estimated the economic impact of the North West 200 in 2002 to be in the region of £5.6 million. An appraisal of the impact of the Ulster Grand Prix in 2004 carried out by Tourism and Transport Consult indicated a benefit of £1.9 million. These are separate studies and it may not be appropriate to make exact comparisons.

Royal Ulster Constabulary

David Burnside: To ask the Secretary of State for Northern Ireland how many *(a)* Roman Catholic and *(b)* Protestant members of the Royal Ulster Constabulary have been murdered by the IRA since 1 January 1975; and what percentage of the total numbers who have served in the Constabulary since 1975 each of those figures represents. [214358]

Mr. Pearson: Between 1 January 1975 and 4 November 2001, 222 Royal Ulster Constabulary Officers were murdered by the Provisional IRA.

Monitoring of the community background of employees only came into effect in 1989, and it is therefore not possible to define the percentage of those murdered officers who were serving in the RUC from 1975 to 2001 by community background.

Lady Hermon: To ask the Secretary of State for Northern Ireland how many members of the part-time RUC reserve were required to transfer to either the full-time reserve or the regular police service as a result of intimidation or other terrorist activity during the troubles. [216840]

Mr. Pearson: There has never been provision for part-time reserve officers to transfer into the RUC full time reserve or the regular police service. Part-time reserve officers who wished to join the RUC full time reserve or regular police service had to resign and subsequently apply for and undertake the necessary training, as with any other applicant.

Lady Hermon: To ask the Secretary of State for Northern Ireland how many members of the part-time RUC reserve were forced to move home as a result of intimidation or other terrorist activity during the troubles. [216841]

Mr. Pearson: From 1994 to date, a total of 16 part-time reserve officers were evacuated from their homes as a result of intimidation or other terrorist activity. There are no figures specifically relating to the PTR available for the period before 1994.

NHS Staff (Abuse)

Rev. Martin Smyth: To ask the Secretary of State for Northern Ireland if he will introduce legislation to protect persons serving within the national health service from physical and verbal abuse. [214819]

Angela Smith: Legislation already exists under the Public Order (Northern Ireland) Order 1987 which includes offences such as assault, assault and battery, and grievous bodily harm, and offences in relation to conduct in public buildings.

The Department has made it clear that it will not tolerate attacks on Health and Personal Social Services staff and expects employers to take reasonable steps to protect staff and to actively support staff who have been subjected to such incidents.

There are no plans to introduce any further legislation. However, the Department continues to closely monitor the number of attacks on staff and will review the situation should the monitoring process highlight a growing trend.

Official Residences

Chris Grayling: To ask the Secretary of State for Northern Ireland if he will list the official residences for which his Department is responsible; who occupies each one; what the annual cost is of running each property; what contribution the current occupants make towards the running costs of each; what the total capital and refurbishment expenditure has been on those properties in each of the past five years; how much money was spent in each property on *(a)* flowers and plants, *(b)* wine and entertaining, *(c)* food, *(d)* telephone bills and *(e)* electricity and gas in 2003–04; how many (i) domestic and (ii) maintenance staff are employed at each property, broken down by post; and what the total cost of staff employment at each was in 2003–04. [213605]

Mr. Pearson: Hillsborough Castle is the official residence of the Secretary of State for Northern Ireland. The facilities at the castle are also used to provide official hospitality, overnight accommodation and to carry out other official business. The range of activities can include political meetings, hospitality for visiting dignitaries, the Secretary of State's garden party, and citizenship ceremonies. In addition to its use by the Northern Ireland Office and other Government Departments, charities and local community groups can request to use the facilities, generally for fund raising purposes, and the castle and grounds are open at certain times of the year for guided tours.

The total cost of running Hillsborough Castle in the 2003–04 financial year was £1,285,224.08. This includes the maintenance of the listed building and grounds; the security of the castle and its grounds and that of Ministers, officials and visitors while present at the castle. It also includes the cost hosting of the events listed above, as well as catering, hospitality and administration.

The Secretary of State is on duty while at Hillsborough Castle and therefore his costs count as official expense.

Records of expenditure on refurbishment are an integral part of the records that cover many other items of building maintenance and repair. It would be possible to identify only those items that relate specifically to refurbishment only at disproportionate cost.

During the 2003–04 year £16,769.87 was spent on flowers and plants. This included plants and flowers for the 100 acre listed estate surrounding the castle and flowers for functions.

A total £171,107.56 was spent on all catering and hospitality related items (the costs of food wine and entertaining not being separately available).

£19,254.33 was spent on telephone system including calls, installations and maintenance.

£64,360.56 was spent on power, including electricity, gas, oil and other forms of fuel.

The total cost for all staff in the 2003–04 year was £660,715.61. There are currently the equivalent of 5.5 full-time domestic staff employed at Hillsborough Castle but no maintenance staff.

Paramilitary Attacks

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many paramilitary attacks on individuals there have been in the Province in each week since October 2004. [210045]

Mr. Pearson: The information requested is included in the following table.

Security situation statistics: Number of casualties as a result of paramilitary style assaults and shootings per week

1 October to 31 December 2004	*Paramilitary style assaults*			*Paramilitary style shootings*		
Week[1]	*By Loyalist*[2]	*By Republican*[2]	*Total*	*By Loyalist*[2]	*By Republican*[2]	*Total*
1–7 October 2004	2	—	2	3	—	3
8–14 October 2004	1	1	2	—	—	—
15–21 October 2004	1	—	1	3	—	3
22–28 October 2004	—	1	1	5	—	5
29 October to 4 November 2004	1	3	4	2	—	2
5–11 November 2004	3	2	5	1	—	1
12–18 November 2004	1	—	1	—	—	—
19–25 November 2004	1	2	3	1	—	1
26 November to 2 December 2004	—	1	1	—	—	—
3–9 December 2004	—	1	1	—	—	—
10–16 December 2004	1	—	1	1	—	1
17–23 December 2004	—	—	—	—	1	1
24–31 December 2004[1]	1	3	4	1	—	1
Total	12	14	26	17	1	18

[1] Periods of one week/seven days; except 24–31 December which covers eight days.
[2] Attribution is as perceived by PSNI based on the information available and does not necessarily indicate the involvement of a paramilitary organisation.
Notes:
1. At this stage statistics can only be validated up until end of December 2004.
2. 2004 statistics are provisional and may be subject to minor amendment.

Police Ombudsman

Lady Hermon: To ask the Secretary of State for Northern Ireland on how many occasions he has held meetings with the Northern Ireland Police Ombudsman. [215282]

Mr. Paul Murphy: Since my appointment as Secretary of State for Northern Ireland I and my ministerial colleagues have met with the Police Ombudsman informally on a number of occasions, and I have had two formal meetings with her

Police Service of Northern Ireland (Ards)

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many police officers were stationed at Ards in each of the last six years. [214920]

Mr. Pearson: The following is the total number of officers attached to Ards sub division/Ards DCU from 31 March 1999 to the present date. The figures include regular officers, full-time reserve officers and part-time reserve officers.

	Number of officers
31 March 1999	299
31 March 2000	296
31 March 2001	271
31 March 2002	270
31 March 2003	259
31 March 2004	276.75
3 February 2005	243.75

The reduction in 2005 is due to a number of cessations and transfers, plus a readjustment of numbers due to the HR Allocation Model used by PSNI.

School Transport

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what his plans are for changing the free transport to school system for children in Northern Ireland from September; and what assistance he will offer to parents who risk suffering hardship as a result of changes. [215828]

Mr. Gardiner: I have no plans to change the Home to School Transport arrangements in Northern Ireland from this September. The average cost of provision for eligible children in 2003–04 was over £600 per pupil totalling over £59 million. I have therefore asked the Department of Education to carry out a fundamental review of the service with a view to identifying the source of cost pressures and developing mechanisms for cost control. Thereafter, any proposed policy changes would be subject to public consultation and to rigorous equality testing. The introduction of any new arrangements would be publicised in advance.

Schools Building Programme

David Burnside: To ask the Secretary of State for Northern Ireland when he will announce the new schools capital build programme and budget for 2005–06. [216070]

Mr. Gardiner: No decision has been taken yet on the timing of the next announcement of schools capital allocations. The Department of Education is currently assessing the resources which would be available for the schools capital programme and establishing with the school authorities projects which would be eligible to be considered.

David Burnside: To ask the Secretary of State for Northern Ireland what new schools and colleges in the post-primary sector will be located in *(a)* Antrim town, *(b)* the Antrim district council area and *(c)* the Newtownabbey district council area in 2005–06. [216071]

Mr. Gardiner: There are no plans to locate any new post-primary schools or colleges in the areas detailed in 2005–06.

A capital scheme has been prepared by the North Eastern Education and Library Board for Parkhall College in Antrim town which will need approval for capital funding before it can proceed. Economic appraisals for proposed capital schemes for Crumlin High School, Ballyclare High School and the North East Institute are expected to be completed later this year. The East Antrim Institute has recently submitted to the Department for Employment and Learning an appraisal on accommodation requirements. The appraisal is currently being assessed by the Department.

Secondary Schools

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what the Department of Education's *(a)* definition and *(b)* criteria are for classifying curriculum subjects and courses as *(a)* vocational and *(b)* academic in secondary schools in Northern Ireland. [217304]

Mr. Gardiner: I have made clear previously that I do not believe neat definitions are possible. Schools will, however, be provided with clear guidance on which subjects will be regarded as "general" or "applied" for the purposes of the Entitlement Framework. A preliminary, illustrative list of general and applied courses was placed on the Department of Education website on 23 June 2004.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland why development proposals for post-primary arrangements in Antrim include only controlled schools; and what the results were of community audits of such arrangements. [217305]

Mr. Gardiner: There are currently no development proposals for any post-primary schools in Antrim.

I am aware that following concern about the significant decline in the enrolment at Massereene Community College the North Eastern Education and Library Board (NEELB), which has responsibility for the school, decided to explore options for the future of controlled secondary education in Antrim town. These options formed the basis of a consultation process carried out by the NEELB between September-November 2004.

The consultation took the form of meetings and a questionnaire. The questionnaire sought views on the proposed closure of Massereene Community College and interim arrangements to transfer all pupils to Parkhall College. It also asked parents of children of compulsory school age their views on the current choice of secondary school provision in the Antrim borough council area and on integrated education.

The NEELB has advised that the consultation identified opposition to the proposed closure of Massereene College and to the prospect of mobile accommodation on the Parkhall College site in order to accommodate the combined enrolments.

The majority of parents who responded to the questionnaire said they were satisfied with the current choice of post-primary school in Antrim and a majority also indicated that they were supportive of integrated education, and would consider sending their children to an integrated post-primary school in the town.

The results of the consultation are due to be considered shortly by the North Eastern Education and Library Board.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland why postage-paid oversize reply envelopes provided for responses to the consultation on new admissions arrangements for post-primary schools used first class rates; and if he will estimate the costs of using second class post. [217306]

Mr. Gardiner: A freepost envelope has been included with each response booklet to encourage people to respond. The initial distribution of documents inadvertently included freepost envelopes at first class rate (28p per response). Subsequent copies will contain envelopes at 2nd class rate which will cost the Department 21p per response. At this stage it is too early to predict the level of response to the consultation.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland upon what basis the consultation on the new admissions arrangements for post-primary schools is different from the consultation on the post-primary review carried out by his Department in 2002; and if he will make a statement. [217308]

Mr. Gardiner: The consultation in 2002 was in response to the Burns Report which made specific proposals about post-primary education. The current consultation seeks views on options for new admissions arrangements for post-primary schools.

Over 14,000 copies of the consultation document have been issued so far covering a range of interests including schools, education partners, churches, political parties, MLAs, MPs, MEPs, community and voluntary groups, and libraries. All parents of school-age children have been given a leaflet providing them with details of the consultation and how they can respond to it. Advertisements have been placed in the three main newspapers (Belfast Telegraph, Newsletter, Irish News) giving details of the consultation.

This is an important issue and I would encourage all those with an interest to consider the details of the consultation document and to submit their views to the Department of Education by 30 June.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how much money has been spent on the post-primary review to date, broken down by *(a)* pre-Burns Report, *(b)* from the Burns Report to the appointment of the Post-Primary Review Working Group (Costello) and *(c)* since; and how much has been paid to consultants providing services to the three groups. [217309]

Mr. Gardiner: The Post-Primary Review was completed on 26 January 2004 when the Government announced they had accepted and were implementing the recommendations of the Post-Primary Review Working Group.

A total of £1,464,000 has been spent on the post-primary review as follows:

(a) £830,000 on research, the Post-Primary Review Body costs and the publication of the Burns report;

(b) £419,000 on consultation about the recommendations of the Burns report; and

(c) £215,000 on costs of the Post-Primary Review Working Group and the publication and distribution of the Costello report.

Included are consultancy costs of £4,000 for work carried out to obtain young people's views about the Burns recommendations.

Staff Identity Passes

Mr. George Osborne: To ask the Secretary of State for Northern Ireland what the cost of producing a staff identity pass was in the Department on the latest date for which figures are available; and how many staff identity passes have been reported lost or stolen in each year since 1997. [215081]

Mr. Paul Murphy: The unit cost of producing a staff identity pass in Northern Ireland is £2.41. Identity passes for staff based in London are not produced by the Department and their cost is assimilated within our annual rent.

The number of passes reported by staff in the Northern Ireland Office as lost or stolen each year since 1997 is as follows:

	Number of passes reported as lost or stolen
1997	12
1998	5
1999	20
2000	27
2001	20
2002	12
2003	21
2004	20
2005 (to date)	0

This reply relates only to the Northern Ireland Office and does not cover the 11 departments of the Northern Ireland Administration.

Suicides (North Belfast)

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many people have committed suicide in north Belfast in each year since 1997. [216417]

Angela Smith: The information requested is as follows:

Registration year	*Death due to "suicide and self-inflicted injury"*	*Death due to "undetermined injury whether accidentally or purposefully inflicted"*	*Total deaths due to "suicide and self-inflicted injury" or "undetermined injury whether accidentally or purposefully inflicted"*
1997	7	0	7
1998	7	1	8
1999	13	4	17
2000	11	2	13
2001	13	0	13
2002	10	2	12
2003	14	1	15

Working Time Regulations

Mr. Brady: To ask the Secretary of State for Northern Ireland how many officials working in ministerial private offices in the Department have worked more than a 48 hour week at any time in the last 12 months for which figures are available; how many of those had signed a waiver under working time regulations; and what percentage these figures represented of the total in each case. [204139]

Mr. Paul Murphy: The working time regulations provide workers with the protection of a limit of an average of 48 hours a week working time. This is not an absolute cap of 48 hours in any one week. This average is normally calculated over a 17-week reference period, although this can be longer in certain situations (26 weeks) and can be extended by agreement (up to 52 weeks). Workers may choose to work more than 48 hours a week over this reference period by signing an opt-out agreement, but employers cannot force a worker to sign an opt-out, and workers cannot be subjected to detriment for refusing to sign an opt-out.

Six people have signed the opt-out agreement.

DEPUTY PRIME MINISTER

Business Rates

Mrs. Spelman: To ask the Deputy Prime Minister what plans the Government have to implement the 1997 Labour manifesto pledge on localising business rates. [216650]

Mr. Raynsford: The Government have appointed Sir Michael Lyons to undertake an independent inquiry that will consider the detailed case for changes to the present system of local government funding and make recommendations on any changes that are necessary and how to implement them. The inquiry will make recommendations on how best to reform council tax and will, among other things, be conducting thorough analysis of options other than council tax for local authorities to raise supplementary revenue, including reform of business rates. Sir Michael is due to report by the end of this year, to my right hon. Friends the Deputy Prime Minister and the Chancellor the Exchequer.

Child Poverty

Vera Baird: To ask the Deputy Prime Minister what steps his Department is taking to achieve the

Government's targets of *(a)* ending child poverty by 2020 and *(b)* halving it by 2010; and if he will make a statement. [216577]

Yvette Cooper: Tackling disadvantage is one of the five key aims for the Office of the Deputy Prime Minister. Achieving government child poverty targets is an important part of this work.

The Office of the Deputy Prime Minister has made a significant input into the Child Poverty Review, which includes measures to contribute towards the long-term goal of halving and eradicating child poverty, including:

a 50 per cent. increase in the rate of social house building by 2008 providing 10 000 extra dwellings per year as outlined in "Sustainable Communities: Homes For All" to help achieve the target to halve the number of households living in Temporary accommodation by 2010;

increasing investment in homelessness prevention;

Providing £1.7 billion per year through the Supporting People (SP) programme to help vulnerable people sustain independent living including teenage parents or women fleeing from domestic violence, with benefit to their children;

a £1.2 billion market renewal programme up to 2008;

a new PS A target: by 2010, to bring all social housing into a decent condition.

Progress

The proportion of vulnerable households—including families with children—living in decent homes in the private sector, increased from 57 per cent. in 2001 to 63 per cent. in 2003. New data from English Housing Condition Survey confirms the Office of the Deputy Prime Minister is ahead of expected progress towards its PSA target for the private sector.

We have succeeded in ending the scandal of homeless families having to raise their children for long periods in cramped B&B hotels. There were 96 per cent. fewer families with children living long-term in B&B hotels in September 2004 than in March 2002.

The Housing Act 2004 contains measures aimed at helping the most at risk from poor conditions and irresponsible landlords. Part 1 of the Act contains provisions to replace the housing fitness standard (also one of the criteria of the decent home standard) by an evidence based risk assessment procedure, the Housing Health and Safety Rating System (HHSRS). HHSRS will help focus decisions about housing conditions on the hazards which impact on the health and safety of vulnerable occupants, including children. The measures are likely to be implemented this autumn.

The Housing Act also enables us to amend the statutory overcrowding standards through secondary legislation. The Office of the Deputy Prime Minister intends to consult on this.

Departmental Policies

Mr. Hoyle: To ask the Deputy Prime Minister if he will set out with statistical information relating as closely as possible to Chorley constituency the effects of his actions and policies on Chorley since 1997. [216407]

Yvette Cooper: Along with other Government Departments, the Office of the Deputy Prime Minister is committed to improving the lives of people across the whole of the UK. For example, the Office of the Deputy Prime Minister is determined that everyone should have the opportunity to have a decent home, and since 1997 we have reduced the number of non-decent homes nationally by one million.

In the local government finance settlements since 1997–98, the Office of the Deputy Prime Minister has been able to increase the amount of Government grant given to local authorities by £22.6 billion. This is a 33 per cent. increase in real terms. Since 1997–98 Chorley has received an average annual increase in formula grant of 4.4 per cent.

The Neighbourhood Statistics Service provides a wide range of statistical information at parliamentary constituency level, taken from the 2001 census and other sources. This service is available on the National Statistics website at http://neighbourhood.statistics.gov.uk/.

Mr. Sedgemore: To ask the Deputy Prime Minister if he will set out, with statistical information relating as directly as possible to Haltemprice and Howden constituency, the effects on Haltemprice and Howden of his Department's policies and actions since 2 May 1997. [216015]

Yvette Cooper: Along with other Government Departments, the Office of the Deputy Prime Minister is committed to improving the lives of people across the whole of the UK. For example, the Office of the Deputy Prime Minister is determined that everyone should have the opportunity to have a decent home, and since, 1997 we have reduced the number of non-decent homes nationally by one million.

In the local government finance settlements since 1997–98, the Office of the Deputy Prime Minister has been able to increase the amount of Government grant given to local authorities by £22.6 billion. This is a 33 per cent. increase in real terms. Since 1997–98 East Riding of Yorkshire has received an average annual increase in Formula Grant of 5.4 per cent.

The Neighbourhood Statistics Service provides a wide range of statistical information at parliamentary constituency level, taken from the 2001 census and other sources. This service is available on the National Statistics website at http://neighbourhood.statistics.gov.uk/.

Mr. Sheerman: To ask the Deputy Prime Minister if he will set out, with statistical information relating as directly as possible to Huddersfield constituency, the effects on Huddersfield of his Department's policies and actions since 2 May 1997. [216871]

Yvette Cooper: Along with other Government Departments, the Office of the Deputy Prime Minister is committed to improving the lives of people across the whole of the UK. For example, the Office of the Deputy Prime Minister is determined that everyone should have the opportunity to have a decent home, and since 1997 we have reduced the number of non-decent homes nationally by one million.

In the local government finance settlements since 1997–98 the Office of the Deputy Prime Minister has been able to increase the amount of Government grant given to local authorities by £22.6 billion. This is a 33 per

cent. increase in real terms. Since 1997–98 Kirklees has received an average annual increase in formula grant of 4.8 per cent.

The Neighbourhood Statistics Service provides a wide range of statistical information at parliamentary constituency level, taken from the 2001 census and other sources. This service is available on the National Statistics website at http://neighbourhood.statistics.gov.uk/.

Mr. Sedgemore: To ask the Deputy Prime Minister if he will set out, with statistical information relating as directly as possible to the Witney constituency, the effects on Witney of his Department's policies and actions since 2 May 1997. [216014]

Yvette Cooper: Along with other Government Departments, the Office of the Deputy Prime Minister is committed to improving the lives of people across the whole of the UK. For example, the Office of the Deputy Prime Minister is determined that everyone should have the opportunity to have a decent home, and since 1997 we have reduced the number of non-decent homes nationally by one million.

In the local government finance settlements since 1997–98, the Office of the Deputy Prime Minister has been able to increase the amount of Government grant given to local authorities by £22.6 billion. This is a 33 per cent. increase in real terms. Since 1997–98 West Oxfordshire has received an average annual increase in formula grant of 3.2 per cent.

The Neighbourhood Statistics Service provides a wide range of statistical information at parliamentary constituency level, taken from the 2001 census and other sources. This service is available on the National Statistics website at http://neighbourhood.statistics.gov.uk/.

Fire Service

Mr. Hammond: To ask the Deputy Prime Minister what his Department's estimate is of the total procurement cost for the proposed eight new English regional fire control rooms. [216615]

Mr. Raynsford: The current estimate of the procurement cost for the proposed eight new regional control centres for fire and rescue services in England is £5.8 million, up to the time of award of contracts for control centre accommodation and infrastructure services. This includes the involvement of civil servants, secondees from the fire and rescue service, consultants and advisers such as lawyers and property experts in procurement activities, including the development of specifications and tenders. The chosen developers will make a contribution towards the design and other work carried out on their behalf by the project team.

Mr. Hammond: To ask the Deputy Prime Minister what his Department's budget is for each of the next three financial years for providing financial assistance to fire and rescue authorities to enable them to maintain in operation communications and other mobilisation equipment that would otherwise be regarded as obsolete pending the introduction of the new Fire Control and FireLink systems in 2007–08. [216617]

Mr. Raynsford: The Office of the Deputy Prime Minister has already undertaken a programme of work to replace higher risk items of the brigades' existing wide area radio systems, thereby ensuring that they continue to be operationally effective until they can be replaced by the national wide area radio system, Firelink. This will amount to up to £9 million by the end of financial year 2004–05. Funding for the next three financial years will be finalised following further risk assessments and dialogue with fire and rescue authorities about priorities.

Mr. Hammond: To ask the Deputy Prime Minister if he will make an estimate of the expected net changes in costs to fire authorities in England and Wales as a result of the implementation of the integrated risk management plans *(a)* approved by him last year and *(b)* submitted to him for approval this year. [216619]

Mr. Raynsford: Under Integrated Risk Management Planning (IRMP) it is for each Fire and Rescue Authority to carry out a full risk assessment of its area and decide on the appropriate levels of provision and response times. Any cost savings will reflect those decisions. I am, however, satisfied that Fire and Rescue Authorities are making good progress in realising savings through IRMP. I have been assured by the Local Government Association and the Fire and Rescue Authorities that sufficient efficiencies will be delivered for 2006–07 to repay the £30 million transitional funding. For that reason the Government have agreed to defer recouping the £30 million until 2006–07.

Parliamentary Boundaries

Mrs. Spelman: To ask the Deputy Prime Minister pursuant to the answer of 7 February 2005, *Official Report*, column 1294W, on parliamentary boundaries, on what date he intends to lay the Order implementing the changes. [216653]

Mr. Raynsford: The Office of the Deputy Prime Minister is currently arranging the printing of the report together with a draft Order and will lay them before Parliament as soon as may be.

Publicity

Mr. Laws: To ask the Deputy Prime Minister what the total expenditure by his Department on *(a)* advertising and *(b)* advertising and publicity was in (i) 1996–97, (ii) 1997–98 and (iii) 2003–04; and what the estimated cost of each will be in (A) 2004–05, (B) 2005–06, (C) 2006–07 and (D) 2007–08. [211559]

Yvette Cooper: The Office of the Deputy Prime Minister was created on 29 May 2002. In the financial year 2003–04 the Office of the Deputy Prime Minister spent £3.4 million on centrally procured advertising and £10.7 million on advertising and publicity. The estimated cost for 2004–05 for advertising is £4.9 million and £12.6 million for advertising and publicity. The largest part of this has been for fire safety advertising campaigns.

Budgets for 2005–06 and beyond have yet to be estimated.

Renewable Energy (Business Rates)

Mr. Peter Ainsworth: To ask the Deputy Prime Minister what representations he has received, and when, regarding the impact of changes to the calculation of business rates on the renewable energy sector; and if he will make a statement. [216668]

Mr. Raynsford: The Office of the Deputy Prime Minister received representations on this issue from the Friends of the Earth and the World Wildlife Fund in December 2004 and from the Renewable Power Association in February 2005.

Rent Harmonisation

Mr. Hammond: To ask the Deputy Prime Minister if he will estimate the additional rent revenue forgone as a result of the decision to postpone rent harmonisation measures between council and housing association tenants until the end of 2005. [216610]

Keith Hill: No decisions have yet been made on the implementation of the proposals arising from the three-year review of rent restructuring. However, had we implemented the measures as consulted upon, the additional rent raised by councils in England during 2005–06 would have been approximately £70 million.

Telecommunications Masts

Mr. Hoyle: To ask the Deputy Prime Minister (1) what the grounds are on which a planning inspector may refuse permission for a telephone mast; [216556]

(2) under what criteria a planning application for a telephone mast can be refused. [216885]

Yvette Cooper: Planning applications will be decided by the local planning authority (or the Secretary of State, my right hon. Friend the Deputy Prime Minister on appeal) in the light of development plan policies and any other material considerations, including any relevant representations either for or against the proposal.

Material considerations in planning decisions must be genuine planning considerations, i.e. they must be related to the purpose of planning legislation, which is to regulate the development and use of land in the public interest. The considerations must also fairly and reasonably relate to the application concerned. Whether a particular consideration is material in any given case will depend on the circumstances. The courts are the arbiters of what constitutes a material consideration.

The courts have also held that the Government's statements of planning policy are material considerations which must be taken into account, where relevant, in decisions on planning applications.

Mr. Hoyle: To ask the Deputy Prime Minister whether he is able to call in a planning consent where the reasons for refusal of a planning application for a telephone mast have been contravened. [216886]

Yvette Cooper: The Planning and Compulsory Purchase Act 2004 contains powers to enable a local planning authority to refuse to accept a repeat application where it has refused a substantially similar application and there has been no appeal against refusal to the Secretary of State, my right hon. Friend the Deputy Prime Minister. These will be brought into effect by a Commencement Order within the next few months.

These provisions are designed to give local authorities discretionary powers to prevent developers submitting repetitive applications for undesirable projects in an attempt to wear down resistance. Local planning authorities should consider repeat planning applications where they are satisfied that a genuine attempt has been made to overcome the planning objections which led to rejection of the proposal on appeal.

FOREIGN AND COMMONWEALTH AFFAIRS

Afghanistan

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the *(a)* projects and *(b)* measures in progress (i) to end the production of opium and (ii) to substitute the production of opium with a sustainable agricultural sector in Afghanistan; and if he will make a statement. [216707]

Mr. Rammell: The UK, as lead nation, is committed to supporting the Afghan Government in the implementation of their comprehensive National Drug Control Strategy and, in particular, the 1384 (2005) Counter Narcotics Implementation Plan. President Karzai launched the plan during the visit of my right hon. Friend the Foreign Secretary to Kabul on 16 February. The eight pillars of the plan include the development of the criminal justice system, the creation of alternative livelihoods for farmers and strengthening interdiction and law enforcement measures. The UK and its international partners are supporting many projects across all of these strands. It is too early to make an assessment of cultivation in 2005 but due to a number of factors there may be reduced planting this year.

I also refer the hon. Member to the written statement I made on Afghanistan: Counter Narcotics on 29 November 2004, *Official Report*, columns 17–18WS; I hope to make a further statement shortly.

Since then, we have increased our efforts on alternative livelihoods for poppy growers to $50 million this year, bringing to $100 million the amount the UK is spending this year on counter narcotics activity in Afghanistan.

The creation of alternative livelihood opportunities and an effective agricultural sector is crucial both for counter narcotics efforts and for Afghanistan's longer-term development. An estimated 80 per cent. of the country's labour force are employed in the agricultural sector, though individuals' livelihoods strategies are often complex and may involve a number of different types of income generating activity. Action to develop licit alternative rural livelihoods must take place on many levels and include both long-term development and short-term measures.

However, rural development assistance is provided to all provinces across Afghanistan through national programmes managed by the Ministry for Reconstruction and Rural Development (MRRD), funded from the national development budget (and, soon, the new Counter Narcotics Trust Fund) and supported by the international community. Each programme focuses on redeveloping the infrastructure and underlying conditions necessary for growth, the development of an effective agricultural sector and viable licit alternatives to poppy cultivation.

Short-term seed delivery programmes are being implemented by donors, such as the Food and Agriculture Organisation. The World Bank recently committed US$75 million for quick disbursing activities on alternative livelihoods and is currently developing an accelerated integrated rural development programme.

Correspondence

Sarah Teather: To ask the Secretary of State for Foreign and Commonwealth Affairs when he will reply to the letters dated 3 August and 20 October 2004 from the hon. Member for Brent East regarding Mr. John Bennett. [215632]

Mr. Rammell: I replied on 18 February.

EU Committees

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the (i) EEC-Ukraine Co-operation Committee, (ii) EC-Tunisia Association Committee and (iii) EC-Morocco Association Committee met; when and where each meeting took place; what UK Government expert was present at each meeting; and if he will make a statement. [216724]

Mr. MacShane: During this period, the EU-Ukraine Co-operation Committee met on 11 December 2003 in Kiev. There was no UK representative at this meeting, although the UK did participate fully in formulating the EU's position for the meeting. The EU-Tunisia Association Committee met on 18 November 2004 in Brussels and the EU-Morocco Association Committee met on 21 October 2003 in Rabat. The UK was represented at both meetings by Foreign and Commonwealth Office officials.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Joint Committee (EC-Palestinian Authority) met; when and where these meetings took place; which UK Government expert was present; and if he will make a statement. [217250]

Mr. MacShane: No meetings of the EC-Palestinian Joint Committee took place during the Italian, Irish and Dutch presidencies.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the EC-Egypt Association Committee met; when and where these meetings took place; which UK Government expert was present; and if he will make a statement. [217251]

Mr. MacShane: The EU-Egypt Association Agreement was ratified on 1 June 2004. No date has been set yet for the first meeting of the EC-Egypt Association Committee.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the ECC-Israel Association Committee met; when and where these meetings took place; which UK Government expert was present; and if he will make a statement. [217252]

Mr. MacShane: During this period, the EU-Israel Association Committee met on 9 July 2003 in Brussels. The UK was represented by an official from the Foreign and Commonwealth Office.

EU Opt-Outs

Mr. Hayes: To ask the Secretary of State for Foreign and Commonwealth Affairs on which occasions since May 1997 the Government has opted into European Communities policy areas for which it previously enjoyed an opt-out. [216448]

Mr. MacShane: The UK's Title IV (TEC) opt-in protocol allows the Government to choose which measures it will participate in under asylum, immigration and visa policies, and free movement of persons.

I refer the hon. Member to the answer given on 29 June 2004, *Official Report*, columns 203–05W, to the right hon. Member for Wells (Mr. Heathcoat-Amory) by my hon. Friend the Minister of State at the Home Office (Mr. Browne) for a list of measures the UK has opted into.

European Constitution

Mr. Hayes: To ask the Secretary of State for Foreign and Commonwealth Affairs which declarations drafted by the United Kingdom were appended to the European Constitution; and what legal status they will have should the Constitution be ratified. [216449]

Mr. MacShane: I refer the hon. Member to the commentary on the treaty establishing a Constitution for Europe (Command Paper 6459) (available in the Vote Office and at www.europe.gov.uk) which sets out all the declarations made in relation to the treaty and describes their status.

Mr. Hayes: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list those amendments submitted to the Convention on the Future of Europe by the UK Government representative which *(a)* appeared and *(b)* did not appear in (i) the final Convention text of the Constitution and (ii) the final text of the Constitution as agreed by member state Governments. [216450]

Mr. MacShane: I refer the hon. Member to the reply I gave him on 13 January 2005, *Official Report*, column 638W. The analysis of the EU constitutional treaty

referred to in that answer has now been published as the commentary on the treaty establishing a Constitution for Europe and is available at www.europe.gov.uk.

Hong Kong

Mr. Hoyle: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on *(a)* free and open elections and *(b)* the future of democracy in Hong Kong. [216888]

Mr. Rammell: The Government supports democracy throughout the world as the best means of creating stable, accountable and transparent government, of protecting rights and freedoms, and of upholding the rule of law.

The ultimate aim of the Basic Law of the Hong Kong Special Administrative Region (SAR) is a Chief Executive and Legislative Council elected by universal suffrage. We have always favoured early progress to this end at a pace in line with the wishes of the people of Hong Kong. We hope that the Hong Kong SAR Government will take full account of the wishes of the people of Hong Kong.

Mr. Hoyle: To ask the Secretary of State for Foreign and Commonwealth Affairs when Ministers last visited Hong Kong; when Ministers last discussed Hong Kong with the Chinese Government; and what issues were discussed. [216890]

Mr. Rammell: There is a regular flow of high level visits between the UK and Hong Kong. I visited Hong Kong in October 2004. My right hon. Friends the Secretaries of State for Trade and Industry (Ms Hewitt), Environment, Food and Rural Affairs (Margaret Beckett), the Leader of the House of Commons (Mr. Hain), my hon. Friend the Minister of State for Environment, Food and Rural Affairs (Mr. Morley) and my right hon. Friend the Minister of State for Home Affairs (Baroness Scotland) all visited Hong Kong last year.

My right hon. Friend the Foreign Secretary visited China in January. He discussed Hong Kong's constitutional reform and progress towards universal suffrage with Premier Wen Jiabao and Foreign Minister, Li Zhaoxing. I also raised these issues when I visited China in July last year. During my right hon. Friend the Prime Minister's talks with the Chinese Premier Wen Jiabao on 20 May 2004, both Governments reaffirmed their commitment to the implementation of the Joint Declaration and agreed to continue exchanges of view on the issue.

Mr. Hoyle: To ask the Secretary of State for Foreign and Commonwealth Affairs what the total estimated value of assets transferred to China was on the handover of Hong Kong. [216891]

Mr. Rammell: I refer my hon. Friend to the reply I gave to him on 10 March 2004, *Official Report*, column 1530W.

Human Rights/Freedom of Worship

Mr. Soley: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Government of *(a)* China and *(b)* Vietnam on (i) human rights and (ii) freedom of religious worship; and if he will make a statement. [216609]

Mr. Rammell: The information is as follows:

China

My right hon. Friend the Foreign Secretary raised human rights with Premier Wen Jiabao and Foreign Minister Li Zhaoxing during his trip to China in January. He raised progress on the ratification of the International Covenant on Civil and Political Rights. He raised the case of the Tibetan monk Tenzin Deleg Rinpoche. The case of Pastor Zhang Rongliang was also discussed.

I raised human rights issues during my last visit to China in October 2004.

Vietnam

We regularly discuss human rights issues with the Vietnamese Government. We raise our concerns at every possible opportunity, both bilaterally and with our EU partners.

We have an increasingly open dialogue with the Vietnam Government on a range of human rights concerns. The EU-Vietnam Death Penalty Seminar that took place in Hanoi on 24–26 November 2004 is an example of increasing Vietnamese willingness to discuss human rights issues.

We also participate in regular EU-Vietnam Dialogue meetings on human rights issues, the latest of which was held on 17 December and attended by our ambassador in Hanoi. Freedom of religion, restrictions on religious organisations, the situation of Protestant groups, and fair trial procedures were among the concerns raised by the EU side. On 28 January the Vietnamese released four prisoners of conscience, who were among the EU's List of Prisoners of Concern, as part of a wider amnesty.

We will continue to press the Vietnamese and Chinese Governments to adhere to their international human rights obligations at every suitable opportunity.

Kenya

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the implications of the resignation of John Githongo as head of Kenya's anti-corruption team. [217186]

Mr. Mullin: We regret the resignation of the Permanent Secretary in the Office of Governance and Ethics on 7 February. John Githongo is a person of integrity, courage and principle intensely committed to fighting corruption.

It is too soon to judge the full implications of his resignation, but the international community has expressed its serious concerns at the impact upon the Kenyan Government's anti-corruption work.

We continue to encourage the Kenyan Government to give its full and undivided support to the country's anti-corruption institutions.

Macedonia

Mr. Hayes: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement

of the inclusion of Title 8710, tanks and other armoured fighting vehicles and parts, in the Communities/ Macedonia Protocol set out in Official Journal L388 volume 47 of 29 December 2004. [216446]

Mr. MacShane: The inclusion of Title 8710, tanks and other armoured fighting vehicles and parts in the Communities/Macedonia Protocol set out in Official Journal L388 volume 47 of 29 December 2004 has no particular significance. Protocols of this nature are based on the internationally agreed system of classification known as the Harmonized Commodity Description and Coding System of the Customs Co-operation Council.

This nomenclature provides a systematic classification for all goods in international trade.

Nepal

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what proportion of Global Conflict Prevention Pool allocations to Nepal in the last three year has been spent on aircraft; [217319]

(2) what proportion of the Global Conflict Prevention Pool since its inception has gone on direct assistance to the Nepalese army. [217322]

Mr. Alexander *[holding answer 21 February 2005]:* We have requested figures from the Ministry of Defence to allow us to reply on the points raised in this question. I will write to my hon. Friend with this information once it has been received.

Shipping Lines

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what his Department's spending was in each of the last two years with the shipping lines *(a)* P&O, *(b)* Nippin Yusen Kaisha, *(c)* Mitsui Osaka Shosen Kaisha, *(d)* Orient Overseas Container Line and *(e)* Mediterranean Shipping Corporation. [217317]

Mr. Rammell: All shipping is arranged by contractors. Foreign and Commonwealth Office Services does not have any direct expenditure with the shipping lines cited. Identifiable expenditure for calendar years 2003–04 is shown in the following table. Substantial value is not attributable as much freight moves as part of consolidated loads. It is not possible to segregate the annual expenditure.

	£
(a) P&O	95,248.06
(b) Nippin Yusen Kaisha	0
(c) Mitsui Osaka Shosen Kaisha	0
(d) Orient Overseas Container Line	2,461.62
(e) Mediterranean Shipping Corporation	41,973.51

Taiwan

Mr. Hood: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of Taiwan's trade relationship with China; and if he will make a statement. [217138]

Mr. Rammell: Taiwan and mainland China are important trading partners. Collectively mainland China and Hong Kong are Taiwan's leading trading partner (24 per cent. of total trade) followed by Japan (16.6 per cent.) and the US (14.6 per cent.). Taiwan's exports to Hong Kong and mainland China for January to November 2004 were US$58.6 billion (up 30.8 per cent. on the corresponding period of 2003). Taiwan's imports from Hong Kong and mainland China for January to November 2004 were US$16.8 billion (up 49.4 per cent. on the corresponding period of 2003).

Uganda

Mr. Simmonds: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he intends to *(a)* develop a relationship with the Ugandan opposition party the Forum for Democratic Change (FDC) and *(b)* meet the FDC leader Mr. Kizza Besigye. [216915]

Mr. Mullin: Foreign and Commonwealth Office officials in London and Kampala are in regular contact with the FDC leadership and already have a productive working relationship.

I met current members of FDC during my visit to Uganda last year. Their recently-elected interim chairman, Kizza Besigye, is currently in exile in South Africa. I have not yet had an opportunity to meet him.

Mr. Simmonds: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the attempt by the President of Uganda to amend the Ugandan Constitution in order to secure a further term of office. [216917]

Mr. Mullin: I raised this with President Museveni during my visit to Uganda in August and expressed concern at the direction of Uganda's political transition process.

We continue to urge the Government of Uganda to ensure that political change follows the constitution, respects the rule of law and institutions of governance, and is free from physical intimidation or manipulation.

Mr. Simmonds: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on progress towards a pluralistic civil society in Uganda. [217076]

Mr. Mullin: Progress towards pluralism in Uganda has been slow. I raised our concerns with President Museveni during my visit to Uganda in August and stressed that the process of political change needs to carry the confidence of the Ugandan people and Parliament.

We continue to urge the Government of Uganda to ensure that the process of transition follows the constitution, respects the rule of law and institutions of governance, and is free from physical intimidation or manipulation.

US Foreign Policy

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans his

Department has made to "assist those seeking to liberate themselves from tyranny and to build democracy" as requested by the US Secretary of State on 8 February; and if he will make a statement. [216326]

Mr. Rammell: The promotion of democracy, alongside human rights, the rule of law and good governance is a thread which runs through all of the Government's foreign policy. These issues are mainstreamed throughout everything the Foreign and Commonwealth Office (FCO) does. At the strategic level, this is highlighted by two of the FCO's eight strategic priorities aiming to support the development of democracy and the rule of law (Strategic Priority 3: An international system based on the rule of law, which is better able to resolve disputes and prevent conflicts; and Strategic Priority 6: Sustainable Development, underpinned by democracy, good governance and human rights).

At an operational level we adapt our approach on these issues to reflect the situation in the countries in which we work. This might range from; what might be considered traditional diplomatic measures (e.g. advocacy; resolutions in international fora; or sanctions); it may mean technical capacity building to support an emerging democratic culture in a country with no history of participatory government; or it may mean working in partnership with more established democracies to reinforce democracy in third countries, or to improve transparency and accountability throughout the international system. We also promote democracy, human rights, the rule of law and good governance in international fora, and press countries to adhere to the commitments they've signed up to in these bodies.

CONSTITUTIONAL AFFAIRS

Character Evidence

Vera Baird: To ask the Parliamentary Secretary, Department for Constitutional Affairs on how many occasions bad character evidence of a defendant has been allowed in evidence since the coming into force of section 101 of the Criminal Justice Act 2003; and on how many of these occasions bad character evidence has been allowed in evidence following a decision of the court. [216790]

Mr. Lammy: The information requested is not held centrally.

Electoral Registration

Mr. Brady: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many people have opted for inclusion in the edited register of electors; and what percentage this is of all electors in the United Kingdom. [216933]

Mr. Lammy: The Representation of the People Regulations 2002 provide that electors may opt out of the edited version of the register of electors if they do not want their details to be sold to anyone for any purpose. According to statistics provided by the Credit Reference Agencies 29.29 per cent. of eligible electors (representing 13,099,264 people) opted out of inclusion in the edited version of the register compiled in 2004. The official figures in respect of the number of electors included in the full version of the register on 1 December 2004 is due to be published by the Office for National Statistics on 24 February 2005.

Mr. Robathan: To ask the Parliamentary Secretary, Department for Constitutional Affairs what estimate he has made of the number of letters electoral registration officers sent to *(a)* service personnel and *(b)* spouses of service personnel in the last year for which figures are available; and what method of distribution is employed for such letters to military bases. [216358]

Mr. Lammy: This information is not collected centrally. Service personnel and their spouses may register either by way of a service declaration or as ordinary (or overseas) electors. There is no way of distinguishing between the latter and other electors. Royal Mail deliver letters to military bases in the UK. Bases overseas (and HM Ships) are allocated a British Forces Postal Service (BFPO) number. Letters with a BFPO address are posted in the normal way and delivered by the Royal Mail to BFPO Mill Hill London where they are forwarded under arrangements by the Defence Postal and Courier Service to the BFPO address.

Mr. Robathan: To ask the Parliamentary Secretary, Department for Constitutional Affairs what records are kept of letters sent by electoral registration officers to service personnel. [216359]

Mr. Lammy: This information is not collected centrally. Service personnel and their spouses may register either by way of a service declaration or as ordinary (or overseas) electors. There is no way of distinguishing between the latter and other electors. Electoral registration officers will usually keep locally records of registration, renewal letters and reminders to renewal letters posted to those personnel who are registered as service voters.

Mr. Robathan: To ask the Parliamentary Secretary, Department for Constitutional Affairs what procedures electoral registration officers use to contact service personnel serving overseas. [216360]

Mr. Lammy: Electoral registration officers (EROs) will write to whichever address has been supplied to them by the individuals concerned. If service personnel overseas have registered using a British Forces Post Office (BFPO) address, electoral registration officers would send letters to BFPO Mill Hill London by the Royal Mail where they would be forwarded under arrangements by the Defence Postal and Courier Service to the BFPO address.

Mr. Robathan: To ask the Parliamentary Secretary, Department for Constitutional Affairs how often electoral registration officers are required to contact overseas service personnel about their electoral registration obligation. [216361]

Mr. Lammy: Regulation 25(2) of the Representation of the People (England and Wales) Regulations 2001 requires electoral registration officers to send annually a written reminder to service personnel who are registered by way of a service declaration, whether in the UK or overseas, of the need to make a fresh declaration if they

wish to remain registered under this method. The reminder is sent to the address at which such personnel are recorded as being most recently resident.

SCOTLAND

Civil Servants

Mr. Laws: To ask the Secretary of State for Scotland what the cost of the enhanced early retirement scheme for civil servants in his Department was in each year from 1997–98 to 2003–04 and what the estimated cost will be in each year from 2004–05 to 2007–08; and if he will make a statement. [211647]

Mrs. McGuire: The Scotland Office was established on 1 July 1999. All staff in the Office are on loan from other Government Departments or other bodies, who remain their employer. The Office has incurred no costs, to date, in relation to the enhanced early retirement scheme. Any future costs would be met by the individual's employer.

Cleaning

Mr. George Osborne: To ask the Secretary of State for Scotland what the costs of cleaning the Department were in each year since it was established. [213729]

Mrs. McGuire: The Scotland Office was established on 1 July 1999. The Office shares accommodation with the Office of the Advocate-General for Scotland (OAG) and it is not possible to separate all expenditure between the Offices. Since 1 July 1999, direct expenditure on cleaning for the Scotland Office and OAG was:

	£
1999–2000[1]	35,199
2000–01	42,145
2001–02	37,753
2002–03	43,732
2003–04	46,663

[1] Part year

Departmental Costs

Mr. George Osborne: To ask the Secretary of State for Scotland how much has been spent on official Ministerial *(a)* business cards, *(b)* headed paper and *(c)* compliment slips in each year since 1997. [214959]

Mrs. McGuire: The Scotland Office was established on 1 July 1999. The Office provides a number of services to the Office of the Advocate-General for Scotland and it is not possible to separate all expenditure between both Offices. Since 1 July 1999, expenditure by Scotland Office Ministers and the Advocate-General for Scotland was as follows:

	£
Scotland Office/OAG	
Business cards	
1999–2000[1]	273
2000–01	219
2001–02	128
2002–03	0
Headed paper	
1999–2000[1]	381
2000–01	1,287
2001–02	625
2002–03	858
Compliment slips	
1999–2000[1]	80
2000–01	0
2001–02	148
2002–03	216

[1] Part year

	£	
	Scotland Office	*OAG*
2003–04	0	0
2003–04	110	189
2003–04	0	62

[1] Part year

Mr. George Osborne: To ask the Secretary of State for Scotland how much has been spent on postage by the Department in each year since it was established. [215027]

Mrs. McGuire: The Scotland Office was established on 1 July 1999. The Office provides a number of services to the Office of the Advocate-General for Scotland and it is not possible to separate all expenditure between both Offices. Since 1 July 1999, both Offices have spent the following on postage:

	£
1999–2000[1]	1,466
2000–01	8,660
2001–02	10,068
2002–03	12,874
2003–04	12,913

[1] Part year

Departmental Expenditure

Mr. George Osborne: To ask the Secretary of State for Scotland how many overseas trips, and at what total cost, have been made by his Department in each year since 1997; and what the costs of *(a)* flights, *(b)* internal travel, *(c)* hotel accommodation and *(d)* subsistence were of each trip. [206656]

Mrs. McGuire: The Scotland Office was established on 1 July 1999. This information sought is not held in the form requested.

All travel and subsistence is conducted in accordance with the requirements of the Ministerial Code, Travel by Ministers and the Civil Service Management Code.

Information relating to overseas travel by Ministers is published on an annual basis. Information for the period 1 July 1999 to 31 March 2004 is available in the Library of the House. Information for the financial year 2004–05 will be published as soon as possible at the end of the current financial year.

Official Residences

Chris Grayling: To ask the Secretary of State for Scotland if he will list the official residences for which his

Department is responsible; who occupies each one; what the annual cost is of running each property; what contribution the current occupants make towards the running costs of each; what the total capital and refurbishment expenditure has been on those properties in each of the past five years; how much money was spent in each property on *(a)* flowers and plants, *(b)* wine and entertaining, *(c)* food, *(d)* telephone bills and *(e)* electricity and gas in 2003–04; how many (i) domestic and (ii) maintenance staff are employed at each property, broken down by post; and what the total cost of staff employment at each was in 2003–04. [213606]

Mrs. McGuire: The Scotland Office is not responsible for any official residencies.

Parking

Mr. George Osborne: To ask the Secretary of State for Scotland how much has been spent on *(a)* provision of parking spaces for civil servants and *(b)* parking tickets and penalties incurred by civil servants in the Department in each year since it was established. [213744]

Mrs. McGuire: The Scotland Office was established on 1 July 1999. Since that date, the Office has incurred no expenditure on parking ticket penalties for civil servants. The Office pays £5,250 per year for car parking spaces as part of the rental for its offices in Edinburgh.

Queen's Flight

Chris Grayling: To ask the Secretary of State for Scotland on how many occasions departmental Ministers have used the Queen's Flight in each of the past five years. [213445]

Mrs. McGuire: The Scotland Office was established on 1 July 1999. Since that date, no Scotland Office Minister has used the Queen's Flight.

Staff Training

Mr. George Osborne: To ask the Secretary of State for Scotland what the costs of departmental *(a)* staff training days and *(b)* staff development days held away from the Department were in each year since 1997. [213785]

Mrs. McGuire: The Scotland Office was established on 1 July 1999. Most of its staff are on loan from the Scottish Executive or the Department for Constitutional Affairs who continue to provide access to training and development opportunities. The Scotland Office does not hold information in the form requested; however, the total direct expenditure on training was:

	£
1999–2000[1]	7,539
2000–01	14,695
2001–02	12,570
2002–03	25,202
2003–04	23,483

[1] Part year

Stationery

Mr. George Osborne: To ask the Secretary of State for Scotland how much the Department and its predecessors spent on *(a)* stationery and *(b)* office supplies in each year since it was established. [213856]

Mrs. McGuire: The Scotland Office was established on 1 July 1999. The Office provides a number of services, including stationery and office supplies, to the Office of the Advocate-General for Scotland (OAG). Prior to 2003–04, expenditure by OAG was not held separately.

Since July 1999, the Scotland Office (SO) and OAG have spent the following on stationery and office supplies:

	£
SO and OAG	
1999–00[1]	22,207
2000–01	25,270
2001–02	24,478
2002–03	25,294
2003–04	
SO	16,858
OAG	5,485

[1] Part year

DEFENCE

Aircraft Carriers

Mr. Robathan: To ask the Secretary of State for Defence what responsibilities have been accorded to each of the alliance members in the future aircraft carrier programme. [216073]

Mr. Ingram *[holding answer 21 February 2005]*: Discussions continue on the responsibilities of the alliance participants, which are being developed progressively and will be detailed in the final alliance agreement. This will be completed prior to the main investment decision, which we currently anticipate taking place in the latter half of 2005.

Allied Rapid Reaction Corps

Mr. Soames: To ask the Secretary of State for Defence how many British troops are declared to the Allied Rapid Reaction Corps. [216496]

Mr. Ingram: The United Kingdom contributes 226 members of staff to Headquarters Allied Rapid Reaction Corps (HQ ARRC), out of a total of 449. The UK's 1 Signal Brigade is also dedicated to HQ ARRC to provide support, and consists of seven and 16 signal regiments and the ARRC Support Battalion; a total of 1,650 personnel. For an operational deployment, the ARRC may draw on forces from the UK and other NATO nations as required by the mission.

Asian Tsunami

Mr. Hammond: To ask the Secretary of State for Defence what the cost would have been of providing an

RAF flight to repatriate to the United Kingdom bodies of British citizens who lost their lives in the tsunami in Thailand. [216534]

Mr. Ingram: The Ministry of Defence has not provided a repatriation service for tsunami victims and given the large number of possible variables, cannot estimate what the cost would have been had it done so. Families wish their loved-ones to be returned to them as soon as possible. The quickest and most efficient way of meeting the families' wishes is through the use of commercial airline operators.

Atomic Weapons Establishment

Alan Simpson: To ask the Secretary of State for Defence how many visits there have been to the US by personnel from the Atomic Weapons Establishments during the last 12 months; and how many visits of US personnel to the AWE there have been during that time. [216675]

Mr. Ingram: There have been 180 visits to the United States by personnel from the Atomic Weapons Establishment during the 12 months ending January 2005. In the same period there were 128 visits by US personnel to the Atomic Weapons Establishment.

Alan Simpson: To ask the Secretary of State for Defence which facilities in the US have been visited by personnel from the Atomic Weapons Establishments during the last 12 months. [216676]

Mr. Ingram: Atomic Weapons Establishments personnel visited 29 facilities in the United States during the 12 months ending January 2005. These were:

National Nuclear Security Administration
Lawrence Livermore National Laboratory
Sandia National Laboratories Livermore
Los Alamos National Laboratory
Honeywell Kansas City Plant
Sandia National Laboratories Albuquerque
NWSC Seal Beach
Savannah River Site
Y-12, Oak Ridge
Pantex
Titan Corp.
Mission Research Corporation
Brookhaven
Laser Technology Inc.
ITT Colorado
ITT Washington
Defense Threat Reduction Agency
Lockheed Martin Missiles and Space
Air Force Research Laboratory
Visidyne
Nevada Test Site
Naval Research Laboratory
ITT Crystal City
New York Port Authority
LLE Rochester
Washington Group International, Princeton
New Brunswick Laboratory
Manufacturing Sciences Corp., Oak Ridge
Remote Sensing Laboratory

Alan Simpson: To ask the Secretary of State for Defence how many Atomic Weapons Establishment personnel are assigned to the US as part of the 1958 Mutual Defence Agreement; and where they are located. [216677]

Mr. Ingram: Numbers of the United Kingdom personnel stationed in the United States under the auspices of the 1958 MDA vary in line with operational and other requirements. There are currently no such assignments of personnel from the Atomic Weapons Establishment.

BAE Systems (Contracts)

Mr. John Smith: To ask the Secretary of State for Defence what the value was of the Joint Repair Management Team contract awarded to BAE Systems in January 2003 at RAF Cottesmore. [217383]

Mr. Ingram: £570,000.

Mr. John Smith: To ask the Secretary of State for Defence what the value is of the Joint Repair Organisation contract awarded to BAE Systems in June 2004 at RAF Cottesmore. [217384]

Mr. Ingram: £17 million.

Catering Costs

Mr. George Osborne: To ask the Secretary of State for Defence how much has been spent on *(a)* entertainment lunches involving civil servants and guests and *(b)* working lunches, in each year since 1997. [215047]

Mr. Caplin: Working lunches have to be specifically approved in advance by a budget holder against a clear business need and in strict accordance with departmental instructions. The cost of such lunches are not however recorded separately on the Department's financial systems and could be provided only at disproportionate cost.

Chelsea Barracks

Mr. Soames: To ask the Secretary of State for Defence what his plans are for the future of Chelsea Barracks. [216111]

Mr. Caplin: There is a requirement to provide improved accommodation for personnel working in public duties in London. The proposal to redevelop Chelsea Barracks through PFI ended unsuccessfully in August 2004.

Work is now in hand on a number of options to meet the requirement, including the redevelopment of Chelsea. I expect to announce the outcome shortly.

Clothing Contracts

Mr. Hoyle: To ask the Secretary of State for Defence pursuant to the answer of 31 January 2005, *Official Report*, column 729W, on clothing contracts, how many items of battle dress under the cut and sew contract have been delivered by the factory in China including *(a)* printing and *(b)* fabric manufacture; and whether the fabric samples tested for the contract originated from Belgium. [216057]

Mr. Ingram: No deliveries of combat clothing items have yet been made under the Cut & Sew contract. Deliveries are due to commence in late February 2005, as per the contract delivery schedule.

Again I refer my hon. Friend to the answer I gave on 20 December 2004, *Official Report*, column 1372W, the garment tests I previously referred to on 8 December 2004, *Official Report*, column 156WH, related to the testing of fabric samples that were printed and manufactured in China. Under the terms of the contract I cannot specifically comment on sub-contractor details, however, I can confirm that samples provided during the tender process utilised fabric from a variety of sources, both in the UK and overseas.

Defence Aviation Repair Agency

Mr. John Smith: To ask the Secretary of State for Defence whether it is his policy that all Tornado F3 programmes are to be carried out at the Defence Aviation Repair Agency St. Athan. [217160]

Mr. Ingram: Depth support for the Tornado F3 will remain as it is at present split between the Front Line units and DARA St. Athan until the aircraft's Out of Service date.

Mr. John Smith: To ask the Secretary of State for Defence what the estimated cost is of replicating the Defence Aviation Repair Agency St. Athan capability at RAF Marham. [217161]

Mr. Ingram: It is not intended to replicate the DARA St. Athan facilities at RAF Marham, but to provide Depth maintenance facilities to support the Tornado GR4 aircraft fleet.

Defence Management Board

Mr. Keith Simpson: To ask the Secretary of State for Defence (1) if he will place in the Library the Defence Management Board balanced scorecard reports for each quarter since April 2000; [213586]

(2) what the Defence Management Board's *(a)* strategic objectives and *(b)* associated performance measures were for financial years 2001–01 to 2003–04; and what they are for financial year 2004–05. [213585]

Mr. Ingram: The Ministry of Defence's strategic objectives, together with the associated targets and performance measures, are set out in the Department's Public Service Agreements (PSA) for 1999–2002, 2001–04 and 2003–06. These targets are at the core of the Defence Balanced Scorecard. The PSAs are available at www.hm-treasury.gov.uk. Performance against PSA targets is reported formally to Parliament in Departmental Spring and Autumn Performance Reports. For the MOD the Spring Performance Report has usually been incorporated within "The Government's Expenditure Plans", and since 2002–03 the Autumn Performance Report has been incorporated within the Ministry of Defence "Annual Report and Accounts". The Autumn Performance Reports also include detailed reporting against the full range of Defence Balanced Scorecard objectives. All these reports for financial years 2000–01, 2001–02, 2002–03 and 2003–04 should be in the Library of the House, and are also available at www.mod.uk. The MOD's "Government Expenditure Plans for 2005–06 to 2007–08" will be published in the spring. "The Annual Report and Accounts for 2004–05" will be published in the autumn. In addition, in accordance with Treasury requirements, information on PSA performance since the first quarter of 2003–04 has been published quarterly on the Treasury website.

Dentistry

Simon Hughes: To ask the Secretary of State for Defence what the ratio is of military personnel to service dentists; and if he will make a statement. [216424]

Mr. Caplin *[holding answer 21 February 2005]:* The current ratio of military personnel to service dentists is 1012:1.

Departmental Costs

Mr. Wills: To ask the Secretary of State for Defence (1) what estimate the Department has made of the financial effects of the proposed restructuring process between 2008 and 2013; [198989]

(2) what the projected costs between 2008 and 2013 are of the proposed *(a)* heavy (warrior) battalion, with high-tech upgrade, *(b)* medium (FRES battalion, with heavy-lift aircraft capability and *(c)* light (airportable) battalion, with high-tech network-capable upgrade. [198988]

Ann Winterton: To ask the Secretary of State for Defence if he will estimate the projected costs per annum of the proposed new *(a)* heavy (warrior) battalion with high-tech upgrade, *(b)* medium (Future Rapid Effect System) battalion with heavy-lift aircraft capability and *(c)* light (airportable) battalion with high-tech network capable upgrade; and what estimate the Department has made of possible savings from the proposed restructuring process. [201010]

Mr. Ingram: The Ministry of Defence is continually restructuring. Currently this is being taken forward in the context of the Delivering Security in a Changing World: Future Capabilities White Paper, published in July 2004. This set out our requirement for flexible and adaptable Armed Forces supported to carry out the most likely expeditionary operations. In order to better meet these operational requirements we are reducing force levels in certain capabilities in order to invest more in higher priority capabilities. The overall financial effect of the restructuring process will be that we are able to spend more on those capabilities able to deliver the effects we require. That will mean we are able to deploy our resources to optimum effect. Overall, the Spending Review 2004 settlement provided a 3.7 billion increase to the Defence budget. This represents the longest period of sustained real growth in defence spending for over 20 years.

In the Land environment, there will be a shift in emphasis to Light and Medium Weight forces in line with our operational requirement for greater adaptability and flexibility. In order to facilitate this re-balancing there will be a reduction in Heavy Weight capability.

European Multinational Formations

Mr. Hayes: To ask the Secretary of State for Defence if he will list those headquarters units of European multinational formations to which the United Kingdom is not a party to which a liaison officer has been attached since May 1997. [216459]

Mr. Hoon: Since May 1997, of the European multinational formations to which the UK is not a party, and which are outside the NATO command and force structures, only Eurocorps has had a UK liaison officer. As indicated in my reply to the hon. Member of 27 January 2005, *Official Report*, columns 539–40W, there was a UK liaison team with Eurocorps from 2000–04.

Guantanamo Bay

Mr. Hammond: To ask the Secretary of State for Defence what the cost of flying the released British detainees from Guantanamo Bay to the United Kingdom was. [216529]

Mr. Ingram: Costs arising from the use of RAF aircraft to return released British detainees from Guantanamo Bay to the United Kingdom on two occasions amounts to some £170,000 in total.

Harriers GR7

Mr. John Smith: To ask the Secretary of State for Defence whether the conversions and repairs of Harrier GR7 at BAE Warton are on schedule. [217163]

Mr. Ingram: The overall programme remains on schedule for completion by the end of 2005.

Heroes Return Programme

Mr. David Stewart: To ask the Secretary of State for Defence how many individuals have participated in the Heroes Return programme in Inverness East, Nairn and Lochaber; and at what cost. [216578]

Mr. Caplin: The Big Lottery Fund has made a total of 12 grants with a combined value of £17,755. This funding has enabled 30 people from the Inverness East, Nairn and Lochaber constituency to participate in the Heroes Return scheme.

Iraq

Mr. Hancock: To ask the Secretary of State for Defence if he will list the incidents that have led to compensation being paid to Iraqi people in the sector occupied by British forces for *(a)* death, *(b)* injury and *(c)* destruction of property. [216503]

Mr. Ingram: As at 4 February 2005, the Ministry of Defence had paid 245 claims for compensation made by Iraqi civilians as follows:

(a) Death 11 (nine as a result of road traffic accidents; two as a result of accidental shootings)

(b) Personal injury 34

(c) Property damage 200

The papers relating to these claims are not held centrally and therefore it has not been possible to list individual incidents.

Mr. Gray: To ask the Secretary of State for Defence (1) if he will make a statement on the circumstances surrounding the Hercules crash in Iraq; [217158]

(2) when the air accident investigators will complete their work on the Hercules crash in Iraq; and when he will publish it. [217156]

Mr. Soames: To ask the Secretary of State for Defence when he expects to be in a position to make a full statement on the crash of the RAF C-130 Hercules in Iraq on 30 January. [217104]

Mr. Hoon *[holding answer 15 February 2005]:* It would be inappropriate to speculate on the cause of the tragic crash of the Hercules C130K in Iraq on 30 January. The investigation is under way and will consider all the evidence before coming to any conclusion. It is impossible to say how long the investigation will take at this stage; the emphasis must be on exploring every possible avenue to help determine the cause of this crash.

Japan

Mr. Soames: To ask the Secretary of State for Defence if he will make a statement on the *(a)* level and *(b)* nature of military contacts with Japan. [217034]

Mr. Ingram: The UK has an important, and developing, bilateral defence relationship with Japan. My right hon. Friend the Secretary of State has received the Director General (Defence Minister equivalent) of the Japanese Defence Agency for talks in London and has in turn visited Japan. Exchanges take place at Chief of Staff level across all the services. Pol-mil Defence Staff talks are established on a regular cycle, as are single service staff talks. Given the constraints in the Japanese constitution there have been no joint military exercises. However, we have given advice and assistance to Japan in the context of her peace support mission in southern Iraq, where the Japanese contingent works within the framework of MND(SE).

Military Clothing

Mr. Hayes: To ask the Secretary of State for Defence pursuant to the answer of 20 December 2004, *Official Report*, column 1372, on military clothing, for what reason the prime contractor has decided to withhold sub-contractor information. [216607]

Mr. Ingram: In the early stages of establishing its supply chain, the prime contractor wishes to maintain the competitive advantage it has achieved and it considers this information to be commercial in confidence.

The terms of the contract prohibit the Ministry of Defence from disclosing this information without the consent of the prime contractor.

Morson

Mr. John Smith: To ask the Secretary of State for Defence how many personnel Morson have employed at *(a)* RAF Cottesmore and *(b)* RAF Marham; and what work they are undertaking. [217263]

Mr. Ingram: No Morson International staff are employed by the Ministry of Defence at either RAF Cottesmore or RAF Marham.

Mutual Defence Agreement

Alan Simpson: To ask the Secretary of State for Defence if he will list the Joint Working Groups established under the 1958 Mutual Defence Agreement in which personnel from the Atomic Weapons Establishment participate. [216674]

Mr. Ingram: Personnel from the Atomic Weapons Establishment participate in the following Joint Working Groups (JOWOGs) under the 1958 Mutual Defence Agreement:

Radiation Simulation and Kinetic Effects Technology
Energetic Materials
Nuclear Materials
Warhead Electrical Components and Technologies
Non-nuclear Materials
Nuclear Counter Terrorism Technology
Facilities
Nuclear Weapons Engineering
Nuclear Warhead Physics
Computational Technology
Aircraft, Missile and Space System Hardening
Laboratory Plasma Physics
Manufacturing Practices
Nuclear Warhead Accident Response Technology
Nuclear Weapon Code Development
Nuclear Weapon Environment and Damage Effects
Methodologies for Nuclear Weapon Safety Assurance

Alan Simpson: To ask the Secretary of State for Defence when and where in the UK the next Stocktake review meeting under the 1958 UK/US Mutual Defence Agreement is scheduled to take place. [216680]

Mr. Ingram: The date and venue for the next Stocktake meeting has yet to be arranged.

QinetiQ

Mr. Keetch: To ask the Secretary of State for Defence what actions his Department is taking to maximise the return to public funds from the Department's shareholding in QinetiQ. [216879]

Mr. Ingram: A key feature of the original Defence Evaluation and Research Agency Public Private Partnership was to bring in a strategic partner to improve the management of QinetiQ and help grow the business in preparation for its transfer to the private sector. Although the Ministry of Defence continues to hold a majority equity stake in QinetiQ, operational control of the company is exercised by The Carlyle Group as the Government's strategic partner. This injection of private sector resource and expertise is contributing to the growth of the company and hence to the value of the Government's shareholding.

RAF Defensive Aid Suites

Mr. Soames: To ask the Secretary of State for Defence what requests he has had from the Royal Air Force to upgrade defensive aid suites. [217261]

Mr. Ingram: We have well-tried and effective arrangements for addressing urgent operational requirements identified by the front line commands. For example, for operations in Iraq advanced counter-measures have been fitted to the RAF's Tristar passenger aircraft and to the C-17 fleet.

RAFT Project

Mr. Hancock: To ask the Secretary of State for Defence (1) what environmental assessments *(a)* were carried out before and *(b)* have been carried out during the lifetime of the RAFT project; [216505]

(2) how much had been spent on the RAFT project at the date of its cancellation; and if he will make a statement. [216506]

Mr. Ingram: At the time of the suspension of Remote Ammunitioning Facility Tamar in 2002, £15 million had been spent on works (covering design, ammunition clearance, dredging and site preparation). Subsequent cancellation and project management costs have increased expenditure to a total of £25 million and this has been highlighted as a potential constructive loss in the departmental annual accounts for financial year 2003–04.

A number of environmental assessments were carried out prior to the commencement of the RAFT project. The first in 1996, was carried out by Babtie, the Ministry of Defence's Project Manager. In 1998, the Babtie Group carried out a desktop archaeological study to review the potential effect of RAFT on existing scheduled monuments at Bullpoint. This was followed by a supplementary report on the effects of RAFT dredging on potential buried archaeological artefacts in peat deposits in the riverbed. An Ecological Study, also in 1998 and carried out by Panscape Consultancy, considered the potential impact of RAFT on the key habitats and species in Plymouth Sound and its estuaries. In addition, a Baseline Environmental Survey of Estuarine Sediment and Benthic Macrofauna, carried out by Zeneca and which supplemented the Ecological Study, assessed the potential environmental impact of dredging on surface sediments and resident worms. In 1999, an extensive hydraulic modelling study was undertaken by Hydraulics Research Wallingford, which covered the potential effects of dredging on the River Tamar (in particular on the salmon), the inter-tidal habitats of the Tamar and the salt marshes in the Upper Tamar estuary. A detailed sedimentation study was carried out of the whole tidal extent of the Tamar rather than just the local area of RAFT. The conclusions and results were overseen by an independent expert appointed by English Nature.

In 2000, during the lifetime of the RAFT project and following award of the construction contract, a Conservation Management Plan was jointly produced with English Nature and the Environment Agency. In support of this plan, extensive mitigation measures were applied, including noise pollution monitoring of the surrounding areas and water quality monitoring in the River Tamar, during the dredging. The Environment Agency has recently confirmed that, as a result of this mitigation, there have been no permanent effects on fish stocks in the river.

Research Expenditure

Dr. Kumar: To ask the Secretary of State for Defence what proportion of his Department's research spending was directed towards conflict prevention in 2003–04. [215889]

Mr. Ingram: Preventing conflict is a key objective for the Ministry of Defence (MOD). It underpins the successful delivery of the defence aim, to deliver security for the people of the United Kingdom and the Overseas Territories, and to act as a force for good by strengthening international peace and stability. Consequently, much of MOD and the armed forces' operational and non-operational activity, together with the associated research work and military equipment development and procurement programmes that support these activities, contribute in some way to HMG's wider conflict prevention efforts around the world. This is particularly true of the work that MOD carries out in conjunction with FCO and DFID through the separately funded Conflict Prevention Pools. More information on this activity can be found on the FCO website.

As we do not collate information on research activity in the way requested, it would be disproportionately expensive to provide a more detailed breakdown.

Salisbury Plain

Paul Flynn: To ask the Secretary of State for Defence how much land in the Salisbury Plain area is rented by his Department to farmers; and what the average rent is per hectare. [216052]

Mr. Caplin: 25,110 hectares of land on Salisbury Plain are let to farmers on agricultural agreements. The average rent is £42.97 per hectare.

Shipping Lines

Mr. Hancock: To ask the Secretary of State for Defence what his Department's spending was in each of the last two years with the shipping lines *(a)* P&O, *(b)* Nippin Yusen Kaisha, *(c)* Mitsui Osaka Shosen Kaisha, *(d)* Orient Overseas Container Line and *(e)* Mediterranean Shipping Corporation. [217315]

Mr. Ingram: The Ministry of Defence has no requirement to retain spend information against individual shipping lines. Also, while some bookings may be made direct with shipping lines, others are placed through agents/freight-forwarders and spend will be recorded against them and not the shipping lines used. As the MOD operates a financial regime of disaggregated budgets, bookings can be made by units throughout the United Kingdom and overseas. For these reasons the spend requested is not held centrally or in a form which could be easily extracted and without disproportionate cost. The only spend information readily available is that against P&O shipping companies for invoices submitted through the Defence Bills Agency which is shown in the table.

Financial	*£ million*
2002–03	2.697
2003–04	2.143
2004–05	[1]1.677

[1] To date.

Tornado F3

Mr. John Smith: To ask the Secretary of State for Defence what contracts were awarded to BAE systems relating to Tornado F3 in December 2004; and whether those contracts were put out to competition. [217162]

Mr. Ingram: The Tornado F3 Sustainment Programme contract was awarded to BAE Systems in December 2004. The contract was not subject to competition as only the Design authority was deemed capable of prime contracting.

Tornado GR4

Mr. John Smith: To ask the Secretary of State for Defence whether primary star servicings on Tornado GR4 jets are being transferred to front line squadrons. [217196]

Mr. Ingram: Work to consider this option is on-going.

Mr. John Smith: To ask the Secretary of State for Defence whether the Investment Appraisal of the E2E review of air support which recommended rolling forward the Tornado GR4 including transferring work to RAF Lossiemouth. [217197]

Mr. Ingram: It did not. The Investment Appraisal looked at two options for Tornado GR4. These were rolling forward support to RAF Marham or rolling back support to DARA St. Athan. For Tornado GR4 the decision was to roll depth support work forward to RAF Marham.

WORK AND PENSIONS

Aircraft Charters

Chris Grayling: To ask the Secretary of State for Work and Pensions how much money his Department has spent on chartering aircraft in each of the past five years. [213692]

Maria Eagle: All ministerial travel is undertaken in accordance with the rules set out in the Ministerial Code and Travel by Ministers, copies of which are available in the Libraries of the House.

Travel by Ministers makes clear that special flights may be authorised when a scheduled service is not available, or when it is essential to travel by air, but the requirements of official or parliamentary business or security considerations or urgency preclude the journey being made by a scheduled service. In respect of overseas travel by Ministers, since 1999 the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year. The list published in 1999 covers the period 2 May 1997 to 31 March 1999. Where RAF/private charter aircraft are used this is shown in the list. The Government have also published on an annual basis the cost of all Ministers' visits overseas. Copies of the lists are available in the Libraries of the House. Information for 2004–05 will be published in due course.

The Department has incurred no costs for chartering aircraft.

Benefit Processing Centres

Mr. David Stewart: To ask the Secretary of State for Work and Pensions when he expects to make a decision on the location of benefit processing centres; and what assessment he has made of the merits of Inverness as a possible site. [216582]

Jane Kennedy: The administration of Jobcentre Plus is a matter for the Chief Executive of the Jobcentre Plus, David Anderson. He will write to the hon. Member.

Letter from David Anderson to Mr. David Stewart, dated 22 February 2005:

The Secretary of State has asked me to reply to your questions concerning the decision on the location of Benefit Processing Centres and the suitability of Inverness as a site. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

On 16 September 2004, the Secretary of State announced the locations for Benefit Processing Centres in the UK. Inverness was among the 8 selected locations in Scotland. Subject to further detailed planning, it remains our intention to undertake processing work in the Inverness site.

I hope that this is helpful.

Correspondence

Mr. Webb: To ask the Secretary of State for Work and Pensions when he will reply to the letter of 29 October 2004 from the hon. Member for Northavon on behalf on a constituent, Mr. Matthews, regarding benefit provision for carers. [216897]

Alan Johnson: I replied to the hon. Member today.

Council Tax Benefit

Mr. Edward Davey: To ask the Secretary of State for Work and Pensions (1) how much council tax benefit remained unclaimed by pensioners in London in each year since 1997, broken down by constituency; and what plans he has to redistribute these sums to the relevant claimants; [215639]

(2) what measures are in place to ensure pensioners are made aware of sums available to them through council tax benefit. [215640]

Mr. Pond: The information is not available in the format requested.

Estimates of the total amount council tax benefit that went unclaimed in 2002–03, the latest year for which information is available, can be found in the Department's report entitled: "Income Related Benefits Estimates of Take-Up in 2002–03": copies of which are available in the Library.

Council tax benefit already makes a valuable contribution in providing financial security for nearly 5 million households responsible for paying council tax. But encouraging those who are still to claim is very much at the heart of our agenda. This is why we launched a campaign in the lead-up to last year's council tax billing round. And why we are continuing to support local authorities in the lead up to, and during, this year's billing round, to make sure they have procedures in place locally to encourage people to apply.

We have already issued new versions of the posters and flyer with the headline "Cut your Council Tax—Find out if you should be paying less" and have arranged for the flyer to go out with the winter fuel payment letters to around 12 million pensioners in around eight million households.

We have contacted over 20,000 organisations that deal with older people, to update them on the continuing campaign to raise awareness of council tax benefit, and have arranged for the flyer to be available via displays in doctors' surgeries. Electronic versions of the flyer are also available for local authorities to download and customise to include in with this year's council tax bills if they do not already have their own local products.

A further round of press advertising, some national but mainly regional, started in January, with a second round of regional advertising due to start in early March, again to coincide with the issue of the council tax bills.

The Pension Service are already doing much to promote council tax benefit–take-up, from issuing a housing benefit/council tax benefit claim form to everyone who calls the pension credit application line and wishes to claim, to helping people fill in this form when visiting pensioners to take a claim for pension credit.

The Link-Age Programme (which is building an integrated network of services for older people) is joining up existing service providers to offer a more holistic service to pensioners. Partnerships are being developed between The Pension Service and local authorities and joint teams of staff from both organisations are already operational in over 30 local authority areas, and are being rolled out nationally.

A new £13 million fund—The Partnership Fund—was launched on 25 January 2005, providing up to two years' funding to around 170 organisations across Great Britain to finance local initiatives to improve take-up of older people's benefits, particularly those in hard to reach groups.

The Pension Service have also recently provided local authorities with details of those people in their area claiming pension credit but not claiming housing benefit or council tax benefit, for authorities to use to complement their own take-up activities.

Departmental Expenditure

Mr. Bercow: To ask the Secretary of State for Work and Pensions if he will list the equipment leasing arrangements entered into by his Department in each of the last two years; and what the cost is to public funds in each case. [202444]

Maria Eagle: Most equipment used by the Department is not leased but obtained via service contracts. Most office equipment is provided under serviced accommodation arrangements under the 20-year PRIME PFI partnership for estates management services or under other facilities management contracts. IS/IT and telephony equipment is not leased but provided or sourced under long-term service contracts. The Department does enter into leasing agreements for some other equipment, principally photocopiers, but

these arrangements are made at local level. The information on these arrangements required to answer the questions is not collected centrally and could be obtained only at disproportionate cost.

Mr. George Osborne: To ask the Secretary of State for Work and Pensions what the cost of refurbishments in his Department was in each year since 1997; and what the planned expenditure is for 2005–06. [205667]

Maria Eagle: DWP was formed in June 2001 from the former Department of Social Security (DSS) and parts of the former Department for Education and Employment, including the Employment Service (ES). Information for the period prior to June 2001 refers to the former DSS and ES.

The available information on the costs of refurbishments since 1997 is in the table.

	Total (£ million)
1997–98	52.4
1998–99	14.6
1999–2000	23.3
2000–01	23.7
2001–02	77.8
2002–03	175.3
2003–04	179.7

Notes:

1. Expenditure on refurbishments increased in 2002 when the Department embarked on a major modernisation programme funded by the Treasury to improve the way in which DWP services are delivered to the public. The physical surroundings of several of the businesses within DWP are being changed, including Jobcentre Plus, The Pension Service and Debt Management Services. The total spend is a combination of major refurbishments to buildings and smaller, business-related refurbishment works costs.
2. Health and Safety Executive figures are included from 2002 when they joined DWP.

The available information on estimated future expenditure on refurbishments is in the table.

	Total (£ million)
2004–05	73.1
2005–06	307.8

Notes:

1. These figures are estimates and may be subject to change.
2. The estimates include expenditure for Jobcentre Plus rollout, the Health and Safety Executive and the Rent Service which became part of DWP in April 2004. Estimated costs for other business related refurbishment works are not included as they are not collected centrally and could be obtained only at disproportionate cost.
3. The anticipated increased spend in 2005–06 is due to an expected increase in the number of Jobcentre Plus offices to be rolled out during the year.

Design

Alan Howarth: To ask the Secretary of State for Work and Pensions who the ministerial design champion for his Department is. [215653]

Mr. Pond: I am the design champion for the Department for Work and Pensions.

Disabled People (Middlesbrough)

Dr. Kumar: To ask the Secretary of State for Work and Pensions if he will estimate how many disabled people will receive the personal budget for disabled people in the constituency of Middlesbrough, South and Cleveland, East. [215896]

Maria Eagle: Prime Minister's Strategy Unit Report "Improving the life chances of disabled people" sets out the Government's commitment to introducing, over time, new arrangements for individualised budgets for all disabled people. More work is needed to develop the detail of these arrangements and the Department of Health, supported by this Department and the office of the Deputy Prime Minister, will be developing early pilots to start testing the feasibility of this new approach.

The Strategy Unit report was published on 19 January 2005, and is available in the Library.

DLA

Julie Morgan: To ask the Secretary of State for Work and Pensions how many people who were disabled before their 65th birthdays were unable to claim disability living allowance because they were incapable of doing so because of illness or other reasons in the last period for which figures are available; and what the main reasons for inability to claim were. [216590]

Maria Eagle: The information requested is not available.

Electronic Devices

Mr. George Osborne: To ask the Secretary of State for Work and Pensions how many electronic devices are owned by the Department, broken down by type. [207676]

Maria Eagle: The Department owns the following electronic devices:

	Number of devices
Desktop PCs	149,000
Laptops	11,000
Servers	6,000
Printers	27,000
Communications room equipment	6,495
Projectors	990
Large and specialist monitors	4,187
Scanners	579
Photocopiers	491
Order book printers	349
Giro writers	118
Mobile phones	14,005
Palmtops	55

Notes:

1. Figures collected 23 November 2004.
2. The number of desktop PCs, laptops, servers and printers is constantly changing due to new installations and the removal of obsolete equipment, which creates a time lag for updating the Department's records. The figures provided are therefore estimated.
3. In addition to those items listed, the Department has a range of private finance initiative and leasing contracts in respect of computer equipment, advanced telephony services, photocopiers, franking machines and mobile phones which are used by, but not owned by, the Department.

4. Lower cost electronic devices purchased which fall below the de minimus level for capitalisation (£5,000 except for ex ES assets which is £2,500), are treated as consumables and detailed information on numbers is not available.

Entertainment Costs

Mr. George Osborne: To ask the Secretary of State for Work and Pensions (1) how much has been spent on entertainment by his Department in each year since 1997, broken down by *(a)* food, *(b)* alcohol, *(c)* staff and *(d)* accommodation; [204346]

(2) how much has been spent on *(a)* entertainment lunches involving civil servants and guests and *(b)* working lunches, in each year since 1997. [215051]

Maria Eagle: The Department for Work and Pensions (DWP) was formed in June 2001 from the Department of Social Security (DSS) and parts of the former Department for Education and Employment (DfEE) including the Employment Service (ES).

Expenditure on official hospitality, entertainment of non-civil servants, is not collected at the level of detail requested. The available information on official hospitality expenditure, including working lunches, is in the table.

All expenditure on official hospitality and on working lunches is made in accordance with published departmental guidance on financial procedures and propriety, based on principles set out in Government Accounting.

£

	Official hospitality[1]	*Working lunches*[2]
1997–98	46,000	—
1998–99	86,000	—
1999–2000	327,000	—
2000–01	127,000	—
2001–02	155,000	—
2002–03	250,000	722,000
2003–04	123,000	867,000

[1] Figures for 1997–98 to 2000–01 refer to the former DSS and ES.
[2] Working lunch expenditure information is only available for the two most recent financial years because the predecessor Departments accounted for this type of expenditure in different ways.

Five-year Strategy

Mr. Willetts: To ask the Secretary of State for Work and Pensions (1) if he will make a statement on the circumstances in which, under the plans published in his Department's five year strategy, existing incapacity benefit claimants would be able to move from incapacity benefit to *(a)* rehabilitation support allowance and *(b)* disability and sickness allowance; [215548]

(2) what estimate he has made of the number of existing claimants who would seek to move from incapacity benefit to *(a)* the rehabilitation support allowance and *(b)* the disability and sickness allowance under the plans set out in the Department's five year strategy. [215553]

Maria Eagle: No estimate has been made of the numbers who would seek to move from incapacity benefit to rehabilitation support allowance or disability and sickness allowance. We will explore and discuss with stakeholders how best to incentivise existing claimants to access the support on offer to help them return to work. As part of this we will make any necessary changes to the linking rules to support the new arrangements.

Mr. Willetts: To ask the Secretary of State for Work and Pensions whether people who would be entitled to statutory sick pay under the present system would receive *(a)* SSP and *(b)* the new holding benefit under the plans set out in his Department's Five Year Strategy. [215550]

Maria Eagle: People who would be entitled to statutory sick pay under the present system would remain entitled to statutory sick pay under the reforms to the incapacity benefits as set out in our Five Year Strategy. We intend to ensure that statutory sick pay provides the right incentives to employers to rehabilitate people and get them back to work quickly.

Mr. Willetts: To ask the Secretary of State for Work and Pensions what exceptions he plans to the requirement for claimants of his proposed disability and sickness allowance to attend work-focussed interviews; and what sanctions he expects will be applied where there is non-compliance. [215551]

Maria Eagle: We would expect to continue with the current arrangements for waiving and deferring mandatory work-focused interviews that currently apply within the Pathways to Work pilots and Jobcentre Plus generally. We would also expect that the current sanctions regime applicable to any failure to take part in a work-focused interview without good cause would equally apply.

Freedom of Information

Dr. Julian Lewis: To ask the Secretary of State for Work and Pensions what his policy is in respect of the publication *(a)* on the departmental website and *(b)* by placing copies in the Library of (i) all or (ii) a selection of the information disclosed in response to Freedom of Information requests since January. [215224]

Maria Eagle: Guidance on Publication Schemes, issued by the Department for Constitutional Affairs in July 2002, recommended that where information is disclosed to an individual in response to a request under the Freedom of Information Act, Departments and NDPBs should consider whether the information disclosed is of general interest and include released information in the Publication Scheme where appropriate.

The Department for Work and Pensions now has arrangements in place for information that is of wider general interest, and which has been released in response to a Freedom of Information Act request, to be posted on its internet site where it will be readily accessible. There are no plans to place such information in the Library.

Incapacity Benefit

Dr. Kumar: To ask the Secretary of State for Work and Pensions what measures his Department is implementing to encourage those claiming incapacity benefit to return to work if they are able to do so. [215951]

Maria Eagle: The Government's vision is to deliver a fundamental change in the way that people with a health condition or disability, but who want and are able to work, are given support to find, remain and progress in employment. We believe that everyone who wants and is able to get back to work should be helped and enabled to do so.

Our groundbreaking Pathways to Work programme provides intensive help and support to people on incapacity benefits who want to work again. In December 2004 we announced a significant extension of the Pathways to Work pilots to include an additional 14 Jobcentre Plus districts starting from October this year.

Building on the expansion of Pathways to Work we have announced a number of measures as part of the Five Year Strategy that will improve incapacity benefits in order to ensure that there are clear rewards for moving into work, and that will address the anxieties many claimants have about trying out a job by minimising the risks. We recognise that a person's health condition can affect their ability to work in varying degrees, sometimes making work very unlikely, but sometimes leaving a good prospect of a return to work.

Mr. Pickthall: To ask the Secretary of State for Work and Pensions what estimate he has made of the percentage of incapacity benefit claims that subsequently proved to be unsubstantiated in the last year for which figures are available. [216337]

Maria Eagle: The level of fraud in incapacity benefit is very low, estimated at less than 3 per cent. of expenditure when last measured.

Evidence of fraud in incapacity benefit is investigated thoroughly. This resulted in 613 prosecutions in 2003–04.

Mr. Pickthall: To ask the Secretary of State for Work and Pensions what action he plans to take to discourage general practitioners from issuing sick notes that support dubious incapacity benefit claims. [216338]

Maria Eagle: The vast majority of GPs provide advice on fitness for work which they believe to be in the best interests of their patient. The Department has recently revised the guidance to doctors about providing advice to patients on fitness for work and appropriate certification. This guidance is supported by case examples and evidence based recovery times and is available on the Department's website.

The Department also works with GPs, royal medical colleges and universities in developing undergraduate and post graduate training materials to support doctors in
providing appropriate advice.

Mr. Pickthall: To ask the Secretary of State for Work and Pensions in what ways changes to incapacity benefit will affect long-term claimants. [216339]

Maria Eagle: The reforms to incapacity benefits, as set out in the five year strategy, will apply to new claimants only. However, existing claimants, including long-term claimants, would be able to access the help and support on offer to help them return to work.

Mr. Liddell-Grainger: To ask the Secretary of State for Work and Pensions how many people in the Bridgwater constituency were claiming incapacity benefit in each year since 1997. [217351]

Maria Eagle: The information is in the table.

All incapacity benefit and severe disability allowance claimants in the Bridgwater parliamentary constituency, at the quarter shown

As at 31 August:	*Number*
1997	3,300
1998	3,500
1999	3,500
2000	3,400
2001	3,600
2002	3,900
2003	3,800
2004	3,700

Notes:
1. Figures are rounded to the nearest hundred.
2. Claimant figures include all incapacity benefit, severe disability allowance and credits-only cases.

Source:
IAD Information Centre, 5 per cent. data

Mr. Rosindell: To ask the Secretary of State for Work and Pensions what assessment he has made of the effect on the number of people leaving incapacity benefit of the means-testing of new claims. [217608]

Maria Eagle: Incapacity benefit is not a means-tested benefit.

International Labour Organisation Report

David Davis: To ask the Secretary of State for Work and Pensions what assessment he has made of the findings of the report on Forced Labour and Migration to the UK. [216130]

Mr. Pond: Our initial assessment is that the draft report, because for example it is based on a very small number of interviews, does not present a balanced view of current UK policy, law and practice and that some of the recommendations are very difficult to justify. Officials, having consulted officials from other relevant Government Departments, are responding to the ILO on the detail, and we will make a further assessment when they have completed their discussions.

IT (Disciplinary Procedures)

Mr. George Osborne: To ask the Secretary of State for Work and Pensions how many staff in his Department have *(a)* received official warnings and *(b)* faced disciplinary procedures following breaches of IT policy in each year since 1997. [205815]

Maria Eagle: Information is not collected on the number of DWP staff who have received official warnings following breaches of IT policy.

Information on DWP staff who have faced disciplinary procedures following breaches of IT policy is available from July 2003. The information is in the table.

Staff in the Department who have faced disciplinary procedures following breaches of IT policy

	Number
July 2003 to March 2004	253
April 2004 to September 2004	171

All DWP staff are subject to the Department's Standards of Behaviour statement which is based on the Civil Service Code.

The Department's Electronic Media policy sets out the conditions for the official and personal use of the Department for Work and Pensions' Information Technology (IT) and covers intranet, internet, email, work PC and laptop.

Both the Department's Standards of Behaviour and Electronic Media policy are available and publicised on the DWP intranet site.

All forms of misconduct are dealt with under the Departments disciplinary policy and procedures. The Department's disciplinary policy includes, under gross misconduct:

misuse of the internet, intranet or email, including accessing, storing or sending material that is illegal, obscene, pornographic, incites violence or reflects/promotes hatred.

If anyone in the Department is charged with or convicted of a criminal offence they are required to inform their manager straight away.

When an offence comes to light consideration is given to establish whether restriction of duties, transfer or suspension from duty is appropriate and what disciplinary action is required. Failure to report a criminal caution can of itself be treated as a disciplinary offence.

Job Centres

Simon Hughes: To ask the Secretary of State for Work and Pensions which job centres *(a)* are due to be closed and *(b)* are due to remain open; what the timescale is for those remaining open to become Jobcentre Plus; and if he will make a statement. [207898]

Jane Kennedy: The administration of Jobcentre Plus is a matter for the Chief Executive of the Jobcentre Plus, David Anderson. He will write to the hon. Member.

Letter from David Anderson to Simon Hughes, dated 21 February 2005:

The Secretary of State has asked me to reply to your question concerning our plans for closing and retaining Jobcentres, and the timescale for completing the transformation of Jobcentre Plus. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

I have placed in the Library a list of sites planned for closure as part of the Jobcentre Plus rollout programme and activity to centralise benefit processing. This list includes a number of sites which are closing through merging with co-located offices. While the majority of these sites will be disposed of in due course, a number will be retained by Jobcentre Plus to accommodate non-customer facing activity.

I have also placed in the Library a list of our planned Local Service Outlets—those customer-facing offices providing access to our services. This listing includes what we refer to as Flexible Service Delivery sites, where we are working with local partners to provide access to services through third party premises.

I should stress that this is a snapshot of our plans based on the best information available. The lists of offices will inevitably change as we progress through rollout of the new, integrated service and continue to refine our plans for centralising benefit processing in Jobcentre Plus. For example, a significant number of the site closures are dependent on construction of new buildings or acquisition of new premises and these are often subject to delays and other issues. I would also expect the number of Flexible Service Delivery sites to increase significantly as we conclude local discussions with partners on arrangements.

We continue to review the plans for our network as the reducing headcount is impacted on all parts of the business, and we may have to reconsider the future viability of a number of sites in this context. Completing the rollout of the new service and centralising benefit processing at the same time is a challenging programme of work and I can assure you that providing customer service is at the centre of decisions we make. We will also ensure that local stakeholders are kept informed of progress and any changes to our plans.

We are shaping the future Jobcentre Plus network in response to the changing business need. The need for face-to-face facilities for jobsearch and other aspects of our business has been superseded in many instances by new business processes and the use of information technology. For example, over the last 12 months we have seen an increase of over 40 per cent. in the number of hits on our jobsearch website. Encouraging our customers to use these new channels enables us to focus on those customers who need greatest help, through the intervention of personal advisers, for example.

You will see from the lists that we will retain a significant network of offices through which customers can access our services. Our current forecast is that when rollout is complete the total number of outlets from which our services can be accessed is likely to be around 1,000. On present plans, our network will be substantially complete by the Summer of next year.

I hope this summary of both the current position and our future plans is helpful.

Jobseekers (Nairn)

Mr. David Stewart: To ask the Secretary of State for Work and Pensions how many individuals in the Nairn Jobcentre area are *(a)* in receipt of jobseeker's allowance and *(b)* required to sign on in person. [216580]

Jane Kennedy: As at December 2004 there were 174 jobseekers allowance claims in Nairn Jobcentre Plus Office including clerically held cases. There is one postal case, all others are required to attend in person.

However, it should be noted that in the period from 29 November 2004 to 8 April 2005, Nairn is piloting alternative methods to the current Fortnightly Jobsearch Review. Customers' participation in the pilot is voluntary and, for the 20 or so involved at any one time, less frequent attendance in person is allowed.

Mr. David Stewart: To ask the Secretary of State for Work and Pensions if he will consider the Nairn and District area for a future telephone pilot project for jobseeker's allowance. [216581]

Jane Kennedy: The administration of Jobcentre Plus is a matter for the Chief Executive of the Jobcentre Plus, David Anderson. He will write to the hon. Member.

Letter from David Anderson to Mr. David Stewart, dated 22 February 2005:

The Secretary of State has asked me to reply to your question on whether Nairn and District Area can be considered for a future telephone pilot for Jobseeker's Allowance. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

I should explain that our Highland, Islands & Clyde Coast District, which includes Nairn, has 3 current pilots testing variations, including use of telephony, to the existing Fortnightly Jobsearch Review. Nairn is among the selected pilot locations along with Inverness, Buckie and Clydebank. Customer participation is voluntary and the position in Nairn is that about 20 customers are involved at any one time with 6 or 7 joining or leaving in a typical week.

The pilots aim to assess the impact alternatives to the current Fortnightly Jobsearch Review, such as maintaining contact by telephone and less frequent attendance in person, have on our core activity of helping people back into work. The pilots began in Inverness, Buckie and Clydebank on 11 October 2004 and in Nairn on 29 November 2004. A full evaluation of the outcomes, including whether the arrangements are suitable for wider implementation, will be carried out after the pilots end on 8 April 2005. At this stage I cannot confirm whether Nairn and District Area will continue with the pilot after 8 April 2005. I have asked the Manager for the Highland, Islands and Clyde Coast District to keep you informed.

I hope that this is helpful.

Ministerial Stationery

Mr. George Osborne: To ask the Secretary of State for Work and Pensions how much has been spent on official ministerial *(a)* business cards, *(b)* headed paper and *(c)* compliment slips in each year since 1997. [214945]

Maria Eagle: The Department's accounting systems cannot differentiate the cost of official ministerial business cards, headed paper and compliment slips from other printing and stationery costs.

All expenditure incurred in the purchase of ministerial stationery is made in accordance with the departmental guidance on financial procedures and proprietary based on the principles set out in Government Accounting.

Mobile Phones

Mr. George Osborne: To ask the Secretary of State for Work and Pensions what the cost of staff mobile phone bills was in each year since 1997. [214892]

Jane Kennedy: I refer the hon. Member to the answer given to him on 13 January 2005, *Official Report*, column 624W.

National Insurance Numbers

David Davis: To ask the Secretary of State for Work and Pensions (1) how many national insurance numbers have been issued to *(a)* non-British EU citizens and *(b)* non-EU citizens in each month since January 2004; [214005]

(2) how many national insurance numbers have been issued to British citizens in each month since January 2004. [214006]

Mr. Pond: Annually, DWP receive from Inland Revenue's National Insurance Recording System a breakdown of overseas nationals entering the UK allocated a National Insurance Number. The latest information we have is up to and including May 2004 and is in the table.

National insurance numbers issued to non British EU and non EU citizens

Number

	January 2004	*February 2004*	*March 2004*	*April 2004*	*May 2004*
Non-British EU Citizens	8,000	7,600	11,700	6,400	8,000
Non-EU	24,900	24,400	39,100	21,300	20,400

Notes:

1. Figures are rounded to the nearest hundred.
2. Allocations to Accession Country nationals are included as non-EU between January-April, then EU from May.
3. Not all National Insurance Numbers allocated by DWP are registered on NIRS2 e.g those allocated to pensioners.
4. Details from June 2004 to May 2005 are not yet available.

Source:

Supplied to DWP by Inland Revenue from the National Insurance Recording System (NIRS2)

Most citizens born in the United Kingdom receive their National Insurance Number (NINO) automatically at age 15-years and nine months through a link with the Inland Revenue Child Benefit system. Approximately 700,000 NINOs are allocated each year through this process.

Pensions

Mr. Webb: To ask the Secretary of State for Work and Pensions how many people in receipt of pension credit receive the severe disability amount; and what proportion they represent of all pension credit recipients. [216761]

Maria Eagle: At 31 August 2004, the most recent date for which this figure is available, approximately 584,600 households in receipt of pension credit in Great Britain, comprising 625,800 individuals, were in receipt of the extra amount payable to those with severe disability. These figures represent 22.4 per cent. of the total number of households in receipt of pension credit at that date and 19.8 per cent. of the corresponding number of individuals.

Notes:

1. Data has been taken from a 5 per cent. sample and is subject to a degree of sampling variation.

2. Figures are rounded to the nearest hundred.

Source:

IAD Information Centre, Department for Work and Pensions

Mr. Webb: To ask the Secretary of State for Work and Pensions how many pensioners are *(a)* in receipt of carer's allowance and *(b)* have an underlying entitlement to carer's allowance; and what proportion each represents of all pensioners. [216762]

Maria Eagle: The requested information is in the table.

Carer's allowance: recipients and "underlying entitlement" cases of state pension age in Great Britain at 31 August 2004

	Number
Number of recipients	23,235
Number of recipients as a percentage of all pensioners	0.2
Number of underlying entitlement cases	197,305
Number of underlying entitlement cases as a percentage of all pensioners	1.8

Notes:
1. State pension age is currently 60 for females and 65 for males.
2. CA is paid in full to people of state pension age who do not have a state pension or at a reduced "top up" rate where state pension is paid at a lower weekly rate than CA. CA is not paid where the weekly rate of state pension equals or exceeds the weekly rate of CA. Such cases are known as "underlying entitlement" cases.
3. The percentages of pensioner population have been calculated using ONS mid 2003 population estimates for males aged 65 and over and females aged 60 and over in GB.

Source:
IAD Information Centre, 100 per cent. sample. Figures are rounded to the nearest 5 and percentages to one decimal place.

Mr. Webb: To ask the Secretary of State for Work and Pensions how many people in receipt of pension credit are *(a)* in receipt of carer's allowance and *(b)* have an underlying entitlement to carer's allowance; how many receive the carer's allowance; and what proportion they represents of all recipients in each case. [216763]

Maria Eagle: The information is given in the table. At 31 August 2004 there were a total of 429,600 recipients of carer's allowance.

Pension credit recipients also in receipt of or with an underlying entitlement to carer's allowance, Great Britain, 31 August 2004

	Households in receipt of pension credit	As a percentage of all pension credit households	Individual recipients of pension credit	As a percentage of all individual pension credit recipients
In receipt of carer's allowance	13,690	0.5	22,870	0.7
With an underlying entitlement to carer's allowance	76,430	2.9	125,240	4.0

Notes:
1. Data has been taken as at August 2004, the latest date for which the relevant carer's allowance figures are available.
2. Figures are rounded to the nearest five.
3. Figures for households in receipt of pension credit also in receipt of or with underlying entitlement to carer's allowance (i.e. the figures in the second column) exclude cases where the person to whom the pension credit award has been made is not the same as the person to whom the award of carers allowance has been made (i.e. where the partner of the pension credit recipient is in receipt of or with underlying entitlement to carer's allowance).
4. Individual recipients may include a small number of partners under the age of 60.
5. Carer's allowance is paid to people of state pension age where there is no entitlement to state pension or where state pension is paid at a lower rate than carer's allowance. If a low state pension is paid, a reduced rate of carer's allowance will be paid as a top-up.
6. Carer's allowance is not paid where the weekly rate of state pension equals or exceeds the weekly rate of carer's allowance. Such cases are known as "underlying entitlement" cases.

Source :
IAD Information Directorate, 100 per cent. sample.

Social Fund

Mr. Battle: To ask the Secretary of State for Work and Pensions what assessment he has made of the National Audit Office report on the social fund published on 13 January; and if he will make a statement. [216095]

Mr. Pond: We welcome the report from the NAO; it recognises that the social fund plays an important role in helping people in financial hardship and is reaching many of those in greatest need. The report found that there were £3 million social fund payments made in the last financial year at a total cost of £854 million and acknowledges that the Department recovers the majority of social fund debt. Many of the recommendations in the report are already being taken forward.

Jobcentre plus intend to introduce a standard operating model for the social fund from April 2005, currently being piloted in Wales. Along with new management indicators from April 2004, the model aims to maintain and, where necessary, improve the speed and quality of decision making and customer service.

Special Advisers

Mr. Tyrie: To ask the Secretary of State for Work and Pensions if he will list the speeches his special advisers made in an official capacity between 31 March 2003 and 31 March 2004, broken down by date. [210557]

Maria Eagle: I refer the hon. Member to the answer I gave him on 21 December 2004, *Official Report*, column 1743W.

Staff Vacancies

Mr. Bellingham: To ask the Secretary of State for Work and Pensions how much his Department spent on advertising staff vacancies in *(a)* 2002 and *(b)* 2003. [209576]

Maria Eagle: The information is not collected centrally and could only be provided at disproportionate cost.

Written Answers to Questions

Wednesday 23 February 2005

PRIME MINISTER

Helicopter Flight Cost

Mr. George Osborne: To ask the Prime Minister from what budget the helicopter he used for his official engagements on 11 February was paid for. [217711]

The Prime Minister: There was no cost to public funds.

Honours

Tony Wright: To ask the Prime Minister how many recipients of each category of award in the honours system there were in each local authority area in each of the last five years. [216591]

The Prime Minister: The information requested is not held centrally and to obtain the information would incur disproportionate costs. Details of awards made by regions over the last five years were published in Sir Hayden Phillips' Review of the Honours System (2004), copies of which are available in the Library.

Iran

Mr. Dalyell: To ask the Prime Minister, pursuant to the oral answer of 9 February 2005, *Official Report*, column 1496 to the hon. Member for Islington, North (Jeremy Corbyn), what diplomatic means of engagement he has pursued with the Government of Iran since 9 February in respect of *(a)* the security of Iran, *(b)* the Iranian perception of the security of Iran, *(c)* Iran's relations with the United States and *(d)* the alleged development of nuclear weapons by Iran. [217029]

The Prime Minister: Our policy towards Iran is one of critical and conditional engagement. The UK, France and Germany (the "E3"), with European Union representatives, are engaged in a dialogue with Iran aimed at agreeing long-term arrangements for Iran's nuclear programme. These are intended to provide objective guarantees that Iran's nuclear programme is exclusively for peaceful purposes. Working groups on political/security issues and nuclear issues met in Geneva on 9 February and 10–11 February respectively. A working group on technology/co-operation met on 8 February. Relations between Iran and the United States are a matter for those two countries.

NORTHERN IRELAND

Devolved Assembly

7. **Jeremy Corbyn:** To ask the Secretary of State for Northern Ireland when he expects the devolved assembly to re-convene. [216997]

Mr. Paul Murphy: I refer my hon. Friend to the answer I gave earlier.

Ulster Scots

8. **Mr. Gregory Campbell:** To ask the Secretary of State for Northern Ireland when he plans to make announcements regarding cultural arrangements, appointments and other equality measures regarding Ulster Scots. [216998]

Angela Smith: The Government fully recognises the importance of cultural identity in Northern Ireland and has in hand a significant programme of work aimed at recognising it. The wide range of issues involved means that announcements are made as and when it is appropriate to do so.

Devolved Government

9. **Helen Jackson:** To ask the Secretary of State for Northern Ireland what assessment he has made of the prospects for restoring devolved Government in Northern Ireland. [216999]

Mr. Paul Murphy: I refer my hon. Friend to the answer I gave earlier.

10. **Andrew Selous:** To ask the Secretary of State for Northern Ireland if he will make a statement on the impact of the suspension of the Assembly on the democratic process in Northern Ireland. [217000]

Mr. Paul Murphy: The Belfast Agreement envisaged a Northern Ireland Assembly and a power-sharing Executive, both made up of locally-elected representatives. The Government continues to believe that this represents the best long-term guarantee of peace and stability in Northern Ireland and I regret that current circumstances make it impossible to restore those institutions at present.

However, this does not erode the democratic process altogether in Northern Ireland. This House—including those Members with Northern Ireland constituencies—continue to hold myself and my ministerial colleagues to account for our administration of Northern Ireland under Direct Rule.

Education Boards

11. **Mr. McGrady:** To ask the Secretary of State for Northern Ireland what assessment he has made of the financial position of the education boards in Northern Ireland; and what steps are being taken to improve that position. [217001]

Mr. Gardiner: Between 1999–2000 and 2005–06 total spending on education has increased by 56 per cent. Total funding per pupil has increased by 64 per cent. In the budget for 2005–06 I have increased the allocation to the ELB centre budgets by £19 million over the previous year; that is almost 6 per cent.—from £333 to £352 million at a time when inflation is running at 2.5 per cent. and pupil numbers are declining.

The priority now for all ELBs is to develop plans that reflect Government education policy and ensure that services are managed and delivered within budget.

Cross-border Trade (Motor Vehicles)

12. **Mr. Walter:** To ask the Secretary of State for Northern Ireland if he will make a statement on cross-border trade in second-hand motor vehicles. [217002]

Angela Smith: The number of second hand vehicles imported into Northern Ireland from the Republic of Ireland has reduced considerably over the last five years, from a figure of 2,889 in 2000 to 959 in 2004.

Security Situation

13. **Mr. Bellingham:** To ask the Secretary of State for Northern Ireland if he will make a statement on the security situation in Northern Ireland. [217003]

Mr. Pearson: I refer the hon. Member to the answer I gave earlier to the right hon. Member for Bracknell (Mr. Mackay).

Peace Process

14. **Ann Winterton:** To ask the Secretary of State for Northern Ireland if he will make a statement on the Northern Ireland peace process. [217004]

Mr. Paul Murphy: I refer the hon. Member to the answer I gave earlier.

15. **Kevin Brennan:** To ask the Secretary of State for Northern Ireland what assessment he has made of the economic impact in Northern Ireland of the peace process. [217005]

Mr. Gardiner: The Northern Ireland economy has performed remarkably well over the past decade with high levels of economic growth, a strong labour market and increasing visitor numbers. I believe this can be attributed in part to the increased stability and confidence provided by the peace process.

Asylum Seekers

Mr. Lidington: To ask the Secretary of State for Northern Ireland what sums have been paid to the Department for Health, Social Services and Public Safety by the Home Office and National Asylum Support Service in respect of asylum seeker support in each year since 1996–97; and if he will make a statement. [217125]

Angela Smith: The following table details the monies paid to the Department of Health, Social Services and Public Safety by the Home Office and the National Asylum Support Service as reimbursement for asylum seeker support.

	Amount paid £000
1996–97	0
1997–98	0
1998–99	0
1999–00	0
2000–01	0
2001–02	112
2002–03	150
2003–04	280
2004–05	124

Census

Mr. John Taylor: To ask the Secretary of State for Northern Ireland what the penalties are for refusing to complete a decennial population census form for Northern Ireland; how many successful prosecutions there were for that offence in connection with the censuses for *(a)* 1981, *(b)* 1991 and *(c)* 2001; and if he will make a statement. [216852]

Mr. Pearson: The current maximum penalty for refusing to complete a census form or answer any question in the census is £1,000. No prosecutions were brought in 1981, while there were five and two successful prosecutions in 1991 and 2001 respectively.

Mr. Taylor: To ask the Secretary of State for Northern Ireland what the penalties are for unlawfully disclosing personal information from closed decennial population censuses for Northern Ireland; how many successful prosecutions there have been for that offence since 1990; and if he will make a statement. [216853]

Mr. Pearson: The current maximum penalty for unlawful disclosure of personal information supplied in the census is, on summary conviction, to imprisonment for a term not exceeding six months or to a fine not exceeding the statutory maximum or to both. On conviction on indictment, an individual is liable to imprisonment for a term not exceeding two years or a fine or both. There have been no prosecutions since 1990.

Mr. Taylor: To ask the Secretary of State for Northern Ireland what requests his Department has received from members of the public who do not want their personal census details to be released before the Northern Ireland records are 100 years old. [216854]

Mr. Pearson: Records from Northern Ireland censuses conducted under the Census Act (Northern Ireland) 1969 are currently closed indefinitely. There have been no requests of the nature described.

Mr. Taylor: To ask the Secretary of State for Northern Ireland if consideration has been given to commissioning an independent survey to discover whether the people of Northern Ireland are in favour of the re-establishment of 49 or 59-year confidentiality periods which applied to Northern Ireland decennial population census records for 1901 and 1911; and if he will make a statement. [216855]

Mr. Pearson: Records from Northern Ireland censuses conducted under the Census Act (Northern Ireland) 1969 are currently closed indefinitely. In due course, consideration will be given to introducing legislation to open records after 100 years in line with the rest of the UK. No consideration has been given to commissioning a survey of the nature described.

Mr. Taylor: To ask the Secretary of State for Northern Ireland what assurances of confidentiality were given on the decennial population census for Northern Ireland in 2001. [216856]

Mr. Pearson: The following statement appeared on the cover of the 2001 census form.

"The information you provide is protected by law and treated in strict confidence. The information is only used for statistical purposes, and anyone using or disclosing census information

improperly will be liable to prosecution. Census forms will be held securely under the terms of the Public Records Act (Northern Ireland) 1923."

Publicity material for the 2001 Census also stated that

"by law the census form and the information it contains is kept secret and cannot be divulged to anyone."

Mr. Taylor: To ask the Secretary of State for Northern Ireland if he will list the years when the householders' forms for the 1928 to 2001 population censuses for Northern Ireland were destroyed. [216857]

Mr. Pearson: Since 1928 there have been censuses in 1937 and 1951 and decennially thereafter with an additional mid-term census in 1966.

The Public Record Office Northern Ireland (PRONI) is the custodian of all Northern Ireland census returns from all censuses with the exception of the 2001 census. None of these forms have been destroyed. Images of the 2001 census forms have been taken and will shortly be delivered to PRONI.

Children's Fund

Mr. McGrady: To ask the Secretary of State for Northern Ireland whether all projects established under the Children's Fund will continue to receive funding. [217600]

Angela Smith: All projects funded under the current three year Children's Fund cycle will receive their full allocation from existing Children's Fund monies.

Education Action Zones

Mr. Dodds: To ask the Secretary of State for Northern Ireland what resources are being committed to funding education action zones in North and West Belfast; and from what sources. [217416]

Mr. Gardiner: Some £6 million is expected to be available over the next three financial years for the implementation of the Education Action Zone (EAZ) initiative across Northern Ireland. The bids presently being developed include proposals from the BELB for EAZ provision in North and West Belfast.

EU Grants

Mr. Hancock: To ask the Secretary of State for Northern Ireland what procedures are in place in his Department to ensure that EU regional development grants are used in accordance with the European Commission rules. [217282]

Mr. Pearson: In Northern Ireland EU structural funds expenditure must comply with the requirements of the procedural guide "Government Accounting in Northern Ireland" (GANI) and EU regulations guidance on European Commission rules contained in the EU structural funds operating manual for Northern Ireland.

Compliance is ensured through a system of both management (Article 4 of Regulation (EC) No. 438/2001) checks that must be carried out on all projects and a system of a minimum of a 5 per cent. sample check (Article 10 of Regulation (EC) No 438/2001). Certifying bodies must satisfy themselves that these checks have been carried out before making claims to the Commission (Article 9 of Regulation (EC) No 438/2001). EU expenditure is also subject to internal audit and the Northern Ireland Audit Office reviews.

Health Trusts

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many people are employed by each of the health trusts covering *(a)* North Belfast and *(b)* West Belfast, broken down by (i) gender and (ii) religion and community background. [217415]

Angela Smith: Information requested is provided in the following tables.

Staff employed by each of the health and social services trusts covering North and West Belfast by (i) gender as at February 2005

Headcount

Health and social service trust	*Male*	*Female*	*Total*
Homefirst (Whiteabbey Hospital)	15	152	167
Mater Infirmorum	324	987	1,311
North and West Belfast	631	3,043	3,674
Royal Group of Hospitals	1,667	5,170	6,837
Total	2,637	9,352	11,989

Staff employed by each of the health and social services trusts covering (a) North Belfast and (b) West Belfast by (ii) religion and community background as at February 2005

Headcount

Health and social services trust	*Protestant*	*Roman Catholic*	*Other/not stated / unknown*	*Total*
Homefirst (Whiteabbey Hospital)	108	47	12	167
Mater Infirmorum	412	738	161	1,311
North and West Belfast	1,458	1,998	218	3,674
Royal Group of Hospitals	2,494	3,999	344	6,837
Total	4,472	6,782	735	11,989

Nurses

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many episodes of physical abuse occurred against nurses in hospitals in Northern Ireland in the last year. [217302]

Angela Smith: The information is not available in the form requested for the last year and could only be provided at disproportionate cost. However, during the first 6 months of the financial year for which figures are available (1 April 2004–30 September 2004) a total of 1176 incidents were recorded of physical abuse against nurses in hospitals in Northern Ireland, out of a total of 1977 recorded incidents of physical abuse against HPSS staff during the same period.

Parking

Mr. George Osborne: To ask the Secretary of State for Northern Ireland how much has been spent on *(a)* provision of parking spaces for civil servants and *(b)* parking tickets and penalties incurred by civil servants in the Department in each year since 1997. [213811]

Mr. Paul Murphy: The information is not held in the format requested by the hon. Member.

The Northern Ireland Office (excluding its agencies and NDPBs) has spent the following on:

(a) Provision of parking spaces for civil servants

Between 1997–98 and 1999–2000 the cost of parking spaces was captured under the expense code "property rental" and is not separately identifiable.

In 2000–01 the expense codes were amended so that the cost of parking spaces could be identified separately. The costs from 2000–01 to 2003–04 are provided as follows.

£

	Cost of parking spaces
2000–01	106,357
2001–02	152,616
2002–03	187,416
2003–04	196,633

(b) Parking tickets and penalties incurred by civil servants

The amount spent on parking tickets and penalties cannot be identified separately as these costs are all captured under "other travel costs".

Regional Rate

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the percentage change in the regional rate in Northern Ireland was in each of the last five years. [211877]

Mr. Pearson: The following table gives the percentage increase in the domestic and the non-domestic regional rates from the 2000–01 financial year.

Between 2000–01 and 2004–05 the average household rate bill increased from £394 to £509, an increase of £115. The average increase for England for this period was £270.

Regional rate percentage increases

Percentage

	Domestic regional rate increase	*Non-domestic regional rate increase*
2000–01	8.0	4.6
2001–02	7.0	3.3
2002–03	7.0	3.3
2003–04	6.0	3.3
2004–05	8.8	3.3

Suicides (North Belfast)

Mr. Dodds: To ask the Secretary of State for Northern Ireland what strategy is in place in north Belfast to tackle suicides, with particular reference to young people. [216418]

Angela Smith: The North and West Belfast Health and Social Services Trust's Strategy for the Prevention of Suicide includes gender specific health education campaigns and education tools for schools aimed at promoting positive mental health and raising awareness of suicide, support for primary care, home-based early intervention on a 24-hour 7-days a week basis, the provision of support and training for community based counselling services and support for those affected by suicidal behaviour.

Mr. Dodds: To ask the Secretary of State for Northern Ireland how much money has been spent on tackling suicides in north Belfast in each year since 2000. [216419]

Angela Smith: The information requested is not available, as it is not possible to disaggregate the amounts spent specifically on tackling suicide from the services that are involved.

Waiting Lists/Times

Mr. Hume: To ask the Secretary of State for Northern Ireland how many people normally resident in Northern Ireland have been assessed and accepted for *(a)* heart, *(b)* lung and *(c)* heart and lung transplant waiting lists in each of the last three years; how many have received transplants; and how many have died whilst waiting for transplantation. [216666]

Angela Smith: Information on the number of people normally resident in Northern Ireland who have been assessed and accepted for heart, lung and heart and lung transplant waiting lists and the number of people who have died whilst waiting for heart, lung and heart and lung transplantation in each of the last three years is not available.

Information on the number of people normally resident in Northern Ireland who have received heart, lung and heart and lung transplants in each of the last three years is provided in the following table:

Number who received transplants

	1 January 2002 to 31 December 2002	*1 January 2003 to 31 December 2003*	*1 January 2004 to 31 December 2004*
(a) Heart transplants	4	2	8
(b) Lung transplants	3	3	1
(c) Combined heart and lung transplants	—	1	2

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what he is doing to tackle the number of trolley waits in hospitals in Northern Ireland. [217303]

Angela Smith: A regional programme of work is being taken forward to examine and improve the flow of emergency admissions through hospitals and to reduce the numbers of trolley waits. All trusts were required as part of this regional programme to undertake a snapshot survey to identify delays in the hospital system. A regional workshop will be held later this month to examine the results of these surveys and consider how best to address the issues arising from them. All of this work is being overseen and monitored by a regional steering group comprising representatives from health and social services boards and trusts.

In preparation for the extra demands that would be made on services during the winter months, an additional £2 million recurrent and £6 million non-recurrent funding was made available to the Northern Ireland health service in 2004–05. This money has been used to provide a range of services, including

additional acute and community nursing staff, enhanced primary and community care provision, and additional hospital capacity.

INTERNATIONAL DEVELOPMENT

Common Agricultural Policy (Africa)

Mr. Alan Duncan: To ask the Secretary of State for International Development what assessment he has made of the impact of the Common Agricultural Policy on agricultural markets in Africa. [217420]

Hilary Benn: The EU Common Agricultural Policy (CAP), in its current form, impacts on agricultural markets in Africa by increasing world supply, thus lowering world prices; by artificially raising EU prices; by heavily subsidising exports; by undermining world price stability and by limiting access to our markets through the use of high import tariffs.

This imposes high costs on developing countries. Empirical research has shown that amongst rich countries, the EU is responsible for the biggest costs to developing country farmers. Reform of the CAP could increase developing countries' food and farming income by $7.5 billion per year, which could significantly reduce poverty for those producers in Africa.

DFID and the UK are committed to reform of the CAP in order to facilitate freer and fairer agricultural trade between developing countries, including in Africa, and the EU. This issue is being analysed in the Commission for Africa Report, expected in March 2005.

DFID will continue to press for reforms on the EU side including by weakening the link between EU farm support and domestic production to discourage over production (which lowers the world market price), and providing better market access by reducing tariffs and will also continue to build supply-side capacity of agricultural producers including infrastructure and technological development to improve quality and competitiveness of African products.

Targets

Mr. George Osborne: To ask the Secretary of State for International Development how many targets have been set in each year since 1997 by the Department; and, of these, which have been *(a)* met, *(b)* nearly met, *(c)* not met, *(d)* changed and *(e)* dropped. [215799]

Hilary Benn: I refer the member for Tatton to the reply given by my hon. Friend, the Financial Secretary to HM Treasury (Mr. Timms), on Monday 21 February 2005, *Official Report*, column. 75W.

EDUCATION AND SKILLS

Pupil Referral Units

Mr. Willis: To ask the Secretary of State for Education and Skills (1) what the average number of pupils in a pupil referral unit was in *(a)* England, *(b)* each region and *(c)* each local education authority in the last year for which figures are available; [216865]

(2) how many places were *(a)* filled and *(b)* available in pupil referral units in (i) England, (ii) each region and (iii) each local education authority on the latest date for which figures are available. [216867]

Derek Twigg: Information on the number of pupils in Pupil Referral Units is shown in the following table.

Information on the number of places available in Pupil Referral Units is not collected centrally.

Pupil referral units: number of pupils January 2004—by local education authority area

	Number of pupils

Pupil:Teacher Ratios (York)

Hugh Bayley: To ask the Secretary of State for Education and Skills what the average pupil-to-teacher ratio in *(a)* primary and *(b)* secondary schools in York was in each year since 1996–97. [217624]

Mr. Stephen Twigg: The following table provides pupil and staff information for maintained primary and secondary schools in the City of York constituency in each January from 1997 to 2004, the latest information available.

	Maintained primary schools[1]		*Maintained secondary schools*[1]	
	Pupil:teacher ratio[2]	*Pupil:adult ratio*[3]	*Pupil:teacher ratio*[2]	*Pupil:adult ratio*[3]
2004	21.8	14.4	16.0	12.3
2003	21.6	14.9	15.9	13.0
2002	21.7	15.3	16.1	13.1
2001	22.8	17.0	16.7	14.3
2000	22.9	18.0	16.5	14.4
1999	23.1	18.5	16.5	14.9
1998	24.4	19.8	16.2	14.3
1997	23.8	20.2	16.1	14.4

[1] Includes middle schools as deemed.
[2] Based on the full-time equivalent of qualified teachers.
[3] Based on the full-time equivalent of all teaching and support staff (excluding administration and clerical staff).

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Climate Change

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs what steps her Department is taking to *(a)* encourage environmental protection and *(b)* reduce the UK's contribution to climate change. [216796]

Mr. Morley *[holding answer 21 February 2005]:* Defra's five year strategy, "Delivering the Essentials of Life" was published in December 2004 and sets out the Department's approach to environmental protection and sustainable development.

The UK remains on course to achieve its Kyoto target to reduce greenhouse gas emissions by 12.5 per cent. below base year levels by 2008–12.

The Government recognises that measures in addition to those contained in the UK Climate Change Programme published in 2000 will be needed to achieve the domestic goal of a 20 per cent. reduction in carbon dioxide emissions below 1990 levels by 2010.

The current review of the UK Climate Change Programme will give the opportunity for the Government to look carefully at whether to introduce new policies and measures, and/or strengthen existing ones. The review will also consider the action that the UK will need to take to ensure it is on course to make "real progress by 2020" towards the ambitious longer-term goal of reducing carbon dioxide emissions by some 60 per cent. below 1990 levels by 2050, as set out in the Energy White Paper (2003).

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs how much was raised by the climate change levy in the last year for which figures are available; and how this income was spent. [217070]

John Healey *[holding answer 21 February 2005]:* I have been asked to reply.

I refer the hon. Member to the Climate Change Levy Bulletin for November 2004 published by HM Customs and Excise which is available at www.uktradeinfo.com/index.cfm?task=climate.

Environmental Protection

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs what steps her Department is taking in the West Midlands to protect the environment. [216797]

Mr. Morley *[holding answer 21 February 2005]:* A wide range of regional activities on the environment are co-ordinated and prioritised through the West Midlands Regional Assembly's Regional Environmental Partnership, to which many of Defra's agencies actively contribute. Although only formed recently, it is currently considering a number of sectors, including waste, energy, biodiversity, urban design, Water Framework Directive, area-based approaches, etc. This group also contributes to the implementation and review of the Regional Spatial Strategy.

The work of individual agencies is very varied, but includes the following:

Environment Agency

The priorities of the Environment Agency are set out in its corporate strategy, entitled "Making it happen". They are as follows:

An enhanced environment for wildlife
Cleaner air for everyone
Improved and protected inland and coastal waters
Restored, protected land with healthier soils
A "greener" business world
Wiser, sustainable use of natural resources
Limiting and adapting to climate change
Reducing flood risk

English Nature

(i) Sites of Special Scientific Interest (SSSI): There are 439 SSSI in the West Midlands region and currently 65 per cent. are either in favourable or recovering management condition. Only around 5 per cent. have been classified as declining in management condition. In some cases improvements in management condition are secured by English Nature through management agreements under its Wildlife Enhancement Scheme and in others by the Rural Development Service through agri-environment schemes. On other sites improved management has been achieved with support from the Heritage Lottery fund, for example at Cannock Chase and Sutton Park under the Tomorrow's Heathland Heritage initiative.

One major outstanding issue which relates to the condition of river and other wetland SSSIs is diffuse pollution, invariably from agricultural sources. Under the Modernising Rural Delivery Programme a specific pilot scheme is now underway to tackle diffuse pollution issues on the river Teme through collaborative working among both relevant agencies including the Integrated Agency confederation and the Environment Agency together with local individuals and groups.

(ii) Biodiversity: The Government is supporting the co-ordination the of six Local Biodiversity Action Plan (LBAP) Partnerships operating in the West Midlands and the delivery of specific nature conservation actions for a selection of each area's most threatened habitats and species. This ranges from restoration of lowland heathland in Staffordshire and Worcestershire to the survival of water voles in Birmingham and Herefordshire. The region's Biodiversity Strategy (to be launched March 2005), and the associated regional biodiversity audit and regional habitats targets work, has derived from strong Government engagement with and facilitation of partnership outputs. The ODPM's Regional Planning Guidance (June 2004) incorporates policy intent to achieve effective protection and measurable gains in the conservation status of 23 priority habitats by 2010.

England Rural Development Programme (ERDP)

The Rural Development Service, through its West Midlands offices, operates a range of agri-environment schemes as part of the ERDP. Expenditure under these in 2003–04 was as follows:

	£000
Countryside Stewardship Scheme	5,878
Environmentally Sensitive Areas	3,491
Organic Farming Scheme	1,330

The new Environmental Stewardship scheme will shortly be introduced, and will replace the above schemes. It will address these issues:

biodiversity

maintenance, enhancement and protection of landscape quality and character

protection of the historic environment

natural resource protection

promotion of public access (HLS only)

genetic conservation

flood protection

Protected landscapes

There are five Areas of Outstanding Natural Beauty wholly or partly within the region:

Cannock Chase

Cotswold Hills (part)

Malvern Hills

Shropshire Hills

Wye Valley (part).

The Peak District National Park lies partly within the West Midlands but is administered from the East Midlands.

These organisations co-ordinate their activity through the West Midlands Protected Landscape Forum, led by the Countryside Agency.

Forestry Commission

The Forestry Commission recently led a partnership to produce a Regional Forestry Framework. An action plan for the region is currently being developed.

EU Committees

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Committee for the adaptation to scientific and technical progress of the Directive on water intended for human consumption met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [216258]

Mr. Morley: The Committee did not meet between 1 July 2003 and 31 December 2004.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the (i) Committee for the adaptation to technical progress of the Directive on bathing water, (ii) Committee for the adaptation to technical progress of the Directive on the quality of fresh water needing protection or improvement in order to support fish life and (iii) Committee for the adaptation to technical progress of the Decision establishing a common procedure for the exchange of information on the quality of surface fresh water in the Community met; when and where each meeting took place; what UK Government expert was present at each meeting; and if she will make a statement. [216719]

Mr. Morley: None of these Committees met during these three presidencies.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch Presidency of the EU the Committee for the adaptation to scientific and technical progress of the Directive on protection of water against pollution caused by nitrates from agricultural sources met; when and where these meetings took place; which UK Government expert was present; and if she will make a statement. [217242]

Mr. Morley: The information requested is as follows:

Italian Presidency—July to December 2003

The Committee met on 7 November 2003 when three delegates from the UK attended.

Irish Presidency—January to June 2004

The Committee met on 23rd June 2004 when four delegates from the UK attended.

Dutch Presidency—July to December 2004

The Committee met on 2 December 2004 when four delegates from the UK attended.

All the meetings were held in Brussels.

The meetings present opportunities for the UK to discuss and promote a UK perspective on aspects of implementation of the Directive, for example, promotion of current UK scientific knowledge and thinking.

A series of Command Papers on developments in the EU—Cm6174 laid in April 2004, Cm6310 laid in September 2004 and Cm6450 laid in February 2005,

cover the periods of the above presidencies and are available on the FCO website at: www.fco.gov.uk/commandpapers.

European Emissions Trading Scheme

Mr. Yeo: To ask the Secretary of State for Environment, Food and Rural Affairs when she expects that the European Commission will accept the revised UK National Allocation Plan in order to allow British business to participate in the European emissions trading scheme. [217212]

Margaret Beckett: We recognise that UK operators wish to begin full participation in the EU Emissions Trading Scheme as soon as possible. The Government are continuing their dialogue with the Commission with a view to finding a solution which addresses the concerns of both sides and which will enable allocation as soon as possible.

The monitoring and reporting aspects of the scheme commenced on 1 January 2005. UK operators are already able to participate in the forward market. The Government have published the provisional list of installation-level allowances in order to give industry as much certainty as possible about how many allowances they will receive. However, we recognise that operators can only begin trading on the spot market after allowances have actually been issued.

Mr. Yeo: To ask the Secretary of State for Environment, Food and Rural Affairs if she will publish the most recent communication from the European Commission on the status of the revised UK National Allocation Plan. [217213]

Margaret Beckett: Discussions with the European Commission on the proposed amendments to the UK National Allocation Plan for phase 1 of the EU Emissions Trading Scheme (2005–07) are still continuing, with a view to finding a solution which addresses the concerns of both sides as soon as possible.

TRANSPORT

A39

Mr. Liddell-Grainger: To ask the Secretary of State for Transport how many people have been *(a)* killed and *(b)* seriously injured on the A39 in each of the last five years. [217406]

Mr. Jamieson: The information requested is shown in the following table.

Fatal and seriously injured casualties on the A39: 1999–2003

	Casualties	
	Killed	*Serious*
1999	6	52
2000	8	59
2001	5	46
2002	11	62
2003	7	53

Mr. Liddell-Grainger: To ask the Secretary of State for Transport what assessment he has made of the level of congestion on the A39 in Bridgwater. [217407]

Mr. Jamieson: The A39 through Bridgwater is not part of the Trunk Road network, and consequently my Department has not undertaken an assessment of the level of congestion in Bridgwater.

The road in question is the responsibility of Somerset county council, the local highway authority. It is understood that journey speeds on the A39 in Bridgwater have been monitored twice, in 2001 and 2004. The results showed a 7 per cent. and 11 per cent. decrease in peak and off-peak speeds respectively. However, partly as a result of the completion in January 2003 of the Bridgwater Northern Relief Road, these decreases were considerably lower than on other routes in the town.

Leigh Guided Busway

Andy Burnham: To ask the Secretary of State for Transport when he expects to make an announcement with regard to the outstanding planning issues related to the Leigh Guided Busway. [217060]

Mr. Jamieson: My Department has just finished exchanging written representations between Greater Manchester Passenger Transport Executive (GMPTE) and interested parties on the extensive additional environmental information provided by the GMPTE last October. GMPTE have also recently provided clarification of some detailed drafting points on their proposed Transport and Works Act Order. We have concluded in the light of all this further information that it is not necessary to re-open the earlier public inquiry into this scheme. We are now considering the substantial amount of new information that has been submitted since the inquiry, in the light of the earlier Inspector's report, and intend to decide this application as soon as we reasonably can.

Hugh Bayley: To ask the Secretary of State for Transport how much City of York Council has received in *(a)* block grant and *(b)* specific grants for transport purposes in each year since it became a unitary authority; and if he will make a statement on investment in public transport in York. [217622]

Charlotte Atkins: The Department has approved nearly £34 million of block grant to City of York council for transport capital between April 1996 and March 2005. Of this £34 million, £7.724 million was for maintenance and £26.151 million for integrated transport improvements. Also £3.239 million was provided for the B1228 Peasholme Bridge scheme, along with a further £1.06 million in targeted bus grants. The annual amounts of funding are listed in the following table.

The investment in public transport made in York has contributed towards a substantial increase in bus patronage—up by nearly a quarter in three years—and the development of a high quality set of park and ride services. The Department designated the council as a

centre of excellence for transport planning (specifically for cycling and park and ride) back in 2001. It has recently invited the council to apply to be a centre of excellence for local transport delivery. This recognises the council's proven track record in delivering transport improvements on the ground.

£ million

City of York Nature of Funding	1996–97	1997–98	1998–99	1999–2000	2000–01

M60

Andrew Bennett: To ask the Secretary of State for Transport what progress has been made in discovering the reasons for flooding on the M60 between Denton and Hollingwood, Oldham. [216516]

Mr. Jamieson: The surface water problems that occur at specific areas on the M60 result from a combination of wide carriageways and the road alignment and crossfall. These cause rainwater to have a long and slow path off the carriageway to the drains, resulting in the formation of a continuous water film on the road surface in heavy rain.

The design of the motorway complied with the Highways Agency's standards current at the time of its design. Changes in drainage design guidance to deal with wide carriageways were subsequently issued by the Agency in 1999.

Remedial overnight works to reduce surface water on the section of the motorway between Junction 24 at Denton and the Medlock River, south of Junction 22, are planned for spring/summer 2005. Further assessment is being carried out on the section between the Medlock River and Junction 19, following which the necessary remedial works will be undertaken.

Meridian Trains

Mrs. Ellman: To ask the Secretary of State for Transport what discussions he has held concerning the future use of the Meridian trains built for Midland Mainline which have now been declared surplus to requirements. [217114]

Mr. McNulty *[holding answer 21 February 2005]:* I understand that sixteen four-car Meridian trains have been successfully introduced into service on Midland Mainline and will continue to operate throughout the life of the franchise. There are also seven nine-car Meridians which are not yet in service. Discussions about them continue between the owning Rolling Stock Company and Midland Mainline. Careful consideration will be given to any proposal for their possible future use.

Parking

Mr. George Osborne: To ask the Secretary of State for Transport how much has been spent on *(a)* provision of parking spaces for civil servants and *(b)* parking tickets and penalties incurred by civil servants in the Department and its predecessors in each year since 1997. [213838]

Charlotte Atkins: The Department for Transport was formed in May 2002.

The cost of providing parking for DfT civil servants in the Department's agencies in 2002–03 was £86,291 and in 2003–04 was £92,733. These costs represent the cost of any additional parking provided for staff over any spaces that may be provided as part of the lease of a building where identifying these figures would involve disproportionate cost. DfT Central did not incur any expenditure on providing parking spaces in either year.

It is departmental policy that staff are personally responsible for meeting the costs of parking tickets or penalties and these details would not be separately recorded.

Sickness Absence

Mr. Hammond: To ask the Secretary of State for Transport what initiatives his Department is taking to reduce the numbers of sick days taken by staff in the Department. [216641]

Charlotte Atkins: The Department and its Agencies are committed to managing sickness absence effectively and are taking action on the recommendations made in the "Managing Sickness Absence in the Public Sector" report published in November 2004.

Initiatives that are being pursued include more robust recording and monitoring of absence levels and reasons for absence, better provision of management information and training for managers, earlier involvement of occupational health advisers and a review of current policies and procedures.

TREASURY

Council Tax (Chorley)

Mr. Lindsay Hoyle: To ask the Chancellor of the Exchequer how many properties there were in each council tax band in the Chorley borough council area in 2003–04. [217601]

Dawn Primarolo: The number of dwellings in each council tax band for properties, in Chorley borough council area, at 7 April 2003 was:

Band	*Number of dwellings*
A	13,771
B	9,616
C	8,064
D	5,213
E	3,998
F	1,582
G	701
H	62

The council tax list, maintained by the listing officer of the Valuation Office Agency, is updated at regular intervals throughout the financial year. At 7 April 2004, the number of properties in each band were:

Band	*Number of dwellings*
A	13,806
B	9,652
C	8,213
D	5,370
E	4,124
F	1,623
G	715
H	62

Departmental Policies (Huddersfield)

Mr. Sheerman: To ask the Chancellor of the Exchequer if he will make a statement, using statistical information relating as directly as possible to Huddersfield constituency, on the effects on Huddersfield of the working and child tax credits; and what the average change in level of income has been for those receiving the credits in Huddersfield since their introduction. [217460]

Dawn Primarolo: Information on the total number of families that benefit from tax credits is only available for the United Kingdom as a whole. This information can be found in "Child and Working Tax Credit Statistics".

Information on the number of in-work families receiving tax credits in each constituency appear in "Child and Working Tax Credits. Geographical analyses".

Both these publications can be found on the Inland Revenue website at www.inlandrevenue.gov.uk/stats/personal-tax-credits/menu.htm. The estimates are based on a sample of cases and are subject to sampling uncertainty.

Information on the average change in income for those families that receive tax credits is not available.

EU Committees

Angus Robertson: To ask the Chancellor of the Exchequer (1) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Customs Section of the Joint Committee (EEC-Switzerland-Liechtenstein) met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement; [217923]

(2) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Customs Co-operation Sub-committee EEC-Canada met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [217925]

Dawn Primarolo: The committees are the responsibility of the European Commission. Member states are not involved.

Mobile Phones (Tax Benefits)

Dr. Stoate: To ask the Chancellor of the Exchequer what discussions his Department has held with the Department of Health regarding the potential health implications of tax and national insurance benefits available to employers who supply mobile phone and associated contracts to employees and their families. [217705]

Dawn Primarolo: The Treasury and the Department of Health have regular and on-going discussions on a wide variety of topics.

Stamp Duty

Dr. Cable: To ask the Chancellor of the Exchequer what estimate he has made of the cost for 2005–06 of stamp duty relief in designated disadvantaged wards. [217483]

Dawn Primarolo: The latest estimate of the amount of disadvantaged area relief forecast to be given in 2004–05 is published at http://www.inlandrevenue.gov.uk/stats/tax_expenditures/table1–5.pdf.

This estimate will be updated in the Budget 2005 report. An initial forecast for 2005–06 will be published at PBR in the autumn.

Tax Credit (Overpayment)

Mr. Frank Field: To ask the Chancellor of the Exchequer in how many cases of tax credit overpayments the Inland Revenue has decided in accordance with page 9 of the Code of Practice 26, "What happens if we have paid you too much tax credit?" not to collect *(a)* all and *(b)* part of the overpayment to avoid causing hardship in (i) 2003–04 and (ii) 2004–05. [215780]

Dawn Primarolo *[holding answer 10 February 2005]:* None. However, there are a number of measures to protect against hardship being caused by the recovery of an overpayment.

DEPUTY PRIME MINISTER

Business Improvement Districts

Mrs. Spelman: To ask the Deputy Prime Minister what the maximum increase in business rates allowed in a Business Improvement District is. [216297]

Mr. Raynsford: There is no statutory upper limit on the size of the BID levy. It is for those developing BID proposals to agree the amount payable with those liable to pay the BID levy within a BID area. The legislation provides for all those liable to contribute towards BID schemes to be able to vote on BID proposals and they will be able to judge for themselves whether or not the proposal and its financial implications offers value for money.

Departmental Policies (Warrington, South)

Helen Southworth: To ask the Deputy Prime Minister if he will set out, with statistical information relating as directly as possible to Warrington south constituency, the effects on Warrington South of his Department's policies and actions since it was established. [213762]

Yvette Cooper: Along with other Government Departments, the Office of the Deputy Prime Minister is committed to improving the lives of people across the whole of the United Kingdom. For example, the Office of the Deputy Prime Minister is determined that everyone should have the opportunity to have a decent home, and since 1997 we have reduced the number of non-decent homes nationally by one million.

Warrington borough council was awarded a place on Round 3 of the Arms Length Management Organisation (ALMO) programme in July 2003, with initial funding of £18.3 million for 2004–05 and 2005–06, to help improve council stock to the decent homes standard. In November 2004 the Arms Length Management Organisation, Golden Gates Housing, qualified to access this funding by achieving a two star (good) rating from the Housing Inspectorate.

Since April 2003, the Office of the Deputy Prime Minister has also provided £16 million of Supporting People grant to Warrington metropolitan borough council, to enable it to deliver housing related support services to vulnerable people in the area. Currently this provides over 3900 dwellings of support to a range of people-including homeless families, older people, people with learning disabilities and young people at risk.

More broadly, since May 2002 (when the Office of the Deputy Prime Minister was established) we have been able to increase the total amount of Government grant given to local authorities by £11.1 billion. This is a 22 per cent. increase in real terms. Warrington has received average annual increases in formula grant of 6.5 per cent.

The Neighbourhood Statistics Service provides a wide range of statistical information at parliamentary constituency level, taken from the 2001 census and other sources. This service is available on the National Statistics website at http://neighbourhood.statistics.gov.uk/.

EU Grants

Mr. Hancock: To ask the Deputy Prime Minister what procedures are in place in his Department to ensure that EU regional development grants are used in accordance with European Commission rules. [217279]

Yvette Cooper: European Structural Funds programmes are required to operate in accordance with European Commission Regulations. As Managing Authority for European Regional Development Fund programmes in England, the Office of the Deputy Prime Minister operates a management and control system which the Commission has agreed fully meets its regulatory requirements.

Mr. Hancock: To ask the Deputy Prime Minister what recent representations he has received on mismanagement of EU regional development grants; and if he will make a statement. [217394]

Yvette Cooper: The Office of the Deputy Prime Minister is not aware that there have been representations on any specific cases in relation to mismanagement of the European Regional Development Fund within England, for which the Office of the Deputy Prime Minister is the Managing Authority. If the hon. Member has a particular concern perhaps he will write to me.

Fire Service

Mr. Hammond: To ask the Deputy Prime Minister what representations he has received from fire and rescue service regional management boards regarding regional control rooms; and what proportion of such representations has indicated support for the project. [216613]

Mr. Raynsford: All the Chairs of fire and rescue service regional management boards (RMBs) wrote last year to express support for the FiReControl project, in some cases subject to reassurance on financial issues. All the RMBs have commented on the Outline Business Case and responded to the recent consultation paper on FiReControl finance and governance. The Office of the Deputy Prime Minister is considering those comments and will publish the response shortly. The South West RMB has also requested an independent inquiry into the provision of a regional control centre for the South West, which has been refused.

Homes for All Initiative

Mr. Hayes: To ask the Deputy Prime Minister what the estimated market value is of the public sector land holdings identified by him for the construction of housing under the Homes for All initiative. [217335]

Keith Hill: It is too early to estimate the market value of the public sector land holdings since negotiations are still in progress about the size and scope of the various

land holdings which will be used as one of the delivery mechanisms for the creation of further sustainable communities as set out in our Homes for All document.

Mr. Hayes: To ask the Deputy Prime Minister what assessment he has made of the impact on house prices of withdrawing previously identified surplus land sites from open market sale for use in the Homes for All initiative. [217336]

Keith Hill: Surplus land is not being withdrawn from sale. The Office of the Deputy Prime Minister's recently published Five Year strategy "Homes for All" makes it clear that much of the surplus public sector land will be used for housing development and to tackle housing shortages including the provision of affordable and key worker homes.

There are effective arrangements in place to continue to dispose of surplus sites for housing and other uses. The Office of the Deputy Prime Minister recognises that not all sites will be suitable for housing development.

English Partnerships will handle a proportion of the public sector sites. Where residential development is proposed they will ensure that the land is sold in the open market with a planning framework which will deliver the balance of market and affordable homes that meets Government the local planning requirements. That means ensuring higher design and quality standards are being delivered alongside higher housing numbers bringing a mixture of tenure and prices to the market. This will be delivered through private sector developers.

Mr. Hayes: To ask the Deputy Prime Minister whether developments of housing constructed on public sector land under the Homes for All initiative will be exempt from the requirements of existing local plans *(a)* to provide social rented housing and *(b)* to provide financial contributions for off-site infrastructure re-enforcement. [217337]

Keith Hill: Housing development constructed on public sector land under the Homes for All initiative will not be exempt from local plan requirements for social rented housing or financial contributions for off-site infrastructure works.

Housing Assistance (South Lancashire)

Mr. Hoyle: To ask the Deputy Prime Minister if he will give financial assistance towards additional rented housing in South Lancashire. [216558]

Keith Hill: The North West Regional Housing Board is currently consulting on priorities for housing investment throughout the North West, for the next Regional Housing Strategy. This will influence decisions on spending on affordable housing in South Lancashire.

Local Government

Mr. Hoyle: To ask the Deputy Prime Minister when he last met trade union representatives to discuss proposed changes to the Local Government Pension Scheme. [214395]

Phil Hope: My right hon. Friend the Deputy Prime Minister and I have had a number of meetings with the trades unions and others to discuss the amendments to the Local Government Pension Scheme (Amendments) (No.2) Regulations 2004 due to come into force on 1 April. The last occasion was on 17 February 2005 with senior representatives from UNISON, the T&G, the GMB, UCATT and AMICUS, along with representatives of the Local Government Association and the Employers' Organisation.

In addition, officials in the Office of the Deputy Prime Minister have had, and continue to have, regular contact in person and via correspondence with the trades unions, local authority representatives and other key Local Government Pension Scheme stakeholders.

TRADE AND INDUSTRY

Correspondence

Mr. Bill O'Brien: To ask the Secretary of State for Trade and Industry when she will reply to the letters from the hon. Member for Normanton of 8 November 2004 and 17 December 2004. [216133]

Mr. Sutcliffe: Response was sent out at the beginning of the week commencing 14 February. Due to an administrative error this case was not responded to earlier.

European Constitution

Mr. Davidson: To ask the Secretary of State for Trade and Industry whether the Government sought legal advice regarding the impact of the Charter of Fundamental Rights within the EU Constitution on industrial relations law in the UK. [214352]

Mr. Sutcliffe: It would not be appropriate for me to comment on whether legal advice has or has not been sought by the Government with regard to the Charter of Fundamental Rights within the EU Constitution on UK industrial relations law. This is a position that is covered by the Exemption contained in Section 35 *(1) (a)* of the Freedom of Information Act.

Fireworks

Iain Wright: To ask the Secretary of State for Trade and Industry what assessment she has made of the impact of the Fireworks Act 2003 on the number of firework-related accidents in Hartlepool [213289]

Mr. Sutcliffe: The fireworks injury statistics for the 2004 period are as yet not available. My Department expects to be in a position to publish the figures in early March 2005.

With regard to the number of injuries sustained by the use of fireworks in Hartlepool, it should be noted that the figures collected are not broken down by parliamentary constituency, but rather in terms of UK region and NHS Trust.

Manufacturing Advisory Service

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what the rate of referrals of

businesses from Business Links to the Manufacturing Advisory Service was in 2003–04, broken down by region. [217180]

Jacqui Smith: Based on figures provided by INBIS Ltd., MAS National Network Managers, the rate of referrals of businesses from Business Links to the Manufacturing Advisory Service (MAS) from 1 January 2003 to 31 December 2004 are as follows:

Region	*Number*
East	18
East Midlands	123
London	80
North-east	182
North-east	292
South-east	378
South-west	68
West Midlands	273
Yorkshire and the Humber	117
Total	1,531

Note that the structure of business support in Wales is significantly different from that in England and that as a result the statistics for Wales are not comparable. We have therefore not included Wales in these statistics.

As indicated above these figures have been provided to us by INBIS Ltd. Although some of the regions have not kept statistics on the rate of referrals from Business Links to MAS for the whole of the period indicated they do provide a good representation of the rate of referrals for each of the regions.

Manufacturing Investment

Mr. Jim Cunningham: To ask the Secretary of State for Trade and Industry what strategy her Department is using to promote an increase in manufacturing investment. [216242]

Jacqui Smith *[holding answer 21 February 2005]:* Encouraging high value added investment is a priority in the Government's manufacturing strategy action plan. We are seeking to achieve this through a range of measures including; tax incentives such as enhanced capital allowances and R and D tax credits; and business support schemes such as the Grant for Research and Development and Selective Finance for Investment. We are also putting £320 million into the Technology Strategy Programme which supports collaborative R and D and technology transfer and have established the Manufacturing Advisory Service which has provided manufacturing businesses with £108 million of added value and is showing companies the value of investing in lean manufacturing best practice.

More fundamentally we are seeking to maintain the stable macroeconomic environment we have achieved in recent years and within which business can invest with confidence in new products, processes and skills.

Minimum Wage

Tom Cox: To ask the Secretary of State for Trade and Industry what checks are made on the payment of the minimum wage within the Greater London area to ensure that the proper rates are paid. [209257]

Mr. Sutcliffe: The Inland Revenue, who enforce the minimum wage on behalf of the DTI, respond to all complaints about underpaying of the minimum wage.

The Revenue also make use of their own data to make proactive visits on employers throughout the UK to check whether they are paying their workers the minimum wage.

Dr. Kumar: To ask the Secretary of State for Trade and Industry what plans she has to review the penalties imposed on companies found paying their employees below the minimum wage. [215883]

Mr. Sutcliffe: Since the minimum wage was introduced in April 1999 the Inland Revenue have imposed 133 penalty notices on employers who they found were not paying their workers the minimum wage.

A penalty notice imposes a financial payment equal to twice the hourly amount of the adult minimum wage per worker for each day of continuing non-payment of the minimum wage.

The Government keeps their enforcement strategy under regular review.

Nuclear Power

Llew Smith: To ask the Secretary of State for Trade and Industry if she will list the papers on nuclear power which officials of her Department prepared as part of the contribution to the Energy White Paper 2003; and if she will place copies in the Library. [199660]

Mr. Mike O'Brien: The following papers on keeping the nuclear option open (KNOO) were prepared for the DTIs Energy Advisory Panel and contributed to the work on the Energy White Paper:

KNOO Scoping Paper (EAP 11.06.02-P3)

KNOO Summary Paper (EAP 01.10.02-P3)

KNOO Miniprojects

These papers are now over two years old and some of the information that they contain will be out of date. Nevertheless it is hoped that their release will contribute to the continuing debate on nuclear power as a future energy source in the UK. Copies have been placed in the Libraries of the House.

In addition, the long-term costs of nuclear power were covered in the work commissioned by DTI on options for a low carbon economy. The resulting paper "DTI Economics Paper No. 4: Options for a Low Carbon Future—Phase 2" can be viewed on the DTI website at http://www.dti.gov.uk/energy/whitepaper/phase2.pdf

Plumbing Industry (Black Country)

Ross Cranston: To ask the Secretary of State for Trade and Industry what evidence she has collated on availability of JIB-PMES assessors related to the Construction Skills Certification Scheme within the plumbing industry in the Black Country; and if she will make a statement. [216032]

Jacqui Smith: I would like to confirm that it is not the responsibility of my Department to collate this information.

The Construction Skills Certification Scheme is owned and managed by Construction Skills Certification Scheme Ltd., representing construction employers, trade unions and clients. The Government has no responsibility for this scheme and its decision-making.

SOLICITOR-GENERAL

Northern Ireland (Collusion Investigation)

Mr. McNamara: To ask the Solicitor-General on what date the Director of Public Prosecutions received papers prepared by Sir John Stevens arising from her investigation into collusion between Crown forces and loyalist paramilitaries; what further action was recommended; and what action has been taken in respect of prosecutions of these cases. [215699]

The Solicitor-General: There have to date been three investigations by Sir John Stevens into allegations of collusion, the most recent investigation having commenced in 1999.

The Director of Public Prosecutions is currently considering the product of the Stevens III investigation in two distinct but linked parts.

In respect of the first part, an investigation file was received by the DPP on 23 April 2002. Police inquiries were not complete at that stage and further information and investigations were requested by the DPP. Police recommendations as to prosecution were received by the DPP in June 2004. The advices of Senior Counsel were sought at an early stage and were obtained in March 2004.

In respect of the second part of the investigation files containing over 12,500 pages were received by the DPP in April 2003. Further information and investigations were required by the DPP and a final report was received on 27 April 2004. Police recommendations as to prosecution were received in November 2004. The advices of Senior Counsel were sought at an early stage and were obtained in December 2004.

The issues arising for consideration are complex and detailed and involved an examination of a substantial volume of documentation produced during the Stevens I and II investigations.

Final consideration is now being given to both parts of the investigation.

HOUSE OF COMMONS COMMISSION

Cleaners

Simon Hughes: To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission how many cleaners there are in *(a)* those parts of the Palace of Westminster for which the House is responsible, *(b)* Portcullis House, *(c)* 1 Parliament Street, *(d)* Norman Shaw North and *(e)* Norman Shaw South; how many of these are (i) full-time and (ii) part-time; and if he will make a statement. [216400]

Sir Archy Kirkwood: Cleaners are employed in the House of Commons under contract to the Refreshment Department and the Department of the Serjeant at Arms. In addition the Department of the Serjeant at Arms and the Library employ cleaners who are staff of the House. The numbers are as follows:

	Contracted staff		*Directly employed staff*
Building	*Part-time*	*Full-time*	*Part-time*
Palace of Westminster	36	36	20
Portcullis House	12	11	13
1 Parliament Street	5	5	4
Norman Shaw North	7	1	7
Norman Shaw South	8	—	4
Total	68	53	48

In addition there are three full-time contracted staff and seven part-time directly employed staff whose duties are carried out in a number of House of Commons buildings. It would not be meaningful to attempt to attribute them to any specific area.

The number of contracted cleaners given as employed in the Palace of Westminster covers those whose duties involve cleaning House of Commons areas only, since some cleaning in the House of Lords is carried out under the same contract.

I refer the hon. Gentleman to my answer of 2 February 2005, *Official Report*, columns 910–11W, on the terms of employment of contracted cleaners. I understand that the discussions referred to in that answer on pay rates and other terms and conditions of employment are continuing. The parliamentary authorities are keeping in close touch with developments. I hope that a solution acceptable to all those involved can be reached.

I would also like to emphasise that the current discussions do not in any way involve those cleaning staff directly employed by the House of Commons Commission.

Passes

Mr. Prisk: To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission (1) what the total cost was of *(a)* implementing and *(b)* maintaining the visitor pass system in use until December 2004 for visitors to the Palace of Westminster; [217310]

(2) what the estimated cost is of *(a)* implementation and *(b)* maintenance of the adhesive visitor pass system to be introduced from February for visitors to the Palace of Westminster. [217311]

Sir Archy Kirkwood: The cost of implementing the visitor pass system in use until December 2004 was £11,600 including VAT. Staffing and other overhead costs were negligible.

The cost of implementing the adhesive visitor pass system introduced in February 2005 is £2,740. Overheads will be negligible. The monthly maintenance cost (consumables) is estimated to be around £2,000 including VAT.

DEFENCE

A400M

Mr. Hoyle: To ask the Secretary of State for Defence how many A400M aircraft are to be ordered by the RAF; and when the first plane is expected to arrive. [216551]

Mr. Ingram: The United Kingdom Government has ordered 25 aircraft. The first aircraft delivery is expected to be 2010.

Air Crash (Board of Inquiry)

Mr. Arbuthnot: To ask the Secretary of State for Defence whether the Chief of the Air Staff, the Air Officer Commanding No. 1 Group, the Air Officer Commander in Chief, and members of the RAF Directorate of Legal Services have met to discuss the Board of Inquiry into the crash of ZD 576. [217127]

Mr. Ingram: In preparation for appearing before the House of Lords Select Committee on Chinook ZD 576 in 2001, several meetings took place at which the Chief of Air Staff, Air Marshals Wratten and Day, and the Director of Legal Services RAF were present.

Allied Rapid Reaction Corps

Mr. Soames: To ask the Secretary of State for Defence what the UK commitment to the Allied Rapid Reaction Corps (ARRC) will be when the ARRC takes over the International Security Assistance Force for Afghanistan in 2006. [216542]

Mr. Ingram *[holding answer 21 February 2005]:* The scale of the Head Quarters Allied Rapid Reaction Corporation Group when it deploys to Afghanistan in 2006 and the United Kingdom's contribution has yet to be decided.

Army Deployment

Annabelle Ewing: To ask the Secretary of State for Defence if he will set out the current location in the UK of each Army regiment; what the number of service and support personnel at each location is; and where available what the total running cost is for each site, including personnel costs. [214415]

Mr. Caplin *[holding answer 23 February 2005]:* The most recently published UK location statistics for Service Personnel are provided in the July 2002 Tri-Service Publication (TSP) number 10 which is available in the Library of the House. The number of civilian personnel broken down by Government Office Region is available in UK Defence Statistics 2004, a copy of which is also available in the Library of the House. The total running cost for each site, including personnel costs is not held centrally and can be provided only at disproportionate cost. I will write to the hon. Member with the current location of each Army regiment and place a copy of my letter in the Library of the House.

Chinook Helicopter

Mr. Arbuthnot: To ask the Secretary of State for Defence when the Chinook HC 2 helicopter was given its airworthiness review; and if he will place a copy of the review in the Library. [217284]

Mr. Ingram: No airworthiness review has been conducted in respect of the Chinook HC 2.

Colombia

Mr. Hancock: To ask the Secretary of State for Defence what recent UK military aid has been given to the 4th Division of the Colombian Army or to individual brigades and battalions of the Division; and if he will make a statement. [216113]

Mr. Ingram: We do not provide generic military assistance to Colombian Army divisions, brigades or battalions as formations. The United Kingdom assistance is provided to selected individuals in the form of military education or training, or at sub-unit level to enable capabilities such as Explosive Ordnance Disposal (EOD). Professional training provided to Colombian officers routinely incorporates human rights education. UK funded projects have provided human rights training through the Colombian military justice school, and have aimed to raise awareness of the armed forces on their role in prevention of displacement and protection of the rights of internally displaced persons.

Defence Estate (Chorley)

Mr. Hoyle: To ask the Secretary of State for Defence what land in the Chorley constituency his Department *(a)* owns and *(b)* has a right to use. [216553]

Mr. Caplin: The Ministry of Defence owns the Reserve Forces and Cadets Association at Devonshire Road, Chorley. We do not have any rights to use other land in the area.

There may be some other sites owned or used by organisations associated with MOD, but which are not recorded centrally.

Defence Export Services Organisation

Jeremy Corbyn: To ask the Secretary of State for Defence which Ministers will be attending the Defence Export Services Organisation symposium on 9 March. [216821]

Mr. Ingram: For security reasons it is not our practice to publicise in advance the forward programmes of Ministers.

Departmental Policies (Blackpool)

Mr. Gordon Marsden: To ask the Secretary of State for Defence if he will set out, with statistical information relating as closely as possible to the constituency, the effect of his Department's actions and policies on Blackpool, South constituency since *(a)* 1997 and *(b)* 2001. [215615]

Mr. Caplin: The Ministry of Defence's presence within Blackpool, South constituency currently consists of Weeton Barracks and an Army Cadet Force (ACF) centre at Parkinson Way.

Since 1997, the Talbot Road ACF in Blackpool, North has closed and one year ago the Yorkshire Street ACF in Blackpool, South was sold. As a result, Blackpool detachment ACF and Palatine ACF are now located at Parkinson Way.

On 11 June 2001 the then War Pensions Agency (WPA), located at Norcross in Blackpool, North constituency, transferred to MOD from the Department for Work and Pensions. WPA is now the Veterans Agency and employs 850 people from across Blackpool and the surrounding area.

Depleted Uranium Waste

Mr. Lazarowicz: To ask the Secretary of State for Defence whether depleted uranium waste has been deposited on the seabed of the Solway Firth as a result of use in Ministry of Defence training [215144]

Mr. Caplin: The Ministry of Defence does not use Depleted Uranium during routine training. I also refer to the answer I gave on 11 January 2005, to the hon. Member for Banff and Buchan (Mr. Salmond).

Gloucestershire Regiment

Mr. Dhanda: To ask the Secretary of State for Defence if he will make a statement on the future of the Back Badge awarded to the Gloucestershire Regiment after the Battle of Alexandria in 1801. [213465]

Mr. Ingram: A working group has been convened by the Colonel Commandant of the Light Division to address the wide range of issues, including dress and uniform, arising from the merger of the Gloucestershire element of the Royal Gloucestershire, Berkshire and Wiltshire Regiment with the Devonshire and Dorset Regiment to form a battalion in the Light Infantry. It is due to report in June 2005.

Infantry Regiments

Mr. Pike: To ask the Secretary of State for Defence (1) what plans he has for the HQ Barracks of the proposed Royal Lancashire and Border regiment; and if he will make a statement; [213323]

(2) what steps he will take to preserve the *(a)* name, *(b)* insignia and *(c)* badge of The Queen's Lancashire Regiment in the proposed Royal Lancashire and Border Regiment; and if he will make a statement. [213324]

Mr. Ingram: No decisions have been made on the future location of The King's Lancashire and Border Regimental Headquarters.

The Queen's Lancashire Regiment, in consultation with The King's Own Royal Border Regiment, and The King's Regiment, who will merge to form The King's Lancashire and Border Regiment, are in the process of determining their new common capbadge and uniform.

Iraq

Mrs. Browning: To ask the Secretary of State for Defence what the total cost has been to the UK Government of the deployment of private security companies in Iraq. [216040]

Mr. Rammell: I have been asked to reply.

The Foreign and Commonwealth Office employs two private security companies in Iraq, to provide armed protection for UK Government staff while travelling and to provide guards for the compounds of the British Embassy Offices. The cost of these contracts is approximately £50 million per annum.

Mr. Soames: To ask the Secretary of State for Defence how many battalions stationed in Northern Ireland are being asked to provide companies for operations in Iraq. [217033]
